All of the 80,000,000 Class A Common Stock sold as part of the Units in the Public Offering contain a redemption feature which allows for the redemption of such public shares in connection with the Company's liquidation, if there is a stockholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company's amended and restated certificate of incorporation. In accordance with SEC and its staff's guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. Given that the Class A Common Stock was issued with other freestanding instruments (i.e., public warrants), the initial carrying value of Class A Common Stock classified as temporary equity is the allocated proceeds based on the guidance in FASB ASC Topic 470-20, "Debt – Debt with Conversion and Other Options."

Our Class A Common Stock is subject to SEC and its staff's guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99. If it is probable that the equity instrument will become redeemable, the Company has the option to either accrete changes in the redemption value over the period from the date of issuance (or from the date that it becomes probable that the instrument will become redeemable, if later) to the earliest redemption date of the instrument or to recognize changes in the redemption value immediately as they occur and adjust the carrying amount of the instrument to equal the redemption value at the end of each reporting period. The Company has elected to recognize the changes immediately. The accretion or remeasurement is treated as a deemed dividend (i.e., a reduction to retained earnings, or in absence of retained earnings, additional paid-in capital).

As of June 30, 2021, the Class A Common Stock reflected on the balance sheet are reconciled in the following table.

The accretion of carrying value to redemption value was recognized on March 31, 2021, and there has been \$3,663,729 of additional accretion for the three months ended June 30, 2021:

	As of June 30, 2021
Gross proceeds	\$ 800,000,000
Less:	
Proceeds allocated to public warrants	\$ (14,880,000)
Class A shares issuance costs	\$ (43,925,343)
Plus:	
Accretion of carrying value to redemption value	\$ (58,805,343)
Contingently redeemable Class A Common Stock	\$ 800,000,000

4. Related Party Transactions*Founder Shares*

On February 10, 2021, the Sponsor purchased 21,562,500 Founder Shares for \$25,000, or approximately \$0.001 per share. On March 22, 2021, the Sponsor transferred 25,000 Founder Shares to each of the Company's three independent director nominees at their original purchase price. On May 9, 2021, the Sponsor forfeited 1,562,500 Founder Shares following the expiration of the unexercised portion of underwriters' over-allotment option, so that the Founder Shares held by the Initial Stockholders would represent 20.0% of the outstanding shares of common stock following completion of the Public Offering. The Founder Shares are identical to the common stock included in the Units sold in the Public Offering except that the Founder Shares will automatically convert into shares of Class A common stock at the time of the Business Combination on a one-for-one basis, subject to adjustment as described in the Company's amended and restated certificate of incorporation.

The sale of the Founders Shares is in the scope of FASB ASC Topic 718, "Compensation-Stock Compensation" ("ASC 718"). Under ASC 718, stock-based compensation associated with equity-classified awards is measured at fair value upon the grant date. The Founders Shares were granted subject to a performance condition (i.e., the occurrence of a Business Combination). Compensation expense related to the Founders Shares is recognized only when the performance condition is probable of occurrence under the applicable accounting literature in this circumstance. As of June 30, 2021, the Company determined that a Business Combination is not considered probable, and, therefore, no stock-based compensation expense has been recognized. Stock-based compensation would be recognized at the date a Business Combination is considered probable (i.e., upon consummation of a Business Combination) in an amount equal to the number of Founders Shares that ultimately vest multiplied times the grant date fair value per share (unless subsequently modified) less the amount initially received for the purchase of the Founders Shares.

Private Placement Warrants

The Sponsor has purchased from the Company an aggregate of 8,500,000 whole warrants at a price of \$2.00 per warrant (a purchase price of approximately \$17,000,000) in a private placement that occurred simultaneously with the completion of the Public Offering (the "Private Placement Warrants"). On April 22, 2021, substantially concurrently with the sale of the Over-allotment Option Units, the Company completed a private placement with the Sponsor for an additional 500,000 warrants at a price of \$2.00 per warrant (the "Additional Private Placement Warrants"), generating gross proceeds of \$1,000,000. Each Private Placement Warrant entitles the holder to purchase one share of Class A Common Stock at \$11.50 per share. A portion of the purchase price of the Private Placement Warrants was added to the proceeds from the Public Offering to be held in the Trust Account pending completion of the Business Combination.

The Private Placement Warrants have terms and provisions that are identical to those of the Warrants being sold as part of the Units in the Public Offering, except that the Private Placement Warrants may be physical (cash) or net share (cashless) settled and are not redeemable so long as they are held by our Sponsor or its permitted transferees.

If the Company does not complete a Business Combination, then the Private Placement Warrants proceeds will be part of the liquidation distribution to the public stockholders and the Private Placement Warrants will expire worthless. Consistent with the public warrants, the private warrants are accounted for as liabilities under ASC Topic 814-40, due to their terms.

Registration Rights

The holders of Founder Shares, Private Placement Warrants and Warrants issued upon the conversion of working capital loans, if any, hold registration rights (in the case of the Founder Shares, only after conversion of such shares to shares of Class A Common Stock) pursuant to a registration rights agreement entered into by the Company, the Sponsor and the other security holders named therein on March 25, 2021. These holders will be entitled to certain demand and “piggyback” registration rights. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Sponsor Loan

Prior to the completion of the Public Offering, the Sponsor loaned the Company an aggregate of \$300,000 by the issuance of an unsecured promissory note (the “Note”) issued by the Company in favor of the Sponsor to cover organization expenses and expenses related to the Public Offering. The Note was non-interest bearing and payable on the earlier of February 28, 2022 or the completion of the Public Offering. The Note was repaid upon completion of the Public Offering.

On April 20, 2021, the Sponsor made available to the Company a loan of up to \$4,000,000 pursuant to a promissory note issued by the Company to the Sponsor. The proceeds from the note will be used for on-going operational expenses and certain other expenses in connection with the Business Combination. The note is unsecured, non-interest bearing and matures on the earlier of: (i) January 31, 2022 or (ii) the date on which the Company consummates the Business Combination. As of June 30, 2021, the net amount advanced by Sponsor to the Company was \$2,000,000.

Administrative Services Agreement

The Company entered into an administrative services agreement pursuant to which it agreed to pay to an affiliate of the Sponsor \$20,000 per month for office space, utilities and secretarial support. Services commenced on March 23, 2021 (the date the securities were first listed on the Nasdaq Capital Market) and will terminate upon the earlier of the consummation by the Company of a Business Combination or the liquidation of the Company.

For the period commencing March 23, 2021 through June 30, 2021 the Company has paid the affiliate \$65,806.

5. Deferred Underwriting Compensation

As of the IPO Closing Date, the Company was committed to pay a deferred underwriting discount totaling \$26,250,000 or 3.50% of the gross offering proceeds of the Public Offering, to the underwriters upon the Company’s consummation of a Business Combination. As a result of the underwriters purchase of the Over-Allotment Option Units on April 22, 2021, the deferred underwriting discount increased to \$28,000,000. The underwriters are not entitled to any interest accrued on the Deferred Discount, and no Deferred Discount is payable to the underwriters if there is no Business Combination.

6. Income Taxes

Income tax expense during interim periods is based on applying an estimated annual effective income tax rate to year-to-date income, plus any significant unusual or infrequently occurring items which are recorded in the interim period. The Company’s effective tax rates differ from the federal statutory rate primarily due to the fair value on instruments treated as debt for GAAP and equity for tax purposes, which is not deductible for income tax purposes, for 2021.

GORES GUGGENHEIM, INC.**NOTES TO THE UNAUDITED, INTERIM FINANCIAL STATEMENTS—(Continued)**

The computation of the annual estimated effective tax rate at each interim period requires certain estimates and significant judgment including, but not limited to, the expected operating income for the year, projections of the proportion of income earned and taxed in various jurisdictions, permanent and temporary differences, and the likelihood of recovering deferred tax assets generated in the current year. The accounting estimates used to compute the provision for income taxes may change as new events occur, more experience is obtained, additional information becomes known or as the tax environment changes.

The Company has evaluated tax positions taken or expected to be taken in the course of preparing the financial statements to determine if the tax positions are “more likely than not” of being sustained by the applicable tax authority. Tax positions not deemed to meet the “more likely than not” threshold would be recorded as a tax benefit or expense in the current year. The Company has concluded that there was no impact related to uncertain tax positions on the results of its operations for the period ended June 30, 2021. As of June 30, 2021, the Company has no accrued interest or penalties related to uncertain tax positions. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company’s conclusions regarding tax positions will be subject to review and may be adjusted at a later date based on factors including, but not limited to, ongoing analyses of tax laws, regulations, and interpretations thereof.

7. Investments and Cash Held in Trust

As of June 30, 2021, investment securities in the Company’s Trust Account consist of \$800,029,249 in money market funds.

8. Fair Value Measurement

The Company complies with ASC 820 for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually. ASC 820 determines fair value to be the price that would be received to sell an asset or would be paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date.

Warrants

The Company has determined that warrants issued in connection with its initial public offering in March 2021 are subject to treatment as a liability. The Company utilizes a Monte Carlo simulation methodology to value the warrants at each reporting period, with changes in fair value recognized in the statements of operations. The estimated fair value of the warrant liability is determined using Level 1 and Level 2 inputs. The key assumptions in the option pricing model utilized are assumptions related to expected share-price volatility, expected term, risk-free interest rate and dividend yield. The expected volatility as of the IPO Closing Date and March 31, 2021 was derived from observable public warrant pricing on comparable ‘blank-check’ companies that recently went public in 2020 and 2021. At June 30, 2021, there were observable transactions in the Company’s public warrants and correspondingly an implied volatility. The risk-free interest rate is based on the interpolated U.S. Constant Maturity Treasury yield. The expected term of the warrants is assumed to be six months until the close of a Business Combination, and the contractual five year term subsequently. The dividend rate is based on the historical rate, which the Company anticipates to remain at zero. At June 30, 2021, the Public Warrants had adequate trading volume to provide a reliable indication of value. The Public Warrants were valued at \$1.37 at June 30, 2021. The fair value of the Private Placement Warrants was deemed to be equal to the fair value of the Public Warrants because the Private Placement Warrants have similar terms and are subject to substantially the same redemption features as the Public Warrants.

GORES GUGGENHEIM, INC.

NOTES TO THE UNAUDITED, INTERIM FINANCIAL STATEMENTS—(Continued)

The Warrants were classified as Level 2 at the respective measurement dates.

The key inputs into the option model for the Private Placement Warrants and Public Warrants were as follows for the relevant periods:

	As of	
	March 23, 2021	June 30, 2021*
Selected Volatility	15.0%	—
Risk-free interest rate	0.94%	—
Warrant exercise price	\$ 11.50	\$ 11.50
Expected term	5.5	5.5

* Volatility and risk-free rate were not utilized in computation.

Subsequent Measurement

The Warrants are measured at fair value on a recurring basis. The subsequent measurement of the Public and Private Warrants as of June 30, 2021, is classified as Level 2 due to the use of both observable inputs in an active market as well as quoted prices in active markets for similar assets and liabilities.

As of June 30, 2021, the aggregate values of the Private Placement Warrants and Public Warrants were \$12.3 million and \$21.9 million, respectively, based on the closing price of GGPIW on that date of \$1.37.

As of March 23, 2021, the aggregate values of the Private Placement Warrants and Public Warrants were \$7.9 million and \$14.0 million, respectively, based on the closing price of GGPIU on that date of \$10.00.

The following table presents the changes in the fair value of warrant liabilities:

	Private placement warrants	Public warrants	Total warrant liabilities
Fair value at March 23, 2021	7,905,000	13,950,000	21,855,000
Issuance of additional warrants	465,000	930,000	1,395,000
Change in fair value	3,960,000	7,040,000	11,000,000
Fair value at June 30, 2021	12,330,000	21,920,000	34,250,000

The following table presents information about the Company's assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2021 and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates and yield curves. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and includes situations where there is little, if any, market activity for the asset or liability:

Description	June 30, 2021	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)

NOTES TO THE UNAUDITED, INTERIM FINANCIAL STATEMENTS

1. Organization and Business Operations

Organization and General

Gores Guggenheim, Inc. (the “Company”) was incorporated in Delaware on December 21, 2020. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar Business Combination with one or more businesses (the “Business Combination”). The Company has not engaged in any operations, other than to identify and consummate a Business Combination, and has not generated any operating revenue to date. The Company’s management has broad discretion with respect to the Business Combination. The Company’s sponsor is Gores Guggenheim Sponsor, LLC, a Delaware limited liability company (the “Sponsor”). The Company has selected December 31st as its fiscal year-end.

The Company completed the Public Offering on March 25, 2021 (the “IPO Closing Date”). The Company will not generate any operating revenues until after the completion of its Business Combination, at the earliest. Subsequent to the Public Offering, the Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Public Offering and the sale of the Private Placement Warrants (as defined below) held in the Trust Account (as defined below).

Proposed Business Combination

On September 27, 2021, Gores Guggenheim, Inc. (the “Company”) entered into a Business Combination Agreement (the “Business Combination Agreement”), by and among the Company, Polestar Automotive Holding Limited, a Hong Kong incorporated company (“Parent”), Polestar Automotive (Singapore) Pte. Ltd., a private company limited by shares in Singapore (“Polestar Singapore”), Polestar Holding AB, a private limited liability company incorporated under the laws of Sweden (“Polestar Sweden”), Polestar Automotive Holding UK Limited, a limited company incorporated under the laws of England and Wales and a direct wholly owned subsidiary of Parent (“ListCo”), and PAH UK Merger Sub Inc., a Delaware corporation and a direct wholly owned subsidiary of ListCo (“Merger Sub”).

The transactions contemplated by the Business Combination Agreement, including the Merger (as defined below), and the other transactions contemplated by the other transaction documents contemplated by the Business Combination Agreement (collectively, the “Transactions”) will constitute a “Business Combination” as contemplated by the Company’s Amended and Restated Certificate of Incorporation. The Business Combination and the transactions contemplated thereby were unanimously approved by the board of directors of the Company on September 25, 2021.

The Business Combination Agreement

Pre-Closing Reorganization

In connection with the Merger, prior to the closing of the Transactions (the “Closing”), Parent will, and will cause ListCo, Polestar Singapore, Polestar Sweden and their respective subsidiaries to, complete a reorganization, pursuant to which, among other things, Polestar Singapore, Polestar Sweden and their respective subsidiaries will become, directly or indirectly, wholly owned subsidiaries of ListCo (the “Pre-Closing Reorganization”). As consideration for the Pre-Closing Reorganization, ListCo will issue to Parent a number of class A ordinary shares in the share capital of ListCo which class A ordinary shares shall entitle the holder to one vote per share (“ListCo Class A Shares”) and class B ordinary shares in the share capital of ListCo, which class B ordinary shares shall entitle the holder to ten votes per share (“ListCo Class B Shares,” and, together with the ListCo Class A Shares, the “ListCo Shares”), such that, following the Pre-Closing Reorganization, Parent will

hold an aggregate number of ListCo Shares equal to approximately (a) \$20,003,000,000 divided by \$10.00, less (b) (i) the aggregate principal amount due in respect of certain convertible notes of Parent outstanding as of immediately prior to the Closing, divided by (ii) the applicable conversion price of such notes, less (c) 49,803,900, which represents the aggregate number of ListCo Preference Shares (as defined below) issued pursuant to the Volvo Cars Preference Subscription Agreement (as defined below).

As additional consideration for Parent's contribution to ListCo of all the issued and outstanding equity securities of Polestar Sweden, Parent will be entitled to receive, subject to the terms provided in the Business Combination Agreement, earn out shares from ListCo, issuable in ListCo Class A Shares and ListCo Class B Shares up to an aggregate number equal to approximately (a) 0.075 multiplied by (b) the number of issued and outstanding ListCo Shares as of immediately after the Closing (including ListCo Shares issued pursuant to the Subscription Agreements (as defined below)).

The Merger

Following the Pre-Closing Reorganization and pursuant to the Business Combination Agreement, at the Closing, Merger Sub will merge with and into the Company (the "Merger"), pursuant to which the separate corporate existence of Merger Sub will cease, with the Company being the surviving corporation and becoming a wholly owned subsidiary of ListCo.

Each share of Class A common stock of the Company, par value \$0.0001 per share ("GG Class A Shares") issued and outstanding immediately prior to the effective time of the Merger (the "Effective Time"), other than those held in treasury, will be exchanged for one newly issued American depository share of ListCo ("ListCo Class A ADS") duly and validly issued against the deposit of an underlying ListCo Class A Share deposited with a bank ("Depository Bank") in which ListCo has established and sponsored American depository receipt facilities (each, an "ADR Facility"). Each share of Class F common stock of the Company, par value \$0.0001 per share ("GG Class F Shares," and together with the GG Class A Shares, the "GG Shares") issued and outstanding immediately prior to the effective time of the Merger, other than those held in treasury, will be exchanged for one newly issued ListCo Class A ADS. All GG Shares held in treasury will be canceled and extinguished without consideration.

Any units of the Company that are outstanding immediately prior to the Effective Time held by Company stockholders will be automatically separated and the holder thereof will be deemed to hold one GG Class A Share and one-fifth (1/5) of a public warrant of the Company ("Public Warrant"), which underlying securities will be converted as described below.

In the event the Requisite GG Warrantholder Approval (as defined below) is obtained prior to the Effective Time, each Public Warrant shall be automatically cancelled and extinguished and converted into the right to receive one American depository share of ListCo ("ListCo Class C-1 ADS") duly and validly issued against the deposit of an underlying class C-1 preferred share in the share capital of ListCo ("ListCo Class C-1 Share") deposited with the Depository Bank. Each ListCo Class C-1 Share will be exercisable to acquire a ListCo Class A Share at an exercise price of \$11.50 per share. In addition, each private placement warrant of the Company ("Private Placement Warrant") will be automatically cancelled and extinguished and converted into the right to receive one American depository share of ListCo ("ListCo Class C-2 ADS") duly and validly issued against the deposit of an underlying class C-2 preferred share in the share capital of ListCo ("ListCo Class C-2 Share") deposited with the Depository Bank. Each ListCo Class C-2 Share will be exercisable to acquire a ListCo Class A Share at an exercise price of \$11.50 per share.

In the event that the Requisite GG Warrantholder Approval is not obtained prior to the Effective Time, each Public Warrant shall be automatically cancelled and extinguished and converted into the right to receive one American depository warrant of ListCo ("ListCo AD Warrant") duly and validly issued against the deposit of an underlying warrant of ListCo representing the right to acquire one ListCo Class A Share deposited with the Depository Bank and representing the right to acquire one ListCo Class A ADS (or one ListCo Class A Share if

at the time of exercise ListCo no longer uses the ADR Facility) at an exercise price of \$11.50 per ListCo Class A ADS. In addition, each Private Placement Warrant will be automatically cancelled and extinguished and converted into the right to receive one ListCo AD Warrant.

Registration Statement/Proxy Statement; Warrantholder Solicitation

In connection with the Transactions, the Company, ListCo, Polestar Singapore, Polestar Sweden and Parent will prepare, and ListCo will file with the SEC, a registration statement on Form F-4 (the "Registration Statement/Proxy Statement"), which will include a prospectus of ListCo and a proxy statement for the Company's stockholder meeting to solicit the vote of the Company stockholders to, among other things, adopt the Business Combination Agreement and approve the Transactions.

In addition, as promptly as reasonably practicable following the date of the Business Combination Agreement, the Company, ListCo, Polestar Singapore, Polestar Sweden and Parent will solicit the vote or consent of registered holders of at least 50% of the outstanding Public Warrants to amend the Warrant Agreement to permit the conversion or exchange of Public Warrants for ListCo Class C-1 ADSs and the Private Placement Warrants for ListCo Class C-2 ADSs (the "Requisite GG Warrantholder Approval").

Representations, Warranties and Covenants

The parties to the Business Combination Agreement have made representations, warranties and covenants that are customary for transactions of this nature. The representations and warranties of the respective parties to the Business Combination Agreement will not survive the Closing. The covenants of the respective parties to the Business Combination Agreement will also not survive the Closing, except for those covenants that by their terms expressly apply in whole or in part after the Closing.

Conditions to Closing

The obligations of the parties to the Business Combination Agreement to consummate the Transactions is conditioned upon (a) the expiration or termination of the applicable waiting period (and any extension thereof) under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, (b) the absence of any law or other legal restraint or prohibition issued by any court of competent jurisdiction or other governmental authority preventing the consummation of the Transactions, (c) the effectiveness under the Securities Act of 1933, as amended (the "Securities Act"), of the Registration Statement/Proxy Statement and that no stop order will have been issued by the SEC and remain in effect with respect to the Registration Statement/Proxy Statement, (d) obtaining, at the meeting of Company stockholders where a quorum is present, the vote of the holders of a majority of the outstanding GG Shares entitled to vote thereon to adopt and approve the Business Combination Agreement, other Transaction Documents (as defined in the Business Combination Agreement) to which the Company will be a party and the Transactions, (e) obtaining the requisite vote of the shareholders of Parent to approve the Business Combination Agreement and the other transaction documents to which Parent is party and the Transactions, (f) the Company having at least \$5,000,001 of net tangible assets (as determined in accordance with Rule 3a51-1(g)(1) of the Exchange Act) following the completion of the redemptions in respect of GG Shares in connection with the Transactions (the "Stockholder Redemptions"), (g) the approval of ListCo Class A ADSs for listing on the Nasdaq Stock Market, (h) the approval of the ListCo AD Warrants or the ListCo Class C-1 ADSs, as applicable, for listing on the Nasdaq Stock Market and (i) the board of directors of ListCo shall have a number and composition of directors determined in accordance with the Business Combination Agreement (and shall include one director reasonably determined by Sponsor (as defined below) and consented to by Parent (such consent not to be unreasonably withheld, conditioned or delayed), with the remaining initial directors being reasonably determined by Parent) as of the Closing.

In addition, the obligations of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub to consummate the Transactions is subject to, among other things, the aggregate amount of cash held in the

Company's trust account (after giving effect to the Stockholder Redemptions, the Sponsor Investment Amount, the PIPE Investment Amount and the Volvo Cars PIPE Investment Amount (as defined below)) being no less than \$950,000,000, prior to the payment of any unpaid or contingent liabilities and fees and expenses of the Company (including, as applicable, any Company Transaction Expenses (as defined in the Business Combination Agreement)) as of the Closing.

The obligation of the Company to consummate the Transactions is also subject to the fulfillment of additional closing conditions, including, among other things, the completion of the Pre-Closing Reorganization.

Termination

The Business Combination Agreement may be terminated at any time prior to the Closing by mutual written consent of the Company and Parent and in certain other circumstances, including if the Closing has not occurred on or prior to May 27, 2022 and the primary cause of the failure for the Closing to have occurred on or prior to such date is not due to a breach of the Business Combination Agreement by the party seeking to terminate.

The foregoing description of the Business Combination Agreement and the Transactions does not purport to be complete and is qualified in its entirety by the terms and conditions of the Business Combination Agreement, a copy of which is attached hereto as Exhibit 2.1 and is incorporated herein by reference. The Business Combination Agreement contains representations, warranties and covenants that the respective parties made to each other as of the date of such agreement or other specific dates. The assertions embodied in those representations, warranties and covenants were made for purposes of the contract among the respective parties to the Business Combination Agreement and are subject to important qualifications and limitations agreed to by the contracting parties in connection with negotiating the Business Combination Agreement. The Business Combination Agreement has been attached to provide investors with information regarding its terms. It is not intended to provide any other factual information about the Company or any other party to the Business Combination Agreement. In particular, the representations, warranties, covenants and agreements contained in the Business Combination Agreement, which were made only for purposes of the Business Combination Agreement and as of specific dates, were solely for the benefit of the respective parties to the Business Combination Agreement, may be subject to limitations agreed upon by the parties thereto (including being qualified by confidential disclosures made for the purposes of allocating contractual risk between the respective parties to the Business Combination Agreement instead of establishing these matters as facts) and may be subject to standards of materiality applicable to the contracting parties that differ from those applicable to the Company's investors and security holders. Company investors and security holders are not third-party beneficiaries under the Business Combination Agreement and should not rely on the representations, warranties or covenants of any party to the Business Combination Agreement. Moreover, information concerning the subject matter of the representations and warranties may change after the date of the Business Combination Agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures.

Subscription Agreements

PIPE Subscription Agreements

Concurrently with the execution and delivery of the Business Combination Agreement, the Company and ListCo entered into subscription agreements (the "PIPE Subscription Agreements") with certain investors (the "PIPE Investors"), pursuant to which the PIPE Investors have agreed to purchase, substantially concurrently with the Closing, an aggregate of 7.43 million ListCo Class A ADSs (the "PIPE Shares") for a purchase price of \$9.09 per share in a private placement, for an aggregate amount of \$67,500,000 (the "PIPE Investment Amount").

The issuance of the PIPE Shares pursuant to the PIPE Subscription Agreements is contingent upon, among other customary closing conditions, the substantially concurrent consummation of the Business Combination. Pursuant to the PIPE Subscription Agreements, ListCo agreed to file with the U.S. Securities and Exchange

Commission (the “SEC”) (at ListCo’s sole cost and expense), within 30 calendar days after the date of Closing, a registration statement registering the resale of the PIPE Shares, and to use its commercially reasonable efforts to have the registration statement declared effective as soon as practicable after the filing thereof.

Sponsor Subscription Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, the Company and ListCo entered into a subscription agreement (the “Sponsor Subscription Agreement”) with Gores Guggenheim Sponsor LLC (the “Sponsor”). Pursuant to the Sponsor Subscription Agreement, the Sponsor agreed to subscribe for an additional 9.08 million ListCo Class A ADSs for a purchase price of \$9.09 per share on the date of Closing, for an aggregate investment of \$82,500,000 (the “Sponsor Investment Amount”). The Sponsor Subscription Agreement is substantially similar to the PIPE Subscription Agreement, except that the Sponsor has the right to syndicate its commitment to acquire the ListCo Class A ADSs to be purchased under the Sponsor Subscription Agreement in advance of the closing of the Business Combination.

Volvo Cars Subscription Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, the Company and ListCo entered into a subscription agreement (the “Volvo Cars Subscription Agreement,” and, together with the PIPE Subscription Agreements and the Sponsor Subscription Agreement, the “Subscription Agreements”) with Snita Holding B.V., a corporation organized under the laws of Netherlands (“Snita”) and a wholly owned indirect subsidiary of Volvo Car AB (publ) (“Volvo Cars”). Pursuant to the Volvo Cars Subscription Agreement, Snita agreed to subscribe for an additional 10 million ListCo Class A ADSs for a purchase price of \$10.00 per share on the date of Closing. The Volvo Cars Subscription Agreement is substantially similar to the PIPE Subscription Agreements, except with regards to purchase price. Snita may, in accordance with the terms of the Volvo Cars Subscription Agreement, syndicate its commitment to acquire the ListCo Class A ADSs to be purchased under the Volvo Cars Subscription Agreement in advance of the closing of the Business Combination.

The foregoing descriptions of the Subscription Agreements do not purport to be complete and are qualified in their entirety by the terms and conditions of the PIPE Subscription Agreements, a form of which is attached hereto as Exhibit 10.1 and is incorporated herein by reference.

Volvo Cars Preference Subscription Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, ListCo entered into a subscription agreement (the “Volvo Cars Preference Subscription Agreement”) with Snita (the “Volvo Cars Preference Subscriber”). Pursuant to the Volvo Cars Preference Subscription Agreement, the Volvo Cars Preference Subscriber agreed to subscribe for mandatory convertible preference shares of ListCo (the “ListCo Preference Shares”) for an aggregate subscription price of \$10.00 per share, for an aggregate investment amount equal to approximately \$500,000,000 (the “Volvo Cars PIPE Investment Amount”). The proceeds of such subscription will be used to satisfy certain accounts payable that are or will be due and payable by certain subsidiaries of Parent to Volvo Cars. As of the date hereof, it is currently anticipated that all of the ListCo Preference Shares will convert into ListCo Class A Shares at Closing, in accordance with, and subject to, the terms of the ListCo Preference Shares.

Parent Lock-Up Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, Parent, ListCo and the other Parent shareholders party thereto (the “Parent Shareholders”), have entered into that Parent Lock-Up Agreement (the “Parent Lock-Up Agreement”). Pursuant to the Parent Lock-Up Agreement, each Parent Shareholder has, subject to certain exceptions, among other things, agreed to not transfer any equity security of ListCo issued to them pursuant to the Business Combination Agreement or other transaction documents

contemplated by the Business Combination Agreement during the period commencing the date of Closing and ending 180 days following the date of the Closing, in each case subject to the terms and conditions set forth therein.

The foregoing description of the Parent Lock-Up Agreement does not purport to be complete and is qualified in its entirety by the terms and conditions of the Parent Lock-Up Agreement, a form of which is attached hereto as Exhibit 10.2 and is incorporated herein by reference.

Sponsor and Supporting Sponsor Stockholders Lock-Up Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, Sponsor, the Company, Parent, ListCo and certain of the Company's directors, executive officers and affiliates (such individuals, the "Supporting Sponsor Stockholders") have entered into a Sponsor and Supporting Sponsor Stockholders Lock-Up Agreement (the "Sponsor and Supporting Sponsor Stockholders Lock-Up Agreement").

Pursuant to the Sponsor and Supporting Stockholders Lock-Up Agreement, the Sponsor and each Supporting Sponsor Stockholders has, among other things, agreed to (i) support and vote in favor of all proposals included in the Registration Statement/Proxy Statement; (ii) waive all adjustments to the conversion ratio set forth in the Company's amended and restated certificate of incorporation with respect to the GG Class F Shares; (iii) be bound by certain transfer restrictions with respect to their GG Shares, Public Warrants and Private Placement Warrants; and (iv) not to transfer any ListCo Class A ADSs issued pursuant to the Business Combination Agreement during the period beginning the date of Closing and ending 180 days following the date of the Closing, in each case subject to the terms and conditions set forth therein. In addition, the Sponsor has agreed to the forfeiture of up to 1,501,651 GG Class F Shares.

The foregoing description of the Sponsor and Supporting Sponsor Stockholders Lock-Up Agreement does not purport to be complete and is qualified in its entirety by the terms and conditions of the Sponsor and Supporting Sponsor Stockholders Lock-Up Agreement, a copy of which is attached hereto as Exhibit 10.3 and is incorporated herein by reference.

Registration Rights Agreement

Concurrently with the execution and delivery of the Business Combination Agreement, ListCo, Parent, the Parent Shareholders, Sponsor and the independent directors of the Company (such persons, together with Sponsor and the Parent Holders, the "Holders"), have entered into a registration rights agreement (the "Registration Rights Agreement") which provides customary demand and piggyback registration rights. Pursuant to the Registration Rights Agreement, ListCo agreed that, as soon as practicable, and in any event within 30 days after the Closing, ListCo will file with the SEC a shelf registration statement. In addition, ListCo will use its reasonable best efforts to have the registration statement declared effective as soon as practicable after the filing thereof, but no later than the 60th day (or the 90th day if the registration statement is reviewed by, and received comments from, the SEC) following the filing deadline, in each case subject to the terms and conditions set forth therein.

The foregoing description of the Registration Rights Agreement does not purport to be complete and is qualified in its entirety by the terms and conditions of the Registration Rights Agreement, a copy of which is attached hereto as Exhibit 10.4 and is incorporated herein by reference.

Warrant Assumption Agreement

In the event that the Requisite GG Warranholder Approval is not obtained prior to the Effective Time, the Company, ListCo and Computershare Trust Company, N.A. (the "Warrant Agent") will enter into a Warrant Assignment, Assumption and Amendment Agreement (the "Warrant Assumption Agreement") prior to the

Closing. The Warrant Assumption Agreement will amend the Warrant Agreement, dated March 22, 2021, by and among the Company and the Warrant Agent (the “[Warrant Agreement](#)”) to provide that at the Effective Time, each Public Warrant and Private Placement Warrant will be assumed by ListCo and be converted into the right to receive a ListCo AD Warrant, subject to the terms and conditions set forth therein. In addition, under the Warrant Assumption Agreement, the Company will assign to ListCo all of its rights, interests, and obligations in and under the Warrant Agreement as of the effective time of the Merger, subject to the terms and conditions set forth therein.

The foregoing description of the Warrant Assumption Agreement does not purport to be complete and is qualified in its entirety by the terms and conditions of the form of Warrant Assumption Agreement, a copy of which is attached hereto as Exhibit 10.5 and is incorporated herein by reference.

Financing

Upon the closing of the Public Offering and the sale of the Private Placement Warrants, an aggregate of \$750,000,000 was placed in a Trust Account with Computershare acting as trustee (the “Trust Account”). Subsequently, the underwriters partially exercised their over-allotment option to purchase 5,000,000 newly issued units, and the closing of the sale of the additional Units pursuant to such exercise (the “Over-Allotment Option Units”) occurred on April 22, 2021. The issuance by the Company of 5,000,000 Over-Allotment Option Units at a price of \$10.00 per unit resulted in gross proceeds of \$50,000,000. On September 30, 2021, the total amount deposited in Trust Account is \$800,000,000.

The Company intends to finance a Business Combination with the net proceeds from its \$800,000,000 Public Offering and its sale of \$18,000,000 of Private Placement Warrants.

Trust Account

Funds held in the Trust Account can be invested only in U.S. government treasury bills with a maturity of one hundred and eighty-five (185) days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act of 1940, as amended, that invest only in direct U.S. government obligations. As of September 30, 2021, the Trust Account consisted of money market funds.

The Company’s amended and restated certificate of incorporation provides that, other than the withdrawal of interest to fund our working capital requirements plus additional amounts released to us to fund our regulatory compliance requirements and other costs related thereto, subject to an annual limit of \$900,000, for a maximum of 24 months (each, a “Regulatory Withdrawal”) plus additional amounts to pay our franchise and income tax obligations, if any, none of the funds held in trust will be released until the earliest of: (i) the completion of the Business Combination; (ii) the redemption of any shares of the Company’s Class A Common Stock, par value \$0.0001 per share (the “Class A Common Stock”), included in the Units (as defined in Note 3) sold in the Public Offering that have been properly tendered in connection with a stockholder vote to amend the amended and restated certificate of incorporation to (a) modify the substance or timing of the Company’s obligation to redeem 100% of such shares of Class A Common Stock if it does not complete a Business Combination within 24 months from the closing of the Public Offering or (b) with respect to any other provisions relating to stockholders’ rights or pre-initial Business Combination activity and (iii) the redemption of 100% of the shares of Class A Common Stock included in the Units sold in the Public Offering if the Company is unable to complete a Business Combination within 24 months from the closing of the Public Offering (subject to the requirements of law).

Business Combination

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Public Offering, although substantially all of the net proceeds of the Public Offering are intended

to be generally applied toward consummating a Business Combination with (or acquisition of) a Target Business. As used herein, “Target Business” must be with one or more target businesses that together have a fair market value equal to at least 80% of the balance in the trust account (less any deferred underwriting commissions and taxes payable on interest earned) at the time of the Company signing a definitive agreement in connection with the Business Combination. Furthermore, there is no assurance that the Company will be able to successfully effect a Business Combination.

The Company, after signing a definitive agreement for a Business Combination, will either (i) seek stockholder approval of the Business Combination at a meeting called for such purpose in connection with which stockholders may seek to redeem their shares, regardless of whether they vote for or against the Business Combination, for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Business Combination, including interest but less taxes payable and any Regulatory Withdrawals, or (ii) provide stockholders with the opportunity to sell their shares to the Company by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount in cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to consummation of the Business Combination, including interest but less taxes payable and any Regulatory Withdrawals. The decision as to whether the Company will seek stockholder approval of the Business Combination or will allow stockholders to sell their shares in a tender offer will be made by the Company, solely in its discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require the Company to seek stockholder approval, unless a vote is required by law or under Nasdaq rules. Currently, the Company will not redeem its public shares of Class A Common Stock in an amount that would cause its net tangible assets to be less than \$5,000,001. In such case, the Company would not proceed with the redemption of its public shares of Class A Common Stock and the related Business Combination, and instead may search for an alternate Business Combination. For business and other reasons, the Company has elected to provide its stockholders with the opportunity to have their public shares redeemed in connection with a stockholder vote to approve the Proposed Business Combination rather than a tender offer.

As a result of the foregoing redemption provisions, the public shares of common stock are recorded at redemption amount and classified as temporary equity, in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 480, “*Distinguishing Liabilities from Equity*” (“ASC 480”).

The Company has 24 months from the closing date of the Public Offering to complete its Business Combination. If the Company does not complete a Business Combination within this period of time, it shall (i) cease all operations except for the purposes of winding up; (ii) as promptly as reasonably possible, but not more than ten business days thereafter, redeem the public shares of Class A Common Stock for a per share pro rata portion of the Trust Account, including interest, but less taxes payable and any Regulatory Withdrawals (less up to \$100,000 of such net interest to pay dissolution expenses) and (iii) as promptly as possible following such redemption, dissolve and liquidate the balance of the Company’s net assets to its remaining stockholders, as part of its plan of dissolution and liquidation. The initial stockholders and the Company’s officers and directors have entered into a letter agreement with the Company pursuant to which they have waived their rights to participate in any redemption with respect to their initial shares; however, if the initial stockholders or any of the Company’s officers or directors acquire public shares of Class A Common Stock in or after the Public Offering, they will be entitled to a pro rata share of the Trust Account upon the Company’s redemption or liquidation in the event the Company does not complete a Business Combination within the required time period.

In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be less than the initial public offering price per unit in the Public Offering.

Emerging Growth Company

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

2. Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and pursuant to the accounting and disclosure rules and regulations of the Securities and Exchange Commission (“SEC”), and reflect all adjustments, consisting only of normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of the financial position as of September 30, 2021 and the results of operations and cash flows for the periods presented. Operating results for the three and nine months ended September 30, 2021 are not necessarily indicative of results that may be expected for the full year or any other period. The accompanying unaudited financial statements should be read in conjunction with the Company’s (i) audited financial statements as of February 10, 2021 and December 31, 2020 and for the periods from January 1, 2021 through February 10, 2021 as well as December 21, 2020 (inception) through December 31, 2020 included in the final prospectus filed with the SEC on March 24, 2021. The Company was formed on December 21, 2020. Therefore, these financial statements do not include comparative statements to prior 2020 periods.

Net Loss Per Common Share

The Company has two classes of shares, which are referred to as Class A Common Stock and Class F common stock (the “Founder Shares”). Earnings and losses are shared pro rata between the two classes of shares. Private and Public warrants to purchase 25,000,000 shares of Common Stock at \$11.50 per share were issued on March 25, 2021. At September 30, 2021, no warrants have been exercised. The 25,000,000 potential common shares for outstanding warrants to purchase the Company’s stock were excluded from diluted earnings per share for the three and nine months ended September 30, 2021 because the warrants are contingently exercisable, and the contingencies have not yet been met. As a result, diluted net loss per common share is the same as basic net loss per common share for the period. The table below presents a reconciliation of the numerator and denominator used to compute basic and diluted net loss per share for each class of common stock:

	For the Three Months Ended September 30, 2021		For the Nine Months Ended September 30, 2021	
	Class A	Class F	Class A	Class F
Basic and diluted net loss per share:				
Numerator:				
Allocation of net loss including accretion of temporary equity	\$ (18,223,401)	\$ (4,555,850)	\$ (71,404,011)	\$ (22,746,397)
Denominator:				
Weighted-average shares outstanding	80,000,000	20,000,000	55,164,835	17,573,260
Basic and diluted net loss per share	\$ (0.23)	\$ (0.23)	\$ (1.29)	\$ (1.29)

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution as well as the Trust Account, which at times, may exceed the Federal Depository Insurance Coverage limit of \$250,000. The Company has not experienced losses on these accounts.

Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under FASB ASC Topic 820, "Fair Value Measurements and Disclosures," ("ASC 820") approximates the carrying amounts represented in the balance sheet.

Fair Value Measurement

ASC 820 establishes a fair value hierarchy that prioritizes and ranks the level of observability of inputs used to measure investments at fair value. The observability of inputs is impacted by a number of factors, including the type of investment, characteristics specific to the investment, market conditions and other factors. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements) and the lowest priority to unobservable inputs (Level III measurements).

Investments with readily available quoted prices or for which fair value can be measured from quoted prices in active markets will typically have a higher degree of input observability and a lesser degree of judgment applied in determining fair value.

The three levels of the fair value hierarchy under ASC 820 are as follows:

Level I—Quoted prices (unadjusted) in active markets for identical investments at the measurement date are used.

Level II—Pricing inputs are other than quoted prices included within Level I that are observable for the investment, either directly or indirectly. Level II pricing inputs include quoted prices for similar investments in active markets, quoted prices for identical or similar investments in markets that are not active, inputs other than quoted prices that are observable for the investment, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level III—Pricing inputs are unobservable and include situations where there is little, if any, market activity for the investment. The inputs used in determination of fair value require significant judgment and estimation.

In some cases, the inputs used to measure fair value might fall within different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the investment is categorized in its entirety is determined based on the lowest level input that is significant to the investment. Assessing the significance of a particular input to the valuation of an investment in its entirety requires judgment and considers factors specific to the investment. The categorization of an investment within the hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to the perceived risk of that investment.

Derivative Liabilities

The Company evaluated the Warrants (as defined below in Note 3 – Public Offering) and Private Placement Warrants (as defined below in Note 4 – Related Party Transactions) (collectively, "Warrant Securities"), and the all forward purchase agreements in accordance with ASC 815-40, *Derivatives and Hedging — Contracts in Entity's Own Equity*, and concluded that the Warrant Securities and forward purchase agreements could not be

accounted for as components of equity. As the Warrant Securities and forward purchase agreements meet the definition of a derivative in accordance with ASC 815, the Warrant Securities and forward purchase agreements are recorded as derivative liabilities on the Balance Sheet and measured at fair value at inception (the Close Date) and remeasured at each reporting date in accordance with ASC 820, "Fair Value Measurement", with changes in fair value recognized in the Statement of Operations in the period of change.

Offering Costs

The Company complies with the requirements of FASB ASC Topic 340-10-S99-1, "Other Assets and Deferred Costs – SEC Materials" ("ASC 340-10-S99") and SEC Staff Accounting Bulletin (SAB) Topic 5A – "Expenses of Offering". Offering costs were \$44,757,840 (including \$44,000,000 in underwriters' fees) consisting principally of professional and registration fees incurred through the balance sheet date that are related to the Public Offering and are charged to equity upon the completion of the Public Offering. Since the Company is required to classify the warrants as derivative liabilities, offering costs totaling \$832,496 are reflected as an expense in the statements of operations.

Redeemable Common Stock

As discussed in Note 3, all of the 80,000,000 shares of Class A Common Stock sold as part of the Units in the Public Offering contain a redemption feature which allows for the redemption of common stock under the redemption and repurchase provisions of the Company's amended and restated certificate of incorporation. In accordance with SEC and its staff's guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. Therefore, all Class A Common Stock has been classified outside of permanent equity.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock are affected by charges against additional paid in capital and accumulated deficit.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. One of the more significant accounting estimates included in these financial statements is the determination of the fair value of the warrant liability. Such estimates may be subject to change as more current information becomes available and accordingly the actual results could differ significantly from those estimates.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

For those liabilities or benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax liabilities as income tax expense. No amounts were accrued for the payment of interest and penalties at September 30, 2021.

The Company may be subject to potential examination by U.S. federal, states or foreign jurisdiction authorities in the areas of income taxes. These potential examinations may include questioning the timing and amount of deductions, the nexus of income amounts in various tax jurisdictions and compliance with U.S. federal, states or foreign tax laws.

The Company is incorporated in the State of Delaware and is required to pay franchise taxes to the State of Delaware on an annual basis.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

Investments and Cash Held in Trust Account

The Company's portfolio of investments held in the Trust Account is comprised of U.S. treasury securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or investments in money market funds that invest in U.S. treasury securities, or a combination thereof. The Company's investments held in the Trust Account are presented on the Balance Sheet at fair value at the end of each reporting period.

The Company's amended and restated certificate of incorporation provides that, other than the withdrawal of interest to pay taxes, if any, none of the funds held in trust will be released until the earlier of: (i) the completion of the Business Combination; (ii) the redemption of any public shares of common stock properly tendered in connection with a stockholder vote to amend the Company's amended and restated certificate of incorporation to modify the substance or timing of the Company's obligation to redeem 100% of such public shares of common stock if the Company does not complete the Business Combination within 24 months from the closing of the Public Offering; or (iii) the redemption of 100% of the public shares of common stock if the Company is unable to complete a Business Combination within 24 months from the closing of the Public Offering, subject to the requirements of law and stock exchange rules.

Warrant Liability

The Company accounts for warrants for shares of the Company's common stock that are not indexed to its own stock as liabilities at fair value on the balance sheet. The warrants are subject to remeasurement at each balance sheet date and any change in fair value is recognized in the Company's statements of operations. For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded as a liability at their initial fair value on the date of issuance, and each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the statements of operations.

Recently Issued Accounting Pronouncements Not Yet Adopted

Management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's financial statements based on current operations of the Company. The impact of any recently issued accounting standards will be re-evaluated on a regular basis or if a Business Combination is completed where the impact could be material.

Going Concern Consideration

If the Company does not complete its Business Combination by March 25, 2023, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the common stock sold as part of the units in the Public Offering, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of franchise and income taxes payable and less up to \$100,000 of such net interest which may be distributed to the Company to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's Board of Directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be less than the initial public offering price per unit in the Public Offering. In addition, if the Company fails to complete its Business Combination by March 25, 2023, there will be no redemption rights or liquidating distributions with respect to the warrants, which will expire worthless.

In addition, at September 30, 2021 and December 31, 2020, the Company had current liabilities of \$58,837,724 and \$1,782, respectively, and working capital of (\$56,536,734) and (\$1,782), respectively, the balances of which are primarily related to warrants we have recorded as liabilities as described in Notes 2 and 3. Other amounts are related to accrued expenses owed to professionals, consultants, advisors and others who are working on seeking a Business Combination as described in Note 1. Such work is continuing after September 30, 2021 and amounts are continuing to accrue. In order to finance ongoing costs, the Sponsor or an affiliate of the Sponsor may, but are not obligated to, provide the Company with additional working capital via a Sponsor Loan (see Note 4). Additionally, the warrant liability will not impact the Company's liquidity until a Business Combination has been consummated, as they do not require cash settlement until such event has occurred.

3. Public Offering

Public Units

On March 25, 2021, the Company sold 75,000,000 units at a price of \$10.00 per unit (the "Units), generating gross proceeds of \$750,000,000. Subsequently, the underwriters partially exercised their over-allotment option to purchase 5,000,000 newly issued units, and the closing of the sale of the additional Units pursuant to such exercise occurred on April 22, 2021. The issuance by the Company of 5,000,000 Over-Allotment Option Units at a price of \$10.00 per unit resulted in gross proceeds of \$50,000,000. The remainder of the over-allotment option expired on May 9, 2021. Each Unit consists of one share of the Company's Class A Common Stock (the "public shares"), and one-fifth of one redeemable common stock purchase warrant (the "Warrants"). Each whole Warrant entitles the holder to purchase one share of Class A Common Stock. Each Warrant will become exercisable on the later of 30 days after the completion of the Company's Business Combination or 12 months from the closing of the Public Offering and will expire five years after the completion of the Company's Business Combination or earlier upon redemption or liquidation. However, if the Company does not complete its Business Combination on or prior to the 24-month period allotted to complete the Business Combination, the Warrants will expire at the end of such period.

Under the terms of the warrant agreement, the Company has agreed to use its best efforts to file a registration statement under the Securities Act following the completion of the Business Combination covering the shares of Class A Common Stock issuable upon exercise of the Warrants. The Company has granted the underwriters a 45-day option to purchase additional Units to cover any over-allotment, at the initial public

offering price less the underwriting discounts and commissions. At the time of the IPO, the underwriters were granted an option to purchase up to an additional 11,250,000 Units to cover over-allotments, if any. Subsequently, the underwriters partially exercised their over-allotment option to purchase 5,000,000 newly issued units, and the closing of the sale of the additional Units pursuant to such Over-Allotment Option Units exercise occurred on April 22, 2021. The issuance by the Company of 5,000,000 Over-Allotment Option Units at a price of \$10.00 per unit resulted in gross proceeds of \$50,000,000. The remainder of the over-allotment option expired on May 9, 2021.

The Company paid an upfront underwriting discount of 2.00% (\$15,000,000) of the per Unit offering price to the underwriters at the closing of the Public Offering, with an additional fee (the “Deferred Discount”) of 3.50% (\$26,250,000) of the gross offering proceeds payable upon the Company’s completion of a Business Combination. As a result of the purchase of the Over-Allotment Option Units by the underwriters on April 22, 2021, the upfront and Deferred Discount increased to \$16,000,000 and \$28,000,000, respectively. The Deferred Discount will become payable to the underwriters from the amounts held in the Trust Account solely in the event the Company completes its Business Combination. The underwriters are not entitled to any interest accrued on the Deferred Discount.

The public warrants issued as part of the Units are accounted for as liabilities as there are terms and features do not qualify for equity classification in FASB ASC Topic 815-40 “*Derivatives and Hedging – Contracts in Entity’s Own Equity*.” The fair value of the public warrants at March 23, 2021 was a liability of \$13,950,000. At September 30, 2021, the fair value has increased to \$33,280,000. After consideration of the warrant value included in the Over-Allotment Option Units, the change in fair value of \$18,400,000 is reflected as an expense in the statements of operations.

All of the 80,000,000 Class A Common Stock sold as part of the Units in the Public Offering contain a redemption feature which allows for the redemption of such public shares in connection with the Company’s liquidation, if there is a stockholder vote or tender offer in connection with the Business Combination and in connection with certain amendments to the Company’s amended and restated certificate of incorporation. In accordance with SEC and its staff’s guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99, redemption provisions not solely within the control of the Company require common stock subject to redemption to be classified outside of permanent equity. Given that the Class A Common Stock was issued with other freestanding instruments (i.e., public warrants), the initial carrying value of Class A Common Stock classified as temporary equity is the allocated proceeds based on the guidance in FASB ASC Topic 470-20, “*Debt – Debt with Conversion and Other Options*.”

Our Class A Common Stock is subject to SEC and its staff’s guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99. If it is probable that the equity instrument will become redeemable, the Company has the option to either accrete changes in the redemption value over the period from the date of issuance (or from the date that it becomes probable that the instrument will become redeemable, if later) to the earliest redemption date of the instrument or to recognize changes in the redemption value immediately as they occur and adjust the carrying amount of the instrument to equal the redemption value at the end of each reporting period. The Company has elected to recognize the changes immediately. The accretion or remeasurement is treated as a deemed dividend (i.e., a reduction to retained earnings, or in absence of retained earnings, additional paid-in capital).

As of September 30, 2021, the Class A Common Stock reflected on the balance sheet are reconciled in the following table. An accretion of carrying value to redemption value of \$55,141,614 was recognized on March 31, 2021, and an additional \$3,663,729 of accretion was recognized on June 30, 2021. There has been no additional accretion for the three months ended September 30, 2021:

	As of September 30, 2021
Gross proceeds	\$ 800,000,000
Less:	
Proceeds allocated to public warrants	(14,880,000)
Class A shares issuance costs	(43,925,343)
Plus:	
Accretion of carrying value to redemption value	(58,805,343)
Contingently redeemable Class A Common Stock	\$ 800,000,000

4. Related Party Transactions

Founder Shares

On February 10, 2021, the Sponsor purchased 21,562,500 Founder Shares for \$25,000, or approximately \$0.001 per share. On March 22, 2021, the Sponsor transferred 25,000 Founder Shares to each of the Company’s three independent director nominees at their original purchase price. On May 9, 2021, the Sponsor forfeited 1,562,500 Founder Shares following the expiration of the unexercised portion of underwriters’ over-allotment option, so that the Founder Shares held by the Initial Stockholders would represent 20.0% of the outstanding shares of common stock following completion of the Public Offering. The Founder Shares are identical to the common stock included in the Units sold in the Public Offering except that the Founder Shares will automatically convert into shares of Class A common stock at the time of the Business Combination on a one-for-one basis, subject to adjustment as described in the Company’s amended and restated certificate of incorporation.

The sale of the Founders Shares is in the scope of FASB ASC Topic 718, “*Compensation-Stock Compensation*” (“ASC 718”). Under ASC 718, stock-based compensation associated with equity-classified awards is measured at fair value upon the grant date. The Founders Shares were granted subject to a performance condition (i.e., the occurrence of a Business Combination). Compensation expense related to the Founders Shares is recognized only when the performance condition is probable of occurrence under the applicable accounting literature in this circumstance. As of September 30, 2021, the Company determined that a Business Combination is not considered probable, and, therefore, no stock-based compensation expense has been recognized. Stock-based compensation would be recognized at the date a Business Combination is considered probable (i.e., upon consummation of a Business Combination) in an amount equal to the number of Founders Shares that ultimately vest multiplied times the grant date fair value per share (unless subsequently modified) less the amount initially received for the purchase of the Founders Shares.

Private Placement Warrants

The Sponsor has purchased from the Company an aggregate of 8,500,000 whole warrants at a price of \$2.00 per warrant (a purchase price of approximately \$17,000,000) in a private placement that occurred simultaneously with the completion of the Public Offering (the “Private Placement Warrants”). On April 22, 2021, substantially concurrently with the sale of the Over-allotment Option Units, the Company completed a private placement with the Sponsor for an additional 500,000 warrants at a price of \$2.00 per warrant (the “Additional Private Placement Warrants”), generating gross proceeds of \$1,000,000. Each Private Placement Warrant entitles the holder to purchase one share of Class A Common Stock at \$11.50 per share. A portion of the

purchase price of the Private Placement Warrants was added to the proceeds from the Public Offering to be held in the Trust Account pending completion of the Business Combination.

The Private Placement Warrants have terms and provisions that are identical to those of the Warrants being sold as part of the Units in the Public Offering, except that the Private Placement Warrants may be physical (cash) or net share (cashless) settled and are not redeemable so long as they are held by our Sponsor or its permitted transferees.

If the Company does not complete a Business Combination, then the Private Placement Warrants proceeds will be part of the liquidation distribution to the public stockholders and the Private Placement Warrants will expire worthless. Consistent with the public warrants, the private warrants are accounted for as liabilities under ASC Topic 814-40, due to their terms.

Registration Rights

The holders of Founder Shares, Private Placement Warrants and Warrants issued upon the conversion of working capital loans, if any, hold registration rights (in the case of the Founder Shares, only after conversion of such shares to shares of Class A Common Stock) pursuant to a registration rights agreement entered into by the Company, the Sponsor and the other security holders named therein on March 25, 2021. These holders will be entitled to certain demand and “piggyback” registration rights. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Sponsor Loan

Prior to the completion of the Public Offering, the Sponsor loaned the Company an aggregate of \$300,000 by the issuance of an unsecured promissory note (the “Note”) issued by the Company in favor of the Sponsor to cover organization expenses and expenses related to the Public Offering. The Note was non-interest bearing and payable on the earlier of February 28, 2022 or the completion of the Public Offering. The Note was repaid upon completion of the Public Offering.

On April 20, 2021, the Sponsor made available to the Company a loan of up to \$4,000,000 pursuant to a promissory note issued by the Company to the Sponsor. The proceeds from the note will be used for on-going operational expenses and certain other expenses in connection with the Business Combination. The note is unsecured, non-interest bearing and matures on the earlier of: (i) January 31, 2022 or (ii) the date on which the Company consummates the Business Combination. As of September 30, 2021, the net amount advanced by Sponsor to the Company was \$2,000,000.

Administrative Services Agreement

The Company entered into an administrative services agreement pursuant to which it agreed to pay to an affiliate of the Sponsor \$20,000 per month for office space, utilities and secretarial support. Services commenced on March 23, 2021 (the date the securities were first listed on the Nasdaq Capital Market) and will terminate upon the earlier of the consummation by the Company of a Business Combination or the liquidation of the Company.

For the three months and for the period commencing March 23, 2021 through September 30, 2021 the Company incurred and paid the affiliate \$60,000 and \$125,806, respectively.

5. Deferred Underwriting Compensation

As of the IPO Closing Date, the Company was committed to pay a Deferred Discount totaling \$26,250,000 or 3.50% of the gross offering proceeds of the Public Offering, to the underwriters upon the Company’s consummation

of a Business Combination. As a result of the underwriters purchase of the Over-Allotment Option Units on April 22, 2021, the Deferred Discount increased to \$28,000,000. The underwriters are not entitled to any interest accrued on the Deferred Discount, and no Deferred Discount is payable to the underwriters if there is no Business Combination.

6. Income Taxes

Income tax expense during interim periods is based on applying an estimated annual effective income tax rate to year-to-date income, plus any significant unusual or infrequently occurring items which are recorded in the interim period. The Company's effective tax rates differ from the federal statutory rate primarily due to the fair value on instruments treated as debt for GAAP and equity for tax purposes, which is not deductible for income tax purposes, for 2021.

The computation of the annual estimated effective tax rate at each interim period requires certain estimates and significant judgment including, but not limited to, the expected operating income for the year, projections of the proportion of income earned and taxed in various jurisdictions, permanent and temporary differences, and the likelihood of recovering deferred tax assets generated in the current year. The accounting estimates used to compute the provision for income taxes may change as new events occur, more experience is obtained, additional information becomes known or as the tax environment changes.

The Company has evaluated tax positions taken or expected to be taken in the course of preparing the financial statements to determine if the tax positions are "more likely than not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the "more likely than not" threshold would be recorded as a tax benefit or expense in the current year. The Company has concluded that there was no impact related to uncertain tax positions on the results of its operations for the period ended September 30, 2021. As of September 30, 2021, the Company has no accrued interest or penalties related to uncertain tax positions. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company's conclusions regarding tax positions will be subject to review and may be adjusted at a later date based on factors including, but not limited to, ongoing analyses of tax laws, regulations, and interpretations thereof.

7. Investments and Cash Held in Trust

As of September 30, 2021, investment securities in the Company's Trust Account consist of \$800,039,544 in money market funds.

8. Fair Value Measurement

The Company complies with ASC 820 for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually. ASC 820 determines fair value to be the price that would be received to sell an asset or would be paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date.

Warrants

The Company has determined that warrants issued in connection with its initial public offering in March 2021 are subject to treatment as a liability. The Company utilized a Monte Carlo simulation methodology to value the warrants for periods prior to public warrant trading and observable transactions for subsequent periods, with changes in fair value recognized in the statements of operations. The estimated fair value of the warrant liability is determined using Level 1 and Level 2 inputs. The key assumptions in the option pricing model utilized are assumptions related to expected share-price volatility, expected term, risk-free interest rate and

dividend yield. The expected volatility as of the IPO Closing Date and March 31, 2021 was derived from observable public warrant pricing on comparable 'blank-check' companies that recently went public in 2020 and 2021. At September 30, 2021, there were observable transactions in the Company's public warrants. The risk-free interest rate is based on the interpolated U.S. Constant Maturity Treasury yield. The expected term of the warrants is assumed to be six months until the close of a Business Combination, and the contractual five year term subsequently. The dividend rate is based on the historical rate, which the Company anticipates to remain at zero. At September 30, 2021, the Public Warrants had adequate trading volume to provide a reliable indication of value. The Public Warrants were valued at \$2.08 at September 30, 2021. The fair value of the Private Placement Warrants was deemed to be equal to the fair value of the Public Warrants because the Private Placement Warrants have similar terms and are subject to substantially the same redemption features as the Public Warrants

The key inputs into the option model for the Private Placement Warrants and Public Warrants were as follows for the relevant periods:

	As of	
	March 23, 2021	September 30, 2021*
Selected Volatility	15.0%	—
Risk-free interest rate	0.94%	—
Warrant exercise price	\$ 11.50	\$ 11.50
Expected term	5.5	5.5

* Volatility and risk-free rate were not utilized in computation.

Subsequent Measurement

The Warrants are measured at fair value on a recurring basis. The subsequent measurement of the Public and Private Warrants as of September 30, 2021, is classified as Level 1 and Level 2, respectively, due to the use of both observable inputs in an active market as well as quoted prices in active markets for similar assets and liabilities.

As of September 30, 2021, the aggregate values of the Private Placement Warrants and Public Warrants were \$18.7 million and \$33.3 million, respectively, based on the closing price of GGPIW on that date of \$2.08.

As of March 23, 2021, the aggregate values of the Private Placement Warrants and Public Warrants were \$7.9 million and \$14.0 million, respectively, based on the closing price of GGPIU on that date of \$10.00.

The following table presents the changes in the fair value of warrant liabilities:

	Private placement warrants	Public warrants	Total warrant liabilities
Fair value at March 23, 2021	\$ 7,905,000	\$ 13,950,000	\$ 21,855,000
Issuance of additional warrants	465,000	930,000	1,395,000
Change in fair value	10,350,000	18,400,000	28,750,000
Fair value at September 30, 2021	\$ 18,720,000	\$ 33,280,000	\$ 52,000,000

The following table presents information about the Company's assets and liabilities that are measured at fair value on a recurring basis as of September 30, 2021 and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates and yield curves. Fair

values determined by Level 3 inputs are unobservable data points for the asset or liability, and includes situations where there is little, if any, market activity for the asset or liability:

<u>Description</u>	<u>September 30, 2021</u>	<u>Quoted Prices in Active Markets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Other Unobservable Inputs (Level 3)</u>

10. Risk and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

11. Subsequent Events

Management has performed an evaluation of subsequent events through November 12, 2021, noting no items which require adjustment or disclosure other than those set forth in the preceding notes to the financial statements.

Note 1 - Significant accounting policies and judgements

General information

Polestar Automotive Holding Limited (the “Parent”), together with its subsidiaries, hereafter referred to as “Polestar”, “Polestar Group” or the “Group”, is a limited company incorporated in Hong Kong. Polestar Group operates principally in the automotive industry engaging in research and development, manufacturing, branding and marketing, and the commercialisation and selling of vehicles, technology solutions and services related to battery electric vehicles. Polestar Group has a presence in nineteen markets across Europe, North America, China and Asia Pacific. Polestar Group has its management headquarters located at Assar Gabrielssons väg 9, 418 78 Göteborg, Sweden.

In September 2020, a common control transaction restructured Polestar Group such that the parent company changed from Polestar Automotive (Shanghai) Co., Ltd (incorporated in the People’s Republic of China) to Polestar Automotive Holding Limited (incorporated in Hong Kong). Refer to Note 3 - Common control transaction for more details.

Polestar Group operations remained unchanged through this transaction. However, the jurisdiction changed from China to Hong Kong and the reporting currency changed from the Renminbi (“CNY”), the official currency of the People’s Republic of China, to the United States dollar (“USD”), respectively. The reporting currency of Polestar Group is the same as the currency of the registered share capital of the parent company.

PSD Investment Limited, a company controlled by Mr. Li Shufu, a private person, owns, as of YE 2020, 50.0% of the Group. An additional 50.0% is owned by Volvo Cars via its subsidiaries Snita Holding B.V. and PS Investment AB, both limited companies.

Basis of preparation

The Consolidated Financial Statements in this annual report of Polestar Group are prepared in accordance with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”). The financial statements have been prepared on the historical cost basis, except for the revaluation of certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. For group financial reporting purposes, Polestar Group companies apply the same accounting principles, irrespective of national legislation, as defined in the Group accounting directives. Such accounting principals have been applied consistently for all periods, unless otherwise stated.

This annual report is prepared in the presentation currency USD. All amounts are stated in thousands of USD (“TUSD”), unless otherwise stated.

Going concern

Polestar Group’s financial statements have been prepared on a basis that assumes Polestar Group will continue as a going concern and the ordinary course of business will continue in alignment with Management’s 2021-2025 business plan.

Management assessed Polestar Group’s ability to continue as a going concern and evaluated whether there are certain events or conditions, considered in the aggregate, that may cast substantial doubt about Polestar Group’s ability to continue as a going concern. All information available to Management pertaining to the twelve-month period after the issuance date of these consolidated financial statements was used in performing this assessment.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Historically, Polestar Group has financed its operations primarily through short-term working capital loan arrangements with credit institutions (i.e., 12 months or less), contributions from shareholders, and extended trade credit from related parties. Since inception, Polestar Group has generated recurring net losses and negative operating and investing cash flows. Net losses for the years ended December 31, 2020 and 2019, amounted to \$484,858 and \$197,975 respectively. Negative operating and investing cash flows for the years ended December 31, 2020 and 2019, amounted to \$300,757 and \$475,507 respectively. Management forecasts that Polestar Group will continue to generate negative operating and investing cash flows in the near future, until sustainable commercial operations are achieved. Securing financing to support operating and development activities represents an ongoing challenge for Polestar Group.

Management's 2021-2025 business plan indicates that Polestar Group depends on additional financing that is expected to be funded via a combination of new short-term working capital loan arrangements, long-term loan arrangements, private equity contributions from shareholders, and the contemplated public listing in the United States from a merger with a special purpose acquisition company ("SPAC") that is expected to be completed in the first half of 2022. The timely realisation of these financing endeavors is crucial for Polestar Group's ability to continue as a going concern. If these financing endeavors are not successful or sufficient enough to cover forecasted operating and investing cash flow needs, Polestar Group will need to seek additional funding through other means. Management has no certainty that Polestar Group will be successful in securing the funds necessary to continue operating and development activities as planned.

Based on these circumstances, Management has determined there is substantial doubt about Polestar Group's ability to continue as a going concern. There are ongoing efforts in place to mitigate the uncertainty. The consolidated financial statements do not include any adjustments to factor for the going concern uncertainty.

Adoption of new and revised standards

Effects of new and amended IFRS

Management has concluded the adoption of any of the below accounting pronouncements has not or will not have a material impact on the Group's financial statements.

On January 1, 2020, the IASB published an amendment to IFRS 3 – Business Combinations, which clarifies the definition of a business; a set of activities and assets is a business only if it includes, as a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs.

As of January 1, 2020, amendments to IAS 1 – Presentation of Financial Statements and IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, which clarify and standardise the definition of "material".

As of January 1, 2020, the application of amendments to IFRS 9 – Financial Instruments, IAS 39 – Financial Instruments: Recognition and Measurement, and IFRS 7 – Financial Instruments: Disclosures (collectively referred to as "Benchmark Interest Rate Reform – Phase 1") became mandatory. This amendment to the standard includes temporary exceptions to current hedge accounting requirements to neutralise the effects of uncertainties caused by the reform of the benchmark interest rate ("LIBOR").

In the second quarter of 2020, the IASB published an amendment to IFRS 16 – COVID-19-Related Rent Concessions in which they provide an accounting policy choice to lessees to apply practical relief for rent concessions arising due to the COVID-19 pandemic. The practical expedient permits a lessee to elect not to assess whether a COVID-19-related rent concession is a lease modification and instead account for any change in lease payments resulting from the COVID-19-related rent concessions as it would under IFRS 16 – Leases, if the change were not a lease modification.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

New and amended IFRS issued but not yet effective

Management has concluded the adoption of any of the below accounting pronouncements, that were issued but not effective for the period ended December 31, 2020, will not have a material impact on the Group's financial statements.

The amendments to IFRS 3 update reference to the Conceptual Framework for Financial Reporting and adds an exception for the recognition of liabilities and contingent liabilities within the scope of IAS 37 – Provisions, Contingent Liabilities and Contingent Assets and IFRIC Interpretation 21 – Liens. The amendment also clarifies that contingent assets acquired in a business combination should not be recognised by the acquirer, at the acquisition date. This amendment will be effective for annual reporting periods beginning on or after January 1, 2022.

The amendment to IAS 37 clarifies that both incremental and other contract performance costs directly related to the performance of the contracts are classified as direct contract performance costs. This amendment will be effective for annual reporting periods beginning on or after January 1, 2022.

Amendments to IAS 16 – Property, Plant and Equipment clarify the accounting for costs related to the sale of property, plant and equipment (“PPE”). The amendment prohibits deducting proceeds produced before an asset is available for use from its cost. Accordingly, an entity will recognise such sales proceeds and related costs in profit or loss. The amendments also clarify the meaning of “testing whether an asset is functioning properly” as assessing if the technical and physical performance of the asset matches the capabilities needed to be used in the production or supply of goods or services, for rental to others, or for administrative purposes. The amendments are effective for annual periods beginning on or after January 1, 2022.

The amendments to IAS 1 clarify that the presentation of liabilities as current or non-current is based off the rights that are in existence at the end of the reporting period, not the expectations about an entity's exercise of certain rights to defer the settlement of a liability or other subsequent events. The amendments are applied retrospectively for annual periods beginning on or after January 1, 2023.

The amendment to IFRS 10 – Consolidated Financial Statement and IAS 28 – Investments in Associates and Joint Ventures clarifies the accounting treatment of sales or contributions of assets between an investor and its associates or joint ventures. If the non-cash asset sold or contributed constitutes a business under IFRS 3, the full gain or loss will be recognised by the investor. If the assets do not meet the definition of a business, the investor will recognise a gain or loss only to the extent of the investment of the other investors in the joint venture. This amendment will be effective for annual reporting periods beginning on or after January 1, 2023.

Presentation

In the Consolidated Statement of Financial Position, an asset is classified as a current asset when it is held primarily for the purpose of trading, is expected to be realised within twelve months of the date of the Consolidated Statement of Financial Position or consists of cash or cash equivalents, provided it is not subject to any restrictions. All other assets are classified as non-current. A liability is classified as a current liability when it is held primarily for the purpose of trading or is expected to be settled within twelve months of the date of the Consolidated Statement of Financial Position. All other liabilities are classified as non-current.

Basis of consolidation

The consolidated accounts include the Parent company and all subsidiaries over which the Parent, either directly or indirectly, exercises control. The Parent controls an entity when the Parent is exposed to, or has rights to,

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

variable returns from its involvement with the entity, has the ability to affect those returns through its power over the entity, and if it has the power of decision over a subsidiary based on voting or other rights. All subsidiaries are fully consolidated from the date on which control is transferred to the Parent. They are deconsolidated from the date that control ceases. All inter-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated upon consolidation. As of December 31, 2020 and 2019, the Parent had eighteen and twelve fully consolidated subsidiaries, respectively.

Segment reporting

Polestar Group determined it has one reportable segment as the chief operating decision maker (“CODM”) assesses financial information and the performance of the business on a consolidated basis. The Group manages its business as a single operating segment, which is the business of manufacturing and selling electric vehicles. All substantial decisions regarding allocation of resources as well as the assessment of performance is based on the Group as a whole.

Polestar Group uses the “management approach” in determining reportable operating segments. The management approach considers the internal organisation and reporting used by the Group’s CODM to allocate resources and assess performance as the source for determining the Group’s reportable segments. Polestar Group’s CODM has been identified as the Chief Executive Officer (“CEO”) as he assesses the performance of the Group and has the function and sole ability to make overall decisions related to the allocation of the Group’s resources. Polestar Group allocates resources and assesses financial performance on a consolidated basis.

The following table shows the breakdown of Polestar Group’s revenue from external customers and non-current assets (PPE and intangibles and goodwill) by geographical location as follows:

	Sweden	Norway	Netherlands	China	Other regions ^{1,2}	Total

2020	162,062	156,077	150,133	13,850	128,123	610,245

2 - Non-current assets: Other regions consist primarily of United Kingdom, Norway, and Germany.

Foreign currency

In preparing the financial statements of the Group, transactions in currencies other than the entity’s functional currency (i.e., a foreign currency) are recognised at the rates of exchange prevailing on the dates of the transactions. At each reporting date, assets and liabilities denominated in a foreign currency are translated to the functional currency using the closing exchange rate and items of income and expense are translated at the monthly average exchange rate. Foreign currency gains and losses arising from translation differences are recognised in the Consolidated Statement of Income.

For more information about currency risk, see Note 2 - Financial risk management.

Accounting policies

Use of estimates and judgements

The preparation of these Consolidated Financial Statements, in accordance with IFRS, requires management to make judgements, estimates, and assumptions that affect the application of the Group's accounting policies, the reported amount of assets, liabilities, revenues, expenses, and other related financial items. Management reviews its estimates and assumptions on a continuous basis; changes in accounting estimates are recognised in the period in which the estimates are revised, and prospectively thereafter. Details of critical estimates and judgements which the Group considers to have a significant impact upon the financial statements are set out below and the corresponding impacts can be seen in the following notes;

- a) Revenue recognition — determining the transaction price of performance obligations included with sales of vehicles and variable consideration for volume related discounts to fleet customers — Note 4 - Revenue.
- b) Intangible assets — capitalizing intellectual property and determining the useful lives — Note 12 - Intangible assets and goodwill.
- c) Impairment testing — Note 12 - Intangible assets and goodwill.
- d) Valuation of loss carry-forwards — Note 10 - Income tax expense.

Cash and cash equivalents

Cash consists of cash in banks with an original term of three months or less. All highly liquid, short-term investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value are classified as cash equivalents.

In the Consolidated Statement of Cash Flows, cash and cash equivalents consists of cash and cash equivalents as defined above.

Restricted cash

Restricted cash mainly consists of deposits that have been pledged to secure short-term bank loans. The balance in restricted cash as of December 31, 2020 and 2019, amounted to \$50,206 and \$184,813 respectively.

Government grants

The Group's subsidiaries based in the People's Republic of China received government grants which were conditioned to be used for production and production related costs and grants for non-specified purposes. These grants are not tied to the future trends or performance of the Group and are not required to be refunded under any circumstance. Receipt of such grants are either reported as a deduction to the related expense or as other operating income, depending on the nature of the grant received. For the years ended December 31, 2020 and 2019, government grants amounted to \$1,284 and \$122 respectively.

Revenue recognition

Revenue from contracts with customers is measured at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. In determining the transaction price, the Group evaluates whether the contract includes other promises that constitute a separate performance obligation to

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

which a portion of the transaction price needs to be allocated. When consideration in a contract includes variable amounts, the Group estimates the consideration to which Polestar will be entitled in exchange for transferring goods to the customer, using either the expected value method or the most likely amount method. The Group makes judgements related to potential returns, liabilities to customers related to performance obligations and potential sales discounts when considering revenue.

For contracts that contain more than one performance obligation, Polestar Group allocates the transaction price to each performance obligation on a relative standalone selling price basis. The standalone selling price of the distinct good or service underlying each performance obligation is determined at contract inception. It represents the price at which Polestar Group would sell a promised good or service separately to a customer. If a standalone selling price is not directly observable, Polestar Group instead estimates it, using appropriate data that reflects the amount of consideration to which the Group expects to be entitled in exchange for transferring the promised goods or services to the customer.

Polestar Group disaggregates revenue by major category based on what it believes are the primary economic factors that may impact the nature, amount, timing, and uncertainty of revenue and cash flows from customer contracts.

Sales of vehicles

Revenue from the sales of vehicles includes sales of the Group's vehicles as well as related accessories and services. Revenue is recognised when the customer obtains control of delivered goods or services, and thus has the ability to direct the use of, and obtain the benefits from, the goods or services. Polestar Group includes various services and maintenance offers with the sale of each vehicle for a period of time specified in the contract.

Polestar Group also provides connected services, including access to the internet and over-the-air software and performance updates which provides Polestar's customers new features and improvements to existing vehicle functionality. Although Polestar's connected services improve the in-vehicle experience, it is not required when driving a Polestar vehicle.

These services and maintenance and connected services are considered stand-ready obligations as Polestar cannot determine (1) when a customer will access a service, or (2) the quantity of a service the customer will require (i.e., delivery is within control of the customer). Polestar uses an expected cost-plus margin approach for estimating the transaction price for these stand-ready obligations. The related performance obligations are satisfied in accordance with the terms of each service, and revenue is deferred and recognised on a straight-line basis over the contract period as a stand-ready obligation. The deferred revenue is presented as contract liabilities, since the customers' payments are made before the services are transferred.

The residual amount of the transaction price is allocated to the performance obligation associated with the sale of the vehicle which is recognized at a point in time when the vehicle is delivered.

Vehicles are sold to individuals (end customers), fleet customers, and financial service providers. Since commercialisation of Polestar vehicles commenced in the third quarter of 2020, the Group had not recognised a material amount of customer returns, and therefore has not accrued any obligations for returns, refunds, or other similar obligations.

There are no significant payment terms for end customers, fleet customers, or financial service providers as payment is due on or near the date of invoice.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Consideration received by fleet customers is variable in nature as the customer can receive volume related discounts, which are annual rebates based on the volume of vehicles ordered during the year. There is no significant variability in consideration received from customers.

Sales of software and performance engineered kits

Revenue from the sales of software is related to intellectual property licensed to Volvo Cars under which Volvo Cars obtained rights to provide software upgrades to their customers' vehicle computer systems in exchange for sales-based royalties to Polestar Group. Software upgrades are downloaded and installed at Volvo dealerships at a point in time when the vehicle is delivered to the customer. As the Group's performance obligation is satisfied when Volvo Cars delivers the vehicle to the customer, the Group recognizes software license revenue concurrent with Volvo Cars' delivery.

Revenue from the sales of performance engineered kits is related to intellectual property licensed to Volvo Cars under which Volvo Cars obtained rights to provide optimisations and enhancements to their customers' vehicles in exchange for sales-based royalties to Polestar Group. Performance engineered kits are installed at Volvo manufacturing plants at a point in time when the vehicle is delivered to the customer. As the Group's performance obligation is satisfied when Volvo Cars delivers the vehicle to the customer, the Group recognizes engineered kits license revenue concurrent with Volvo Cars' delivery. During the year ended December 31, 2019, revenue from the sale of performance engineered kits was inclusive of a one-time contract termination fee paid by Volvo Cars that was accounted for as a contract modification. Polestar Group and Volvo Cars entered into a new license agreement in December 2020.

There are no significant payment terms as payment is due near the date of invoice.

Sales of carbon credits

Revenue from the sale of carbon credits is recognised when the performance obligation is satisfied and when the customer, an original equipment manufacturer, obtains control of the carbon credits and has the ability to direct the use of, and obtain the benefits from, the carbon credits transferred.

There are no significant payment terms as payment is due near the date of invoice.

Other revenue

Other revenue consists of revenue generated through the sale of research and development services and revenue generated from the sale of certain vehicle components and accessories. The performance obligation related to the sale of research and development services is satisfied over time as Polestar maintains an enforceable right to payment as costs are incurred and services are provided; the performance obligation related to the sale of vehicle components and other accessories is satisfied at the point in time Polestar Group delivers components to the customer. Revenue from the sale of research and development services is recognised over time; revenue from the sale of vehicle components and other accessories is recognised when the customer obtains control of the goods and has the ability to direct the use of, and obtain the benefits from, the goods transferred.

There are no significant payment terms as payment is due near the date of invoice.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Contract liabilities

Contract liabilities to customers are obligations related to contracts with customers, and are recognised when Polestar Group is obligated to transfer goods or services for which consideration has already been received. Contract liabilities to customers include sales generated obligations, deferred revenue from service contracts (i.e., services to be performed), and from Connected Services related to the Polestar 1 (“PS1”) and Polestar 2 (“PS2”).

As the Group satisfies its performance obligations, revenue is recognised, and the contract liability is reduced. As stated above, delivery of services and maintenance is within the customer’s control. Accordingly, the Group expects to recognise revenue related to such service contract liabilities over the 3-year period following initial recognition, consistent with the terms of the contractually offered services. Related to connected services, the Group expects to recognise revenue over the 8-year period following initial recognition, consistent with the useful life of the vehicle. In the case of volume related discounts that are triggered over time, a short-term contract liability will also be recognised as payment is due within a twelve month period, in line with contractual payment terms. During the third quarter of 2020, the Group entered the commercial space and started selling vehicles, generating contract liabilities in 2020 that did not previously exist in 2019.

Costs of sales

For the years ended December 31, 2020 and 2019, cost of sales amounted to \$553,724 and \$39,790 respectively. Costs of sales are related to the sales of vehicles and related accessories and services which includes depreciation related to PPE and ROU assets and amortisation of manufacturing engineering. Sales of software and performance engineered kits and other revenue are related to items which were originally developed with the intent of internal use, not with the intent to sell. As such, all costs were incurred during the research and development phase and were appropriately capitalised or expensed.

Employee benefits

Polestar Group compensates its employees through short-term employee benefits, other long-term benefits, and post-employment benefits. Generally, an employee benefit is recognised in accordance with IAS 19, Employee Benefits, when an employee has provided service in exchange for employee benefits to be paid in the future or when Polestar Group is contractually committed to providing a benefit without a realistic probability of withdrawal from its commitment. For the years ended December 31, 2020 and 2019, Polestar Group did not extend termination benefits or share-based payments to employees.

Short-term employee benefits

Short-term employee benefits consist of wages, salaries, social benefit costs, paid annual leave and paid sick leave, and bonuses that are expected to be settled within twelve months of the reporting period in which services are rendered. Short-term employee benefits are recognised at the undiscounted amounts expected to be paid when the liabilities are settled and presented within current provisions and other current liabilities in the Consolidated Statement of Financial Position.

Short-term employee benefits includes Polestar Group’s Annual Bonus Program (the “Polestar Bonus”), which is a cash-settled short-term incentive program for all permanent employees in all countries. The bonus is based on certain key performance indicators (“KPIs”). Bonuses are expressed as a percentage of employees’ annual base

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

salaries and the target bonus varies by employee location and level. The program runs during the calendar year and bonus pay-out is made on a pro-rata basis based on employment during the year. Employees need to have joined the organisation as of December 1st of the year in order to be eligible for the program. An estimate of the expected costs of the program are calculated and recognised at the end of each reporting period.

Other long-term benefits

Polestar Group's only other long-term benefit is the annual Long Term Variable Pay Program ("LTVP") is a cash-settled incentive program for certain key management personnel that is based on (1) valuation of Volvo Cars after a three year period (i.e., the vesting period) and (2) Volvo Car's achievement of certain profit and revenue growth metrics. The LTVP program was instituted at Polestar Group to incentivize key management personnel who transferred employment from Volvo Cars to Polestar Group. Payouts are based on a synthetic share price derived from an independent third-party valuation that is calculated using a discounted cash flow analysis of Volvo Cars and a market analysis of peer companies. Depending on the employee's position, they are eligible to receive an award equivalent to a certain percentage of their annual base salary that is capped at a 300% ceiling. Employees must remain employed to be eligible to receive the award. The fair value of the LTVP is recognised on the annual grant date, is subsequently remeasured at the end of each reporting date, and is presented within current and non-current provisions in the Consolidated Statement of Financial Position.

Post-employment benefits

Polestar Group's post-employment benefits are comprised of defined contribution pension plans and the Swedish defined benefit pension ("ITP 2") that is managed by the mutual insurance company Alecta.

For defined contribution plans, premiums are paid to a separate legal entity that manages pension plans on behalf of various employers. There is no legal obligation to pay additional contributions if this legal entity does not hold sufficient assets to pay all employee benefits. Contributions payable are recognised in the reporting period in which services are rendered and presented within current and non-current provisions in the Consolidated Statement of Financial Position. Contribution rates are unique to each employee.

Polestar Group's only defined benefit plan is the ITP 2 plan in Sweden. This plan is accounted for as a multi-employer defined contribution plan under IAS 19 because Alecta does not distribute sufficient information that enables employers to identify their share of the underlying financial position and performance of ITP 2. This treatment is specific to companies operating in Sweden under the guidance discussed in the Swedish Financial Reporting Board pronouncement UFR 10, Accounting for the pension plan ITP 2 financed through an insurance in Alecta, and IAS 19.32–39, Multi-employer plans. The premiums for retirement pensions and survivor's pensions are calculated individually and are, among other factors, based on salary, previously earned pension benefits, and expected remaining years of service. Premiums of \$2,762 are estimated to be paid to Alecta for the year ended December 31, 2021 related to ITP 2.

Polestar Group's share of the total savings premiums for ITP 2 in Alecta for the years ended December 31, 2020 and 2019, amounted to 0.05375% and 0.06478% respectively. Further, Polestar Group's share of the total number of active policy holders as of December 31, 2020 and 2019, amounted to 0.02605% and 0.02069% respectively. The collective consolidation level comprises the market value of Alecta's asset as a percentage of the insurance obligations calculated in accordance with Alecta's actuarial methods and assumptions. The collective funding ratio is normally allowed to vary between 125% and 175%. If the consolidation level falls

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

below 125% or exceeds 175%, measures are taken to increase the contract price for new subscriptions and to expand exiting benefits or introduce premium reductions. As of December 31, 2020, Alecra's surplus of consolidation level amounted to 148%.

Leases

The Group initially adopted IFRS 16, *Leases* ("IFRS 16"), applying the modified retrospective approach (i.e., without restatement of comparative data) on January 1, 2019.

For contracts entered into before January 1, 2019, the Group elected the practical expedient to "grandfather" its previous assessment of which existing contracts are, or contain, leases. For all contracts entered into after January 1, 2019, the Group applies the definition of a lease as prescribed by IFRS 16 to determine if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration (i.e., contains a lease).

Upon adoption of IFRS 16, the Group recognised lease liabilities in relation to its leases, measured at the present value of the remaining lease payments, discounted using an incremental borrowing rate of 4.5% which was the lessee's incremental borrowing rate as of January 1, 2019. The impact of adoption of IFRS 16 was as follows:

Lease commitments as of December 31, 2018	12,211
Discounted using the incremental borrowing rate of 4.5%	(1,959)
Lease liability recognised at January 1, 2019	10,252

At inception of a contract, the Group assesses whether a contract is or contains a lease. In determining the lease term, management considers all relevant facts and circumstances related to exercising an extension option or not exercising a termination option. Such options are only included in the lease term if the extension option or termination option is reasonably certain to be exercised or not exercised, respectively. If circumstances surrounding the Group's decision related to extension and termination options change, the Group reassess the term of the lease accordingly. As of December 31, 2020 and 2019, no material extension options existed.

At the lease commencement date, a right-of-use ("ROU") asset and a lease liability are recognised on the Consolidated Statement of Financial Position with respect to all lease arrangements in which the Group is a lessee. The lease liability is initially measured at an amount equal to the present value of the future lease payments under the lease contract, discounted by the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate. Lease payments included in the measurement of the lease liability comprise in-substance fixed payments, among other fixed lease payments, and variable lease payments that depend on an index or a rate, the exercise price of purchase options (if the lessee is reasonably certain to exercise the options), and payments of penalties for terminating the lease (if the lease term reflects the exercise of an option to terminate the lease). The practical expedient of including non-lease components in the measurement of the lease liability for all asset classes is applied.

The ROU asset is initially measured at cost, which is comprised of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, and the estimate of costs to dismantle and remove the underlying asset or the site on which it is located, less any lease incentives received. The asset is subsequently depreciated on a straight-line basis from the commencement date to the earlier of the end of the useful life of the underlying asset or the end of the lease term. For more information regarding amortisation of the ROU asset, refer to Note 9 - Leases. The ROU asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability. Upon initial adoption of IFRS 16, the Group's ROU assets recognized at January 1, 2019 amounted to \$14,693, which differed from the corresponding lease liability recognized due to a prepayment on our land lease in Chengdu, China.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

The Group elected the practical expedient to account for leases with lease terms which end within twelve months of the initial date of application as a short-term lease. The Group also elected the practical expedient to not recognise a ROU asset and lease liability for short-term and low-value leases. Low value assets are defined as asset classes that are typically of low value, for example, small IT equipment (cell-phones, laptops, computers, printers) and office furniture. Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense over the lease term in the Consolidated Statement of Income.

On the of the Consolidated Statement of Financial Position, the lease liabilities are presented within current interest-bearing liabilities and other non-current interest-bearing liabilities in the Consolidated Statement of Financial Position. In the Consolidated Statement of Income, depreciation expense of the ROU assets is presented on the same line item(s) as similar items of PPE. The interest expense on the lease liability is presented as part of finance expenses. In the Consolidated Statement of Cash Flows, amortisation of the lease liability is presented as a cash flow from operating activities. Lease related interest expense is presented within cash flows from operating activities.

Sale lease-back transactions

The Group enters into transactions to sell vehicles concurrent with agreements to lease the same vehicles back for a period of six to twelve months. At the end of the rental period, Polestar is obligated to re-purchase the car. Due to this re-purchase obligation, this transaction is accounted for as a financial liability. Accordingly, the Group will not record a sale of its vehicles for accounting purposes and will depreciate the asset over its useful life.

Finance income and expense

Finance income and expense represent items outside the Group's core business. These items are presented separately from operating income and include net foreign exchange rate gains (losses) on financial activities, interest income on bank deposits, expenses to credit facilities, interest expense, and other finance expenses.

Income tax expense

Polestar Group's Income tax expense consists of current tax and deferred tax. Taxes are recognised in the Consolidated Statement of Income, except when the underlying transaction is recognised directly in equity or the Consolidated Statement of Comprehensive Income, whereupon related taxation is also recognised in equity or the Consolidated Statement of Comprehensive Income.

Current tax is tax that must be paid or will be received for the current year. Current tax also includes adjustments to current tax attributable to previous periods. Deferred tax is calculated according to the balance sheet method for all temporary differences, with the exception of book goodwill in excess of tax goodwill recorded in purchase accounting, which arises between the tax value and the carrying amount of assets and liabilities.

Deferred tax assets and liabilities are measured at the nominal amount and at the tax rates that are expected to be applied when the asset is realised or the liability is settled, using the tax rates and tax rules that have been enacted or substantively enacted at the date of the Consolidated Statement of Financial Position.

Deferred tax assets relating to deductible temporary differences and loss carry forwards are recognised to the extent it is probable that they will be utilised in the future. Deferred tax assets and deferred tax liabilities are offset when they are attributable to the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis and the affected company has a legally adopted right to offset tax assets against tax liabilities.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

The recognition of deferred tax assets requires assumptions to be made about the level of future taxable income and the timing of recovery of deferred tax assets. These assumptions take into consideration forecasted taxable income by relevant tax jurisdiction. The measurement of deferred tax assets is subject to uncertainty and the actual result may diverge from judgements due to future changes in projected earnings by the company, business climate, and changes to tax laws. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used. If needed, the carrying amount of the deferred tax asset will be altered. The judgements that have been made affect Net loss both positively and negatively.

Intangible assets and goodwill

An intangible asset is recognised when it is identifiable, Polestar Group controls the asset, and it is expected to generate future economic benefits. Intangible assets have either finite or indefinite lives. Finite lived intangible assets are intellectual property ("IP"), both acquired and internally developed, and software. Indefinite lived intangible assets are Goodwill and Trademarks.

Intangible assets are measured at acquisition or manufacturing cost, less accumulated amortisation and, as applicable, impairment loss. Intangible assets with finite lives are amortised on a straight-line basis. The Group makes estimates and judgements related to expected usage of intangible assets in accordance with Management's 2021-2025 business plan, product life cycles, technological obsolescence, developments, and advancements specific to the battery electric vehicle industry. Management estimates the useful life of intangible assets by taking into account judgements on how the Group plans to utilize such intangibles in accordance with the business plan and any related rights and obligations under its contractual agreements. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. The useful lives of intangible assets with indefinite useful lives, goodwill and trademarks, are assessed annually to determine whether the indefinite designation continues to be appropriate. Intangible assets with indefinite useful lives are tested for impairment annually, or if an event which could give rise to impairment occurs.

Manufacturing engineering

Amortisation for manufacturing engineering, reflecting engineering performed in terms of production facility layout, is included in Cost of sales.

Acquired IP

Polestar Group has entered into agreements with Volvo Car Group ("Volvo Cars") regarding the development of technology for both upgrades of existing models and upcoming models. The technology can be either Polestar unique or commonly shared. In both cases, Polestar Group is in control of the developed product, either through a license or through ownership of the IP.

Acquired IP are finite-lived intangible assets which are amortised over their estimated useful lives for 3-7 years. The remaining useful life of acquired IP is between 1-6 years. Amortisation of acquired IP related to the PS1 and PS2 is included in research and development expenses as it represents foundational IP that is leveraged across multiple functions of the Group.

Internally developed IP

Internally developed IP are finite-lived intangible assets which are amortised over their estimated useful lives for 3-7 years. Amortisation of internally developed IP is included in research and development expenses and commences when the internally developed IP is ready for its intended use.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Polestar Group's research and development activities are divided into a concept phase and a product development phase. Costs related to the concept phase are expensed in the period incurred, whereas costs related to the product development phase are capitalised upon the commencement of product development. Research and development expenses recognised for the years ended December 31, 2020 and 2019, amounted to \$183,849 and \$34,386 respectively and were substantially related to the 2020 amortisation of PS1 and PS2 technology.

Software

Software is a finite-lived intangible asset which is amortised over its estimated useful life of 3-8 years. Amortisation of software is included in research and development expenses, selling expenses, or administrative expenses depending on the way in which the assets have been used.

Trademarks

Trademarks are assumed to have indefinite useful lives since Polestar Group has the right and the intention to continue to use the trademarks for the foreseeable future, while generating net positive cash flows for Polestar Group. Trademarks were generated when Volvo Cars acquired Polestar Group in July 2015. Trademarks are recognised at fair value at the date of the acquisition less any accumulated impairment losses.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of identifiable assets and liabilities acquired in a business combination. Goodwill was generated as a result of Volvo Cars acquiring Polestar Group in July 2015. For more detailed information on goodwill and intangible assets, see Note 12 - Intangible assets and goodwill.

Property plant and equipment

Items of PPE are recognised at acquisition cost, less accumulated depreciation, and as applicable, accumulated impairment loss. The cost of an acquired asset includes its purchase price, expenditures directly attributed to the acquisition and subsequent preparation of the asset for its intended use, and the initial estimate of costs to dismantle and remove the item of PPE and restore the site on which it was located. Repairs and maintenance expenditures are expensed in the period incurred. Expenses related to leasehold improvements and other costs which enhance or extend the life of PPE are capitalised over the useful life of the asset.

Buildings under development are measured at actual costs. The actual costs include various construction expenditures during the construction period, borrowing costs capitalised before the building is ready for intended use, and other relevant costs. Buildings under development are not depreciated and are transferred to fixed assets when ready for the intended use.

PPE are depreciated on a straight-line basis down to their residual value, which is typically estimated to be zero, over their estimated useful lives. Each part of a tangible asset, with a cost that is significant in relation to the total cost of the item, is depreciated separately when the useful life for that part differs from the useful life of the other parts of the item.

The following useful lives are applied in Polestar Group:

Asset	Useful lives (in years)
Buildings	30-50
Machinery and equipment	3-7

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Depreciation of PPE is included in costs of sales as well as selling or administrative expenses, depending on the nature of the item being depreciated.

Tangible assets are derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Consolidated Statement of Income as other operating income and expense.

Impairment

At the end of each reporting period, tangible and definite-lived intangible assets are assessed for indications of impairment. Tangible and definite-lived intangible assets are tested for impairment when an impairment indicator is determined to exist. Indefinite-lived intangible assets, intangible assets not yet available for use, and goodwill are tested for impairment at least once annually.

For the impairment assessment, assets are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets (i.e., a cash-generating-unit or CGU). Polestar Group does not test assets for impairment individually because Polestar Group constitutes a single CGU in which assets do not generate cash flows that are independent of those of other assets. All assets are concentrated around battery electric vehicle technologies and processes that are utilized in Polestar Group's operations.

In testing the CGU for impairment, the CGU's carrying amount is compared to its recoverable amount. The recoverable amount is the higher of the CGU's fair value less costs of disposal or value in use. Value in use is defined as the present value of the future cash flows expected to be derived from an asset (i.e., a discounted cash flow). For the years ended December 31, 2020 and 2019, this discounted cash flow was calculated based on estimations regarding future cash flows as seen in the 2021-2025 business plan, a terminal growth rate of 2.0% for cash flows through the next 10 years, and a discount rate of 10.1%. The estimated future cash flows are based on assumptions valid at the date of the impairment test that represent the best estimate of future economic conditions. Such estimates are calculated using estimates, assumptions, and judgements related to future economic conditions, market share, market growth, and product profitability which are consistent with Polestar Group's latest business plan.

When the carrying amount of the CGU is determined to be greater than the recoverable amount, an impairment loss is recognised by first reducing the CGU's goodwill and then reducing other assets in the CGU on a pro rata basis. For the years ended December 31, 2020 and 2019, no impairment losses were recognised. No impairment loss would have been recognised in the years ended December 31, 2020 and 2019 under a stress case scenario utilizing a discount rate of 15.1% to calculate the recoverable amount of the CGU.

Financial instruments

Financial instruments are any form of contract that gives rise to a financial asset in one company and a financial liability or equity instrument in another company.

Classification of financial assets and liabilities

The classification of financial instruments is based on the business model in which these instruments are held, on their contractual cash flows and takes place at initial recognition. Assessments of the contractual cash flows are made on an instrument-by-instrument basis. Polestar Group applies one business model for interest-bearing instruments. All interest-bearing instruments are held to collect contractual cash flows and are carried at amortised cost.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Initial recognition

Financial assets and liabilities are recognised on the Consolidated Statement of Financial Position on the date when Polestar Group becomes a party to the contractual terms and conditions (i.e. the transaction date). Financial assets are initially recognised at the price that would be received when selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date ("Fair Value"), plus transaction costs directly attributable to the acquisition of the financial asset, except for those financial assets carried at fair value through the Consolidated Statement of Income.

Subsequent measurement

For the purpose of subsequent measurement, financial instruments are measured at amortised cost or financial fair value through profit or loss ("FVTPL").

Financial instruments carried at FVTPL consist of financial assets with cash flows other than those of principal and interest on the nominal amount outstanding. Changes in fair value of these instruments are recognised in profit and loss as finance income (expense).

Financial instruments carried at amortised cost are non-derivative financial instruments with contractual cash flows that consist solely of payments of principal and interest on the nominal amount outstanding. Financial instruments carried at amortised cost are subsequently carried at amortised cost using the effective interest method. Gains and losses are recognised in the Consolidated Statement of Income when the financial assets carried at amortised cost are impaired or derecognised. Interest effects on the application of the effective interest method are also recognised in the Consolidated Statement of Income as well as effects from foreign currency translation.

Financial assets

Financial assets on the Consolidated Statement of Financial Position consist of trade receivables, other current and non-current financial assets, derivative assets and cash and cash equivalents.

A financial asset or a portion of a financial asset is derecognised when substantially all significant risks and benefits linked to the asset have been transferred to a third party. Where Polestar Group concludes that all significant risks and benefits have not been transferred, the portion of the financial assets corresponding to Polestar Group's continuous involvement continues to be recognised.

Financial liabilities

Financial liabilities in the Consolidated Statement of Financial Position encompass liabilities to credit institutions, trade payables, other current and non-current financial liabilities and derivative liabilities.

A financial liability or a portion of a financial liability is derecognised when the obligation in the contract has been fulfilled, cancelled or has expired.

Derivative financial instruments

The Group classifies its derivatives as carried at FVTPL while all other financial assets and liabilities are carried at amortised cost.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Impairment of financial assets

The Group assesses on a forward-looking basis the expected credit loss associated with financial assets measured at amortised cost. For the initial recognition of trade receivables with similar risk characteristics, an analysis is made to identify the need for a provision for expected credit losses (“ECL”). The Group uses the simplified approach for estimating ECLs which requires expected lifetime losses to be recognised from the initial recognition of the receivable. The Group considers historical credit loss experience, current economic conditions, supportable forecasts for future economic conditions, macroeconomic conditions (i.e., impacts of the Covid-19 pandemic), and other expectations of collectability. The ECL provision is revaluated on an ongoing basis after initial recognition.

If an ECL is calculated, it is recognised in an allowance account which decreases the amount of gross trade receivables. The amount of the expected credit loss will be recognised as an expense in the Consolidated Statement of Income. As of December 31, 2020, no ECLs have been recorded for the Group’s financial assets.

Derivative financial instruments

The Group periodically holds derivative financial instruments in the form of currency swaps to hedge its foreign currency risk exposure. Polestar Group does not apply cash-flow hedge accounting. The Group accounts for its foreign currency swaps in accordance with IFRS 9; the carrying value of the hedged item is adjusted for fair value changes attributable to the risk being hedged, and those fair value changes are recognised in the consolidated statement of income. As of December 31, 2020, the Group did not have any foreign currency swaps outstanding. As of December 31, 2019, Polestar Group had two foreign currency swap contracts outstanding which were entered into at the end of December, 2019. These contracts expired in September and December 2020, respectively.

Fair value measurement

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required, or permitted, to be either recorded or disclosed at fair value, the Group considers the principal or most advantageous market in which it would operate, and it also considers assumptions that market participants would use when pricing the asset or liability.

A three-tiered hierarchy is established as a basis for considering such assumptions and for inputs used in the valuation methodologies in measuring fair value. This hierarchy requires that the Group use observable market data, when available, and minimise the use of unobservable inputs when determining fair value:

Level 1—Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2—Observable, market-based inputs, other than quoted prices, in active markets for identical assets or liabilities.

Level 3—Unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Financial assets and liabilities of the Group primarily consist of cash and cash equivalents, restricted cash, trade receivables, trade payables, and short-term and long-term borrowings. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Polestar Group's assessment of the significance of a particular input to the fair value measurements requires judgement and may affect the valuation of the assets and liabilities being measured and their classification within the fair value hierarchy.

Inventories

Inventories are measured at the lower of acquisition or manufacturing cost and net realisable value, and consist primarily of finished goods and work in progress as of December 31, 2020 and 2019, respectively. Net realisable value is calculated as the selling price in the ordinary course of business less estimated costs of completion and selling costs. The acquisition or manufacturing costs of inventory includes costs incurred in acquiring the inventories and bringing them to their present location and condition, including, but not limited to, costs such as freight and customs duties. Costs for research and development, selling, administration and financial expenses are not included. For groups of similar products, a group valuation method is applied. The cost of inventories of similar assets is established using the first-in, first-out method (FIFO).

Equity

Distributed group contribution to the owners, along with the related tax effect, are recorded in equity in accordance with the principles for shareholder's contributions. If any unconditional shareholder's contributions are received from the main owner, they are recognised in equity.

Provisions and contingent liabilities

Provisions are recognised on the Consolidated Statement of Financial Position when a legal or constructive obligation exists as a result of a past event, it is deemed more likely than not that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are regularly reviewed and adjusted as further information becomes available or circumstances change. If the effect of the time value of money is material, non-current provisions are recognised at present value by discounting the expected future cash flows at a pre-tax rate reflecting current market assessments of the time value of money. The discount rate does not reflect such risks that are taken into consideration in the estimated future cash flow. Revisions to estimated cash flows (both amount and likelihood) are allocated as operating cost. Changes to present value due to the passage of time and revisions of discount rates to reflect prevailing current market conditions are recognised as a financial cost.

Warranty

Polestar Group issues various types of product warranties, under which the Group generally guarantees the performance of products delivered and services rendered for a certain period of time. The estimated warranty costs include those costs which are related to contractual warranties, warranty campaigns (i.e., recalls), and warranty cover in excess of contractual warranties or campaigns. Warranty cover in excess of contractual warranties or campaigns occurs when Polestar Group provides a customer warranty type assistance, above and beyond the stated nature of the contract. This type of warranty cover is normal practice in maintaining a strong business relationship with the customer; the Group accordingly includes the estimate of this provision in total estimated warranty costs. In the future, the Group, may at various times initiate a recall if any products or vehicle components, including any systems or parts sourced from our suppliers, prove to be defective or noncompliant with applicable laws and regulations.

All warranty provisions are recognised at the time of the sale of vehicles. The initial calculations of the warranty provision is based on historical warranty statistics, considering factors like known quality improvements and

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

costs for remedying defaults. The warranty provision is subsequently adjusted if recalls for specific quality problems are made. On a quarterly basis, the provisions are adjusted to reflect the latest available data such as actual spend, exchange rates, and discount rates. The provisions are reduced by warranty reimbursements from suppliers. Such refunds from suppliers decrease Polestar Group's warranty costs and are recognised to the extent these are considered to be virtually certain, based on historical experience or agreements entered into with suppliers.

Other provisions

Other provisions primarily comprise expected costs for provisions for the Group's long-term incentive plan, short-term incentive plan, and other taxes and charges related to certain taxes. Other provisions can also include provisions for anticipated losses, giving consideration to historical trends, various other risks, and specific agreements related to recoveries provided by suppliers which cannot be allocated to any other class of provision.

Contingent liabilities

When a possible obligation does not meet the criteria for recognition as a liability, it may be disclosed as a contingent liability. These possible obligations derived from past events and their existence will be confirmed only when one, or several, uncertain future events, which are not entirely within the Group's control, take place or fail to take place. A contingent liability could also exist for a present obligation, due to a past event, where an outflow of resources is less than likely or when the amount of the obligation cannot be reliably measured.

Borrowing costs

Borrowing costs are expensed as incurred unless they are directly attributable to the acquisition, construction or production of a qualifying asset and are therefore part of the cost of that asset.

Note 2 - Financial risk management

Management of financial risks

As a result of its business and the global nature of its operations, Polestar Group is exposed to market risks from changes in foreign currency exchange rates, interest rate risk, credit risk and liquidity risk.

Foreign currency exchange risk

The global nature of Polestar Group's business exposes cash flows to risks arising from fluctuations in exchange rates. Relative changes in the currency rates have a direct impact on Polestar Group's operating income, finance income, finance expense, consolidated statement of financial position and Consolidated Statement of Cash Flows. To mitigate the impact of currency exchange rate fluctuations for the business operations The Group continually assesses its exposure to exchange rate risks.

Translation exposure risk

Currency translation risk arises from the consolidation of foreign subsidiaries that maintain net assets denominated in functional currencies other than USD (i.e., the functional currency of the Parent). Such currency effect is recorded in the Consolidated Statement of Comprehensive Income. The Group is primarily exposed to currency translation risk from subsidiaries with functional currencies in the Swedish krona ("SEK"), the Euro ("EUR"), and the Chinese yuan ("CNY").

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Transaction exposure risk

Currency transaction risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the functional currency of the relevant Group entity. Primarily, the Group is exposed to currency transaction risk in Group companies with SEK and CNY as the functional currency. The primary risks in these companies are CNY/SEK, EUR/SEK and EUR/CNY due to trade receivables, trade payables, and short-term credit facilities.

During the year ended December 31, 2020, the Group was primarily exposed to changes in CNY/SEK and EUR/SEK foreign exchange rates. The following table illustrates the impact of a 10% change in these foreign exchange rates:

	Impact on loss before income taxes
CNY/SEK exchange rate - increase/decrease 10%	+/- 86,794
EUR/SEK exchange rate - increase/decrease 10%	-/+ 34,732

During the year ended December 31, 2019, the Group was primarily exposed to changes in the EUR/CNY foreign exchange rate. The following table illustrates the impact of a 10% change in this foreign exchange rate:

	Impact on loss before income taxes
EUR/CNY exchange rate - increase/decrease 10%	+/- 13,465
EUR/SEK exchange rate - increase/decrease 10%	+/- 11,220

During the years ended December 31, 2020 and 2019, the Group had no significant transaction exposure to the Parent's functional currency, USD. The USD currency effect was entirely related to translation exposure that is reflected in the Consolidated Statement of Comprehensive Income.

The Group's overall currency exposure is reduced by natural hedging, which consists of the currency exposures of the business operations of different entities partially offsetting each other at the Group level. These natural hedges eliminate the need for hedging to the extent of the matched exposures.

Interest rate risk

The Polestar Group's main interest rate risk arises from short-term liabilities to credit institutions with variable rates, which exposes the Group to cash flow interest rate risk. As of December 31, 2020 and 2019, the nominal amount of liabilities to credit institutions with floating interest rates was \$363,490 and \$390,445 respectively. Management closely monitors the effects of changes in the interest rates on the Group's interest rate risk exposures, but the Group currently does not take any measures to hedge interest rate risks. Interest rate risk associated with these loans is limited given their short-term duration.

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

The table below shows the estimated effect on profit or loss and equity of a parallel shift of the interest rate curves up or down by one percent on all loans. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The calculation considers the effect of financial instruments with variable interest rates, financial instruments at fair value through profit or loss or available for sale with fixed interest rates and the fixed rate element of interest rate caps. The analysis is performed on the same basis for 2020 and 2019.

Credit risk

The Polestar Group is exposed to counterparty credit risks if contractual partners, for example fleet customers are unable or only partially able to meet their contractual obligations. Polestar Group's credit risk can be divided into financial credit risk and operational credit risk. Credit risk encompasses both the direct risk of default and the risk of a deterioration of creditworthiness as well as concentration risks.

Financial credit risk

Financial credit risk on financial transactions is the risk that Polestar Group will incur losses as a result of non-payment by counterparties related to the Group's bank accounts, bank deposits, derivative transactions, and other liquid assets. In order to minimise financial credit risk, Polestar Group has adopted a policy of dealing with only well-established international banks or other major participants in the financial markets as counterparties. Further, Polestar Group also considers the credit risk assessment of its counterparties by the capital markets and priority is placed on high creditworthiness and balanced risk diversification. The rating of financial counterparties used during the years ended December 31, 2020 and 2019 were in the range of BBB to A+.

Operational credit risk

Operational credit risk arises from trade receivables. It refers to the risk that a counterparty will default on its contractual obligations which would, in turn, result in financial loss to the Group. Trade receivables at Polestar Group mostly consist of receivables resulting from the global sales of vehicles and technology. The credit risk from trade receivables encompasses the default risk of customers. Management evaluates for concentrations of credit risk at the customer level based on the outstanding trade receivables balance of each respective customer account. As of December 31, 2020, Volvo Cars accounted for \$194,503 (63.21%) of the Group's total trade receivables (i.e., trade receivables plus trade receivables - related parties), and an unrelated customer accounted for \$32,392 (10.53%). As of December 31, 2019, Volvo Cars accounted for \$44,068 (97.1%) of the Group's total trade receivables (i.e., third party and related party trade receivables). Refer to Note 23 - Related party transactions for more details on related parties. Historically, the Group has not incurred any losses from these customers and does not have any contractual right to off-set its payables and receivables.

Polestar has three categories of customers when considering sales of vehicles: (1) end customers who pay up-front for vehicles, (2) fleet customers, and (3) financial service providers. All credit risk related to sales to end customers who pay up-front for vehicles is eliminated due to the nature of the payment. To mitigate risk related to fleet customers, credit risk reviews are performed prior to entering into related sales agreements. Depending on the creditworthiness of its customers, Polestar Group may establish credit limits to reduce credit risks. Polestar sells vehicles to financial service providers, who then form separate contractual relationships with end

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

customers. To reduce the risk related to such financial service providers, Polestar Group has selected a few credible financing providers in each market. Credit risk reviews, establishment of credit limits, and selection of credible financial service providers must be strictly followed and monitored, globally. The maximum amount exposed to credit risk is the carrying amount of trade receivables. See Note 14 - Financial instruments for further details.

Liquidity risk

Liquidity risk is the risk that Polestar Group is unable to meet ongoing financial obligations on time. The Group faces liquidity risk as all loans from financial institutions are short-term in nature, typically with a credit term of one year, and trade payables with related parties represent working capital arrangements under which the liquidity needs of the Group are highly dependent on the continued flexible payment terms offered to the Group by its related parties. These flexible payment terms are not a contractual right and may be called upon in the future. Refer to Note 23 - Related party transactions for additional information on these arrangements. Polestar Group needs to have adequate cash and highly liquid assets on hand to ensure the Group can meet its short-term financing obligations and other working capital needs. Polestar manages its liquidity by holding adequate volumes of liquid assets like cash, cash equivalents and accounts receivable, by maintaining credit facilities in addition to the cash inflows generated by its business operations and capital contributions from private equity investors.

As of December 31, 2020 and 2019, the Group held cash and cash equivalents of \$316,424 and \$236,198 respectively that were available for managing liquidity risk. The Group entered into short-term financing arrangements with credit institutions to enhance short term liquidity and financing needs. Refer to Note 21 - Liabilities to credit institutions and other financing obligations for further detail on short-term borrowings. The Group's short-term and mid-term liquidity management takes into account the maturities of financial assets and financial liabilities and estimates of cash flows from business operations.

Management has established an appropriate liquidity risk management framework for management of the Group's short, medium and long-term funding and liquidity management requirements and the Group prepares long-term planning in order to mitigate funding and re-financing risks. Depending on liquidity needs, Polestar Group will enter into financing and debt agreements and/or lending agreements. All drawdown on loans are evaluated against future liquidity needs and investment plans.

Capital management

Safeguarding the Group's ability to continue as a going concern, driving growth to provide future returns for shareholders, and maintaining an optimal capital structure to reduce the cost of capital are Polestar Group's primary objectives when managing capital, and implementing related capital management strategies. To maintain or adjust the capital structure, the Group may issue new shares, sell assets to reduce debt, or enter into short term debt and financing arrangements to increase cash on hand. Capital is calculated as equity attributable to owners of the Parent as shown on the Consolidated Statement of Financial Position plus total borrowings and lease liabilities, less cash and cash equivalents.

Note 3 - Common control transaction

On September 14, 2020, Polestar was restructured so that 100% of ownership interests in the Polestar Group were transitioned from Polestar Automotive (Shanghai) Co., Ltd (incorporated in the People's Republic of China) ("Old Parent") to Polestar Automotive (Singapore) Pte. Ltd which is a wholly-owned entity of Polestar Automotive Holding Limited (incorporated in Hong Kong) ("New Parent"). The restructuring represented a

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

common control transaction rather than a business combination under the guidance in IFRS 3, Business Combinations, because (1) the New Parent was a shell company that did not meet the definition of a business at the time of the transaction, (2) ultimate control of the Polestar Group was the same before and after the transaction, and (3) control of the Polestar Group was not transitory (i.e., organised to effect a ‘grooming’ transaction).

Accordingly, the restructuring was recognised using the historic value method (i.e., the assets and liabilities are measured using the existing book value), and the impact of the restructuring is reflected in the Consolidated Statement of Changes in Equity under the “Changes in the consolidated group” subheading. Additionally, the presentation of the Consolidated Statement of Changes in Equity was required to be adjusted following the restructuring. Prior to the restructuring, the concept of share capital did not exist under the Old Parent’s limited company structure in China. Ownership interests were only represented by percentages of paid-in capital, as adjusted by accumulated losses and cumulative translation adjustments. Under the New Parent’s private company limited structure in Hong Kong, share capital was introduced to the Polestar Group’s equity and the Consolidated Statement of Changes in Equity. Therefore, capital infusions in the Old Parent are shown as other contributed capital in the Consolidated Statement of Changes in Equity prior to the restructuring. Total equity prior to the restructuring did not change, and restructuring resulted in issued share capital in the New Parent equivalent to the ownership percentages under the Old Parent.

Consideration transferred for the Polestar Group from the New Parent to the Old Parent under the restructuring was equal to the initial investment of the controlling owners in the Polestar Group. However, when the Polestar Group was separated from the Old Parent, the intercompany relationship between the Old Parent and the Polestar Group was severed which resulted in the realisation of accumulated gains in equity of \$5,801 in the Old Parent which were historically eliminated upon consolidation. The \$5,801 adjustment to equity does not reflect cash consideration transferred, but rather, the non-cash impact of separating intercompany interests and changing parent entities under the same controlling owners.

Note 4 - Revenue

Polestar Group disaggregates revenue by major category based on the primary economic factors that may impact the nature, amount, timing, and uncertainty of revenue and cash flows from these customer contracts as seen in the table below:

	2020	2019
Sales of vehicles ¹	542,783	—
Sales of software and performance engineered kits	35,434	73,107
Sales of carbon credits	27,141	—
Other revenue	4,887	19,308
Total	610,245	92,415

¹ - Revenues related to sales of vehicles are inclusive of insignificant stand-ready obligations related to services and maintenance included in the sale of vehicles and sales-generated obligations such as discounts and rebates offered to fleet customers.

For the year ended December 31, 2020, other revenue primarily consisted of revenue generated through the sale of technology to a related party. For the year ended December 31, 2019, other revenue primarily consisted of revenue generated through the sale of research and development (R&D) services to a related party.

For the year ended December 31, 2020, Volvo Cars accounted for \$107,948 (17.7%) of the Group’s revenue and an unrelated customer accounted for \$71,361 (11.69%) of the Group’s revenue. For the year ended December 31,

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

2019, Volvo Cars accounted for \$91,092 (98.6%) of the Group's revenue. Prior to 2020, the Group's principal operations related to the sale of R&D services, and software and performance engineered kits within its related party network. Refer to Note 23 - Related party transactions for further details.

Contract liabilities

	Sales generated obligation	Deferred revenue - extended service	Connected services	Total

of which non-current	—	7,480	4,944	12,424

As of December 31, 2020, the aggregate amount of the transaction price related to sales of vehicles allocated to the remaining performance obligations is \$17,072. Polestar will recognise revenue related to the extended service on a straight-line basis over the 3-year period following initial recognition consistent with the terms of the contractually offered services. Polestar will recognise revenue related to connected services on a straight-line basis over the 8-year period following initial recognition consistent with the useful life of the vehicle.

Since Polestar Group did not enter the commercial space until the third quarter of 2020, there were no contract liabilities provided for, or utilised, during 2019. Accordingly, no revenue was recognised during the year ended December 31, 2020 related to contract liabilities outstanding as of December 31, 2019 or performance obligations fully (or partially) satisfied. Revenue recognised is related to contract liabilities which were additions in 2020.

Note 5 - Depreciation and amortisation by function

Polestar will use acquired capitalized research and development related to PS1 and PS2 to serve as the basis for the development of future car models and technology. As such, amortization of these intangible assets is included in research and development expenses. The following table illustrates depreciation and amortisation by function:

	Property, plant and equipment	Right-of-use assets	Intangible assets	Total

Note 9 - Leases

Polestar Group primarily leases buildings and manufacturing production equipment. The Group also has short-term and low value leases related to the leasing of temporary spaces and small IT equipment, respectively. The lease term for land and buildings is generally 2 - 15 years with the exception of one long term land lease with a term of 50 years. The lease term for machinery and equipment is generally 2-6 years.

Note 10 - Income tax expense

Income tax expense recognised in the Consolidated Statement of Income is as follows:

	2020	2019
Current income tax for the year	(1,966)	(93)
Deferred taxes	(4,422)	3,874
China withholding taxes	(7,147)	(5,796)
Total	(13,535)	(2,015)

The deferred taxes have been calculated using a Hong Kong corporate income tax rate of 16.5%, and as applicable Chinese tax rate of 25% in 2019.

Information regarding current year income tax expense based on the applicable Hong Kong tax rate is as follows:

	2020	2019
Income before tax for the year	(471,323)	(195,960)
Tax according to the applicable Hong Kong tax rate 15.8% (25%)	74,449	48,989
Operating income/costs, non-taxable	(2,178)	(2,060)
Effect of different tax rate	34,700	(2,022)
Tax effect on deferred tax due to change of tax rate	(575)	993
Withholding tax	(7,147)	(5,796)
Non-recognition of deferred tax assets on other temporary differences	(32,223)	(14,869)
Not recognized loss carry-forward	(80,434)	(26,847)
Other	(127)	(403)
Total	(13,535)	(2,015)

Information regarding current year income tax expense for 2019 is based on the applicable Chinese tax rate. The shift from the applicable Chinese tax rate in 2019 to the applicable Hong Kong tax rate in 2020 is due to the

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

change in group composition that occurred in September 2020. The restructuring represented a common control transaction and resulted in certain tax losses in Sweden of \$30,418 to be forfeited. Refer to Note 3 - Common control transaction for further discussion.

Information regarding the composition of recognised deferred tax assets is as follows:

Specification of deferred tax assets	2020	2019
Unutilised tax loss carry-forward	1,031	3,402
Other temporary differences	1,126	—
Recognised value of deferred tax assets as of December 31	2,157	3,402

As of December 31, 2020 and 2019, respectively, deferred tax liabilities related to intangible assets amounted to \$6,548 and \$1,522.

All changes in deferred tax assets and liabilities have been reported in the Consolidated Statement of Income for the periods ended December 31, 2020 and December 31, 2019, respectively.

Information regarding unrecognised deferred tax assets:

The Group recognises deferred tax assets to the extent that the Group believes that the likelihood of recognition is probable. In making such a determination, the Group considers reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies and the results of recent operations. As of December 31, 2020, the Group made the judgement that there is not sufficient objectively verifiable evidence available which would demonstrate that it is more likely than not that it would be able to realise all deferred tax assets in the future, resulting in deferred tax assets not being recognised in the amount of \$125,464 and \$45,030 as of December 31, 2020 and 2019, respectively. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used. Significant management judgements and assumptions are required in determining the recognition of deferred tax assets related to tax losses and other temporary deductible differences. A change in judgement or assumption could have a material impact on the recognition of deferred tax assets.

Tax loss carryforwards through the year of expiration are as follows:

Due date	2020	2019
2021	—	—
2022	—	2,947
2023	—	978
2024	74,736	129,857
2025	186,930	7,771
2026 -	291,494	62,615
Tax loss carryforwards as of December 31	553,160	204,168

The increase in tax losses available for carryforward are mainly attributable to the decline in earnings as a consequence of the Group scaling headcount and research and development expenses to meet the demands of the growing business. As of December 31, 2020 and 2019, the Group has tax-effected losses of \$553,160 and \$204,168 respectively. Tax losses in Sweden of \$291,494 have an indefinite carryforward period. Tax losses in China have a five year carryforward period.

Notes to the Consolidated Financial Statements

Note 11 - Net loss per share

Basic Net loss per share is calculated by dividing Net loss attributable to common shareholders by the weighted average number of shares outstanding during the year. Diluted Net loss per share takes into account the impact of events which increase the number of issued shares. As no dilutive event occurred in 2020 or 2019, dilutive Net loss per share was the same as basic Net loss per share. The following table presents the computation of basic and diluted Net loss per share for the years ended December 31, 2020 and 2019:

	2020	2019
	Class A	Class A
	Common	Common
Numerator:		
Net loss attributable to common shareholders	(484,858)	(197,975)
Denominator:		
Weighted-average number of common shares outstanding	201,727,758	200,000,000
Net loss per share (in U.S. dollars):		
Basic and diluted	(2.40)	(0.99)

On September 14, 2020, as part of the common control transaction described in Note 3 - Common control transaction, 200,000,000 shares were issued to existing owners. For the purposes of calculating basic and diluted net loss per share, these shares are treated as issued and outstanding from January 1, 2019 through December 31, 2020.

Additions to internally developed IP were primarily related to the Polestar Precept and various other internal programs for the years ended December 31, 2020 and 2019. Additions of acquired IP during the years ended December 31, 2020, and 2019 were related to acquisitions of PS2 and Polestar 3 (“PS3”) IP from Volvo Cars. During the year ended December 31, 2019, PS1 IP was also acquired from Volvo Cars.

(in thousands of U.S. dollars unless otherwise stated)

As of December 31, 2020, the Group had one outstanding secured bank loan, with a bank in Norway, in the amount of \$1,345. The Group posts its vehicles as non-cash collateral for the entire outstanding balance of this bank loan, and it carries interest at 3-month NIBOR plus 1.6% per annum. As this loan is short term in nature, the total amount is reflected in liabilities to credit institutions in the Consolidated Statement of Financial Position.

Since all of the above identified contracts are short-term with terms of twelve months or less, the carrying amount of each contract is deemed to be a reasonable approximation of fair value. The Group's risk management policies related to its debt instruments are further detailed in Note 2 - Financial risk management.

The Group's creditors do not require Polestar to maintain any material debt covenants. Unless the Group is unable to make its debt payments, there are no events, financial or otherwise, which trigger default under the debt contracts.

Financing obligations

Polestar has entered into contracts to sell vehicles and then lease such vehicles back for a period of up to twelve months. At the end of the lease-back period, Polestar is obligated to re-purchase the vehicles. Accordingly, the consideration received for these transactions was recorded as a financing transaction. As the financing obligation is short-term in nature, the total amount is reflected in liabilities to credit institutions in the Consolidated Statement of Financial Position.

Geely, through a combination of wholly owned and partially owned entities, owns approximately 98% of equity interests in Volvo Cars. Therefore, Mr. Li Shufu, as a controlling equity interest holder in Geely, effectively controls Geely, Volvo Cars, and Polestar. As such, all transactions with either Geely or Volvo Cars are considered related party transactions.

The Group's relationship with Geely and Volvo Cars assisted in the development of favorable agreements with both parties. The primary agreement between Geely and the Group was a contract manufacturing agreement to produce the PS2; the Primary agreements between Volvo Cars and the Group related to the acquisition of technology developed by Volvo Cars and various services provided by Volvo Cars. Such agreements provided advantages for the Group, including cost management and go to market efficiency.

Production for the PS2 occurs at the Geely owned Luqiao plant which is operated by Volvo Cars; production for the PS2 is executed under contract manufacturing agreements with Geely.

Manufacturing engineering includes activities related to the development of the production process (i.e., deciding which manufacturing equipment should be utilised and where equipment should be situated to ensure an efficient production process), rather than development of the vehicle itself. The Group outsourced the manufacturing engineering for the production process of the PS1, PS2, and PS3 to Volvo Cars.

Activities related to logistics engineering (i.e., activities related to the determination of how different components are delivered to the production sites) were outsourced to Volvo Cars for the PS1, PS2, and PS3.

The Group purchases sales and distribution services from Volvo Cars related to distribution and outbound logistics, market research, delivery of vehicles and other products and global customer service.

Information technology

While the Group has its own information technology ("IT") department, to a certain extent it operates in a shared IT environment with Volvo Cars and purchases service and software license agreements related to resource planning systems, operations, infrastructure, networking, communications, collaboration, integration and application hosting.

Other support

Other related party agreements in place with Volvo Cars primarily relate to service agreements to support corporate and/or back-office functions, including human resources ("HR"), legal, accounting, and other functions.

HR support services relate to activities associated with payroll administration, training and workforce administration.

Legal support services include routine work associated with patent and brand registrations and competition law.

Accounting and finance support services include finance administration, local legal entity accounting and financial reporting.

Polestar outsources inbound and outbound logistics to Volvo Cars as the Group's and Volvo Cars' vehicles are typically manufactured at the same production sites. Inbound logistics relate to supplier shipments to various production sites; outbound logistics relate to the transport of vehicles to end customers. The Group also outsources customs handling to Volvo Cars as it does not currently have its own customs department.

Financing

The Group entered into two working capital loans with Volvo Car (Asia Pacific) Investment Holdings Co., Ltd. The first loan was for \$143,600 and was amended seven times, where each amendment served to extend the term of the loan. The loan commenced in July 2018 with an original maturity of July 2019 and an amended maturity of December 2020. The recognised asset associated with these agreements as of December 31, 2020 was \$1,080,308, of which acquisitions attributable to 2020 were \$311,546. Trade payables - related parties, accrued expenses from related parties and trade receivables - related parties

Amounts owed to and amounts from related parties include transactions from agreements associated with sales and distribution, procurement, manufacturing and other support with Volvo Cars and Geely. As a result of these agreements, trade payables - related parties, accrued expenses - related parties, and trade receivables - related parties were as follows:

Trade payables - related parties and accrued expenses to related parties	2020	2019
Volvo Cars	554,676	270,528
Geely	627,729	3,971
Volvofinans Bank AB	15	1
Total	1,182,420	274,500
Trade receivables - related parties	2020	2019
Volvo Cars	194,503	44,068
Geely	13,319	1,299
Volvofinans Bank AB	622	—
Total	208,444	45,367

Increased trade payables and accrued expenses to Geely were driven by scaled production of the PS2 in China. Increased trade payables and accrued expenses to Volvo Cars were primarily driven by acquisitions of IP related to the PS2 and PS3.

The Group's interest expense on related party trade payables for amounts past due and related party borrowings from Volvo Cars for the years ended December 31, 2020 and 2019 was \$11,210 and \$5,128, respectively.

Key management personnel and employee compensation

The Group's Executive Management Team ("EMT") has the authority and responsibility for planning, directing, and controlling the Polestar Group's activities. As of December 31, 2020, the EMT consists of the following individuals:

- a) Thomas Ingenlath (Chief Executive Officer, "CEO")
- b) Ian Zhang (Chief Financial Officer, "CFO")
- c) Dennis Nobelius (Chief Operating Officer, "COO")

The CEO has the ultimate authority for approval of actions proposed by each member of the EMT.

During the year-ended December 31, 2019, Volvo Cars provided an equity-based investment opportunity for certain members of the Group's management team. The Polestar Investment Plan was launched to incentivize the retention of key personnel with pivotal roles in the development of the Group into a successful standalone company. Each participant was offered the opportunity to purchase shares in Polestar Investment AB ("PSINV AB"), a subsidiary of Volvo Cars. Accordingly, participants of the Polestar Investment Plan are indirectly minority owners of the Group. In accordance with external valuation, the investment in PSINV AB was made at fair market value.

The total ownership interest of the Group's members of management who hold shares in PSINV AB is 45.25% of total shares issued under Volvo Car's Polestar Investment Plan. Management evaluated the Polestar Investment

Notes to the Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Plan to determine whether it qualified as an equity-settled share-based payment transaction within the scope of IFRS 2, as the participants receive shares of equity in exchange for their investment and more than one entity is involved in delivering the benefit to the participants. Given Polestar Group does not receive identifiable or unidentifiable goods or services in exchange for the equity purchase of PSINV AB, the transaction is not within the scope of IFRS 2. Furthermore, the Polestar Investment Plan is an agreement with Volvo Cars and individual members of Polestar Group's EMT, as participants were given the option to purchase equity shares in PSINV AB, an entity outside of the legal entity structure of Polestar Group. Therefore, the Polestar Investment Plan is not a share-based payment transaction in the scope of IFRS 2 and there is no financial statement impact on the Group.

Note 25 - Subsequent events

Management has evaluated events subsequent to December 31, 2020 and through November 10, 2021, the date these Consolidated Financial Statements were authorised for issuance by the board of directors. The following events which occurred subsequent to December 31, 2020 merited disclosure in these Consolidated Financial Statements. Management determined that no adjustments were required to the figures presented as a result of these events.

In March 2021, Polestar Group's Board of Directors distributed 18,032,787 shares of newly authorised Class B common shares at a per share price of \$30.50 for total proceeds of \$550,000, of which 4,262,295 shares were issued to related parties. Holders of Class A common shares are entitled to ten votes per share while holders of Class B common shares are only entitled to one vote per share.

In March 2021, a Swedish investment firm specialising in class action law suits, initiated class action activities in Norway against Polestar Norway. The class action suit alleges the Polestar Norway issued misleading statements regarding the range of the PS2 vehicle, which Polestar Norway rejects. As of the date these financial statements were issued, these class action activities consisted of the initial steps of soliciting individuals who purchased a PS2 vehicle in Norway to join the class action suit against Polestar Norway; no claim has been filed in court. The Swedish investment firm refers to a potential total claim of \$2,530. Simultaneously, a Norwegian automobile association for car owners (“NAF”) has sent separate claim letters to Polestar Norway on behalf of a few members, on the same grounds as the class action law suit. These claims have also been rejected by Polestar Norway.

In April 2021, Polestar Group acquired 150 patents from Volvo Cars for \$37,993 to support building Polestar Group’s independent intellectual property portfolio.

In April 2021, the introductory model of PS2 was expanded to include three separate powertrains: the original 300-kW dual motor vehicle with a 78-kWh long range battery, a new 170-kW single motor vehicle with a 78-kWh long range battery, and a new 165-kW single motor vehicle with a 64-kWh standard range battery.

In June 2021, Polestar Group entered an unsecured working capital loan agreement for \$77,450 (i.e., CNY 500,000,000) from a bank in China. The loan carries an interest rate of the latest 12-month national interbank offered rate minus 0.37%, settled quarterly.

In June 2021, four new employee incentive plans were approved by the Board of Directors. All four of the programs are expected to go into effect in FY 2022 upon the completion of the business combination with Gores Guggenheim Inc. The new incentive plans awarded to the EMT and select management team members include (1) a one-time issuance of restricted shares of Class A common stock in a value equal to a certain percentage of the awardee’s base salary and (2) a replacement of the current LTVP in the form of an annual issuance of restricted shares and performance shares of Class A common stock equal to a certain percentage of the awardee’s base salary, depending on awardee’s position at the Polestar Group, with a 3-year vesting period. The new incentive plans awarded to all employees include (1) a one-time issuance of Class A common stock in a value equal to 4% of the awardee’s base salary and (2) an annual share matching program whereby the awardee is offered the opportunity to invest up to 1% of their base salary of the Polestar Group and receive the issuance of Class A common stock in equal value for free.

In July 2021, 17,345,079 Class A common shares owned by two of our related parties were converted to Class B common shares. Following the conversion, related parties collectively owned 197,026,729 Class A common Shares and 21,607,374 Class B common shares. The remainder of our share capital consisted of 13,770,492 Class B common shares owned by third parties.

On July 28, 2021, Polestar Group entered into a convertible note agreement for \$35,231 which was invested in Polestar Group on August, 31, 2021. Of the \$35,231, \$9,531 is related to Geely, a related party. The convertible notes are non-interest bearing and not eligible to receive a coupon or dividend for the first 24 months after issuance, at which point in time the convertible debt will be eligible to receive dividends equivalent to Class B common stock, pending approval from the Board of Directors. The convertible notes will be automatically converted into Class B common stock upon (1) an issuance of equity securities in an amount greater than \$50,000 to any entity that owns more than 35% voting power in the Polestar Group, (2) the occurrence of an initial public offering, combination with a special purpose acquisition company, or direct listing of the Polestar Group, (3) a liquidation of the Polestar Group, or (4) the non-occurrence of any of the preceding events by the 24 month anniversary of the issuance of the convertible note (i.e., each a qualifying conversion event). The conversion price of these qualifying conversion events is dependent upon the per share price of the equity securities offered

Notes to the Consolidated Financial Statements

in a qualifying conversion event and may be subject to a discount, depending on the time elapsed since the issuance of the convertible note. Additionally, the Polestar Group has the ability to convert the convertible note to Class B common stock for a fixed conversion price at will prior to the occurrence of a qualifying conversion event. The convertible notes may only be settled via the issuance of equity, regardless of whether or not a qualifying conversion event occurs. The Group accounted for the convertible notes as equity upon issuance.

On July 31, 2021 and September 30, 2021, the Group drew on 700,000 CNY and 130,000 CNY, respectively, associated with a 1,000,000 CNY credit facility entered into with a bank in China. The loan maintains a stated interest rate of 3.92%.

On September 20, 2021, Johan Malmqvist replaced Ian Zhang as the Group's CFO. Ian Zhang will remain at Polestar as the Group's Asia Business Liaison and investor relations leader. Johan Malmqvist joined the Group with over 20 years of experience across multiple industries and was previously the CFO of Dole Food Company in the United States.

On September 27, 2021 Polestar Group entered into a business combination agreement with Gores Guggenheim Inc. Immediately following the closing of the proposed transaction, the post combination company intends to change its name to Polestar Automotive Holding UK Limited and expects to begin trading on the Nasdaq under the ticker symbol "PSNY".

In connection with the combination, the Polestar Group entered into an agreement with Volvo Cars to subscribe for mandatory convertible preference shares in Polestar Automotive Holding UK Limited. The preference shares will be issued in consideration of the payment by Volvo Cars of a cash amount totaling \$489,039, which will be used to repay outstanding payables owed to Volvo Cars. Each preference share will be convertible into Class A ordinary shares at a conversion price of \$10.00 per Polestar Automotive Holding UK Limited Ordinary Share. The execution of this agreement is contingent on the closing of the business combination with Gores Guggenheim Inc.

General information

Polestar Automotive Holding Limited (the “Parent”), together with its subsidiaries, hereafter referred to as “Polestar”, “Polestar Group” or the “Group”, is a limited company incorporated in Hong Kong. Polestar Group operates principally in the automotive industry engaging in research and development, manufacturing, branding and marketing, and the commercialisation and selling of technology solutions and services related to battery electric vehicles. Polestar Group has a presence in nineteen markets across Europe, North America, China and Asia Pacific. Polestar Group has its management headquarters located at Assar Gabrielssons väg 9, 418 78 Göteborg, Sweden.

PSD Investment Limited, a company controlled by Mr. Li Shufu, a private person, owns 46.1% of the Group as of June 30, 2021. An additional 46.1% is owned by Volvo Cars, primarily via its subsidiaries Snita Holding B.V. and PS Investment AB, both limited companies. Other related parties, and management, own 1.8% and the remaining 6.0% ownership is held by external investors.

Basis of preparation

The unaudited condensed consolidated financial statements in this interim report of Polestar Group are prepared in accordance with International Accounting Standards (“IAS”) 34 - Interim Financial Reporting (“IAS 34”) as adopted by the International Accounting Standards Board (“IASB”). For financial reporting purposes, Polestar Group companies apply the same accounting principles, irrespective of national legislation, as defined in the Group accounting directives. Such accounting principals have been applied consistently for all periods, unless otherwise stated.

This interim report is prepared in the presentation currency, U.S. Dollar (“USD”). All amounts are stated in thousands of USD (“TUSD”), unless otherwise stated.

Going concern

Polestar Group’s unaudited condensed consolidated financial statements have been prepared on a basis that assumes Polestar Group will continue as a going concern and the ordinary course of business will continue in alignment with Management’s 2021-2025 business plan.

Management assessed Polestar Group’s ability to continue as a going concern and evaluated whether there are certain events or conditions, considered in the aggregate, that may cast substantial doubt about Polestar Group’s ability to continue as a going concern. All information available to Management pertaining to the twelve-month period after the issuance date of these consolidated financial statements was used in performing this assessment.

Historically, Polestar Group has financed its operations primarily through short-term working capital loan arrangements with credit institutions (i.e., 12 months or less), contributions from shareholders, and extended trade credit from related parties. Since inception, Polestar Group has generated recurring net losses and negative operating and investing cash flows. Net losses for the six months ended June 30, 2021 and 2020, amounted to \$368,219 and \$216,985 respectively.

Negative operating and investing cash flows for the six months ended June 30, 2021 and 2020, amounted to \$171,729 and \$305,720 respectively. Management forecasts that Polestar Group will continue to generate negative operating and investing cash flows in the near-future, until sustainable commercial operations are achieved. Securing financing to support operating and development activities represents an ongoing challenge for Polestar Group.

Notes to the Unaudited Condensed Consolidated Financial Statements
(in thousands of U.S. dollars unless otherwise stated)

Management's 2021-2025 business plan indicates that Polestar Group depends on additional financing that is expected to be funded via a combination of new short-term working capital loan arrangements, long-term loan arrangements, private equity contributions from shareholders, and the contemplated public listing in the United States from a merger with a special purpose acquisition company ("SPAC") that is expected to be completed in the first half of 2022. The timely realization of these financing endeavors is crucial for Polestar Group's ability to continue as a going concern. If these financing endeavors are not successful or sufficient enough to cover forecasted operating and investing cash flow needs, Polestar Group will need to seek additional funding through other means. Management has no certainty that Polestar Group will be successful in securing the funds necessary to continue operating and development activities as planned.

Based on these circumstances, Management has determined there is substantial doubt about Polestar Group's ability to continue as a going concern. There are ongoing efforts in place to mitigate the uncertainty. The unaudited condensed consolidated financial statements do not include any adjustments to factor for the going concern uncertainty.

Adoption of new and revised standards

Management concluded the adoption of new and revised accounting pronouncements has not and will not have a material impact on the Group's consolidated financial statements. During the six months ended June 30, 2021, Polestar Group licensed intellectual property to Volvo Cars under which Volvo Cars obtained rights to manufacture and sell certain aftermarket parts and accessories to their customers in exchange for sales-based royalties to Polestar Group. Sales of vehicles with repurchase rights

During the six months ended June 30, 2021, Polestar Group entered into transactions to sell vehicles under which the Group (1) maintains the right or obligation to repurchase the vehicles from the customer in the future (i.e., call option) or (2) offers the buyer the right to sell the vehicles back to the Group in the future (i.e., put option). In circumstances where a call option exists or a put option exists and the Group has determined the customer has a significant economic incentive to exercise its put option, the Group accounts for such arrangements as operating leases and records lease income as a lessor. In the Consolidated Statement of Financial Position, such operating leases which are short-term in nature are recognised as inventory, whereas long-term leases are recognised as PPE.

Sales of vehicles with repurchase rights that are accounted for as operating leases are initially measured at cost and depreciated on a straight-line basis over the lease term, generally one year, to the estimated residual value. Incremental direct costs incurred in connection with the acquisition of lease contracts are capitalized and amortized on a straight-line method over the lease term. Revenue from leases are recognized on a straight-line basis over the lease term, and reflected in other revenue in the Consolidated Statement of Income.

Use of estimates and judgements

The preparation of these unaudited condensed consolidated financial statements, in accordance with IAS 34, requires management to make judgements, estimates, and assumptions that affect the application of the Group's accounting policies, the reported amount of assets, liabilities, revenues, expenses, and other related financial items. Management reviews its estimates and assumptions on a continuous basis; changes in accounting estimates are recognised in the period in which the estimates are revised, and prospectively thereafter. While economic activities in major countries and regions have been on a recovery trend, the extent of the short and long-term global impacts of the Covid-19 pandemic remain unclear. Due to the nature of the Group's business, the Covid-19 pandemic, and the industry in which Polestar Group operates, actual results may differ from these estimates.

Note 2 - Revenue

Polestar Group disaggregates revenue by major category based on the primary economic factors that may impact the nature, amount, timing, and uncertainty of revenue and cash flows from these customer contracts as seen in the table below:

Note 4 - Net loss per share

Basic net loss per share is calculated by dividing net loss attributable to each class of common shareholders by the weighted average number of shares outstanding in each class during the fiscal period. Diluted net loss per share takes into account the impact of events which increase the number of issued shares. As no dilutive event occurred in 2021 or 2020, dilutive net loss per share was the same as basic net loss per share. The following table presents the computation of basic and diluted net loss per share for the six months ended June 30, 2021 and 2020:

	Six months ended June 30,		
	2021		2020

On September 14, 2020 as part of the common control transaction described in Note 3 - Common control transaction, 200,000,000 shares were issued to existing owners. For the purposes of calculating basic and diluted net loss per share, these shares are treated as issued and outstanding from January 1, 2019 through December 31, 2020.

The Trust Agreement has not been terminated, repudiated, rescinded, amended or supplemented or modified, in any respect, and, to the knowledge of GG, no such termination, repudiation, rescission, amendment, supplement or modification is contemplated. There are no side letters and there are no agreements, Contracts, arrangements or understandings, whether written or oral, with the Trustee or any other Person that would cause the description of the Trust Agreement in the GG SEC Reports to be inaccurate in any material respect and/or that would entitle any Person to any portion of the proceeds in the Trust Account, the GG SEC Reports to be inaccurate in any material respect or, to GG’s knowledge, that would entitle any Person to any portion of the funds in the Trust Account (other than (i) in respect of deferred underwriting commissions, permitted regulatory withdrawals or Taxes, (ii) the Pre-Closing GG Holders who shall have elected to redeem their pre-Closing GG Class A Shares pursuant to the Governing Documents of GG or (iii) if GG fails to complete a business combination within the allotted time period set forth in the Governing Documents of GG and liquidates the Trust Account, subject to the terms of the Trust Agreement, GG (in limited amounts to permit GG to pay the expenses of the Trust Account’s liquidation, dissolution and winding up of GG) and then the Pre-Closing GG Holders). All GG SEC Reports, Additional GG SEC Reports, any correspondence from or to the SEC or the Stock Exchange (other than such correspondence in connection with the initial public offering of GG) and all certifications and statements required by (i) Rule 13a-14 or 15d-14 under the Exchange Act or (ii) 18 U.S.C. § 1350 (Section 906) of the Sarbanes-Oxley Act with respect to any of the foregoing are, or will be, as applicable, available on the SEC’s Electronic Data-Gathering, Analysis and Retrieval system (EDGAR) in full without redaction. The GG SEC Reports were, and the Additional GG SEC Reports will be, prepared in accordance with the requirements of the Securities Act, the Exchange Act and the Sarbanes-Oxley Act, as the case may be, and the rules and regulations thereunder. The GG SEC Reports did not, and the Additional GG SEC Reports will not,

as of their respective dates of filing with the SEC (or if amended or superseded by a filing prior to the date of this Agreement or the Closing Date, then on the date of such filing), contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary in order to make the statements made therein, in light of the circumstances under which they were or will be made, not misleading (for purposes of the Additional GG SEC Reports, assuming that the representation and warranty set forth in [Section 4.09](#) is true and correct in all respects with respect to all information supplied by or on behalf of Parent and its Subsidiaries expressly for inclusion or incorporation by reference therein). (e) GG has established and maintains systems of internal accounting controls that are designed to provide, in all material respects, reasonable assurance that (i) all transactions are executed in accordance with management's authorization and (ii) all transactions are recorded as necessary to permit preparation of proper and accurate financial statements in accordance with GAAP and to maintain accountability for GG's and its Subsidiaries' assets. GG maintains and, for all periods covered by the GG Financial Statements, has maintained

(c) GG does not own or lease any real property or material personal property.

Section 5.12 Contracts. Section 5.12 of the GG Disclosure Schedules sets forth a list of each "material contract" (as such term is defined in Item 601(b)(10) of Regulation S-K of the SEC) (other than confidentiality and non-disclosure agreements and this Agreement), as of the date of this Agreement, to which GG is a party or by which any of its assets are bound (excluding those included in the GG SEC Reports) (the material Contracts included in Section 5.12 of the GG Disclosure Schedules and the GG SEC Reports, the "GG Material Contracts"). Each GG Material Contract is, as of the date of this Agreement, (a) in full force and effect and (b) a legal, valid and binding obligation of GG, enforceable in accordance with its terms against GG and, to the knowledge of GG, the other parties thereto, in each case, subject to the Enforceability Exceptions. True, complete and correct copies of the GG Material Contracts have been made available to Parent.

Section 5.13 Employee Benefit Plans. As of the date of this Agreement, GG does not maintain, sponsor or contribute to, any Benefit Plan or employee benefit plan (as defined in Section 3(3) of ERISA, whether or not subject to ERISA) or any other plan, policy, program, arrangement or agreement that provides compensation and/or benefits to any current or former employee, officer, director or individual independent contractor thereof ("GG Benefit Plans"), nor does GG have any obligation or commitment to create or adopt any such GG Benefit Plan.

Section 5.14 Taxes.

(d) No written claim has been made by any Governmental Authority in a jurisdiction where GG does not file Tax Returns that GG is or may be subject to taxation by, or required to file Tax Returns in, such jurisdiction which claim has not been withdrawn or otherwise resolved.

(e) GG is not a party to, or bound by, any Tax allocation, Tax sharing, Tax indemnification or similar agreement that will remain in effect after the Closing Date (other than customary provisions in agreements the primary purpose of which does not relate to Taxes).

(f) GG is not engaged in any material audit, administrative Proceeding or judicial Proceeding with respect to a material amount of Taxes. GG has not received any written notice from a Governmental Authority of a dispute or claim with respect to a material amount of Taxes, other than disputes or claims that have since been resolved.

(g) There are no Liens with respect to material Taxes on any of the assets of GG, other than Permitted Liens.

(h) GG does not have any material liability for the Taxes of any Person (i) under Treasury Regulation Section 1.1502-6 (or any similar provision of state, local or foreign Law), (ii) as a transferee or successor or (iii) by Contract (except, in each case of clause (i), (ii) and (iii), for liabilities pursuant to commercial Contracts not primarily relating to Taxes or customary financing arrangements).

(i) GG has not taken any action (or permitted any action to be taken) or failed to take any action, nor is GG aware of any fact, plan or circumstance, which action, failure to act, fact, plan or circumstance would reasonably be expected to prevent the Merger and the Pre-Closing Consolidation, Sponsor Investment, VCC PIPE Investment, PIPE Investment and the issuance of the VCC Preference Shares from qualifying for the U.S. Intended Tax Treatment, in each case other than as contemplated by this Agreement or any other Transaction Document.

Section 5.15 Absence of Changes. Since December 31, 2020 and through the date of this Agreement, (a) there has not been any event or occurrence that has had, or would reasonably be expected to have, individually or in the aggregate, a material adverse effect on the ability of GG to enter into and perform its obligations under this Agreement (a "GG Material Adverse Effect") and (b) except as expressly contemplated by this Agreement, any other Transaction Document or in connection with the Transactions, GG has conducted its business in the ordinary course in all material respects, other than due to any actions taken due to any COVID-19 Measure.

The GG Board has received the opinion of its financial advisor, Barclays Capital Inc., to the effect that, as of the date thereof and based upon and subject to the qualifications, assumptions, limitations and other matters set forth therein, the Per Share GG Consideration to be received by the holders of GG Class A Shares, other than the Sponsor and any of its affiliates, in the Merger is fair, from a financial point of view, to the holders of outstanding GG Class A Shares, other than the Sponsor and any of its affiliates.

Section 5.19 Brokers. No broker, finder, investment banker or other Person is entitled to any brokerage fee, finders’ fee or other commission in connection with the Transactions based upon arrangements made by or on behalf of GG for which GG has any obligation.

Section 5.20 Information Supplied. None of the information supplied or to be supplied by, or on behalf of, GG expressly for inclusion or incorporation by reference prior to the Closing in the Registration Statement/Proxy Statement shall, when the Registration Statement/Proxy Statement is declared effective or when the Registration Statement/Proxy Statement is mailed to the Pre-Closing GG Holders or at the time of the Special Meeting, and in the case of any amendment or supplement thereto, at the time of such amendment or supplement, contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements therein, in light of the circumstances under which they are made, not misleading; provided, however, that GG makes no representations or warranties as to the information contained in or omitted from the Registration Statement/Proxy Statement in reliance upon and in conformity with information furnished in writing to GG by or on behalf of Parent specifically for inclusion in the Registration Statement/Proxy Statement.

[Section 6.02 Trust Account Waiver](#). Each of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub acknowledges that GG is a blank check company with the power and privileges to effect a business combination, and that such Party has read the IPO Prospectus, GG SEC Reports, GG's Governing Documents and the Trust Agreement and understands that GG has established the Trust Account described therein for the benefit of GG's public shareholders and that disbursements from the Trust Account are available only in the limited circumstances set forth in the Trust Agreement. Each of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub further acknowledges that, if the Transactions, or, in the event this Agreement is terminated pursuant to its terms, another business combination, is not consummated by March 22, 2023 or such later date as is approved by the stockholders of GG to complete a business combination, GG shall be obligated to return to its stockholders the amounts being held in the Trust Account. Accordingly, each of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub (on behalf of itself and its Affiliates), notwithstanding anything to the contrary in this Agreement, hereby waives any past, present or future claim of any kind against, and any right to access, the Trust Account or to collect from the Trust Account any monies that may be owed to them by GG or any of its Affiliates for any reason whatsoever, and shall not seek recourse against the Trust Account at any time for any reason whatsoever, including for any Willful Breach of this Agreement; provided that nothing herein shall serve to limit or prohibit Parent's, Polestar Singapore's, Polestar Sweden's, ListCo's or Merger Sub's right to pursue a claim against GG or any of its Affiliates for legal relief against assets held outside

of the Trust Account (including from and after the consummation of a business combination other than as contemplated by this Agreement) or pursuant to [Section 11.14](#) for specific performance or other injunctive relief (so long as such claim would not affect GG's ability to fulfill its redemption obligations). This [Section 6.02](#) shall survive the termination of this Agreement for any reason.

[Section 6.03 GG D&O Indemnification and Insurance.](#)

(a) Each Party agrees that (i) all rights to indemnification or exculpation now existing in favor of the directors, officers, members, managers and employees of GG, as provided in GG's Governing Documents or otherwise in effect as of the Closing Date, in either case, solely with respect to any matters occurring on or prior to the Closing, shall survive the Transactions and shall continue in full force and effect from and after the Closing for a period of six (6) years and (ii) ListCo shall, and shall cause the Surviving SPAC to, perform and discharge all obligations to provide such indemnity and exculpation during such six-year period in each case to the maximum extent permitted by applicable Law. To the maximum extent permitted by applicable Law, during such six-year period, ListCo shall, and shall cause the Surviving SPAC to, advance expenses in connection with such indemnification as provided in GG's Governing Documents. The indemnification and liability limitation or exculpation provisions of GG's Governing Documents shall not, during such six-year period, be amended, repealed or otherwise modified after the Closing in any manner that would adversely affect the rights thereunder of individuals who, as of the Closing or at any time prior to the Closing, were directors or officers of GG (the "GG D&O Persons") to be so indemnified, have their liability limited or be exculpated with respect to any matters occurring on or prior to Closing and relating to the fact that such GG D&O Person was a director or officer of GG prior to the Closing, unless such amendment, repeal or other modification is required by applicable Law.

(b) ListCo shall not have any obligation under this [Section 6.03](#) to any GG D&O Person when and if a court of competent jurisdiction shall ultimately determine (and such determination shall have become final and non-appealable) that the indemnification of such GG D&O Person in the manner contemplated hereby is prohibited by applicable Law.

(c) Parent shall cause ListCo to, and ListCo shall, purchase, at or prior to the Closing, and maintain, or cause to be maintained, in effect for a period of six (6) years after the Closing Date, without any lapse in coverage, a "tail" policy providing directors' and officers' liability insurance coverage for the benefit of those Persons who are covered by any comparable insurance policies of GG as of the date of this Agreement with respect to matters occurring on or prior to the Closing (the "[GG D&O Tail Policy](#)"). Such "tail" policy shall provide coverage on terms (with respect to coverage and amount) that are substantially the same as (and no less favorable in the aggregate to the insured than) the coverage provided under the GG's directors' and officers' liability insurance policies as of the date of this Agreement; provided that ListCo shall not be obligated to pay a premium for such "tail" policy in excess of 300% of the most recent annual premium paid by GG prior to the date of this Agreement and, in such event, ListCo shall purchase the maximum coverage available for 300% of the most recent annual premium paid by GG prior to the date of this Agreement.

(d) If ListCo or any of its respective successors or assigns (i) shall merge or consolidate with or merge into any other corporation or entity and shall not be the surviving or continuing corporation or entity of such consolidation or merger or (ii) shall Transfer all or substantially all of their respective properties and assets as an entity in one or a series of related transactions to any Person, then in each such case, proper provisions shall be made so that the successors or assigns of ListCo shall assume all of the obligations set forth in this [Section 6.03](#).

(e) The GG D&O Persons entitled to the indemnification, liability limitation, exculpation and insurance set forth in this [Section 6.03](#) are intended to be third-party beneficiaries of this [Section 6.03](#). This [Section 6.03](#) shall survive the consummation of the Transactions and shall be binding on all successors and assigns of ListCo and the Company and its Subsidiaries.

[Section 6.04 Company Party D&O Indemnification and Insurance.](#)

(a) Each Party agrees that (i) all rights to indemnification or exculpation now existing in favor of the directors, officers, members, managers and employees of any Company Party, as provided in such Company

Party's Governing Documents or otherwise in effect as of the date of the Closing, in either case, solely with respect to any matters occurring on or prior to the Closing, shall survive the Transactions and shall continue in full force and effect from and after the Closing for a period of six (6) years and (ii) ListCo shall cause each other Company Party to perform and discharge all obligations to provide such indemnity and exculpation during such six-year period in each case to the maximum extent permitted by applicable Law. To the maximum extent permitted by applicable Law, during such six-year period, ListCo shall cause the each Company Party to advance expenses in connection with such indemnification as provided in the Company Parties' Governing Documents. The indemnification and liability limitation or exculpation provisions of the Company Parties' Governing Documents shall not, during such six-year period, be amended, repealed or otherwise modified after the Closing in any manner that would adversely affect the rights thereunder of individuals who, as of the Closing or at any time prior to the Closing, were directors or officers of any Company Party (the "Company Party D&O Persons") to be so indemnified, have their liability limited or be exculpated with respect to any matters occurring on or prior to Closing and relating to the fact that such Company Party D&O Person was a director or officer of any Company Party prior to the Closing, unless such amendment, repeal or other modification is required by applicable Law.

(b) ListCo shall not have any obligation under this Section 6.04 to any Company Party D&O Person when and if a court of competent jurisdiction shall ultimately determine (and such determination shall have become final and non-appealable) that the indemnification of such Company Party D&O Person in the manner contemplated hereby is prohibited by applicable Law.

(c) Parent shall cause ListCo to, and ListCo shall, purchase, at or prior to the Closing, and maintain, or cause to be maintained, in effect for a period of six (6) years after the Closing Date, without any lapse in coverage, a "tail" policy providing directors' and officers' liability, employment practices liability and fiduciary liability insurance coverage for the benefit of those Persons who are covered by any comparable insurance policies of any Company Party as of the date of this Agreement with respect to matters occurring on or prior to the Closing (the "Company Party D&O Tail Policy"). Such "tail" policy shall provide coverage on terms (with respect to coverage and amount) that are substantially the same as (and no less favorable in the aggregate to the insureds than) the coverage provided under the Company Parties' directors' and officers' liability, employment practices liability and fiduciary liability insurance policies as of the date of this Agreement; provided that ListCo shall not be obligated to pay a premium for such "tail" policy in excess of 300% of the most recent annual premium paid by such Company Party prior to the date of this Agreement and, in such event, the Company Parties shall purchase the maximum coverage available for 300% of the most recent annual premium paid by such Company Party prior to the date of this Agreement.

(d) If ListCo or any of its respective successors or assigns (i) shall merge or consolidate with or merge into any other corporation or entity and shall not be the surviving or continuing corporation or entity of such consolidation or merger or (ii) shall Transfer all or substantially all of their respective properties and assets as an entity in one or a series of related transactions to any Person, then in each such case, proper provisions shall be made so that the successors or assigns of ListCo shall assume all of the obligations set forth in this Section 6.04.

(e) The Company Party D&O Persons entitled to the indemnification, liability limitation, exculpation and insurance set forth in this Section 6.04 are intended to be third-party beneficiaries of this Section 6.04. This Section 6.04 shall survive the consummation of the Transactions and shall be binding on all successors and assigns of ListCo and the Company and its Subsidiaries.

Section 6.05 Financial Information.

(a) As soon as reasonably practicable following the date of this Agreement (and in any event no later than November 22, 2021), Parent shall use reasonable best efforts to deliver to ListCo and GG the Closing Company Financial Statements. Pursuant to, and in accordance with, the Pre-Closing Reorganization, Parent shall cause ListCo to adopt new articles of association to be in substantially the form attached hereto as Exhibit F (the "ListCo New Articles of Association"), as the same may be revised by Parent in the event the Requisite GG Warrantholder Approval is obtained to reflect the terms of the ListCo Class C-1 Shares and ListCo Class C-2 Shares set forth in Exhibit J (such revisions to be approved by GG, not to be unreasonably withheld) and subject to such further amendments as may be agreed between GG and ListCo.

As soon as reasonably practicable and permitted following the Closing Date and subject to stockholder approval of the Incentive Equity Plan, ListCo shall take commercially reasonable efforts to file an effective registration statement on Form S-8 (or other applicable form) with respect to the ListCo Class A Shares issuable under the Incentive Equity Plan, and ListCo shall use commercially reasonable efforts to maintain the effectiveness of such registration statement(s) (and maintain the current status of the prospectus or prospectuses contained therein) for so long as awards granted pursuant to the Incentive Equity Plan remain outstanding.

(a) (i) the Parent and Company Fundamental Representations shall be true and correct (without giving effect to any limitation as to “materiality” set forth therein) in all material respects as of the Closing Date, as though made on and as of the Closing Date (except to the extent that any such representation and warranty is expressly made as of an earlier date, in which case such representation and warranty shall be true and correct in all material respects as of such earlier date), (ii) the representations and warranties set forth in the first sentence of [Section 3.04\(a\)](#), [Section 4.04\(a\)](#) and the first sentence of [Section 4.04\(b\)](#) shall be true and correct in all respects (except for *de minimis* inaccuracies) as of the Closing Date, as though made on and as of the Closing Date (except to the extent that any such representation and warranty is expressly made as of an earlier date, in which case such representation and warranty shall be true and correct in all respects (except for *de minimis* inaccuracies) as of such earlier date), (iii) the representations and warranties set forth in [Section 3.19\(a\)](#) and [Section 4.10](#) shall be true and correct in all respects as of the Closing Date as though made on and as of the Closing Date and (iv) the representations and warranties of the Company, ListCo and Merger Sub set forth in [Article III](#) and [Article IV](#) (other than the Parent and Company Fundamental Representations, the representations and warranties set forth in [Section 3.19\(a\)](#), [Section 4.10](#), the first sentence of [Section 3.04\(a\)](#), [Section 4.04\(a\)](#) and the first sentence of [Section 4.04\(b\)](#)) shall be true and correct (without giving effect to any limitation as to “materiality” or “[Company Material Adverse Effect](#)” or any similar limitation set forth herein) in all respects as of the Closing Date, as though made on and as of the Closing Date (except to the extent that any such representation and warranty is expressly made as of an earlier date, in which case such representation and warranty shall be true and correct in all respects as of such earlier date), except where the failure of such representations and warranties to be true and correct, individually and in the aggregate has not had a Company Material Adverse Effect;

(b) the covenants and agreements of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub contained in this Agreement to be performed prior to the Closing shall have been performed in all material respects;

Section 9.04 [Frustration of Conditions](#). None of Parent, Polestar Singapore, Polestar Sweden, ListCo or Merger Sub may rely on the failure of any condition set forth in this [Article IX](#) to be satisfied if such failure was proximately caused by Parent, Polestar Singapore, Polestar Sweden, ListCo or Merger Sub’s failure to use reasonable best efforts to cause the Closing to occur, as required by [Section 8.02](#), or another breach by any such Party of this Agreement. GG may not rely on the failure of any condition set forth in this [Article IX](#) to be satisfied if such failure was proximately caused by GG’s failure to use reasonable best efforts to cause the Closing to occur, as required by [Section 8.02](#), or another breach by GG of this Agreement.

ARTICLE X
TERMINATION

Section 10.01 Termination. This Agreement may be terminated and the Transactions may be abandoned at any time prior to the Closing:

(a) by mutual written consent of Parent and GG;

(b) by written notice to Parent from GG, if any of the representations or warranties set forth in Article III or Article IV shall not be true and correct or if Parent, Polestar Singapore, Polestar Sweden, ListCo or Merger Sub have failed to perform any covenant or agreement on the part of Parent, Polestar Singapore, Polestar Sweden, ListCo or Merger Sub set forth in this Agreement (including an obligation to consummate the Closing) such that the condition to Closing set forth in either Section 9.03(a) or Section 9.03(b) would not be satisfied at the Closing and the breach or breaches causing such representations or warranties not to be true and correct, or the failures to perform any covenant or agreement, as applicable, is (or are) not cured or cannot be cured prior to the earlier of (i) thirty (30) days after written notice thereof is delivered to Parent by GG and (ii) the Termination Date; provided, however, that GG is not then in material breach of this Agreement;

(c) by written notice to GG from Parent, if any of the representations or warranties set forth in Article V shall not be true and correct or if GG has failed to perform any covenant or agreement on the part of GG set forth in this Agreement (including an obligation to consummate the Closing) such that the condition to Closing set forth in either Section 9.02(a) or Section 9.02(b) would not be satisfied at the Closing and the breach or breaches causing such representations or warranties not to be true and correct, or the failures to perform any covenant or agreement, as applicable, is (or are) not cured or cannot be cured prior to the earlier of (i) thirty (30) days after written notice thereof is delivered to GG and (ii) the Termination Date; provided, however, that none of Parent, Polestar Singapore, Polestar Sweden, ListCo or Merger Sub are then in material breach of this Agreement;

(d) by either GG or Parent, if the Transactions shall not have been consummated on or prior to May 27, 2022 (the "Termination Date"); provided that the right to terminate this Agreement pursuant to this Section 10.01(d) shall not be available to (i) GG if GG's breach of any of its covenants or obligations under this Agreement shall have been the primary cause of the failure to consummate the Transactions on or before the Termination Date or (ii) Parent if Parent's, Polestar Singapore's, Polestar Sweden's, ListCo's or Merger Sub's breach of any of its covenants or obligations under this Agreement shall have been the primary cause of the failure to consummate the Transactions on or before the Termination Date;

(f) by GG, if the Required Parent Shareholder Approval has not been delivered to GG within twenty-four (24) hours after the execution of this Agreement; or

(g) by either GG or Parent, if the Special Meeting has been held (including any adjournment or postponement thereof) and has concluded, and the Pre-Closing GG Holders have duly voted and the Required GG Stockholder Approval was not obtained.

Section 10.02 Effect of Termination. Except as otherwise set forth in this Section 10.02 or Section 11.14, in the event of the termination of this Agreement pursuant to Section 10.01, this entire Agreement shall forthwith become void (and there shall be no Liability or obligation on the part of the Parties) with the exception of (a) Section 6.02 (No Claim Against the Trust Account), Section 8.06 (Confidentiality; Access to Information);

Publicity), this [Section 10.02](#) (Effect of Termination), [Article XI](#) (Miscellaneous) and [Section 1.01](#) (Definitions) (to the extent related to the foregoing), each of which shall survive such termination and remain valid and binding obligations of the Parties and (b) the Confidentiality Agreement, which shall survive such termination and remain valid and binding obligations of the parties thereto in accordance with its terms. Notwithstanding the foregoing or anything to the contrary herein, the termination of this Agreement pursuant to [Section 10.01](#) shall not affect any Liability on the part of any Party for a Willful Breach of any covenant or agreement set forth in this Agreement prior to such termination or Actual Fraud with respect to the representations and warranties in [Article III](#), [Article IV](#) and [Article V](#).

**ARTICLE XI

Any waiver of any term or condition shall not be construed as a waiver of any subsequent breach or a subsequent waiver of the same term or condition, or a waiver of any other term or condition of this Agreement. The failure of any Party to assert any of its rights hereunder shall not constitute a waiver of such rights.

Without limiting the foregoing, any Party may give any notice or other communication hereunder using any other means (including personal delivery, expedited courier, messenger service, ordinary mail or electronic mail), but no such notice or other communication shall be deemed to have been duly given unless and until it actually is received by the Party for whom it is intended.

Section 11.03 Assignment. No Party shall assign this Agreement or any part hereof without the prior written consent of the other Parties and any such assignment without such prior written consent shall be void. Subject to the foregoing, this Agreement shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and permitted assigns.

Section 11.04 Rights of Third Parties. This Agreement shall be binding upon and inure solely to the benefit of each Party and its successors and permitted assigns and, except as provided in Section 6.03 and Section 6.04, the last two sentences of this Section 11.04, Section 11.15 and Section 11.16, nothing in this Agreement, express or implied, is intended to or shall confer upon any other Person any rights, benefits or remedies of any nature whatsoever under or by reason of this Agreement. Sponsor shall be an express third-party beneficiary of Section 7.05 and Section 8.01. Legal counsel identified in Section 11.18 shall be express third-party beneficiaries of Section 11.18.

Section 11.05 Expenses. Except as otherwise set forth in this Agreement, all fees and expenses incurred in connection with this Agreement, the other Transaction Documents and the Transactions, including the fees and disbursements of counsel, financial advisors and accountants, shall be paid by the Party incurring such fees or expenses; provided that, for the avoidance of doubt, (a) if this Agreement is terminated in accordance with its terms, Parent shall pay, or cause to be paid, all unpaid Company Transaction Expenses and GG shall pay, or cause to be paid, all unpaid GG Transaction Expenses and (b) if the Closing occurs, then ListCo shall pay, or cause to be paid, all unpaid GG Transaction Expenses up to an amount equal to the GG Transaction Expenses Cap and all unpaid Company Transaction Expenses.

Section 11.06 Governing Law. This Agreement, and all claims or causes of action (whether in contract, tort or statute) that may be based upon, arise out of or relate to this Agreement, the negotiation, execution or performance of this Agreement (including any claim or cause of action based upon, arising out of, or relating to, any representation or warranty made in or in connection with this Agreement or as an inducement to enter into this Agreement) or the Transactions, shall be governed by, and enforced in accordance with, the internal laws of the State of Delaware, including its statutes of limitations, without giving effect to any choice of law or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of the law of any jurisdiction other than the State of Delaware.

Section 11.07 Captions; Counterparts. The captions in this Agreement are for convenience only and shall not be considered a part of or affect the construction or interpretation of any provision of this Agreement. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

Section 11.08 Exhibits and Schedules. All Exhibits and Schedules or documents expressly incorporated into this Agreement, are hereby incorporated into this Agreement and are hereby made a part hereof as if set out in full in this Agreement. The Schedules shall be arranged in Sections and subsections corresponding to the numbered and lettered Sections and subsections set forth in this Agreement. Any item disclosed in the Parent Disclosure Schedules or in the GG Disclosure Schedules corresponding to any Section or subsection of Article III or Article IV (in the case of the Parent Disclosure Schedules) or Article V (in the case of the GG Disclosure Schedules) shall be deemed to have been disclosed with respect to every other Section and subsection of Article III or Article IV (in the case of the Parent Disclosure Schedules) or Article V (in the case of the GG Disclosure Schedules), as applicable, where the relevance of such disclosure to such other Section or subsection is reasonably apparent on the face of the disclosure. The information and disclosures set forth in the Schedules

that correspond to the section or subsections of [Article III](#), [Article IV](#) or [Article V](#) may not be limited to matters required to be disclosed in the Schedules, and any such additional information or disclosure is for informational purposes only and does not necessarily include other matters of a similar nature.

Section 11.09 [Entire Agreement](#). This Agreement (together with the Schedules and Exhibits to this Agreement), the other Transaction Documents and that certain Confidentiality Agreement in effect between Polestar Performance AB (together with its Subsidiaries) and GG (as amended, modified or supplemented from time to time, the “[Confidentiality Agreement](#)”), constitute the entire agreement among the Parties relating to the Transactions and supersede any other agreements, whether written or oral, that may have been made or entered into by or among any of the Parties or any of their respective Affiliates relating to the Transactions. No representations, warranties, covenants, understandings, agreements, oral or otherwise, relating to the Transactions exist between the Parties except as expressly set forth or referenced in this Agreement and the Confidentiality Agreement.

Section 11.10 [Amendments](#). This Agreement may be amended or modified only by a written agreement executed and delivered by GG, on the one hand, and Parent, ListCo, Polestar Singapore and Polestar Sweden, on the other hand. This Agreement may not be modified or amended except as provided in the immediately preceding sentence and any purported amendment by any Party or Parties effected in a manner which does not comply with this [Section 11.10](#) shall be void *ab initio*.

Section 11.11 [Severability](#). Whenever possible, each provision of this Agreement shall be interpreted in such a manner as to be effective and valid under applicable Law, but if any term or other provision of this Agreement is held to be invalid, illegal or unenforceable under applicable Law, all other provisions of this Agreement shall remain in full force and effect so long as the economic or legal substance of the Transactions is not affected in any manner materially adverse to any Party. Upon such determination that any term or other provision of this Agreement is invalid, illegal or unenforceable under applicable Law, the Parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the Parties as closely as possible in an acceptable manner in order that the Transactions are consummated as originally contemplated to the greatest extent possible.

Section 11.12 [Jurisdiction](#). Any Proceeding based upon, arising out of, or relating to, this Agreement or the Transactions must be brought in the Court of Chancery of the State of Delaware (or, to the extent such court does not have subject matter jurisdiction, the Superior Court of the State of Delaware), or, if it has or can acquire jurisdiction, in the United States District Court for the District of Delaware, and each of the Parties irrevocably (a) submits to the exclusive jurisdiction of each such court in any such Proceeding, (b) waives any objection it may now or hereafter have to personal jurisdiction, venue or to convenience of forum in such courts, (c) agrees that all claims in respect of the Proceeding shall be heard and determined only in any such court and (d) agrees not to bring any Proceeding based upon, arising out of or relating to, this Agreement or the Transactions in any other court. Nothing herein contained shall be deemed to affect the right of any party to serve process in any manner permitted by Law or to commence Proceedings or otherwise proceed against any other party in any other jurisdiction, in each case, to enforce judgments obtained in any Proceeding brought pursuant to this [Section 11.12](#).

Section 11.13 [Waiver of Jury Trial](#). EACH PARTY HEREBY WAIVES, TO THE FULLEST EXTENT PERMITTED BY LAW, ANY RIGHT TO TRIAL BY JURY OF ANY CLAIM, DEMAND, PROCEEDING OR CAUSE OF ACTION BASED UPON, ARISING OUT OF, OR RELATING TO, THIS AGREEMENT OR THE TRANSACTIONS, IN EACH CASE, WHETHER NOW EXISTING OR HEREAFTER ARISING, AND WHETHER IN CONTRACT, TORT, EQUITY, OR OTHERWISE. EACH PARTY HEREBY AGREES AND CONSENTS THAT ANY SUCH CLAIM, DEMAND, PROCEEDING OR CAUSE OF ACTION SHALL BE DECIDED BY COURT TRIAL WITHOUT A JURY AND THAT THE PARTIES MAY FILE AN ORIGINAL COUNTERPART OF A COPY OF THIS AGREEMENT WITH ANY COURT AS WRITTEN EVIDENCE OF THE CONSENT OF THE PARTIES HERETO TO THE WAIVER OF THEIR RIGHT TO TRIAL BY JURY.

EACH PARTY CERTIFIES AND ACKNOWLEDGES THAT (A) NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER, (B) SUCH PARTY UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF THIS WAIVER, (C) SUCH PARTY MAKES THIS WAIVER VOLUNTARILY AND (D) SUCH PARTY HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS IN THIS [SECTION 11.13](#).

Section 11.14 [Enforcement](#). The Parties agree that irreparable damage for which monetary damages, even if available, would not be an adequate remedy, would occur in the event that the Parties do not perform their obligations under the provisions of this Agreement (including failing to take such actions as are required of them hereunder to consummate the Transactions) or any other Transaction Document in accordance with its specified terms or otherwise breach such provisions. The Parties acknowledge and agree that (a) the Parties shall be entitled to an injunction, specific performance, or other equitable relief, to prevent breaches of this Agreement or any other Transaction Document and to enforce specifically the terms and provisions hereof and thereof, without proof of damages, prior to the valid termination of this Agreement in accordance with [Section 10.01](#), this being in addition to any other remedy to which they are entitled under this Agreement or any other Transaction Document and (b) the right of specific enforcement is an integral part of the Transactions and without that right, none of the Parties would have entered into this Agreement. Each Party agrees that it shall not oppose the granting of specific performance and other equitable relief on the basis that the other Parties have an adequate remedy at Law or that an award of specific performance is not an appropriate remedy for any reason at Law or equity. The Parties acknowledge and agree that any Party seeking an injunction to prevent breaches of this Agreement or any other Transaction Document and to enforce specifically the terms and provisions of this Agreement or any other Transaction Document in accordance with this [Section 11.14](#) shall not be required to provide any bond or other security in connection with any such injunction.

Section 11.15 [Non-Recourse](#). Subject in all respects to the last sentence of this [Section 11.15](#), this Agreement may only be enforced against, and any claim or cause of action based upon, arising out of, or relating to, this Agreement or the Transactions may only be brought against, the entities that are expressly named as Parties and then only with respect to the specific obligations set forth herein with respect to such Party. Except to the extent a Party (and then only to the extent of the specific obligations undertaken by such Party in this Agreement), (a) no past, present or future director, officer, employee, incorporator, member, partner, shareholder, Affiliate, agent, attorney, advisor or representative or Affiliate of any Party and (b) no past, present or future director, officer, employee, incorporator, member, partner, shareholder, Affiliate, agent, attorney, advisor or representative or Affiliate of any of the foregoing shall have any Liability (whether in contract, tort, equity or otherwise) for any one or more of the representations, warranties, covenants, agreements or other obligations or liabilities of any one or more of Parent, Polestar Singapore, Polestar Sweden, GG, ListCo or Merger Sub under this Agreement or for any claim based upon, arising out of, or relating to, this Agreement or the Transactions. Notwithstanding the foregoing, nothing in this [Section 11.15](#) shall limit, amend or waive any rights or obligations of any party to any other Transaction Document with respect to the other parties thereto.

Section 11.16 [Nonsurvival of Representations, Warranties and Covenants](#). None of the representations, warranties, covenants, obligations or other agreements in this Agreement or in any certificate, statement or instrument delivered pursuant to this Agreement, including any rights arising out of any breach of such representations, warranties, covenants, obligations, agreements or other provisions, shall survive the Closing, and all of the representations, warranties, covenants, obligations or other agreements in this Agreement or in any certificate, statement or instrument delivered pursuant to this Agreement, including any rights arising out of any breach of such representations, warranties, covenants, obligations, agreements or other provisions, shall terminate and expire upon the occurrence of the Closing (and there shall be no Liability after the Closing in respect thereof), in each case, except for (a) those covenants and agreements contained herein that by their terms expressly apply in whole or in part at or after the Closing, and then only with respect to any breaches occurring at or after the Closing and (b) this [Article XI](#), which, in each case, shall survive the Closing .

Section 11.17 Acknowledgements.

(a) Each of the Parties acknowledges and agrees (on its own behalf and on behalf of its respective Affiliates and its and their respective Representatives) that (i) it has conducted its own independent investigation of the financial condition, results of operations, assets, liabilities, properties and projected operations of the other Parties (and their respective Subsidiaries) and has been afforded satisfactory access to the books and records, facilities and personnel of the other Parties (and their respective Subsidiaries) for purposes of conducting such investigation, (ii) the representations and warranties of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub in Article III and Article IV constitute the sole and exclusive representations and warranties of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub in connection with the Transactions, (iii) the representations and warranties of GG in Article IV constitute the sole and exclusive representations and warranties of GG in connection with the Transactions, (iv) except for the representations and warranties of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub in Article III and Article IV and the representations and warranties of GG in Article IV, none of the Parties or any other Person makes, or has made, any other express or implied representation or warranty with respect to any Party (or any Party's Subsidiaries (including, for the avoidance of doubt, the Company and its Subsidiaries)), including any implied warranty or representation as to condition, merchantability, suitability or fitness for a particular purpose or trade as to any of the assets of such Party or its Subsidiaries (including, for the avoidance of doubt, the Company and its Subsidiaries) or the Transactions and all other representations and warranties of any kind or nature expressed or implied (including (A) regarding the completeness or accuracy of, or any omission to state or to disclose, any information, including in the estimates, projections or forecasts or any other information, document or material provided to or made available to any Party or their respective Affiliates or Representatives in certain "data rooms," management presentations or in any other form in expectation of the Transactions, including meetings, calls or correspondence with management of any Party (or any Party's Subsidiaries (including, for the avoidance of doubt, the Company and its Subsidiaries)) and (B) relating to the future or historical business, condition (financial or otherwise), results of operations, prospects, assets or liabilities of any Party (or its Subsidiaries (including, for the avoidance of doubt, the Company and its Subsidiaries)), or the quality, quantity or condition of any Party's or its Subsidiaries' assets (including, for the avoidance of doubt, the assets of the Company and its Subsidiaries)) are specifically disclaimed by all Parties and their respective Subsidiaries and all other Persons (including the Representatives and Affiliates of any Party or its Subsidiaries (including, for the avoidance of doubt, the Company and its Subsidiaries)) and (v) each Party and its respective Affiliates are not relying on any representations and warranties in connection with the Transactions except the representations and warranties of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub in Article III and Article IV and the representations and warranties of GG in Article IV. Except as otherwise expressly set forth in this Agreement, GG understands and agrees that any assets, properties and business of the Company and its Subsidiaries are furnished "as is," "where is" and subject to and except for the representations and warranties of Parent, Polestar Singapore, Polestar Sweden, ListCo and Merger Sub in Article III and Article IV or as provided in any certificate delivered in accordance with Section 9.03(d) with all faults and without any other representation or warranty of any nature whatsoever. Nothing in this Section 11.17(a) shall relieve any Party of liability in the case of Actual Fraud committed by such Party.

(b) Effective upon Closing, each of the Parties waives, on its own behalf and on behalf of its respective Affiliates and Representatives, to the fullest extent permitted under applicable Law, any and all rights, Proceedings and causes of action it may have against any other Party or their respective Subsidiaries and any of their respective current or former Affiliates or Representatives relating to the operation of any Party or its Subsidiaries (including, for the avoidance of doubt, the Company and its Subsidiaries) or their respective businesses prior to the Closing or relating to the subject matter of this Agreement, the Schedules or the Exhibits to this Agreement, whether arising under or based upon any federal, state, local or foreign Law or otherwise (including any Proceedings under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 or any other Environmental Laws). Each Party acknowledges and agrees that it shall not assert, institute or maintain any Proceeding of any kind whatsoever, including a counterclaim, cross-claim, or defense, regardless of the legal or equitable theory under which such liability or obligation may be sought to be imposed, that makes any claim contrary to the agreements and covenants set forth in this Section 11.17. Notwithstanding anything

herein to the contrary, nothing in this [Section 11.17\(b\)](#) shall preclude any Party from seeking any remedy for Actual Fraud by a Party solely and exclusively with respect to the making of any representation or warranty by it in [Article III](#), [Article IV](#) or [Article V](#) (as applicable). Each Party shall have the right to enforce this [Section 11.17](#) on behalf of any Person that would be benefitted or protected by this [Section 11.17](#) if they were a party hereto. The foregoing agreements, acknowledgements, disclaimers and waivers are irrevocable. For the avoidance of doubt, nothing in this [Section 11.17](#) shall limit, modify, restrict or operate as a waiver with respect to, any rights any Party may have under any written agreement entered into in connection with the transactions that are contemplated by this Agreement, including any other Transaction Document.

Section 11.18 [Conflicts and Privilege](#).

(a) GG, ListCo, Polestar Singapore, Polestar Sweden, and Parent, on behalf of their respective successors and assigns (including, after the Closing, the Surviving SPAC), hereby agree that, in the event a dispute with respect to this Agreement or the Transactions arises after the Closing between or among (i) Sponsor, the former shareholders or holders of other equity interests of GG or stockholders or holders of other equity interests of Sponsor and/or any of the foregoing persons respective directors, members, partners, officers, employees or Affiliates (other than ListCo, Polestar Singapore and Polestar Sweden,) (collectively, the "[GG Group](#)"), on the one hand, and (ii) ListCo, Polestar Singapore, Polestar Sweden and/or any member of the Parent Group, on the other hand, any legal counsel, including Weil, that represented GG and/or Sponsor prior to the Closing may represent Sponsor and/or any member of the GG Group in such dispute even though the interests of such Persons may be directly adverse to ListCo or the Surviving SPAC, and even though such counsel may have represented ListCo and/or the Surviving SPAC in a matter substantially related to such dispute, or may be handling ongoing matters for ListCo, Polestar Singapore, Polestar Sweden or the Surviving SPAC and/or the Sponsor. GG, ListCo, Polestar Singapore and Polestar Sweden, on behalf of their respective successors and assigns (including, after the Closing, the Surviving SPAC), further agree that, as to all legally privileged communications prior to the Closing (made in connection with the negotiation, preparation, execution, delivery and performance under, or any dispute or Proceeding based upon, arising out of, or relating to, this Agreement, any other Transaction Document or the Transactions) between or among Sponsor and/or any other member of the GG Group, on the one hand, and Weil, on the other hand (the "[Weil Privileged Communications](#)"), the attorney/client privilege and the expectation of client confidence shall survive the Transactions and belong to the GG Group after the Closing, and shall not pass to or be claimed or controlled by ListCo, Polestar Singapore and/or Polestar Sweden. Notwithstanding the foregoing, any privileged communications or information shared by ListCo, Polestar Singapore or Polestar Sweden prior to the Closing with GG or Sponsor under a common interest agreement shall remain the privileged communications or information of Polestar Singapore, Polestar Sweden and/or ListCo. - (a) first, to the holders of the Convertible Preferred Shares (pro rata and pari passu) an amount equal to the Initial Liquidation Preference less such amount as is equal to the Conversion Subscription Value;

- (e) fifth:
 - (i) to the holders of the Ordinary Shares pro rata to the number of Ordinary Shares respectively held by them;
 - (ii) to the holders of the Class C Shares pari passu with Ordinary Shares on an as-converted basis *less* the Conversion Price (as defined in Article 13.6 below) per Class C Share,

provided that if the amount which would be received by the holders of the Convertible Preferred Shares if all such shares had been converted in accordance with these Articles would be greater than pursuant to (a) above, the relevant Convertible Preferred Shares shall be deemed for the purposes of the relevant return of capital to be treated pari passu with the holders of Ordinary Shares on an as-converted basis.

- 8.2 Subject to Article 8.3, any dividends (or other distribution) paid by the Company shall be applied among the holders of shares, other than the Class C Shares, the GBP Redeemable Preferred Shares and the Deferred Shares, pro rata to the number of such shares respectively held by them. For the avoidance of doubt, the Class C Shares, the GBP Redeemable Preferred Shares and the Deferred Shares shall not entitle their holders to participate in any dividends or other distributions.
- 8.3 The Convertible Preferred Shares shall not entitle any holder to preferred dividends or accruals save that the holders of Convertible Preferred Shares shall participate in dividends or other distributions on the Class A Ordinary Shares as if such Convertible Preferred Shares had been converted into Class A Ordinary Shares in accordance with these Articles.

9. Rights and Conversion of Convertible Preferred Shares

- 9.1 The Convertible Preferred Shares shall carry no voting rights, and shall not entitle their holders to receive notice of, to attend, to speak or to vote at any general meeting of the Company.

- 9.2 On a return of assets on liquidation or otherwise, the assets of the Company remaining after payment of its debts and liabilities and available for distribution to holders of Convertible Preferred Shares shall be applied in the manner and order of priority as set out in Article 8.1.
- 9.3 Any dividends shall be paid to the holders of Convertible Preferred Shares in the manner and order of priority as set out in Articles 8.2 and 8.3.
- 9.4 On an issuance of shares or other securities in connection with a demerger (a “Demerger Issuance”), the holders of Convertible Preferred Shares shall be entitled to participate in such Demerger Issuance as if such Convertible Preferred Shares had been converted into Class A Ordinary Shares in accordance with these Articles.
- 9.5 On a Solvent Reorganisation, the rights of the holders of Convertible Preferred Shares under these Articles shall be preserved in all material respects and the Company shall take all reasonable steps to ensure that the holders of Convertible Preferred Shares shall have equivalent rights in all material respects in respect of any securities and property receivable upon any such Solvent Reorganisation as if such Convertible Preferred Shares had been converted into Class A Ordinary Shares in accordance with these Articles.
- 9.6 Immediately following completion of the Business Combination, each Convertible Preferred Share shall convert into one (1) Class A Ordinary Share (credited as fully paid), provided that:
- (a) the maximum number of Class A Ordinary Shares to be issued on conversion shall be the maximum number that can be issued so that Volvo (alone or taken together with all other legal entities that, directly or indirectly, are controlled by Geely (“Geely Group”)) after such conversion holds, whether directly or indirectly through depository shares and/or receipts, less than 50% of the aggregate voting rights attaching to the Ordinary Shares (the “Ownership Condition”); or
 - (b) no conversion of a Convertible Preferred Share shall occur in circumstances which would give rise to an obligation on Volvo or any member of the Geely Group to make a mandatory offer under any applicable law or regulation to acquire all of the Class A Ordinary Shares not already held by Volvo or the Geely Group, save with the prior written consent of Volvo or a member of the Geely Group (the “Takeover Condition”).
- 9.7 Any Convertible Preferred Shares which are not converted in accordance with Article 9.6 as a result of the Ownership Condition, shall automatically convert into Class A Ordinary Shares at the Preference Conversion Ratio on the last Business Day of each fiscal quarter and on such other dates as determined by the Company to the extent that such conversion can at any time be implemented in compliance with the Ownership Condition and the Takeover Condition.
- 9.8 If a Convertible Preferred Share would otherwise automatically be converted into Class A Ordinary Shares save for the fact that the Takeover Condition is not satisfied, the Company shall take all reasonable steps to procure a waiver prior to any such conversion from the relevant regulatory authority from any obligation on Volvo or any member of the Geely Group to make a mandatory offer following any such conversion. Upon receipt of the requisite waiver, a Convertible Preferred Share shall automatically convert in accordance with Article 9.7. For the avoidance of doubt, where no such waiver is obtained, no such conversion shall take place.
- 9.9 If any Convertible Preferred Share remains unconverted on or following the fifth anniversary of issuance of the Convertible Preferred Shares, a holder of a Convertible Preferred Share shall be entitled, by written notice to the Company, to require that the Convertible Preferred Shares held by it be converted into Class A Ordinary Shares and, subject, to the extent applicable, to the delivery to the Company of a duly stamped instrument of transfer in accordance with these Articles, issued (subject to compliance with the Companies Acts) or transferred to such third party investors as the relevant holder of Convertible Preferred Shares shall direct, provided that such conversion shall not breach the Ownership Condition or the Takeover Condition.
- 9.10 The Company shall, on the relevant conversion date, enter the holder of the converted Convertible Preferred Shares on the register of members as the holder of the appropriate number of Class A Ordinary

Shares, subject to the relevant holder delivering its certificate(s) (or an indemnity for lost certificate in a form acceptable to the Board) in respect of any relevant Convertible Preferred Shares so converted in accordance with this Article provided that a failure by such holder to do so shall not prejudice or delay the conversion of the relevant Convertible Preferred Shares into Class A Ordinary Shares. Each conversion of Convertible Preferred Shares shall be deemed to have occurred at 5:00 pm, New York time, on the applicable conversion date. The Company shall within 10 Business Days of the conversion date forward to such holder by post to his address shown in the register of members (or such other address as the holder may specify by notice to the Company), free of charge, a definitive certificate for the appropriate number of fully paid Class A Ordinary Shares.

9.11 The conversion of Convertible Preferred Shares into Class A Ordinary Shares by a holder shall automatically be effected (without the need for any resolution of shareholders or action on the part of the Board) by:

- (a) the consolidation of the Convertible Preferred Shares to be converted and held by that holder into a single unclassified share; and
- (b) the subdivision into, and redesignation of, such share into the relevant number of Class A Ordinary Shares (rounded down to the nearest whole number) with the balance being subdivided and converted into Deferred Shares.

9.12 The Preference Conversion Ratio shall from time to time be adjusted in accordance with the provisions of this Article:

- (a) if Convertible Preferred Shares remain capable of being converted into new Class A Ordinary Shares and there is a consolidation and/or sub-division of and/or other alteration of the nominal value of the Class A Ordinary Shares;
- (b) if Convertible Preferred Shares remain capable of being converted into Class A Ordinary Shares, on an allotment of fully-paid Class A Ordinary Shares pursuant to a capitalisation of profits or reserves (including any share premium account or capital redemption reserve) to holders of Class A Ordinary Shares;
- (c) if Convertible Preferred Shares remain capable of being converted into Class A Ordinary Shares, on an offer of Class A Ordinary Shares or other share-related securities at a discount by the Company by way of rights or otherwise to all or substantially all of the holders of the Class A Ordinary Shares (a "Discounted Rights Offer"),

(each of (a), (b) and (c) a "Convertible Preferred Adjustment Event") the Preference Conversion Ratio shall be adjusted conditional on the Convertible Preferred Adjustment Event occurring such that, in the case of (a) and (b) following adjustment the number of Class A Ordinary Shares into which the outstanding Convertible Preferred Shares will convert is the same as the number of Class A Ordinary Shares as would have resulted had the outstanding Convertible Preferred Shares been converted into Class A Ordinary Shares immediately prior to the time of the Convertible Preferred Adjustment Event at the then prevailing Preference Conversion Ratio and had then been subject to the Convertible Preferred Adjustment Event. In the case of (c), the Preference Conversion Ratio shall be adjusted by multiplying the Preference Conversion Ratio in force immediately prior to such issue or grant by the following fraction:

$$\frac{A + C}{A + B}$$

where A is the number of Class A Ordinary Shares in issue immediately before announcement of the Discounted Rights Offer; B is the number of Class A Ordinary Shares which the aggregate consideration (if any and before deduction for any commission or expenses paid or incurred by the Company in connection with such issuance) receivable for the Class A Ordinary Shares issued by way of rights, or for the options or warrants or other rights issued by way of rights and for the total number of Class A Ordinary Shares deliverable on the exercise thereof, would purchase at the Fair Market Value per Class A Ordinary

Share on the record date of the issuance; C is the number of Class A Ordinary Shares issued or, as the case may be, the maximum number of Class A Ordinary Shares which may be issued upon exercise of such options, warrants or rights calculated as at the date of issue of such options, warrants or rights; and "Fair Market Value" means the volume weighted average price of the Class A Ordinary Shares as reported during the ten (10) trading day period ending on the trading day prior to the date of announcement of the Discounted Rights Offer. Any adjustment pursuant to Article 9.12(c) shall only apply to the extent a holder of Convertible Preferred Shares cannot participate in the Discounted Rights Offer due to the Ownership Condition.

- 9.13 If a doubt or dispute arises concerning the determination of an adjustment of the conversion ratio in accordance with Article 9.12, the Board shall refer the matter to the auditors for determination who shall make available to all Shareholders their report and whose certificate as to the amount of the adjustment is, in the absence of manifest error, conclusive and binding on all concerned and their costs shall be met by the Company.

10. Rights and Redemption of GBP Redeemable Preferred Shares

- 10.1 The GBP Redeemable Preferred Shares shall carry no voting rights, and shall not entitle their holders to receive notice of, to attend, to speak or to vote at any general meeting of the Company.
- 10.2 On a return of assets on liquidation or otherwise, the assets of the Company remaining after payment of its debts and liabilities and available for distribution to holders of GBP Redeemable Preferred Shares shall be applied in the manner and order of priority as set out in Article 8.1.
- 10.3 Subject to the provisions of the Companies Acts, the Company shall be entitled, at any time, to serve notice on all or some of the holders of the GBP Redeemable Preferred Shares that it wishes to redeem all or some of the GBP Redeemable Preferred Shares in issue at that time on the date falling 14 days after service of such notice (or on such other date as may be agreed between the Company and the holders of the relevant GBP Redeemable Preferred Shares). Notice given under this Article 10.3 shall be irrevocable.
- 10.4 Upon the date on which any GBP Redeemable Preferred Shares are to be redeemed under this Article, each holder of the relevant GBP Redeemable Preferred Shares shall be bound to deliver to the Company at the Office the certificates for such of the GBP Redeemable Preferred Shares as are held by it. Upon such delivery, the Company shall redeem the shares and shall pay to (or to the order of) such holder the nominal value of the relevant GBP Redeemable Preferred Shares. If any holder of GBP Redeemable Preferred Shares whose shares are liable to be redeemed under this paragraph shall fail or refuse to deliver up the certificate for its GBP Redeemable Preferred Shares, the Company may retain the redemption moneys until delivery up of the certificate or an indemnity in respect thereof satisfactory to the Company and shall within seven days thereafter pay the redemption moneys to (or to the order of) such holder. The receipt of the registered holder for the time being of any GBP Redeemable Preferred Shares or, in the case of registered holders, the receipt of any of them for the moneys payable on redemption thereof shall constitute an absolute discharge in respect thereof.

11. Rights of Deferred Shares

- 11.1 The Deferred Shares shall carry no voting rights, and shall not entitle their holders to receive notice of, to attend, to speak or to vote at any general meeting of the Company. Unless the Board determines otherwise, a holder of Deferred Shares shall not be entitled to receive a certificate for such shares.
- 11.2 On a return of assets on liquidation or otherwise, the assets of the Company remaining after payment of its debts and liabilities and available for distribution to holders of Deferred Shares shall be applied in the manner and order of priority as set out in Article 8.1.

- 11.3 The special resolution of the Company adopting these Articles shall be deemed to confer irrevocable authority on the Company, at any time and from time to time, to do all or any of the following without obtaining the sanction and/or consent of the holder(s) of the Deferred Shares (or any of them):
- (a) from the date falling two years after the Date of Adoption, to appoint any person to execute on behalf of any holder of Deferred Shares a transfer of all or any of its/his Deferred Shares and/or an agreement to transfer the same to such person(s) as the Company may determine and without making any payment to the holder thereof; and
 - (b)
 - (i) from the date falling two years after the Date of Adoption, to purchase and/or cancel any Deferred Shares (in accordance with the Companies Acts) without obtaining the consent of the holder(s) of those Shares and without making any payment to the holder(s) thereof; and
 - (ii) for the purposes of any such purchase and/or cancellation, to appoint any person to execute a contract for the sale of any such Shares to the Company on behalf of any holder of Deferred Shares,and, pending such transfer, purchase and/or cancellation, to retain the certificate(s) (if any) for such Shares.

12. Rights and Conversion of Ordinary Shares

- 12.1 On a return of assets on liquidation or otherwise, the assets of the Company remaining after payment of its debts and liabilities and available for distribution to holders of Ordinary Shares shall be applied in the manner and order of priority as set out in Article 8.1.
- 12.2 Any dividend shall be paid to the holders of Ordinary Shares in the manner and order of priority as set out in Article 8.2.
- 12.3 Ordinary Shares shall confer on each holder of Ordinary Shares the right to receive notice of and to attend, speak and vote at all general meetings of the Company in accordance with these Articles.
- 12.4 Each Class B Ordinary Share is convertible into one (1) Class A Ordinary Share at any time at the option of the holder of such Class B Ordinary Share. The right to convert such Class B Ordinary Shares into Class A Ordinary Shares shall be exercisable by the holder of the Class B Ordinary Share delivering a written notice to the Company that such holder elects to convert a specified number of Class B Ordinary Shares into Class A Ordinary Shares. In no event shall Class A Ordinary Shares be convertible into Class B Ordinary Shares.
- 12.5 Any conversion of Class B Ordinary Shares into Class A Ordinary Shares pursuant to these Articles shall be effected by means of the re-designation of each relevant Class B Ordinary Share as a Class A Ordinary Share or by such other method as may be approved by the Board. Such conversion shall become effective forthwith upon entries being made in the Register to record the re-designation of the relevant Class B Ordinary Shares as Class A Ordinary Shares. The Company shall complete the conversion as soon as reasonably practicable, and in any event within 10 Business Days, after the conversion notice is delivered by the holder of the Class B Ordinary Share to the Company.
- 12.6 Save and except for voting rights as set out in Article 70.1 and conversion rights as set out in Articles 12.4 and 12.5, Class B Ordinary Shares and Class A Ordinary Shares shall rank *pari passu* with one another and shall have the same rights, preferences, privileges and restrictions.

13. Rights and Conversion of Class C Shares

Return of capital

- 13.1 On a return of assets on liquidation or otherwise, the assets of the Company remaining after payment of its debts and liabilities and available for distribution to holders of Class C Shares shall be applied in the manner and order of priority as set out in Article 8.1.

Voting

- 13.2 Class C Shares shall confer on each holder of Class C Shares the right to receive notice of and to attend, speak and vote at all general meetings of the Company in accordance with these Articles.

Return of capital

- 13.3 Class C-1 Shares and Class C-2 Shares shall have the same rights, preferences, privileges and restrictions, except that so long as Class C-2 Shares are held by the Sponsor or any of its Permitted Transferees, the Class C-2 Shares:

- (a) may be converted for cash in accordance with Article 13.6 or on a cashless basis in accordance with Article 13.7;
- (b) may not be transferred, assigned or sold until thirty (30) days after Closing; and
- (c) shall not be redeemable by the Company pursuant to Article 13.25,

provided, however, that in the case of (b), the Class C-2 Shares and any Class A Ordinary Shares held by the Sponsor or any of its Permitted Transferees arising upon the conversion of the Class C-2 Shares may be transferred by the holders to a Permitted Transferee.

Conversion of Class C-2 Shares into Class C-1 Shares

- 13.4 Each Class C-2 Share is convertible into one (1) Class C-1 Share at any time at the option of the holder of such Class C-2 Share. The right to convert such Class C-2 Shares into Class C-1 Shares shall be exercisable by the holder of the Class C-2 Share delivering a written notice to the Company that such holder elects to convert a specified number of Class C-2 Shares into Class C-1 Shares. In no event shall Class C-1 Shares be convertible into Class C-2 Shares.

- 13.5 Any conversion of Class C-2 Shares into Class C-1 Shares pursuant to these Articles shall be effected by means of the re-designation of each relevant Class C-2 Share as a Class C-1 Share or by such other method as may be approved by the Board. Such conversion shall become effective forthwith upon entries being made in the Register to record the re-designation of the relevant Class C-2 Shares as Class C-1 Shares. The Company shall complete the conversion as soon as reasonably practicable, and in any event within 10 Business Days, after the conversion notice is delivered by the holder of the Class C-2 Share to the Company.

Conversion for cash

- 13.6 During the Conversion Period, each holder of Class C Shares shall be entitled by notice to the Company (a "Conversion Notice")¹ to require the conversion into Class A Ordinary Shares upon payment to the Company of USD 11.50 per Class A Ordinary Share (subject to the adjustments set out in Articles 13.20 to 13.24 (inclusive) and the last sentence of this Article 13.6) ("Conversion Price") of any or all of the relevant Class C Shares held by them at any time, and those Class C Shares shall convert automatically and with immediate effect on the later of (a) delivery of such notice and (b) payment in full of the aggregate Conversion Price and any and all applicable taxes due in connection with the conversion of the Class C Shares into the Class A Ordinary Shares in lawful money of the United States, in good certified check or good bank draft payable to the Company. If the relevant Conversion Notice does not specify the time on the Conversion Date that the relevant conversion shall occur, the conversion shall take place immediately upon the occurrence of the Conversion Date. The Company in its sole discretion may lower the Conversion Price at any time prior to the Expiration Date (as defined in Article 13.15) for a period of not less than twenty (20) Business Days, provided, that the Company shall provide at least three (3) Business Days prior written notice of such reduction to the Class C Share holders and, provided further that any such reduction shall be identical among all of the Class C Shares. The number of Class A Ordinary Shares into which Class C Shares will convert is equal to the number of Class C Shares being converted multiplied by the Conversion Ratio.

¹ **Note to Draft:** Form of conversion notice to be scheduled.

Cashless conversion of Class C-2 Shares

- 13.7 Without prejudice to Article 13.6, during the Conversion Period, each holder of Class C-2 Shares which is the Sponsor or a Permitted Transferee of the Sponsor shall be entitled by notice to the Company (a “Cashless Conversion Notice”) to require the conversion into Class A Ordinary Shares of any or all of the relevant Class C-2 Shares held by them at any time on a cashless basis, and those Class C Shares shall convert automatically and with immediate effect on delivery of such Cashless Conversion Notice (the “Conversion Date”). The number of Class A Ordinary Shares into which Class C-2 Shares will convert is equal to the quotient obtained by dividing:
- (i) the number of converting Class C-2 Shares multiplied by the Conversion Ratio and multiplied by the difference between the Conversion Price and the “Fair Market Value”; by
 - (ii) the “Fair Market Value”.

Solely for purposes of this Article 13.7, the “Fair Market Value” shall mean the average last sale price of the Class A Ordinary Share for the ten (10) trading days ending on the third trading day prior to the date on which the Cashless Conversion Notice is sent to the Company.

Conversion mechanism

- 13.8 The conversion of Class C Shares into Class A Ordinary Shares by a holder pursuant to any provision of these Articles shall automatically be effected (without the need for any resolution of shareholders or action on the part of the Board) by:
- (a) the consolidation of the Class C Shares to be converted and held by that holder into a single unclassified share; and
 - (b) the subdivision into, and re-designation of, such share into the relevant number of Class A Ordinary Shares (rounded down to the nearest whole number) with the balance being subdivided and converted into Deferred Shares.

Cashless conversion of Class C Shares in certain circumstances

- 13.9 The Company agrees that as soon as practicable, but in no event later than fifteen (15) Business Days after the Closing, it shall use its commercially reasonable efforts to file with the Securities and Exchange Commission a registration statement for the registration, under the Securities Act, of the Class A Ordinary Shares arising on conversion of the Class C Shares. The Company shall use its best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto for so long as any Class C Share remain outstanding. If any registration statement for the registration of the Class A Ordinary Shares arising upon the conversion of the Class C Shares pursuant to the Securities Act has not been declared effective by the 60th Business Day following Closing, holders of the Class C Shares shall have the right, during the period beginning on the 61st Business Day after Closing and ending upon such registration statement being declared effective by the Securities and Exchange Commission, and during any other period when the Company shall fail to have maintained an effective registration statement covering the Class A Ordinary Shares arising upon conversion of the Class C Shares, to convert such Class C Shares into Class A Ordinary Shares on a cashless basis. The number of Class A Ordinary Shares into which the relevant Class C Shares will convert is equal to the quotient obtained by dividing:
- (i) the number of converting Class C Shares, multiplied by the Conversion Ratio and multiplied by the difference between the Conversion Price and the “Fair Market Value”; by
 - (ii) the “Fair Market Value”.

Solely for purposes of this Article 13.9, “Fair Market Value” shall mean the volume weighted average price of the Class A Ordinary Shares as reported during the ten (10) trading day period ending on the

trading day prior to the date that notice of conversion is received by the Company from the holder of such Class C Shares. In connection with the conversion of a Class C-1 Share pursuant to this Article 13.9, the Company shall, upon request, provide the holder of Class C-1 Shares with an opinion of counsel for the Company (which shall be an outside law firm satisfactory to the holder of Class C-1 Shares with securities law experience) stating that:

- (iii) the conversion of the Class C-1 Shares pursuant to this Article 13.9 on a cashless basis is not required to be registered under the Securities Act; and
- (iv) the Class A Ordinary Shares arising upon such conversion shall be freely tradable under United States federal securities laws by anyone who is not an affiliate (as such term is defined in Rule 144 under the Securities Act (or any successor rule)) of the Company and, accordingly, shall not be required to bear a restrictive legend.

Except as provided in Article 13.10, for the avoidance of any doubt, unless and until all of the Class C Shares have been converted, the Company shall continue to be obligated to comply with its registration obligations under the first three sentences of this Article 13.9.

13.10 If the Class A Ordinary Shares are at the time of any conversion of a Class C Share not listed on a national securities exchange such that it satisfies the definition of a “covered security” under the Securities Act (or any successor rule), the Company may, at its option:

- (a) require holders of Class C-1 Shares who convert Class C-1 Shares to convert such Class C-1 Shares on a “cashless basis” in accordance with Article 13.9 and the Securities Act (or any successor rule); and
- (b) in the event the Company so elects, the Company shall:
 - (i) not be required to file or maintain in effect a registration statement for the registration, under the Securities Act, of the Class A Ordinary Shares arising upon conversion of the Class C-1 Shares; and
 - (ii) use its best efforts to register the Class A Ordinary Shares arising upon conversion of the Class C-1 Shares under the blue sky laws of the state of residence of the converting holder of Class C-1 Shares to the extent an exemption is not available.

Issue of share certificates on conversion

13.11 Subject to Article 13.12, as soon as practicable after the conversion of any Class C Share and the clearance of the funds in payment of the Conversion Price (if payment is required pursuant to these Articles), the Company shall issue to the holder of such Class C Share a share certificate for the number of shares of Class A Ordinary Shares to which he, she or it is entitled, and if such Class C Share shall not have been converted in full, a balancing certificate in respect of the Class C Shares that have not been converted.

No conversion unless certain securities laws obligations are satisfied

13.12 Notwithstanding Article 13.11 or any other provision of these Articles, the Company shall not be obligated to deliver any Class A Ordinary Shares pursuant to the conversion of Class C Shares and shall have no obligation to settle such Class C Shares conversion unless a registration statement under the Securities Act with respect to the Class A Ordinary Shares arising on conversion of the Class C-1 Shares is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations:

- (a) to, as soon as practicable, but in no event later than fifteen (15) Business Days after Closing, use its commercially reasonable efforts to file with the Securities and Exchange Commission a registration statement for the registration, under the Securities Act, of the Class A Ordinary Shares arising upon conversion of the Class C Shares; and
- (b) as set out in Article 13.9,

("Registration Condition One"). In addition, no Class C Share shall be convertible unless any Class A Ordinary Share arising upon such Class C Share conversion has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the holder of the Class C Shares ("Registration Condition Two").

Class A Ordinary Shares to be fully paid

- 13.13 All Class A Ordinary Shares re-designated upon the proper conversion of Class C Shares in accordance with these Articles shall be credited as fully paid.

Conversion Price reduction

- 13.14 The Company in its sole discretion may lower the Conversion Price at any time prior to the conversion of the relevant Class C Shares for a period of not less than twenty (20) Business Days, provided, that the Company shall provide at least three (3) Business Days prior written notice of such reduction to the holders of Class C Shares and, provided further that any such reduction shall be identical among all of the Class C Shares.

Conversion Period and expiry

- 13.15 Other than a conversion pursuant to Article 13.26 or 13.27, a Class C Share may be converted only during the period (the "Conversion Period") commencing on the date that is thirty (30) days after Closing, and terminating at 5:00 p.m., New York City time on the earlier to occur of:

- (a) the date that is five (5) years after Closing;
- (b) other than with respect to the Class C-2 Shares then held by the Sponsor or any Permitted Transferees with respect to a redemption, the redemption date as fixed by the Company (the "Expiration Date"),

provided, however, that the conversion of any Class C Share shall be subject to the satisfaction of the conditions set out in Article 13.9 with respect to an effective registration statement. Except with respect to the right to receive the Redemption Price (as defined Article) (other than with respect to a Class C-2 Share then held by the Sponsor or any Permitted Transferees with respect to a redemption pursuant to Article 13.25) in the event of a redemption or conversion (as set forth in Articles 13.25 to 13.27), each Class C Share (other than a Class C-2 Share then held by the Sponsor or any Permitted Transferees with respect to a redemption pursuant to Article 13.25) not converted on or before the Expiration Date shall automatically convert into Deferred Shares of the same aggregate nominal value at 5:00 p.m. New York City time on the Expiration Date. The Company in its sole discretion may delay the Expiration Date; provided, that the Company shall provide at least twenty (20) days prior written notice of any such extension to holders of the Class C Shares and, provided further that any such extension shall be identical in duration among all the Class C Shares.

Time to complete conversion

- 13.16 The Company shall complete any conversion of Class C Shares into Class A Ordinary Shares as soon as reasonably practicable, and in any event within 10 Business Days, after the later of (i) delivery of the relevant conversion notice, if applicable and (ii) in the case of conversion pursuant to Article 13.6, the payment of the Conversion Price by the holder of the Class C Shares to the Company in accordance with these Articles.

Maximum holdings

- 13.17 A holder of a Class C Share may notify the Company in writing in the event it elects to be subject to the provisions contained in this Article; however, no holder of a Class C Share shall be subject to this Article

unless he, she or it makes such election. If the election is made by a holder, the Company shall not effect the conversion of the holder's Class C Shares into Class A Ordinary Shares, and such holder shall not have the right to convert such Class C Shares into Class A Ordinary Shares, to the extent that after giving effect to such conversion, such person (together with such person's affiliates), to the Company's actual knowledge (without further investigation or inquiry), would beneficially own in excess of 9.8% (the "Maximum Percentage") of the Class A Ordinary Shares outstanding immediately after giving effect to such conversion.

13.18 For purposes of Article 13.17, the aggregate number of Class A Ordinary Shares beneficially owned by such person and its affiliates shall include the number of Class A Ordinary Shares arising upon conversion of the Class C Shares with respect to which the determination under the second sentence of Article 13.17 is being made, but shall exclude Class A Ordinary Shares that would arise upon:

- (a) conversion of the remaining, unconverted portion of the Class C Shares beneficially owned by such person and its affiliates; and
- (b) exercise or conversion of the unexercised or unconverted portion of any other securities of the Company beneficially owned by such person and its affiliates (including, without limitation, any convertible notes or convertible preferred securities or warrants) subject to a limitation on conversion or exercise analogous to the limitation contained herein.

Except as set forth in this Article 13.18, for purposes of this paragraph, beneficial ownership shall be calculated in accordance with Section 13(d) of the Exchange Act. For purposes of the Class C Shares, in determining the number of outstanding Class A Ordinary Shares, the holder may rely on the number of outstanding Class A Ordinary Shares as reflected in:

- (c) the Company's most recent annual report, quarterly report, current report or other public filing with the Securities and Exchange Commission as the case may be;
- (d) a more recent public announcement by the Company; or
- (e) any other notice by the Company setting forth the number of Class A Ordinary Shares outstanding.

For any reason at any time, upon the written request of the holder of the Class C Shares, the Company shall, within two (2) Business Days, confirm orally and in writing to such holder the number of Class A Ordinary Shares then outstanding. In any case, the number of outstanding Class A Ordinary Shares shall be determined after giving effect to the conversion or exercise of equity securities of the Company by the holder and its affiliates since the date as of which such number of outstanding Class A Ordinary Shares was reported. By written notice to the Company, the holder of a Class C Share may from time to time increase or decrease the Maximum Percentage applicable to such holder to any other percentage specified in such notice; provided, however, that any such increase shall not be effective until the sixty-first (61st) day after such notice is delivered to the Company.

Entry in Register and certificates

13.19 The Company shall, on the Conversion Date, enter the holder of the converted Class C Shares on the Register as the holder of the appropriate number of Class A Ordinary Shares, subject to the relevant holder delivering its certificate(s) (or an indemnity for lost certificate in a form acceptable to the Board) in respect of the relevant Class C Shares so converted in accordance with these Articles, provided that a failure by such holder to do so shall not prejudice or delay the conversion of the relevant Class C Shares into Class A Ordinary Shares. The Company shall within 10 Business Days of the Conversion Date forward to such holder by post to his address shown in the Register (or such other address as the holder may specify by notice to the Company), free of charge, a definitive certificate for the appropriate number of fully paid Class A Ordinary Shares.

Adjustments

13.20

- (a) If the number of outstanding Class A Ordinary Shares is increased by a scrip dividend payable in Class A Ordinary Shares, or by a subdivision of Class A Ordinary Shares or other similar event, then, on the effective date of such scrip dividend, subdivision or similar event, the Conversion Ratio shall be increased in proportion to such increase in the outstanding Class A Ordinary Shares. A rights offering to holders of the Class A Ordinary Shares entitling holders to purchase shares of Class A Ordinary Shares at a price less than the "Fair Market Value" shall be deemed a scrip dividend of a number of Class A Ordinary Shares equal to the product of:
- (i) the number of Class A Ordinary Shares actually issued in such rights offering (or issuable under any other equity securities issued in such rights offering that are convertible into or exercisable for the Class A Ordinary Shares), multiplied by one (1) minus the quotient of:
- (A) the price per share of Class A Ordinary Shares paid in such rights offering; divided by
- (B) the "Fair Market Value".

For purposes of this Article 13.20(a) (i) if the rights offering is for securities convertible into or exercisable for Class A Ordinary Shares, in determining the price payable for Class A Ordinary Shares, there shall be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) "Fair Market Value" means the volume weighted average price of the Class A Ordinary Shares as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the Class A Ordinary Shares trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

- (b) If the Company, at any time while the Class C Shares are on issue, shall pay a dividend or make a distribution in cash, securities or other assets to the holders of Class A Ordinary Shares on account of such Class A Ordinary Shares (or other shares into which the Class C Shares are convertible), other than:
- (i) as described in Article 13.20(a); or
- (ii) Ordinary Cash Dividends (as defined below),

then the Conversion Price shall be decreased, effective immediately after the effective date of such Extraordinary Dividend, by the amount of cash and/or the fair market value (as determined by the Board, in good faith) of any securities or other assets paid on each Class A Ordinary Share in respect of such Extraordinary Dividend. For purposes of this Article 13.20(a), "Ordinary Cash Dividends" means any cash dividend or cash distribution which, when combined on a per share basis, with the per share amounts of all other cash dividends and cash distributions paid on the Class A Ordinary Shares during the 365-day period ending on the date of declaration of such dividend or distribution (as adjusted to appropriately reflect any of the events referred to in other subsections of this Article and excluding cash dividends or cash distributions that resulted in an adjustment to the Conversion Price or to the number of shares of Class A Ordinary Shares arising on conversion of each Class C Share) does not exceed \$0.50.

13.21 If the number of outstanding Class A Ordinary Shares is decreased by a consolidation, combination, reverse stock split or reclassification of Class A Ordinary Shares or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar event, the Conversion Ratio shall be decreased in proportion to such decrease in outstanding Class A Ordinary Shares.

13.22 Whenever the Conversion Ratio is adjusted, as provided in Articles 13.20(a) and 13.21, the Conversion Price shall be adjusted (to the nearest cent) by multiplying such Conversion Price immediately prior to

such adjustment by a fraction (x) the numerator of which shall be the Conversion Ratio immediately prior to such adjustment, and (y) the Conversion Ratio immediately thereafter.

13.23 In case of any:

- (a) reclassification or reorganization of the outstanding Class A Ordinary Shares (other than a change under Articles 13.20 or 13.21) or that solely affects the nominal value of Class A Ordinary Shares); or
- (b) sale or conveyance to another corporation or entity of the assets or other property of the Company as an entirety or substantially as an entirety in connection with which the Company is dissolved,

the holders of the Class C Shares shall thereafter have the right to purchase and receive, in lieu of the Class A Ordinary Shares into which such Class C Shares would convert pursuant to Article 13.6, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the Class C Shares would have received if such holder had converted his, her or its Class C Share(s) immediately prior to such event (the "Alternative Issuance"), provided that:

- (c) if the holders of the Class A Ordinary Shares were entitled to exercise a right of election as to the kind or amount of securities, cash or other assets receivable upon such consolidation or merger, then the kind and amount of securities, cash or other assets constituting the Alternative Issuance for which each Class C Share shall become convertible shall be deemed to be the weighted average of the kind and amount received per share by the holders of the Class A Ordinary Shares in such consolidation or merger that affirmatively make such election; and
- (d) if a tender, exchange or redemption offer shall have been made to and accepted by the holders of the Class A Ordinary Shares under circumstances in which, upon completion of such tender or exchange offer, the maker, together with members of any group (within the meaning of Rule 13d-5(b)(1) under the Exchange Act (or any successor rule)) of which such maker is a part, and together with any affiliate or associate of such maker (within the meaning of Rule 12b-2 under the Exchange Act (or any successor rule)) and any members of any such group of which any such affiliate or associate is a part, own beneficially (within the meaning of Rule 13d-3 under the Exchange Act (or any successor rule)) more than 50% of the outstanding Class A Ordinary Shares, the holder of a Class C Share shall be entitled to receive as the Alternative Issuance, the highest amount of cash, securities or other property to which such holder would actually have been entitled as a shareholder if such Class C Share holder had converted the Class C Shares prior to the expiration of such tender or exchange offer, accepted such offer and all of the Class A Ordinary Shares held by such holder had been purchased pursuant to such tender or exchange offer, subject to adjustments (from and after the consummation of such tender or exchange offer) as nearly equivalent as possible to the adjustments provided for in Articles 13.20 to 13.22 (inclusive) and this Article; provided, further, that if less than 70% of the consideration receivable by the holders of the Class A Ordinary Shares in the applicable event is payable in the form of common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the holder properly converts the Class C Shares within thirty (30) days following the public disclosure of the consummation of such applicable event by the Company pursuant to a current report on Form 8-K filed with the Securities and Exchange Commission, the Conversion Price shall be reduced by an amount (in dollars) equal to the difference of (i) the Conversion Price in effect prior to such reduction minus (ii) (A) the Per Share Consideration (as defined below) (but in no event less than zero) minus [(B) the Class C Share value immediately prior to the consummation of the applicable event]. For purposes of calculating such amount, (1) Articles 13.25 to 13.32 shall be taken into account, (2) the price of each Class A Ordinary Share shall be the volume weighted average price of the Class A Ordinary Share as reported during the ten (10) trading day period ending on the trading day prior to the effective date

of the applicable event, (3) the assumed volatility shall be the 90 day volatility as of the trading day immediately prior to the day of the announcement of the applicable event, and (4) the assumed risk-free interest rate shall correspond to the U.S. Treasury rate for a period equal to the remaining time the Class C Shares are not converted. "Per Share Consideration" means (i) if the consideration paid to holders of the Class A Ordinary Share consists exclusively of cash, the amount of such cash per share of Class A Ordinary Share, and (ii) in all other cases, the volume weighted average price of the Class A Ordinary Share as reported during the ten (10) trading day period ending on the trading day prior to the effective date of the applicable event.

If any reclassification or reorganization also results in a change in shares of Class A Ordinary Shares covered by Article 13.20(a), then such adjustment shall be made pursuant to Articles 13.20(a), 13.21 or 13.22 and this Article. The provisions of this Article shall similarly apply to successive reclassifications, reorganizations, mergers or consolidations, sales or other transfers. In no event will the Conversion Price be reduced to less than the nominal value per share re-designated upon conversion of the Class C Shares.

- 13.24 Upon every adjustment of the Conversion Price or the Conversion Ratio, the Company shall give written notice thereof to the holders of Class C Shares, which notice shall state the Conversion Price and Conversion Ratio resulting from such adjustment, setting forth in reasonable detail the method of calculation and the facts upon which such calculation is based. Upon the occurrence of any event specified in Articles 13.20 to 13.23 (inclusive), the Company shall give written notice of the occurrence of such event to each holder of Class C Shares, at the last address set forth for such holder in the register of members of the Company, of the record date or the effective date of the event. Failure to give such notice, or any defect therein, shall not affect the legality or validity of such event.

Redemption or compulsory conversion

- 13.25 Subject to Articles 13.31 and 13.32, not less than all of the outstanding Class C Shares may be redeemed, at the option of the Company, at any time during the Conversion Period, at the office of the Company, upon notice to the holders of the Class C Shares, as described in Article 13.29, at the price of \$0.01 per Class C Share (the "Redemption Price"), provided that the last sales price of the Class A Ordinary Shares reported has been at least \$18.00 per share [(subject to adjustment in compliance with Articles 13.20 to 13.23 (inclusive))], on each of twenty (20) trading days within the thirty (30) trading-day period ending on the third Business Day prior to the date on which notice of the redemption is given and provided that there is an effective registration statement covering the Class A Ordinary Shares arising upon conversion of the Class C Shares, and a current prospectus relating thereto, available throughout the 30-day Redemption Period (as defined in Article 13.29).
- 13.26 Subject to Articles 13.31 and 13.32, the Company, at any time during the Conversion Period upon notice to the holders of the Class C Shares, as described in Article 13.29, may require the holders of Class C Shares to convert all of the outstanding Class C Shares into Class A Ordinary Shares, provided that the last sales price of the Class A Ordinary Shares reported has been at least \$18.00 per share (subject to adjustment in compliance with Articles 13.20 to 13.23 (inclusive)), on each of twenty (20) trading days within the thirty (30) trading-day period ending on the third Business Day prior to the date on which notice of the conversion is given. The number of Ordinary Class A Shares into which the converting Class C Shares will convert is equal to the quotient obtained by dividing:
- (i) the product of the number of Class C Shares converting, multiplied by the Conversion Ratio, and multiplied by the difference between the Conversion Price and the "Fair Market Value"; by
 - (ii) the "Fair Market Value".

Solely for purposes of this Article 13.26, the "Fair Market Value" shall mean the average last sale price of the Class A Ordinary Share for the ten (10) trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of Class C Shares;

13.27 Subject to Articles 13.31 and 13.32, the Company may require that not less than all of the outstanding Class C Shares be converted, ninety (90) days after they are first convertible pursuant to Article 13.6, at the office of the Company, upon notice to the holders of the Class C Shares, as described Article 13.29, into a number of Class A Ordinary Shares determined by reference to the table below, based on the conversion date (calculated for purposes of the table as the period to conversion of the Class C Shares) and the Fair Market Value (as such term is defined in Article 13.26 (the “Alternative Redemption Price”), provided (i) that the last sales price of the Class A Ordinary Shares reported has been at least \$10.00 per share (subject to adjustment in compliance with Articles 13.20 to 13.23 (inclusive)), on the trading day prior to the date on which notice of the redemption is given, (ii) the Class C-2 Shares are converted on the same basis as the outstanding Class C-1 Shares and (iii) there is an effective registration statement covering the Class A Ordinary Shares arising upon conversion of the Class C Shares, and a current prospectus relating thereto, available throughout the 30-day Redemption Period (as defined in Article 13.29) or the Company has elected to require the conversion of the Class C Shares on a “cashless basis” pursuant to Article 13.26. The number of Ordinary Class A Shares into which the converting Class C Shares will convert is equal to the quotient obtained by dividing:

- (i) the product of the number of Class C Shares converting, multiplied by the difference between the conversion price (taken from the table below) and the “Fair Market Value” (as such term is defined in Article 13.26); by
- (ii) the “Fair Market Value”.

The exact Fair Market Value and Redemption Date (as defined in Article 13.29) may not be set forth in the table above, in which case, if the Fair Market Value is between two values in the table or the Redemption Date is between two redemption dates in the table, the number of Class A Ordinary Shares into which Class C Share will convert will be determined by a straight-line interpolation between the number of shares set forth for the higher and lower Fair Market Values and the earlier and later redemption dates, as applicable, based on a 365- or 366-day year, as applicable. The Class A Ordinary Share conversion prices set out in the table above shall be adjusted as of any date on which the number of shares arising upon conversion of a Class C Share is adjusted pursuant to Articles 13.20 to 13.23 (inclusive)). The adjusted

Class A Ordinary Share prices in the column headings shall equal the Class A Ordinary Share prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the number of shares deliverable upon conversion of a Class C Share immediately prior to such adjustment and the denominator of which is the number of shares deliverable upon conversion of a Class C Share as so adjusted. The number of shares in the table above shall be adjusted in the same manner and at the same time as the Conversion Ratio.

- 13.28 In the event that the Company elects to redeem all of the Class C Shares pursuant to Articles 13.25 or to require compulsory conversion of the Class C Shares pursuant to Article 13.26 or 13.27, the Company shall fix a date for the redemption or conversion (the "Redemption Date"). In the event that the Company elects to require compulsory conversion of all of the Class C Shares pursuant to Article 13.27, the Company shall fix a date for conversion (the "Alternative Redemption Date"). Notice of redemption or conversion shall be mailed by first class mail, postage prepaid, by the Company not less than thirty (30) days prior to the Redemption Date (the "30-day Redemption Period") to the holders of the Class C Shares to be redeemed or converted at their last addresses as they shall appear on the Register. Any notice mailed in the manner herein provided shall be conclusively presumed to have been duly given whether or not the holder received such notice.
- 13.29 The Class C Shares may be converted, for cash in accordance with Article 13.6 (or on a "cashless basis" in accordance with Article 13.26) at any time after notice of redemption shall have been given by the Company pursuant to Article 13.29 and prior to the Redemption Date or the Alternative Redemption Date. In the event that the Company determines to require all holders of Class C Shares to convert their Class C Shares on a "cashless basis" pursuant to Article 13.26, the notice of redemption shall contain the information necessary to calculate the number of Class A Ordinary Shares to be received upon conversion of the Class C Shares, including the Fair Market Value (as such term is defined Article 13.26) in such case. On and after the Redemption Date or the Alternative Redemption Price, as applicable, the holder of the Class C Shares shall have no further rights except to receive the Redemption Price or the Alternative Redemption Price, as applicable.
- 13.30 The redemption rights provided in Article 13.25 shall not apply to the Class C-2 Shares if at the time of the redemption such Class C-2 Shares continue to be held by the Sponsor or its Permitted Transferees. However, once such Class C-2 Shares are transferred (other than to Permitted Transferees under Article 13.1), the Company may redeem the Class C-2 Shares pursuant to Article 13.25, provided that the criteria for redemption are met, including the opportunity of the holder of such Class C-2 Shares to convert the Class C-2 Shares prior to redemption pursuant to Article 13.30. Class C-2 Shares that are transferred to persons other than Permitted Transferees shall upon such transfer cease to be Class C-2 Shares and shall become Class C-1 Shares.
- 13.31 If Class C-1 Shares are held by any of the Company's officers or directors, the Class C-1 Shares held by such officers and directors will be subject to the compulsory conversion rights provided in Article 13.26, except that such officers and directors shall only receive "Fair Market Value" ("Fair Market Value" in this Article shall mean the last sale price of the Class C-1 Shares on the Alternative Redemption Date) for such Class C-1 Shares so redeemed.
- 13.32 The Company shall from time to time promptly pay all taxes and charges that may be imposed upon the Company in respect of the re-designation or delivery of Class A Ordinary Shares upon the conversion of the Class C Shares, but the Company shall not be obligated to pay any transfer taxes in respect of the Class C Shares or such Class A Ordinary Shares. The holders of Class C Shares shall not have any duty or obligation to take any action that requires the payment of taxes and/or charges unless and until it is satisfied that all such payments have been made.
- 14. Power to attach rights to shares**
- 14.1 Subject to the Companies Acts and to any rights, privileges or restrictions attached to existing shares, any share may be issued with or have attached to it such rights, privileges and restrictions, whether in regard to

dividends, voting, repayment or redemption of share capital, or otherwise, as the Company may by ordinary resolution determine, or if no ordinary resolution has been passed or so far as the resolution does not make specific provision, as the Board may determine.

- 14.2 Shares may be issued with a preferential or qualified right to dividends and in the distribution of assets of the Company and with or without any special voting rights.

15. Allotment of shares and pre-emption

- 15.1 In accordance with section 551 of the Act, the Directors are generally and unconditionally authorized to allot shares in the Company or grant rights to subscribe for or to convert any security into shares in the Company (the "Share Rights") up to an aggregate maximum number of [\bullet] Ordinary Shares, provided that this authority shall, unless renewed, varied or revoked by ordinary resolution of the Company, expire on the date which is five years from the Date of the Adoption, save that the Directors may allot shares or grant Share Rights in pursuance of an offer or agreement made before such expiry which would or might require shall to be allotted or Share Rights to be granted, notwithstanding that the authority conferred by this Article 15.1 has expired.
- 15.2 The Directors are generally empowered to allot equity securities (as defined in section 560 of the Act) as if section 561(1) of the Act did not apply to any such allotment, provided that this power shall: (i) be limited to the allotment of equity securities up to an aggregate maximum number of [\bullet] Ordinary Shares; and (ii) unless renewed, varied or revoked by ordinary resolution of the Company, expire on the date which is five years from the Date of Adoption, save that the Directors may allot equity securities in pursuance of any offer or agreement made before such expiry which would or might require equity securities to be allotted after such expiry, notwithstanding that the power conferred by this Article 15.2 has expired.
- 15.3 The provisions set forth in Articles 15.1 and 15.2 may be renewed at any meeting of the members of the Company.
- 15.4 Without prejudice to any special rights previously conferred on the holders of any shares or class of shares, and subject to the Companies Acts, these Articles and to any relevant authority of the Company in general meeting required by the Companies Acts, the Board may offer, issue, allot, (with or without conferring rights of renunciation), grant options over or otherwise deal with or dispose of shares or grant rights to subscribe for or convert any security into shares with such preferred, deferred or other special rights, or subject to such restrictions, whether in regard to dividend, return of capital, voting or otherwise, as the Company may from time to time by ordinary resolution determine (or, in the absence of any such determination, as the Board may determine), to such persons, at such times, for such consideration and upon such terms as the Board may decide. No share may be issued at a discount.
- 15.5 If by the conditions of allotment of any shares the whole or part of the issue price thereof shall be payable by instalments, every such instalment shall, when due, be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the shares, or his legal personal representative.
- 15.6 The Board may, at any time after the allotment of any share but before any person has been entered in the Register, recognise a renunciation by the allottee in favour of some other person and accord to the allottee of a share a right to effect such renunciation and/or allow the rights to be represented to be one or more participating securities, in each case upon the subject to such terms and conditions as the Board may think fit to impose.

16. Redeemable shares

Subject to the Companies Acts and to any rights attaching to existing shares, any share may be issued which can be redeemed or is liable to be redeemed at the option of the Company or the holder. The Board may determine the terms, conditions and manner of redemption of any redeemable shares which are issued. Such terms and conditions shall apply to the relevant shares as if the same were set out in these Articles.

17. Pari passu issues

If new shares are created or issued which rank equally with any other existing shares, the rights of the existing shares will not be regarded as changed or abrogated unless the terms of the existing shares expressly say otherwise.

18. Variation of rights

- 18.1 Subject to the Companies Acts, the rights attached to any class of shares can be varied or abrogated either with the consent in writing of the holders of not less than three-quarters in nominal value of the issued share of that class (excluding any shares of that class held as treasury shares) or with the authority of a special resolution passed at a separate meeting of the holders of the relevant class of shares known as a class meeting.
- 18.2 The provisions of this Article will apply to any variation or abrogation of rights of shares forming part of a class. Each part of the class which is being treated differently is treated as a separate class in applying this Article.
- 18.3 All the provisions in these Articles as to general meetings shall apply, with any necessary modifications, to every class meeting except that:
- (a) the quorum at every such meeting shall not be less than two persons holding or representing by proxy at least one-third of the nominal amount paid up on the issued shares of the class (excluding any shares of that class held as treasury shares); and
 - (b) if at any adjourned meeting of such holders such quorum as set out above is not present, at least one person holding shares of the class who is present in person or by proxy shall be a quorum.
- 18.4 The Board may convene a class meeting whenever it thinks fit and whether or not the business to be transacted involves a variation or abrogation of class rights.

19. Payment of commission

The Company may in connection with the issue of any shares or the sale for cash of treasury shares exercise all powers of paying commission and brokerage conferred or permitted by the Companies Acts. Any such commission or brokerage may be satisfied by the payment of cash or by the allotment of fully or partly paid shares or other securities or the grant of an option to call for an allotment of shares or any combination of such methods.

20. Trusts not recognised

Except as otherwise expressly provided by these Articles, required by law or as ordered by a court of competent jurisdiction, the Company shall not recognise any person as holding any share on any trust, and the Company shall not be bound by or required in any way to recognise (even when having notice of it) any equitable, contingent, future, partial or other claim to or interest in any share other than an absolute right of the holder of the whole of the share.

21. Share certificates

- 21.1 Every person (except a person to whom the Company is not by law required to issue a certificate and except as otherwise provided in these Articles) whose name is entered in the Register as a holder of any shares shall be entitled, without charge, to receive within the time limits prescribed by the Companies Acts (unless the terms of issue prescribe otherwise) one certificate for all of the shares of that class registered in his or her name.

- 21.2 The Company shall not be bound to issue more than one certificate in respect of shares held jointly by two or more persons. Delivery of a certificate to the person first named in the Register shall be sufficient delivery to all joint holders.
- 21.3 Where a member has transferred part only of the shares comprised in a certificate, the member shall be entitled without charge to a certificate for the balance of such shares. Where a member receives more shares of any class, the member shall be entitled without charge to a certificate for the extra shares of that class.
- 21.4 A share certificate may be issued under Seal (by affixing the Seal to or printing the Seal or a representation of it on the certificate) or signed by at least two Directors or by at least one Director and the Secretary. Such certificate shall specify the number and class of the shares in respect of which it is issued and the amount or respective amounts paid up on it. The Board may by resolution decide, either generally or in any particular case or cases, that any signatures on any share certificates need not be autographic but may be applied to the certificates by some mechanical or other means or may be printed on them or that the certificates need not be signed by any person.
- 21.5 Every share certificate sent in accordance with these Articles will be sent at the risk of the member or other person entitled to the certificate. The Company will not be responsible for any share certificate lost or delayed in the course of delivery.

22. Replacement certificates

- 22.1 Any two or more certificates representing shares of any one class held by any member may at the request of the member be cancelled and a single new certificate for such shares issued in lieu without charge on surrender of the original certificates for cancellation.
- 22.2 Any certificate representing shares of any one class held by any member may at the request of the member be cancelled and two or more certificates for such shares may be issued instead.
- 22.3 If a share certificate is defaced, worn out or said to be stolen, lost or destroyed, it may be replaced on such terms as to evidence and indemnity as the Board may decide and, where it is defaced or worn out, after delivery of the old certificate to the Company.
- 22.4 The Board may require the payment of any reasonable exceptional out-of-pocket expenses of the Company incurred in connection with the issue of any certificates under this Article. In the case of shares held jointly by several persons, any such request as is mentioned in this Article may be made by any one of the joint holders.

23. Lien on shares not fully paid

The Company shall have a first and paramount lien on every share, not being a fully paid share, for all amounts payable to the Company (whether presently or not) in respect of that share. The Company's lien over a share takes priority over any third party's interest in that share, and extends to any dividend or other money payable by the Company in respect of that share (and, if the lien is enforced and the share is sold by the Company, the proceeds of sale of that share). The Board may at any time, either generally or in any particular case, waive any lien that has arisen or declare any share to be wholly or in part exempt from the provisions of this Article.

24. Enforcement of lien by sale

The Company may sell, in such manner as the Board may decide, any share over which the Company has a lien if a sum in respect of which the lien exists is presently payable and is not paid within 14 clear days after a notice has been served on the holder of the share or the person who is entitled by transmission to the share, demanding payment and stating that if the notice is not complied with the share may be sold. For

giving effect to the sale the Board may authorise some person to sign an instrument of transfer of the share sold to, or in accordance with the directions, of the buyer. The buyer shall not be bound to see to the application of the purchase money, nor shall the buyer's title to the share be affected by any irregularity or invalidity in the proceedings in reference to the sale.

25. Application of proceeds of sale

The net proceeds of any sale of shares subject to any lien, after payment of the costs, shall be applied:

- (a) first, in or towards satisfaction of so much of the amount due to the Company or of the liability or engagement (as the case may be) as is presently payable or is liable to be presently fulfilled or discharged; and
- (b) second, any residue shall be paid to the person who was entitled to the share at the time of the sale but only after the certificate for the shares sold has been surrendered to the company for cancellation, or an indemnity in a form reasonably satisfactory to the directors has been given for any lost certificates, and subject to a like lien for debts or liabilities not presently payable as existed on the share prior to the sale.

26. Calls

- 26.1 Subject to these Articles and the terms on which the shares are allotted, the Board may from time to time make calls on the members in respect of any monies unpaid on their shares (whether in respect of nominal value or premium) and not payable on a date fixed by or in accordance with the terms of issue.
- 26.2 The Company may make arrangements on the issue of shares for a difference between the holders of such shares in the amount of calls to be paid and the time of payment of such calls.
- 26.3 Each member shall (subject to the Company serving upon him or her at least 14 clear days' notice specifying when and where payment is to be made and whether or not by instalments) pay to the Company as required by the notice the amount called on such member's shares.
- 26.4 A call shall be deemed to have been made at the time when the resolution of the Board authorising the call was passed.
- 26.5 A call may be revoked or postponed, in whole or in part, as the Board may decide.
- 26.6 Liability to pay a call is not extinguished or transferred by transferring the shares in respect of which the call is required to be paid.

27. Liability of joint holders

The joint holders of a share shall be jointly and severally liable to pay all calls and payments in respect of the share.

28. Interest on calls

If a call remains unpaid after it has become due and payable, the person from whom it is due and payable shall pay all expenses that have been incurred by the Company by reason of such non-payment together with interest on the amount unpaid from the day it is due and payable to the time of actual payment at such rate (not exceeding the Bank of England base rate by more than five percentage points) as the Board may decide. The Board may waive payment of the interest or the expenses in whole or in part.

29. Power to differentiate

On or before the issue of shares, the Board may decide that allottees or holders of shares can be called on to pay different amounts or that they can be called on at different times.

30. Payment of calls in advance

The Board may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid on the shares held by him or her. Such payment in advance of calls shall, to the extent of the payment, extinguish the liability on the shares on which it is made. The Company may pay interest on the money paid in advance, or so much of it as exceeds the amount for the time being called upon the shares in respect of which such advance has been made, at such rate as the Board may decide. The Board may at any time repay the amount so advanced by giving at least three months' notice in writing to such member of its intention to do so, unless before the expiration of such notice the amount so advanced shall have been called up on the shares in respect of which it was advanced.

31. Notice if call or instalment not paid

If any member fails to pay the whole of any call (or any instalment of any call) by the date when payment is due, the Board may at any time give notice in writing to such member (or to any person entitled to the shares by transmission), requiring payment of the amount unpaid (and any accrued interest and any expenses incurred by the Company by reason of such non-payment) by a date not less than 14 clear days from the date of the notice. The notice shall name the place where the payment is to be made and state that, if the notice is not complied with, the shares in respect of which such call was made will be liable to be forfeited.

32. Forfeiture for non-compliance

If the notice referred to in Article 31 is not complied with, any share for which it was given may be forfeited, by resolution of the Board to that effect, at any time before the payment required by the notice has been made. Such forfeiture shall include all dividends declared or other monies payable in respect of the forfeited shares and not paid before the forfeiture.

33. Notice after forfeiture

When any share has been forfeited, notice of the forfeiture shall be served on the holder of the share or the person entitled to such share by transmission (as the case may be) before forfeiture. An entry of such notice having been given and of the forfeiture and the date of forfeiture shall immediately be made in the Register in respect of such share. However, no forfeiture shall be invalidated by any omission to give such notice or to make such entry in the Register.

34. Forfeiture may be annulled

The Board may annul the forfeiture of a share, at any time before any forfeited share has been cancelled or sold, re-allotted or otherwise disposed of, on the terms that payment shall be made of all calls and interest due on it and all expenses incurred in respect of the share and on such further terms (if any) as the Board shall see fit.

35. Surrender

The Board may accept the surrender of any share liable to be forfeited and, in any event, references in these Articles to forfeiture shall include surrender.

36. Sale of forfeited shares

36.1 A forfeited share shall become the property of the Company.

36.2 Subject to the Companies Acts, any such share may be sold, re-allotted or otherwise disposed of, on such terms and in such manner as the Board thinks fit.

36.3 The Board may, for the purposes of the disposal, authorise some person to transfer the share in question and may enter the name of the transferee in respect of the transferred share in the Register even if no share certificate is lodged and may issue a new certificate to the transferee. An instrument of transfer executed by that person shall be as effective as if it had been executed by the holder of, or the person entitled by transmission to, the share. The Company may receive the consideration (if any) given for the share on its disposal.

37. Effect of forfeiture

A shareholder whose shares have been forfeited shall cease to be a member in respect of such forfeited shares and shall surrender the certificate for such shares to the Company for cancellation. Such shareholder shall remain liable to pay to the Company all sums which at the date of forfeiture were presently payable by him or her to the Company in respect of such shares with interest (not exceeding the Bank of England base rate by five percentage points) from the date of the forfeiture to the date of payment. The Directors may waive payment of interest wholly or in part and may enforce payment, without any reduction or allowance for the value of the shares at the time of forfeiture or for any consideration received on their disposal.

38. Evidence of forfeiture

A statutory declaration by a Director or the Secretary that a share has been forfeited on a specified date shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the share. The declaration shall (subject to the execution of an instrument of transfer if necessary) constitute a good title to the share. The person to whom the share is transferred or sold shall not be bound to see to the application of the purchase money or other consideration (if any), nor shall his or her title to the share be affected by any act, omission or irregularity relating to or connected with the proceedings in reference to the forfeiture or disposal of the share.

39. Form of transfer

39.1 Subject to these Articles, each member may transfer all or any of his or her shares by instrument of transfer in writing in any usual form or in any form approved by the Board. Such instrument shall be executed by or on behalf of the transferor and (in the case of a transfer of a share which is not fully paid up) by or on behalf of the transferee. All instruments of transfer, when registered, may be retained by the Company.

39.2 The transferor of a share shall be deemed to remain the holder of the share concerned until the name of the transferee is entered in the Register in respect of it.

39.3 The directors are authorised to establish such clearing and settlement procedures for the shares of the Company as they deem fit from time to time.

40. Right to refuse registration of transfer

40.1 The Board may, in its absolute discretion, refuse to register any transfer of a share (or renunciation of a renounceable letter of allotment) unless:

- (a) it is for a share which is fully paid up;
- (b) it is for a share upon which the Company has no lien;
- (c) it is only for one class of share;
- (d) it is in favour of a single transferee or no more than four joint transferees;
- (e) it is duly stamped or is duly certificated or otherwise shown to the satisfaction of the Board to be exempt from stamp duty (if this is required); and

- (f) it is delivered for registration to the Office (or such other place as the Board may determine), accompanied (except in the case of a transfer by a person to whom the Company is not required by law to issue a certificate and to whom a certificate has not been issued or in the case of a renunciation) by the certificate for the shares to which it relates and such other evidence as the Board may reasonably require to prove the title of the transferor (or person renouncing) and the due execution of the transfer or renunciation by him or her or, if the transfer or renunciation is executed by some other person on his or her behalf, the authority of that person to do so.

40.2 Transfers of shares will not be registered in the circumstances referred to in Article 76.

41. Notice of refusal to register a transfer

If the Board refuses to register a transfer of a share it shall notify the transferee of the refusal and the reasons for it within two months after the date on which the transfer was lodged with the Company or the instructions to the relevant system received. Any instrument of transfer which the Board refuses to register shall be returned to the person depositing it (except if there is suspected or actual fraud). All instruments of transfer which are registered may be retained by the Company.

42. No fees on registration

No fee shall be charged for registration of a transfer or other document or instruction relating to or affecting the title to any share or for making any other entry in the Register.

43. Other powers in relation to transfers

Nothing in these Articles shall prevent the Board:

- (a) from recognising a renunciation of the allotment of any share by the allottee in favour of another person; or
- (b) (if empowered to do so by these Articles) from authorising any person to execute an instrument of transfer of a share and from authorising any person to transfer that share in accordance with any procedures implemented under Article 24.

44. Transmission of shares on death

If a member dies, the survivors or survivor (where the member was a joint holder), and his or her executors or administrators (where the member was a sole or the only survivor of joint holders), shall be the only persons recognised by the Company as having any title to his or her shares. Nothing in these Articles shall release the estate of a deceased member from any liability for any share which has been solely or jointly held by such member.

45. Election of person entitled by transmission

- 45.1 Any person becoming entitled to a share because of the death or bankruptcy of a member, or otherwise by operation of law, may (on such evidence as to his or her title being produced as the Board may require) elect either to become registered as a member or to have some person nominated by him or her registered as a member. If such person elects to become registered himself or herself, he or she shall notify the Company to that effect. If such person elects to have some other person registered, he or she shall execute an instrument of transfer of such share to that person. All the provisions of these Articles relating to the transfer of shares shall apply to the notice or instrument of transfer (as the case may be) as if it were an instrument of transfer executed by the member and his or her death, bankruptcy or other event had not occurred. Where the entitlement of a person to a share because of the death or bankruptcy of a member or otherwise by operation of law is proved to the satisfaction of the Board, the Board shall within 10 Business Days after proof cause the entitlement of that person to be noted in the Register.

46. Rights on transmission

Where a person becomes entitled to a share because of the death or bankruptcy of any member, or otherwise by operation of law, the rights of the holder in relation to such share shall cease. However, the person so entitled may give a good discharge for any dividends and other monies payable in respect of it and shall have the same rights to which he or she would be entitled if the holder of the share, except that he or she shall not be entitled to receive notice of, or to attend or vote at, any meeting of the Company or a separate meeting of the holders of any class of shares of the Company before being registered as the holder of the share. The Board may at any time give notice requiring any such person to elect either to be registered himself or herself or to transfer the share. If the notice is not complied with within 90 days, the Board may withhold payment of all dividends and the other monies payable in respect of such share until the requirements of the notice have been complied with.

47. Destruction of documents

47.1 The Company may destroy any:

- (a) instrument of transfer, after six years from the date on which it is registered;
- (b) dividend mandate or any variation or cancellation of a dividend mandate or any notification of change of name or address, after two years from the date on which it is recorded;
- (c) share certificate, after one year from the date on which it is cancelled;
- (d) instrument of proxy which has been used for the purpose of a poll at any time after one year has elapsed from the date of use;
- (e) instrument of proxy which has not been used for the purpose of a poll at any time after a period of one month has elapsed from the end of the meeting to which the instrument of proxy relates; or
- (f) other document for which any entry in the Register is made, after six years from the date on which an entry was first made in the Register in respect of it, provided that the Company may destroy any such type of document at a date earlier than that authorised by this Article if a copy of such document is made and retained (whether electronically, by microfilm, by digital imaging or by other similar means) until the expiration of the period applicable to the destruction of the original of such document.

47.2 It shall be conclusively presumed in favour of the Company that every:

- (a) entry in the Register purporting to have been made on the basis of a document so destroyed was duly and properly made;
- (b) instrument of transfer so destroyed was duly registered;
- (c) share certificate so destroyed was duly cancelled; and
- (d) other document so destroyed had been properly dealt with under its terms and was valid and effective according to the particulars in the records of the Company.

47.3 This Article shall only apply to the destruction of a document in good faith and without notice of any claim (regardless of the parties to it) to which the document might be relevant. Nothing in this Article shall be construed as imposing any liability on the Company in respect of the destruction of any such document other than as provided for in this Article which would not attach to the Company in the absence of this Article. References in this Article to the destruction of any document include references to the disposal of it in any manner.

48. Sub-division

Any resolution authorising the Company to sub-divide its shares or any of them may determine that, as between the shares resulting from the sub-division, any of them may have any preference or advantage or be subject to any restriction as compared with the others.

49. Fractions

Subject to the Articles, if any shares are consolidated or consolidated and then divided, the Board has power to deal with any fractions of shares which result. If the Board decides to sell any shares representing fractions, it can do so for the best price reasonably obtainable and distribute the net proceeds of sale among members in proportion to their fractional entitlements. The Board can sell those shares to anyone, including the Company if the legislation allows, and may authorise any person to transfer or deliver the shares to the buyer or in accordance with the buyer's instructions. The Buyer shall not be bound to see to the application of the purchase money, nor shall the buyer's title to the share be affected by any irregularity or invalidity in the proceedings in reference to the sale.

50. Annual general meetings

An annual general meeting shall be held once a year, at such time (consistent with the terms of the Companies Acts) and place, including partly (but not wholly) by means of electronic facility or facilities, as may be determined by the Board.

51. Convening of general meetings

51.1 The Board may, whenever it thinks fit, and shall on requisition in accordance with the Companies Acts, proceed to convene a general meeting.

51.2 Subject always to Article 60.3, the Board may make whatever arrangements it considers fit to allow those entitled to do so to attend and participate in any general meeting.

51.3 The Board shall determine in relation to each general meeting the means of attendance at and participation in the meeting, including whether the persons entitled to attend and participate in the meeting shall be enabled to do so:

- (a) (subject to Article 60.3) by means of electronic facility or facilities pursuant to Article 52 (and for the avoidance of doubt, the Board shall be under no obligation to offer or provide such facility or facilities, whatever the circumstances); and/or
- (b) by simultaneous attendance and participation at a satellite meeting place or places pursuant to Article 54.7.

51.4 A general meeting may be held at two or more places using any technology that enables members who are not together at the same place to listen, speak and vote at such meeting. Specifically, a general meeting may be held as a physical meeting, a hybrid meeting or an electronic meeting, as may be determined by the Directors in their absolute discretion.

51.5 Two or more persons who may not be in the same place as each other attend a general meeting if their circumstances are such that if they have (or were to have) rights to speak and vote at that meeting, they are (or would be) able to exercise them.

51.6 A person is able to participate in a meeting if that person's circumstances are such that if he or she has (or were to have) rights in relation to the meeting, he or she is (or would be) able to exercise them.

51.7 In determining whether persons are attending or participating in a meeting, other than at a physical place or places, it is immaterial where any of them are or how they are able to communicate with each other.

51.8 A person is able to exercise the right to speak at a general meeting when that person is in a position to communicate to all those attending the meeting, during the meeting, any information or opinions which that person has on the business of the meeting.

51.9 A person is able to exercise the right to vote at a general meeting when:

- (a) that person is able to vote, during the meeting (or, in the case of a poll, within the time period specified by the chair of the meeting) on resolutions put to the vote at the meeting; and

- (b) that person's vote can be taken into account in determining whether or not such resolutions are passed at the same time as the votes of all the other persons attending the meeting.
- 51.10 If, at any general meeting at which members are entitled to participate by means of electronic facility or facilities determined by the Board pursuant to Article 52, any document is required to be on display or to be available for inspection at the meeting (whether prior to or for the duration of the meeting or both), the Company shall ensure that it is available in electronic form to persons entitled to inspect it for at least the required period of time, and this will be deemed to satisfy any such requirement.
- 52. Simultaneous attendance and participation by electronic facilities**

Without prejudice to Article 54.7, the Board may resolve to enable persons entitled to attend and participate in a general meeting to do so partly (but not wholly) by simultaneous attendance and participation by means of electronic facility or facilities, and may determine the means, or all different means, of attendance and participation used in relation to the general meeting. The members present in person or by proxy by means of an electronic facility or facilities (as so determined by the Board) shall be counted in the quorum for, and be entitled to participate in, the general meeting in question. That meeting shall be duly constituted and its proceedings valid if the chair is satisfied that adequate facilities are available throughout the meeting to ensure that members attending the meeting by all means (including the means of an electronic facility or facilities) are able to:

 - (a) participate in the business for which the meeting has been convened;
 - (b) hear all persons who speak at the meeting; and
 - (c) be heard by all other persons attending and participating in the meeting.
- 53. Notice of general meetings**

A general meeting shall be called by at least such minimum notice as is required or permitted by the Companies Acts. The period of notice shall in either case be exclusive of the day on which it is served or deemed to be served and of the day on which the meeting is to be held and shall be given to all members other than those who are not entitled to receive such notices from the Company. The Company may give such notice by any means or combination of means permitted by the Companies Acts.
- 54. Contents of notice of general meetings**
 - 54.1 Every notice calling a general meeting shall specify the place (including any satellite meeting place or places determined pursuant to Article 54.7), date and time of the meeting. There shall appear with reasonable prominence in every such notice a statement that a member entitled to attend and vote is entitled to a proxy or (if he or she has more than one share) proxies to exercise all or any of his or her rights to attend, speak and vote and that a proxy need not be a member of the Company. Such notice shall also include the address of the website on which the information required by the Act is published, state the procedures with which members must comply in order to be able to attend and vote at the meeting (including the date by which they must comply), provide details of any forms to be used for the appointment of a proxy and state that a member has the right to ask questions at the meeting in accordance with the Act.
 - 54.2 The notice shall specify the general nature of the business to be transacted at the meeting and shall set out the text of all resolutions to be considered by the meeting and shall state in each case whether it is proposed as an ordinary resolution or as a special resolution.
 - 54.3 In the case of an annual general meeting, the notice shall also specify the meeting as such.
 - 54.4 If pursuant to Article 52 the Board determines that a general meeting shall be held partly by means of electronic facility or facilities, the notice shall:
 - (a) include a statement to that effect;

- (b) specify the means, or all different means, of attendance and participation thereat, and any access, identification and security arrangements determined pursuant to Article 64; and
 - (c) state how it is proposed that persons attending or participating in the meeting electronically should communicate with each other during the meeting.
- 54.5 The notice shall specify such arrangements as have at that time been made for the purpose of Article 54.7.
- 54.6 For the purposes of determining which persons are entitled to attend or vote at a meeting and how many votes a person may cast, the Company may specify in the notice of meeting a time, not more than 48 hours before the time fixed for the meeting (not taking into account non-working days) by which a person must be entered in the Register in order to have the right to attend or vote at the meeting or appoint a proxy to do so.
- 54.7 Without prejudice to Article 52, the Board may resolve to enable persons entitled to attend and participate in a general meeting to do so by simultaneous attendance and participation at a satellite meeting place or places anywhere in the world. The members present in person or by proxy at satellite meeting places shall be counted in the quorum for, and entitled to participate in, the general meeting in question, and the meeting shall be duly constituted and its proceedings valid if the chair is satisfied that adequate facilities are available throughout the meeting to ensure that members attending at all the meeting places are able to:
 - (a) participate in the business for which the meeting has been convened;
 - (b) hear all persons who speak (whether by the use of microphones, loudspeakers, audio-visual communications equipment or otherwise) in the principal meeting place and any satellite meeting place; and
 - (c) be heard by all other persons so present in the same way, and the meeting shall be deemed to take place at the place where the chair of the meeting presides (the principal meeting place, with any other location where that meeting takes place being referred in these Articles as a satellite meeting). The chair shall be present at, and the meeting shall be deemed to take place at, the principal meeting place and the powers of the chair shall apply equally to each satellite meeting place, including his or her power to adjourn the meeting as referred to in Article 61.
- 54.8 If the general meeting is to be a hybrid meeting or an electronic meeting, the notice shall include a statement to that effect and with details of the electronic facilities for attendance and participation at the meeting or where such details will be made available by the Company prior to the meeting. Unless otherwise specified in the notice of meeting or determined by the chair of the meeting, a general meeting is deemed to take place at the place where the chair of the meeting is at the time of the meeting.
- 55. Omission to give notice and non-receipt of notice**

The accidental omission to give notice of any meeting or to send an instrument of proxy (where this is intended to be sent out with the notice) to, or the non-receipt of either by, any person entitled to receive the same shall not invalidate the proceedings of that meeting.
- 56. Postponement of general meeting**

If, after the sending of the notice of a general meeting but before the meeting is held, or after the adjournment of a general meeting but before the adjourned meeting is held (whether or not notice of the adjourned meeting is required), the Board, in its absolute discretion, considers that it is impracticable or unreasonable for any reason to hold a general meeting on the date or at the time or place specified in the notice calling the general meeting (including a satellite meeting to which Article 54.7 applies) and/or by means of the electronic facility or facilities specified in the notice, it may postpone the general meeting to another date, time and/or place (or in the case of a general meeting to be held at a principal meeting place and one or more satellite meeting places, to such other places) and/or change the electronic facility or

facilities. If such a decision is made, the Board may then change the place (or any of the places in the case of a general meeting to which Article 54.7 applies) and/or the electronic facility or facilities and/or postpone the date and/or time again if it considers that it is reasonable to do so. No new notice of the general meeting need be sent but the Board shall take reasonable steps to ensure that notice of the change of date, time, place (or places, in the case of a general meeting to which Article 54.7 applies) of and/or electronic facility or facilities for the postponed meeting appear at the original time and at the original place (or places, in the case of a general meeting to which Article 54.7 applies) and/or on the original electronic facility or facilities. When a general meeting is so postponed, notice of the date, time and place (or places in the case of a meeting to which Article 54.7 applies), including any electronic facility if applicable, of the postponed meeting shall be given in such manner as the Board may, in its absolute discretion, determine. No business shall be transacted at any postponed meeting other than business which might properly have been transacted at the meeting had it not been postponed. Notice of the business to be transacted at such postponed meeting shall not be required. If a general meeting is postponed in accordance with this Article 56, the appointment of a proxy will be valid if it is delivered and received as required by these Articles not less than 48 hours before the time appointed for holding the postponed meeting. When calculating the 48 hour period mentioned in this Article, the Directors can decide not to take account of any part of a day that is not a working day.

57. Quorum at general meeting

No business shall be transacted at any general meeting unless a quorum is present. If a quorum is not present a chair of the meeting can still be chosen and this will not be treated as part of the business of the meeting. At least two members that in aggregate hold at least 51% of the issued shares of the Company who are present in person or by proxy and entitled to attend and to vote on the business to be transacted shall be a quorum for a general meeting for all purposes.

58. Procedure if quorum not present

If a quorum is not present within fifteen minutes (or such longer interval as the chair in his or her absolute discretion thinks fit) from the time appointed for holding a general meeting, or if a quorum ceases to be present during a meeting, the meeting shall be dissolved if convened on the requisition of members. In any other case, the meeting shall stand adjourned to such day (not being less than ten clear days after the date of the original meeting), and at such time and place or places, with such means of attendance and participation (including partly but not wholly by means of electronic facility or facilities), as the chair (or, in default, the Board) may determine at his/her/its absolute discretion. If at such adjourned meeting a quorum is not present within fifteen minutes from the time appointed for holding the meeting, one person entitled to vote on the business to be transacted, being a member or a proxy for a member or a duly authorised representative of a corporation which is a member, shall be a quorum and any notice of an adjourned meeting shall state this.

59. Chair of general meeting

The chair of the Board shall preside at every general meeting of the Company. If there is no such chair or if at any meeting he or she shall not be present within five minutes after the time appointed for holding the meeting, or shall be unwilling to act as chair, the deputy chair (if any) of the Board shall, if present and willing to act, preside at such meeting. If more than one deputy chair is present they shall agree amongst themselves who is to take the chair or, if they cannot agree, the deputy chair who has been in office as a director the longest shall take the chair. If no chair or deputy chair shall be so present and willing to act, the Directors present shall choose one of their number to act or, if there be only one Director present, he or she shall be chair if willing to act. If there be no Director present and willing to act, the members present and entitled to vote shall choose one of their number to be chair of the meeting. Nothing in these Articles shall restrict or exclude any of the powers or rights of a chair of a meeting which are given by law. The

chair of a general meeting (be it a physical meeting, a hybrid meeting or an electronic meeting) shall, for the purpose of conducting the meeting in orderly manner, have power to take all such steps and actions as he deems appropriate to maintain order during the meeting.

60. Entitlement to attend, speak and participate

- 60.1 A Director (and any other person invited by the chair to do so) may attend and speak at any general meeting and at any separate meeting of the holders of any class of shares of the Company, whether or not also a member.
- 60.2 All persons seeking to attend and participate in a general meeting by way of electronic facility or facilities shall be responsible for maintaining adequate facilities to enable them to do so. Subject only to the requirement for the chair to adjourn a general meeting in accordance with the provisions of Article 61.2, any inability of a person or persons to attend or participate in a general meeting by way of electronic facility or facilities shall not invalidate the proceedings of that meeting.
- 60.3 Nothing in these Articles authorises or allows a general meeting to be held exclusively on an electronic basis.

61. Adjournments

- 61.1 The chair may, with the consent of a meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn any meeting from time to time (or indefinitely) and from place to place (or, in the case of a meeting held at a principal meeting place and one or more satellite meeting places, such other places) and/or from such electronic facility or facilities for attendance and participation to such other electronic facility or facilities as the meeting shall determine. However, without prejudice to any other power which the chair may have under these Articles (including the power to adjourn a meeting conferred by Article 61.2) or at common law, the chair may, without the need for the consent of the meeting and before or after it has started and irrespective of whether a quorum is present, interrupt or adjourn any meeting from time to time (or indefinitely) and from place to place (or places in the case of a meeting to which Article 54.7 applies) or from electronic facility to electronic facility, or for an indefinite period, if of the opinion that it has become necessary to do so in order:
- (a) to secure the proper and orderly conduct of the meeting; or
 - (b) to give all persons entitled to do so a reasonable opportunity of attending, speaking and voting at the meeting; or
 - (c) to ensure that the business of the meeting is properly disposed of.
- 61.2 If it appears to the chair that the facilities at the principal meeting place or any satellite meeting place or an electronic facility or facilities or security at any general meeting have become inadequate for the purposes referred to in Articles 52 or 54.7, or are otherwise not sufficient to allow the meeting to be conducted substantially in accordance with the provisions set out in the notice of meeting, then the chair shall, without the consent of the meeting, interrupt or adjourn the general meeting.
- 61.3 All business conducted at a meeting up to the time of any adjournment shall, subject to Article 61.4, be valid.
- 61.4 The chair may specify that only the business conducted at the meeting up to a point in time which is earlier than the time of the adjournment is valid, if in his or her opinion, to do so would be more appropriate.

62. Notice of adjournment

Any adjournment pursuant to Article 61 may, subject to the Act, be for such time and with such means of attendance and participation (including at such place or places and/or by means of such electronic facility

or facilities) as the chair (or, in default, the Board) may in his, her or its absolute discretion determine, notwithstanding that by reason of the adjournment some members may be unable to attend and participate in the adjourned meeting. Whenever a meeting is adjourned for 30 days or more or indefinitely, at least seven clear days' notice, specifying the day, the time and the place or places of the adjourned meeting and the means of attendance and participation (including by means of electronic facility or facilities if applicable) as the chair (or, in default, the Board) may in his or her absolute discretion determine, and the general nature of the business to be transacted, shall be given in the same manner as in the case of the original meeting. Save as aforesaid and subject to the Act, no member shall be entitled to any notice of an adjournment or of the business to be transacted at any adjourned meeting. Where a meeting is adjourned indefinitely, form and (where applicable) place for the adjourned meeting shall be fixed by the Directors.

63. Business of adjourned meeting

No business shall be transacted at any adjourned meeting other than the business which might properly have been transacted at the meeting from which the adjournment took place.

64. Accommodation of members, security arrangements and orderly conduct at general meetings

64.1 The Board may, for the purpose of controlling the level of attendance or ensuring the safety of those attending at any place specified for the holding of a general meeting, ensuring the security of the meeting and ensuring the future orderly conduct of the meeting, from time to time make such arrangements as it shall in its absolute discretion consider to be appropriate and may from time to time vary any such arrangements or make new arrangements therefor. Any decision made under this Article 64.1 shall be final and the entitlement of any member or proxy to attend a general meeting at such place (or places, in the case of a meeting to which Article 54.7 applies) shall be subject to any such arrangements as may be for the time being approved by the Board.

64.2 The Board may direct that any person wishing to attend any general meeting held at a physical place should provide evidence of identity and submit to such searches or other security arrangements or restrictions (including restrictions in items of personal property to be taken into the meeting) as the Board shall consider appropriate in the circumstances.

64.3 If a general meeting is held partly by means of an electronic facility or facilities pursuant to Article 52, the Board and the chair may make any arrangement and impose any requirement or restriction that is:

- (a) necessary to ensure the identification of those taking part by means of such electronic facility or facilities and the security of the electronic communication; and
- (b) in its or his or her view, proportionate to those objectives. In this respect, the Board may authorise any voting application, system or facility for attendance and participation as it sees fit.

64.4 The Board shall be entitled in its absolute discretion to authorise one or more persons (including the Directors, the company secretary or the chair) to refuse physical or electronic entry to, or eject (physically or electronically) from, any meeting any person who fails to provide such evidence of identity or to submit to such searches or to otherwise comply with such security arrangements or restrictions as are required pursuant to this Article, or who causes the meeting to become disorderly.

64.5 Subject to the Act (and without prejudice to any other powers vested in the chair of a meeting) when conducting a general meeting, the chair may make whatever arrangement and take such action or give such directions as he or she considers, in his or her absolute discretion, to be appropriate or conducive to promote the orderly conduct of the meeting, to promote the conduct of the business laid down in the notice of the meeting with reasonable despatch and to maintain good order. The chair's decision on points of order, matters of procedure or on matters arising incidentally from the business of the meeting shall be final and conclusive, as shall his or her determination as to whether any point or matter is of such a nature.

64.6 Without affecting the generality of Article 61.4, the Board may, at its absolute discretion, arrange for persons entitled to attend a general meeting to do so by simultaneous attendance and participation by

means of electronic facilities at such location or locations determined by the Board from time to time at its absolute discretion.

- 64.7 All persons seeking to attend and participate in an electronic meeting or a hybrid meeting shall be responsible for maintaining adequate facilities to enable them to do so. Any inability of a person or persons to attend or participate in a general meeting by way of electronic facilities shall not invalidate the proceedings of and/or resolutions passed at that meeting.
- 64.8 A physical meeting may also be held by means of such telephone, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously, and participation in such a meeting shall constitute presence in person at such meeting.

65. Amendment to resolutions

- 65.1 If an amendment to any resolution under consideration is proposed but is ruled out of order by the chair of the meeting in good faith, any error in such ruling shall not invalidate the proceedings on the original resolution.
- 65.2 In the case of a resolution duly proposed as a special resolution, no amendment to it (other than an amendment to correct a patent error) may in any event be considered or voted on. In the case of a resolution duly proposed as an ordinary resolution no amendment to it (other than an amendment to correct a patent error) may be considered or voted on unless either at least 48 hours prior to the time appointed for holding the meeting or adjourned meeting at which such ordinary resolution is to be proposed, notice in writing of the terms of the amendment and intention to move the same has been lodged at the Office or received in electronic form at the electronic address at which the Company has or is deemed to have agreed to receive it or the chair of the meeting in his or her absolute discretion decides that it may be considered or voted on.

66. Members' resolutions

- 66.1 Members of the Company shall have the rights provided by the Companies Acts to have the Company circulate and give notice of a resolution which may be properly moved, and is intended to be moved, at the Company's next annual general meeting.
- 66.2 Expenses of complying with these rights shall be borne in accordance with the Companies Acts.

67. Method of voting

- 67.1 Any resolution put to the vote at a general meeting shall be decided on a poll.
- 67.2 At general meetings, resolutions shall be put to the vote by the chair of the meeting and there shall be no requirement for the resolution to be proposed or seconded by any person.

68. Objection to error in voting

No objection shall be raised to the qualification of any voter or to the counting of, or failure to count, any vote, except at the meeting or adjourned meeting at which the vote objected to is given or tendered or at which the error occurs. Any objection or error shall be referred to the chair of the meeting and shall only vitiate the decision of the meeting on any resolution if the chair decides that the same is of sufficient magnitude to vitiate the resolution or may otherwise have affected the decision of the meeting. The decision of the chair of the meeting on such matters shall be final and conclusive.

69. Procedure on a poll

- 69.1 Any poll duly demanded on the election of a chair or on any question of adjournment shall be taken immediately. A poll duly demanded on any other matter shall be taken in such manner (including the use

of ballot, voting papers, tickets or electronic means or any combination thereof) and at such time and place, not more than 30 days from the date of the meeting or adjourned meeting at which the poll was demanded, and by such means of attendance and participation (including at such place or places and/or by means of such electronic facility or facilities) as the chair shall direct. The chair may appoint scrutineers who need not be members. It is not necessary to give notice of a poll not taken immediately if the time and place at which it is to be taken are announced at the meeting at which it is demanded. In any other case, at least seven clear days' notice shall be given specifying the time, date and place at the which the poll shall be taken. The result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.

- 69.2 On a poll votes may be given in person or by proxy. Members entitled to more than one vote need not, if they vote, use all their votes or cast all the votes they use in the same way.

70. Votes of members

- 70.1 Subject to the Companies Acts, to any special terms as to voting on which any shares may have been issued or may for the time being be held and to any suspension or abrogation of voting rights under these Articles, members holding Class A Ordinary Shares and Class B Ordinary Shares shall at all times vote as one class on all matters, and every member holding Class A Ordinary Shares present in person or by proxy shall have one (1) vote for each Class A Ordinary Share it holds, and every member holding Class B Ordinary Shares present in person or by proxy shall have ten (10) votes for each Class B Ordinary Share it holds.
- 70.2 Subject to the Companies Acts, to any special terms as to voting on which any shares may have been issued or may for the time being be held and to any suspension or abrogation of voting rights under these Articles, every member holding Class C Shares present in person or by proxy shall have one (1) vote for each Class C Share it holds.
- 70.3 In any class meeting of: (a) the members holding Class A Ordinary Shares, each Class A Ordinary Share shall be considered as carrying the same number of votes as the other Class A Ordinary Shares; (b) the members holding Class B Ordinary Shares, each Class B Ordinary Share shall be considered as carrying the same number of votes as the other Class B Ordinary Shares; or (c) the members holding Class C Shares, each Class C Share shall be considered as carrying the same number of votes as the other Class C Shares.
- 70.4 If two or more persons are joint holders of a share, then in voting on any question the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders. For this purpose, seniority shall be determined by the order in which the names of the holders stand in the Register.
- 70.5 Where in England or elsewhere a receiver or other person (by whatever name called) has been appointed by any court claiming jurisdiction in that behalf to exercise powers with respect to the property or affairs of any member on the ground (however formulated) of mental disorder, the Board may in its absolute discretion, upon or subject to production of such evidence of the appointment as the Board may require, permit such receiver or other person on behalf of such member to vote in person, on a poll, by proxy on behalf of such member at any general meeting or to exercise any other right conferred by membership in relation to meetings of the Company. Evidence to the satisfaction of the Board of the authority of the person claiming to exercise the right to vote shall be deposited at the Office, or at such other place as is specified in accordance with these Articles for the deposit of instruments of proxy, at least 48 hours before the time appointed for holding the meeting or adjourned meeting at which the right to vote is to be exercised and, in default, the right to vote shall not be exercisable.
- 70.6 In the case of equality of votes, the chair of the meeting at which the show of hands takes place or at which the poll is demanded shall not be entitled to a casting vote.

71. No right to vote where sums overdue on shares

No member may vote at a general meeting (or any separate meeting of the holders of any class of shares), either in person or by proxy, or to exercise any other right or privilege as a member in respect of a share held by him or her unless:

- (a) all calls or other sums presently due and payable by him or her in respect of that share whether alone or jointly with any other person together with interest and expenses (if any) have been paid to the Company; or
- (b) the Board determines otherwise.

72. Voting by Proxy

- 72.1 In the case of a proxy relating to shares in the capital of the Company held in the name of a Depositary, the appointment of a proxy shall be in a form or manner of communication approved by the Board, which may include, without limitation, a voter instruction form to be provided to the Company by certain third parties on behalf of the Depositary.
- 72.2 Subject to Articles 72.1, an instrument appointing a proxy shall be in writing in any usual form (or in another form approved by the Board) executed under the hand of the appointor or his or her duly constituted attorney or, if the appointor is a corporation, under its seal or signed by a duly authorised officer or attorney or other person authorised to sign.
- 72.3 Subject to the Companies Acts, the Board may accept the appointment of a proxy received by electronic means on such terms and subject to such conditions as it considers fit. The appointment of a proxy received by electronic means shall not be subject to the requirements of Article 72.1.
- 72.4 For the purposes of Articles 72.1 and 72.3, the Board may require such reasonable evidence it considers necessary to determine:
- (a) the identity of the member and the proxy; and
 - (b) where the proxy is appointed by a person acting on behalf of the member, the authority of that person to make the appointment.
- 72.5 A member may appoint another person as proxy to exercise all or any of his or her rights to attend and to speak and to vote on a resolution or amendment of a resolution, or on other business arising, at a meeting or meetings of the Company. Unless the contrary is stated in it, the appointment of a proxy shall be deemed to confer authority to exercise all such rights, as the proxy thinks fit.
- 72.6 A proxy need not be a member.
- 72.7 A member may appoint more than one proxy in relation to a meeting, provided that each proxy is appointed to exercise the rights attached to different shares held by the member. When two or more valid but differing appointments of proxy are delivered or received for the same share for use at the same meeting, the one which is last validly delivered or received (regardless of its date or the date of its execution) shall be treated as replacing and revoking the other or others as regards that share. If the Company is unable to determine which appointment was last validly delivered or received, none of them shall be treated as valid in respect of that share.
- 72.8 Delivery or receipt of an appointment of proxy does not prevent a member attending and voting in person at the meeting or an adjournment of the meeting or on a poll.
- 72.9 The appointment of a proxy shall (unless the contrary is stated in it) be valid for an adjournment of the meeting as well as for the meeting or meetings to which it relates. The appointment of a proxy shall be valid for 12 months from the date of execution or, in the case of an appointment of proxy delivered by electronic means, for 12 months from the date of delivery unless otherwise specified by the Board.

72.10 Subject to the Companies Acts, the Company may send a form of appointment of proxy to all or none of the persons entitled to receive notice of and to vote at a meeting. If sent, the form shall provide for three-way voting on all resolutions (other than procedural resolutions) set out in the notice of meeting.

73. Receipt of proxy

73.1 An instrument appointing a proxy and any reasonable evidence required by the Board in accordance with Article 72.4 shall:

- (a) subject to Articles 73.1(c) and 73.1(d), in the case of an instrument of proxy in hard copy form, delivered to the office, or another place in the United Kingdom specified in the notice convening the meeting or in the form of appointment of proxy or other accompanying document sent by the Company in relation to the meeting (a “**proxy notification address**”) not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the form of appointment of proxy proposes to vote;
- (b) subject to Articles 73.1(c) and 73.1(d), in the case of an appointment of a proxy sent by electronic means, where the Company has given an electronic address (a “**proxy notification electronic address**”):
 - (i) in the notice calling the meeting;
 - (ii) in an instrument of proxy sent out by the Company in relation to the meeting;
 - (iii) in an invitation to appoint a proxy issued by the Company in relation to the meeting; or
 - (iv) on a website maintained by or on behalf of the Company on which any information relating to the meeting is required by the Act to be kept, it shall be received at such proxy notification electronic address not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the form of appointment of proxy proposes to vote;
- (c) in the case of a poll taken more than 48 hours after it is demanded, delivered or received at a proxy notification address or a proxy notification electronic address and not less than 24 hours before the time appointed for the holding of the adjourned meeting or the taking of the poll; or
- (d) in the case of a poll which is not taken at the meeting at which it is demanded but is taken 48 hours or less after it is demanded, or in the case of an adjourned meeting to be held 48 hours or less after the time fixed for holding the original meeting, received:
 - (i) at a proxy notification address or a proxy notification electronic address in accordance with Articles 73.1(a) or (b);
 - (ii) by the chair of the meeting or the secretary or any director at the meeting at which the poll is demanded or, as the case may be, at the original meeting; or
 - (iii) at a proxy notification address or a proxy notification electronic address by such time as the chair of the meeting may direct at the meeting at which the poll is demanded. In calculating the periods in this Article, no account shall be taken of any part of a day that is not a working day.

73.2 The Board may decide, either generally or in any particular case, to treat a proxy appointment as valid notwithstanding that the appointment or any of the information required under Article 72.4 has not been received in accordance with the requirements of this Article.

73.3 Subject to Article 73.2, if the proxy appointment and any of the information required under Article 72.4 is not received in the manner set out in Article 73.1, the appointee shall not be entitled to vote in respect of the shares in question.

73.4 Without limitation, the Company may from time to time determine that any such electronic address may be used generally for such matters or specifically for particular meetings or purposes and, if so, the Company

may provide different electronic addresses for different purposes. The Company may also impose any conditions on the transmission of and its receipt of such electronic communications including, for the avoidance of doubt, imposing any security or encryption arrangements as may be specified by the Company. If any document or information required to be sent to the Company is sent to the Company by electronic means under this Article, such document or information is not treated as validly delivered to or deposited with the Company if the same is not received by the Company at its designated electronic address in accordance with this Article or if no electronic address is so designated by the Company for the receipt of such document or information.

74. Revocation of proxy

A vote given or poll demanded by a proxy shall be valid in the event of the death or mental disorder of the principal or the revocation of the instrument of proxy, or of the authority under which the instrument of proxy was executed, or the transfer of the share for which the instrument of proxy is given, unless notice in writing of such death, mental disorder, revocation or transfer shall have been received by the Company at the Office, or at such other place as has been appointed for the deposit of instruments of proxy, no later than the last time at which an appointment of a proxy should have been received in order for it to be valid for use at the meeting or on the holding of the poll at which the vote was given or the poll taken.

75. Corporate representatives

- 75.1 A corporation (whether or not a company within the meaning of the Act) which is a member may, by resolution of its directors or other governing body, authorise such person as it thinks fit to act as its representative (or, as the case may be, representatives) at any meeting of the Company or at any separate meeting of the holders of any class of shares.
- 75.2 Any person so authorised shall be entitled to exercise the same powers on behalf of the corporation (in respect of that part of the corporation's holdings to which the authority relates) as the corporation could exercise if it were an individual member.
- 75.3 The corporation shall for the purposes of these Articles be deemed to be present in person and at any such meeting if a person so authorised is present at it, and all references to attendance and voting in person shall be construed accordingly.
- 75.4 A Director, the Secretary or some person authorised for the purpose by the Secretary may require the representative to produce a certified copy of the resolution so authorising him or her or such other evidence of his or her authority reasonably satisfactory to them before permitting him or her to exercise his or her powers.
- 75.5 A vote given or a poll demanded by a corporate representative shall be valid notwithstanding that the representative is no longer authorised to represent the member unless notice of the revocation of appointment was delivered in writing to the Company at such place or address and by such time as is specified in Article 74 for the revocation of the appointment of a proxy.

76. Failure to disclose interests in shares

- 76.1 If a member, or any other person appearing to be interested in shares held by that member, has been issued with a notice under section 793 of the Act (**section 793 notice**) and has failed in relation to any shares (**default shares**, which expression includes any shares issued after the date of such notice in right of those shares) to give the Company the information required by the section 793 notice within the prescribed period from the service of the notice, the following sanctions shall apply unless the Board determines otherwise:
- (a) the member shall not be entitled in respect of the default shares to be present or to vote (either in person or by representative or proxy) at any general meeting or at any separate meeting of the

- holders of any class of shares or on any poll or to exercise any other right conferred by membership in relation to any such meeting or poll; and
- (b) where the default shares represent at least 0.25% in nominal value of the issued shares of their class (calculated exclusive of any shares held as treasury shares):
- (i) any dividend or other money payable for such shares shall be withheld by the Company, which shall not have any obligation to pay interest on it, and the member shall not be entitled to elect, pursuant to Article 131, to receive shares instead of that dividend; and
- (ii) no transfer, other than an excepted transfer, of any shares held by the member shall be registered unless the member himself or herself is not in default of supplying the required information and the member proves to the satisfaction of the Board that no person in default of supplying such information is interested in any of the shares that are the subject of the transfer.
- 76.2 Where the sanctions under Article 76.1 apply in relation to any shares, they shall cease to have effect (and any dividends withheld under Article 76.1(b) shall become payable):
- (a) if the shares are transferred by means of an excepted transfer but only in respect of the shares transferred; or
- (b) at the end of the period of seven days (or such shorter period as the Board may determine) following receipt by the Company of the information required by the section 793 notice and the Board being fully satisfied that such information is full and complete.
- 76.3 Where, on the basis of information obtained from a member in respect of any share held by him or her, the Company issues a section 793 notice to any other person, it shall at the same time send a copy of the notice to the member, but the accidental omission to do so, or the non-receipt by the member of the copy, shall not invalidate or otherwise affect the application of Article 76.1.
- 76.4 For the purposes of this Article:
- (a) a person, other than the member holding a share, shall be treated as appearing to be interested in that share if the member has informed the Company that the person is, or may be, so interested, or if the Company (after taking account of any information obtained from the member or, pursuant to a section 793 notice, from anyone else) knows or has reasonable cause to believe that the person is, or may be, so interested;
- (b) **interested** shall be construed as it is for the purpose of section 793 of the Act;
- (c) reference to a person having failed to give the Company the information required by a notice, or being in default as regards supplying such information, includes reference:
- (i) to the person's having failed or refused to give all of any part of it; and
- (ii) to the person's having given information which he or she knows to be false in a material particular or having recklessly given information which is false in a material particular;
- (d) **prescribed period** means 14 days;
- (e) **excepted transfer** means, in relation to any shares held by a member:
- (i) a transfer by way of or pursuant to acceptance of a takeover offer for the Company (within the meaning of section 974 of the Act); or
- (ii) a transfer in consequence of a sale made through any stock exchange on which the Company's shares are normally traded; or
- (iii) a transfer which is shown to the satisfaction of the Board to be made in consequence of a sale of the whole of the beneficial interest in the shares to a person who is unconnected with the member and with any other person appearing to be interested in the shares.

- 76.5 Nothing contained in this Article shall be taken to limit the powers of the Company under section 794 of the Act.
- 76.6 For the purpose of this Article 76:
- (a) where any person appearing to be interested in any shares has been served with a section 793 notice and such shares are held by a Depository, the provisions of this Article 76 shall be deemed to apply only to those shares held by the Depository in which such person appears to be interested and not (so far as that person's apparent interest is concerned) to any other shares held by the Depository in which such person does not have an interest and references to default shares shall be construed accordingly;
 - (b) where the shareholder on whom a section 793 notice has been served is a Depository, the obligations of the Depository (acting solely in the Depository's capacity as such) shall be limited to disclosing to the Company such information relating to any person appearing to be interested in the shares held by it as has been recorded by the Depository and the provision of such information shall be at the Company's cost.
- 77. Power of sale of shares of untraced members**
- 77.1 The Company shall be entitled to sell at the best price reasonably obtainable any share of a member, or any share to which a person is entitled by transmission, if and provided that:
- (a) during the period of 12 years before the date of sending of the notice referred to in Article 77.1(b) no cheque, order or warrant in respect of such share sent by the Company through the post in a pre-paid envelope addressed to the member or to the person entitled by transmission to the share, at his or her address on the Register or other last known address given by the member or person to which cheques, orders or warrants in respect of such share are to be sent has been cashed and the Company has received no communications in respect of such share from such member or person entitled, provided that during such period of 12 years the Company has paid at least three cash dividends (whether interim or final) and no such dividend has been claimed by the person entitled to it;
 - (b) on or after expiry of the said period of 12 years, the Company has given notice of its intention to sell such share by sending a notice to the member or person entitled by transmission to the share at his or her address on the Register or other last known address given by the member or person entitled by transmission to the share and before sending such a notice to the member or other person entitled by transmission, the Company must have used reasonable efforts to trace the member or other person entitled, engaging, if considered appropriate, a professional asset reunification company or other tracing agent and/or giving notice of its intention to sell the share by advertisement in a national newspaper and in a newspaper circulating in the area of the address of the member or person entitled by transmission to the share shown in the Register; and
 - (c) during the further period of three months following the date of such notice and prior to the exercise of the power of sale the Company has not received any communication in respect of such share from the member or person entitled by transmission.
- 77.2 To give effect to any sale of shares under this Article, the Board may authorise some person to transfer the shares in question and may enter the name of the transferee in respect of the transferred shares in the Register even if no share certificate has been lodged for such shares and may issue a new certificate to the transferee. An instrument of transfer executed by that person shall be as effective as if it had been executed by the holder of, or the person entitled by transmission to, the shares. The buyer shall not be bound to see to the application of the purchase monies, nor shall his or her title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale. If during the period of 12 years referred to in Article 77.1, or during any period ending on the date when all the requirements of Articles 77.1(a) to

77.1(c) have been satisfied, any additional shares have been issued in respect of those held at the beginning of, or previously so issued during, any such period and all the requirements of Articles 77.1(b) to 77.1(c) have been satisfied in regard to such additional shares, the Company shall also be entitled to sell the additional shares.

78. Application of proceeds of sale of shares of untraced members

The Company shall account to the member or other person entitled to the share for the net proceeds of a sale under Article 77 by carrying all monies relating to such sale to a separate account. The Company shall be deemed to be a debtor to, and not a trustee for, such member or other person in respect of such monies. Monies carried to such separate account may either be employed in the business of the Company or invested in such investments as the Board may think fit. No interest shall be payable to such member or other person in respect of such monies and the Company does not have to account for any money earned on them.

79. Number of directors

- 79.1 Unless otherwise determined by the Company by ordinary resolution, the number of Directors (other than any alternate Directors) shall be at least two and not more than fifteen. As at the Date of Adoption, the number of Directors shall be eight (8) (the “**Initial Directors**”), including a majority of Independent Directors.
- 79.2 For a period of three (3) years post-Closing a majority of the Directors shall be Independent Directors. However, if at any time the number of Independent Directors falls below a majority of the Board, that will not invalidate any resolution or other act of the Board pending the appointment of additional Independent Director(s).
- 79.3 Following the Closing, the Initial Directors shall be divided into three classes of Directors, designated as “Class I”, “Class II” and “Class III”, respectively (each a “**Class**”). The Board is authorized to assign members of the Board already in office to such classes at the time the classification becomes effective. The Board is also authorized to assign any persons who take office as Directors after the date hereof to any such Class; provided, however, that the Classes are as close to equal size as possible.
- 79.4 In the event of any increase in the number of Directors, the additional directorships resulting from such increase shall be apportioned by the Board among the Classes of Directors so as to maintain such Classes as nearly equal as possible. No decrease in the number of Directors shall shorten the term of any incumbent Director.
- 79.5 Notwithstanding the foregoing provisions, each Director shall serve until their successor is duly elected and qualified or until their earlier death, resignation or removal.

80. Power of company to appoint directors

Subject to these Articles and the Companies Acts, the Company may by ordinary resolution appoint a person who is willing to act to be a Director, either to fill a vacancy or as an addition to the existing Board but the total number of Directors shall not exceed any maximum number fixed in accordance with these Articles.

81. Power of board to appoint directors

Subject to these Articles, the Board shall have power at any time to appoint any person who is willing to act as a Director, either to fill a vacancy or as an addition to the existing Board but the total number of Directors shall not exceed any maximum number fixed in accordance with these Articles.

82. Eligibility of new directors

- 82.1 No person, other than a retiring Director, shall be appointed or re-appointed a Director at any general meeting unless:
- (a) he or she is recommended by the Board; or
 - (b) at least seven but not more than 42 clear days before the date appointed for the meeting the Company has received notice from a member (other than the person proposed) entitled to vote at the meeting of intention to propose a resolution for the appointment or re-appointment of that person, stating the particulars which would, if he or she were so appointed or re-appointed, be required to be included in the Company's register of directors and a notice executed by that person of his or her willingness to be appointed or re-appointed, is lodged at the Office.
- 82.2 For a period of three (3) years post-Closing no person, including a retiring Director, shall be appointed or re-appointed a Director by the Board or at any general meeting unless:
- (a) he or she would, upon appointment, be an Independent Director; or
 - (b) immediately following that person's appointment as a Director, the Board would include a majority of Independent Directors.
- 82.3 In the event that an Independent Director is removed or required to resign pursuant to Article 84 or 85.1(c) (the "Removed Independent"), for a period of three (3) years post-Closing no person shall be appointed or re-appointed as a replacement for the Removed Independent Director by the Board unless the Board approves such appointment of an Independent Director by simple majority including the affirmative vote of at least two (2) Independent Directors (or if there are fewer than two Independent Directors then in office, all of the Independent Directors, if any).
- 82.4 A Director need not be a member of the Company.

83. Retirement of directors

- 83.1 At the first Annual General Meeting of the Company following Closing, each Director in Class I shall retire from office but shall be eligible for re-appointment by ordinary resolution of the Company at such Annual General Meeting and, in each case, where such Director is so re-appointed, they shall be entitled to serve until the third Annual General Meeting of the Company falling after the first Annual General Meeting, at which stage the Director shall retire from office but shall be eligible for further re-appointment.
- 83.2 At the second Annual General Meeting of the Company following Closing, each Director in Class II shall retire from office but shall be eligible for re-appointment by ordinary resolution of the Company at such Annual General Meeting and, in each case, where such Director is so re-appointed, they shall be entitled to serve until the third Annual General Meeting of the Company falling after the second Annual General Meeting, at which stage the Director shall retire from office but shall be eligible for further re-appointment.
- 83.3 At the third Annual General Meeting of the Company following Closing, each Director in Class III shall retire from office but shall be eligible for re-appointment by ordinary resolution of the Company at such Annual General Meeting and, in each case, where such Director is so re-appointed, they shall be entitled to serve until the third Annual General Meeting of the Company falling after the third Annual General Meeting, at which stage the Director shall retire from office but shall be eligible for further re-appointment.
- 83.4 At each succeeding Annual General Meeting of the Company following the third Annual General Meeting of the Company following Closing, Directors shall be elected to serve for a term of three years to succeed the Directors of the class whose terms expire at such Annual General Meeting.
- 83.5 Subject to the provisions of these Articles, a Director shall remain a member of the class of directors to which he or she was assigned in accordance with Article 70.5. The initial terms of each class of directors shall expire as set forth in this Article 83, subject to such director's earlier death, resignation, disqualification or removal.

- 83.6 Where a Director retires at an Annual General Meeting in accordance with Article 83.1, 83.2, 83.3 or otherwise, the Company may at the meeting by ordinary resolution fill the office being vacated by electing the retiring Director. In the absence of such a resolution, the retiring Director shall nevertheless be deemed to have been re-elected except in any of the following cases:
- (a) where at such meeting a resolution of the Company for the re-election of such Director is put to the meeting and lost;
 - (b) where such Director is ineligible for re-election or has given notice in writing to the Company that he/she is unwilling to be re-elected; or
 - (c) where a resolution of the Company to elect such Director is void by reason of contravention of section 160 of the Act (whereby at a General Meeting a motion for the appointment of two or more persons as Directors by a single resolution must not be made unless a resolution that it should be made has first been agreed to by the meeting without any vote being given against it).
- 83.7 The retirement shall not have effect until the conclusion of the meeting except where a resolution of the Company is passed to elect some other person in the place of the retiring Director or a resolution for the retiring Director's re-election is put to the meeting and lost. Accordingly a retiring Director who is re-elected or deemed to have been re-elected will continue in office without a break.
- 83.8 Without limiting the generality of these Articles, a person ceases to be a Director if that person:
- (a) ceases to be a director under the Companies Act or applicable winding up laws or regulations, or is prohibited from being a director by applicable laws or regulations;
 - (b) becomes bankrupt or makes any arrangement or composition with the person's creditors generally;
 - (c) becomes a mentally incapacitated person;
 - (d) resigns the office of director by notice in writing of the resignation in accordance with the Companies Act; or
 - (e) for more than 6 months has been absent without the directors' permission from directors' meetings held during that period.
- 84. Removal of directors**
- 84.1 Subject to Article 84.2, in addition to any power of removal conferred by the Companies Acts, the Company may by special resolution, or by ordinary resolution of which special notice has been given in accordance with section 312 of the Act, remove a director before the expiry of his or her period of office (without prejudice to a claim for damages for breach of contract or otherwise) and may (subject to these Articles) by ordinary resolution appoint another person who is willing to act to be a director in his or her place.
- 84.2 In the first three (3) years following Closing, save as required by the Companies Acts the Board may only convene a general meeting which proposes a resolution (pursuant to Article 84.1 or otherwise) to remove an Independent Director if the Board approves such resolution by simple majority including the affirmative vote of at least two (2) other Independent Directors (or if there are fewer than two Independent Directors then in office excluding the Independent Director proposed to be removed, all of the Independent Directors (other than the Independent Director proposed to be removed), if any).
- 85. Vacation of office by director**
- 85.1 Without prejudice to the provisions for retirement contained in these Articles, the office of a Director shall be vacated if:
- (a) the director resigns by notice in writing delivered to the Secretary at the Office or at an address specified by the Company for the purposes of communication by electronic means or tendered at a Board meeting;

- (b) the director offers to resign by notice in writing delivered to the Secretary at the Office or at an address specified by the Company for the purposes of communication by electronic means or tendered at a Board meeting and the Board resolves to accept such offer;
- (c) the Director is requested to resign by a majority of the other Directors by notice in writing addressed to him or her at his or her address as shown in the register of Directors (without prejudice to any claim for damages which the Director may have for breach of any contract between him or her and the Company), provided that in the first three (3) years following Closing this power may only be invoked in respect of an Independent Director if the majority of the other Directors which gives notice includes at least two (2) other Independent Directors (or if there are fewer than two Independent Directors then in office, all of the Independent Directors, if any);
- (d) the Director ceases to be a Director by virtue of any provision of the Companies Acts, is removed from office pursuant to these Articles or the Act or becomes prohibited by law from being a Director;
- (e) the Director becomes bankrupt or makes an arrangement or composition with his or her creditors generally;
- (f) a registered medical practitioner who is treating the Director gives a written opinion to the Company stating he or she has become physically or mentally incapable of acting as a director and may remain so for more than three months, or is or has been suffering from mental or physical ill health and the Board resolves that his or her office be vacated; or
- (g) the Director is absent (whether or not any alternate Director appointed by the Director attends), without the permission of the Board, from Board meetings for six consecutive months and a notice is served on the Director personally, or at his or her residential address provided to the Company under section 165 of the Act signed by all the other Directors stating that he or she shall cease to be a Director with immediate effect (and such notice may consist of several copies each signed by one or more Directors).

85.2 If the office of a Director is vacated for any reason, he or she shall cease to be a member of any committee or sub-committee of the Board.

86. Resolution as to vacancy conclusive

A resolution of the Board declaring a Director to have vacated office under the terms of Article 85 shall be conclusive as to the fact and ground of vacation stated in the resolution.

87. Appointment of alternate directors

87.1 Each Director may appoint any person (including another Director) to be his or her alternate and may at his or her discretion remove an alternate Director so appointed. Any appointment or removal of an alternate Director must be by written notice delivered to the Office or at an address specified by the Company for the purposes of communication by electronic means or tendered at a Board meeting or in any other manner approved by the Board. The appointment requires the approval of the Board unless it has been previously approved or the appointee is another Director.

87.2 An alternate Director must provide the particulars, and sign any form for public filing required by the Companies Acts relating to his or her appointment.

88. Alternate directors' participation in board meetings

88.1 Every alternate Director is (subject to his or her giving to the Company an address [within the United Kingdom] at which notices may be served on him or her (and, if applicable, an address in relation to which electronic communications may be received)) entitled to receive notice of all meetings of the Board and all committees of the Board of which his or her appointor is a member and, in the appointor's absence, to

attend and vote at such meetings and to exercise all the powers, rights, duties and authorities of the appointor. Each person acting as an alternate Director shall have a separate vote at Board meetings for each Director for whom that person acts as alternate Director in addition to his or her own vote if also a Director, but shall count as only one for the purpose of determining whether a quorum is present.

88.2 Signature by an alternate Director of any resolution in writing of the Board or a committee of the Board will, unless the notice of appointment provides otherwise, be as effective as signature by his or her appointor.

89. Alternate director responsible for own acts

Each person acting as an alternate Director will be an officer of the Company, will alone be responsible to the Company for his or her own acts and defaults and will not be deemed to be the agent of the Director appointing them.

90. Interests of alternate director

An alternate Director is entitled to contract and be interested in and benefit from contracts or arrangements with the Company, to be repaid expenses and to be indemnified to the same extent as if he or she were a Director. However, no alternate Director is entitled to receive from the Company any fees for his or her services as alternate, except such part (if any) of the fee payable to the alternate's appointor as such appointor may by written notice to the Company direct.

91. Revocation of alternate director

An alternate Director will cease to be an alternate Director:

- (a) if the alternate's appointor revokes his or her appointment; or
- (b) if the alternate resigns his or her office by notice in writing to the Company; or
- (c) if the alternate's appointor ceases for any reason to be a Director, provided that if any Director retires but is re-appointed or deemed to be re-appointed at the same meeting, any valid appointment of an alternate Director which was in force immediately before his or her retirement shall remain in force; or
- (d) if any event happens in relation to the alternate which, if the alternate were a Director otherwise appointed, would cause him or her to vacate office.

92. Directors' fees

Each of the Directors may be paid a fee at such rate as may from time to time be decided by ordinary resolution of the Company. Any fees payable under this Article shall be distinct from any salary, remuneration or other amounts payable to a Director under any other provisions of these Articles and shall accrue from day to day.

93. Expenses

Each Director may be paid reasonable travelling, hotel and other expenses properly incurred by him or her in or about the performance of their duties as Director, including any expenses incurred in attending meetings of the Board or any committee of the Board or general meetings or separate meetings of the holders of any class of shares or debentures of the Company. Subject to the Act, the Directors shall have the power to make arrangements to provide a Director with funds to meet expenditure incurred or to be incurred by him or her for the purposes of the Company or for the purpose of enabling him or her to perform his or her duties as an officer of the Company or to enable him or her to avoid incurring any such expenditure.

94. Additional remuneration

If by arrangement with the Board any Director shall perform or render any special duties or services outside his or her ordinary duties as a Director and not in his or her capacity as a holder of employment or executive office, he or she may be paid such reasonable additional remuneration (whether by way of salary, commission, participation in profits or otherwise) as the Board may determine.

95. Remuneration of executive directors

The salary or remuneration of any Director appointed to hold any employment or executive office in accordance with these Articles may be either a fixed sum of money, or may altogether or in part be governed by business done or profits made or otherwise determined by the Board, and may be in addition to or instead of any fee payable to him or her for serving as Director under these Articles.

96. Pensions and other benefits

96.1 The Board may exercise all the powers of the Company to provide pensions or other retirement or superannuation benefits and to provide death or disability benefits or other allowances or gratuities (whether by insurance or otherwise) for any person who is or has at any time been a Director or employee of:

- (a) the Company;
- (b) any company which is or was a holding company or a subsidiary undertaking of the Company;
- (c) any company which is or was allied to or associated with the Company or a subsidiary undertaking or holding company of the Company; or
- (d) a predecessor in business of the Company or of any holding company or subsidiary undertaking of the Company, and, in each case, for any member of his or her family (including a spouse or former spouse) and any person who is or was dependent on him or her.

96.2 The Board may establish, maintain, subscribe and contribute to any scheme, institution, association, club, trust or fund and pay premiums and, subject to the Companies Acts, lend money or make payments to, guarantee or give an indemnity in respect of, or give any financial or other assistance in connection with any of the matters set out in Article 92.1 above. The Board may procure any of such matters to be done by the Company either alone or in conjunction with any other person. Any Director or former Director shall be entitled to receive and retain for his or her own benefit any pension or other benefit provided under this Article and shall not have to account for it to the Company. The receipt of any such benefit will not disqualify any person from being or becoming a Director of the Company.

97. Powers of the board

97.1 Subject to the Companies Acts, these Articles and to any directions given by special resolution of the Company, the business of the Company will be managed by the Board, which may exercise all the powers of the Company, whether relating to the management of the business or not.

97.2 No alteration of these Articles and no such direction given by the Company shall invalidate any prior act of the Board which would have been valid if such alteration had not been made or such direction had not been given. Provisions contained elsewhere in these Articles as to any specific power of the Board shall not be deemed to limit the general powers given by this Article.

98. Powers of directors if less than minimum number

If the number of Directors is less than the minimum prescribed in Article 79 or decided by the Company by ordinary resolution, the remaining Director or Directors may act only for the purposes of appointing an

additional Director or Directors to make up that minimum or convening a general meeting of the Company for the purpose of making such appointment. If no Director or Directors is or are able or willing to act, two members may convene a general meeting for the purpose of appointing Directors. An additional Director appointed in this way holds office (subject to these Articles) only until the dissolution of the next annual general meeting after his or her appointment unless reappointed during the annual general meeting.

99. Powers of executive directors

The Board or any committee authorised by the Board may:

- (a) delegate or entrust to and confer on any Director holding executive office (including a Chief Executive or Managing Director) such of its powers, authorities and discretions (with power to sub-delegate) for such time, on such terms and subject to such conditions as it thinks fit; and
- (b) revoke, withdraw, alter or vary all or any of such powers.

100. Delegation to committees

100.1 The Board may delegate any of its powers, authorities and discretions (with power to sub-delegate) for such time on such terms and subject to such conditions as it thinks fit to any committee consisting of one or more Directors and (if thought fit) one or more other persons provided that:

- (a) a majority of the members of a committee shall be Directors; and
- (b) no resolution of a committee shall be effective unless a majority of those present when it is passed are Directors or alternate Directors.

100.2 The Board may confer such powers either collaterally with, or to the exclusion of and in substitution for, all or any of the powers of the Board in that respect and may revoke, withdraw, alter or vary any such powers and discharge any such committee in whole or in part. Insofar as any power, authority or discretion is so delegated, any reference in these Articles to the exercise by the Board of such power, authority or discretion shall be construed as if it were a reference to the exercise of such power, authority or discretion by such committee.

101. Local management

101.1 The Board may establish any local or divisional boards or agencies for managing any of the affairs of the Company in any specified locality, either in the United Kingdom or elsewhere, and appoint any persons to be members of such local or divisional board, or any managers or agents, and may fix their remuneration.

101.2 The Board may delegate to any local or divisional board, manager or agent so appointed any of its powers, authorities and discretions (with power to sub-delegate) and may authorise the members of any such local or divisional board, or any of them, to fill any vacancies and to act notwithstanding vacancies. Any such appointment or delegation under this Article may be made, on such terms conditions as the Board may think fit. The Board may confer such powers either collaterally with, or to the exclusion of and in substitution for, all or any of the powers of the Board in that respect and may revoke, withdraw, alter or vary all or any of such powers.

101.3 Subject to any terms and conditions expressly imposed by the Board, the proceedings of any local or divisional board or agency with two or more members shall be governed by such of these Articles as regulate the proceedings of the Board, so far as they are capable of applying.

102. Power of attorney

The Board may, by power of attorney or otherwise, appoint any person or persons to be the agent or attorney of the Company and may delegate to any such person or persons any of its powers, authorities and

discretions (with power to sub-delegate), in each case for such purposes and for such time, on such terms (including as to remuneration) and conditions as it thinks fit. The Board may confer such powers either collaterally with, or to the exclusion of and in substitution for, all or any of the powers of the Board in that respect and may revoke, withdraw, alter or vary any of such powers.

103. Exercise of voting power

The Board may exercise or cause to be exercised the voting power conferred by the shares in any other company held or owned by the Company, or any power of appointment to be exercised by the Company, in such manner as it thinks fit (including the exercise of the voting power or power of appointment in favour of the appointment of any Director as a director or other officer or employee of such company or in favour of the payment of remuneration to the directors, officers or employees of such company).

104. Provision for employees on cessation of business

The Board may, by resolution, sanction the exercise of the power to make provision for the benefit of persons employed or formerly employed by the Company or any of its subsidiary undertakings, in connection with the cessation or the transfer to any person of the whole or part of the undertaking of the Company or that subsidiary undertaking, but any such resolution shall not be sufficient for payments to or for the benefit of directors, former directors or shadow directors.

105. Overseas registers

Subject to the Companies Acts, the Company may keep an overseas, local or other register and the Board may make and vary such regulations as it thinks fit respecting the keeping of any such register.

106. Borrowing powers

106.1 Subject to these Articles and the Companies Acts, the Board may exercise all the powers of the Company to:

- (a) borrow money;
- (b) indemnify and guarantee;
- (c) mortgage or charge all or any part of the undertaking, property and assets (present and future) and uncalled capital of the Company;
- (d) create and issue debentures and other securities; and
- (e) give security either outright or as collateral security for any debt, liability or obligation of the Company or of any third party.

107. Board meetings

107.1 The Board can decide when and where to have meetings and how they will be conducted. They may also adjourn meetings.

107.2 A Board meeting can be called by any Director. The Secretary must call a Board meeting if asked to do so by a Director.

108. Notice of board meetings

108.1 Notice of a Board meeting shall be deemed to be duly given to a Director if it is given to the Director personally or by word of mouth or given in writing or by electronic means to the Director at his or her last known address or any other address given by him or her to the Company for that purpose.

- 108.2 A Director may waive the requirement that notice be given to him or her of any Board meeting, either prospectively or retrospectively and any retrospective waiver shall not affect the validity of the meeting or of any business conducted at the meeting.
- 108.3 It shall not be necessary to give notice of a Board meeting to a Director who is absent [from the United Kingdom] unless the Director has asked the Board in writing that notices of Board meetings shall during his or her absence be given to him or her at any address [in the United Kingdom] notified to the Company for this purpose, but the Director shall not, in such event, be entitled to a longer period of notice than if he or she had been present [in the United Kingdom] at that address.

109. Quorum

- 109.1 The quorum necessary for the transaction of business may be determined by the Board and until otherwise determined shall be three persons, each being a Director. A duly convened meeting of the Board at which a quorum is present shall be competent to exercise all or any of the authorities, powers, and discretions for the time being vested in or exercisable by the Board.
- 109.2 If a Director ceases to be a director at a Board meeting, he or she can continue to be present and to act as a director and be counted in the quorum until the end of the meeting if no other Director objects and if otherwise a quorum of Directors would not be present.
- 109.3 If, within thirty (30) minutes from the time appointed for the meeting of the Directors a quorum be not present, the meeting, if convened upon requisition in accordance with the Companies Act, shall be dissolved; but in any other case it shall stand adjourned to the same day in the next week at the same time and place, or to such other day, time and place as the majority of the Directors may agree. If at such adjourned meeting of the Directors a quorum be not present within thirty (30) minutes from the time appointed for the adjourned meeting, any three Directors present at such adjourned meeting shall be a quorum and may transact the business for which the meeting is called.

110. Chair

- 110.1 The Board may appoint one or more of its body as chair or joint chair and one or more of its body as deputy chair of its meetings and may determine the period for which he or she is or they are to hold office and may at any time remove him, her or them from office.
- 110.2 If no such chair or deputy chair is elected, or if at any meeting neither a chair nor a deputy chair is present within ten minutes of the time appointed for holding the same, the Directors present shall choose one of their number to be chair of such meeting. In the event two or more joint chairs or, in the absence of a chair, two or more deputy chairs being present, the joint chair or deputy chair to act as chair of the meeting shall be decided by those Directors present.

111. Voting

Questions arising at any Board meeting shall be determined by a majority of votes. In the case of an equality of votes the chair of that meeting shall have a second or casting vote (unless he or she is not entitled to vote on the resolution in question).

112. Participation by telephone or other form of communication

- 112.1 Any Director or his or her alternate may validly participate in a meeting of the Board or a committee of the Board through the medium of conference telephone or any other form of communications equipment (whether in use when these Articles are adopted or developed subsequently), provided that all persons participating in the meeting are able to hear and speak to each other throughout such meeting.

112.2 A person so participating by telephone or other communication shall be deemed to be present in person at the meeting and shall be counted in a quorum and entitled to vote. Such a meeting shall be deemed to take place where the largest group of those participating is assembled or, if there is no group which is larger than any other group, where the chair of the meeting then is.

112.3 A resolution passed at any meeting held in the above manner, and signed by the chair of the meeting, shall be as valid and effectual as if it had been passed at a meeting of the Board (or committee, as the case may be) duly convened and held.

113. Resolution in writing

113.1 A resolution in writing signed or confirmed electronically by all the Directors for the time being entitled to receive notice of a Board meeting and to vote on the resolution and not being less than a quorum (or by all the members of a committee of the Board for the time being entitled to receive notice of such committee meeting and to vote on the resolution and not being less than a quorum of that committee), shall be as valid and effective for all purposes as a resolution duly passed at a meeting of the Board (or committee, as the case may be).

113.2 Such a resolution may consist of several documents or electronic communications in the same form each signed or authenticated by one or more of the Directors or members of the relevant committee.

114. Proceedings of committees

All committees of the Board shall, in the exercise of the powers delegated to them and in the transaction of business, conform with any mode of proceedings and regulations which the Board may prescribe and subject to this shall be governed by such of these Articles as regulate the proceedings of the Board as are capable of applying.

115. Minutes of proceedings

115.1 The Board shall keep minutes of all shareholder meetings, all Board meetings and meetings of committees of the Board. The minutes must include the names of the Directors present.

115.2 Any such minutes, if purporting to be signed by the chair of the meeting at which the proceedings were held or by the chair of the next meeting or the Secretary, shall be evidence of the matters stated in such minutes without any further proof.

116. Validity of proceedings

All acts done by a meeting of the Board, or of a committee of the Board, or by any person acting as a Director, alternate Director or member of a committee shall be valid even if it is discovered afterwards that there was some defect in the appointment of any person or persons acting, or that they or any of them were or was disqualified from holding office or not entitled to vote, or had in any way vacated office.

117. Transactions or other arrangements with the company

117.1 Subject to the Companies Acts and provided he or she has declared the nature and extent of his or her interest in accordance with the requirements of the Companies Acts, a Director who is in any way, whether directly or indirectly, interested in an existing or proposed transaction or arrangement with the Company may:

- (a) be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is otherwise (directly or indirectly) interested;

- (b) act by himself or herself or through his or her firm in a professional capacity for the Company (otherwise than as auditor) and he or her, or his or her firm, shall be entitled to remuneration for professional services as if he or she were not a Director;
- (c) be or become a director or other officer of, or employed by, or a party to a transaction or arrangement with, or otherwise interested in, any body corporate in which the Company is otherwise (directly or indirectly) interested; and
- (d) hold any office or place of profit with the Company (except as auditor) in conjunction with his or her office of Director for such period and upon such terms, including as to remuneration as the Board may decide.

117.2 A Director shall not, save as he or she may otherwise agree, be accountable to the Company for any benefit which he or she derives from any such contract, transaction or arrangement or from any such office or employment or from any interest in any such body corporate and no such contract, transaction or arrangement shall be liable to be avoided on the grounds of any such interest or benefit nor shall the receipt of any such remuneration or other benefit constitute a breach of duty under section 176 of the Act.

118. Authorisation of Directors' conflicts of interest

118.1 The Board may, in accordance with the requirements set out in this Article, authorise any matter or situation proposed to them by any Director which would, if not authorised, involve a Director (an **Interested Director**) breaching his or her duty under the Act to avoid conflicts of interest.

118.2 A Director seeking authorisation in respect of a conflict of interest shall declare to the Board the nature and extent of his or her interest in a conflict of interest as soon as is reasonably practicable. The Director shall provide the Board with such details of the matter as are necessary for the Board to decide how to address the conflict of interest together with such additional information as may be requested by the Board.

118.3 Any authorisation under this Article will be effective only if:

- (a) to the extent permitted by the Act, the matter in question shall have been proposed by any Director for consideration in the same way that any other matter may be proposed to the Directors under the provisions of these Articles;
- (b) any requirement as to the quorum for consideration of the relevant matter is met without counting the Interested Director and any other interested Director; and
- (c) the matter is agreed to without the Interested Director voting or would be agreed to if the Interested Director's and any other interested Director's vote is not counted.

118.4 Any authorisation of a conflict of interest under this Article must be recorded in writing (but the authority shall be effective whether or not the terms are so recorded) and may (whether at the time of giving the authorisation or subsequently):

- (a) extend to any actual or potential conflict of interest which may reasonably be expected to arise out of the matter or situation so authorised;
- (b) provide that the Interested Director be excluded from the receipt of documents and information and the participation in discussions (whether at meetings of the Directors or otherwise) related to the conflict of interest;
- (c) impose upon the Interested Director such other terms for the purposes of dealing with the conflict of interest as the Directors think fit;
- (d) provide that, where the Interested Director obtains, or has obtained (through his or her involvement in the conflict of interest and otherwise than through the interested Director's position as a Director) information that is confidential to a third party, he or she will not be obliged to disclose that information to the Company, or to use it in relation to the Company's affairs where to do so would amount to a breach of that confidence; and

- (e) permit the Interested Director to absent himself or herself from the discussion of matters relating to the conflict of interest at any meeting of the Directors and be excused from reviewing papers prepared by, or for, the Directors to the extent they relate to such matters.
- 118.5 Where the Directors authorise a conflict of interest, the Interested Director will be obliged to conduct himself or herself in accordance with any terms and conditions imposed by the Directors in relation to the conflict of interest.
- 118.6 The Directors may revoke or vary such authorisation at any time, but this will not affect anything done by the Interested Director, prior to such revocation or variation, in accordance with the terms of such authorisation.
- 118.7 A Director is not required, by reason of being a Director (or because of the fiduciary relationship established by reason of being a director), to account to the Company for any remuneration, profit or other benefit which he or she derives from or in connection with a relationship involving a conflict of interest which has been authorised by the directors or by the Company in general meeting (subject in each case to any terms, limits or conditions attaching to that authorisation) and no contract shall be liable to be avoided on such grounds.

119. Directors' permitted interests

- 119.1 A Director cannot vote or be counted in the quorum on any resolution relating to any transaction or arrangement with the Company in which the Director has an interest and which may reasonably be regarded as likely to give rise to a conflict of interest but can vote (and be counted in the quorum) on the following:
 - (a) any security, guarantee or indemnity for any money or any liability which the Director, or any other person, has lent or obligations the Director or any other person has undertaken at the request, or for the benefit, of the Company or any of its subsidiary undertakings;
 - (b) any security, guarantee or indemnity to any other person for a debt or obligation which is owed by the Company or any of its subsidiary undertakings, to that other person if the Director has taken responsibility for some or all of that debt or obligation. The Director can take this responsibility by giving a guarantee, indemnity or security;
 - (c) a proposal or contract relating to an offer of any shares or debentures or other securities for subscription or purchase by the Company or any of its subsidiary undertakings, if the Director takes part because he or she is a holder of shares, debentures or other securities, or if he or she takes part in the underwriting or sub-underwriting of the offer;
 - (d) any arrangement for the benefit of employees of the Company or any of its subsidiary undertakings which only gives him or her benefits which are also generally given to employees to whom the arrangement relates;
 - (e) any arrangement involving any other company if the Director (together with any person connected with the Director) has an interest of any kind in that company (including an interest by holding any position in that company or by being a shareholder of that company). This does not apply if he or she knows that he has a Relevant Interest.
 - (f) a contract relating to insurance which the Company can buy or renew for the benefit of the Directors or a group of people which includes Directors; and
 - (g) a contract relating to a pension, superannuation or similar scheme or a retirement, death, disability benefits scheme or employees' share scheme which gives the Director benefits which are also generally given to the employees to whom the scheme relates.
- 119.2 A Director cannot vote or be counted in the quorum on a resolution relating to the Director's own appointment or the settlement or variation of the terms of his or her appointment to an office or place of profit with the Company or any other company in which the Company has an interest.

- 119.3 Where the Directors are considering proposals about the appointment, or the settlement or variation of the terms or the termination of the appointment of two or more Directors to other offices or places of profit with the Company or any company in which the Company has an interest, a separate resolution may be put in relation to each Director and in that case each of the Directors concerned shall be entitled to vote and be counted in the quorum in respect of each resolution unless it concerns his or her own appointment or the settlement or variation of the terms or the termination of his or her own appointment or the appointment of another director to an office or place of profit with a company in which the Company has an interest and the Director seeking to vote or be counted in the quorum has a Relevant Interest in it.
- 119.4 A company shall be deemed to be one in which the Director has a **Relevant Interest** if and so long as (but only if and so long as) the Director is to his or her knowledge (either directly or indirectly) the holder of or beneficially interested in 1% or more of any class of the equity share capital of that company (calculated exclusive of any shares of that class in that company held as treasury shares) or of the voting rights available to members of that company. In relation to an alternate Director, an interest of his or her appointor shall be treated as an interest of the alternate Director without prejudice to any interest which the alternate Director has otherwise. Where a company in which a Director has a Relevant Interest is interested in a contract, the Director also shall be deemed interested in that contract.
- 119.5 If a question arises at a Board meeting about whether a Director (other than the chair of the meeting) has an interest which is likely to give rise to a conflict of interest, or whether he or she can vote or be counted in the quorum, and the Director does not agree to abstain from voting on the issue or not to be counted in the quorum, the question must be referred to the chair of the meeting. The chair's ruling about the relevant Director is final and conclusive, unless the nature and extent of the Director's interests have not been fairly disclosed to the Directors. If the question arises about the chair of the meeting, the question must be directed to the Directors. The chair cannot vote on the question but can be counted in the quorum. The Directors' resolution about the chair is final and conclusive, unless the nature and extent of the chair's interests have not been fairly disclosed to the Directors.

120. General

For the purposes of Articles 117 to 119 inclusive (which shall apply equally to alternate Directors):

- 120.1 An interest of a person who is connected (which word shall have the meaning given to it by section 252 of the Act) with a Director shall be treated as an interest of the Director.
- 120.2 A contract includes references to any proposed contract and to any transaction or arrangement or proposed transaction or arrangement whether or not constituting a contract.
- 120.3 A conflict of interest includes a conflict of interest and duty and a conflict of duties.
- 120.4 Subject to the Companies Acts, the Company may by ordinary resolution suspend or relax the provisions of Articles 117 to 119 to any extent or ratify any contract not properly authorised by reason of a contravention of any of the provisions of Articles 117 to 119.

121. Power to authenticate documents

Any Director, the Secretary or any person appointed by the Board for the purpose shall have power to authenticate any documents affecting the constitution of the Company and any resolution passed by the Company or the Board or any committee, and any books, records, documents and accounts relating to the business of the Company, and to certify copies or extracts as true copies or extracts. Where any books, records, documents or accounts are not at the Office, the local manager or other officer of the Company who has their custody shall be deemed to be a person appointed by the Board for this purpose. A document purporting to be a copy of a resolution, or an extract from the minutes of a meeting, of the Company or the Board or any committee which is so certified shall be conclusive evidence in favour of all persons dealing with the Company that such resolution has been duly passed or, as the case may be, that any minute so extracted is a true and accurate record of proceedings at a duly constituted meeting.

122. Use of seals

- 122.1 The Board shall provide for the safe custody of the Seal. A Seal shall not be used without the authority of the Board or of a committee of the Board so authorised.
- 122.2 Subject as otherwise provided in these Articles, every document which is sealed using the Seal must be signed by at least one authorised person in the presence of a witness who attests the signature. An authorised person for this purpose is any Director, the Secretary or any other person authorised by the Directors for the purpose of signing documents to which the Seal is applied.
- 122.3 The Seal shall be used only for sealing securities issued by the Company and documents creating or evidencing securities so issued. Any such securities or documents sealed with the Seal shall not require to be signed unless the Board decides otherwise or the law otherwise requires.
- 122.4 The Board may decide who will sign an instrument to which a Seal is affixed (or in the case of a share certificate, on which the Seal may be printed) either generally or in relation to a particular instrument or type of instrument and may also determine either generally or in a particular case that a signature may be dispensed with or affixed by mechanical means.

123. Declaration of dividends

Subject to the Act and these Articles, the Company may by ordinary resolution declare dividends to be paid to members according to their respective rights and interests in the profits of the Company. However, no dividend shall exceed the amount recommended by the Board.

124. Interim dividends

Subject to the Act, the Board may declare and pay such interim dividends (including any dividend at a fixed rate) as appears to the Board to be justified by the profits of the Company available for distribution. If the Board acts in good faith, it shall not incur any liability to the holders of shares for any loss that they may suffer by the lawful payment of any interim dividend on any other class of shares ranking with or after those shares.

125. Calculation and currency of dividends

Except as provided otherwise by the rights attached to shares, all dividends:

- (a) shall be declared and paid accordingly to the amounts paid up (otherwise than in advance of calls) on the shares on which the dividend is paid;
- (b) shall be apportioned and paid proportionately to the amounts paid up on the shares during any portion or portions of the period in respect of which the dividend is paid, but if any share is issued on terms that it shall rank for dividend as from a particular date, it shall rank for dividend accordingly; and
- (c) may be declared or paid in any currency. The Board may decide the rate of exchange for any currency conversions that may be required and how any costs involved are to be met.

126. Amounts due on shares can be deducted from dividends

The Board may deduct from any dividend or other money payable to any person on or in respect of a share all such sums as may be due from him or her to the Company on account of calls or otherwise in relation to the shares of the Company. Sums so deducted can be used to pay amounts owing to the Company in respect of the shares.

127. Dividends not in cash

The Board may, by ordinary resolution of the Company direct, or in the case of an interim dividend may without the authority of an ordinary resolution direct, that payment of any dividend declared may be satisfied wholly or partly by the distribution of assets, and in particular of paid up shares or debentures of any other company, or in any one or more of such ways. Where any difficulty arises regarding such distribution, the Board may settle it as it thinks fit. In particular, the Board may:

- (a) issue fractional certificates (or ignore fractions);
- (b) fix the value for distribution of such assets or any part of them and determine that cash payments may be made to any members on the footing of the values so fixed, in order to adjust the rights of members; and
- (c) vest any such assets in trustees on trust for the person entitled to the dividend.

128. No interest on dividends

Unless otherwise provided by the rights attached to the share, no dividend or other monies payable by the Company or in respect of a share shall bear interest as against the Company.

129. Method of payment

- 129.1 The Company may pay any dividend, interest or other sum payable in respect of a share in cash or by direct debit, bank transfer, cheque, dividend warrant, or money order or by any other method, including by electronic means, as the Board may consider appropriate.
- 129.2 The Company may send such payment by post or other delivery service (or by such means offered by the Company as the member or person entitled to it may agree in writing) to the registered address of the member or person entitled to it (or, if two or more persons are holders of the share or are jointly entitled to it because of the death or bankruptcy of the member or otherwise by operation of law, to the registered address of such of those persons as is first named in the Register) or to such person and such address as such member or person may direct in writing.
- 129.3 Every cheque, warrant, order or other form of payment is sent at the risk of the person entitled to the money represented by it, shall be made payable to the person or persons entitled, or to such other person as the person or persons entitled may direct in writing. Payment of the cheque, warrant, order or other form of payment (including transmission of funds through a bank transfer or other funds transfer system or by such other electronic means as permitted by these Articles or in accordance with the facilities and requirements of the relevant system concerned) shall be good discharge to the Company. If any such cheque, warrant, order or other form of payment has or shall be alleged to have been lost, stolen or destroyed the Company shall not be responsible.
- 129.4 Any joint holder or other person jointly entitled to a share may give an effective receipt for any dividend, bonus, return of capital or other monies payable in respect of such share.
- 129.5 If a holder (or joint holder) does not specify an address, or does not specify an account or such other details and in each case that information is necessary in order to make a payment of a dividend, interest or other sum by the means by which in accordance with this Article the Board have decided that a payment is to be made or by which the holder (or joint holder) has validly elected to receive payment or the payment cannot be made by the Company using the details provided by the holder (or joint holders), the dividend, interest or other sum shall be treated as unclaimed for the purposes of these Articles.
- 129.6 The Board may, at its discretion, make provisions to enable any member as the Board shall determine to receive duly declared dividends in a currency or currencies other than sterling. For the purposes of the calculation of the amount receivable in respect of any dividend, the rate of exchange to be used to determine the foreign currency equivalent of any sum payable as a dividend shall be such rate or rates and the payment shall be on such terms and conditions as the Board may in its absolute discretion determine.

130. Uncashed dividends

If cheques, warrants or orders for dividends or other sums payable in respect of a share sent by the Company to the person entitled to them are returned to the Company or left uncashed on two consecutive occasions or, following one occasion, reasonable enquires have failed to establish any new address to be used for the purpose, the Company does not have to send any dividends or other monies payable in respect of that share due to that person until he or she notifies the Company of an address to be used for the purpose.

131. Unclaimed dividends

All dividends, interest or other sums payable and unclaimed for 12 months after having become payable may be invested or otherwise made use of by the Board for the benefit of the Company until claimed. The Company shall not be a trustee in respect of such unclaimed dividends and will not be liable to pay interest on it. All dividends that remain unclaimed for 12 years after they were first declared or became due for payment shall (if the Board so resolves) be forfeited and shall cease to remain owing by the Company.

132. Scrip dividends

Subject to the Act, the Board may, by ordinary resolution of the Company and subject to such terms and conditions as the Board may determine, offer to any holders of ordinary shares (excluding any member holding shares as treasury shares) the right to elect to receive ordinary shares, credited as fully paid, instead of cash in respect of the whole (or some part, to be determined by the Board) of any dividend specified by the ordinary resolution. The following provisions shall apply:

- (a) the said resolution may specify a particular dividend, or may specify all or any dividends declared within a specified period or periods but such period may not end later than the third anniversary of the date of the meeting at which the ordinary resolution is passed;
- (b) the entitlement of each holder of ordinary shares to new ordinary shares shall be such that the relevant value of the entitlement shall be as nearly as possible equal to (but not greater than) the cash amount (disregarding any tax credit) of the dividend that such holder would have received by way of dividend. For this purpose **relevant value** shall be calculated by reference to the average of the middle market quotations for the ordinary shares on the Exchange, for the day on which the ordinary shares are first quoted "ex" the relevant dividend and the four subsequent dealing days, or in such other manner as the Board may determine on such basis as it considers to be fair and reasonable. A certificate or report by the Company's auditors as to the amount of the relevant value in respect of any dividend shall be conclusive evidence of that amount;
- (c) no fractions of a share shall be allotted. The Board may make such provisions as it thinks fit for any fractional entitlements including provisions where, in whole or in part, the benefit accrues to the Company and/or under which fractional entitlements are accrued and/or retained and in each case accumulated on behalf of any member and such accruals or retentions are applied to the allotment by way of bonus to or cash subscription on behalf of any member of fully paid ordinary shares and/or provisions where cash payments may be made to members in respect of their fractional entitlements;
- (d) the Board shall, after determining the basis of allotment, notify the holders of ordinary shares in writing of the right of election offered to them, and specify the procedure to be followed and place at which, and the latest time by which, elections must be lodged in order to be effective. No such notice need to be given to holders of ordinary shares who have previously given election mandates in accordance with this Article and whose mandates have not been revoked. The accidental omission to give notice of any right of election to, or the non-receipt (even if the Company becomes aware of such non-receipt) of any such notice by, any holder of ordinary shares entitled to the same shall neither invalidate any offer of an election nor give rise to any claim, suit or action;

- (e) the Board shall not proceed with any election unless the company has sufficient reserves or funds that may be capitalised, and the Board has authority to allot sufficient shares, to give effect to it after the basis of the allotment is determined;
- (f) the Board may exclude from any offer or make other arrangements in relation to any holders of ordinary shares where the Board considers that the making of the offer to them or in respect of such shares would or might involve the contravention of the laws of any territory or that for any other reason the offer should not be made to them or in respect of such shares;
- (g) the Board may establish or vary a procedure for election mandates in respect of future rights of election and may determine that every duly effected election in respect of any ordinary shares shall be binding on every successor in title to the holder;
- (h) the dividend (or that part of the dividend in respect of which a right of election has been offered) shall not be payable on ordinary shares in respect of which an election has been duly made (**electd ordinary shares**) and instead additional ordinary shares shall be allotted to the holders of the elected ordinary shares on the basis of allotment determined as stated above. For such purpose the Board may capitalise, out of any amount for the time being standing to the credit of any reserve or fund (including any share premium account or capital redemption reserve) or of any of the profits which could otherwise have been applied in paying dividends in cash as the Board may determine, a sum equal to the aggregate nominal amount of the additional ordinary shares to be allotted on such basis and apply it in paying up in full the appropriate number of unissued ordinary shares for allotment and distribution to the holders of the elected ordinary shares on such basis. The Board may do all acts and things considered necessary or expedient to give effect to any such capitalisation;
- (i) the Board may decide how any costs relating to the new shares available in place of a cash dividend will be met, including to deduct an amount from the entitlement of a holder of ordinary shares under this Article;
- (j) the additional ordinary shares so allotted shall rank *pari passu* in all respects with each other and with the fully paid ordinary shares in issue on the record date for the dividend in respect of which the right of election has been offered, except that they will not rank for any dividend or other distribution or other entitlement which has been declared, paid or made by reference to such record date; and
- (k) the Board may terminate, suspend, or amend any offer of the right to elect to receive ordinary shares in lieu of any cash dividend at any time and generally may implement any scrip dividend scheme on such terms and conditions as the Board may determine and take such other action as the Board may deem necessary or desirable in respect of any such scheme.

133. Capitalisation of reserves

The Board may, with the authority of an ordinary resolution of the Company:

- (a) subject as provided in this Article, resolve to capitalise any undivided profits of the Company not required for paying any preferential dividend (whether or not they are available for distribution) or any sum standing to the credit of any reserve or fund of the Company which is available for distribution or standing to the credit of the share premium account or capital redemption reserve or other undistributable reserve;
- (b) appropriate the sum resolved to be capitalised to the members in proportion to the nominal amounts of the shares (whether or not fully paid) held by them respectively which would entitle them to participate in a distribution of that sum if the shares were fully paid and the sum were then distributable and were distributed by way of dividend and apply such sum on their behalf either in or towards paying up the amounts, if any, for the time being unpaid on any shares held by them

respectively, or in paying up in full unissued shares or debentures of the Company of a nominal amount equal to that sum, and allot the shares or debentures credited as fully paid to those members or as they may direct, in those proportions, or partly in one way and partly in the other, provided that:

- (i) the share premium account, the capital redemption reserve, any other undistributable reserve and any profits which are not available for distribution may, for the purposes of this Article, only be applied in paying up in full shares to be allotted to members credited as fully paid;
- (ii) the Company will also be entitled to participate in the relevant distribution in relation to any shares of the relevant class held by it as treasury shares and the proportionate entitlement of the relevant class of members to the distribution will be calculated accordingly; and
- (iii) in a case where any sum is applied in paying amounts for the time being unpaid on any shares of the Company or in paying up in full debentures of the Company, the amount of the net assets of the Company at that time in not less than the aggregate of the called up share capital of the Company and its undistributable reserves as shown in the latest audited accounts of the Company or such other accounts as may be relevant and would not be reduced below that aggregate by the payment of it;
- (c) resolve that any shares so allotted to any member in respect of a holding by him or her of any partly paid shares shall, so long as such shares remain partly paid, rank for dividends only to the extent that such partly paid shares rank for dividends;
- (d) make such provision by the issue of fractional certificates (or by ignoring fractions or by accruing the benefit of it to the Company rather than to the members concerned) or by payment in cash or otherwise as it thinks fit in the case of shares or debentures becoming distributable in fractions;
- (e) authorise any person to enter on behalf of such members concerned into an agreement with the Company providing for either:
 - (i) the allotment to them respectively, credited as fully paid up, of any shares or debentures to which they may be entitled on such capitalisation; or
 - (ii) the payment up by the Company on behalf of such members by the application of their respective proportions of the reserves or profits resolved to be capitalised, of the amounts or any part of the amounts remaining unpaid on their existing shares, (any agreement made under such authority being effective and binding on all such members); and
- (f) generally do all acts and things required to give effect to such resolution.

134. Record dates

- 134.1 Notwithstanding any other provision of these Articles but without prejudice to the rights attached to any shares and subject always to the Act, the Company or the Board may by resolution specify any date (**record date**) as the date at the close of business (or such other time as the Board may determine) on which persons registered as the holders of shares or other securities shall be entitled to receipt of any dividend, distribution, interest, allotment, issue, notice, information, document or circular. Such record date may be before, on or after the date on which the dividend, distribution, interest, allotment, issue, notice, information, document or circular is declared, made, paid, given, or served.
- 134.2 In the absence of a record date being fixed, entitlement to any dividend, distribution, interest, allotment, issue, notice, information, document or circular shall be determined by reference to the date on which the dividend is declared, the distribution allotment or issue is made or the notice, information, document or circular made, given or served.

135. Inspection of records

No member (other than a Director) shall have any right to inspect any accounting record or other document of the Company unless he or she is authorised to do so by law, by order of a court of competent jurisdiction, by the Board or by ordinary resolution of the Company.

136. Account to be sent to members

136.1 In respect of each financial year, a copy of the Company's annual accounts, the strategic report, the Directors' report, the Directors' remuneration report, the auditor's report on those accounts and on the auditable part of the Directors' remuneration report shall be sent or supplied to:

- (a) Every member (whether or not entitled to receive notices of general meetings);
- (b) Every holder of debentures (whether or not entitled to receive notice of general meetings);
- (c) Every other person who is entitled to receive notice of general meetings; not less than 21 clear days before the date of the meeting at which copies of those documents are to be laid in accordance with the Act.

136.2 This Article does not require copies of the documents to which it applies to be sent or supplied to:

- (a) A member or holder of debentures of whose address the Company is unaware; or
- (b) More than one of the joint holders of shares or debentures.

136.3 The Board may determine that persons entitled to receive a copy of the Company's annual accounts, the strategic report, the Directors' report, the Directors' remuneration report, the auditor's report on those accounts and on the auditable part of the Directors' remuneration report are those persons entered on the Register at the close of business on a day determined by the Board, provided that the day determined by the Board may not be more than 21 days before the day that the relevant copies are being sent.

136.4 Where permitted by the Act, a strategic report with supplementary material in the form and containing the information prescribed by the Act may be sent or supplied to a person so electing in place of the documents required to be sent or supplied by Article 136.1.

137. Service of Notices

137.1 The Company can send, deliver or serve any notice or other document, including a share certificate, to or on a member:

- (a) personally;
- (b) by sending it through the postal system addressed to the member at the member's registered address or by leaving it at that address addressed to the member;
- (c) where appropriate, by sending or supplying it in electronic form to an address notified by the member to the Company for that purpose;
- (d) where appropriate, by making it available on a website and notifying the member of its availability in accordance with this Article; or
- (e) by any other means authorised in writing by the member.

137.2 In the case of joint holders of a share:

- (a) service, sending or supply of any notice, document or other information on or to one of the joint holders shall for all purposes be deemed a sufficient service on, sending or supplying to all the joint holders; and

- (b) anything to be agreed or specified in relation to any notice, document or other information to be served on, sent or supplied to them may be agreed or specified by any one of the joint holders and the agreement or specification of the first named in the Register shall be accepted to the exclusion of that of the other joint holders.
- 137.3 Where a member (or, in the case of a joint holders, the person first named in the Register) has a registered address outside the United Kingdom but has notified the Company of an address within the United Kingdom at which notices, documents or other information may be given to him or her or has given to the Company an address for the purposes of communications by electronic means at which notices, documents or other information may be served, sent or supplied to him or her, the member shall be entitled to have notices served, sent or supplied to him or her at such address or, where applicable, the Company may make them available on a website and notify the holder of that address. Otherwise no such member shall be entitled to receive any notice, document or other information from the Company.
- 137.4 If on three consecutive occasions any notice, document or other information has been sent to any member at the member's registered address or the member's address for the service of notices (by electronic means or otherwise) but has been returned undelivered, such member shall not be entitled to receive notices, documents or other information from the Company until he or she shall have communicated with the Company and supplied in writing a new registered address or address within the United Kingdom for the service of notices or has informed the Company of an address for the service of notices and the sending or supply of documents and other information in electronic form. For these purposes, any notice, document or other information served, sent or supplied by post shall be treated as returned undelivered if the notice, document or other information is served, sent or supplied back to the Company (or its agents) and a notice, document or other information served, sent or supplied in electronic form shall be treated as returned undelivered if the Company (or its agents) receives notification that the notice, document or other information was not delivered to the address to which it was served, sent or supplied.
- 137.5 The Company may at any time and in its sole discretion choose to serve, send or supply notices, documents or other information in hard copy form alone to some or all of the members.

138. Notice on person entitled by transmission

The Company may give notice to the person entitled to a share because of the death or bankruptcy of a member or otherwise by operation of law, by sending or delivering it in any manner authorised by these Articles for the giving of notice to a member, addressed to that person by name, or by the title of representative of the deceased or trustee of the bankrupt or representative by operation of law or by any like description, at the address (if any) within the United Kingdom supplied for the purpose by the person claimed to be so entitled or to which notices may be sent in electronic form. Until such an address has been so supplied, a notice may be given in any manner in which it might have been given if the death or bankruptcy or operation of law had not occurred.

139. Record date for service

Any notice, document or other information may be served, sent or supplied by the Company by reference to the register as it stands at any time not more than 15 days before the date of service, sending or supplying. No change in the register after that time shall invalidate that service, sending or supply. Where any notice, document or other information is served on, sent or supplied to any person in respect of a share in accordance with these Articles, no person deriving any title or interest in that share shall be entitled to any further service, sending or supplying of that notice, document or other information.

140. Evidence of service

- 140.1 Any notice, document or other information, addressed to a member at the member's registered address or address for service in the United Kingdom shall, if served, sent or supplied by first class post, be deemed to

have been served or delivered on the day after the day when it was put in the post (or, where second class post is employed, on the second day after the day when it was put in the post). Proof that an envelope containing the notice, document or other information was properly addressed and put into the post as a prepaid letter shall be conclusive evidence that the notice was given.

- 140.2 Any notice, document or other information not served, sent or supplied by post but delivered or left at a registered address or address for service in the United Kingdom (other than an address for the purposes of communications by electronic means) shall be deemed to have been served or delivered on the day on which it was so delivered or left.
- 140.3 Any notice, document or other information, if served, sent or supplied by electronic means shall be deemed to have been received on the day on which the electronic communication was sent by or on behalf of the Company notwithstanding that the Company subsequently sends a hard copy of such notice, document or other information by post. Any notice, document or other information made available on a website shall be deemed to have been received on the day on which the notice, document or other information was first made available on the website or, if later, when a notice of availability is received or deemed to have been received pursuant to this Article. Proof that the notice, document or other information was properly addressed shall be conclusive evidence that the notice by electronic means was given.
- 140.4 Any notice, document or other information served, sent or supplied by the Company by means of a relevant system shall be deemed to have been received when the Company or any sponsoring system-participant acting on its behalf sends the issuer-instruction relating to the notice, document or other information.
- 140.5 Any notice, document or other information served, sent or supplied by the Company by any other means authorised in writing by the member concerned shall be deemed to have been received when the Company has carried out the action it has been authorised to take for that purpose.

141. Notice when post not available

If at any time by reason of the suspension, interruption or curtailment of postal services within the United Kingdom the Company is unable effectively to convene a general meeting by notices sent through the post, the Company need only give notice of a general meeting to those members with whom the Company can communicate by electronic means and who have provided the Company with an address for this purpose. The Company shall also advertise the notice in at least one national newspaper published in the United Kingdom and make it available on its website from the date of such advertisement until the conclusion of the meeting or any adjournment of it. In any such case the Company shall send confirmatory copies of the notice by post to those members to whom notice cannot be given by electronic means if, at least seven days prior to the meeting, the posting of notices to addresses throughout the United Kingdom again becomes practicable.

142. Indemnity and insurance

142.1 In this Article:

- (a) companies are **associated** if one is a subsidiary of the other or both are subsidiaries of the same body corporate;
- (b) a **relevant officer** means any Director or other officer or former director or other officer of the Company or an associated company (including any company which is a trustee of an occupational pension scheme (as defined by section 235(6) of the Act), but excluding in each case any person engaged by the Company (or associated company) as auditor (whether or not he or she is also a director or other officer), to the extent he or she acts in his or her capacity as auditor); and

- (c) **relevant loss** means any loss or liability which has been or may be incurred by a relevant officer in connection with that relevant officer's duties or powers in relation to the company, any associated company or any pension fund or employees' share scheme of the company or associated company.

142.2 Subject to Article 142.3, but without prejudice to any indemnity to which a relevant officer is otherwise entitled:

- (a) each relevant officer shall be indemnified out of the Company's assets against all relevant loss including any liability incurred by the officer in defending any civil or criminal proceedings, in which judgment is given in the officer's favour or in which the officer is acquitted or the proceedings are otherwise disposed of without any finding or admission of any material breach of duty on the officer's part or in connection with any application in which the court grants the officer, in his or her capacity as a relevant officer, relief from liability for negligence, default, breach of duty or breach of trust in relation to the Company's (or any associated company's) affairs; and
- (b) the Company may provide any relevant officer with funds to meet expenditure incurred or to be incurred by him or her in connection with any proceedings or application referred to in Article 142.2(a) and otherwise may take any action to enable any such relevant officer to avoid incurring such expenditure.

142.3 This Article does not authorise any indemnity which would be prohibited or rendered void by any provision of the Companies Acts or by any other provision of law.

142.4 The Directors may decide to purchase and maintain insurance, at the expense of the Company, for the benefit of any relevant officer in respect of any relevant loss.

143. Forum Selection

143.1 Unless the Company consents in writing to the selection of an alternative forum, the Courts of England and Wales shall, to the fullest extent permitted by law, be the sole and exclusive forum for:

- (a) any derivative action or proceeding brought on behalf of the Company;
- (b) any action, including any action commenced by a member of the Company in its own name or on behalf of the Company, asserting a claim of breach of any fiduciary or other duty owed by any director, officer or other employee of the Company (including but not limited to duties arising under the Act);
- (c) any action arising out of or in connection with these Articles or otherwise in any way relating to the constitution or conduct of the Company; or
- (d) any action asserting a claim against the Company governed by the "Internal Affairs Doctrine" (as such concept is recognised under the laws of the United States of America).

143.2 Unless the Company consents in writing to the selection of an alternative forum, the federal district courts of the United States of America shall be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act or the Exchange Act.

143.3 For the avoidance of doubt, nothing contained in this Article 143 shall apply to any action or suits brought to enforce a duty or liability created by the Securities Act or the Exchange Act, or any claim for which the federal district courts of the United States of America are, as a matter of the laws of the United States, the sole and exclusive forum for determination of such a claim.

144. Winding up

144.1 If the Company is wound up, the liquidator may, with the authority of a special resolution and any other authority required by law, divide among the members in specie the whole or any part of the assets of the

Company. This applies whether the assets shall consist of property of one kind or different kinds. For this purpose, the liquidator may set such value as the liquidator considers fair on any asset or assets and may determine how to divide it between the members or different classes of members. The liquidator may, with the authority of a special resolution and any other authority required by the law, transfer all or any part of the assets to trustees on such trusts for the benefit of members as the liquidator decides. Where the liquidator divides or transfers any assets in pursuance of the powers in this Article, no member shall be required to accept any asset in respect of which there is a liability.

- 144.2 Article 144.1 is without prejudice to any right or power that the liquidator may have, in the absence of the rights expressly conferred by Article 144.1, to divide or transfer the assets in specie as contemplated in Article 144.1 without a special resolution.

WARRANT AGREEMENT
between
GORES GUGGENHEIM, INC.
and
Computershare Inc.
Computershare Trust Company, N.A.

THIS WARRANT AGREEMENT (this "**Agreement**"), dated as of March 22, 2021, is by and between Gores Guggenheim, Inc., a Delaware corporation (the "**Company**"), Computershare Inc., a Delaware corporation and Computershare Trust Company, N.A., a federally chartered trust company, collectively, as warrant agent (the "**Warrant Agent**", also referred to herein as the "**Transfer Agent**").

WHEREAS, on March 22, 2021, the Company entered into that certain Sponsor Warrants Purchase Agreement with Gores Guggenheim Sponsor LLC, a Delaware limited liability company (the "**Sponsor**"), pursuant to which the Sponsor will purchase an aggregate of 8,500,000 warrants (or up to 9,625,000 warrants if the Over-allotment Option (as defined below) in connection with the Company's Offering (as defined below) is exercised in full) simultaneously with the closing of the Offering bearing the legend set forth in Exhibit B hereto (the "**Private Placement Warrants**") at a purchase price of \$2.00 per Private Placement Warrant; and

WHEREAS, the Company is engaged in an initial public offering (the "**Offering**") of units of the Company's equity securities, each such unit comprised of one share of Common Stock (as defined below) and one-fifth of one Public Warrant (as defined below) (the "**Units**") and, in connection therewith, has determined to issue and deliver up to 17,250,000 warrants (including up to 2,250,000 warrants subject to the Over-allotment Option) to public investors in the Offering (the "**Public Warrants**" and, together with the Private Placement Warrants, the "**Warrants**"). Each whole Warrant entitles the holder thereof to purchase one share of Class A common stock of the Company, par value \$0.0001 per share ("**Common Stock**"), for \$11.50 per share, subject to adjustment as described herein; and

WHEREAS, the Company has filed with the Securities and Exchange Commission (the "**Commission**") the registration statement on Form S-1, No. 333-253338 (the "**Registration Statement**") and prospectus (the "**Prospectus**"), for the registration, under the Securities Act of 1933, as amended (the "**Securities Act**"), of the Units, the Public Warrants and the Common Stock included in the Units; and

WHEREAS, the Company desires the Warrant Agent to act on behalf of the Company, and the Warrant Agent is willing to so act, in connection with the issuance, registration, transfer, exchange, redemption and exercise of the Warrants; and

WHEREAS, the Company desires to provide for the form and provisions of the Warrants, the terms upon which they shall be issued and exercised, and the respective rights, limitation of rights, and immunities of the Company, the Warrant Agent, and the holders of the Warrants; and

WHEREAS, all acts and things have been done and performed which are necessary to make the Warrants, when executed on behalf of the Company and countersigned by or on behalf of the Warrant Agent, as provided herein, the valid, binding and legal obligations of the Company, and to authorize the execution and delivery of this Agreement.

NOW, THEREFORE, in consideration of the mutual agreements herein contained, the parties hereto agree as follows:

1. **Appointment of Warrant Agent.** The Company hereby appoints the Warrant Agent to act as agent for the Company for the Warrants, and the Warrant Agent hereby accepts such appointment and agrees to perform the same in accordance with the express terms and conditions set forth in this Agreement (and no implied terms and conditions).

2. Warrants.

2.1 Form of Warrant. Each Warrant shall be issued in registered form only.

2.2 Effect of Countersignature. If a physical certificate is issued, unless and until countersigned by the Warrant Agent pursuant to this Agreement, a Warrant shall be invalid and of no effect and may not be exercised by the holder thereof.

2.3 Registration.

2.3.1 Warrant Register. The Warrant Agent shall maintain books (the “**Warrant Register**”), for the registration of original issuance and the registration of transfer of the Warrants. Upon the initial issuance of the Warrants, the Warrant Agent shall issue and register the Warrants in the names of the respective holders thereof in such denominations and otherwise in accordance with the written instructions delivered to the Warrant Agent by the Company. Ownership of beneficial interests in the Public Warrants shall be shown on, and the transfer of such ownership shall be effected through, records maintained by institutions that have accounts with the Depository Trust Company (the “**Depository**”) (such institution, with respect to a Warrant in its account, a “**Participant**”).

If the Depository subsequently ceases to make its book-entry settlement system available for the Public Warrants, the Company may instruct the Warrant Agent regarding making other arrangements for book-entry settlement. In the event that the Public Warrants are not eligible for, or it is no longer necessary to have the Public Warrants available in, book-entry form, the Warrant Agent shall provide written instructions to the Depository to deliver to the Warrant Agent for cancellation each book-entry Public Warrant, and the Company shall instruct the Warrant Agent to deliver to the Depository definitive certificates in physical form evidencing such Warrants which shall be in the form annexed hereto as Exhibit A.

Physical certificates, if issued, shall be signed by, or bear the facsimile signature of, the Chairman of the Board, Chief Executive Officer, Chief Financial Officer, Secretary or other principal officer of the Company. In the event the person whose facsimile signature has been placed upon any Warrant shall have ceased to serve in the capacity in which such person signed the Warrant before such Warrant is issued, it may be issued with the same effect as if he or she had not ceased to be such at the date of issuance.

2.3.2 Registered Holder. Prior to due presentment for registration of transfer of any Warrant, the Company and the Warrant Agent may deem and treat the person in whose name such Warrant is registered in the Warrant Register (the “**Registered Holder**”) as the absolute owner of such Warrant and of each Warrant represented thereby (notwithstanding any notation of ownership or other writing on any physical certificate made by anyone other than the Company or the Warrant Agent), for the purpose of any exercise thereof, and for all other purposes, and neither the Company nor the Warrant Agent shall be affected by any notice to the contrary.

2.4 Detachability of Warrants. The Common Stock and Public Warrants comprising the Units shall begin separate trading on the 52nd day following the date of the Prospectus or, if such 52nd day is not on a day, other than a Saturday, Sunday or federal holiday, on which banks in New York City are generally open for normal business (a “**Business Day**”), then on the immediately succeeding Business Day following such date, or earlier (the “**Detachment Date**”) with the consent of Deutsche Bank Securities Inc., Citigroup Global Markets Inc. and Morgan Stanley & Co. LLC, on behalf of the underwriters, but in no event shall the Common Stock and the Public Warrants comprising the Units be separately traded until (A) the Company has filed a current report on Form 8-K with the Commission containing an audited balance sheet reflecting the receipt by the Company of the gross proceeds of the Offering, including the proceeds received by the Company from the exercise by the underwriters of their right to purchase additional Units in the Offering (the “**Over-allotment Option**”), if the Over-allotment Option is exercised prior to the filing of the Form 8-K, and (B) the Company issues a press release and files with the Commission a current report on Form 8-K announcing when such separate trading shall begin.

2.5 No Fractional Warrants Other Than as Part of Units. The Company shall not issue fractional Warrants other than as part of Units, each of which is comprised of one share of Common Stock and one-fifth of one Public Warrant. If, upon the detachment of Public Warrants from Units or otherwise, a holder of Warrants would be entitled to receive a fractional Warrant, the Company shall round down to the nearest whole number the number of Warrants to be issued to such holder.

2.6 Private Placement Warrants. The Private Placement Warrants shall be identical to the Public Warrants, except that so long as they are held by the Sponsor or any of its Permitted Transferees (as defined below) the Private Placement Warrants: (i) may be exercised for cash or on a cashless basis, pursuant to subsection 3.3.1(c) hereof, (ii) may not be transferred, assigned or sold until thirty (30) days after the completion by the Company of an initial Business Combination (as defined below), and (iii) shall not be redeemable by the Company pursuant to Section 6.1 hereof; provided, however, that in the case of (ii), the Private Placement Warrants and any shares of Common Stock held by the Sponsor or any of its Permitted Transferees and issued upon exercise of the Private Placement Warrants may be transferred by the holders thereof:

- (a) to the Company's officers or directors, any affiliates or family members of any of the Company's officers or directors, any members of the Sponsor, or any affiliates of the Sponsor;
- (b) in the case of an individual, by gift to a member of one of the individual's immediate family or to a trust, the beneficiary of which is a member of one of the individual's immediate family, an affiliate of such person or to a charitable organization;
- (c) in the case of an individual, by virtue of the laws of descent and distribution upon death of the individual;
- (d) in the case of an individual, pursuant to a qualified domestic relations order;
- (e) by private sales or transfers made in connection with the consummation of the Company's initial Business Combination at prices no greater than the price at which the Warrants were originally purchased;
- (f) in the event of the Company's liquidation prior to the completion of the Company's initial Business Combination; or
- (g) by virtue of the laws of Delaware or the Sponsor's limited liability company agreement upon dissolution of the Sponsor; or
- (h) in the event of the Company's liquidation, merger, capital stock exchange, reorganization or other similar transaction which results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property subsequent to the completion of the Company's initial Business Combination;

provided, however, that in the case of clauses (a) through (e), these permitted transferees (the "**Permitted Transferees**") must enter into a written agreement agreeing to be bound by these transfer restrictions.

3. Terms and Exercise of Warrants.

3.1 Warrant Price. Each Warrant shall, when countersigned by the Warrant Agent, entitle the Registered Holder thereof, subject to the provisions of such Warrant and of this Agreement, to purchase from the Company the number of shares of Common Stock stated therein, at the price of \$11.50 per share, subject to the adjustments provided in Section 4 hereof and in the last sentence of this Section 3.1. The term "Warrant Price" as used in this Agreement shall mean the price per share at which shares of Common Stock may be purchased at the time a Warrant is exercised. The Company in its sole discretion may lower the Warrant Price at any time prior to the Expiration Date (as defined below) for a period of not less than twenty (20) Business Days, provided, that the Company shall provide at least three (3) Business Days prior written notice of such reduction to Registered Holders of the Warrants and, provided further that any such reduction shall be identical among all of the Warrants.

3.2 Duration of Warrants. A Warrant may be exercised only during the period (the “**Exercise Period**”) commencing on the later of: (i) the date that is thirty (30) days after the first date on which the Company completes a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination, involving the Company and one or more businesses (a “**Business Combination**”), or (ii) the date that is twelve (12) months from the date of the closing of the Offering, and terminating at 5:00 p.m., New York City time on the earlier to occur of: (x) the date that is five (5) years after the date on which the Company completes its Business Combination, (y) the liquidation of the Company if the Company fails to complete a Business Combination, or (z) other than with respect to the Private Placement Warrants then held by the Sponsor or any Permitted Transferees with respect to a redemption pursuant to Section 6.1 hereof, the Redemption Date (as defined below) as provided in [Section 6.3](#) hereof (the “**Expiration Date**”); provided, however, that the exercise of any Warrant shall be subject to the satisfaction of any applicable conditions, as set forth in [subsection 3.3.2](#) below with respect to an effective registration statement. Except with respect to the right to receive the Redemption Price (as defined below) (other than with respect to a Private Placement Warrant then held by the Sponsor or any Permitted Transferees with respect to a redemption pursuant to Section 6.1 hereof) in the event of a redemption (as set forth in [Section 6](#) hereof), each Warrant (other than a Private Placement Warrant then held by the Sponsor or any Permitted Transferees with respect to a redemption pursuant to Section 6.1 hereof) not exercised on or before the Expiration Date shall become void, and all rights thereunder and all rights in respect thereof under this Agreement shall cease at 5:00 p.m. New York City time on the Expiration Date. The Company in its sole discretion may extend the duration of the Warrants by delaying the Expiration Date; provided, that the Company shall provide at least twenty (20) days prior written notice of any such extension to Registered Holders of the Warrants and, provided further that any such extension shall be identical in duration among all the Warrants. The Company shall promptly notify the Warrant Agent in writing of such extension.

3.3 Exercise of Warrants.

3.3.1 Payment. Subject to the provisions of the Warrant and this Agreement, a Warrant, when countersigned by the Warrant Agent, may be exercised by the Registered Holder thereof by surrendering it, at the office of the Warrant Agent designated for such purposes, or at the office of its successor as Warrant Agent, with the subscription form, as set forth in the Warrant, duly executed, and by paying in full the Warrant Price for each full share of Common Stock as to which the Warrant is exercised and any and all applicable taxes due in connection with the exercise of the Warrant, the exchange of the Warrant for the shares of Common Stock and the issuance of such shares of Common Stock, as follows:

(a) in lawful money of the United States, in good certified check or good bank draft payable to the Warrant Agent;

(b) in the event of a redemption pursuant to [Section 6](#) hereof in which the Company’s board of directors (the “**Board**”) has elected to require all holders of the Warrants to exercise such Warrants on a “cashless basis,” by surrendering the Warrants for that number of shares of Common Stock equal to the quotient obtained by dividing (x) the product of the number of shares of Common Stock underlying the Warrants, multiplied by the difference between the Warrant Price and the “Fair Market Value”, as defined in this [subsection 3.3.1\(b\)](#) by (y) the Fair Market Value. Solely for purposes of this [subsection 3.3.1\(b\)](#), [Section 6.2](#) and [Section 6.4](#), the “Fair Market Value” shall mean the average last sale price of the Common Stock for the ten (10) trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of the Warrants, pursuant to [Section 6](#) hereof;

(c) with respect to any Private Placement Warrant, so long as such Private Placement Warrant is held by the Sponsor or a Permitted Transferee, by surrendering the Warrants for that number of shares of Common Stock equal to the quotient obtained by dividing (x) the product of the number of shares of Common Stock underlying the Warrants, multiplied by the difference between the Warrant Price and the “Fair Market Value”, as defined in this [subsection 3.3.1\(c\)](#), by (y) the Fair Market Value. Solely for purposes of this [subsection 3.3.1\(c\)](#), the “Fair Market Value” shall mean the average last sale price of the Common Stock for the ten (10) trading days ending on the third trading day prior to the date on which notice of exercise of the Warrant is sent to the Warrant Agent; or

(d) as provided in [Section 7.4](#) hereof.

3.3.2 **Issuance of Shares of Common Stock on Exercise.** As soon as practicable after the exercise of any Warrant and the clearance of the funds in payment of the Warrant Price (if payment is pursuant to [subsection 3.3.1\(a\)](#)), the Company shall issue to the Registered Holder of such Warrant a book-entry position or certificate, as applicable, for the number of full shares of Common Stock to which he, she or it is entitled, registered in such name or names as may be directed by him, her or it, and if such Warrant shall not have been exercised in full, a new book-entry position or countersigned Warrant, as applicable, for the number of shares of Common Stock as to which such Warrant shall not have been exercised. Notwithstanding the foregoing, the Company shall not be obligated to deliver any shares of Common Stock pursuant to the exercise of a Warrant and shall have no obligation to settle such Warrant exercise unless a registration statement under the Securities Act with respect to the shares of Common Stock underlying the Public Warrants is then effective and a prospectus relating thereto is current, subject to the Company's satisfying its obligations under [Section 7.4](#). No Warrant shall be exercisable and the Company shall not be obligated to issue shares of Common Stock upon exercise of a Warrant unless the Common Stock issuable upon such Warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the Registered Holder of the Warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a Warrant, the holder of such Warrant shall not be entitled to exercise such Warrant and such Warrant may have no value and expire worthless, in which case the purchaser of a Unit containing such Public Warrants shall have paid the full purchase price for the Unit solely for the shares of Common Stock underlying such Unit. The Company may require holders of Public Warrants to settle the Warrant on a "cashless basis" pursuant to [Section 7.4](#). If, by reason of any exercise of Warrants on a "cashless basis", the holder of any Warrant would be entitled, upon the exercise of such Warrant, to receive a fractional interest in a share of Common Stock, the Company shall round down to the nearest whole number, the number of shares of Common Stock to be issued to such holder.

3.3.3 **Valid Issuance.** All shares of Common Stock issued upon the proper exercise of a Warrant in conformity with this Agreement shall be validly issued, fully paid and non-assessable.

3.3.4 **Date of Issuance.** Each person in whose name any book-entry position or certificate, as applicable, for shares of Common Stock is issued shall for all purposes be deemed to have become the holder of record of such shares of Common Stock on the date on which the Warrant, or book-entry position representing such Warrant, was surrendered and payment of the Warrant Price was made, irrespective of the date of delivery of such certificate in the case of a certificated Warrant, except that, if the date of such surrender and payment is a date when the share transfer books of the Company or book-entry system of the Warrant Agent are closed, such person shall be deemed to have become the holder of such shares of Common Stock at the close of business on the next succeeding date on which the share transfer books or book-entry system are open.

3.3.5 **Maximum Percentage.** A holder of a Warrant may notify the Company in writing in the event it elects to be subject to the provisions contained in this [subsection 3.3.5](#); however, no holder of a Warrant shall be subject to this [subsection 3.3.5](#) unless he, she or it makes such election. If the election is made by a holder, the Warrant Agent shall not effect the exercise of the holder's Warrant, and such holder shall not have the right to exercise such Warrant, to the extent that after giving effect to such exercise, such person (together with such person's affiliates), to the Warrant Agent's actual knowledge (without further investigation or inquiry), would beneficially own in excess of 9.8% (the "**Maximum Percentage**") of the shares of Common Stock outstanding immediately after giving effect to such exercise. For purposes of the foregoing sentence, the aggregate number of shares of Common Stock beneficially owned by such person and its affiliates shall include the number of shares of Common Stock issuable upon exercise of the Warrant with respect to which the determination of such sentence is being made, but shall exclude shares of Common Stock that would be issuable upon (x) exercise of the remaining, unexercised portion of the Warrant beneficially owned by such person and its affiliates and (y) exercise or conversion of the unexercised or unconverted portion of any other securities of the Company beneficially owned by such

person and its affiliates (including, without limitation, any convertible notes or convertible preferred stock or warrants) subject to a limitation on conversion or exercise analogous to the limitation contained herein. Except as set forth in the preceding sentence, for purposes of this paragraph, beneficial ownership shall be calculated in accordance with Section 13(d) of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”). For purposes of the Warrant, in determining the number of outstanding shares of Common Stock, the holder may rely on the number of outstanding shares of Common Stock as reflected in (1) the Company’s most recent annual report on Form 10-K, quarterly report on Form 10-Q, current report on Form 8-K or other public filing with the Commission as the case may be, (2) a more recent public announcement by the Company or (3) any other notice by the Company or the Transfer Agent setting forth the number of shares of Common Stock outstanding. For any reason at any time, upon the written request of the holder of the Warrant, the Company shall, within two (2) Business Days, confirm orally and in writing to such holder the number of shares of Common Stock then outstanding. In any case, the number of outstanding shares of Common Stock shall be determined after giving effect to the conversion or exercise of equity securities of the Company by the holder and its affiliates since the date as of which such number of outstanding shares of Common Stock was reported. By written notice to the Company, the holder of a Warrant may from time to time increase or decrease the Maximum Percentage applicable to such holder to any other percentage specified in such notice; provided, however, that any such increase shall not be effective until the sixty-first (61st) day after such notice is delivered to the Company.

4. Adjustments.

4.1 Stock Dividends.

4.1.1 Split-Ups. If after the date hereof, and subject to the provisions of Section 4.6 below, the number of outstanding shares of Common Stock is increased by a stock dividend payable in shares of Common Stock, or by a split-up of shares of Common Stock or other similar event, then, on the effective date of such stock dividend, split-up or similar event, the number of shares of Common Stock issuable on exercise of each Warrant shall be increased in proportion to such increase in the outstanding shares of Common Stock. A rights offering to holders of the Common Stock entitling holders to purchase shares of Common Stock at a price less than the “Fair Market Value” (as defined below) shall be deemed a stock dividend of a number of shares of Common Stock equal to the product of (i) the number of shares of Common Stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for the Common Stock) multiplied by (ii) one (1) minus the quotient of (x) the price per share of Common Stock paid in such rights offering divided by (y) the Fair Market Value. For purposes of this subsection 4.1.1, (i) if the rights offering is for securities convertible into or exercisable for Common Stock, in determining the price payable for Common Stock, there shall be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) “Fair Market Value” means the volume weighted average price of the Common Stock as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the shares of Common Stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

4.1.2 Extraordinary Dividends. If the Company, at any time while the Warrants are outstanding and unexpired, shall pay a dividend or make a distribution in cash, securities or other assets to the holders of the Common Stock on account of such shares of Common Stock (or other shares of the Company’s capital stock into which the Warrants are convertible), other than (a) as described in subsection 4.1.1 above, (b) Ordinary Cash Dividends (as defined below), (c) to satisfy the redemption rights of the holders of the Common Stock in connection with a proposed initial Business Combination, (d) to satisfy the redemption rights of the holders of Common Stock in connection with a stockholder vote to amend the Company’s amended and restated certificate of incorporation to modify the substance or timing of the Company’s obligation to redeem 100% of Common Stock if the Company does not complete the Business Combination within 24 months from the closing of the Offering, or (e) in connection with the redemption of public shares upon the failure of the Company to complete its initial Business Combination and any subsequent distribution of its

assets upon its liquidation (any such non-excluded event being referred to herein as an *“Extraordinary Dividend”*), then the Warrant Price shall be decreased, effective immediately after the effective date of such Extraordinary Dividend, by the amount of cash and/or the fair market value (as determined by the Board, in good faith) of any securities or other assets paid on each share of Common Stock in respect of such Extraordinary Dividend. For purposes of this [subsection 4.1.2](#), *“Ordinary Cash Dividends”* means any cash dividend or cash distribution which, when combined on a per share basis, with the per share amounts of all other cash dividends and cash distributions paid on the Common Stock during the 365-day period ending on the date of declaration of such dividend or distribution (as adjusted to appropriately reflect any of the events referred to in other subsections of this [Section 4](#) and excluding cash dividends or cash distributions that resulted in an adjustment to the Warrant Price or to the number of shares of Common Stock issuable on exercise of each Warrant) does not exceed \$0.50 (being 5% of the offering price of the Units in the Offering).

4.2 [Aggregation of Shares](#). If after the date hereof, and subject to the provisions of [Section 4.6](#) hereof, the number of outstanding shares of Common Stock is decreased by a consolidation, combination, reverse stock split or reclassification of shares of Common Stock or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar event, the number of shares of Common Stock issuable on exercise of each Warrant shall be decreased in proportion to such decrease in outstanding shares of Common Stock.

4.3 [Adjustments in Exercise Price](#). Whenever the number of shares of Common Stock purchasable upon the exercise of the Warrants is adjusted, as provided in [subsection 4.1.1](#) or [Section 4.2](#) above, the Warrant Price shall be adjusted (to the nearest cent) by multiplying such Warrant Price immediately prior to such adjustment by a fraction (x) the numerator of which shall be the number of shares of Common Stock purchasable upon the exercise of the Warrants immediately prior to such adjustment, and (y) the denominator of which shall be the number of shares of Common Stock so purchasable immediately thereafter.

4.4 [Replacement of Securities upon Reorganization, etc.](#) In case of any reclassification or reorganization of the outstanding shares of Common Stock (other than a change under [subsections 4.1.1](#) or [4.1.2](#) or [Section 4.2](#) hereof or that solely affects the par value of such shares of Common Stock), or in the case of any merger or consolidation of the Company with or into another corporation (other than a consolidation or merger in which the Company is the continuing corporation and that does not result in any reclassification or reorganization of the outstanding shares of Common Stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of the Company as an entirety or substantially as an entirety in connection with which the Company is dissolved, the holders of the Warrants shall thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the Warrants and in lieu of the shares of Common Stock of the Company immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the Warrants would have received if such holder had exercised his, her or its Warrant(s) immediately prior to such event (the *“Alternative Issuance”*); provided, however, that (i) if the holders of the Common Stock were entitled to exercise a right of election as to the kind or amount of securities, cash or other assets receivable upon such consolidation or merger, then the kind and amount of securities, cash or other assets constituting the Alternative Issuance for which each Warrant shall become exercisable shall be deemed to be the weighted average of the kind and amount received per share by the holders of the Common Stock in such consolidation or merger that affirmatively make such election, and (ii) if a tender, exchange or redemption offer shall have been made to and accepted by the holders of the Common Stock (other than a tender, exchange or redemption offer made by the Company in connection with redemption rights held by stockholders of the Company as provided for in the Company’s amended and restated certificate of incorporation or as a result of the repurchase of shares of Common Stock by the Company if a proposed initial Business Combination is presented to the stockholders of the Company for approval) under circumstances in which, upon completion of such tender or exchange offer, the maker thereof, together with members of any group (within the meaning of Rule 13d-5(b)(1) under the Exchange Act (or any successor rule)) of which such maker is a part, and

together with any affiliate or associate of such maker (within the meaning of Rule 12b-2 under the Exchange Act (or any successor rule)) and any members of any such group of which any such affiliate or associate is a part, own beneficially (within the meaning of Rule 13d-3 under the Exchange Act (or any successor rule)) more than 50% of the outstanding shares of Common Stock, the holder of a Warrant shall be entitled to receive as the Alternative Issuance, the highest amount of cash, securities or other property to which such holder would actually have been entitled as a stockholder if such Warrant holder had exercised the Warrant prior to the expiration of such tender or exchange offer, accepted such offer and all of the Common Stock held by such holder had been purchased pursuant to such tender or exchange offer, subject to adjustments (from and after the consummation of such tender or exchange offer) as nearly equivalent as possible to the adjustments provided for in this [Section 4](#); provided, further, that if less than 70% of the consideration receivable by the holders of the Common Stock in the applicable event is payable in the form of common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the Registered Holder properly exercises the Warrant within thirty (30) days following the public disclosure of the consummation of such applicable event by the Company pursuant to a Current Report on Form 8-K filed with the Commission, the Warrant Price shall be reduced by an amount (in dollars) equal to the difference of (i) the Warrant Price in effect prior to such reduction minus (ii) (A) the Per Share Consideration (as defined below) (but in no event less than zero) minus (B) the Black-Scholes Warrant Value (as defined below). The “**Black-Scholes Warrant Value**” means the value of a Warrant immediately prior to the consummation of the applicable event based on the Black-Scholes Warrant Model for a Capped American Call on Bloomberg Financial Markets (“**Bloomberg**”). For purposes of calculating such amount, (1) [Section 6](#) of this Agreement shall be taken into account, (2) the price of each share of Common Stock shall be the volume weighted average price of the Common Stock as reported during the ten (10) trading day period ending on the trading day prior to the effective date of the applicable event, (3) the assumed volatility shall be the 90 day volatility obtained from the HVT function on Bloomberg determined as of the trading day immediately prior to the day of the announcement of the applicable event, and (4) the assumed risk-free interest rate shall correspond to the U.S. Treasury rate for a period equal to the remaining term of the Warrant. “**Per Share Consideration**” means (i) if the consideration paid to holders of the Common Stock consists exclusively of cash, the amount of such cash per share of Common Stock, and (ii) in all other cases, the volume weighted average price of the Common Stock as reported during the ten (10) trading day period ending on the trading day prior to the effective date of the applicable event. If any reclassification or reorganization also results in a change in shares of Common Stock covered by [subsection 4.1.1](#), then such adjustment shall be made pursuant to [subsection 4.1.1](#) or [Sections 4.2, 4.3](#) and this [Section 4.4](#). The provisions of this [Section 4.4](#) shall similarly apply to successive reclassifications, reorganizations, mergers or consolidations, sales or other transfers. In no event will the Warrant Price be reduced to less than the par value per share issuable upon exercise of the Warrant.

4.5 [Notices of Changes in Warrant](#). Upon every adjustment of the Warrant Price or the number of shares of Common Stock issuable upon exercise of a Warrant, the Company shall give written notice thereof to the Warrant Agent, which notice shall state the Warrant Price resulting from such adjustment and the increase or decrease, if any, in the number of shares of Common Stock purchasable at such price upon the exercise of a Warrant, setting forth in reasonable detail the method of calculation and the facts upon which such calculation is based. Upon the occurrence of any event specified in [Sections 4.1, 4.2, 4.3](#) or [4.4](#), the Company shall give written notice of the occurrence of such event to each holder of a Warrant, at the last address set forth for such holder in the Warrant Register, of the record date or the effective date of the event. Failure to give such notice, or any defect therein, shall not affect the legality or validity of such event.

4.6 [No Fractional Shares](#). Notwithstanding any provision contained in this Agreement to the contrary, the Company shall not issue fractional shares of Common Stock upon the exercise of Warrants. If, by reason of any adjustment made pursuant to this [Section 4](#), the holder of any Warrant would be entitled, upon the exercise of such Warrant, to receive a fractional interest in a share, the Company shall, upon such exercise, round down to the nearest whole number the number of shares of Common Stock to be issued to such holder.

4.7 [Form of Warrant](#). The form of Warrant need not be changed because of any adjustment pursuant to this [Section 4](#), and Warrants issued after such adjustment may state the same Warrant Price and the same number of

shares of Common Stock as is stated in the Warrants initially issued pursuant to this Agreement; provided, however, that the Company may at any time in its sole discretion make any change in the form of Warrant that the Company may deem appropriate and that does not affect the substance thereof or the rights, duties, obligations or immunities of the Warrant Agent, without the Warrant Agent's prior written consent, and any Warrant thereafter issued or countersigned, whether in exchange or substitution for an outstanding Warrant or otherwise, may be in the form as so changed.

4.8 Other Events. In case any event shall occur affecting the Company as to which none of the provisions of preceding subsections of this Section 4 are strictly applicable, but which would require an adjustment to the terms of the Warrants in order to (i) avoid an adverse impact on the Warrants and (ii) effectuate the intent and purpose of this Section 4, then, in each such case, the Company shall appoint a firm of independent public accountants, investment banking or other appraisal firm of recognized national standing, which shall give its opinion as to whether or not any adjustment to the rights represented by the Warrants is necessary to effectuate the intent and purpose of this Section 4 and, if they determine that an adjustment is necessary, the terms of such adjustment. The Company shall adjust the terms of the Warrants in a manner that is consistent with any adjustment recommended in such opinion.

5. Transfer and Exchange of Warrants.

5.1 Registration of Transfer. The Warrant Agent shall register the transfer, from time to time, of any outstanding Warrant upon the Warrant Register, upon surrender of such Warrant for transfer, properly endorsed with signatures properly guaranteed by an eligible guarantor institution participating in a signature guarantee program approved by the Securities Transfer Association and accompanied by appropriate instructions for transfer. Upon any such transfer, a new Warrant representing an equal aggregate number of Warrants shall be issued and the old Warrant shall be cancelled by the Warrant Agent. The Warrants so cancelled shall be delivered by the Warrant Agent to the Company from time to time upon request.

5.2 Procedure for Surrender of Warrants. Warrants may be surrendered to the Warrant Agent, together with a written request for exchange or transfer, and thereupon the Warrant Agent shall issue in exchange therefor one or more new Warrants as requested by the Registered Holder of the Warrants so surrendered, representing an equal aggregate number of Warrants; provided, however, that in the event that a Warrant surrendered for transfer bears a restrictive legend (as in the case of the Private Placement Warrants), the Warrant Agent shall not cancel such Warrant and issue new Warrants in exchange thereof until the Warrant Agent has received an opinion of counsel for the Company stating that such transfer may be made and indicating whether the new Warrants must also bear a restrictive legend.

5.3 Fractional Warrants. The Warrant Agent shall not be required to effect any registration of transfer or exchange which shall result in the issuance of a warrant certificate or book-entry position for a fraction of a warrant, except as part of the Units.

5.4 Service Charges. No service charge shall be made for any exchange or registration of transfer of Warrants.

5.5 Warrant Execution and Countersignature. The Warrant Agent is hereby authorized to countersign (in manual or facsimile form) and to deliver, in accordance with the terms of this Agreement, the Warrants required to be issued pursuant to the provisions of this Section 5, and the Company, whenever required by the Warrant Agent, shall supply the Warrant Agent with Warrants duly executed on behalf of the Company for such purpose.

5.6 Transfer of Warrants. Prior to the Detachment Date, the Public Warrants may be transferred or exchanged only together with the Unit in which such Warrant is included, and only for the purpose of effecting, or in conjunction with, a transfer or exchange of such Unit. Furthermore, each transfer of a Unit on the register relating to such Units shall operate also to transfer the Warrants included in such Unit. Notwithstanding the foregoing, the provisions of this Section 5.6 shall have no effect on any transfer of Warrants on and after the Detachment Date.

6. Redemption.

6.1 Redemption of Warrants for Cash. Subject to Sections 6.5 and 6.6 hereof, not less than all of the outstanding Warrants may be redeemed, at the option of the Company, at any time while they are exercisable and prior to their expiration, at the office of the Warrant Agent, upon notice to the Registered Holders of the Warrants, as described in Section 6.3 below, at the price of \$0.01 per Warrant (the “Redemption Price”), provided that the last sales price of the Common Stock reported has been at least \$18.00 per share (subject to adjustment in compliance with Section 4 hereof), on each of twenty (20) trading days within the thirty (30) trading-day period ending on the third Business Day prior to the date on which notice of the redemption is given and provided that there is an effective registration statement covering the shares of Common Stock issuable upon exercise of the Warrants, and a current prospectus relating thereto, available throughout the 30-day Redemption Period (as defined in Section 6.3 below) or the Company has elected to require the exercise of the Warrants on a “cashless basis” pursuant to subsection 3.3.1.

6.2 Redemption of Warrants for Common Stock. Subject to Sections 6.5 and 6.6 hereof, not less than all of the outstanding Warrants may be redeemed, at the option of the Company, ninety (90) days after they are first exercisable and prior to their expiration, at the office of the Warrant Agent, upon notice to the Registered Holders of the Warrants, as described in Section 6.3 below, at a price equal to a number of shares of Common Stock determined by reference to the table below, based on the redemption date (calculated for purposes of the table as the period to expiration of the Warrants) and the “Fair Market Value” (as such term is defined in subsection 3.3.1(b)) (the “Alternative Redemption Price”), provided (i) that the last sales price of the Common Stock reported has been at least \$10.00 per share (subject to adjustment in compliance with Section 4 hereof), on the trading day prior to the date on which notice of the redemption is given, (ii) the Private Placement Warrants are also concurrently exchanged at the same price (equal to a number of shares of Common Stock) as the outstanding Public Warrants and (iii) there is an effective registration statement covering the Common Stock issuable upon exercise of the Warrants, and a current prospectus relating thereto, available throughout the 30-day Redemption Period (as defined in Section 6.3 below) or the Company has elected to require the exercise of the Warrants on a “cashless basis” pursuant to subsection 3.3.1.

The exact Fair Market Value and Redemption Date (as defined below) may not be set forth in the table above, in which case, if the Fair Market Value is between two values in the table or the Redemption Date is between two redemption dates in the table, the number of Common Stock to be issued for each Warrant redeemed will be determined by a straight-line interpolation between the number of shares set forth for the higher and lower Fair Market Values and the earlier and later redemption dates, as applicable, based on a 365- or 366-day year, as applicable.

The stock prices set forth in the column headings of the table above shall be adjusted as of any date on which the number of shares issuable upon exercise of a Warrant is adjusted pursuant to [Section 4](#). The adjusted stock prices in the column headings shall equal the stock prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the number of shares deliverable upon exercise of a Warrant immediately prior to such adjustment and the denominator of which is the number of shares deliverable upon exercise of a Warrant as so adjusted. The number of shares in the table above shall be adjusted in the same manner and at the same time as the number of shares issuable upon exercise of a Warrant.

6.3 Date Fixed for, and Notice of, Redemption. In the event that the Company elects to redeem all of the Warrants pursuant to [Section 6.1](#) or [Section 6.2](#), the Company shall fix a date for the redemption (the “**Redemption Date**”). In the event that the Company elects to redeem all of the Warrants pursuant to [Section 6.2](#), the Company shall fix a date for redemption (the “**Alternative Redemption Date**”). Notice of redemption shall be mailed by first class mail, postage prepaid, by the Company not less than thirty (30) days prior to the Redemption Date (the “**30-day Redemption Period**”) to the Registered Holders of the Warrants to be redeemed at their last addresses as they shall appear on the registration books. Any notice mailed in the manner herein provided shall be conclusively presumed to have been duly given whether or not the Registered Holder received such notice.

6.4 Exercise After Notice of Redemption. The Warrants may be exercised, for cash (or on a “cashless basis” in accordance with [subsection 3.3.1\(b\)](#) of this Agreement) at any time after notice of redemption shall have been given by the Company pursuant to [Section 6.3](#) hereof and prior to the Redemption Date or the Alternative Redemption Date. In the event that the Company determines to require all holders of Warrants to exercise their Warrants on a “cashless basis” pursuant to [subsection 3.3.1](#), the notice of redemption shall contain the information necessary to calculate the number of shares of Common Stock to be received upon exercise of the Warrants, including the “Fair Market Value” (as such term is defined in [subsection 3.3.1\(b\)](#) hereof) in such case. On and after the Redemption Date or the Alternative Redemption Price, as applicable, the record holder of the Warrants shall have no further rights except to receive, upon surrender of the Warrants, the Redemption Price or the Alternative Redemption Price, as applicable.

6.5 Exclusion of Private Placement Warrants. The Company agrees that the redemption rights provided in [Section 6.1](#) shall not apply to the Private Placement Warrants if at the time of the redemption such Private Placement Warrants continue to be held by the Sponsor or its Permitted Transferees. **However**, once such Private Placement Warrants are transferred (other than to Permitted Transferees under [Section 2.5](#)), the Company may redeem the Private Placement Warrants pursuant to [Section 6.1](#) hereof, provided that the criteria for redemption are met, including the opportunity of the holder of such Private Placement Warrants to exercise the Private Placement Warrants prior to redemption pursuant to [Section 6.4](#). Private Placement Warrants that are transferred to persons other than Permitted Transferees shall upon such transfer cease to be Private Placement Warrants and shall become Public Warrants under this Agreement.

6.6 Public Warrants held by the Company’s officers or directors. The Company agrees that if Public Warrants are held by any of the Company’s officers or directors, the Public Warrants held by such officers and directors will be subject to the redemption rights provided in [Section 6.2](#), except that such officers and directors shall only receive “**Fair Market Value**” (“Fair Market Value” in this [Section 6.6](#) shall mean the last sale price of the Public Warrants on the Alternative Redemption Date) for such Public Warrants so redeemed.

7. Other Provisions Relating to Rights of Holders of Warrants.

7.1 No Rights as Stockholder. A Warrant does not entitle the Registered Holder thereof to any of the rights of a stockholder of the Company, including, without limitation, the right to receive dividends, or other

distributions, exercise any preemptive rights to vote or to consent or to receive notice as stockholders in respect of the meetings of stockholders or the election of directors of the Company or any other matter.

7.2 Lost, Stolen, Mutilated, or Destroyed Warrants. If any Warrant is lost, stolen, mutilated, or destroyed, the Company and the Warrant Agent may on such terms as to indemnity satisfactory to each of them or otherwise as they may in their discretion impose (which shall, in the case of a mutilated Warrant, include the surrender thereof), issue a new Warrant of like denomination, tenor, and date as the Warrant so lost, stolen, mutilated, or destroyed. Any such new Warrant shall constitute a substitute contractual obligation of the Company, whether or not the allegedly lost, stolen, mutilated, or destroyed Warrant shall be at any time enforceable by anyone.

7.3 Reservation of Common Stock. The Company shall at all times reserve and keep available a number of its authorized but unissued shares of Common Stock that shall be sufficient to permit the exercise in full of all outstanding Warrants issued pursuant to this Agreement.

7.4 Registration of Common Stock; Cashless Exercise at Company's Option.

7.4.1 Registration of the Common Stock. The Company agrees that as soon as practicable, but in no event later than fifteen (15) Business Days after the closing of its initial Business Combination, it shall use its commercially reasonable efforts to file with the Commission a registration statement for the registration, under the Securities Act, of the shares of Common Stock issuable upon exercise of the Warrants. The Company shall use its best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the Warrants in accordance with the provisions of this Agreement. If any such registration statement has not been declared effective by the 60th Business Day following the closing of the Business Combination, holders of the Warrants shall have the right, during the period beginning on the 61st Business Day after the closing of the Business Combination and ending upon such registration statement being declared effective by the Commission, and during any other period when the Company shall fail to have maintained an effective registration statement covering the shares of Common Stock issuable upon exercise of the Warrants, to exercise such Warrants on a "cashless basis," by exchanging the Warrants (in accordance with Section 3(a)(9) of the Securities Act (or any successor rule) or another exemption) for that number of shares of Common Stock equal to the quotient obtained by dividing (x) the product of the number of shares of Common Stock underlying the Warrants, multiplied by the difference between the Warrant Price and the "Fair Market Value" (as defined below) by (y) the Fair Market Value. Solely for purposes of this subsection 7.4.1, "Fair Market Value" shall mean the volume weighted average price of the Common Stock as reported during the ten (10) trading day period ending on the trading day prior to the date that notice of exercise is received by the Warrant Agent from the holder of such Warrants or its securities broker or intermediary. The date that notice of cashless exercise is received by the Warrant Agent shall be conclusively determined by the Warrant Agent. In connection with the "cashless exercise" of a Public Warrant, the Company shall, upon request, provide the Warrant Agent with an opinion of counsel for the Company (which shall be an outside law firm satisfactory to the Warrant Agent with securities law experience) stating that (i) the exercise of the Warrants on a cashless basis in accordance with this subsection 7.4.1 is not required to be registered under the Securities Act and (ii) the shares of Common Stock issued upon such exercise shall be freely tradable under United States federal securities laws by anyone who is not an affiliate (as such term is defined in Rule 144 under the Securities Act (or any successor rule)) of the Company and, accordingly, shall not be required to bear a restrictive legend. Except as provided in subsection 7.4.2, for the avoidance of any doubt, unless and until all of the Warrants have been exercised, the Company shall continue to be obligated to comply with its registration obligations under the first three sentences of this subsection 7.4.1.

7.4.2 Cashless Exercise at Company's Option. If the Common Stock is at the time of any exercise of a Warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act (or any successor rule), the Company may, at its option, (i) require holders of Public Warrants who exercise Public Warrants to exercise such Public Warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act (or any successor rule) as described in subsection 7.4.1 and (ii) in the event the Company so elects, the Company shall (x) not

be required to file or maintain in effect a registration statement for the registration, under the Securities Act, of the Common Stock issuable upon exercise of the Warrants, notwithstanding anything in this Agreement to the contrary, and (y) use its best efforts to register the Common Stock issuable upon exercise of the Public Warrant under the blue sky laws of the state of residence of the exercising Public Warrant holder to the extent an exemption is not available.

8. Concerning the Warrant Agent and Other Matters.

8.1 Payment of Taxes. The Company shall from time to time promptly pay all taxes and charges that may be imposed upon the Company or the Warrant Agent in respect of the issuance or delivery of shares of Common Stock upon the exercise of the Warrants, but the Company and the Warrant Agent shall not be obligated to pay any transfer taxes in respect of the Warrants or such shares of Common Stock. The Warrant Agent shall not have any duty or obligation to take any action under any section of this Agreement that requires the payment of taxes and/or charges unless and until it is satisfied that all such payments have been made.

8.2 Resignation, Consolidation, or Merger of Warrant Agent.

8.2.1 Appointment of Successor Warrant Agent. The Warrant Agent, or any successor to it hereafter appointed, may resign its duties and be discharged from all further duties and liabilities hereunder after giving thirty (30) days' notice in writing to the Company. If the office of the Warrant Agent becomes vacant by resignation or incapacity to act or otherwise, the Company shall appoint in writing a successor Warrant Agent in place of the Warrant Agent. If the Company shall fail to make such appointment within a period of thirty (30) days after it has been notified in writing of such resignation or incapacity by the Warrant Agent or by the holder of a Warrant (who shall, with such notice, submit his Warrant for inspection by the Company), then the holder of any Warrant may apply to the Supreme Court of the State of New York for the County of New York for the appointment of a successor Warrant Agent at the Company's cost. Any successor Warrant Agent, whether appointed by the Company or by such court, shall be a corporation organized and existing under the laws of the State of New York, in good standing and having its principal office in the Borough of Manhattan, City and State of New York, and authorized under the laws of the United States to exercise corporate trust powers and subject to supervision or examination by federal or state authority. After appointment, any successor Warrant Agent shall be vested with all the authority, powers, rights, immunities, duties, and obligations of its predecessor Warrant Agent with like effect as if originally named as Warrant Agent hereunder, without any further act or deed; but if for any reason it becomes necessary or appropriate, the predecessor Warrant Agent shall execute and deliver, at the expense of the Company, an instrument transferring to such successor Warrant Agent all the authority, powers, and rights of such predecessor Warrant Agent hereunder; and upon request of any successor Warrant Agent the Company shall make, execute, acknowledge, and deliver any and all instruments in writing for more fully and effectually vesting in and confirming to such successor Warrant Agent all such authority, powers, rights, immunities, duties, and obligations.

8.2.2 Notice of Successor Warrant Agent. In the event a successor Warrant Agent shall be appointed, the Company shall give notice thereof to the predecessor Warrant Agent and the Transfer Agent for the Common Stock not later than the effective date of any such appointment.

8.2.3 Merger or Consolidation of Warrant Agent. Any corporation or other entity into which the Warrant Agent may be merged or with which it may be consolidated or any corporation or other entity resulting from any merger or consolidation to which the Warrant Agent shall be a party shall be the successor Warrant Agent under this Agreement without any further act.

8.3 Fees and Expenses of Warrant Agent.

8.3.1 Remuneration. The Company agrees to pay the Warrant Agent reasonable remuneration for its services as such Warrant Agent hereunder in accordance with a fee schedule to be mutually agreed upon and shall, pursuant to its obligations under this Agreement, reimburse the Warrant Agent upon demand for all of its reasonable expenses and counsel fees and other disbursements incurred in the preparation, delivery, negotiation, amendment, administration and execution of this Agreement and the exercise and performance of its duties hereunder.

8.3.2 Further Assurances. The Company agrees to perform, execute, acknowledge, and deliver or cause to be performed, executed, acknowledged, and delivered all such further and other acts, instruments, and assurances as may reasonably be required by the Warrant Agent for the carrying out or performing of the provisions of this Agreement.

8.4 Liability of Warrant Agent.

8.4.1 Reliance on Company Statement. Whenever in the performance of its duties under this Agreement, the Warrant Agent shall deem it necessary or desirable that any fact or matter be proved or established by the Company prior to taking or suffering any action hereunder, such fact or matter (unless other evidence in respect thereof be herein specifically prescribed) may be deemed to be conclusively proved and established by a statement signed by the Chief Executive Officer, Chief Financial Officer, Secretary or Chairman of the Board of the Company and delivered to the Warrant Agent. The Warrant Agent may rely upon such statement and shall not be liable for any action taken or suffered in the absence of bad faith by it pursuant to the provisions of this Agreement.

8.4.2 Indemnity. The Warrant Agent shall be liable hereunder only for its own gross negligence, willful misconduct or bad faith (in each case, as determined by a final, non-appealable judgment of a court of competent jurisdiction). 8.6.2 No Risk of Own Funds. No provision of this Agreement shall require the Warrant Agent to expend or risk its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder or in the exercise any of its rights or powers if it believes that repayment of such funds or adequate indemnification against such risk or liability is not reasonably assured to it.

8.6.3 No Interest. The Warrant Agent shall have no responsibility to the Company, any holders of Warrants or any other person for interest or earnings on any moneys held by the Warrant Agent pursuant to this Agreement.

the Registered Holders. As a condition precedent to the Warrant Agent's execution of any amendment, an appropriate officer of the Company shall deliver a certificate which states that the proposed amendment is in compliance with the terms of this Section 9.8. No amendment to this Agreement shall be effective unless duly executed by the Warrant Agent.

9.9 Severability. This Agreement shall be deemed severable, and the invalidity or unenforceability of any term or provision hereof shall not affect the validity or enforceability of this Agreement or of any other term or provision hereof. Furthermore, in lieu of any such invalid or unenforceable term or provision, the parties hereto intend that there shall be added as a part of this Agreement a provision as similar in terms to such invalid or unenforceable provision as may be possible and be valid and enforceable; provided, however, that if such excluded provision shall adversely affect the rights, immunities, liabilities, duties or obligations of the Warrant Agent, the Warrant Agent shall be entitled to resign immediately upon written notice to the Company.

Upon due presentation for registration of transfer of this Warrant Certificate at the office of the Warrant Agent a new Warrant Certificate or Warrant Certificates of like tenor and evidencing in the aggregate a like number of Warrants shall be issued to the transferee(s) in exchange for this Warrant Certificate, subject to the limitations provided in the Warrant Agreement, without charge except for any tax or other governmental charge imposed in connection therewith.

The Company and the Warrant Agent may deem and treat the Registered Holder(s) hereof as the absolute owner(s) of this Warrant Certificate (notwithstanding any notation of ownership or other writing hereon made by anyone), for the purpose of any exercise hereof, of any distribution to the holder(s) hereof, and for all other purposes, and neither the Company nor the Warrant Agent shall be affected by any notice to the contrary. Neither the Warrants nor this Warrant Certificate entitles any holder hereof to any rights of a stockholder of the Company.

Warrant Certificates, when surrendered at the office of the Warrant Agent designated for such purpose by the Registered Holder thereof in person or by legal representative or attorney duly authorized in writing, may be exchanged, in the manner and subject to the limitations provided in the Warrant Agreement, but without payment of any service charge, for another Warrant Certificate or Warrant Certificates of like tenor evidencing in the aggregate a like number of Warrants.

Upon due presentation for registration of transfer of this Warrant Certificate at the office of the Warrant Agent a new Warrant Certificate or Warrant Certificates of like tenor and evidencing in the aggregate a like number of Warrants shall be issued to the transferee(s) in exchange for this Warrant Certificate, subject to the limitations provided in the Warrant Agreement, without charge except for any tax or other governmental charge imposed in connection therewith.

The Company and the Warrant Agent may deem and treat the Registered Holder(s) hereof as the absolute owner(s) of this Warrant Certificate (notwithstanding any notation of ownership or other writing hereon made by anyone), for the purpose of any exercise hereof, of any distribution to the holder(s) hereof, and for all other purposes, and neither the Company nor the Warrant Agent shall be affected by any notice to the contrary. Neither the Warrants nor this Warrant Certificate entitles any holder hereof to any rights of a stockholder of the Company.

i. A copy of each form, report, statement, schedule, prospectus, proxy, registration statement and other document, if any, filed by the Company on or prior to the Closing Date (the "SEC Documents") is available to the undersigned via the EDGAR system of the U.S. Securities and Exchange Commission (the "SEC"). None of the SEC Documents contained, when filed or, if amended, as of the date of such amendment with respect to those disclosures that are amended, any untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading; provided, that with respect to the information about the Company's affiliates

contained in any SEC Document to be filed by the Company the representation and warranty in this sentence is made to the Company's knowledge. There are no material outstanding or unresolved comments in comment letters from the staff of the Division of Corporation Finance of the SEC with respect to any of the SEC Documents.

The Company has not received any written communication from a governmental authority that alleges that the Company is not in compliance with or is in default or violation of any applicable law, except where such non-compliance, default or violation would not reasonably be expected to have, individually or in the aggregate, a Material Adverse Effect.

k. m. Except for any alternative settlement procedures that apply to certain Other Purchasers due to their status as a mutual fund, the Other Subscription Agreements entered into or to be entered into by the Company in connection with the Transaction (or any agreements or understandings (including side letters) entered into or to be entered into in connection therewith or in connection with the purchase of Class A Ordinary Shares by the Other Purchasers) reflect the same or higher Purchase Price as set forth in this Agreement and do not contain any provisions that are more favorable from an economic perspective to such Other Purchasers or any affiliate or any party related thereto than the provisions of this Agreement (it being acknowledged and agreed that the right to assign Acquired Shares prior to the closing of the Transaction pursuant to the Other Subscription Agreement with Gores Guggenheim Sponsor LLC will not be a right provided to any Other Purchaser.

6. GGI Representations and Warranties. GGI represents and warrants to the Purchaser that at the date of this Agreement and as of the Closing Date:

a. GGI is duly incorporated and validly existing as a corporation in good standing under the laws of the State of Delaware, with corporate power and authority to own, lease and operate its properties and conduct its business as presently conducted and to enter into, deliver and perform its obligations under this Agreement.

This Agreement has been duly authorized, executed and delivered by GGI, and (assuming due authorization, execution and delivery by the Company and Purchaser) this Agreement constitutes the legal, valid and binding obligation of GGI, enforceable against it in accordance with its terms, except as the enforceability hereof may be limited by the Enforceability Exceptions.

c. A copy of each form, report, statement, schedule, prospectus, proxy, registration statement and other document filed by GGI on or prior to the Closing Date (the "GGI SEC Documents") is available to the undersigned via the SEC's EDGAR system. None of the GGI SEC Documents contained, when filed or, if amended, as of the date of such amendment with respect to those disclosures that are amended, any untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make

the statements therein, in the light of the circumstances under which they were made, not misleading; provided, that with respect to the information about GGI's affiliates contained in any SEC Document to be filed by GGI the representation and warranty in this sentence is made to GGI's knowledge. The financial statements of GGI included in the GGI SEC Documents comply in all material respects with applicable accounting requirements and the rules and regulations of the SEC with respect thereto as in effect at the time of filing and fairly present in all material respects the financial condition of GGI as of and for the dates thereof and the results of operations and cash flows for the periods then ended, subject, in the case of unaudited statements, to normal, year-end audit adjustments. There are no outstanding or unresolved comments in comment letters from the staff of the Division of Corporation Finance of the SEC with respect to any of the GGI SEC Documents.

d. GGI is in compliance with all applicable laws, except where such non-compliance would not reasonably be expected to have, individually or in the aggregate, a material adverse effect on the business, properties, assets, financial condition or results of operations of GGI and its subsidiaries, taken as a whole (a "GGI Material Adverse Effect"). GGI has not received any written communication from a governmental authority that alleges that GGI is not in compliance with or is in default or violation of any applicable law, except where such non-compliance, default or violation would not reasonably be expected to have, individually or in the aggregate, a GGI Material Adverse Effect.

e. Except for such matters as have not had and would not be reasonably likely to have, individually or in the aggregate, a GGI Material Adverse Effect, there is no (i) action, suit, claim or other proceeding, in each case by or before any governmental authority pending, or, to the knowledge of GGI, threatened against GGI, or (ii) judgment, decree, injunction, ruling or order of any governmental entity or arbitrator outstanding against GGI.

f. Notwithstanding anything to the contrary contained in Section 6 of this Agreement, no representation or warranty is made by GGI as to the accounting treatment of its issued and outstanding warrants or other changes in accounting arising in connection with any required restatement of GGI's historical financial statements, or as to any deficiencies in disclosure (including with respect to financial statement presentation or accounting and disclosure controls) arising from the treatment of such warrants as equity rather than liabilities or other required changes in the GGI SEC Documents.

a. The Purchaser (i) is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or an institutional "accredited investor" (within the meaning of Rule 501(a) under the Securities Act) satisfying the applicable requirements set forth on Schedule A, (ii) is subscribing for the Acquired Shares only for its own account and not for the account of others, or if the Purchaser is subscribing for the Acquired Shares as a fiduciary or agent for one or more investor accounts, the Purchaser has full investment discretion with respect to each such account, and the full power and authority to make the acknowledgements, representations and agreements herein on behalf of each owner of each such account, and (iii) is not subscribing for the Acquired Shares with a view to, or for offer or sale in connection with, any distribution thereof in violation of the Securities Act (and shall provide the requested information set forth on Schedule A). The Purchaser is not an entity formed for the specific purpose of acquiring the Acquired Shares.

b. The Purchaser acknowledges and agrees that the Acquired Shares are being offered in a transaction not involving any public offering within the meaning of the Securities Act and that the offer and sale of the Acquired Shares have not been registered under the Securities Act. The Purchaser acknowledges and agrees that the Acquired Shares may not be offered, resold, transferred, pledged or otherwise disposed of by the Purchaser absent an effective registration statement under the Securities Act except (i) to the issuer of such securities or a subsidiary thereof, (ii) to non-U.S. persons pursuant to offers and sales that occur outside the United States within the meaning of Regulation S under the Securities Act or (iii) pursuant to another applicable exemption from the registration requirements of the Securities Act, and in each of clauses (i) and (iii) above in accordance with any applicable securities laws of the states and other jurisdictions of the United States, and that the Acquired Shares will be subject to a restrictive legend to such effect. The Purchaser acknowledges that the Acquired

Shares will not be eligible for offer, resale, transfer, pledge or disposition pursuant to Rule 144 promulgated under the Securities Act until at least one year from the date that the Company files a Current Report on Form 8-K following the Closing Date that includes the “Form 10” information required under applicable SEC rules and regulations. The Purchaser acknowledges and agrees that the Acquired Shares will be subject to the foregoing transfer restrictions and, as a result of these transfer restrictions, the Purchaser may not be able to readily offer, resell, transfer, pledge or otherwise dispose of the Acquired Shares and may be required to bear the financial risk of an investment in the Acquired Shares for an indefinite period of time. The Purchaser acknowledges and agrees that it has been advised to consult legal counsel and tax and accounting advisors prior to making any offer, resale, transfer, pledge or disposition of any of the Acquired Shares.

c. The Purchaser acknowledges and agrees that the Purchaser is purchasing the Acquired Shares from the Company, and further acknowledges that there have been no representations, warranties, covenants and agreements made to the Purchaser by or on behalf of GGI, the Company, any of their respective affiliates or any control persons, officers, directors, employees, partners, agents or representatives of any of the foregoing or any other person or entity, expressly or by implication, other than those representations, warranties, covenants and agreements of the Company and GGI expressly set forth in Sections 5 and 6 of this Agreement.

d. The Purchaser’s subscription for and holding of the Acquired Shares does not constitute or result in a non-exempt prohibited transaction under Section 406 of the United States Employee Retirement Income Security Act of 1974, as amended (“ERISA”), Section 4975 of the United States Internal Revenue Code of 1986, as amended (the “Code”), or any applicable similar law.

e. The Purchaser acknowledges and agrees that the Purchaser has received such information as the Purchaser deems necessary in order to make an investment decision with respect to the Acquired Shares, including, with respect to the Company, the Transaction and GGI. Without limiting the generality of the foregoing, the Purchaser acknowledges that it has reviewed GGI’s filings with the SEC and that it has received a copy of the Investor Presentation, dated as of September 27, 2021, provided by the Company and GGI (the “Disclosure Package”), and made its own assessment and is satisfied concerning the relevant tax and other economic considerations relevant to the Purchaser’s investment in the Acquired Shares. The Purchaser acknowledges that it has reviewed the documents made available to the Purchaser by the Company and GGI in the electronic data room hosted by the GGI in connection with the transactions contemplated by this Agreement. The Purchaser represents and agrees that the Purchaser and the Purchaser’s professional advisor(s), if any, have had the full opportunity to ask such questions, receive such answers and obtain such additional information about the Company, the Business, the Transaction and GGI as the Purchaser and such Purchaser’s professional advisor(s), if any, have deemed necessary in order to make an investment decision with respect to the Acquired Shares. The Purchaser acknowledges and agrees that (i) none of the Placement Agents, nor any affiliate of the Placement Agents, has provided the Purchaser with any information or advice with respect to the Acquired Shares nor is such information or advice necessary or desired and (ii) none of the Placement Agents nor any of their respective affiliates has prepared any disclosure or offering document in connection with the offer and sale of the Acquired Shares. None of the Placement Agents nor any of their respective affiliates has made or makes any representation as to the Company, GGI or the quality or value of the Acquired Shares. In connection with the issuance of the Acquired Shares to the Purchaser, none of the Placement Agents nor any of their respective affiliates has acted as a financial advisor or fiduciary to the Purchaser. The Purchaser agrees that none of the Placement Agents shall be liable to any Purchaser for any action heretofore or hereafter taken or omitted to be taken by any of them in connection with the Purchaser’s purchase of the Acquired Shares.

f. The Purchaser became aware of this offering of the Acquired Shares solely by means of direct contact between the Purchaser and the Company, GGI or a representative of the Company or GGI, and the Acquired Shares were offered to the Purchaser solely by direct contact between the Purchaser and the Company, GGI or a representative of the Company or GGI. The Purchaser did not become aware of this offering of the Acquired Shares, nor were the Acquired Shares offered to the Purchaser, by any other means. The Purchaser acknowledges that the Acquired Shares (i) were not offered by any form of general solicitation or general advertising and (ii) are not being offered in a manner involving a public offering under, or in a distribution in violation of, the Securities Act, or any state securities laws. The Purchaser acknowledges that it is not relying upon, and has not

relied upon, any statement, representation or warranty made by any person, firm or corporation (including, without limitation, GGI, the Company, the Placement Agents, any of their respective affiliates or any control persons, officers, directors, employees, partners, agents or representatives of any of the foregoing), other than the representations and warranties of the Company and GGI contained in Sections 5 and 6 of this Agreement, in making its investment or decision to invest in the Acquired Shares.

g. The Purchaser acknowledges that it is aware that there are substantial risks incident to the subscription for and ownership of the Acquired Shares, including, without limitation, those set forth in GGI's filings with the SEC and the Disclosure Package. The Purchaser has such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of an investment in the Acquired Shares, and the Purchaser has sought such accounting, legal and tax advice as the Purchaser has considered necessary to make an informed investment decision. The Purchaser (i) is an institutional account as defined in FINRA Rule 4512(c), (ii) is a sophisticated investor, experienced in investing in private equity transactions and capable of evaluating investment risks independently, both in general and with regard to all transactions and investment strategies involving a security or securities, (iii) is a "qualified investor" for the purposes of the Regulation (EU) 2017/1129 (the "EU Prospectus Regulation") and for the purposes of the EU Prospectus Regulation as it forms part of United Kingdom domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "UK Prospectus Regulation"), (iv) section 21(1) of the Financial Services Act 2000 ("FSMA") does not apply to any communication received by the Purchaser in connection with the subscription of the Acquired Shares, and (v) has exercised independent judgment in evaluating its participation in the purchase of the Acquired Shares. The Purchaser will not look to the Placement Agents for all or part of any such loss or losses the Purchaser may suffer, is able to sustain a complete loss on its investment in the Acquired Shares, has no need for liquidity with respect to its investment in the Acquired Shares and has no reason to anticipate any change in circumstances, financial or otherwise, which may cause or require any sale or distribution of all or any part of the Acquired Shares. The Purchaser acknowledges and agrees that the purchase and sale of the Acquired Shares hereunder meets (i) the exemptions from filing under FINRA Rule 5123(b)(1)(A) and (ii) the institutional customer exemption under FINRA Rule 2111(b).

h. Alone, or together with any professional advisor(s), the Purchaser has adequately analyzed and fully considered the risks of an investment in the Acquired Shares and determined that the Acquired Shares are a suitable investment for the Purchaser and that the Purchaser is able at this time and in the foreseeable future to bear the economic risk of a total loss of the Purchaser's investment in the Acquired Shares. The Purchaser acknowledges specifically that a possibility of total loss exists.

i. In making its decision to purchase the Acquired Shares, the Purchaser has relied solely upon independent investigation made by the Purchaser. Without limiting the generality of the foregoing, the Purchaser has not relied on any statements or other information provided by or on behalf of the Placement Agents or any of their respective affiliates or any control persons, officers, directors, employees, partners, agents or representatives of any of the foregoing concerning the Company, GGI, the Transaction, the Business Combination Agreement, this Agreement or the transactions contemplated hereby or thereby or the offer and sale of Acquired Shares.

j. The Purchaser acknowledges and agrees that no federal or state agency has passed upon or endorsed the merits of the offering of the Acquired Shares or made any findings or determination as to the fairness of this investment or the accuracy or adequacy of the Disclosure Package.

k. If the Purchaser is not an individual, the Purchaser has been duly formed or incorporated and is validly existing and in good standing under the laws of its jurisdiction of incorporation or formation. The Purchaser has the power and authority to enter into, deliver and perform the Purchaser's obligations under this Agreement.

l. The execution, delivery and performance by the Purchaser of this Agreement are within the powers of the Purchaser, have been duly authorized and will not constitute or result in a breach or default under or conflict with any order, ruling or regulation of any court or other tribunal or of any governmental commission or agency, or any agreement or other undertaking, to which the Purchaser is a party or by which the Purchaser is bound, and will not violate any provisions of the Purchaser's charter documents, including, without limitation, its incorporation or formation papers, bylaws, indenture of trust or partnership or operating agreement, as may be

applicable. The Purchaser's signature on this Agreement is genuine, and the signatory has been duly authorized to execute the same, and this Agreement has been duly executed and delivered by the Purchaser and constitutes a legal, valid and binding obligation of the Purchaser, and this Agreement is enforceable against the Purchaser in accordance with its terms, except as the enforceability hereof may be limited by Enforceability Exceptions.

m. The Purchaser is not (i) a person or entity named on the List of Specially Designated Nationals and Blocked Persons administered by the United States Treasury Department's Office of Foreign Assets Control ("OFAC") or in any Executive Order issued by the President of the United States and administered by OFAC ("OFAC List"), or a person or entity prohibited by any OFAC sanctions program, (ii) owned, directly or indirectly, or controlled by, or acting on behalf of, one or more persons that are named on the OFAC List; (iii) organized, incorporated, established, located, resident or born in, or a citizen, national or the government, including any political subdivision, agency or instrumentality thereof, of, Cuba, Iran, North Korea, Syria, the Crimea region of Ukraine or any other country or territory embargoed or subject to substantial trade restrictions by the United States, (iv) a Designated National as defined in the United States Cuban Assets Control Regulations, 31 C.F.R. Part 515, or (v) a non-U.S. shell bank or providing banking services indirectly to a non-U.S. shell bank (each, a "Prohibited Investor"). The Purchaser agrees to provide law enforcement agencies, if requested thereby, such records as required by applicable law, provided that the Purchaser is permitted to do so under applicable law. If the Purchaser is a financial institution subject to the United States Bank Secrecy Act (31 U.S.C. Section 5311 et seq.) (the "BSA"), as amended by the USA PATRIOT Act of 2001 (the "PATRIOT Act"), and its implementing regulations (collectively, the "BSA/PATRIOT Act"), the Purchaser maintains written policies and procedures reasonably designed to comply with applicable obligations under the BSA/PATRIOT Act. To the extent required, it maintains policies and procedures reasonably designed to ensure compliance with OFAC-administered sanctions programs, including for the screening of its investors against the OFAC sanctions programs, including the OFAC List. To the extent required by applicable law, the Purchaser maintains policies and procedures reasonably designed to ensure that the funds held by the Purchaser and used to subscribe for the Acquired Shares were legally derived and were not obtained, directly or indirectly, from a Prohibited Investor.

n. To the Purchaser's knowledge, no disclosure (other than the Disclosure Package) or offering document has been prepared by the Company, GGI or the Placement Agents in connection with the offer and subscription for the Acquired Shares.

o. The Purchaser acknowledges that the Placement Agents and each of its directors, officers, employees, representatives and controlling persons have made no independent investigation with respect to GGI, the Company or the Acquired Shares or the accuracy, completeness or adequacy of any information supplied to the Purchaser by GGI and the Company.

p. In connection with the subscription for the Acquired Shares, the Placement Agents have not acted as the Purchaser's financial advisor or fiduciary.

q. The Purchaser is not insolvent or bankruptcy under the laws of its jurisdiction or incorporation or establishment, or unable to pay its debts as and when they fall due.

r. The Purchaser will have sufficient funds to pay the Purchase Price at the Closing and consummate the Subscription contemplated by this Agreement.

s. The Placement Agents may rely upon these representations and warranties of the Purchaser.

t. The Purchaser hereby agrees that from the date of this Agreement until the Closing (or the earlier termination of this Agreement in accordance with its terms), none of the Purchaser, its controlled affiliates, or any person or entity acting on behalf of the Purchaser or any of its controlled affiliates or pursuant to any understanding with the Purchaser or any of its controlled affiliates will engage in any Short Sales with respect to securities of GGI. For purposes of this [Section 7](#), "Short Sales" shall include, without limitation, all "short sales" as defined in Rule 200 promulgated under Regulation SHO under the United States Securities Exchange Act of 1934, as amended (the "Exchange Act"), and, except as otherwise consented to by GGI and the Company, all types of direct and indirect stock pledges (other than pledges in the ordinary course of business as part of prime

brokerage arrangements), forward sale contracts, options, puts, calls, swaps and similar arrangements (including on a total return basis), and sales and other transactions through non-U.S. broker dealers or foreign regulated brokers. Notwithstanding anything to the contrary set forth herein, (i) nothing herein shall prohibit any entities under common management or that share an investment advisor with Purchaser that have no knowledge of this Agreement or of Purchaser's participation in the transaction contemplated hereby (including Purchaser's controlled affiliates and/or other affiliates) from entering into any Short Sales; and (ii) in the case of a Purchaser that is a multi-managed investment vehicle whereby separate portfolio managers manage separate portions of such Purchaser's assets and the portfolio managers have no knowledge of the investment decisions made by the portfolio managers managing other portions of such Purchaser's assets, this Section 7(t) shall only apply with respect to the portion of assets managed by the portfolio manager that made the investment decision to purchase the Acquired Shares.

u. The Purchaser acknowledges that it is not acquiring the Acquired Shares with a view to, or for offer or sale in connection with, a distribution thereof in violation of the Securities Act.

v. The Purchaser is not currently (and at all times through Closing will refrain from being or becoming) a member of a "group" (within the meaning of Section 13(d)(3) or Section 14(d)(2) of the Exchange Act or any successor provision) acting for the purpose of acquiring, holding, voting or disposing of equity securities of the Company (within the meaning of Rule 13d-5(b)(1) under the Exchange Act).

w. If the Purchaser is an employee benefit plan that is subject to Title I of ERISA, a plan, an individual retirement account or other arrangement that is subject to section 4975 of the Code or an employee benefit plan that is a governmental plan (as defined in section 3(32) of ERISA), a church plan (as defined in section 3(33) of ERISA), a non-U.S. plan (as described in section 4(b)(4) of ERISA) or other plan that is not subject to the foregoing but may be subject to provisions under any other federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of ERISA or the Code, or an entity whose underlying assets are considered to include "plan assets" of any such plan, account or arrangement (each, a "Plan") subject to the fiduciary or prohibited transaction provisions of ERISA or section 4975 of the Code, the Purchaser represents and warrants that it has not relied on the Company, GGI or any of their affiliates for investment advice as the Plan's fiduciary with respect to its decision to acquire and hold the Acquired Shares, and none of the Company, GGI or any of their affiliates shall at any time be relied upon as the Plan's fiduciary with respect to any decision to acquire, continue to hold or transfer the Acquired Shares.

x. Notwithstanding any provision to the contrary, the Purchaser is not acquiring the Acquired Shares (i) with a view to, or for resale in connection with, any offer, sale or distribution thereof to the public within the meaning of, or otherwise in violation of, the EU Prospectus Regulation, the UK Prospectus Regulation, FSMA, the Companies Act or any rules or regulations made or promulgated thereunder; or (ii) with a view to, or for the resale in connection with, any offer, sale or distribution thereof in violation of the laws of any jurisdiction. In particular, the Acquired Shares will not be offered or sold by the Purchaser in the UK by means of any document other than: (i) to "qualified investors" as defined in the UK Prospectus Regulation as it forms part of domestic law of the UK by virtue of the European Union (Withdrawal) Act 2018, (ii) in other circumstances which do not result in a requirement for the publication of a "prospectus" as defined in the UK Prospectus Regulation and/or FSMA or which do not constitute an offer to the public within the meaning thereof or (iii) which would not be prohibited by section 21(1) of FSMA. In addition, the Acquired Shares will not be offered or sold by Purchaser in the European Union by means of any document other than: (i) to "qualified investors" as defined in the EU Prospectus Regulation or (ii) in other circumstances which do not result in a requirement for the publication of a "prospectus" as defined in the EU Prospectus Regulation or which do not constitute an offer to the public within the meaning thereof.

8. Registration Rights.

a. The Company agrees that, in the event the Acquired Shares are not registered in connection with the consummation of the Transaction, as soon as practicable and no later than the date that is thirty (30) calendar days after the Closing Date, the Company will file with the SEC (at the Company's sole cost and expense) a registration statement registering the resale by the Purchaser of the Class A ADSs (the "Registration Statement").

and the Company shall use its commercially reasonable efforts to have the Registration Statement declared effective by the SEC as soon as practicable after the filing thereof, but no later than the earlier of (i) the sixtieth (60th) calendar day (or the ninety (90th) calendar day if the SEC notifies the Company that it will “review” the Registration Statement) following the Closing Date. A substantially complete draft of the Registration Statement shall be provided to the Purchaser at least two (2) Business Days prior to filing. The Company agrees to cause such registration statement or another shelf registration statement to remain effective until the earlier of (a) two (2) years from the issuance of the Class A ADSs, (b) the date on which the Purchaser ceases to hold any Acquired Shares issued pursuant to this Agreement, or (c) the first date on which the Purchaser can sell all of its Class A ADSs (or Class A Ordinary Shares received in exchange therefor) under Rule 144 of the United States Securities Act within ninety (90) days without limitation as to the amount or manner of sale of such securities that may be sold and without the requirement for the Company to be in compliance with the current public information required under Rule 144(c)(1) (or Rule 144(i)(2), if applicable). The Purchaser agrees to disclose its ownership to the Company upon request to assist the Company in making the determination described above. The Company’s obligations to include the Class A ADSs (or Class A Ordinary Shares issued in exchange therefor) in the Registration Statement are contingent upon the Purchaser furnishing in writing to the Company such information regarding the Purchaser, the securities of the Company held by the Purchaser and the intended method of disposition of the Class A ADSs as shall be reasonably requested by the Company to effect the registration of the Class A ADSs, and shall execute such documents in connection with such registration as the Company may reasonably request that are customary of a selling stockholder in similar situations, provided that Purchaser shall not in connection with the foregoing be required to execute any lock-up or similar agreement or otherwise be subject to any contractual restriction on the ability to transfer the Class A ADSs. Notwithstanding the foregoing, if the SEC prevents the Company from including any or all of the Class A ADSs proposed to be registered under the Registration Statement due to limitations on the use of Rule 415 of the Securities Act for the resale of the Class A ADSs or otherwise, such Registration Statement shall register the resale of a number of Class A ADSs which is equal to the maximum number of Class A ADSs as is permitted by the SEC. In such event, the number of Class A ADSs to be registered for each selling shareholder named in the Registration Statement shall be reduced pro rata among all such selling shareholders, and the Company will use its commercially reasonable efforts to file with the SEC, as promptly as allowed by the SEC, one or more registration statements to register the resale of those Class A ADSs that were not registered on the initial Registration Statement, as so amended. For as long as the Purchaser holds Class A ADSs, the Company will use commercially reasonable efforts to file all reports for so long as the condition in Rule 144(c)(1) (or Rule 144(i)(2), if applicable) is required to be satisfied, and provide all customary and reasonable cooperation, necessary to enable the Purchaser to resell the Class A ADSs pursuant to Rule 144 of the Securities Act.

b. The Company may delay the filing of the registration statement or suspend the use of any such registration statement for up to 45 days if (i) it reasonably determines that it would require public disclosure of material non-public information (including information with respect to a potential financing, acquisition, disposition, merger, reorganization or similar transaction), which disclosure, in the good faith judgment of its Board of Directors, the Chief Executive Officer or Chief Financial Officer of the Company, after consultation with counsel to the Company, (a) to be made in any Registration Statement or prospectus in order for the Registration Statement or prospectus not to contain any untrue statement of a material fact or an omission to state a material fact required to be stated therein, or necessary to make the statements therein not misleading, (b) would not be required to be made at such time if the Registration Statement were not being filed, declared effective or used, as the case may be, and (c) the Company has a bona fide business purpose for not making such information public, (ii) would require the inclusion in such Registration Statement of financial statements that are unavailable to the Company for reasons beyond the Company’s control or (iii) in the good faith judgment of the Board of Directors of the Company would be materially detrimental to the Company (each, a “Suspension Event”); provided, however, that the Company may not delay or suspend the Registration Statement for more than one hundred twenty (120) days in the aggregate during any twelve-month period. The Company shall not, when so advising Purchaser of such Suspension Event, provide Purchaser with any material, nonpublic information regarding the Company other than to the extent that providing notice to Purchaser of the occurrence of the Suspension Event might constitute material, nonpublic information regarding the Company. Upon receipt

of any written notice from the Company of the happening of any Suspension Event during the period that the Registration Statement is effective or if as a result of a Suspension Event the Registration Statement or related prospectus contains any untrue statement of a material fact or omits to state any material fact required to be stated therein or necessary to make the statements therein (in light of the circumstances under which they were made, in the case of the prospectus) not misleading, Purchaser agrees that it will immediately discontinue offers and sales of the Class A ADSs under the Registration Statement (excluding, for the avoidance of doubt, sales conducted pursuant to Rule 144) until Purchaser receives copies of a supplemental or amended prospectus (which the Company agrees to promptly prepare) that corrects the misstatement(s) or omission(s) referred to above and receives notice that any post-effective amendment has become effective or unless otherwise notified by the Company that it may resume such offers and sales. If so directed by the Company, Purchaser will deliver to the Company or, in Purchaser's sole discretion destroy, all copies of the prospectus covering the Class A ADSs in Purchaser's possession; provided, however, that this obligation to deliver or destroy all copies of the prospectus shall not apply (A) to the extent Purchaser is required to retain a copy of such prospectus (1) in order to comply with applicable legal, regulatory, self-regulatory or professional requirements or (2) in accordance with a bona fide pre-existing document retention policy or (B) to copies stored electronically on archival servers as a result of automatic data back-up.

c. Indemnification.

i. The Company shall, notwithstanding any termination of this Agreement indemnify and hold harmless, to the extent permitted by law, Purchaser, its directors officers, members, stockholders, partners, agents, brokers, investment advisors and employees, and each person who controls Purchaser (within the meaning of the Securities Act) and the directors, officers, members, stockholders, partners, agents, brokers, investment advisors and employees of each such controlling person, to the fullest extent permitted by law, from and against all losses, claims, damages, liabilities, costs and expenses (including, without limitation, reasonable and documented attorneys' fees) (collectively, "Losses") based on any untrue or alleged untrue statement of material fact contained in any Registration Statement, prospectus included in any Registration Statement ("Prospectus") or preliminary Prospectus or any amendment thereof or supplement thereto or any omission or alleged omission of a material fact required to be stated therein or necessary to make the statements therein (in the case of a Prospectus, in the light of the circumstances under which they were made) not misleading, except insofar as the same are based on or contained in any information or affidavit so furnished in writing to the Company by or on behalf of such Purchaser expressly for use therein.

ii. The Purchaser agrees, severally and not jointly with any person that is a party to the Other Subscription Agreements, to indemnify and hold harmless the Company, its directors and officers and each person or entity who controls the Company (within the meaning of the Securities Act) against any losses, claims, damages, liabilities and expenses (including, without limitation, reasonable outside attorneys' fees) resulting from any untrue statement of material fact contained or incorporated by reference in any Registration Statement, Prospectus or preliminary Prospectus or any amendment thereof or supplement thereto or any omission or alleged omission of a material fact required to be stated therein or necessary to make the statements therein (in the case of a Prospectus, in the light of the circumstances under which they were made) not misleading, but only to the extent that such untrue statement or omission is contained (or not contained in, in the case of an omission) in any information or affidavit so furnished in writing by on behalf of such Purchaser expressly for use therein; provided, however, that the liability of Purchaser shall be several and not joint with any other investor and shall be limited to the net proceeds received by Purchaser from the sale of Class A ADSs giving rise to such indemnification obligation.

iii. Any person entitled to indemnification herein shall (1) give prompt written notice to the indemnifying party of any claim with respect to which it seeks indemnification (provided that the failure to give prompt notice shall not impair any person's right to indemnification hereunder to the extent such failure has not prejudiced the indemnifying party) and (2) permit such indemnifying party to assume the defense of such claim with counsel reasonably satisfactory to the indemnified party. If such defense is assumed, the indemnifying party shall not be subject to any liability for any settlement made by the indemnified party without its consent. An indemnifying party who elects not to assume the defense of a

claim shall not be obligated to pay the fees and expenses of more than one counsel for all parties indemnified by such indemnifying party with respect to such claim, unless in the reasonable judgment of legal counsel to any indemnified party a conflict of interest exists between such indemnified party and any other of such indemnified parties with respect to such claim. No indemnifying party shall, without the consent of the indemnified party, consent to the entry of any judgment or enter into any settlement which cannot be settled in all respects by the payment of money (and such money is so paid by the indemnifying party pursuant to the terms of such settlement) or which settlement does not include as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all liability in respect to such claim or litigation.

iv. The indemnification provided for under this Agreement shall remain in full force and effect regardless of any investigation made by or on behalf of the indemnified party or any officer, director, employee, agent, affiliate or controlling person of such indemnified party and shall survive the transfer of the Acquired Shares purchased pursuant to this Agreement.

v. If the indemnification provided under this Section 8(c) from the indemnifying party is unavailable or insufficient to hold harmless an indemnified party in respect of any losses, claims, damages, liabilities and expenses referred to herein, then the indemnifying party, in lieu of indemnifying the indemnified party, shall contribute to the amount paid or payable by the indemnified party as a result of such losses, claims, damages, liabilities and expenses in such proportion as is appropriate to reflect the relative fault of the indemnifying party and the indemnified party, as well as any other relevant equitable considerations. The relative fault of the indemnifying party and indemnified party shall be determined by reference to, among other things, whether any action in question, including any untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact, was made by, or relates to information supplied by or on behalf of, such indemnifying party or indemnified party, and the indemnifying party's and indemnified party's relative intent, knowledge, access to information and opportunity to correct or prevent such action. The amount paid or payable by a party as a result of the losses or other liabilities referred to above shall be deemed to include, subject to the limitations set forth above, any legal or other fees, charges or expenses reasonably incurred by such party in connection with any investigation or proceeding. No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution pursuant to this Section 8(c) from any person who was not guilty of such fraudulent misrepresentation. Any contribution pursuant to this Section 8(c) by any seller of Acquired Shares shall be limited in amount to the amount of net proceeds received by such seller from the sale of such Acquired Shares pursuant to the Registration Statement. Notwithstanding anything to the contrary herein, in no event will any party be liable for consequential, special, exemplary or punitive damages in connection with this Agreement.

d. The Company shall use its commercially reasonable efforts, at its sole expense, to cause its legal counsel to (i) issue to the transfer agent a legal opinion instructing the transfer agent that, in connection with a sale or transfer of "restricted securities" (*i.e.*, securities issued pursuant to an exemption from the registration requirements of Section 5 of the Securities Act), the resale or transfer of which restricted securities has been registered pursuant to an effective Registration Statement by the holder thereof named in such Registration Statement, upon receipt of an appropriate broker representation letter and other such documentation as the Company's counsel deems necessary and appropriate and after confirming compliance with relevant prospectus delivery requirements, is authorized to remove any applicable restrictive legend in connection with such sale or transfer and (ii) if the Class A ADSs are not registered pursuant to an effective Registration Statement, issue to the transfer agent a legal opinion to facilitate the sale or transfer of the Class A ADSs and removal of any restrictive legends pursuant to any exemption from the registration requirements of Section 5 of the Securities Act that may be available to a requesting Purchaser; provided that, (A) the Company and its counsel may request and rely upon customary representations from the Purchaser in connection with delivery of such opinion and (B) notwithstanding the foregoing, the Company and its counsel will not be required to deliver any such opinion, authorization, certificate or direction if it reasonably believes that removal of the legend could result in or facilitate transfers of securities in violation of applicable law.

9. Termination. This Agreement shall terminate and be void and of no further force and effect, and all rights and obligations of the parties hereunder shall terminate without any further liability on the part of any party in respect thereof, upon the earlier to occur of (a) such date and time as the Business Combination Agreement is terminated in accordance with its terms without being consummated, (b) upon the mutual written agreement of each of the parties hereto to terminate this Agreement, (c) thirty (30) days after the Termination Date (as defined in the Business Combination Agreement as in effect on the date hereof) if the Transaction has not been consummated by such date other than as a result of a breach of the Purchaser's obligations hereunder or (d) if any of the conditions to Closing set forth in Section 3 of this Agreement are (i) not satisfied or waived prior to the Closing or (ii) not capable of being satisfied on the Closing and, in each case of (i) and (ii), as a result thereof, the transactions contemplated by this Agreement will not be and are not consummated at the Closing; provided, that nothing herein will relieve any party from liability for any willful and material breach of any covenant, agreement, obligation, representation or warranty hereunder prior to the time of termination, and each party will be entitled to any remedies at law or in equity to recover losses, liabilities or damages arising from such breach. If the Transaction is not consummated, the Company shall notify the Purchaser of the termination of the Business Combination Agreement promptly after the termination of such agreement. This Agreement shall further terminate and be of no further force or effect, without any liability to any party hereto, if the Company notifies the Purchaser in writing that it has abandoned its plans to move forward with the Transaction and/or terminates the Purchaser's obligations with respect to the Subscription without the delivery of the Acquired Shares having occurred, provided that if the Purchase Price has been already paid pursuant to this Agreement at such time it shall be returned promptly by the Company to the Purchaser without any deduction for or on account of any tax, withholding, charges, or set-off.

10. Trust Account Waiver. The Purchaser acknowledges that GGI is a blank check company with the powers and privileges necessary or convenient to the conduct, promotion or attainment of the business or purposes of GGI, including, but not limited to effecting a merger, asset acquisition, reorganization or similar business combination involving GGI and one or more businesses or assets. The Purchaser further acknowledges that, as described in GGI prospectus relating to its initial public offering dated March 22, 2021 (the "IPO Prospectus") available at www.sec.gov, substantially all of GGI's assets consist of the cash proceeds of GGI's initial public offering and private placements of its securities, and substantially all of those proceeds have been deposited in a trust account (the "Trust Account") for the benefit of GGI, its public stockholders and the underwriters of GGI's initial public offering. Except with respect to interest earned on the funds held in the Trust Account that may be released to GGI to pay its tax obligations, if any, and for working capital, the cash in the Trust Account may be disbursed only for the purposes set forth in the IPO Prospectus. For and in consideration of GGI entering into this Agreement, the receipt and sufficiency of which are hereby acknowledged, the Purchaser hereby irrevocably waives any and all right, title and interest, or any claim of any kind it has or may have in the future, in or to any monies held in the Trust Account, and agrees not to seek recourse against the Trust Account as a result of, or arising out of, this Agreement or the transactions contemplated hereby regardless of whether such claim arises based on contract, tort, equity or any other theory of legal liability, provided, however, that nothing in this Section 10 shall be deemed to limit the Purchaser's right, title, interest or claim to any monies held in the Trust Account by virtue of the Purchaser's record or beneficial ownership of shares of common stock of GGI, pursuant to a validly exercised redemption right with respect to any such shares of common stock of GGI, except to the extent that the Purchaser has otherwise agreed with GGI, the Company or any of their respective affiliates to not exercise such redemption right.

11. Miscellaneous.

a. Neither this Agreement nor any rights or obligations that may accrue to the Purchaser hereunder may be transferred or assigned, in whole nor in part, without the prior written consent of the Company and GGI, which may be withheld by the Company and GGI in their absolute discretion, other than an assignment to any affiliate of the Purchaser or any fund or account managed by the same investment manager as the Purchaser or an affiliate thereof, subject to, if such transfer or assignment is prior to the Closing, such transferee or assignee, as applicable, executing a joinder to this Agreement or a separate subscription agreement in substantially the same form as this Agreement.

b. The Company may request from the Purchaser such additional information as the Company may deem necessary or advisable to register the resale of the Acquired Shares and to evaluate the eligibility of the Purchaser to subscribe for the Acquired Shares, and the Purchaser shall provide such information as may reasonably be requested, to the extent readily available and to the extent consistent with its internal policies and procedures provided that the Company agrees to keep any such information confidential except to the extent required to be disclosed by applicable law, including the securities laws or in connection with such filings, or Nasdaq. The Purchaser acknowledges that GGI and the Company may file a copy of this Agreement with the SEC.

c. The Purchaser acknowledges that each of the Company, GGI, the Placement Agents and others will rely on the acknowledgments, understandings, agreements, representations and warranties of the Purchaser contained in this Agreement. Prior to the Closing, the Purchaser agrees to promptly notify the Company, GGI and the Placement Agents if any of the acknowledgments, understandings, agreements, representations and warranties set forth herein are no longer accurate. The Purchaser acknowledges and agrees that the purchase by the Purchaser of the Acquired Shares from the Company will constitute a reaffirmation of the acknowledgments, understandings, agreements, representations and warranties herein (as modified by any such notice) by the Purchaser as of the time of the purchase.

d. Each of the Company, GGI and the Placement Agents are entitled to rely upon this Agreement and are irrevocably authorized to produce this Agreement or a copy hereof to any interested party in any administrative or legal proceeding or official inquiry with respect to the matters covered hereby.

e. All of the agreements, representations and warranties made by each party hereto in this Agreement shall survive the Closing.

f. This Agreement may not be terminated other than pursuant to the terms of Section 9 above. The provisions of this Agreement may not be modified, amended or waived or terminated except by an instrument in writing, signed by each of the parties hereto; provided, however, that no modification, amendment or waiver by GGI of the provisions of this Agreement shall be effective without the prior written consent of the Company and no modification, amendment or waiver by the Company of this Agreement shall be effective without the prior written consent of GGI (in each case, other than modifications, amendments or waivers that are solely ministerial in nature or otherwise immaterial and, in each case, do not affect any economic or any other material term of this Agreement). No failure or delay of any party in exercising any right or remedy hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any such right or power, or any abandonment or discontinuance of steps to enforce such right or power, or any course of conduct, preclude any other or further exercise thereof or the exercise of any other right or power. The rights and remedies of the parties hereunder are cumulative and are not exclusive of any rights or remedies that they would otherwise have hereunder.

g. This Agreement (and any other agreements executed and delivered in connection with the Transaction to which the Purchaser is party, if any) constitutes the entire agreement, and supersedes all other prior agreements, understandings, representations and warranties, both written and oral, among the parties, with respect to the subject matter hereof. This Agreement shall not confer any third-party beneficiary, or other rights or remedies upon any person other than the parties hereto and their respective successors and assigns and the parties hereto acknowledge that such persons so referenced are third party beneficiaries of this Agreement with right of enforcement for the purposes of, and to the extent of, the rights granted to them, if any, pursuant to the applicable provisions.

h. Except as otherwise provided herein, this Agreement shall be binding upon, and inure to the benefit of the parties hereto and their heirs, executors, administrators, successors, legal representatives, and permitted assigns, and the agreements, representations, warranties, covenants and acknowledgments contained herein shall be deemed to be made by, and be binding upon, such heirs, executors, administrators, successors, legal representatives and permitted assigns.

i. If any provision of this Agreement shall be adjudicated by a court of competent jurisdiction to be invalid, illegal or unenforceable, the validity, legality or enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby and shall continue in full force and effect.

j. ARTICLE II REGISTRATIONS

Section 2.1 Shelf Registration.

(a) The Company shall, as soon as practicable, but in any event no later than the date that is thirty (30) calendar days after the closing of the Transactions, file a Registration Statement under the Securities Act to permit the public resale by the Holders of all the Registrable Securities held by the Holders from time to time as permitted by Rule 415 under the Securities Act (or any successor or similar provision adopted by the Commission then in effect) on the terms and conditions specified in this Section 2.1(a) and shall use its reasonable best efforts to cause such Registration Statement to be declared effective as soon as practicable after the filing thereof, but in no event later than sixty (60) calendar days following the filing deadline (the “Effectiveness Deadline”); provided that the Effectiveness Deadline shall be extended to ninety (90) calendar days after the filing deadline if the Registration Statement is reviewed by, and receives comments from, the Commission. The Registration Statement filed with the Commission pursuant to this Section 2.1(a) shall be on a shelf Registration Statement on Form F-1 (a “Form F-1 Shelf”) or such other form of Registration Statement as is then available to effect a registration for resale of such Registrable Securities, covering such Registrable Securities, and shall contain a Prospectus in such form as to permit any Holder to sell such Registrable Securities pursuant to Rule 415 under the Securities Act (or any successor or similar provision adopted by the Commission then in effect) at any time beginning on the effective date for such Registration Statement. A Registration Statement filed pursuant to this Section 2.1(a) shall provide for the resale pursuant to any method or combination of methods legally available to, and requested by, the Holders. The Company shall use its reasonable best efforts to cause a Registration Statement filed pursuant to this Section 2.1(a) to remain effective, and to be supplemented and amended to the extent necessary to ensure that such Registration Statement is available or, if not available, that another Registration Statement is available, for the resale of all the Registrable Securities held by the Holders until all such Registrable Securities have ceased to be Registrable Securities. When effective, a Registration Statement filed pursuant to this Section 2.1(a) (including the documents incorporated therein by reference) will comply as to form in all material respects with all applicable requirements of the Securities Act and the Exchange Act and will not contain an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading (in the case of any Prospectus contained in such Registration Statement, in the light of the circumstances under which such statement is made).

(b) The Company shall use its reasonable best efforts to convert the Form F-1 Shelf filed pursuant to Section 2.1(a) to a shelf Registration Statement on Form F-3 (a “Form F-3 Shelf”) as promptly as practicable after the Company is eligible to use a Form F-3 Shelf and have the Form F-3 Shelf declared effective as promptly as practicable and to cause such Form F-3 Shelf to remain effective, and to be supplemented and amended to the extent necessary to ensure that such Registration Statement is available or, if not available, that another Registration Statement is available, for the resale of all the Registrable Securities held by the Holders until all such Registrable Securities have ceased to be Registrable Securities.

(c) Subject to the limitations set forth in Section 2.7, at any time and from time to time following the effectiveness of the shelf Registration Statement required by Section 2.1(a) or Section 2.1(b), each of the Sponsor, Parent or a majority in interest of the then-outstanding number of Registrable Securities held by the Parent Holders (the “Parent Demanding Holders”) may request to sell all or a portion of their Registrable Securities in an underwritten offering that is registered pursuant to such shelf Registration Statement, including a Block Trade (a “Shelf Underwritten Offering”) provided that the Sponsor, Parent or the Parent Demanding

Holders, as the case may be, (i) reasonably expects to sell Registrable Securities yielding aggregate gross proceeds in excess of \$50,000,000 from such Shelf Underwritten Offering or (ii) reasonably expects to sell all of the Registrable Securities held by such Holder in such Shelf Underwritten Offering (the amount of Registrable Securities pursuant to the foregoing clause (i) or (ii), as applicable, the “Minimum Amount”). All requests for a Shelf Underwritten Offering shall be made by giving written notice to the Company (the “Shelf Take Down Notice”). Each Shelf Takedown Notice shall specify the approximate number of Registrable Securities proposed to be sold in the Shelf Underwritten Offering and the expected price range (net of underwriting discounts and commissions) of such Shelf Underwritten Offering. Within five (5) Business Days after receipt of any Shelf Take Down Notice, the Company shall give written notice of such requested Shelf Underwritten Offering to all other Holders of Registrable Securities (the “Company Shelf Takedown Notice”) and, subject to the provisions of [Section 2.2\(d\)](#), shall include in such Shelf Underwritten Offering all Registrable Securities with respect to which the Company has received written requests for inclusion therein, within five (5) Business Days after sending the Company Shelf Takedown Notice, or, in the case of a Block Trade, as provided in [Section 2.5](#). The Company shall enter into an underwriting agreement in a form as is customary in Underwritten Offerings of securities by the Company with the managing Underwriter or Underwriters selected by the Holders and reasonably acceptable to the Company and shall take all such other reasonable actions as are requested by the managing Underwriter or Underwriters in order to expedite or facilitate the disposition of such Registrable Securities. In connection with any Shelf Underwritten Offering contemplated by this [Section 2.1\(c\)](#), subject to [Section 3.3](#) and [Article IV](#), the underwriting agreement into which each Holder and the Company shall enter shall contain such representations, covenants, indemnities and other rights and obligations as are customary in underwritten offerings of securities by the Company. Any Shelf Underwritten Offering effected pursuant to this [Section 2.1\(c\)](#) shall be counted as a Registration for purposes of the limit on the number of Registrations that can be effected under [Section 2.2](#).

Section 2.2 Demand Registration.

(a) Subject to the provisions of [Section 2.7](#), at any time and from time to time on or after the the closing of the Transactions, each of (i) the Gores Holders of at least a majority in interest of the then-outstanding number of Registrable Securities held by the Gores Holders (the “Gores Demanding Holders”), (ii) the Parent Demanding Holders, and (iii) Parent (together with the Gores Demanding Holders, the Parent Demanding Holders, the “Demanding Holders”), may make a written demand for Registration of all or part of their Registrable Securities on (1) Form F-1 or (2) if available, Form F-3, which in the case of either clause (1) or (2), may be a shelf Registration Statement filed pursuant to Rule 415 under the Securities Act, which written demand shall describe the amount and type of securities to be included in such Registration and the intended method(s) of distribution thereof (such written demand a “Demand Registration”). The Company shall, promptly following the Company’s receipt of a Demand Registration (and, in any event, within twenty days of its receipt of such Demand Registration, notify, in writing all other Holders of Registrable Securities of such demand, and each Holder of Registrable Securities who thereafter wishes to include all or a portion of such Holder’s Registrable Securities in a Registration pursuant to a Demand Registration (each such Holder that includes all or a portion of such Holder’s Registrable Securities in such Registration, a “Requesting Holder”) shall so notify the Company, in writing, within ten (10) days after the receipt by the Holder of the notice from the Company. For the avoidance of doubt, to the extent a Requesting Holder also separately possesses Demand Registration rights pursuant to this [Section 2.2](#), but is not the Holder who exercises such Demand Registration rights, the exercise by such Requesting Holder of its rights pursuant to the foregoing sentence shall not count as the exercise by it of one of its Demand Registration rights. Upon receipt by the Company of any such written notification from a Requesting Holder(s) to the Company, subject to [Section 2.2\(d\)](#), such Requesting Holder(s) shall be entitled to have their Registrable Securities included in a Registration pursuant to a Demand Registration and the Company shall effect, as soon thereafter as practicable, the Registration of all Registrable Securities requested by the Demanding Holders and Requesting Holders pursuant to such Demand Registration.

(b) Notwithstanding the provisions of [Section 2.2\(a\)](#) or any other part of this Agreement, a Registration pursuant to a Demand Registration shall not count as a Registration unless and until (i) the Registration Statement filed with the Commission with respect to a Registration pursuant to a Demand Registration has been

declared effective by the Commission and (ii) the Company has complied with all of its obligations under this Agreement with respect thereto; provided, further, that if, after such Registration Statement has been declared effective, an offering of Registrable Securities in a Registration pursuant to a Demand Registration is subsequently interfered with by any stop order or injunction of the Commission, federal or state court or any other governmental agency, the Registration Statement with respect to such Registration shall be deemed not to have been declared effective, unless and until, (1) such stop order or injunction is removed, rescinded or otherwise terminated, and (2) a majority-in-interest of the Demanding Holders initiating such Demand Registration thereafter affirmatively elect to continue with such Registration and accordingly notify the Company in writing, but in no event later than ten (10) days after the removal, rescission or other termination of such stop order or injunction, of such election; provided, further, that the Company shall not be obligated or required to file another Registration Statement until the Registration Statement that has been previously filed with respect to a Registration pursuant to a Demand Registration by the same Demand Holder becomes effective or is subsequently terminated.

(c) Subject to the provisions of Section 2.2(d), and Section 2.7, if a majority-in-interest of the Demanding Holders so advise the Company as part of their Demand Registration that the offering of the Registrable Securities pursuant to such Demand Registration shall be in the form of an Underwritten Offering, then the right of such Demanding Holder or Requesting Holder (if any) to include its Registrable Securities in such Registration shall be conditioned upon such Holder's participation in such Underwritten Offering and the inclusion of such Holder's Registrable Securities in such Underwritten Offering to the extent provided herein. All such Holders proposing to distribute their Registrable Securities through an Underwritten Offering under this Section 2.2(c), subject to Section 3.3 and Article IV, shall enter into an underwriting agreement in customary form with the Company and the Underwriter(s) selected for such Underwritten Offering by the majority-in-interest of the Demanding Holders initiating the Demand Registration, which Underwriter(s) shall be reasonably satisfactory to the Company.

(d) If a Demand Registration is to be an Underwritten Offering and the managing Underwriter or Underwriters, in good faith, advises the Company, the Demanding Holders and the Requesting Holders (if any) in writing that, in its opinion, the dollar amount or number of Registrable Securities that the Demanding Holders and the Requesting Holders (if any) desire to sell, taken together with all other Registrable Securities or other equity securities that the Company desires to sell for its own account and the Registrable Securities, if any, as to which a Registration has been requested pursuant to separate written contractual piggy-back registration rights held by any other stockholders of the Company who desire to sell, exceeds the maximum dollar amount or maximum number of equity securities that can be sold in such Underwritten Offering without adversely affecting the proposed offering price, the timing, the distribution method, or the probability of success of such offering (such maximum dollar amount or maximum number of such securities, as applicable, the "Maximum Number of Securities"), then the Company shall include in such Underwritten Offering, as follows: (i) first, the Registrable Securities of the Demanding Holders and the Requesting Holders (if any) (pro rata based on the total amount of Registrable Securities held by each such Demanding Holder and Requesting Holder (if any) (such proportion is referred to herein as "Pro Rata")) that can be sold without exceeding the Maximum Number of Securities; (ii) second, to the extent that the Maximum Number of Securities has not been reached under the foregoing clause (i), the Registrable Securities or other equity securities that the Company desires to sell for its own account, which can be sold without exceeding the Maximum Number of Securities; and (iii) third, to the extent that the Maximum Number of Securities has not been reached under the foregoing clauses (i) and (ii), the Registrable Securities or other equity securities of other persons or entities that the Company is obligated to register in a Registration pursuant to separate written contractual arrangements with such persons and that can be sold without exceeding the Maximum Number of Securities.

Section 2.3 Withdrawal of Securities. A Demanding Holder or a Requesting Holder shall have the right to withdraw all or a portion of its Registrable Securities included in a Demand Registration pursuant to Section 2.2(a) or a Shelf Underwritten Offering pursuant to Section 2.1(c) for any or no reason whatsoever upon written notification to the Company and the Underwriter or Underwriters (if any) of its intention to so withdraw

at any time prior to (i) in the case of a Demand Registration not involving an Underwritten Offering, the effectiveness of the applicable Registration Statement or (ii) in the case of any Demand Registration involving an Underwritten Offering or any Shelf Underwritten Offering, prior to the pricing of such Underwritten Offering or Shelf Underwritten Offering; provided, however, that upon withdrawal by a majority-in-interest of the Demanding Holders initiating a Demand Registration (or in the case of a Shelf Underwritten Offering, withdrawal of an amount of Registrable Securities included by the Holders in such Shelf Underwritten Offering, in their capacity as Demanding Holders, being less than the Minimum Amount), the Company shall cease all efforts to secure effectiveness of the applicable Registration Statement or complete the Underwritten Offering, as applicable. Notwithstanding anything to the contrary in this Agreement, the Company shall be responsible for the Registration Expenses incurred in connection with a Registration pursuant to a Demand Registration or a Shelf Underwritten Offering prior to and including its withdrawal under this Section 2.3.

Section 2.4 Piggyback Registration.

(a) If the Company proposes to file a Registration Statement under the Securities Act with respect to an offering of equity securities, or securities or other obligations exercisable or exchangeable for, or convertible into equity securities, for its own account or for the account of stockholders of the Company (or by the Company and by the stockholders of the Company including pursuant to [Section 2.2](#)), other than an Exempted Registration Statement, then the Company shall give written notice of such proposed filing to all of the Holders of Registrable Securities as soon as practicable but not less than ten (10) days (or, in the case of a Block Trade, five (5) Business Days) before the anticipated filing date of such Registration Statement, which notice shall (i) describe the amount and type of securities to be included in such offering, the intended method(s) of distribution (including whether such registration will be pursuant to a shelf Registration Statement), and the proposed price and name of the proposed managing Underwriter or Underwriters, if any, in such offering, (ii) such Holders' rights under this [Section 2.4](#) and (iii) offer to all of the Holders of Registrable Securities the opportunity to register the sale of such number of Registrable Securities as such Holders may request in writing within five (5) days after receipt of such written notice (or in the case of a Block Trade, within two (2) Business Days) (such Registration a "[Piggyback Registration](#)"). The Company shall, in good faith, cause such Registrable Securities identified in a Holder's response notice described in the foregoing sentence to be included in such Piggyback Registration and shall use its reasonable best efforts to cause the managing Underwriter or Underwriters of a proposed Underwritten Offering, if any, to permit the Registrable Securities requested by the Holders pursuant to this [Section 2.4\(a\)](#) to be included in a Piggyback Registration on the same terms and conditions as any similar securities of the Company or Company stockholder(s) for whose account the Registration Statement is to be filed included in such Registration and to permit the sale or other disposition of such Registrable Securities in accordance with the intended method(s) of distribution thereof. All such Holders proposing to distribute their Registrable Securities through an Underwritten Offering under this [Section 2.4\(a\)](#), subject to [Section 3.3](#) and [Article IV](#), shall enter into an underwriting agreement in customary form with the Underwriter(s) selected for such Underwritten Offering by the Company or Company stockholder(s) for whose account the Registration Statement is to be filed. For purposes of this [Section 2.4](#), the filing by the Company of an automatic shelf Registration Statement for offerings pursuant to Rule 415(a) that omits information with respect to any specific offering pursuant to Rule 430B shall not trigger any notification or participation rights hereunder until such time as the Company amends or supplements such Registration Statement to include information with respect to a specific offering of Securities (and such amendment or supplement shall trigger the notice and participation rights provided for in this [Section 2.4](#)).

(b) If a Piggyback Registration is to be an Underwritten Offering and the managing Underwriter or Underwriters, in good faith, advises the Company and the Holders of Registrable Securities participating in the Piggyback Registration in writing that, in its opinion, the dollar amount or number of the Registrable Securities that the Company desires to sell, taken together with (x) the Registrable Securities, if any, as to which Registration has been demanded pursuant to separate written contractual arrangements with persons or entities other than the Holders of Registrable Securities hereunder, (y) the Registrable Securities as to which registration has been requested pursuant [Section 2.4](#), and (z) the Registrable Securities, if any, as to which Registration has

been requested pursuant to separate written contractual piggy-back registration rights of other stockholders of the Company, exceeds the Maximum Number of Securities, then:

(i) if the Registration is undertaken for the Company's account, the Company shall include in any such Registration (1) first, the Registrable Securities or other equity securities that the Company desires to sell for its own account, which can be sold without exceeding the Maximum Number of Securities, (2) second, to the extent that the Maximum Number of Securities has not been reached under the foregoing clause (1), the Registrable Securities of Holders exercising their rights to register their Registrable Securities pursuant to [Section 2.4\(a\)](#), Pro Rata, which can be sold without exceeding the Maximum Number of Securities and (3) third, to the extent that the Maximum Number of Securities has not been reached under the foregoing clauses (1) and (2), the Registrable Securities, if any, as to which Registration has been requested pursuant to written contractual piggy-back registration rights of other stockholders of the Company, which can be sold without exceeding the Maximum Number of Securities; and

(ii) if the Registration is pursuant to a request by persons or entities other than the Holders of Registrable Securities, then the Company shall include in any such Registration (1) first, the Registrable Securities or other equity securities, if any, of such requesting persons or entities, other than the Holders of Registrable Securities, which can be sold without exceeding the Maximum Number of Securities, (2) second, to the extent that the Maximum Number of Securities has not been reached under the foregoing clause (1), the Registrable Securities of Holders exercising their rights to register their Registrable Securities pursuant to this [Section 2.4\(a\)](#), Pro Rata, which can be sold without exceeding the Maximum Number of Securities, (3) third, to the extent that the Maximum Number of Securities has not been reached under the foregoing clauses (1) and (2), the Registrable Securities or other equity securities that the Company desires to sell for its own account, which can be sold without exceeding the Maximum Number of Securities and (4) fourth, to the extent that the Maximum Number of Securities has not been reached under the foregoing clauses (1), (2) and (3), the Registrable Securities or other equity securities for the account of other persons or entities that the Company is obligated to register pursuant to separate written contractual arrangements with such persons or entities, which can be sold without exceeding the Maximum Number of Securities.

(c) Any Holder of Registrable Securities shall have the right to withdraw all or any portion of its Registrable Securities in a Piggyback Registration for any or no reason whatsoever upon written notification to the Company and the Underwriter or Underwriters (if any) of his, her or its intention to withdraw such Registrable Securities from such Piggyback Registration prior to (i) in the case of a Piggyback Registration not involving an Underwritten Offering or Shelf Underwritten Offering, the effectiveness of the applicable Registration Statement or (ii), in the case of any Piggyback Registration involving an Underwritten Offering or any Shelf Underwritten Offering, prior to the pricing of such Underwritten Offering or Shelf Underwritten Offering. The Company (whether on its own good faith determination or as the result of a request for withdrawal by persons pursuant to separate written contractual obligations) may withdraw a Registration Statement filed with the Commission in connection with a Piggyback Registration at any time prior to the effectiveness of such Registration Statement. Notwithstanding anything to the contrary in this Agreement, the Company shall be responsible for the Registration Expenses incurred in connection with the Piggyback Registration prior to and including its withdrawal under this [Section 2.4\(c\)](#).

(d) For purposes of clarity, any Registration effected pursuant to [Section 2.4](#) shall not be counted as a Registration pursuant to a Demand Registration effected under [Section 2.2](#) or a Shelf Underwritten Offering effected under [Section 2.1\(c\)](#).

Section 2.5 Block Trades. Subject to Section 2.7, if the Holders desire to effect a Block Trade, then notwithstanding any other time periods in this Article II, the Holders shall provide written notice to the Company at least five (5) Business Days prior to the date such Block Trade will commence. As expeditiously as possible, the Company shall use its reasonable best efforts to facilitate such Block Trade. The Holders shall use reasonable best efforts to work with the Company and the Underwriters (including by disclosing the maximum number of Registrable Securities proposed to be the subject of such Block Trade) in order to facilitate preparation of the Registration Statement, Prospectus and other offering documentation related to the Block Trade and any related

due diligence and comfort procedures. In the event of a Block Trade, and after consultation with the Company, the Demanding Holders and the Requesting Holders (if any) shall determine the Maximum Number of Securities, the underwriter or underwriters and share price of such offering.

Section 2.6 Rule 415; Removal. If at any time the Commission takes the position that the offering of some or all of the Registrable Securities in a Registration Statement on Form F-3 filed pursuant to this Article II is not eligible to be made on a delayed or continuous basis under the provisions of Rule 415 under the Securities Act (provided, however, the Company shall be obligated to use diligent efforts to advocate with the Commission for the registration of all of the Registrable Securities in accordance with the Commission Guidance, including Compliance and Disclosure Interpretation 612.09) or requires a Holder to be named as an “underwriter,” the Company shall (a) promptly notify each holder of Registrable Securities thereof (or in the case of the Commission requiring a Holder to be named as an “underwriter,” the Holder) and (b) use reasonable best efforts to persuade the SEC that the offering contemplated by such Registration Statement is a valid secondary offering and not an offering “by or on behalf of the issuer” as defined in Rule 415 and that none of the Holders is an “underwriter.” The Holders shall have the right to select one legal counsel designated by the holders of a majority of the Registrable Securities subject to such Registration Statement to review and oversee any registration or matters pursuant to this [Section 2.6](#), including participation in any meetings or discussions with the Commission regarding the Commission’s position and to comment on any written submission made to the Commission with respect thereto. No such written submission with respect to this matter shall be made to the Commission to which the applicable Holders’ counsel reasonably objects. In the event that, despite the Company’s reasonable best efforts and compliance with the terms of this [Section 2.6](#), the Commission refuses to alter its position, the Company shall (a) remove from such Registration Statement such portion of the Registrable Securities (the “**Removed Securities**”) or (b) agree to such restrictions and limitations on the registration and resale of the Registrable Securities as the Commission may require to assure the Company’s compliance with the requirements of Rule 415; provided, however, that the Company shall not agree to name any Holder as an “underwriter” in such Registration Statement without the prior written consent of such Holder. In the event of a share removal pursuant to this [Section 2.6](#), the Company shall give the applicable Holders at least five (5) days prior written notice along with the calculations as to such Holder’s allotment. Subject to the Company’s obligations under the Subscription Agreements, any removal of shares of the Holders pursuant to this [Section 2.6](#) shall first be applied to Holders other than the Holders with securities registered for resale under the applicable Registration Statement and thereafter allocated between the Holders on a pro rata basis based on the aggregate amount of Registrable Securities held by the Holders. In the event of a share removal of the Holders pursuant to this [Section 2.6](#), the Company shall promptly register the resale of any Removed Securities pursuant to [Section 2.1\(b\)](#). In the case of a Form F-1 Shelf filed to register the resale of Removed Securities, upon such date as the Company becomes eligible to register all of the Removed Securities for resale on a Form F-3 Shelf pursuant to the Commission Guidance and, if applicable, without a requirement that any of the Holders be named as an “underwriter” therein, the Company shall use its reasonable best efforts to file a Form F-3 Shelf as promptly as practicable to replace the applicable Form F-1 Shelf and have the Form F-3 Shelf declared effective as promptly as practicable and to cause such Form F-3 Shelf to remain effective, and to be supplemented and amended to the extent necessary to ensure that such Registration Statement is available or, if not available, that another Registration Statement is available, for the resale of all the Registrable Securities thereunder held by the applicable Holders until all such Registrable Securities have ceased to be Registrable Securities.

Section 2.7 Restrictions on Registration and Block Trade Rights; Suspension of Sales; Adverse Disclosure.

(a) Notwithstanding anything in this Agreement to the contrary, in no event will the Gores Holders be entitled, on a collective basis, to initiate more than an aggregate of three (3) Registrations pursuant to a Demand Registration or a Shelf Underwritten Offering (including a Block Trade) under [Section 2.1\(c\)](#) (including with respect to a Block Trade) or [Section 2.2\(a\)](#), as the case may be; provided, however, that a Registration shall not be counted for such purposes unless a Registration Statement that may be available at such time has become effective.

(b) Notwithstanding anything in this Agreement to the contrary, in no event will the Parent Holders be entitled, on a collective basis, to initiate more than (i) an aggregate of ten (10) Registrations pursuant to a Demand Registration, (ii) more than four (4) Shelf Underwritten Offerings in any twelve month period or (iii) more than four (4) Block Trades in any twelve month period, provided that the estimated proceeds of any such Block Trade shall not be less than \$25,000,000, in each of the foregoing clauses (i), (ii) and (iii) pursuant to [Section 2.1\(c\)](#) or [Section 2.2\(a\)](#), as the case may be; provided, however, that a Registration shall not be counted for such purposes unless a Registration Statement that may be available at such time has become effective.

(c) Notwithstanding anything to the contrary contained herein, upon receipt of written notice from the Company that a Registration Statement or Prospectus contains a Misstatement, or in the opinion of counsel for the Company it is necessary to supplement or amend such Prospectus to comply with law, each of the Holders shall forthwith discontinue disposition of Registrable Securities until it has received copies of a supplemented or amended Prospectus correcting the Misstatement or including the information counsel for the Company believes to be necessary to comply with law (it being understood that the Company hereby covenants to prepare and file such supplement or amendment as soon as practicable after the time of such notice such that the Registration Statement or Prospectus, as so amended or supplemented, as applicable, will not include a Misstatement and complies with law), or until it is advised in writing by the Company that the use of the Prospectus may be resumed. The Company shall promptly notify the Holders of the expiration of any period during which it exercised its rights under this [Section 2.7\(b\)](#).

(d) Notwithstanding anything to the contrary contained herein, the Company shall not be obligated to (i) effect any Demand Registration or Underwritten Offering or (ii) file a Registration Statement (or any amendment thereto) or effect an Underwritten Offering (or, if the Company has filed a Registration Statement that includes Registrable Securities, the Company shall be entitled to suspend the offer and sale of Registrable Securities pursuant to such Registration Statement) for a period of up to forty-five (45) days if the Company has determined that the sale of Registrable Securities pursuant a Registration Statement would require the Company to make an Adverse Disclosure, would require the inclusion in such Registration Statement of financial statements that are unavailable to the Company for reasons beyond the Company's control or in the good faith judgment of the Board would be materially detrimental to the Company (any such period, a "[Blackout Period](#)"); provided, however, that in no event shall any Blackout Period together with other Blackout Periods exceed an aggregate of one hundred and twenty (120) days in any twelve (12)-month period. In the event the Company exercises its rights under this [Section 2.7\(c\)](#), the Holders agree to suspend, immediately upon their receipt of the notice referred to above, their use of any Prospectus relating to any Registration in connection with any sale or offer to sell Registrable Securities. The Company shall promptly notify the Holders of the expiration of any period during which it exercised its rights under this [Section 2.7\(d\)](#). The Holders receiving notice of a Blackout Period (and the expiration thereof) shall maintain the confidentiality of the existence (and circumstances, to the extent known) of a Blackout Period. In connection with any notice of a Blackout Period, the Company may not deliver any material non-public information, and, for avoidance of doubt, solely the receipt of notice of a Blackout Period without additional information shall not constitute material non-public information.

ARTICLE III COMPANY PROCEDURES

Section 3.1 General Procedures. If the Company is required to effect the Registration of Registrable Securities, the Company shall use its reasonable best efforts to effect such Registration to permit the sale of such Registrable Securities in accordance with the intended method of distribution thereof, and pursuant thereto the Company shall, as expeditiously as reasonably possible:

(a) prepare and file with the Commission as soon as reasonably practicable a Registration Statement with respect to such Registrable Securities and use its reasonable best efforts to cause such Registration Statement to become effective and remain effective until all Registrable Securities covered by such Registration Statement have been sold;

(b) prepare and file with the Commission such amendments and post-effective amendments to the Registration Statement, and such supplements to the Prospectus as may be required by the Securities Act or rules and regulations thereunder to keep the Registration Statement effective until all Registrable Securities covered by such Registration Statement are sold in accordance with the intended method of distribution set forth in such Registration Statement or supplement to the Prospectus;

(c) prior to filing a Registration Statement or Prospectus, or any amendment or supplement thereto, furnish without charge to the Underwriters, if any, and the Holders of Registrable Securities included in such Registration, and such Holders' legal counsel, copies of such Registration Statement as proposed to be filed, each amendment and supplement to such Registration Statement (in each case including all exhibits thereto and documents incorporated by reference therein), the Prospectus included in such Registration Statement (including each preliminary Prospectus), and such other documents as the Underwriters and the Holders of Registrable Securities included in such Registration or the legal counsel for any such Holders may reasonably request in order to facilitate the disposition of the Registrable Securities owned by such Holders;

(d) prior to any public offering of Registrable Securities, but in any case no later than the effective date of the applicable Registration Statement, use its reasonable best efforts to (i) register or qualify the Registrable Securities covered by the Registration Statement under such securities or "blue sky" laws of such jurisdictions in the United States as the Holders of Registrable Securities included in such Registration Statement (in light of their intended method of distribution) may reasonably request and to keep such registration or qualification in effect for so long as such Registration Statement remains in effect and (ii) take such action as may be necessary to cause such Registrable Securities covered by the Registration Statement to be registered with or approved by such other governmental authorities as may be necessary by virtue of the business and operations of the Company or otherwise and do any and all other acts and things that may be necessary to enable the Holders of Registrable Securities included in such Registration Statement to consummate the disposition of such Registrable Securities in such jurisdictions; provided, however, that the Company shall not be required to qualify generally to do business in any jurisdiction where it would not otherwise be required to qualify or take any action to which it would be subject to general service of process or taxation in any such jurisdiction where it is not then otherwise so subject;

(e) cause all such Registrable Securities to be listed on Nasdaq no later than the effective date of such Registration Statement;

(f) provide a transfer agent or warrant agent, as applicable, and registrar for all such Registrable Securities no later than the effective date of such Registration Statement;

(g) furnish to each seller of Registrable Securities covered by such Registration Statement such number of conformed copies of such Registration Statement and of each such amendment and supplement thereto (in each case including all exhibits), such number of copies of the Prospectus contained in such Registration Statement (including each preliminary Prospectus and any summary Prospectus) and any other Prospectus filed under Rule 424 under the Securities Act, in conformity with the requirements of the Securities Act, and such other documents as such seller may reasonably request;

(h) advise each seller of such Registrable Securities, promptly after it shall receive notice or obtain knowledge thereof, of the issuance of any stop order by the Commission suspending the effectiveness of such Registration Statement or Prospectus the initiation or threatening of any proceeding for such purpose and promptly use its reasonable best efforts to amend or supplement such Registration Statement or Prospectus or prevent the issuance of any stop order or to obtain its withdrawal if such stop order should be issued, as applicable;

(b) The Company will use its reasonable best efforts to ensure that no Underwriter shall require any Holder to make any representations or warranties to or agreements with the Company or the Underwriters other than representations, warranties or agreements regarding such Holder and such Holder's intended method of distribution and any other representation required by law, and if, despite the Company's reasonable best efforts, an Underwriter requires any Holder to make additional representation or warranties to or agreements with such Underwriter, such Holder may elect not to participate in such Underwritten Offering (but shall not have any claims against the Company as a result of such election). Any liability of such Holder to any Underwriter or other person under such underwriting agreement shall be limited to an amount equal to the proceeds (net of expenses and underwriting discounts and commissions) that it derives from such registration.

Section 3.4 Covenants of the Company. As long as any Holder shall own Registrable Securities, the Company hereby covenants and agrees:

(a) the Company will not file any Registration Statement or Prospectus included therein with the Commission which refers to any Holder of Registrable Securities by name or otherwise without the prior written approval of such Holder, which may not be unreasonably withheld, conditioned or delayed;

**ARTICLE IV
INDEMNIFICATION AND CONTRIBUTION**

Section 4.1 Indemnification.

(a) The Company agrees to indemnify, to the extent permitted by law, each Holder of Registrable Securities, its officers, directors, partners, stockholders or members, employees, agents, investment advisors and each person who controls such Holder (within the meaning of the Securities Act and Exchange Act) from and against all losses, claims, damages, liabilities and expenses (including attorneys' fees), joint or several (or actions or proceedings, whether commenced or threatened, in respect thereof) (collectively, "Claims"), to which any such Holder or other persons may become subject, insofar as such Claims arise out of or are based on any untrue or alleged untrue statement of any material fact contained in any Registration Statement, Prospectus or preliminary Prospectus or any amendment thereof or supplement thereto or any omission or alleged omission of a material fact required to be stated therein or necessary to make the statements therein not misleading, and the Company will reimburse such Holder or other person for any legal or any other expenses reasonably incurred by them in connection with investigating or defending any such Claim; except insofar as the Claim or expense arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission made in such filing in reliance upon and in conformity with information furnished in writing to the Company by such Holder expressly for use therein. The Company shall indemnify the Underwriters, their officers and directors and each person who controls such Underwriters (within the meaning of the Securities Act and Exchange Act) to the same extent as provided in the foregoing with respect to the indemnification of the Holder.

(b) In connection with any Registration Statement in which a Holder of Registrable Securities is participating, as a condition to including any Registrable Securities in any Registration Statement, the Company shall have received an undertaking reasonably satisfactory to it from such Holder, to indemnify the Company, its directors and officers and agents and each person who controls the Company (within the meaning of the Securities Act and Exchange Act) from and against any Claims, to which any the Company or such other persons may become subject, insofar as such Claims arise out of or are based on any untrue statement of any material fact contained in the Registration Statement, Prospectus or preliminary Prospectus or any amendment thereof or supplement thereto or any omission of a material fact required to be stated therein or necessary to make the statements therein not misleading, but only to the extent that such untrue statement or omission is contained in any information furnished in writing by such Holder expressly for use therein; provided, however, that the obligation to indemnify shall be several, not joint and several, among such Holders of Registrable Securities, and the liability of each such Holder of Registrable Securities shall be in proportion to and limited to the net proceeds received by such Holder from the sale of Registrable Securities pursuant to such Registration Statement. The Holders of Registrable Securities shall indemnify the Underwriters, their officers, directors and each person who controls such Underwriters (within the meaning of the Securities Act and Exchange Act) to the same extent as provided in the foregoing with respect to indemnification of the Company and the Company shall use its reasonable best efforts to ensure that no Underwriter shall require any Holder of Registrable Securities to provide any indemnification other than that provided hereinabove in this Section 4.1(b), and, if, despite the Company's reasonable best efforts, an Underwriter requires any Holder of Registrable Securities to provide additional indemnification, such Holder may elect not to participate in such Underwritten Offering (but shall not have any claim against the Company as a result of such election).

(c) Any person entitled to indemnification herein shall (i) give prompt written notice to the indemnifying party of any Claim with respect to which it seeks indemnification (provided that the failure to give prompt notice shall not impair any person's right to indemnification hereunder to the extent such failure has not materially prejudiced the indemnifying party) and (ii) unless in such indemnified party's reasonable judgment a conflict of interest between such indemnified and indemnifying parties may exist with respect to such Claim, permit such indemnifying party to assume the defense of such Claim with counsel reasonably satisfactory to the indemnified party. If such defense is assumed, the indemnifying party shall not be subject to any liability for any settlement made by the indemnified party without its consent (but such consent shall not be unreasonably

withheld). An indemnifying party who is not entitled to, or elects not to, assume the defense of a claim shall not be obligated to pay the fees and expenses of more than one (1) counsel for all parties indemnified by such indemnifying party with respect to such claim, unless in the reasonable judgment of any indemnified party a conflict of interest may exist between such indemnified party and any other of such indemnified parties with respect to such claim. No indemnifying party shall, without the consent of the indemnified party, consent to the entry of any judgment or enter into any settlement which cannot be settled in all respects by the payment of money (and such money is so paid by the indemnifying party pursuant to the terms of such settlement) and which settlement includes a statement or admission of fault or culpability on the part of such indemnified party or does not include as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all liability in respect to such claim or litigation.

(d) The indemnification provided for under this Agreement shall remain in full force and effect regardless of any investigation made by or on behalf of the indemnified party or any officer, director, partners, stockholders or members, employees, agents, investment advisors or controlling person of such indemnified party and shall survive the Transfer of Registrable Securities.

(e) If the indemnification provided under [Section 4.1](#) from the indemnifying party is unavailable or insufficient to hold harmless an indemnified party in respect of any Claims, then the indemnifying party, in lieu of indemnifying the indemnified party, shall contribute to the amount paid or payable by the indemnified party as a result of such Claims (i) in such proportion as is appropriate to reflect the relative benefits received by the indemnifying party or parties on the one hand and the indemnified party or parties on the other hand from the offering of the Registrable Securities or (ii) if the allocation provided by clause (i) above is not permitted by applicable law, in such proportion as is appropriate to reflect not only the relative benefits referred to in clause (ii) above but also to reflect the relative fault of the indemnifying party or parties on the other hand in connection with the statements or omissions that resulted in such Claims, as well as any other relevant equitable considerations; provided, however, that the liability of any Holder or any director, officer, employee, agent, investment advisor or controlling person thereof under this [Section 4.1\(e\)](#) shall be limited to the amount of the net proceeds received by such Holder in such offering giving rise to such liability. The amount paid or payable by a party as a result of the losses or other liabilities referred to above shall be deemed to include, subject to the limitations set forth in [Section 4.1\(a\)](#), [Section 4.1\(b\)](#) and [Section 4.1\(c\)](#) above, any legal or other fees, charges or expenses reasonably incurred by such party in connection with any investigation or proceeding. The parties hereto agree that it would not be just and equitable if contribution pursuant to this [Section 4.1\(e\)](#) were determined by pro rata allocation or by any other method of allocation, which does not take account of the equitable considerations referred to in this [Section 4.1\(e\)](#). No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution pursuant to this [Section 4.1\(e\)](#) from any person who was not guilty of such fraudulent misrepresentation.

Section 5.2 Assignment; No Third Party Beneficiaries.

(a) This Agreement and the rights, duties and obligations of the Company hereunder may not be assigned or delegated by the Company in whole or in part.

(b) Prior to the expiration of any lock-up as described in the Lock-Up Agreements, no Holder may assign or delegate such Holder's rights, duties or obligations under this Agreement, in whole or in part, except in connection with a transfer of Registrable Securities by such Holder to a Permitted Transferee (but subject to such Permitted Transferee, if required pursuant to the Lock-Up Agreements, agreeing in writing, in form and substance reasonably satisfactory to the Company, to be bound by the provisions of this Agreement).

(c) This Agreement and the provisions hereof shall be binding upon and shall inure to the benefit of each of the parties and its successors and the permitted assigns of the applicable Holders, which shall include Permitted Transferees.

(d) This Agreement shall not confer any rights or benefits on any persons that are not parties hereto, other than as expressly set forth in this Agreement and this [Section 5.2](#).

(e) No assignment by any party hereto of such party's rights, duties and obligations hereunder shall be binding upon or obligate the Company unless and until the Company shall have received (i) written notice of such assignment as provided in [Section 5.1](#) and (ii) the written agreement of the assignee, in a form reasonably satisfactory to the Company, to be bound by the terms and provisions of this Agreement (which may be accomplished by an addendum or certificate of joinder to this Agreement). Any Transfer or assignment made other than as provided in this [Section 5.2](#) shall be null and void.

Section 5.3 Counterparts. This Agreement may be executed in multiple counterparts, each of which when executed and delivered shall thereby be deemed to be an original and all of which taken together shall constitute one and the same instrument. Any party hereto may execute and deliver signed counterparts of this Agreement to the other Parties by electronic mail or other electronic transmission in portable document format (.PDF) or any other electronic signature complying with the United States ESIGN Act of 2000 (including www.docusign.com), each of which shall be deemed an original.

Section 5.4 Governing Law. This Agreement, and all claims or causes of action based upon, arising out of, or related to this Agreement or the transactions contemplated herein, shall be governed by, and construed in accordance with, the laws of the State of Delaware, without giving effect to principles or rules of conflict of laws to the extent such principles or rules would require or permit the application of laws of another jurisdiction.

Section 5.5 Jurisdiction. In any action or proceeding arising out of or relating to this Agreement or any of the transactions contemplated herein: (a) each of the parties hereto hereby irrevocably and unconditionally consents and submits to the exclusive jurisdiction and venue of the Court of Chancery of the State of Delaware (unless the federal courts have exclusive jurisdiction over the matter, in which case the United States District Court for the District of Delaware); (b) each of the parties hereto irrevocably waives and agrees that it will not attempt to deny or defeat such jurisdiction by motion or other request for leave from such court; and (c) each of the parties hereto agrees that it will not bring any such action in any court other than the Court of Chancery of the State of Delaware (unless the federal courts have exclusive jurisdiction over the matter, in which case the United States District Court for the District of Delaware).

Section 5.6 WAIVER OF TRIAL BY JURY. TO THE EXTENT PERMITTED BY LAW, EACH PARTY HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVES (AND SHALL CAUSE ITS SUBSIDIARIES AND AFFILIATES TO WAIVE) THE RIGHT TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION BASED HEREON, ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED HEREIN OR ANY COURSE OF CONDUCT, COURSE OF DEALINGS, STATEMENTS (WHETHER VERBAL OR WRITTEN) OR ACTIONS OF ANY PARTY IN CONNECTION HEREWITH. EACH PARTY ACKNOWLEDGES THAT (A) THIS WAIVER IS A MATERIAL INDUCEMENT FOR THE OTHER PARTIES TO ENTER INTO THIS AGREEMENT, AND (B) NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THAT FOREGOING WAIVER.

Section 5.7 Severability. If any term or other provision of this Agreement is invalid, illegal or incapable of being enforced by any rule of law, or public policy, all other conditions and provisions of this Agreement shall nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated herein is not affected in any manner materially adverse to any party hereto. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties hereto as closely as possible in a mutually acceptable manner in order that the transactions contemplated herein be consummated as originally contemplated to the fullest extent possible.

Section 5.8 Modification or Amendment. Upon the written consent of the Company and the Holders of at least a majority in interest of the Registrable Securities at the time in question, compliance with any of the provisions, covenants and conditions set forth in this Agreement may be waived, or any of such provisions, covenants or conditions may be amended or modified; provided, however, that notwithstanding the foregoing, (a) any amendment hereto or waiver hereof that adversely affects one Holder, solely in its capacity as a holder of Registrable Securities, in a manner that is adverse and different from the other Holders (in such capacity) shall require the consent of the Holder so affected, (b) any amendment hereto or waiver hereof that adversely affects the Gores Holders solely in their capacity as Gores Holders in a manner that is adverse and different from the other Holders, shall require the consent of a majority-in-interest of the then-outstanding number of Registrable Securities held by the Gores Holders; and (c) any amendment hereto or waiver hereof that adversely affects Parent or the Parent Holders, as applicable, solely in their capacity as Parent or Parent Holders in a manner that is adverse and different from the other Holders, shall require the consent of a majority-in-interest of the then-outstanding number of Registrable Securities held by the Parent or the Parent Holders. No course of dealing between any Holder or the Company and any other party hereto or any failure or delay on the part of a Holder or the Company in exercising any rights or remedies under this Agreement shall operate as a waiver of any rights or

remedies of any Holder or the Company. No single or partial exercise of any rights or remedies under this Agreement by a party shall operate as a waiver or preclude the exercise of any other rights or remedies hereunder or thereunder by such party.

Section 5.9 Other Registration Rights. Other than pursuant to the terms of the Subscription Agreements, the Company represents and warrants that no person, other than a Holder of Registrable Securities, has any right to require the Company to register any securities of the Company for sale or to include such securities of the Company in any Registration filed by the Company for the sale of securities for its own account or for the account of any other person.

Further, the Company represents and warrants that this Agreement supersedes any other registration rights agreement or agreement with similar terms and conditions among the parties thereto and in the event of a conflict between any such agreement or agreements and this Agreement, the terms of this Agreement shall prevail.

Section 5.10 Term. This Agreement shall terminate upon the earlier of the date as of which (a) all of the Registrable Securities have been sold pursuant to a Registration Statement (but in no event prior to the applicable period referred to in Section 4(a)(3) of the Securities Act and Rule 174 thereunder (or any successor rule promulgated thereafter by the Commission)) or (b) as to any Holder individually, such Holder is permitted to sell all of such Holder's Registrable Securities under Rule 144 (or any similar provision) under the Securities Act without limitation on the amount of securities sold or the manner of sale and the reporting requirements of Rule 144(i)(2) are not applicable or has otherwise sold all of the Registrable Securities held by such Holder. The provisions of Article IV shall survive any termination to the extent related to a Claim arising prior to the termination of this Agreement.

Section 5.11 Interpretation. The parties hereto have participated jointly in negotiating and drafting this Agreement. If an ambiguity or a question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the parties hereto, and no presumption or burden of proof shall arise favoring or disfavoring any party hereto by virtue of the authorship of any provision of this Agreement. Whenever the words "include", "includes" or "including" are used in this Agreement they shall be deemed to be followed by the words "without limitation." Words in the singular form will be construed to include the plural and vice versa, unless the context requires otherwise. Reference to any law means such law as amended, modified, codified, replaced or re-enacted, in whole or in part, from time to time, including rules, regulations, enforcement procedures and any interpretations promulgated thereunder. Underscored references to Articles or Sections shall refer to those portions of this Agreement, and any underscored references to a clause shall, unless otherwise identified, refer to the appropriate clause within the same Section in which such reference occurs. The headings for this Agreement are for reference purposes only and do not affect in any way the meaning or interpretation of this Agreement. The use of the terms "hereunder", "hereof", "hereto" and words of similar import shall refer to this Agreement as a whole and not to any particular Article, Section or clause of this Agreement. The word "or" is not exclusive and is deemed to have the meaning "and/or" unless expressly indicated otherwise. Any reference to "days" means calendar days unless Business Days are expressly specified. When calculating the period of time before which, within which or following which any act is to be done or step taken pursuant to this Agreement, the date that is the reference date in calculating such period shall be excluded, and if the last day of such period is not a Business Day, the period shall end on the immediately following Business Day. References to "writing", "written" and comparable terms refer to printing, typing and other means of reproducing words (including electronic media) in a visible form. References to a Person are also to its successors and permitted assigns.

The terms and conditions of the Proposed Transaction are set

forth in more detail in the Agreement. The summary of the Proposed Transaction set forth above is qualified in its entirety by the terms of the Agreement. Defined terms used herein that are not defined herein have the meanings ascribed to them in the Agreement.

We have been requested by the Board of Directors of the Company to render our opinion with respect to the fairness, from a financial point of view, to the holders of GG Class A Shares, other than Gores Guggenheim Sponsor LLC (the "Sponsor") and its affiliates (the "Excluded Holders"), of the Class A Share Merger Consideration to be received by the holders of GG Class A Shares, other than the Excluded Holders, in the Merger pursuant to the Agreement, after giving effect to the Pre-Closing Reorganization. We have not been requested to opine as to, and our opinion does not in any manner address, the Company's underlying business decision to proceed with or effect the Proposed Transaction or the likelihood of consummation of the Proposed Transaction. In addition, we express no opinion on, and our opinion does not in any manner address, the fairness of the amount or the nature of any compensation to any officers, directors or employees of any parties to the Proposed Transaction, or any class of such persons, relative to the Class A Share Merger Consideration to be received by the holders of GG Class A Shares, other than Excluded Holders, in the Merger pursuant to the Agreement, after giving effect to the Pre-Closing Reorganization, or otherwise. Our opinion does not address the relative merits of the Proposed Transaction as compared to any other transaction or business strategy in which the Company might engage. We are not legal, tax, accounting, environmental, technology, science, or regulatory advisors, and we do not express any views or opinions as to any legal, tax, accounting, environmental, technology, science, or regulatory matters relating to the Company, the Polestar Business (as defined below), ListCo, the Proposed Transaction, or otherwise. We understand and have assumed that the Company has obtained or will obtain such advice as it deems necessary or appropriate from qualified legal, tax, accounting, environmental, technology, science, regulatory, and other professionals. The Company has advised us, and we have assumed, that the Proposed Transaction will qualify as a tax-free reorganization for all applicable tax purposes in all applicable jurisdictions.

In arriving at our opinion, we reviewed and analyzed: (1) a draft of the Agreement, dated as of September 24, 2021 and the specific terms of the Proposed Transaction, (2) certain publicly available business and financial information that we deemed to be generally relevant concerning Polestar Singapore, Polestar Sweden and their respective subsidiaries (collectively, the "Polestar Business") and the Company, (3) financial and operating information with respect to the business, operations and prospects of the Company and the Polestar Business furnished to us by the Company and the Polestar Business, including financial projections with respect to the future financial performance of ListCo and its subsidiaries prepared by management of the Polestar Business, as reviewed and approved by the Company and approved for our use by the Company (the "Projections"), (4) the balance sheet of ListCo as of June 30, 2021, taking into account the pro forma effects of the Proposed Transaction, (5) the capitalization of the Company as of September 23, 2021, the expected pro forma capitalization of ListCo immediately following the completion of the Pre-Closing Reorganization but prior to the completion of the Merger and the Private Placements and the expected pro forma capitalization of ListCo immediately following the completion of the Proposed Transaction and (6) a comparison of the projected financial performance of ListCo and its subsidiaries with those of other companies and businesses that we deemed relevant. In addition, we have had discussions with the managements of the Company and the Polestar Business concerning the business, operations, assets, liabilities, financial condition and prospects of the Company, the Polestar Business and ListCo and its subsidiaries and have undertaken such other studies, analyses and investigations as we deemed appropriate.

In arriving at our opinion, we have assumed and relied upon the accuracy and completeness of the financial and other information used by us without any independent verification of such information (and have not

assumed responsibility or liability for any independent verification of such information) and have further relied upon the assurances of the managements of the Company and the Polestar Business that they are not aware of any facts or circumstances that would make such information inaccurate or misleading. With respect to the Projections, upon the advice of the Company, we have assumed that such projections have been reasonably prepared on a basis reflecting the best currently available estimates and judgments of the managements of the Company and the Polestar Business as to the future financial performance of ListCo and its subsidiaries and that ListCo and its subsidiaries will perform in accordance with such projections. We assume no responsibility for and we express no view as to any such projections or estimates or the assumptions on which they are based. In arriving at our opinion, we have not conducted a physical inspection of the properties and facilities of the Polestar Business or the Company and have not made or obtained any evaluations or appraisals of the assets or liabilities of the Polestar Business or the Company. We have not evaluated the solvency or creditworthiness of the Company, Parent, ListCo, the Polestar Business or any other party to the Proposed Transaction, the fair value of the Company, Parent, ListCo, the Polestar Business or any of their respective assets or liabilities, or whether the Company, Parent, ListCo, the Polestar Business or any other party to the Proposed Transaction is paying or receiving reasonably equivalent value in the Proposed Transaction under any applicable foreign, state, or federal laws relating to bankruptcy, insolvency, fraudulent transfer, or similar matters, nor have we evaluated, in any way, the ability of the Company, Parent, ListCo, the Polestar Business or any other party to the Proposed Transaction to pay its obligations when they come due. In addition, we have relied, with the consent of the Company's management, on the assessments of the Company as to ListCo's and its subsidiaries' ability to retain key employees, customers, suppliers, commercial relationships, and strategic partners and other key existing and contemplated future agreements, relationships and arrangements, including, without limitation, with VCC, PSD Investment Limited and their respective affiliates. In addition, we, at your direction, (i) have assumed that each ListCo Class A ADS, each ListCo Class A Share, each ListCo Class B Share and each VCC Preference Share has a value of \$10.00 per share (with such \$10.00 value being based on the Company's initial public offering and the Company's approximate cash per GG Class A Share outstanding (excluding, for the avoidance of doubt, the dilutive impact of outstanding GG Class F Shares or any GG Warrants)), (ii) did not evaluate or take into account the Earnout Consideration and (iii) evaluated the fairness, from a financial point of view, to the holders of GG Class A Shares, other than the Excluded Holders, of the Class A Share Merger Consideration to be received by the holders of GG Class A Shares, other than the Excluded Holders, in the Merger pursuant to the Agreement, after giving effect to the Pre-Closing Reorganization, based solely on a comparison of (a) the sum of (x) the Equity Value, (y) the number of ListCo Class A ADS to be issued as part of the GG Share Consideration multiplied by \$10.00 and (z) the aggregate cash purchase price to be paid to ListCo by the investors in the Private Placements (for the avoidance of doubt, other than with respect to the subscription by VCC (including through Snita) for, and the issuance by ListCo to VCC (or Snita) of, on the Closing Date, the VCC Preference Shares) and (b) the implied aggregate equity value reference ranges for ListCo and its subsidiaries that we believe are indicated by our financial analyses of ListCo and its subsidiaries.

In addition, you have not authorized us to, and we did not, (a) initiate any discussions with, or solicit any indications of interest from any third parties with respect to any alternatives to the Proposed Transaction, (b) participate in the structuring or negotiation of the Proposed Transaction, (c) advise the Board of Directors of the Company, the Company or any other party with respect to alternatives to the Proposed Transaction, or (d) identify or introduce to the Board of Directors of the Company, the Company or any other party any prospective investors, lenders or other participants in the Proposed Transaction. Our opinion necessarily is based upon market, economic and other conditions as they exist on, and can be evaluated as of, the date of this letter. We assume no responsibility for updating or revising our opinion based on events or circumstances that may occur after the date of this letter. Our opinion addresses only the fairness, from a financial point of view, to the holders of GG Class A Shares, other than the Excluded Holders, of the Class A Share Merger Consideration to be

received by the holders of GG Class A Shares, other than the Excluded Holders, in the Merger pursuant to the Agreement, after giving effect to the Pre-Closing Reorganization. We express no opinion as to, and our opinion does not address, any other terms, aspects, or implications of the Proposed Transaction or the Agreement or any related agreements, including, without limitation, (i) the Earnout Consideration, the Parent Lock-Up Agreement, the Sponsor and Supporting Sponsor Stockholders Lock-Up Agreement or the Registration Rights Agreement, (ii) other than assuming the consummation thereof in accordance with the Agreement, the Pre-Closing Reorganization or the Private Placements, (iii) any term or aspect of the Proposed Transaction that is not susceptible to financial analysis, (iv) the fairness of the Proposed Transaction, or all or any portion of the consideration in connection therewith, to any other security holders of the Company (including, without limitation, the Excluded Holders or holders of Public Warrants or Private Placement Warrants), the Polestar Business, Parent, ListCo or any other person or any creditors or other constituencies of the Company, the Polestar Business, Parent, ListCo or any other person, (v) the fairness of any portion or aspect of the Proposed Transaction to any one class or group of the Company's or any other party's security holders or other constituencies relative to any other class or group of the Company's or such other party's security holders or other constituencies (including, without limitation, the fairness of the consideration to be received in the Merger by the Excluded Holders relative to the holders of GG Class A Shares, other than the Excluded Holders), (vi) the appropriate capital structure of ListCo or whether ListCo should be issuing debt or equity securities or a combination of both, and (vii) the prices at which securities of ListCo or the Company may trade, be purchased or sold at any time, including following announcement or consummation of the Proposed Transactions. Our opinion should not be viewed as providing any assurance that the market value of the securities of ListCo to be held by the holders of GG Class A Shares or any other security holders of the Company after the consummation of the Proposed Transaction will be in excess of the market value of the GG Class A Shares or other securities of the Company owned by such security holders at any time prior to the announcement or consummation of the Proposed Transaction. In addition, we make no representation or warranty regarding the adequacy of this opinion or the analyses underlying this opinion for the purpose of the Company's compliance with the terms of its constituent documents, the rules of any securities exchange or any other general or particular purpose.

We have assumed that the executed Agreement will conform in all material respects to the last draft reviewed by us. In addition, we have assumed the accuracy of the representations and warranties contained in the Agreement and all agreements related thereto. We have also assumed, at the direction of the Company's management, that all material governmental, regulatory and third party approvals, consents and releases for the Proposed Transaction will be obtained within the constraints contemplated by the Agreement and that the Proposed Transaction will be consummated in accordance with the terms of the Agreement without waiver, modification or amendment of any material term, condition or agreement thereof. We do not express any opinion as to any tax or other consequences that might result from the Proposed Transaction, nor does our opinion address any legal, tax, regulatory or accounting matters, as to which we understand that the Company has obtained such advice as it deemed necessary from qualified professionals.

Based upon and subject to the foregoing, we are of the opinion as of the date hereof that, from a financial point of view, the Class A Share Merger Consideration to be received by the holders of GG Class A Shares, other than the Excluded Holders, in the Merger pursuant to the Agreement, after giving effect to the Pre-Closing Reorganization, is fair to the holders of GG Class A Shares, other than the Excluded Holders.

We have acted as financial advisor to the Company in connection with the Proposed Transaction and will receive a fee for our services, all of which is payable upon the consummation of the Proposed Transaction. In addition, the Company has agreed to reimburse a portion of our expenses and indemnify us for certain liabilities that may arise out of our engagement. In the past two years, we have not performed any investment banking

services for the Company, the Sponsor, their respective affiliates, the Sponsor's portfolio companies or Polestar Sweden, but may perform such services in the future, and in the past two years, have not received, but expect to receive, customary fees for any such future services.

In addition, we and our affiliates in the past have provided, currently are providing, or in the future may, provide investment banking services to Volvo AB ("Volvo"), Zhejiang Geely Holding Group Co. ("Geely"), affiliates of each of which are significant shareholders of Parent, or certain of their respective affiliates and have received or in the future may receive customary fees for rendering such services, including having acted or acting as arranger, bookrunner and/or lender for Volvo, Geely or certain of their respective affiliates in connection with financing transactions.

Barclays Capital Inc., its subsidiaries and its affiliates engage in a wide range of businesses from investment and commercial banking, lending, asset management and other financial and non-financial services. In the ordinary course of our business, we and our affiliates may actively trade and effect transactions in the equity, debt and/or other securities (and any derivatives thereof) and financial instruments (including loans and other obligations) of the Company, ListCo, Volvo and Geely for our own account and for the accounts of our customers and, accordingly, may at any time hold long or short positions and investments in such securities and financial instruments.

This opinion, the issuance of which has been approved by our Fairness Opinion Committee, is for the use and benefit of the Board of Directors of the Company and is rendered to the Board of Directors in connection with its consideration of the Proposed Transaction. This opinion is not intended to be and does not constitute a recommendation to any security holder of the Company as to how such security holder should vote or act with respect to the Proposed Transaction, including, without limitation, whether any such security holder should redeem their securities of the Company or whether any party should participate in the Private Placements.

Very truly yours,

/s/ BARCLAYS CAPITAL INC.

**ARTICLE III
ADMINISTRATION**

3.1 Authority of the Committee. The Plan shall be administered by the Committee. Subject to the terms of the Plan and Applicable Law, the Committee shall have full authority to grant Awards to Eligible Individuals under the Plan. In particular, the Committee shall have the authority to:

- (a) determine whether and to what extent Awards, or any combination thereof, are to be granted hereunder to one or more Eligible Individuals;
- (b) determine the number of Shares to be covered by each Award granted hereunder;
- (c) determine the terms and conditions, not inconsistent with the terms of the Plan, of any Award granted hereunder (including, but not limited to, the exercise or purchase price (if any), any restriction or limitation, any vesting schedule or acceleration thereof, or any forfeiture restrictions or waiver thereof, regarding any Award and the Shares relating thereto, based on such factors, if any, as the Committee shall determine, in its sole discretion);
- (d) determine the amount of cash to be covered by each Award granted hereunder;
- (e) determine whether, to what extent, and under what circumstances grants of Options and other Awards under the Plan are to operate on a tandem basis and/or in conjunction with or apart from other awards made by the Company outside of the Plan;
- (f) determine whether and under what circumstances an Award may be settled in cash, Shares, other property, or a combination of the foregoing;
- (g) determine whether, to what extent and under what circumstances cash, Shares, or other property and other amounts payable with respect to an Award under the Plan shall be deferred either automatically or at the election of the Participant;
- (h) modify, waive, amend, or adjust the terms and conditions of any Award, at any time or from time to time, including but not limited to Performance Goals;
- (i) determine whether a Stock Option is an Incentive Stock Option or Non-Qualified Stock Option;
- (j) determine whether to require a Participant, as a condition of the granting of any Award, to not sell or otherwise dispose of Shares acquired pursuant to the exercise or vesting of an Award for a period of time as determined by the Committee, in its sole discretion, following the date of the acquisition of such Award or Shares; and
- (k) modify, extend, or renew an Award, subject to Article XII and Section 6.3(l).

The good faith determinations of the Committee on the matters referred to in this Section 3.1 shall be conclusive and binding on all parties, including the Company, its Affiliates, Participants and any Person claiming any rights under the Plan from or through any Participant. The Committee's determinations under the Plan need not be uniform and may be made by it selectively among Eligible Individuals who are eligible to receive, or actually receive, Awards. Without limiting the generality of the foregoing, the Committee shall be entitled to make non-uniform and selective determinations, amendments and adjustments to Awards awarded under the Plan, and to enter into non-uniform and selective Award Agreements. The express grant of any specific power to the Committee, and the taking of any action by the Committee, shall not be construed as limiting any power or authority of the Committee.

3.2 Guidelines. Subject to Article XII hereof, the Committee shall have the authority to adopt, alter, and repeal such administrative rules, guidelines, and practices governing the Plan and perform all acts, including the delegation of its responsibilities (to the extent permitted by Applicable Law and applicable stock exchange rules), as it shall, from time to time, deem advisable; to construe and interpret the terms and provisions of the Plan and any Award issued under the Plan (and any agreements or sub-plans relating thereto); and to otherwise supervise the administration of the Plan. The Committee may correct any defect, supply any omission, or reconcile any inconsistency in the Plan or in any agreement relating thereto in the manner and to the extent it shall deem necessary to effectuate the purpose and intent of the Plan. The Committee may adopt special rules, sub-plans, guidelines, and provisions for persons who are residing in or employed in, or subject to, the taxes of any domestic or foreign jurisdictions to satisfy or accommodate applicable foreign laws or to qualify for preferred tax treatment of such domestic or foreign jurisdictions.

3.3 Decisions Final. Any decision, interpretation, or other action made or taken in good faith by or at the direction of the Company, the Board, or the Committee (or any of its members) arising out of or in connection with the Plan shall be within the absolute discretion of all and each of them, as the case may be, and shall be final, binding, and conclusive on the Company and all employees and Participants and their respective heirs, executors, administrators, successors, and assigns.

3.4 Procedures. If the Committee is appointed, the Board shall designate one of the members of the Committee as chairman and the Committee shall hold meetings, subject to the by-laws of the Company, at such times and places as it shall deem advisable, including, without limitation, by telephone conference or by written consent to the extent permitted by Applicable Law. A majority of the Committee members shall constitute a quorum. All determinations of the Committee shall be made by a majority of its members. Any decision or determination reduced to writing and signed by all of the Committee members in accordance with the by-laws of the Company, shall be fully effective as if it had been made by a vote at a meeting duly called and held. The Committee shall keep minutes of its meetings and shall make such rules and regulations for the conduct of its business as it shall deem advisable.

3.5 Designation of Consultants/Liability; Delegation of Authority.

(a) The Committee may designate employees of the Company and professional advisors to assist the Committee in the administration of the Plan and (to the extent permitted by Applicable Law) may grant authority to officers of the Company to grant Awards and/or execute agreements or other documents on behalf of the Committee.

(b) The Committee may employ such legal counsel, consultants, and agents as it may deem desirable for the administration of the Plan and may rely upon any opinion received from any such counsel or consultant and any computation received from any such consultant or agent. Expenses incurred by the Committee or the Board in the engagement of any such counsel, consultant, or agent shall be paid by the Company. The Committee, its members, and any person designated pursuant to sub-section (a) above shall not be liable for any action or determination made in good faith with respect to the Plan. To the maximum extent permitted by Applicable Law, no officer of the Company or member or former member of the Committee or of the Board shall be liable for any action or determination made in good faith with respect to the Plan or any Award granted under it.

(c) The Committee may delegate any or all of its powers and duties under the Plan to a subcommittee of directors or to any officer of the Company, including the power to perform administrative functions and grant Awards; provided, that such delegation does not (i) violate Applicable Law, or (ii) result in the loss of an exemption under Rule 16b-3(d)(1) for Awards granted to Participants subject to Section 16 of the Exchange Act in respect of the Company. Upon any such delegation, all references in the Plan to the "Committee," shall be deemed to include any subcommittee or officer of the Company to whom such powers have been delegated by the Committee. Any such delegation shall not limit the right of such subcommittee members or such an officer to

receive Awards; provided, however, that such subcommittee members and any such officer may not grant Awards to himself or herself, a member of the Board, or any executive officer of the Company or an Affiliate, or take any action with respect to any Award previously granted to himself or herself, a member of the Board, or any executive officer of the Company or an Affiliate. The Committee may also appoint agents who are not executive officers of the Company or members of the Board to assist in administering the Plan, provided, however, that such individuals may not be delegated the authority to grant or modify any Awards that will, or may, be settled in Shares.

3.6 Indemnification. To the maximum extent permitted by Applicable Law and to the extent not covered by insurance directly insuring such person, each officer or employee of the Company or any of its Affiliates and member or former member of the Committee or the Board shall be indemnified and held harmless by the Company against any cost or expense (including reasonable fees of counsel acceptable to the Committee) or liability (including any sum paid in settlement of a claim with the approval of the Committee), and advanced amounts necessary to pay the foregoing at the earliest time and to the fullest extent permitted, arising out of any act or omission to act in connection with the administration of the Plan, except to the extent arising out of such officer's, employee's, member's, or former member's own fraud or bad faith. Such indemnification shall be in addition to any right of indemnification the employees, officers, directors, or members or former officers, directors, or members may have under Applicable Law or under the by-laws of the Company or any of its Affiliates. Notwithstanding anything else herein, this indemnification will not apply to the actions or determinations made by an individual with regard to Awards granted to such individual under the Plan.

ARTICLE IV SHARE LIMITATION

4.1 Shares. The aggregate number of Shares that may be issued or used for reference purposes or with respect to which Awards may be granted under the Plan shall not exceed 10,000,000 Shares (subject to any increase or decrease pursuant to this Article IV), which may be either authorized and unissued Shares or Shares held in or acquired for the treasury of the Company or both. The number of Shares that may be issued or used for reference purposes or with respect to which Awards may be granted under the Plan shall be subject to an annual increase on January 1 of each calendar year during the term of the Plan, equal to the lesser of (a) 0.5% of the aggregate number of ListCo Shares (as defined in the Business Combination Agreement) outstanding on the final day of the immediately preceding calendar year and (b) such smaller number of ListCo Shares as is determined by the Board. The aggregate number of Shares that may be issued or used with respect to any Incentive Stock Option shall not exceed 10,000,000 Shares (subject to the overall limit of shares that may be used in the Plan). Any Award under the Plan settled in cash shall not be counted against the foregoing maximum share limitations. Notwithstanding anything to the contrary contained herein, Shares subject to an Award under the Plan shall again be made available for issuance or delivery under the Plan if such Shares are (A) Shares tendered in payment of an Option, (B) Shares delivered or withheld by the Company to satisfy any tax withholding obligation, (C) Shares covered by a stock-settled Stock Appreciation Right or other Awards that were not issued upon the settlement of the Award, or (D) Shares subject to an Award that expires or is canceled, forfeited, or terminated without issuance of the full number of Shares to which the Award related (only to the extent of such cancellation, forfeiture or termination).

4.2 Substitute Awards. In connection with an entity's merger or consolidation with the Company or the Company's acquisition of an entity's property or stock, the Committee may grant Awards in substitution for any options or other stock or stock-based awards granted before such merger or consolidation by such entity or its Affiliate ("Substitute Awards"). Substitute Awards may be granted on such terms as the Committee deems appropriate, notwithstanding limitations on Awards in the Plan. Substitute Awards will not count against the overall share limit (nor shall Shares subject to a Substitute Award be added to the Shares available for Awards under the Plan as provided above), except that Shares acquired by exercise of substitute Incentive Stock Options will count against the maximum number of Shares that may be issued pursuant to the exercise of Incentive Stock

Options under the Plan. Additionally, subject to Applicable Law, in the event that a company acquired by the Company or any Subsidiary or with which the Company or any Subsidiary combines has shares available under a pre-existing plan approved by stockholders and not adopted in contemplation of such acquisition or combination, the shares available for grants pursuant to the terms of such pre-existing plan (as adjusted, to the extent appropriate, using the exchange ratio or other adjustment or valuation ratio or formula used in such acquisition or combination to determine the consideration payable to the holders of common stock of the entities party to such acquisition or combination) may be used for Awards under the Plan and shall not reduce the Shares authorized for grant under the Plan (and Shares subject to such Awards shall not be added to the Shares available for Awards under the Plan as provided above); provided that Awards using such available shares shall not be made after the date awards or grants could have been made under the terms of the pre-existing plan, absent the acquisition or combination, and shall only be made to individuals who were not Eligible Employees prior to such acquisition or combination.

4.3 Adjustments.

(a) The existence of the Plan and the Awards granted hereunder shall not affect in any way the right or power of the Board or the stockholders of the Company to make or authorize (i) any adjustment, recapitalization, reorganization, or other change in the Company's capital structure or its business, (ii) any merger or consolidation of the Company or any Affiliate, (iii) any issuance of bonds, debentures, or preferred or prior preference stock ahead of or affecting the Shares, (iv) the dissolution or liquidation of the Company or any Affiliate, (v) any sale or transfer of all or part of the assets or business of the Company or any Affiliate, or (vi) any other corporate act or proceeding.

(b) Subject to the provisions of Section 11.1:

(i) If the Company at any time subdivides (by any split, recapitalization or otherwise) the outstanding Shares into a greater number of Shares, or combines (by reverse split, combination, or otherwise) its outstanding Shares into a lesser number of Shares, then the respective exercise prices for outstanding Awards that provide for a Participant-elected exercise and the number of Shares covered by outstanding Awards shall be appropriately adjusted by the Committee to prevent dilution or enlargement of the rights granted to, or available for, Participants under the Plan.

(ii) Excepting transactions covered by Section 4.3(b)(i), if the Company effects any merger, consolidation, statutory exchange, spin-off, reorganization, sale or transfer of all or substantially all the Company's assets or business, or other corporate transaction or event in such a manner that the Company's outstanding Shares are converted into the right to receive (or the holders of Common Shares are entitled to receive in exchange therefor), either immediately or upon liquidation of the Company, securities or other property of the Company or other entity, then, subject to the provisions of Section 11.1, (A) the aggregate number or kind of securities that thereafter may be issued under the Plan, (B) the number or kind of securities or other property (including cash) to be issued pursuant to Awards granted under the Plan (including as a result of the assumption of the Plan and the obligations hereunder by a successor entity, as applicable), or (C) the exercise or purchase price thereof, shall be appropriately adjusted by the Committee to prevent dilution or enlargement of the rights granted to, or available for, Participants under the Plan.

(iii) If there shall occur any change in the capital structure of the Company other than those covered by Section 4.3(b)(i) or 4.3(b)(ii), any conversion, any adjustment, or any issuance of any class of securities convertible or exercisable into, or exercisable for, any class of equity securities of the Company, then the Committee shall adjust any Award and make such other adjustments to the Plan to prevent dilution or enlargement of the rights granted to, or available for, Participants under the Plan.

(iv) The Committee may adjust the Performance Goals applicable to any Awards to reflect any unusual or non-recurring events and other extraordinary items, impact of charges for restructurings, discontinued

operations, and the cumulative effects of accounting or tax changes, each as defined by generally accepted accounting principles or as identified in the Company's financial statements, notes to the financial statements, management's discussion and analysis, or other Company public filing.

(v) Any such adjustment determined by the Committee pursuant to this Section 4.3(b) shall be final, binding, and conclusive on the Company and all Participants and their respective heirs, executors, administrators, successors, and permitted assigns. Any adjustment to, or assumption or substitution of, an Award under this Section 4.3(b) shall be intended to comply with the requirements of Section 409A of the Code and Treasury Regulation §1.424-1 (and any amendments thereto), to the extent applicable. Except as expressly provided in this Section 4.3 or in the applicable Award Agreement, a Participant shall have no additional rights under the Plan by reason of any transaction or event described in this Section 4.3.

ARTICLE V ELIGIBILITY

5.1 General Eligibility. All current and prospective Eligible Individuals are eligible to be granted Awards. Eligibility for the grant of Awards and actual participation in the Plan shall be determined by the Committee in its sole discretion.

5.2 Incentive Stock Options. Notwithstanding the foregoing, only Eligible Employees who are employees of the Company, its Subsidiaries, or its Parents (if any) are eligible to be granted Incentive Stock Options under the Plan. Eligibility for the grant of an Incentive Stock Option and actual participation in the Plan shall be determined by the Committee in its sole discretion.

5.3 General Requirement. The vesting and exercise of Awards granted to a prospective Eligible Individual are conditioned upon such individual actually becoming an Eligible Employee.

ARTICLE VI STOCK OPTIONS

6.1 Options. Stock Options may be granted alone or in addition to other Awards granted under the Plan. Each Stock Option granted under the Plan shall be of one of two types: (a) an Incentive Stock Option or (b) a Non-Qualified Stock Option.

6.2 Grants. The Committee shall have the authority to grant to any Eligible Employee one or more Incentive Stock Options, Non-Qualified Stock Options, or both types of Stock Options; *provided, however*, that Incentive Stock Options may only be granted to an Eligible Employee who is an employee of the Company, its Subsidiaries, or its Parents (if any). To the extent that any Stock Option does not qualify as an Incentive Stock Option (whether because of its provisions or the time or manner of its exercise or otherwise), such Stock Option or the portion thereof which does not so qualify shall constitute a separate Non-Qualified Stock Option.

6.3 Terms of Options. Options granted under the Plan shall be evidenced by an Award Agreement and subject to the following terms and conditions and shall be in such form and contain such additional terms and conditions not inconsistent with the terms of the Plan, as the Committee shall deem desirable:

(a) **Exercise Price.** The exercise price per Share subject to a Stock Option shall be determined by the Committee at the time of grant, *provided* that except as otherwise permitted by Applicable Law in the case of a Participant located outside the United States, the per share exercise price of a Stock Option shall not be less than 100% (or, in the case of an Incentive Stock Option granted to a Ten Percent Stockholder, 110%) of the Fair Market Value at the time of grant.

(b) Stock Option Term. The term of each Stock Option shall be fixed by the Committee, *provided* that no Stock Option shall be exercisable more than ten (10) years (or, in the case of an Incentive Stock Option granted to a Ten Percent Stockholder, five (5) years) after the date the Option is granted.

(c) Exercisability. Unless otherwise provided by the Committee in accordance with the provisions of this Section 6.3, Stock Options granted under the Plan shall be exercisable at such time or times and subject to such terms and conditions as shall be determined by the Committee at the time of grant. The Committee may, but shall not be required to, provide for an acceleration of vesting and exercisability in the terms of any Award Agreement upon the occurrence of a specified event.

(d) Method of Exercise. Subject to whatever installment exercise and waiting period provisions apply under Section 6.3(c), to the extent vested, Stock Options may be exercised in whole or in part at any time during the Option term, by giving written notice of exercise (which may be electronic) to the Company specifying the number of Shares to be purchased. Such notice shall be accompanied by payment in full of the exercise price (which shall equal the product of such number of Shares to be purchased multiplied by the applicable exercise price). The exercise price for the Stock Options may be paid upon such terms and conditions as shall be established by the Committee and set forth in the applicable Award Agreement. Without limiting the foregoing, the Committee may establish payment terms for the exercise of Stock Options pursuant to which the Company may withhold a number of Shares that otherwise would be issued to the Participant in connection with the exercise of the Stock Option having a Fair Market Value on the date of exercise equal to the exercise price, or that permit the Participant to deliver cash or Shares with a Fair Market Value equal to the exercise price on the date of payment, or through a simultaneous sale through a broker of Shares acquired on exercise, all as permitted by Applicable Law. No Shares shall be issued until payment therefor, as provided herein, has been made or provided for.

(e) Non-Transferability of Options. No Stock Option shall be transferable by the Participant other than by will or by the laws of descent and distribution, and all Stock Options shall be exercisable, during the Participant's lifetime, only by the Participant. Notwithstanding the foregoing, the Committee may determine, in its sole discretion, at the time of grant or thereafter that a Non-Qualified Stock Option that is otherwise not transferable pursuant to this Section is transferable to a Family Member in whole or in part and in such circumstances, and under such conditions, as specified by the Committee. A Non-Qualified Stock Option that is transferred to a Family Member pursuant to the preceding sentence (i) may not be subsequently transferred other than by will or by the laws of descent and distribution and (ii) remains subject to the terms of the Plan and the applicable Award Agreement. Any Shares acquired upon the exercise of a Non-Qualified Stock Option by a permissible transferee of a Non-Qualified Stock Option or a permissible transferee pursuant to a transfer after the exercise of the Non-Qualified Stock Option shall be subject to the terms of the Plan and the applicable Award Agreement.

(f) Termination by Death or Disability. Unless otherwise provided in the applicable Award Agreement, or otherwise determined by the Committee at the time of grant or, if no rights of the Participant are reduced, thereafter, if a Participant's Termination of Service is by reason of death or Disability, all Stock Options that are held by such Participant that are vested and exercisable at the time of the Participant's Termination of Service may be exercised by the Participant (or in the case of the Participant's death, by the legal representative of the Participant's estate) at any time within a period of one (1) year from the date of such Termination of Service, but in no event beyond the expiration of the stated term of such Stock Options as set forth in the applicable Award Agreement; *provided, however*, that, in the event of a Participant's Termination of Service by reason of Disability, if the Participant dies within such exercise period, all unexercised Stock Options held by such Participant shall thereafter be exercisable, to the extent to which they were exercisable at the time of death, for a period of one (1) year from the date of such death, but in no event beyond the expiration of the stated term of such Stock Options as set forth in the applicable Award Agreement.

(g) Involuntary Termination Without Cause. Unless otherwise provided in the applicable Award Agreement or otherwise determined by the Committee at the time of grant or, if no rights of the Participant are

reduced, thereafter, if a Participant's Termination of Service is by involuntary termination by the Company without Cause (and for the avoidance of doubt, which determination of whether any such termination by the Company is without Cause shall be made by the Committee in its sole discretion), all Stock Options that are held by such Participant that are vested and exercisable at the time of the Participant's Termination of Service may be exercised by the Participant at any time within a period of ninety (90) days from the date of such Termination of Service, but in no event beyond the expiration of the stated term of such Stock Options as set forth in the applicable Award Agreement.

(h) Voluntary Resignation. Unless otherwise provided in the applicable Award Agreement or otherwise determined by the Committee at the time of grant or, if no rights of the Participant are reduced, thereafter, if a Participant's Termination of Service is voluntary (other than a voluntary termination described in Section 6.3(i) hereof) (a "Voluntary Termination of Service"), all Stock Options that are held by such Participant that are vested and exercisable at the time of the Participant's Termination of Service may be exercised by the Participant at any time within a period of thirty (30) days from the date of such Termination of Service, but in no event beyond the expiration of the stated term of such Stock Options as set forth in the applicable Award Agreement.

(i) Termination for Cause. Unless otherwise provided in the applicable Award Agreement or determined by the Committee at the time of grant, or if no rights of the Participant are reduced, thereafter, if (i) a Participant's Termination of Service (x) is for Cause or (y) is a Voluntary Termination of Service after the occurrence of an event that would be grounds for a Termination of Service for Cause or (ii) upon the Participant's breach of any restrictive covenants to which the Participant is subject, all Stock Options, whether vested or not vested, that are held by such Participant shall thereupon immediately terminate and expire as of the date of such Termination of Service.

(j) Unvested Stock Options. Unless otherwise provided in the applicable Award Agreement or determined by the Committee at the time of grant or, if no rights of the Participant are reduced, thereafter, Stock Options that are not vested as of the date of a Participant's Termination of Service for any reason shall terminate and expire as of the date of such Termination of Service.

(k) Incentive Stock Option Limitations. To the extent that the aggregate Fair Market Value (determined as of the time of grant) of the Shares with respect to which Incentive Stock Options are exercisable for the first time by an Eligible Employee during any calendar year under the Plan and/or any other stock option plan of the Company, any Subsidiary, or any Parent exceeds \$100,000, such Options shall be treated as Non-Qualified Stock Options. In addition, if an Eligible Employee does not remain employed by the Company, any Subsidiary, or any Parent at all times from the time an Incentive Stock Option is granted until three (3) months prior to the date of exercise thereof (or such other period as required by Applicable Law), such Stock Option shall be treated as a Non-Qualified Stock Option. Should any provision of the Plan not be necessary in order for the Stock Options to qualify as Incentive Stock Options, or should any additional provisions be required, the Committee may amend the Plan accordingly, without the necessity of obtaining the approval of the stockholders of the Company.

(l) Modification, Extension and Renewal of Stock Options. The Committee may (i) modify, extend, or renew outstanding Stock Options granted under the Plan (provided that the rights of a Participant are not reduced without such Participant's consent and *provided, further* that such action does not subject the Stock Options to Section 409A of the Code without the consent of the Participant), and (ii) accept the surrender of outstanding Stock Options (to the extent not theretofore exercised) and authorize the granting of new Stock Options in substitution therefor (to the extent not theretofore exercised). Notwithstanding the foregoing, an outstanding Option may not be modified to reduce the exercise price thereof nor may a new Option at a lower price be substituted for a surrendered Option (other than adjustments or substitutions in accordance with Article IV), unless such action is approved by the stockholders of the Company.

(m) Other Terms and Conditions. The Committee may include a provision in an Award Agreement providing for the automatic exercise of a Non-Qualified Stock Option on a cashless basis on the last day of the term of such Option if the Participant has failed to exercise the Non-Qualified Stock Option as of such date, with respect to which the Fair Market Value of the Shares underlying the Non-Qualified Stock Option exceeds the exercise price of such Non-Qualified Stock Option on the date of expiration of such Option, subject to Section 14.5. Stock Options may contain such other provisions, which shall not be inconsistent with any of the terms of the Plan, as the Committee shall deem appropriate.

ARTICLE VII STOCK APPRECIATION RIGHTS

7.1 Stock Appreciation Rights. Stock Appreciation Rights shall be subject to the terms and conditions, not inconsistent with the Plan, determined by the Committee, and the following:

(a) Exercise Price. The exercise price per Share subject to a Stock Appreciation Right shall be determined by the Committee at the time of grant, *provided* that, unless otherwise permitted by Applicable Law, the per share exercise price of a Stock Appreciation Right shall not be less than 100% of the Fair Market Value at the time of grant

(b) Term. The term of each Stock Appreciation Right shall be fixed by the Committee, but shall not be greater than ten (10) years after the date the right is granted.

(c) Exercisability. Unless otherwise provided by the Committee, Stock Appreciation Rights granted under the Plan shall be exercised at such time or times and subject to such terms and conditions as shall be determined by the Committee at the time of grant. If the Committee provides that any such right is exercisable subject to certain terms and conditions, the Committee may waive those terms and conditions on the exercisability at any time at or after grant in whole or in part.

(d) Method of Exercise. Subject to whatever installment and waiting period provisions applied under Section 7.1(c), Stock Appreciation Rights may be exercised in whole or in part at any time in accordance with the applicable Award Agreement, by given written notice of exercise (which may be electronic) to the Company specifying the number of Stock Appreciation Rights being exercised.

(e) Payment. Upon the exercise of a Stock Appreciation Right a Participant shall be entitled to receive, for each right exercised, up to, but no more than, an amount in cash and/or Shares (as chosen by the Committee in its sole discretion) equal in value to the excess of the Fair Market Value of one (1) Share on the date that the right is exercised over the Fair Market Value (or if permitted by Applicable Law, the fair market value as of the date of grant of the Stock Appreciation Right, which may be more or less than the Fair Market Value), of one (1) Share on the date that the right was awarded to the Participant.

(f) Termination. Unless otherwise determined by the Committee at grant or, if no rights of the Participant are reduced, thereafter, subject to the provisions of the applicable Award Agreement and the Plan, upon a Participant's Termination of Service for any reason, Stock Appreciation Rights may remain exercisable following a Participant's Termination of Service on the same basis as Stock Options would be exercisable following a Participant's Termination of Service in accordance with the provisions of Sections 6.3(f) through 6.3(j).

(g) Non-Transferability. No Stock Appreciation Rights shall be transferable by the Participant other than by will or by the laws of descent and distribution, and all such rights shall be exercisable, during the Participant's lifetime, only by the Participant.

7.2 **Automatic Exercise.** The Committee may include a term or condition in an Award Agreement providing for the automatic exercise of a Stock Appreciation Right on a cashless basis on the last day of the term of the Stock Appreciation Right if the Participant has failed to exercise the Stock Appreciation Right as of such date, with respect to which the Fair Market Value of the Shares underlying the Stock Appreciation Right exceeds the exercise price of such Stock Appreciation Right on the date of expiration of such Stock Appreciation Right, subject to Section 14.5.

ARTICLE VIII RESTRICTED STOCK; RESTRICTED STOCK UNITS

8.1 **Awards of Restricted Stock and Restricted Stock Units.** Shares of Restricted Stock and Restricted Stock Units may be granted alone or in addition to other Awards granted under the Plan. The Committee shall determine the Eligible Individuals to whom, and the time or times at which, grants of Restricted Stock and/or Restricted Stock Units shall be made, the number of shares of Restricted Stock or Restricted Stock Units to be awarded, the price (if any) to be paid by the Participant (subject to Section 8.2), the time or times within which such Awards may be subject to forfeiture, the vesting schedule and rights to acceleration thereof, and all other terms and conditions of the Awards. The Committee shall determine and set forth in the Award Agreement the terms and conditions for each Restricted Stock and Restricted Stock Unit Award, subject to the conditions and limitations contained in the Plan, including any vesting or forfeiture conditions during the applicable Restriction Period.

The Committee may condition the grant or vesting of Restricted Stock and Restricted Stock Units upon the attainment of specified performance targets (including the Performance Goals) or such other factor as the Committee may determine in its sole discretion.

8.2 **Awards and Certificates.** Restricted Stock and Restricted Stock Units granted under the Plan shall be evidenced by an Award Agreement and subject to the following terms and conditions and shall be in such form and contain such additional terms and conditions not inconsistent with the terms of the Plan, as the Committee shall deem desirable:

(a) **Restricted Stock:**

(i) **Purchase Price.** The purchase price of Restricted Stock shall be fixed by the Committee. The purchase price for shares of Restricted Stock may be zero to the extent permitted by Applicable Law, and, to the extent not so permitted, such purchase price may not be less than par value. The purchase price of Restricted Stock shall be set forth in the applicable Award Agreement.

(ii) **Legend.** Each Participant receiving Restricted Stock shall be issued a stock certificate in respect of such shares of Restricted Stock, unless the Committee elects to use another system, such as book entries by the transfer agent, as evidencing ownership of shares of Restricted Stock. Such certificate shall be registered in the name of such Participant, and shall, in addition to such legends required by Applicable Law, bear an appropriate legend referring to the terms, conditions, and restrictions applicable to such Restricted Stock.

(iii) **Custody.** If stock certificates are issued in respect of shares of Restricted Stock, the Committee may require that any stock certificates evidencing such shares be held in custody by the Company until the restrictions thereon shall have lapsed, and that, as a condition of any grant of Restricted Stock, the Participant shall have delivered a duly signed stock power or other instruments of assignment (including a power of attorney), each endorsed in blank with a guarantee of signature if deemed necessary or appropriate by the Company, which would permit transfer to the Company of all or a portion of the shares subject to the Restricted Stock Award in the event that such Award is forfeited in whole or part.

(iv) **Rights as a Stockholder.** Except as provided in Section 8.3(a) and this Section 8.2(a) or as otherwise determined by the Committee in an Award Agreement, the Participant shall have, with respect to the

shares of Restricted Stock, all of the rights of a holder of Shares, including, without limitation, the right to receive dividends, the right to vote such shares, and, subject to and conditioned upon the full vesting of shares of Restricted Stock, the right to tender such shares; *provided* that the Award Agreement shall specify on what terms and conditions the applicable Participant shall be entitled to dividends payable on the Shares.

(v) Lapse of Restrictions. If and when the Restriction Period expires without a prior forfeiture of the Restricted Stock, the certificates for such Shares shall be delivered to the Participant. All legends shall be removed from said certificates at the time of delivery to the Participant, except as otherwise required by Applicable Law or other limitations imposed by the Committee.

(b) Restricted Stock Units:

(i) Settlement. The Committee may provide that settlement of Restricted Stock Units will occur upon or as soon as reasonably practical after the Restricted Stock Units vest or will instead be deferred, on a mandatory basis or at the Participant's election, in a manner intended to comply with Section 409A of the Code.

(ii) Right as a Stockholder. A Participant will have no rights of a stockholder with respect to Shares subject to any Restricted Stock Unit unless and until Shares are delivered in settlement of the Restricted Stock Units.

(iii) Dividend Equivalents. If the Committee so provides, a grant of Restricted Stock Units may provide a Participant with the right to receive Dividend Equivalents. Dividend Equivalents may be paid currently or credited to an account for the Participant, settled in cash or Shares, and subject to the same restrictions on transferability and forfeitability as the Restricted Stock Units with respect to which the Dividend Equivalents are granted and subject to other terms and conditions as set forth in the Award Agreement. Such Dividend Equivalents shall be treated as employment income to the Participant to the extent required under Applicable Law.

8.3 Restrictions and Conditions

(a) Restriction Period. (i) The Participant shall not be permitted to transfer shares of Restricted Stock awarded under the Plan or vest in Restricted Stock Units during the period or periods set by the Committee (the "Restriction Period") commencing on the date of such Award, as set forth in the applicable Award Agreement and such agreement shall set forth a vesting schedule and any event that would accelerate vesting of the Restricted Stock and/or Restricted Stock Units. Within these limits, based on service, attainment of Performance Goals pursuant to Section 8.3(a)(ii), and/or such other factors or criteria as the Committee may determine in its sole discretion, the Committee may condition the grant or provide for the lapse of such restrictions in installments in whole or in part, or may accelerate the vesting of all or any part of any Restricted Stock Award or Restricted Stock Unit and/or waive the deferral limitations for all or any part of any Award.

(ii) If the grant of shares of Restricted Stock or Restricted Stock Units or the lapse of restrictions or vesting schedule is based on the attainment of Performance Goals, the Committee shall establish the objective Performance Goals and the applicable vesting percentage applicable to each Participant or class of Participants in the applicable Award Agreement prior to the beginning of the applicable fiscal year or at such later date as otherwise determined by the Committee and while the outcome of the Performance Goals are substantially uncertain. Such Performance Goals may incorporate provisions for disregarding (or adjusting for) changes in accounting methods, corporate transactions (including, without limitation, dispositions and acquisitions), and other similar types of events or circumstances.

(b) Termination. Unless otherwise provided in the applicable Award Agreement or determined by the Committee at grant or, if no rights of the Participant are reduced, thereafter, upon a Participant's Termination of Service for any reason during the relevant Restriction Period, all Restricted Stock or Restricted Stock Units still

subject to restriction will be forfeited in accordance with the terms and conditions established by the Committee at grant or thereafter; provided, that if (i) a Participant's Termination of Service (x) is for Cause or (y) is a Voluntary Termination of Service after the occurrence of an event that would be grounds for a Termination of Service for Cause or (ii) upon the Participant's breach of any restrictive covenants to which the Participant is subject, all awards of Restricted Stock and Restricted Stock Units, whether vested or not vested, that are held by such Participant shall thereupon immediately terminate and expire as of the date of such Termination of Service.

**ARTICLE IX
PERFORMANCE AWARDS**

9.1 Performance Awards. The Committee may grant a Performance Award to a Participant payable upon the attainment of specific Performance Goals either alone or in addition to other Awards granted under the Plan, which terms and conditions shall be set forth in the applicable Award Agreement. The Performance Goals to be achieved during the Performance Period and the length of the Performance Period shall be determined by the Committee upon the grant of each Performance Award. The conditions for grant or vesting and the other provisions of Performance Awards (including, without limitation, any applicable Performance Goals) need not be the same with respect to each Participant. Performance Awards may be paid in cash, Shares, other property, or any combination thereof, in the sole discretion of the Committee as set forth in the applicable Award Agreement. In the event (a) a Participant's Termination of Service (i) is for Cause or (ii) is a Voluntary Termination of Service after the occurrence of an event that would be grounds for a Termination of Service for Cause or (b) upon the Participant's breach of any restrictive covenants to which the Participant is subject, all Performance Awards, whether vested or not vested, that are held by such Participant shall thereupon immediately terminate and expire as of the date of such Termination of Service.

**ARTICLE X
OTHER STOCK-BASED AND CASH AWARDS**

10.1 Other Stock-Based Awards. The Committee is authorized to grant to Eligible Individuals Other Stock-Based Awards that are payable in, valued in whole or in part by reference to, or otherwise based on or related to Shares, including but not limited to, Shares awarded purely as a bonus and not subject to restrictions or conditions, Shares in payment of the amounts due under an incentive or performance plan sponsored or maintained by the Company, stock equivalent units, and Awards valued by reference to book value of Shares. Other Stock-Based Awards may be granted either alone or in addition to or in tandem with other Awards granted under the Plan.

Subject to the provisions of the Plan, the Committee shall have authority to determine the Eligible Individuals, to whom, and the time or times at which, such Awards shall be made, the number of Shares to be awarded pursuant to such Awards, and all other conditions of the Awards. The Committee may also provide for the grant of Shares under such Awards upon the completion of a specified Performance Period. The Committee may condition the grant or vesting of Other Stock-Based Awards upon the attainment of specified Performance Goals as the Committee may determine, in its sole discretion.

10.2 Terms and Conditions. Other Stock-Based Awards made pursuant to this Article X shall be evidenced by an Award Agreement and subject to the following terms and conditions and shall be in such form and contain such additional terms and conditions not inconsistent with the terms of the Plan, as the Committee shall deem desirable:

(a) **Non-Transferability.** Subject to the applicable provisions of the Award Agreement and the Plan, Shares subject to Awards made under this Article X may not be transferred prior to the date on which the Shares are issued or, if later, the date on which any applicable restriction, performance, or deferral period lapses.

(b) **Dividends.** Unless otherwise determined by the Committee at the time of the grant of an Award, subject to the provisions of the Award Agreement and the Plan, the recipient of an Award under this Article X shall not be entitled to receive, currently or on a deferred basis, dividends or Dividend Equivalents in respect of the number of Shares covered by the Award.

(c) **Vesting.** Any Award under this Article X and any Shares covered by any such Award shall vest or be forfeited to the extent so provided in the Award Agreement, as determined by the Committee, in its sole discretion.

(d) **Price.** Shares under this Article X may be issued for no cash consideration. Shares purchased pursuant to a purchase right awarded under this Article X shall be priced, as determined by the Committee in its sole discretion.

10.3 Cash Awards. The Committee may from time to time grant Cash Awards to Eligible Individuals in such amounts, on such terms and conditions, and for such consideration, including no consideration or such minimum consideration as may be required by Applicable Law, as it shall determine in its sole discretion. Cash Awards may be granted subject to the satisfaction of vesting conditions or may be awarded purely as a bonus and not subject to restrictions or conditions, and if subject to vesting conditions, the Committee may accelerate the vesting of such Awards at any time in its sole discretion. The grant of a Cash Award shall not require a segregation of any of the Company's assets for satisfaction of the Company's payment obligation thereunder.

10.4 Termination. In the event (a) a Participant's Termination of Service (i) is for Cause or (ii) is a Voluntary Termination of Service after the occurrence of an event that would be grounds for a Termination of Service for Cause or (b) upon the Participant's breach of any restrictive covenants to which the Participant is subject, all Other Stock-Based Awards and Cash Awards, whether vested or not vested, that are held by such Participant shall thereupon immediately terminate and expire as of the date of such Termination of Service.

ARTICLE XI CHANGE IN CONTROL PROVISIONS

11.1 Benefits. In the event of a Change in Control, and except as otherwise provided by the Committee in an Award Agreement, a Participant's unvested Awards shall not vest automatically and a Participant's Awards shall be treated in accordance with one or more of the following methods as determined by the Committee:

(a) Awards, whether or not then vested, shall be continued, be assumed, or have new rights substituted therefor, as determined by the Committee in a manner consistent with the requirements of Section 409A of the Code, and restrictions to which shares of Restricted Stock or any other Award granted prior to the Change in Control are subject shall not lapse upon a Change in Control and the Restricted Stock or other Award shall, where appropriate in the sole discretion of the Committee, receive the same distribution as other Shares on such terms as determined by the Committee; *provided that* the Committee may decide to award additional Restricted Stock or other Awards in lieu of any cash distribution. Notwithstanding anything to the contrary herein, for purposes of Incentive Stock Options, any assumed or substituted Stock Option shall comply with the requirements of Treasury Regulation Section 1.424-1 (and any amendment thereto).

(b) The Committee, in its sole discretion, may provide for the purchase of any Awards by the Company for an amount of cash equal to the excess (if any) of the Change in Control Price of the Shares covered by such Awards, over the aggregate exercise price of such Awards; *provided, however,* that if the exercise price of an Option or Stock Appreciation Right equals or exceeds the Change in Control Price, such Award may be cancelled for no consideration.

(c) The Committee may, in its sole discretion, terminate all outstanding and unexercised Stock Options, Stock Appreciation Rights, or any Other Stock-Based Award that provides for a Participant-elected

exercise, effective as of the date of the Change in Control, by delivering notice of termination to each Participant at least twenty (20) days prior to the date of consummation of the Change in Control, in which case during the period from the date on which such notice of termination is delivered to the consummation of the Change in Control, each such Participant shall have the right to exercise in full all of such Participant's Awards that are then outstanding (without regard to any limitations on exercisability otherwise contained in the Award Agreements), but any such exercise shall be contingent on the occurrence of the Change in Control, and, *provided* that, if the Change in Control does not take place within a specified period after giving such notice for any reason whatsoever, the notice and exercise pursuant thereto shall be null and void.

(d) Notwithstanding any other provision herein to the contrary, the Committee may, in its sole discretion, provide for accelerated vesting or lapse of restrictions, of an Award at any time.

ARTICLE XII TERMINATION OR AMENDMENT OF PLAN

Notwithstanding any other provision of the Plan, the Board or the Committee may at any time, and from time to time, amend, in whole or in part, any or all of the provisions of the Plan (including any amendment deemed necessary to ensure that the Company may comply with any Applicable Law), or suspend or terminate it entirely, retroactively or otherwise; *provided, however*, that, unless otherwise required by Applicable Law or specifically provided herein, the rights of a Participant with respect to Awards granted prior to such amendment, suspension, or termination may not be materially impaired without the consent of such Participant and, *provided, further*, that without the approval of the holders of the Shares entitled to vote in accordance with Applicable Law, no amendment may be made that would (i) increase the aggregate number of Shares that may be issued under the Plan (except by operation of Section 4.1); or (ii) change the classification of individuals eligible to receive Awards under the Plan; *provided*, that notwithstanding the foregoing and without the approval of the holders of Shares, the Company may not (i) reduce the exercise price of any Stock Option or Stock Appreciation Right; (ii) grant a new Stock Option, Stock Appreciation Right, or other Award in substitution for, or upon the cancellation of, any previously granted Stock Option or Stock Appreciation Right that has the effect of reducing the exercise price thereof; (iii) exchange any Stock Option or Stock Appreciation Right for Common Shares, cash, or other consideration when the exercise price per Share under such Stock Option or Stock Appreciation Right exceeds the Fair Market Value of a Share; or (iv) take any other action that would be considered a "repricing" of a Stock Option or Stock Appreciation Right under the applicable listing standards of the national exchange on which the Common Shares are listed (if any). Notwithstanding anything herein to the contrary, the Board or the Committee may amend the Plan or any Award Agreement at any time without a Participant's consent to comply with Applicable Law, including Section 409A of the Code. The Committee may amend the terms of any Award theretofore granted, prospectively or retroactively, but, subject to Article IV or as otherwise specifically provided herein, no such amendment or other action by the Committee shall impair the rights of any holder without the holder's consent.

ARTICLE XIII UNFUNDED STATUS OF PLAN

The Plan is intended to constitute an "unfunded" plan for incentive and deferred compensation. With respect to any payment as to which a Participant has a fixed and vested interest but which is not yet made to a Participant by the Company, nothing contained herein shall give any such Participant any right that is greater than those of a general unsecured creditor of the Company.

**ARTICLE XIV
GENERAL PROVISIONS**

14.1 Legend. The Committee may require each person receiving Shares pursuant to a Stock Option or other Award under the Plan to represent to and agree with the Company in writing that the Participant is acquiring the Shares without a view to distribution thereof. In particular, the Shares will not be offered or sold in the United Kingdom by means of any document other than: (i) to “qualified investors” for the purposes of the Regulation (EU) 2017/1129 (the “Prospectus Regulation”) and any rules made or promulgated thereunder, (ii) in other circumstances which do not result in a requirement for the publication of a “prospectus” as defined in the Prospectus Regulation and/or Financial Services Act 2001 (the “FSMA”) or which do not constitute an offer to the public within the meaning thereof or (iii) which would not be prohibited by section 21(1) of FSMA. In addition to any legend required by the Plan, the certificates for such Shares may include any legend that the Committee deems appropriate to reflect any restrictions on transfer. All certificates for Shares delivered under the Plan shall be subject to such stop transfer orders and other restrictions as the Committee may deem advisable under the rules, regulations, and other requirements of the Securities and Exchange Commission, any stock exchange upon which the Common Shares are then listed or any national securities exchange system upon whose system the Common Shares are then quoted, and any Applicable Law, and the Committee may cause a legend or legends to be put on any such certificates to make appropriate reference to such restrictions. If the Shares are held in book-entry form, then the book-entry will indicate any restrictions on such Shares.

14.2 Share Registry and Certificates. Promptly following completion of the allotment and issuance of any Shares to a Participant pursuant to this Plan, the Company shall: (a) procure that the Participant and the relevant number of Shares allotted and issued to such Participant pursuant to this Plan are entered into the register of members (or such other relevant register) of the Company; (b) complete and despatch to such Participant the relevant certificates for such allotted and issued Shares; and (c) procure that all applicable corporate, governmental and regulatory filings in connection with such allotment and issuance of Shares are promptly made and submitted in accordance with Applicable Law.

14.3 Other Plans. Nothing contained in the Plan shall prevent the Board from adopting other or additional compensation arrangements, subject to stockholder approval if such approval is required, and such arrangements may be either generally applicable or applicable only in specific cases.

14.4 No Right to Employment. Neither the Plan nor the grant of any Award hereunder shall give any Participant or other employee any right with respect to continuance of employment by the Company or any Affiliate, nor shall there be a limitation in any way on the right of the Company or any Affiliate by which an employee is employed to terminate such employment at any time.

14.5 Withholding of Taxes. A Participant shall be required to pay to the Company or one of its Affiliates, as applicable, or make arrangements satisfactory to the Company regarding the payment of, any income tax, social insurance contribution or other applicable taxes that are required to be withheld or accounted for in respect of an Award in the relevant employing jurisdiction. The Committee may (but is not obligated to), in its sole discretion, permit or require a Participant to satisfy all or any portion of the applicable taxes that are required to be withheld with respect to an Award by (a) the delivery of Shares (which are not subject to any pledge or other security interest) that have been both held by the Participant and vested for at least six (6) months (or such other period as established from time to time by the Committee in order to avoid adverse accounting treatment under applicable accounting standards) having an aggregate Fair Market Value equal to such withholding liability (or portion thereof); (b) having the Company withhold from the Shares otherwise issuable or deliverable to, or that would otherwise be retained by, the Participant upon the grant, exercise, vesting, or settlement of the Award, as applicable, a number of Shares with an aggregate Fair Market Value equal to the amount of such withholding liability; or (c) by any other means specified in the applicable Award Agreement or otherwise determined by the Committee.

14.6 Fractional Shares. No fractional Shares shall be issued or delivered pursuant to the Plan. The Committee shall determine whether cash, additional Awards, or other securities or property shall be used or paid in lieu of fractional Shares or whether any fractional shares should be rounded, forfeited, or otherwise eliminated.

14.7 No Assignment of Benefits. No Award or other benefit payable under the Plan shall, except as otherwise specifically provided by law or permitted by the Committee, be transferable in any manner, and any attempt to transfer any such benefit shall be void, and any such benefit shall not in any manner be liable for or subject to the debts, contracts, liabilities, engagements, or torts of any person who shall be entitled to such benefit, nor shall it be subject to attachment or legal process for or against such person.

14.8 Clawback Provisions. All Awards (including any proceeds, gains, or other economic benefit the Participant actually or constructively receives upon receipt or exercise of any Award or the receipt or resale of any Shares underlying the Award) will be subject to any Company clawback policy, including any claw-back policy adopted to comply with Applicable Law in the relevant jurisdictions in which Participants receive Awards (including the Dodd-Frank Wall Street Reform and Consumer Protection Act and any rules or regulations promulgated thereunder) as set forth in such clawback policy or the Award Agreement.

14.9 Listing and Other Conditions.

(a) Unless otherwise determined by the Committee, as long as the Common Shares are listed on a national securities exchange or system sponsored by a national securities association, the issuance of Shares pursuant to an Award shall be conditioned upon such Shares being listed on such exchange or system. The Company shall have no obligation to issue such Shares unless and until such Shares are so listed, and the right to exercise any Option or other Award with respect to such Shares shall be suspended until such listing has been effected.

(b) If at any time counsel to the Company shall be of the opinion that any sale or delivery of Shares pursuant to an Award is or may in the circumstances be unlawful or result in the imposition of excise taxes on the Company under Applicable Law, the Company shall have no obligation to make such sale or delivery, or to make any application or to effect or to maintain any qualification or registration under the Securities Act or otherwise, with respect to Shares or Awards, and the right to exercise any Option or other Award shall be suspended until, in the opinion of said counsel, such sale or delivery shall be lawful or will not result in the imposition of excise taxes on the Company.

(c) Upon termination of any period of suspension under this Section 14.9, any Award affected by such suspension which shall not then have expired or terminated shall be reinstated as to all Shares available before such suspension and as to Shares which would otherwise have become available during the period of such suspension, but no such suspension shall extend the term of any Award.

(d) A Participant shall be required to supply the Company with certificates, representations, and information that the Company requests and otherwise cooperate with the Company in obtaining any listing, registration, qualification, exemption, consent, or approval the Company deems necessary or appropriate.

14.10 Governing Law. The Plan and actions taken in connection herewith shall be governed and construed in accordance with the laws of the State of Delaware, without reference to principles of conflict of laws.

14.11 Construction. Wherever any words are used in the Plan in the masculine gender they shall be construed as though they were also used in the feminine gender in all cases where they would so apply, and wherever words are used herein in the singular form they shall be construed as though they were also used in the plural form in all cases where they would so apply.

14.12 Other Benefits. No Award granted or paid out under the Plan shall be deemed compensation for purposes of computing benefits under any retirement plan of the Company or its Affiliates or affect any benefit or compensation under any other plan now or subsequently in effect under which the availability or amount of benefits is related to the level of compensation.

14.13 Costs. The Company shall bear all expenses associated with administering the Plan, including expenses of issuing Shares pursuant to Awards hereunder.

14.14 No Right to Same Benefits. The provisions of Awards need not be the same with respect to each Participant, and such Awards to individual Participants need not be the same in subsequent years.

14.15 Death/Disability. The Committee may in its discretion require the transferee of a Participant to supply it with written notice of the Participant's death or Disability and to supply it with a copy of the will (in the case of the Participant's death) or such other evidence as the Committee deems necessary to establish the validity of the transfer of an Award. The Committee may also require the agreement of the transferee to be bound by all of the terms and conditions of the Plan.

14.16 Section 16(b) of the Exchange Act. It is the intent of the Company that the Plan satisfy, and be interpreted in a manner that satisfies, the applicable requirements of Rule 16b-3 as promulgated under Section 16 of the Exchange Act so that Participants will be entitled to the benefit of Rule 16b-3, or any other rule promulgated under Section 16 of the Exchange Act, and will not be subject to short-swing liability under Section 16 of the Exchange Act. Accordingly, if the operation of any provision of the Plan would conflict with the intent expressed in this Section 14.16, such provision to the extent possible shall be interpreted and/or deemed amended so as to avoid such conflict. In respect of Awards granted to Participants located outside the United States, the Committee may make appropriate adjustments determined in its sole discretion to comply with any similar Applicable Laws.

14.17 Deferral of Awards. The Committee may establish one or more programs under the Plan to permit selected Participants the opportunity to elect to defer receipt of consideration upon exercise of an Award, satisfaction of performance criteria, or other event that absent the election would entitle the Participant to payment or receipt of Shares or other consideration under an Award. The Committee may establish the election procedures, the timing of such elections, the mechanisms for payments of, and accrual of interest or other earnings, if any, on such amounts, Shares or other consideration so deferred, and such other terms, conditions, rules, and procedures that the Committee deems advisable for the administration of any such deferral program.

14.18 Section 409A of the Code. The Plan and Awards are intended to comply with or be exempt from the applicable requirements of Section 409A of the Code and shall be limited, construed, and interpreted in accordance with such intent. To the extent that any Award granted to a Participant is subject to Section 409A of the Code, it shall be paid in a manner that will comply with Section 409A of the Code, including proposed, temporary, or final regulations or any other guidance issued by the Secretary of the Treasury and the Internal Revenue Service with respect thereto. Notwithstanding anything herein to the contrary, any provision in the Plan that is inconsistent with Section 409A of the Code shall be deemed to be amended to comply with or be exempt from Section 409A of the Code and, to the extent such provision cannot be amended to comply therewith or be exempt therefrom, such provision shall be null and void. The Company shall have no liability to a Participant, or any other party, if an Award that is intended to be exempt from, or compliant with, Section 409A of the Code is not so exempt or compliant or for any action taken by the Committee or the Company and, in the event that any amount or benefit under the Plan becomes subject to penalties under Section 409A of the Code, responsibility for payment of such penalties shall rest solely with the affected Participants and not with the Company. Notwithstanding any contrary provision in the Plan or Award Agreement, any payment(s) of "nonqualified deferred compensation" (within the meaning of Section 409A of the Code) that are otherwise required to be made under the Plan to a "specified employee" (as defined under Section 409A of the Code) as a result of such employee's separation from service (other than a payment that is not subject to Section 409A of the Code) shall

be delayed for the first six (6) months following such separation from service (or, if earlier, until the date of death of the specified employee) and shall instead be paid (in a manner set forth in the Award Agreement) upon expiration of such delay period.

14.19 Successor and Assigns. The Plan shall be binding on all successors and permitted assigns of a Participant, including, without limitation, the estate of such Participant and the executor, administrator, or trustee of such estate.

14.20 Severability of Provisions. If any provision of the Plan shall be held invalid or unenforceable, such invalidity or unenforceability shall not affect any other provisions hereof, and the Plan shall be construed and enforced as if such provisions had not been included.

14.21 Headings and Captions. The headings and captions herein are provided for reference and convenience only, shall not be considered part of the Plan, and shall not be employed in the construction of the Plan.

**ARTICLE XV
EFFECTIVE DATE OF PLAN**

The Plan shall become effective on _____, 2021, which is the date of its adoption by the Board, subject to the approval of the Plan by the stockholders of the Company in accordance with the requirements of the laws of the State of Delaware.

**ARTICLE XVI
TERM OF PLAN**

No Award shall be granted pursuant to the Plan on or after the tenth (10th) anniversary of the earlier of the date that the Plan is adopted or the date of stockholder approval, but Awards granted prior to such tenth (10th) anniversary may extend beyond that date.

**POLESTAR AUTOMOTIVE HOLDING UK LIMITED
2021 EMPLOYEE STOCK PURCHASE PLAN**

**ARTICLE 1
PURPOSE**

The Plan's purpose is to assist employees of the Company and its Designated Companies in acquiring a share ownership interest in the Company, and to help such employees provide for their future security and to encourage them to remain in the employment of the Company and its Subsidiaries and Affiliates.

The Plan consists of two components: the Section 423 Component and the Non-Section 423 Component. The Section 423 Component is intended to qualify as an "employee stock purchase plan" under Section 423 of the Code and shall be administered, interpreted and construed in a manner consistent with the requirements of Section 423 of the Code. In addition, this Plan authorizes the grant of Options under the Non-Section 423 Component, which need not qualify as Options granted pursuant to an "employee stock purchase plan" under Section 423 of the Code; such Options granted under the Non-Section 423 Component shall be granted pursuant to separate Offerings containing such sub-plans, appendices, rules or procedures as may be adopted by the Administrator and designed to achieve tax, securities laws or other objectives for Eligible Employees and the Designated Companies in locations within or outside of the United States. Except as otherwise provided herein or determined by the Administrator, the Non-Section 423 Component will operate and be administered in the same manner as the Section 423 Component. Offerings intended to be made under the Non-Section 423 Component will be designated as such by the Administrator at or prior to the time of such Offering.

For purposes of this Plan, the Administrator may designate separate Offerings under the Plan, the terms of which need not be identical, in which Eligible Employees will participate, even if the dates of the applicable Offering Period(s) in each such Offering is identical, *provided* that the terms of participation are the same within each separate Offering under the Section 423 Component as determined under Section 423 of the Code. Solely by way of example and without limiting the foregoing, the Company could, but shall not be required to, provide for simultaneous Offerings under the Section 423 Component and the Non-Section 423 Component of the Plan.

**ARTICLE 2
DEFINITIONS**

As used in the Plan, the following words and phrases have the meanings specified below, unless the context clearly indicates otherwise:

- 2.1. "**Administrator**" means the Committee, or such individuals to which authority to administer the Plan has been delegated under Section 7.1 hereof.

(b) No Eligible Employee shall be granted an Option under the Section 423 Component which permits the Participant’s rights to purchase Common Shares under the Plan, and to purchase shares under all other employee stock purchase plans of the Company, any Parent or any Subsidiary subject to Section 423 of the Code, to accrue at a rate which exceeds \$25,000 of fair market value of such shares (determined at the time such Option is granted) for each calendar year in which such Option is outstanding at any time. The limitation under this Section 3.1(b) shall be applied in accordance with Section 423(b)(8) of the Code.

3.2. Election to Participate; Payroll Deductions.

(a) Each individual who is an Eligible Employee as of an Offering Period’s Enrollment Date may elect to participate in such Offering Period and the Plan by delivering to the Company or an Agent designated by the Company an enrollment form including a payroll deduction authorization (which may be in an electronic format or such other method as determined by the Company in accordance with the Company’s practices) (a “**Participation Election**”) no later than the period of time prior to the applicable Enrollment Date determined by the Administrator, in its sole discretion. Except as provided in Section 3.2(e) hereof, an Eligible Employee may participate in the Plan only by means of payroll deduction.

(b) Subject to Section 3.1(b) hereof and except as may otherwise be determined by the Administrator, payroll deductions (i) shall equal at least 1% of the Participant’s Compensation as of each Payday of the Offering Period following the Enrollment Date, but not more than 5% of the Participant’s Compensation as of each Payday of the Offering Period following the Enrollment Date; and (ii) shall be expressed as a whole number percentage. Subject to Section 3.2(e) hereof, amounts deducted from a Participant’s Compensation with respect to an Offering Period pursuant to this Section 3.2 shall be deducted each Payday through payroll deduction and credited to the Participant’s Plan Account.

(c) Unless otherwise determined by the Administrator, following at least one payroll deduction, a Participant may increase or decrease the percentage of Compensation or the fixed dollar amount designated in his or her enrollment form, subject to the limits of this Section 3.2, or may suspend his or her payroll deductions, at any time during an Offering Period; *provided, however*, that the Administrator may limit the number of changes

a Participant may make to his or her payroll deduction elections during each Offering Period in the applicable Offering (and in the absence of any specific designation by the Administrator, a Participant shall be allowed one change to his or her payroll deduction elections during each Offering Period). Any such change or suspension of payroll deductions shall be effective with the first full payroll period following ten business days after the Company's receipt of the new enrollment form (or such shorter or longer period as may be specified by the Administrator in the applicable Offering). In the event a Participant suspends his or her payroll deductions, such Participant's cumulative payroll deductions prior to the suspension shall remain in his or her account and shall be applied to the purchase of Common Shares on the next occurring Exercise Date and shall not be paid to such Participant unless he or she withdraws from participation in the Plan pursuant to Section 6.1.

(d) Upon the completion of an Offering Period, each Participant in such Offering Period shall automatically participate in the immediately following Offering Period at the same payroll deduction percentage as in effect at the termination of such Offering Period, unless such Participant delivers to the Company or an Agent designated by the Company a different Participation Election with respect to the successive Offering Period in accordance with Section 3.2(a) hereof, or unless such Participant becomes ineligible for participation in the Plan.

(e) Notwithstanding any other provisions of the Plan to the contrary, in non-U.S. jurisdictions where participation in the Plan through payroll deductions is prohibited or otherwise problematic under applicable local laws (as determined by the Administrator in its sole discretion), the Administrator may provide that an Eligible Employee may elect to participate through contributions to the Participant's Plan Account in a form acceptable to the Administrator in lieu of or in addition to payroll deductions; *provided, however*, that, for any Offering under the Section 423 Component, the Administrator must determine that any alternative method of contribution is applied on an equal and uniform basis to all Eligible Employees in the Offering. Any reference to "payroll deductions" in this Section 3.2 (or in any other section of the Plan) will similarly cover contributions by other means made pursuant to this Section 3.2(e).

ARTICLE 4 PURCHASE OF SHARES

4.1. Grant of Option. The Company may make one or more Offerings under the Plan, which may be successive or overlapping with one another, until the earlier of: (i) the date on which all Common Shares available under the Plan have been purchased or (ii) the date on which the Plan is suspended or terminates. No Offering shall commence prior to the date on which the Company's registration statement on Form S-8 is filed with the U.S. Securities and Exchange Commission in respect of the Plan. The Administrator shall designate the terms and conditions of each Offering in writing, including without limitation, the Offering Period and the Purchase Periods. Each Participant shall be granted an Option with respect to an Offering Period on the applicable Grant Date. Subject to the limitations of Section 3.1(b) hereof, the number of Common Shares subject to a Participant's Option shall be determined by dividing (a) such Participant's payroll deductions accumulated prior to an Exercise Date and retained in the Participant's Plan Account on such Exercise Date by (b) the applicable Option Price. The Administrator may, for future Offering Periods, increase or decrease, in its absolute discretion, the maximum number of Common Shares that a Participant may purchase during any Purchase Periods under such future Offering Periods. Each Option shall expire on the last Exercise Date for the applicable Offering Period immediately after the automatic exercise of the Option in accordance with Section 4.3 hereof, unless such Option terminates earlier in accordance with Article ARTICLE 6 hereof.

4.2. Option Price. The Option Price shall equal not less than 85% of the lesser of the Fair Market Value of a Common Share on (a) the applicable Grant Date and (b) the applicable Exercise Date, or such other price designated by the Administrator.

4.3. Purchase of Shares.

(a) On each Exercise Date for an Offering Period, each Participant shall automatically and without any action on such Participant's part be deemed to have exercised the Participant's Option to purchase at the applicable Option Price the largest number of whole Common Shares which can be purchased with the amount in the Participant's Plan Account, subject to the limitations set forth in the Plan. Unless otherwise determined by the Administrator in advance of an Offering or in accordance with applicable law, any balance that is remaining in the Participant's Plan Account (after exercise of such Participant's Option) as of the Exercise Date shall be carried forward into the next Offering Period, unless the Participant has properly elected to withdraw from the Plan, has ceased to be an Eligible Employee or with respect to the maximum limitations set forth in Section 3.1(b) and Section 4.1. Any balance not carried forward to the next Offering Period in accordance with the prior sentence shall promptly be refunded as soon as administratively practicable to the applicable Participant.

(b) As soon as practicable following each Exercise Date, the number of Common Shares purchased by such Participant pursuant to Section 4.3(a) hereof shall be delivered (either in share certificate or book entry form), in the Company's sole discretion, to either (i) the Participant or (ii) if applicable, the Participant's Share Account. The Company may require that shares be retained in such Share Account or with such stock brokerage or other financial services firm for a designated period of time and/or may establish procedures to permit tracking of disqualifying dispositions of such shares.

4.4. Transferability of Rights. An Option granted under the Plan shall not be transferable, other than by will or the applicable laws of descent and distribution, and is exercisable during the Participant's lifetime only by the Participant. No option or interest or right to the Option shall be available to pay off any debts, contracts or engagements of the Participant or the Participant's successors in interest or shall be subject to disposition by pledge, encumbrance, assignment or any other means whether such disposition be voluntary or involuntary or by operation of law by judgment, levy, attachment, garnishment or any other legal or equitable proceedings (including bankruptcy), and any attempt at disposition of the Option shall have no effect. Without limiting the foregoing, the Options will not be offered or sold by means of any document, other than: (i) to "qualified investors" for the purposes of the Regulation (EU) 2017/1129 (the "Prospectus Regulation") and any rules made or promulgated thereunder, (ii) in other circumstances which do not result in a requirement for the publication of a "prospectus" as defined in the Prospectus Regulation and/or Financial Services Act 2001 (the "FSMA") or which do not constitute an offer to the public within the meaning thereof or (iii) which would not be prohibited by section 21(1) of FSMA.

4.5. Share Registry and Certificates. Promptly following completion of the allotment and issuance of any Options to a Participant pursuant to this Plan, the Company shall: (a) procure that the Participant and the relevant number of Options allotted and issued to such Participant pursuant to this Plan are entered into the register of members (or such other relevant register) of the Company; (b) complete and despatch to such Participant the relevant certificates for such allotted and issued Options; and (c) procure that all applicable corporate, governmental and regulatory filings in connection with such allotment and issuance of Shares are promptly made and submitted in accordance with Applicable Law.

**ARTICLE 5
PROVISIONS RELATING TO COMMON SHARES**

5.1. Common Shares Reserved. Subject to adjustment as provided in Section 5.2 hereof, the aggregate number of Common Shares that may be issued pursuant to rights granted under the Plan shall be 2,000,000 shares (the "Absolute Share Limit"); *provided*, the Absolute Share Limit may, but need not be, issued pursuant to Options granted under the Section 423 Component; and *provided, further*, that, subject to adjustment as provided in Section 5.2 hereof, the Absolute Share Limit shall be automatically increased on the first day of each fiscal

year following the fiscal year in which the Effective Date falls in an amount equal to the least of (x) 0.1% of the total number of ListCo Shares (as defined in the Business Combination Agreement) outstanding on the last day of the immediately preceding fiscal year, (y) a lower number of ListCo Shares as determined by the Board and (z) 2,000,000. Shares made available for sale under the Plan may be authorized but unissued shares or treasury Common Shares; *provided*, that under the Non-Section 423 Component, Common Shares may be purchased by the Broker on the open market on the Participant's behalf. If any right granted under the Plan shall for any reason terminate without having been exercised, the Common Shares not purchased under such right shall again become available for issuance under the Plan.

5.2. Adjustments Upon Changes in Capitalization, Dissolution, Liquidation, Merger or Asset Sale.

(a) Changes in Capitalization. Subject to any required action by the shareholders of the Company, the number of Common Shares which have been authorized for issuance under the Plan but not yet placed under Option (or, with respect to Match Shares, not yet posted to the Participant's Share Account), as well as the price per share and the number of Common Shares covered by each Option under the Plan which has not yet been exercised shall be proportionately adjusted for any increase or decrease in the number of issued Common Shares resulting from a share split, reverse share split, share dividend, combination, amalgamation, consolidation, reorganization, arrangement or reclassification of the Common Shares, or any other increase or decrease in the number Common Shares effected without receipt of consideration by the Company; *provided, however*, that conversion of any convertible securities of the Company shall not be deemed to have been "effected without receipt of consideration." Such adjustment shall be made by the Administrator, whose determination in that respect shall be final, binding and conclusive. Except as expressly provided herein, no issuance by the Company of shares of any class, or securities convertible into shares of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares of Common Shares subject to an Option.

(b) Dissolution or Liquidation. In the event of the proposed dissolution or liquidation of the Company, the Offering Periods then in progress shall be shortened by setting a new Exercise Date (the "**New Exercise Date**"), and shall terminate immediately prior to the consummation of such proposed dissolution or liquidation, unless provided otherwise by the Administrator. The New Exercise Date shall be before the date of the Company's proposed dissolution or liquidation. The Administrator shall notify each Participant in writing, at least ten business days prior to the New Exercise Date, that the Exercise Date for the Participant's Option has been changed to the New Exercise Date and that the Participant's Option shall be exercised automatically on the New Exercise Date, unless prior to such date the Participant has withdrawn from the Offering Period as provided in Section 6.1 hereof or the Participant has ceased to be an Eligible Employee as provided in Section 6.2 hereof.

(c) Merger, Share Sale or Asset Sale. In the event of a proposed sale of all or substantially all of the shares or assets of the Company, or the merger of the Company with or into another corporation, each outstanding Option shall be assumed or an equivalent Option substituted by the successor corporation or a parent or subsidiary of the successor corporation. If the successor corporation refuses to assume or substitute for the Option, any Offering Periods then in progress shall be shortened by setting a New Exercise Date and any Offering Periods then in progress shall end on the New Exercise Date. The New Exercise Date shall be before the date of the Company's proposed sale or merger. The Administrator shall notify each Participant in writing, at least ten business days prior to the New Exercise Date, that the Exercise Date for the Participant's Option has been changed to the New Exercise Date and that the Participant's Option shall be exercised automatically on the New Exercise Date, unless prior to such date the Participant has withdrawn from the Offering Period as provided in Section 6.1 hereof or the Participant has ceased to be an Eligible Employee as provided in Section 6.2 hereof.

5.3. Insufficient Shares. If the Administrator determines that, on a given Exercise Date or Matching Date, as applicable, the number of Common Shares with respect to which Options are to be exercised or subject to Match Shares may exceed the number of Common Shares remaining available for sale or issuance under the Plan on such Exercise Date or Matching Date, the Administrator shall make a pro rata allocation of the Common Shares available for issuance on such Exercise Date or Matching Date, as applicable, in as uniform a manner as

shall be practicable and as it shall determine in its sole discretion to be equitable among all Participants exercising Options to purchase Common Shares on such Exercise Date or eligible to receive Match Shares on such Matching Date, and unless additional shares are authorized for issuance under the Plan, no further Offering Periods or Matching Dates shall take place and the Plan shall terminate pursuant to Section 7.5 hereof. If an Offering Period is so terminated, then the balance of the amount credited to the Participant's Plan Account which has not been applied to the purchase of Common Shares shall be paid to such Participant in one lump sum in cash within 30 days after such Exercise Date, without any interest thereon (except as may be required by applicable local laws).

5.4. Rights as Shareholders. With respect to Common Shares subject to an Option or Match Shares, a Participant shall not be deemed to be a shareholder of the Company and shall not have any of the rights or privileges of a shareholder. A Participant shall have the rights and privileges of a shareholder of the Company when, but not until, the Common Shares have been delivered to the Participant or deposited in the designated brokerage account following exercise of the Participant's Option or the Matching Date, as applicable.

ARTICLE 6 TERMINATION OF PARTICIPATION

6.1. Cessation of Contributions; Voluntary Withdrawal.

(a) A Participant may cease payroll deductions during an Offering Period and elect to withdraw from the Plan by delivering written notice of such election to the Company or an Agent designated by the Company in such form and at such time prior to the Exercise Date for such Offering Period as may be established by the Administrator (a "**Withdrawal Election**"). In the event a Participant elects to withdraw from the Plan, amounts then credited to such Participant's Plan Account shall be returned to the Participant in one lump-sum payment in cash within 30 days after such election is received by the Company, without any interest thereon (except as may be required by applicable local laws), and the Participant shall cease to participate in the Plan and the Participant's Option for such Offering Period shall terminate upon receipt of the Withdrawal Election.

(b) A Participant's withdrawal from the Plan shall not have any effect upon the Participant's eligibility to participate in any similar plan which may hereafter be adopted by the Company or in succeeding Offering Periods which commence after the termination of the Offering Period from which the Participant withdraws.

(c) A Participant who ceases contributions to the Plan during any Offering Period shall not be permitted to resume contributions to the Plan during that Offering Period.

6.2. Termination of Eligibility. Upon a Participant's ceasing to be an Eligible Employee, for any reason, such Participant's Option for the applicable Offering Period shall automatically terminate, the Participant shall be deemed to have elected to withdraw from the Plan, and any balance on such Participant's Plan Account shall be paid to such Participant or, in the case of the Participant's death, to the person or persons entitled thereto pursuant to applicable law, within 90 days after such cessation of being an Eligible Employee, without any interest thereon (except as may be required by applicable local laws). If a Participant transfers employment from the Company or any Designated Company participating in the Section 423 Component to any Designated Company participating in the Non-Section 423 Component, such transfer shall not be treated as a termination of employment, but the Participant shall immediately cease to participate in the Section 423 Component; however, any contributions made for the Offering Period in which such transfer occurs shall be transferred to the Non-Section 423 Component, and such Participant shall immediately join the then-current Offering under the Non-Section 423 Component upon the same terms and conditions in effect for the Participant's participation in the Section 423 Component, except for such modifications otherwise applicable for Participants in such Offering. A Participant who transfers employment from any Designated Company participating in the Non-Section 423 Component to the Company or any Designated Company participating in the Section 423

Component shall not be treated as terminating the Participant's employment and shall remain a Participant in the Non-Section 423 Component until the earlier of (i) the end of the current Offering Period under the Non-Section 423 Component, or (ii) the Enrollment Date of the first Offering Period in which the Participant is eligible to participate following such transfer. Notwithstanding the foregoing, the Administrator may establish different rules to govern transfers of employment between companies participating in the Section 423 Component and the Non-Section 423 Component, consistent with the applicable requirements of Section 423 of the Code.

**ARTICLE 7
GENERAL PROVISIONS**

7.1. Administration.

(a) The Plan shall be administered by the Committee, which shall be composed of members of the Board. The Committee may delegate administrative tasks under the Plan to the services of an Agent or Employees to assist in the administration of the Plan, including without limitation, determining the Designated Companies participating in the Plan, establishing and maintaining an individual securities account under the Plan for each Participant, determining enrollment and withdrawal deadlines and determining exchange rates. In its absolute discretion, the Board may at any time and from time to time exercise any and all rights and duties of the Administrator under the Plan.

(b) It shall be the duty of the Administrator to conduct the general administration of the Plan in accordance with the provisions of the Plan. The Administrator shall have the power, subject to, and within the limitations of, the express provisions of the Plan:

(i) To establish and terminate Offerings;

(ii) To determine when and how Options shall be granted and the provisions and terms of each Offering (which need not be identical);

(iii) To select Designated Companies in accordance with Section 7.2 hereof; and

(iv) To construe and interpret the Plan, the terms of any Offering and the terms of the Options and to adopt such rules for the administration, interpretation, and application of the Plan as are consistent therewith and to interpret, amend or revoke any such rules. The Administrator, in the exercise of this power, may correct any defect, omission or inconsistency in the Plan, any Offering or any Option, in a manner and to the extent it shall deem necessary or expedient to administer the Plan, subject to Section 423 of the Code for the Section 423 Component.

(c) The Administrator may adopt rules or procedures relating to the operation and administration of the Plan to accommodate the specific requirements of local laws and procedures, *provided* that the adoption and implementation of any such rules and/or procedures would not cause the Section 423 Component to be in noncompliance with Section 423 of the Code. Without limiting the generality of the foregoing, the Administrator is specifically authorized to adopt rules and procedures regarding handling of participation elections, payroll deductions, payment of interest, conversion of local currency, payroll tax, withholding procedures and handling of share certificates which vary with local requirements.

(d) The Administrator may adopt sub-plans applicable to particular Designated Companies or locations, which sub-plans may be designed to be outside the scope of Section 423 of the Code. The rules of such sub-plans may take precedence over other provisions of this Plan, with the exception of Section 5.1 hereof, but unless otherwise superseded by the terms of such sub-plan, the provisions of this Plan shall govern the operation of such sub-plan.

(e) All expenses and liabilities incurred by the Administrator in connection with the administration of the Plan shall be borne by the Company. The Administrator may employ attorneys, consultants, accountants, appraisers, brokers or other persons. The Administrator, the Company and its officers and directors shall be entitled to rely upon the advice, opinions or valuations of any such persons. All actions taken and all interpretations and determinations made by the Administrator in good faith shall be final and binding upon all Participants, the Company and all other interested Persons. No member of the Board or Administrator shall be personally liable for any action, determination or interpretation made in good faith with respect to the Plan or the Options, and all members of the Board or Administrator shall be fully protected by the Company in respect to any such action, determination, or interpretation. Any and all risks resulting from any market fluctuations or conditions of any nature and affecting the price of Common Shares are assumed by the Participant.

7.2. Designation of Affiliates and Subsidiaries. The Administrator shall designate from time to time the Affiliates and Subsidiaries that shall constitute Designated Companies, and determine whether such Designated Companies shall participate in the Section 423 Component or Non-Section 423 Component; *provided, however*, that an Affiliate that does not also qualify as a Subsidiary may be designated only as participating in the Non-Section 423 Component. The Administrator may designate an Affiliate or Subsidiary, or terminate the designation of an Affiliate or Subsidiary, without the approval of the shareholders of the Company.

7.3. Reports. Individual accounts shall be maintained for each Participant in the Plan. Statements of Plan Accounts shall be given to Participants at least annually, which statements shall set forth the amounts of payroll deductions, the Option Price, the number of shares purchased and the remaining cash balance, if any.

7.4. No Right to Employment. Nothing in the Plan shall be construed to give any person (including any Participant) the right to remain in the employ of the Company, a Parent or a Subsidiary or to affect the right of the Company, any Parent or any Subsidiary to terminate the employment of any person (including any Participant) at any time, with or without cause, which right is expressly reserved.

7.5. Amendment and Termination of the Plan.

(a) The Board may, in its sole discretion, amend, suspend or terminate the Plan at any time and from time to time. To the extent necessary to comply with Section 423 of the Code (or any successor rule or provision), with respect to the Section 423 Component, or any other applicable law, regulation or stock exchange rule, the Company shall obtain shareholder approval of any such amendment to the Plan in such a manner and to such a degree as required by Section 423 of the Code or such other law, regulation or rule.

(b) If the Administrator determines that the ongoing operation of the Plan may result in unfavorable financial accounting consequences, the Administrator may in its discretion modify or amend the Plan to reduce or eliminate such accounting consequence including, but not limited to:

- (i) altering the Option Price for any Offering Period including an Offering Period underway at the time of the change in Option Price;
- (ii) shortening any Offering Period so that the Offering Period ends on a new Exercise Date, including an Offering Period underway at the time of the Administrator action; and
- (iii) allocating Common Shares.

Such modifications or amendments shall not require shareholder approval or the consent of any Participant.

(c) Upon termination of the Plan, the balance in each Participant's Plan Account shall be refunded as soon as practicable after such termination, without any interest thereon (except as may be required by applicable local laws).

7.6. Use of Funds; No Interest Paid. All funds received by the Company by reason of purchase of shares of Common Shares under the Plan shall be included in the general funds of the Company free of any trust or other restriction and may be used for any corporate purpose (except as may be required by applicable local laws). No interest shall be paid to any Participant or credited under the Plan (except as may be required by applicable local laws).

7.7. Term; Approval by Shareholders. No Option may be granted during any period of suspension of the Plan or after termination of the Plan. The Plan shall be submitted for the approval of the Company's shareholders within 12 months after the date of the Board's initial adoption of the Plan. Options may be granted prior to such shareholder approval; *provided, however*, that such Options shall not be exercisable prior to the time when the Plan is approved by the shareholders; *provided, further* that if such approval has not been obtained by the end of the 12-month period, all Options previously granted under the Plan shall thereupon terminate and be canceled and become null and void without being exercised.

7.8. Effect Upon Other Plans. The adoption of the Plan shall not affect any other compensation or incentive plans in effect for the Company, any Parent or any Subsidiary. Nothing in the Plan shall be construed to limit the right of the Company, any Parent or any Subsidiary (a) to establish any other forms of incentives or compensation for employees of the Company or any Parent or any Subsidiary, or (b) to grant or assume Options otherwise than under the Plan in connection with any proper corporate purpose, including, but not by way of limitation, the grant or assumption of Options in connection with the acquisition, by purchase, lease, merger, amalgamation, combination, arrangement, consolidation or otherwise, of the business, shares or assets of any corporation, firm or association.

7.9. Conformity to Securities Laws. Notwithstanding any other provision of the Plan, the Plan and the participation in the Plan by any individual who is then subject to Section 16 of the Exchange Act shall be subject to any additional limitations set forth in any applicable exemption rule under Section 16 of the Exchange Act (including any amendment to Rule 16b-3 of the Exchange Act) that are requirements for the application of such exemptive rule. To the extent permitted by applicable law, the Plan shall be deemed amended to the extent necessary to conform to such applicable exemptive rule.

7.10. Notice of Disposition of Shares. Each Participant shall give the Company prompt notice of any disposition or other transfer of any Common Shares, acquired pursuant to the exercise of an Option granted under the Section 423 Component, if such disposition or transfer is made (a) within two years after the applicable Grant Date or (b) within one year after the transfer of such Common Shares to such Participant upon exercise of such Option. The Company may direct that any certificates evidencing shares acquired pursuant to the Plan refer to such requirement.

7.11. Tax Withholding. At the time of any taxable event that creates a withholding obligation for the Company or any Parent, Affiliate or Subsidiary, the Participant will make adequate provision for any Tax-Related Items. In their sole discretion, and except as otherwise determined by the Administrator, the Company or the Designated Company that employs or employed the Participant may satisfy their obligations to withhold Tax-Related Items by (a) withholding from the Participant's wages or other compensation, (b) withholding a sufficient whole number of Common Shares otherwise issuable following exercise of the Option (or delivery of the Match Shares) having an aggregate value sufficient to pay the Tax-Related Items required to be withheld with respect to the Option and/or shares, (c) withholding from proceeds from the sale of Common Shares issued upon exercise of the Option, either through a voluntary sale or a mandatory sale arranged by the Company, or (d) any other method as determined by the Administrator to be compliant with applicable laws.

7.12. Governing Law. The Plan and any agreements hereunder shall be administered, interpreted and enforced under the laws of the State of Delaware without regard to conflicts of laws thereof or of any other jurisdiction.

7.13. Notices. All notices or other communications by a Participant to the Company under or in connection with the Plan shall be deemed to have been duly given when received in the form specified by the Company at the location, or by the person, designated by the Company for the receipt thereof.

7.14. Conditions to Issuance of Shares.

(a) Notwithstanding anything herein to the contrary, the Company shall not be required to issue or deliver any certificates or make any book entries evidencing Common Shares pursuant to the exercise of an Option by a Participant or the delivery of Match Shares, unless and until the Administrator has determined, with advice of counsel, that the issuance of such Common Shares is in compliance with all applicable laws, regulations of governmental authorities and, if applicable, the requirements of any securities exchange or automated quotation system on which the Common Shares are listed or traded, and the Common Shares are covered by an effective registration statement or applicable exemption from registration. In addition to the terms and conditions provided herein, the Administrator may require that a Participant make such reasonable covenants, agreements, and representations as the Administrator, in its discretion, deems advisable in order to comply with any such laws, regulations, or requirements.

(b) All certificates for Common Shares delivered pursuant to the Plan and all Common Shares issued pursuant to book entry procedures are subject to any stop-transfer orders and other restrictions as the Administrator deems necessary or advisable to comply with U.S. and non-U.S. federal, provincial, state or local securities or other laws, rules and regulations and the rules of any securities exchange or automated quotation system on which the Common Shares are listed, quoted, or traded. The Administrator may place legends on any certificate or book entry evidencing Common Shares to reference restrictions applicable to the Common Shares.

(c) The Administrator shall have the right to require any Participant to comply with any timing or other restrictions with respect to the settlement, distribution or exercise of any Option, including a window-period limitation, as may be imposed in the sole discretion of the Administrator.

(d) Notwithstanding any other provision of the Plan, unless otherwise determined by the Administrator or required by any applicable law, rule or regulation, the Company may, in lieu of delivering to any Participant certificates evidencing Common Shares issued in connection with any Option, record the issuance of Common Shares in the books of the Company (or, as applicable, its transfer agent or share plan administrator).

If, pursuant to this Section 7.14, the Administrator determines that Common Shares will not be issued to any Participant, the Company is relieved from liability to any Participant except to refund to the Participant such Participant's Plan Account balance, without interest thereon (except as may be required by applicable local laws).

7.15. Equal Rights and Privileges. All Eligible Employees granted Options pursuant to an Offering under the Section 423 Component shall have equal rights and privileges under this Plan to the extent required under Section 423 of the Code so that the Section 423 Component qualifies as an "employee stock purchase plan" within the meaning of Section 423 of the Code. Any provision of the Section 423 Component that is inconsistent with Section 423 of the Code shall, without further act or amendment by the Company or the Board, be reformed to comply with the equal rights and privileges requirement of Section 423 of the Code. Eligible Employees participating in the Non-Section 423 Component need not have the same rights and privileges as each other, or as Eligible Employees participating in the Section 423 Component.

7.16. Rules Particular to Specific Countries. Notwithstanding anything herein to the contrary, the terms and conditions of the Plan with respect to Participants who are tax residents of a particular non-U.S. country or who are non-U.S. nationals or employed in non-U.S. jurisdictions may be subject to an addendum to the Plan in the form of an appendix or sub-plan (which appendix or sub-plan may be designed to govern Offerings under the Section 423 Component or the Non-Section 423 Component, as determined by the Administrator). To the extent

that the terms and conditions set forth in an appendix or sub-plan conflict with any provisions of the Plan, the provisions of the appendix or sub-plan shall govern. The adoption of any such appendix or sub-plan shall be pursuant to Section 7.1 above. Without limiting the foregoing, the Administrator is specifically authorized to adopt rules and procedures, with respect to Participants who are non-U.S. nationals or employed in non-U.S. jurisdictions, regarding the exclusion of particular Affiliates or Subsidiaries from participation in the Plan, eligibility to participate, the definition of Compensation, handling of payroll deductions or other contributions by Participants, payment of interest, conversion of local currency, data privacy security, payroll tax, withholding procedures, establishment of bank or trust accounts to hold payroll deductions or contributions, *provided* that the adoption and implementation of any such rules and/or procedures would not cause the Section 423 Component to be in noncompliance with Section 423 of the Code.

7.17. Section 409A. The Section 423 Component of the Plan and the Options granted pursuant to Offerings thereunder are intended to be exempt from the application of Section 409A. Neither the Non-Section 423 Component nor any Option granted pursuant to an Offering thereunder is intended to constitute or provide for “nonqualified deferred compensation” within the meaning of Section 409A. The Non-Section 423 Component is intended to be exempt from the application of Section 409A under the short-term deferral exception and any ambiguities shall be construed and interpreted in accordance with such intent. Notwithstanding any provision of the Plan to the contrary, if the Administrator determines that any Option granted under the Plan may be or become subject to Section 409A or that any provision of the Plan may cause an Option granted under the Plan to be or become subject to Section 409A, the Administrator may adopt such amendments to the Plan and/or adopt other policies and procedures (including amendments, policies and procedures with retroactive effect), or take any other actions as the Administrator determines are necessary or appropriate to avoid the imposition of taxes under Section 409A, either through compliance with the requirements of Section 409A or with an available exemption therefrom.

APPENDIX A

COMPANY MATCH AND ALLOCATION OF MATCH SHARES
UNDER THE NON-SECTION 423 COMPONENT OF THE PLAN

1.1. Purchase of Shares. Subject to the determination of the Committee in relation to the operation of the Non-Section 423 Component of the Plan in each relevant participating jurisdiction, (a) with respect to each Non-U.S. Eligible Employee (as defined below) who has elected to participate in the Plan pursuant to Section 3.2, the full amount credited to such Participant's Plan Account, and (b) with respect to each Eligible Employee located in the United States who has elected to participate in the Plan pursuant to Section 3.2, any amount credited to such Participant's Plan Account that is in excess of the limitation set forth in Section 3.1(b) of the Plan, shall be transferred as soon as practicable following the close of each payroll period by the Company to the Broker, and the Company shall cause the Broker to use such amount to purchase Common Shares on the open market on the Participant's behalf. Any balance remaining after such purchase shall be credited to the Participant's Plan Account and shall be used to purchase additional Common Shares as of the next purchase date (in the case of any Eligible Employee located in the United States, to the extent the balance of the Participant's Plan Account exceeds the limitation set forth in Section 3.1(b) of the Plan as of the applicable purchase date), which purchase date may be on such date as the Committee determines in its discretion. For the avoidance of doubt, Non-U.S. Eligible Employees shall not be eligible to participate in the purchase of Common Shares pursuant to Article ARTICLE 4 of the Plan.

1.2. Eligibility to Receive Match Shares; Match Ratio. Under the Non-Section 423 Component of the Plan, the Committee may, in its discretion, determine to offer Match Shares to all Eligible Employees (including, for the avoidance of doubt, any Eligible Employees located in the United States), which such determination shall be made prior to the beginning of the relevant Quarter and communicated to the applicable Participants. For each Eligible Employee who (i) is a citizen or resident of a jurisdiction outside the United States (without regard to whether such Eligible Employee is also a citizen of the United States or a resident alien (within the meaning of Section 7701(b)(1)(A) of the Code)) (a "**Non-U.S. Eligible Employee**"), (ii) is a Participant in the Plan and remains an Eligible Employee on each day from a Quarter End until the Matching Date for such Quarter End and (iii) retains the Company Shares purchased during an applicable Quarter from the Quarter End until the Matching Date for such Quarter End, the number of Match Shares shall be an amount equal to up to 100% of the number of Company Shares credited to the Participant's Plan Account prior to the Exercise Date; *provided*, that in no event shall the aggregate value of Match Shares credited to the Participant's Plan Account in respect of any calendar year exceed 1% of the Participant's Compensation on the date the Shares to which such Match Shares relate were purchased unless the Committee, at its discretion, determines that a different limit should apply in respect of such calendar year. Any Match Shares may be subject to such additional terms and conditions (including with respect to vesting) as the Administrator may determine in its sole discretion. For the avoidance of doubt, no Match Shares will be provided in respect of any Shares prior to the first anniversary of the date the Match Shares are credited to the Participant's Plan Account.

1.3. Matching Allocations. As soon as practicable following each Quarter End for which the Committee has determined to offer Match Shares pursuant to Section 1.1 of this Appendix A (but in any event no later than March 15th of the year following the year in which such Matching Shares are credited), for each Participant eligible to receive Match Shares, the Company shall cause to be allocated to the Participant's Share Account that number of Match Shares determined pursuant to this Appendix A. Match Shares shall be posted to the Participant's Share Account, as applicable, as soon as practicable after, and credited to the Participant's Share Account as of, each Matching Date.

1.4. Broker Fees. The Company shall pay the Broker's administrative charges for opening the Share Accounts for the Eligible Employees and the brokerage commissions on purchases made that are attributable to Match Shares and the purchase of Company Shares pursuant to Section 1.1 of this Appendix A. Eligible Employees shall pay all other expenses of their Share Accounts, including but not limited to the Broker's fees attributable to the issuance of certificates for any and all Common Shares held in the Participant's Share Account. Eligible Employees shall also pay the brokerage commissions and any charges associated with the sale of Common Shares held in the Participant's Share Account.

NOW, THEREFORE, in consideration of the premises and the mutual promises contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties, each intending to be legally bound, hereby agree as follows:

Section 1. Agreement to Vote; Agreement to Consent. Prior to the Termination Date (as defined herein), each of Sponsor and each Supporting Sponsor Stockholder, in its capacity as a stockholder of GG, irrevocably and unconditionally agrees that: at the meeting of GG’s stockholders to be convened for the purpose of obtaining the requisite stockholder approval of the Transaction Proposals in connection with the Transactions or any other meeting of GG’s stockholders (whether annual or special and whether or not an adjourned or postponed meeting, however called and including any adjournment or postponement thereof), such Sponsor and Supporting Sponsor Stockholder shall (a) if and when such meeting is held, appear at such meeting or otherwise cause all Covered Shares (as defined herein) owned by such Sponsor and Supporting Sponsor Stockholder as of the record date of such meeting to be counted as present thereat for the purpose of establishing a quorum; (b) vote, or cause to be voted, at such meeting all of such Sponsor and Supporting Sponsor Stockholder’s Covered Shares owned as of the record date for such meeting in favor of each of the Transaction Proposals; (c) vote, or cause to be voted, at such meeting all of such Sponsor and Supporting Sponsor Stockholder’s Covered Shares against any GG

For purposes of this Agreement, "[Covered Shares](#)" means all GG Class F Shares held by such Sponsor and Supporting Sponsor Stockholder, as applicable, as of the date hereof together with any GG Class F Shares acquired by such Sponsor and Supporting Sponsor Stockholder, as applicable, after the date hereof.

Section 2. [Waiver of Anti-dilution Protection](#). With respect to its Covered Shares, each of Sponsor and each Supporting Sponsor Stockholder hereby waives and shall refrain from asserting or perfecting, subject to, conditioned upon and effective as of immediately prior to the occurrence of the Closing (for itself and for its successors and assigns), to the fullest extent permitted by Law and the Governing Documents of GG, any rights to adjustment of the conversion ratio with respect to the GG Class F Shares owned by Sponsor set forth in the Governing Documents of GG or otherwise (including the rights set forth in Section 4.3(b) of the Certificate of Incorporation of GG, dated as of December 21, 2020). Notwithstanding anything to the contrary contained herein, Sponsor shall not be prohibited from waiving, asserting or perfecting any of the foregoing rights in the event the Business Combination Agreement is validly terminated in accordance with its terms. If the Business Combination Agreement is so terminated, then this [Section 2](#) shall be deemed null and void *ab initio*.

Section 3. [Transfer of Shares](#).

(a) Each of Sponsor and each Supporting Sponsor Stockholder agrees that, during the period from the date hereof through the Termination Date, except as contemplated by this Agreement and the Business Combination Agreement, it shall not, and shall cause its Affiliates not to, without the prior written consent of both GG and Parent (which consent may be given or withheld by GG and/or Parent in their sole discretion): (i) offer for sale, sell (including short sales), transfer, tender, hypothecate, pledge, convert, encumber, assign or otherwise dispose of, directly or indirectly (including by gift, merger, tendering into any tender offer or exchange offer or otherwise, for avoidance of doubt, including by any other Transfer, as defined in those certain Letter Agreements, dated as of March 25, 2021, by and between GG and each of Sponsor and each Supporting Sponsor Stockholder (the "[Letter Agreement](#)")), or enter into any contract, option, derivative, swap, hedging or other agreement or arrangement or understanding (including any profit sharing arrangement) with respect to, or consent to, a transfer to another, in whole or in part, any of the economic consequences of ownership (collectively, a "Transfer"), any or all of its Covered Shares and GG Warrants, (ii) grant any proxies or powers of attorney with respect to any or all of its Covered Shares and GG Warrants held by it (except in connection with voting by proxy at a meeting of stockholders of GG as contemplated in [Section 1](#)), or (iii) permit to exist any Lien with respect to any or all of its Covered Shares and GG Warrants other than those created by this Agreement; provided, that any Lien with respect to Covered Shares and GG Warrants that would not prevent, impair or delay its ability to comply with the terms and conditions of this Agreement shall be permitted and shall not be deemed to violate the restrictions contained above. Notwithstanding the foregoing, this [Section 3\(a\)](#) shall not prohibit a Transfer by each of Sponsor and each Supporting Sponsor Stockholder of any of its Covered Shares. (A) in the case of an individual, by *bona fide* gift to a member of one of the individual's immediate family, to a trust, the beneficiary of which is a member of the individual's immediate family or an Affiliate of such individual; (B) in the case of an individual, by virtue of laws of descent and distribution upon death of the individual; (C) in the case of an individual, pursuant to a qualified domestic relations order; or (D) in the case of an entity, by virtue of such entity's Governing Documents upon liquidation or dissolution of such entity;

provided, that, in each case, such Transfer shall be permitted only if, prior to or in connection with such Transfer, the transferee agrees in writing to assume all of the obligations of such Sponsor or such Supporting Sponsor Stockholder hereunder and to be bound by the terms of this Agreement.

(b) Subject to the exceptions set forth herein, each of Sponsor and each Supporting Sponsor Stockholder agrees that, without the prior written consent of the ListCo Board, for a period from the Closing Date through the date that is 180 days after the Closing Date (the "Lock-Up Period"), it shall not, and shall cause its Affiliates not to, (i) Transfer any or all of the ListCo Covered Shares held by Sponsor or such Supporting Sponsor Stockholder, as applicable, immediately after the Closing or (ii) publicly announce any intention to effect any Transfer of ListCo Covered Shares during the Lock-Up Period. Notwithstanding the foregoing, this Section 3(b) shall not apply to, (A) in the case of an entity, pro rata distributions from Sponsor or such Supporting Sponsor Stockholder to any direct or indirect stockholder, partner, member or Affiliate of Sponsor or such Supporting Sponsor Stockholder or to any investment fund or other entity controlling, controlled by, managing or managed by or under common control or management with Sponsor or such Supporting Sponsor Stockholder or Affiliates of Sponsor or such Supporting Sponsor Stockholder, (B) in the case of an individual, Transfers by *bona fide* gift to members of the individual's immediate family or to a trust, the beneficiary of which is a member of such individual's immediate family, to an affiliate of such person or to a charitable organization, (C) in the case of an individual, Transfers by will or by virtue of laws of descent and distribution upon death of the individual, (D) in the case of an individual, Transfers pursuant to a qualified domestic relations order or divorce settlement, (E) in the case of an entity, Transfers by virtue of such entity's Governing Documents upon liquidation or dissolution of such entity, (F) exercise of any options or warrants to purchase ListCo Covered Shares (which exercises may be effected on a cashless basis to the extent the instruments representing such options or warrants permit exercises on a cashless basis) and (G) acceptance, or execution and delivery, of an irrevocable commitment to or undertaking to accept (without any further agreement to Transfer any Covered Shares or interest therein) a tender offer or similar transaction made by a third party to all of holders of ListCo's Class A Shares in accordance with applicable Law, including Securities Laws, to acquire greater than 50% (which minimum condition shall be non-waivable) of the outstanding ListCo Class A for cash, securities or other property; provided, that in the case of clauses (A) through (E) and clause (G), such Transfers shall be permitted only if, prior to or in connection with such Transfer, the transferee agrees in writing to assume all of the obligations of Sponsor or such Supporting Sponsor Stockholder hereunder and to be bound by the terms of this Section 3(b).

(c) Any Transfer in violation of this Section 3 shall be null and void *ab initio*.

Section 4. Surrender of Shares. Sponsor agrees that, subject to the satisfaction or waiver of each of the conditions to Closing set forth in Sections 9.01 and 9.03 of the Business Combination Agreement, immediately prior to the Closing, Sponsor shall surrender 1,501,651 shares of GG Class F Shares (the "Surrendered Shares"), which Surrendered Shares will be cancelled by GG.

Section 5. Redemption; Other Covenants.

(a) Unless this Agreement shall have been terminated in accordance with Section 7, each Supporting Sponsor Stockholder hereby agrees that such Supporting Sponsor Stockholder shall not effect a GG Stockholder Redemption.

(b) Each of Sponsor and each Supporting Sponsor Stockholder hereby agrees to be bound by and subject to (and the following sections are hereby incorporated herein, mutatis mutandis) (i) Section 8.04 (Exclusive Dealing) of the Business Combination Agreement to the same extent as such provision applies to GG and (ii) Sections 8.06(a), (d) and (e) (Confidentiality; Publicity) of the Business Combination Agreement, to the same extent as such provision applies to the parties to the Business Combination Agreement.

(c) Each of GG, Sponsor and each Supporting Sponsor Stockholder agrees that during the period from the date hereof through the Termination Date, it shall not further modify, amend or waive the performance of any provision under the Letter Agreement.

Section 6. Amendment to the Letter Agreement

(a) Each of GG, Sponsor and each Supporting Sponsor Stockholder hereby agrees that, effective as of the Closing Date (and not before):

(i) paragraph (a) of Section 7 of the Letter Agreement shall be amended and restated in its entirety as follows:

“7. (a) Reserved.”

This Agreement shall terminate and be void and of no further force and effect, and all rights and obligations of the Parties hereunder shall terminate without any further liability on the part of any Party in respect thereof, upon the earlier to occur of (the “Termination Date”) (a) the Closing, (b) such date and time as the Business Combination Agreement is validly terminated in accordance with its terms and (c) the mutual written agreement of the Parties hereto; provided, that nothing herein shall relieve any Party from liability for any breach of this Agreement prior to the Termination Date, and each Party shall be entitled to any remedies at law or in equity to recover Liabilities arising from any such breach. GG shall promptly notify each of Sponsor and each Supporting Sponsor Stockholder of the termination of the Business Combination Agreement promptly after the termination thereof. Notwithstanding the foregoing or anything to the contrary in this Agreement, Sections 2, 3(b) and 7 (in each case, solely in the event that this Agreement terminates at Closing as a result of the Closing occurring), 5(b)(i) (solely in the event that this Agreement terminates at Closing as a result of the Closing occurring and solely with respect to the provisions in Sections

Section 9. No Recourse. Subject in all respects to the last sentence of this Section 9, this Agreement may only be enforced against, and any claim or cause of action based upon, arising out of, or relating to, this Agreement may only be brought against, the entities that are expressly named as Parties and then only with respect to the specific obligations set forth herein with respect to such Party. Except to the extent a Party (and then only to the extent of the specific obligations undertaken by such Party in this Agreement), (a) no past, present or future director, officer, employee, incorporator, member, partner, shareholder, Affiliate, agent, attorney, advisor or representative or Affiliate of any Party and (b) no past, present or future director, officer, employee, incorporator, member, partner, shareholder, Affiliate, agent, attorney, advisor or representative or Affiliate of any of the foregoing shall have any Liability (whether in contract, tort, equity or otherwise) for any one or more of the representations, warranties, covenants, agreements or other obligations or liabilities of any one or more of Sponsor, the Supporting Sponsor Stockholders, GG, Parent or ListCo under this Agreement of or for any claim based upon, arising out of, or relating to, this Agreement. Notwithstanding the foregoing, nothing in this Section 9 shall limit, amend or waive any rights or obligations of any party to any other Transaction Document with respect to the other parties thereto.

Section 10. Fiduciary Duties. Notwithstanding anything in this Agreement to the contrary, (a) Sponsor makes no agreement or understanding herein in any capacity other than in Sponsor's capacity as a record holder and beneficial owner of GG Class F Shares, ListCo Class A ADSs, ListCo Class C-1 ADSs, ListCo Class C-2 ADSs, and/or ListCo AD Warrants; (b) each Supporting Sponsor Stockholder makes no agreement or understanding herein in any capacity other than in such Supporting Sponsor Stockholder's capacity as a record holder and beneficial owner of GG Class F Shares and (c) nothing herein shall be construed to limit or affect any action or inaction by any representative of Sponsor or Supporting Sponsor Stockholder serving as a member of the board of directors (or other similar governing body) of GG or as an officer, employee or fiduciary of GG, in each case, acting in such person's capacity as a director, officer, employee or fiduciary of GG.

(i) The execution and delivery of this Agreement by such Person does not, and the performance by such Person of its, his or her obligations hereunder shall not, (A) if such Person is not an individual, result in any breach of any provision of the Governing Documents of such Person or (B) require any consent, approval or authorization of, or designation, declaration or filing with, any Governmental Authority that has not been given, except for (1) the filing with the SEC of such reports under Section 13(a) or 15(d) of the Exchange Act as may be required in connection with this Agreement or the transactions contemplated hereby, (2) such filings with and approvals of the Stock Exchange to permit ListCo Class A ADSs and ListCo Class C-2 ADSs or ListCo AD Warrants, as applicable, to be issued in accordance with the Business Combination Agreement to be listed on the Stock Exchange, (3) filing of the Certificate of Merger under the applicable law of the State of Delaware, (4) the GG Shareholder Approval or (5) any consents, approvals, authorizations, designations, declarations, waivers or filings, the absence of which would not reasonably

The Equity Securities set forth in such beneficial ownership reports filed with the SEC are the only Equity Securities in GG owned of record or beneficially by such Person on the date of this Agreement, and none of such Equity Securities are subject to any proxy, voting trust or other agreement or arrangement with respect to the voting of such Equity Securities, except as provided hereunder and under the Letter Agreement.

(iii) As of the date hereof, there are no Proceedings pending against such Person, or to the knowledge of such Person threatened against it, before (or, in the case of threatened Proceedings, that would be before) any Governmental Authority, which in any manner challenges or seeks to prevent, enjoin or materially delay the performance by such Person of its, his or her obligations under this Agreement or the Letter Agreement.

(iv) No broker, finder, financial advisor, investment banker or other Person is entitled to any brokerage fee, finders' fee or other commission in connection with the transactions contemplated by the Business Combination Agreement, other than as disclosed in the GG Disclosure Schedules, based upon arrangements made by such Person and for which GG or any of its Affiliates may become liable.

(v) Such Person understands and acknowledges that each of GG, Parent and ListCo is entering into the Business Combination Agreement in reliance upon such Person's execution and delivery of this Agreement.

Section 12. Rights of Third Parties. This Agreement shall be binding upon and inure solely to the benefit of each Party and its successors and permitted assigns and, except as set forth in Section 9, nothing in this Agreement, express or implied, is intended to or shall confer upon any other Person any rights, benefits or remedies of any nature whatsoever under or by reason of this Agreement.

Section 13. Further Assurances. Each of the Parties hereto is entitled to rely upon this Agreement and is irrevocably authorized to produce this Agreement or a copy hereof to any interested party in any administrative or legal proceeding or official inquiry with respect to the matters covered hereby. Each of the Parties hereto shall pay all of their respective expenses in connection with this Agreement and the transactions contemplated herein. Each of the Parties hereto shall take, or cause to be taken, all actions and do, or cause to be done, all things necessary, proper or advisable to consummate the transactions contemplated by this Agreement on the terms and conditions described therein no later than immediately prior to the consummation of the Transactions.

Each Party (other than ListCo) hereby mutually agrees that promptly following Closing but in any case no earlier than January 1, 2022, it shall take all reasonable steps, and co-operate with each other Party, to procure that the Company, and the Company shall, initiate and effect a members’ or shareholders’ voluntary winding-up or liquidation proceeding, effect a liquidating realization or distribution of all of the Company’s tangible and intangible assets, and settle all of the Company’s outstanding debts and liabilities (collectively, the “**Liquidation**”), in each case, in accordance with the Articles, the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Chapter 32 of the Laws of Hong Kong), other applicable laws and regulations of Hong Kong and the BCA, and the Parties (other than ListCo and the Company) shall co-operate with and provide all reasonably necessary assistance to the Company, and shall take all steps necessary or desirable or as may be requested by the Company, to effect and consummate the Liquidation.

(b) subject to applicable laws or regulations, each Shareholder shall be permitted, by written notice to the Company and the other Shareholders, to direct and instruct the Company to exercise, in respect of any matter submitted to a vote of the ListCo's shareholders, such proportion of the Company's voting rights in the ListCo that directly corresponds to the proportion of such Shareholder's voting rights in the Company, and the Company undertakes and agrees to each Shareholder to so exercise its voting rights in ListCo in such manner at the direction and instruction of such Shareholder.

4.2 Transfers of Shares following the Lock-Up Period.

(a) In the event that the Liquidation is not completed or consummated following the expiry of the Lock-up Period (as defined under the BCA), any Shareholder (a “**Selling Shareholder**”) may deliver a written notice to the Company and the other Shareholders directing and instructing the Company to transfer, dispose of or sell (either on-market or otherwise) such number of ListCo Shares held by the Company which corresponds to the proportion of Shares held by such Shareholder relative to the total aggregate number of issued and outstanding Shares at the relevant time that it wishes to transfer, dispose of or sell, and the Company shall (and the other Parties (other than ListCo) shall procure that the Company shall) take all steps as may be required to such transfer, disposal or sale of such ListCo Shares, including by transferring or submitting the ListCo Shares to the applicable American depository receipt facilities established by ListCo with the applicable depository bank in order to facilitate such a transfer, disposal or sale.

The provisions of Section 6.1 and Section 6.2 of this Agreement are intended to confer a benefit upon, and shall be enforceable by, Sponsor as if it were a party to this Agreement and such provisions shall not be amended, rescinded or terminated without the consent of Sponsor. Save as expressly set out in this Section 10.7, a Person who is not a Party shall not have any rights under the Contracts (Rights of Third Parties) Ordinance (Chapter 623 of the Laws of Hong Kong) to enforce, or to enjoy the benefit of, any term of this Agreement. Save as expressly set out in this Section 10.7, notwithstanding any term of this Agreement, the right of the Parties to rescind or terminate this Agreement or to agree to a variation, release and/or waiver of this Agreement is not subject to the consent of any other person who is not a party to this Agreement.

10.8 Governing Law. This Agreement shall be governed by and construed under the laws of Hong Kong, without regard to the principles of conflicts of laws thereunder.

10.9 Dispute Resolution.

(a) Each of the Parties agrees that any dispute, controversy or claim arising out of or relating to this Agreement, or the interpretation, breach, termination, validity or invalidity thereof ("**Dispute**") shall be first negotiated and resolved by the Parties to the Dispute in good faith as soon as practicable. If any Dispute is not resolved to the reasonable satisfaction of all relevant Parties to the Dispute within thirty (30) Business Days after the commencement of such negotiations, such Dispute shall be settled by arbitration in Hong Kong by the Hong Kong International Arbitration Centre ("**HKIAC**") in accordance with the Hong Kong International Arbitration Centre Administered Arbitration Rules in force when the arbitration notice is submitted in accordance with the said rules ("**HKIAC Rules**").

(b) The arbitration tribunal shall consist of three (3) arbitrators to be appointed according to the HKIAC Rules. Each of the claimant and the respondent to the Dispute shall be entitled to designate one (1) arbitrator in accordance with the HKIAC Rules. If either Party fails to designate an arbitrator, HKIAC shall appoint the arbitrator. The two (2) arbitrators so appointed shall designate the third arbitrator who shall act as the presiding arbitrator of the arbitral tribunal. Failing such designation within thirty (30) days from the confirmation of the second arbitrator, HKIAC shall appoint the presiding arbitrator. The arbitral proceedings shall be

conducted in English. To the extent that the HKIAC Rules are in conflict with the provisions of this Section 10.9, including the provisions concerning the appointment of the arbitrators, the provisions of this Section 10.9 shall prevail.

(c) The award of the arbitral tribunal shall be final and binding upon the Parties thereto, and the prevailing Party may apply to a court of competent jurisdiction for enforcement of such award.

(d) Any Party to the Dispute shall be entitled to seek preliminary injunctive relief, if possible, from any court of competent jurisdiction pending the constitution of the arbitral tribunal.

Item 22. Undertakings

The undersigned registrant hereby undertakes:

- To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement;
- To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;
- To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement;
- To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;
- That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment will be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time will be deemed to be the initial bona fide offering thereof;
- To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering; and
- To file a post-effective amendment to the registration statement to include any financial statements required by Item 8.A of Form 20-F at the start of any delayed offering or throughout a continuous offering. Financial statements and information otherwise required by Section 10(a)(3) of the Act need not be furnished; *provided* that the registrant includes in the prospectus, by means of a post-effective amendment, financial statements required pursuant to this paragraph (1)(d) and other information necessary to ensure that all other information in the prospectus is at least as current as the date of those financial statements.

That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means

of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

The undersigned registrant hereby undertakes as follows: that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.

The registrant undertakes that every prospectus: (a) that is filed pursuant to the immediately preceding paragraph, or (b) that purports to meet the requirements of Section 10(a)(3) of the Act and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment will be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time will be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes (i) to respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11, or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means; and (ii) to arrange or provide for a facility in the U.S. for the purpose of responding to such requests. The undertaking in subparagraph (i) above includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

3. Exclusions and limitations

- 3.1 The indemnity in clause 2.1 shall not apply to:
 - (a) the extent prohibited by the CA 2006 or otherwise prohibited by law;
 - (b) any Liability incurred by the [Director/Officer] to the Company or any Associated Company;
 - (c) a fine imposed in criminal proceedings, or a sum payable to a regulatory authority by way of a penalty in respect of non-compliance with any requirement of a regulatory nature (however arising);
 - (d) other than as provided in clause 6.6, any Liability incurred by the [Director/Officer]:
 - (i) in defending criminal proceedings;
 - (ii) in defending civil proceedings brought by the Company or any Associated Company; or
 - (iii) [in connection with any Application for Relief];⁴
 - (e) any Liability relating to any taxation or national insurance payable by the [Director/Officer] in connection with his remuneration or other payments or benefits received from the Company or any of its Subsidiaries;
 - (f) the extent that the [Director/Officer] is entitled to recover from any other person (including under any policy of insurance) any amount in relation to a Claim, unless such amount is contingent on the [Director/Officer] having first exhausted his rights to indemnification in respect of the relevant Liability under this deed;
 - (g) any Liability incurred by, or any Claim made against, the [Director/Officer] which the Board reasonably determines arises out of the [Director's/Officer's] fraud, wilful default, wilful misconduct, reckless conduct, dishonesty or act of bad faith

⁴ **Note to Draft:** Delete for Officer's deed of indemnity.

(Misconduct), save that if a court, tribunal or regulatory authority thereafter finally determines that the relevant Liability or Claim did not arise from the [Director's/Officer's] Misconduct, the [Director/Officer] may, by notice to the Company, request payment of such amount from the Company as the Company would have been liable to pay under this deed had the Board not made such a determination and the Company shall, subject to the provisions of clause 2.4, pay such amount to the [Director/Officer] (without interest) within 28 days of the receipt of the evidence referred to in that clause.

4. Notification and conduct of claims

4.1 If the [Director/Officer] receives any demand relating to any Claim or becomes aware of any circumstances which might or may reasonably be expected to give rise to the Company being required to indemnify the [Director/Officer] under clause 2.1 and before incurring any costs, charges or expenses in respect of any Claim (including, but not limited to, securing legal representation), the [Director/Officer] shall:

- (a) as soon as reasonably practicable, give written notice of the circumstances to the Company, as well as any other information which the Company may reasonably request from time to time;
- (b) take all reasonable action to mitigate any Liability suffered by him in respect of the circumstances giving rise to the Claim;
- (c) take all such action as the Company may reasonably request to avoid, dispute, resist, appeal or defend any claim and shall not make any admission of liability, agreement or compromise with any person in relation to any Claim without the prior written consent of the Company, such consent not to be unreasonably withheld;
- (d) forward all documents received by the [Director/Officer] in respect of the Claim to the Company as soon as reasonably practicable following receipt;
- (e) assist the Company as it may reasonably require in resisting, defending or settling the Claim; and
- (f) provide to the Company such information about the nature and amount of costs incurred by the [Director/Officer] in respect of a Claim as the Company may reasonably request.

4.2 Notwithstanding the provisions of clause 4.1, the [Director/Officer] shall not be required to provide any documents or information to the Company where doing so would result in a loss of privilege in such documents or information.

- 4.3 The Company or a Subsidiary (as the case may be) will be entitled to take over, negotiate and conduct in the [Director's/Officer's] name the defence or settlement of any Claim or to prosecute in his name for its own benefit any proceedings relating to a Claim.
- 4.4 If the Company or a Subsidiary exercises its rights under clause 4.3, the Company shall:
- (a) consult with the [Director/Officer] in relation to the conduct of the Claim or proceedings on aspects of the Claim or proceedings materially relevant to the [Director/Officer] and keep the [Director/Officer] reasonably informed of material developments in the Claim or proceedings, provided that the Company or Subsidiary shall be under no obligation to provide any information the provision of which is reasonably likely to adversely affect the Company's or Subsidiary's ability to claim in respect of the relevant loss under any applicable policy of insurance;
 - (b) take into account the [Director's/Officer's] reasonable requests related to the Claim or proceedings (including any settlement) on issues which may be reasonably likely to result in material damage to the [Director's/Officer's] reputation; and
 - (c) have full discretion in the conduct or settlement of any Claim or proceedings relating to such Claim provided the [Director/Officer] is not required to make any contribution to the settlement and the settlement contains no admission of liability by the [Director/Officer].
- 4.5 Any failure by the [Director/Officer] to comply with the provisions of this clause 4 shall not relieve the Company of any obligations under this deed except to the extent that the Company is prejudiced thereby.

5. Payments

- 5.1 The Company shall, in the event that a payment is made to the [Director/Officer] under this deed in respect of a particular Liability, be entitled to recover from the [Director/Officer] an amount equal to any payment received by the [Director/Officer] under any policy of insurance or from any other third party source to the extent that such payment relates to the Liability, or if the payment received by the [Director/Officer] is greater than the payment made under this deed, a sum equal to the payment made under this deed. The [Director/Officer] shall pay over such sum promptly on the Company's request.

- 5.2 The Company shall pay such amount to the [Director/Officer] as shall after the payment of any tax thereon leave the [Director/Officer] with sufficient funds to meet any Liability to which this deed applies. For the avoidance of doubt, when calculating the amount of any such tax the amount of any tax deductions, credits or reliefs which are or may be available to the [Director/Officer] in respect of the relevant payment under this deed received by the [Director/Officer] or any payment made by the [Director/Officer] to a third party in respect of (or in or towards the discharge of) the relevant Liability, but no other deductions, credits, reliefs or payments, is to be taken into account. In the event that any amount is paid to the [Director/Officer] under this deed but a tax deduction, credit or relief is (or becomes) available to the [Director/Officer] in respect of the relevant payment under this deed, or in respect of any payment made by the [Director/Officer] to a third party in respect of (or in or towards the discharge of) the relevant Liability, which was not taken into account in calculating the amount payable in respect of the relevant payment under this deed, the [Director/Officer] shall promptly make a payment to the Company of such an amount as is equal to the benefit of such deduction, credit or relief which was not taken into account.

6. Funding of legal costs

- 6.1 Subject to the terms of this deed, the Company shall loan to the [Director/Officer] such amounts as are required to meet such legal and other reasonable costs of Restricted Proceedings as are incurred (or are to be incurred) by the [Director/Officer], subject to the maximum amount permitted, and in accordance with any terms and conditions imposed, by law.
- 6.2 The Company shall lend such amounts as provided for under clause 6.1 (**Loan Amounts**) to the [Director/Officer] within 14 days of receiving notice in writing from the [Director/Officer] of the amount required together with such evidence of the costs having been or to be properly incurred as the Company may reasonably require.
- 6.3 No interest shall accrue on the Loan Amounts.
- 6.4 All Loan Amounts outstanding to a [Director/Officer] in respect of particular Restricted Proceedings shall be repaid by the [Director/Officer] if, in respect of those proceedings (as applicable):
- (a) the [Director/Officer] is convicted;
 - (b) judgment is given against the [Director/Officer]; or
 - (c) the court refuses to grant the [Director/Officer] relief on the application,
- and such outstanding Loan Amounts shall be repaid no later than the date when the conviction, judgment or the refusal of relief (as applicable) becomes Final.

- 6.5 The Company shall not be required to lend any amount under this clause 6, and any amounts lent shall become immediately repayable upon demand from the Company, to the extent that the Board reasonably determines that the Restricted Proceedings arose out of the [Director's/Officer's] Misconduct.
- 6.6 In the event that Restricted Proceedings are either (i) abandoned, withdrawn or discontinued, (ii) settled, (iii) a permanent stay is granted, or (iv) a final determination of the court is made (or proceedings otherwise finally conclude) without any of the events referred to in clause 6.4(a) to clause 6.4(c) (as applicable) occurring (each such conclusion of proceedings being a **Favourable Conclusion**) then the indemnity provided under clause 2.1 shall thereafter apply with respect to all legal and other reasonable costs of those Restricted Proceedings as were incurred by the [Director/Officer]. Any liability of the Company to so indemnify the [Director/Officer] shall be set-off against any liability of the [Director/Officer] to repay to the Company any Loan Amounts outstanding in respect of those Restricted Proceedings; and shall be subject to the exclusions and limitations contained in clause 3, and clause 4 shall be applied with such changes as are appropriate.
- 6.7 In the event that a Favourable Conclusion is reached in relation to particular Restricted Proceedings but any Loan Amount lent to the [Director/Officer] in relation to those proceedings remains outstanding in circumstances where the Company is (for any reason) not liable or is no longer liable to indemnify or further indemnify the [Director/Officer] in relation to those Restricted Proceedings, then all such Loan Amounts which remain outstanding shall be immediately repayable on demand from the Company.
- 7. D&O Insurance**
- 7.1 The Company shall purchase and maintain directors' and officers' liability insurance (**D&O Insurance**) to insure the [Director/Officer] as a [director/officer] of the Company during the period of the [Director's/Officer's] appointment and for a period of six years thereafter to the extent that such insurance can be obtained at such cost and on such terms as the Board considers to be reasonable.
- 7.2 The Company shall not be in breach of its obligations under this clause 7 where its inability to purchase and maintain D&O Insurance to insure the [Director/Officer] is attributable to a failure by the [Director/Officer] to comply with the [Director's/Officer's] obligations to the insurers or any failure to meet or comply with a condition of the coverage of the D&O Insurance is attributable to acts or omissions of the [Director/Officer].

- 7.3 The Company shall ensure that the [Director/Officer] is provided at all times with a copy, or a summary of the terms, of the Company's current D&O Insurance policy, to the extent it relates to the [Director/Officer].
- 7.4 In the event of any breach of clause 7.1, the [Director/Officer] acknowledges that the Company's liability to the [Director/Officer] shall be limited to the extent permissible in accordance with the law, from time to time, and in particular with section 232 of the CA 2006.
- 7.5 In the event that the [Director/Officer] shall have a right to make a claim under the provisions of clause 2.1 and clause 7.1, the [Director/Officer] shall claim first under the provisions of clause 2.1. Provided to the extent that the [Director/Officer] is not adequately protected under the provisions of clause 2.1, then the [Director/Officer] shall be entitled subsequently to bring a claim under clause 7.1 subject to the exclusions and limitations contained in clause 3, and clause 4 shall be applied with such changes as are appropriate.
- 7.6 Nothing in this deed modifies or limits any obligation on the [Director/Officer] under the terms of any applicable D&O Insurance maintained by the Company from time to time. Furthermore, the terms of this deed shall not negate any obligation that the [Director/Officer] might have to assist the Company in complying with any obligations it may have under the terms of the D&O Insurance and the [Director/Officer] shall not take, or fail to take, any action which may prejudice the ability of the Company to recover under any D&O Insurance.

8. Subrogation

- 8.1 In the event that the Company makes any payment under this Deed, the Company shall be subrogated to the extent of such payment to all of the [Director's/Officer's] rights of recovery against third parties (including any claim under any applicable directors' and officers' insurance policy) in respect of the payment and the [Director/Officer] shall do everything that may be necessary to secure any such rights including:
- (a) the execution of any documents necessary to enable the Company effectively to bring an action in the name of the [Director/Officer]; and
 - (b) the provision of assistance as a witness.

9. Assignment and other dealings

- 9.1 The Company may at any time assign, mortgage, charge, subcontract, delegate, declare a trust over or deal in any other manner with any or all of its rights and obligations under this deed.
- 9.2 The [Director/Officer] shall not assign (save for assignments by operation of law), transfer, mortgage, charge, subcontract, declare a trust over or deal in any other manner with any of his or her rights and obligations under this deed.

10. Entire agreement

- 10.1 This deed constitutes the entire agreement between the parties and supersedes and extinguishes all previous agreements, promises, assurances, warranties, representations and understandings between them, whether written or oral, relating to its subject matter.

11. Severance

- 11.1 If any provision or part-provision of this deed is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable. If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this clause 11 shall not affect the validity and enforceability of the rest of this deed.

12. Notices and demands

- 12.1 Any notice or demand given to a party under or in connection with this deed shall be in writing and shall be:
- (a) delivered by hand or by pre-paid first-class post or other next working day delivery service at its registered office (if a company) or the address given in this deed (in any other case) or as otherwise notified in writing to the other party; or
 - (b) sent by fax to its main fax number.

- 12.2 Any notice or demand shall be deemed to have been received:
- (a) if delivered by hand, on signature of a delivery receipt or at the time the notice or demand is left at the proper address;

 - (c) if sent by fax, at 9.00 am on the next Business Day after transmission.
- 12.3 This clause does not apply to the service of any proceedings or other documents in any legal action.
- 13. Variation and waiver**
- 13.1 No variation of this deed shall be effective unless it is in writing and signed by the parties (or their authorised representatives).
- 13.2 No failure or delay by a party to exercise any right or remedy provided under this deed or by law shall constitute a waiver of that or any other right or remedy, nor shall it prevent or restrict the further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy shall prevent or restrict the further exercise of that or any other right or remedy.
- 14. Counterparts**
- 14.1 This deed may be executed in counterparts and each counterpart constitutes an original, and all the counterparts together constitute one and the same deed. If the deed is executed in duplicate, each duplicate constitutes an original.
- 15. Third party rights**
- 15.1 The Contracts (Rights of Third Parties) Act 1999 shall not apply to this deed and no rights or benefits expressly or impliedly conferred by it shall be enforceable under that Act against the parties to it by any other person.
- 16. Governing law and jurisdiction**
- 16.1 This deed and any dispute or claim (including non-contractual disputes or claims) arising out of or in connection with it or its subject matter or formation shall be governed by and construed in accordance with the law of England and Wales.

16.2 Each party irrevocably agrees that the courts of England and Wales shall have exclusive jurisdiction to settle any dispute or claim arising out of or in connection with this deed or its subject matter or formation (including non-contractual disputes or claims).

2. SCOPE OF THE AGREEMENT

2.1 General

- 2.1.1 By entering into this Agreement, the Parties initiate a co-operation regarding the assignment of and license to certain technology. Volvo Cars, on the one hand, will to Polestar deliver and (i) grant licenses to the Volvo Technology and/or (ii) assign the Polestar Technology, whereas Polestar, on the other hand, will to Volvo Cars deliver and grant licenses to the Common Polestar Technology, in accordance with this Agreement, but however only to the extent set forth in and subject to the execution of one or several Car Model Assignment and License Agreements.
- 2.1.2 This Agreement sets out the general terms and conditions in relation to the obligations of the Parties hereunder, while each executed Car Model Assignment and License Agreement shall set out the specific terms in relation to each Polestar Vehicle. A template setting out the intended terms and conditions for each such Car Model Assignment and License Agreement is attached hereto as Schedule 1 Template Car Model Assignment and License Agreement.
- 2.1.3 The Schedules, and each executed Car Model Assignment and License Agreement entered into between the Parties, shall be considered an integral part of this Agreement and any reference to the Agreement shall include the Schedules and the executed Car Model Assignment and License Agreements.

2.2 The Volvo Technology and the Polestar Technology

2.2.1 General

- 2.2.1.1 Volvo Cars shall, to the extent so agreed in each respective executed Car Model Assignment and License Agreement, on the terms set forth in this Agreement, compile, and if necessary develop, such Volvo IP necessary to deliver and grant licenses to the Volvo Technology, and deliver and assign the Polestar Technology, to Polestar.

- 2.2.1.2 The license to Volvo Technology and the assignment of Polestar Technology shall, in relation to each Polestar Vehicle, include all Volvo IP, which together with relevant Third Party Intellectual Property Rights not included in Volvo IP is reasonably necessary in order to meet the specification set forth in Appendix 1 to such Car Model Assignment and License Agreement. In case any such Third Party Intellectual Property Rights not included in Volvo IP is reasonably necessary in order to meet the specification set forth in Appendix 1 to a Car Model Assignment and License Agreement, Volvo Cars shall indicate that within the frame of the deliverables under the Volvo Technology. Polestar might thus be required to license Intellectual Property Rights and/or purchase components of Third Parties necessary to produce the Polestar Vehicles.
- 2.2.1.3 To the extent development shall be made in order to achieve the Volvo Technology and/or the Polestar Technology, Volvo Cars shall use professional, appropriate, qualified and skilled personnel, and shall ensure that its personnel have been properly educated and trained for the work to be performed, including being fully acquainted with Polestar's specific requirements. For the avoidance of doubt, if any development shall be made in relation to such Polestar Technology to which Volvo Cars has not been granted a license to, pursuant to Section 4.3 or 4.4, the Parties acknowledge that Volvo Cars has a right to use such Polestar Technology to the extent it is reasonably necessary in order to perform the requested development. Volvo Cars shall avoid unnecessary changes in the personnel engaged in performing its undertakings under this Agreement and each executed Car Model Assignment and License Agreement. Volvo Cars shall work according to the same standard of care and professionalism that is done in Volvo Cars' internal development projects. Such standard of care and professionalism, as well as Volvo Cars' performance of its undertakings under this Agreement and each executed Car Model Assignment and License Agreement, shall however at all times correspond to Industry Standard. It is acknowledged that any development costs built up shall adhere to the principles set forth in this Section 2.2.1.3.
- 2.2.1.4 Volvo Cars shall ensure that it has sufficient resources to perform its undertakings under this Agreement and each executed Car Model Assignment and License Agreement. Furthermore, Volvo Cars undertakes to ensure that any development of the Volvo Technology and/or the Polestar Technology will not be given lower priority than other Volvo Cars development projects.

2.2.1.5 Volvo Cars shall continuously keep Polestar informed of the generated and expected development costs in relation to the Volvo Technology and/or the Polestar Technology.

2.2.2 Limitations

2.2.2.1 The Parties acknowledge and agree that the Volvo Technology and the Polestar Technology might not be described on a detailed basis in the Car Model Assignment and License Agreements and that the details of such technology might not have been finalised at the time of entering into the Car Model Assignment and License Agreements, but that such specifications will be updated as the development progresses up until Job1+90 at the latest.

2.2.2.2 For the avoidance of doubt, Volvo Cars shall not under this Agreement manufacture the Polestar Vehicle, any components of the Volvo Technology or the Polestar Technology, or integrate any such components or the Volvo Technology or the Polestar Technology into Polestar's production of vehicles.

2.2.2.3 The Parties further acknowledge and agree that, if it is discovered that something has been classified as Volvo Technology under a Car Model Assignment and License Agreement, but which should have been classified as Polestar Technology or Common Polestar Technology, and/or *vice versa*, the Parties agree to in good faith renegotiate and agree on the reclassification of such technology and any amendment of the Fee to reflect such change. For avoidance of doubt, and as an example, this means that if the Parties agree that certain technology shall be changed from Volvo Technology to Polestar Technology, the terms and conditions herein relating to the latter shall thereafter apply to such technology. If the Parties cannot agree on such a reclassification, the issue shall be escalated in accordance with what is set out in Section 13.1.

3. LICENSE GRANT

3.1 License grant

3.1.1 Volvo Cars undertakes to, subject to the Parties agreeing to and executing a Car Model Assignment and License Agreement, grant Polestar a license to the Volvo Technology covered by the relevant Car Model Assignment and License Agreement.

3.1.2 Such license shall, except for what is set out in Section 3.2 below or unless otherwise agreed in each executed Car Model Assignment and License Agreement, be non-exclusive, irrevocable, perpetual (however at least fifty (50) years long (however, in no event shall such time exceed the validity period of any Volvo IP included in the license described hereunder)), non-assignable and give Polestar a right to, within the Territory and only in relation to the relevant Polestar Vehicle;

- (a) Use, in whole or in part, the Volvo Technology covered by the relevant Car Model Assignment and License Agreement and any Volvo Cars' Background IP necessary to make Use of such Volvo Technology; and
- (b) design, engineer, make and have made, repair, service, market, sell and make available products and/or services based on, incorporating or using the Volvo Technology and the Background IP referred to in (a) above (in whole or in part).

- 3.1.3 Nothing in this Agreement shall be construed as to give Polestar any rights, including but not limited to any license rights (express or implied), to any Volvo IP, except as expressly stated herein.
- 3.1.4 The license to be granted to Polestar in accordance with Section 3.1.1 and 3.1.2 above shall be fully sub-licensable to Polestar's Affiliates, but shall not be sub-licensable to any Third Party without prior written consent from Volvo Cars, which shall not be unreasonably withheld (whereby a sublicense/license to a Third Party which is a competitor of Volvo Cars is an example of what could be deemed unreasonable) or delayed. For the avoidance of doubt, Volvo Cars shall be free to Use and to grant licenses to Volvo Technology and any Volvo Cars' Background IP to Volvo Cars' Affiliates and any Third Parties without prior written consent from Polestar.
- 3.1.5 Notwithstanding what is stated in Section 3.1.2 regarding a license to Volvo Technology being only granted in relation to the relevant Polestar Vehicle, Polestar shall, at Polestar's sole discretion, have an option to a license in accordance with Section 3.1.1 and 3.1.2 above (in whole or in part) also in relation to Other Polestar Branded Vehicles on commercially reasonable terms, which (including price) shall be based on the terms of this Agreement and the relevant executed Car Model Assignment and License Agreement. The fee for such license shall *inter alia* be based on the estimated volumes of such Other Polestar Branded Vehicles to be produced and the extent of Volvo Technology which shall be subject to such a license.

3.2 PS Unique Volvo Technology

- 3.2.1 Notwithstanding what is set forth in Section 3.1, what is set forth in this Section 3.2 shall apply in relation to PS Unique Volvo Technology.
- 3.2.2 Any license granted in Section 3.1.2 shall, in relation to PS Unique Volvo Technology, and unless otherwise agreed in each executed Car Model Assignment and License Agreement, be exclusive instead of non-exclusive. As a consequence thereof Volvo Cars shall have no right to make any Use whatsoever of, or to grant any further licenses to, any such PS Unique Volvo Technology. With the exception of what is set out in this Section 3.2, Section 3.1 shall apply to PS Unique Volvo Technology.
- 3.2.3 In the event Volvo Cars (i) in its sole discretion, determines that the PS Unique Volvo Technology, or parts thereof, shall no longer be PS Unique Volvo Technology but instead be such ordinary Volvo Technology covered only by Section 3.1 above and (ii) reduces the Fee as regards such PS Unique Volvo Technology with fifty per cent (50 %) or repays fifty per cent (50 %) of the Fee, relating to such part of the PS Unique Volvo Technology, the following shall apply. Such PS Unique Volvo Technology shall immediately, upon Volvo Cars' reduction or repayment of the Fee, no longer be considered PS Unique Volvo Technology but instead be considered ordinary Volvo Technology and what is set out in Section 3.1 above shall thus apply instead. For the avoidance of doubt, this *inter alia* implies that such previous exclusive license granted by Volvo Cars to Polestar shall instead become non-exclusive. For avoidance of doubt, Volvo Cars' right under this Section 3.2.3 may be exercised at any time also after the term of this Agreement.

4 ASSIGNMENT

4.1 Assignment

- 4.1.1 Volvo Cars undertakes to, subject to the Parties agreeing to and executing a Car Model Assignment and License Agreement and to the limitations in Section 4.2, assign to Polestar the Polestar Technology covered by the relevant Car Model Assignment and License Agreement.
- 4.1.2 Such assignment shall, unless otherwise agreed in each executed Car Model Assignment and License Agreement, mean that Volvo Cars assigns to Polestar all of its right, title and interest in and to the Polestar Technology covered by the relevant Car Model Assignment and License Agreement together with the goodwill associated thereto and any and all rights of enforcement with respect to such Polestar Technology, including all rights to sue and recover for past infringement thereof, and any and all causes of action related thereto.
- 4.1.3 Such assignment shall, subject to Section 4.2 below, take effect on the effective date of the relevant Car Model Assignment and License Agreement.

4.2 Limitations in relation to the Polestar Supplier License Technology

- 4.2.1 Polestar acknowledges that the Polestar Supplier License Technology is owned by Third Parties and that Volvo Cars may not be allowed to assign its rights thereto without consent from such relevant Third Party.
- 4.2.2 An assignment in accordance with Section 4.1 is thus, in relation to Polestar Supplier License Technology, subject to any limitations which may be applicable to the rights granted to Volvo Cars by the Third Party owning the Intellectual Property Rights to such Polestar Supplier License Technology, and will, notwithstanding what is set out in Section 4.1.3 above, not take effect until Volvo Cars has received the relevant consent from the Third Party, as applicable.
- 4.2.3 If Volvo Cars has not received the relevant consent from the Third Party within six (6) months from the signing date of the relevant Car Model Assignment and License Agreement, no assignment of such Polestar Supplier License Technology shall occur, nor be considered to have occurred, and the Fee shall be reduced corresponding to the the part of the Fee that relates to the Polestar Supplier License Technology to which Volvo Cars has not received relevant consent in time. If such a reduction is not feasible to determine, it shall be negotiated between the Parties in good faith.

4.3 Grant-back license to Common Polestar Technology

- 4.3.1 Polestar undertakes to, subject to the Parties agreeing to and executing a Car Model Assignment and License Agreement, grant Volvo Cars a license to the Common Polestar Technology covered by the relevant Car Model Assignment and License Agreement. Said license shall be granted automatically upon the execution of such a Car Model Assignment and License Agreement.
- 4.3.2 Such license shall, unless otherwise agreed in each executed Car Model Assignment and License Agreement, be non-exclusive, irrevocable, perpetual (however at least fifty (50) years long (however, in no event shall such time exceed the validity period of any Polestar Intellectual Property Rights included in the license hereunder)), non-assignable and give Volvo Cars a right to, within the Territory;

- (a) Use, in whole or in part, such Common Polestar Technology, and/or
 - (b) design, engineer, make and have made, repair, service, market, sell and make available products and/or services based on, incorporating or using such Common Polestar Technology (in whole or in part).
- 4.3.3 The license to be granted to Volvo Cars in accordance with Section 4.3.1 and 4.3.2 above shall be fully sub-licensable to Volvo Cars' Affiliates and to any Third Parties, without prior written consent from Polestar. The Parties further agree that Volvo Cars may further develop such licenced Common Polestar Technology, either by itself or together with its Affiliates and/or any Third Parties. For the avoidance of doubt, Polestar shall be free to Use the Common Polestar Technology licenced back to Volvo Cars and to license such Common Polestar Technology to Polestar's Affiliates and to any Third Parties without prior written consent from Volvo Cars.

4.4 **Grant-back license to Polestar Technology not being Common Polestar Technology**

- 4.4.1 In the event Volvo Cars, in its sole discretion, determines that the Polestar Technology not being Common Polestar Technology, or parts thereof, shall be licensed back to Volvo Cars, Polestar automatically, upon Volvo Cars giving Polestar notice that it has determined that such a grant-back license shall be given, grants to Volvo Cars a license to such Polestar Technology. In such a case, Volvo Cars shall either reduce the Fee as regards such Polestar Technology with fifty per cent (50%) or repay fifty per cent (50%) of the Fee, relating to such part of the Polestar Technology. For the avoidance of doubt, Volvo Cars' right to reduce or repay part of the Fee as set out in this Section 4.4.1 may be exercised at any time also after the term of this Agreement.
- 4.4.2 Such license shall, unless otherwise agreed in each executed Car Model Assignment and License Agreement, be non-exclusive, irrevocable, perpetual (however at least fifty (50) years long (however, in no event shall such time exceed the validity period of any Polestar Intellectual Property Rights included in the license described hereunder)), non-assignable and give Volvo Cars a right to, within the Territory;
- (a) Use, in whole or in part, such Polestar Technology, and/or
 - (b) design, engineer, make and have made, repair, service, market, sell and make available products and/or services based on, incorporating or using such Polestar Technology (in whole or in part).
- 4.4.3 The license to be granted to Volvo Cars in accordance with Section 4.4.1 and 4.4.2 above shall be fully sub-licensable to Volvo Cars's Affiliates, but shall not be sub-licensable to any Third Party without prior written consent from Polestar, which shall not be unreasonably withheld (whereby a sublicense/license to a Third Party which is a competitor of Polestar is an example of what could be deemed unreasonable) or delayed. For the avoidance of doubt, Polestar shall be free to Use the Polestar Technology licensed back to Volvo Cars and to license such Polestar Technology to Polestar's Affiliates and to any Third Parties without prior written consent from Volvo Cars.

4.5 **Third Party assignments**

If the rights to any subject matter to which a license is granted under an executed Car Model Assignment and License Agreement is assigned by a Party to any Third Party, such Party shall ensure that said license is binding also upon the Third Party.

5.3 Volvo brand name

- 5.3.1 Correspondingly, it is especially noted that this Agreement does not include any right to use the "Volvo" brand name, or Trademarks, or refer to "Volvo" in communications or official documents of whatever kind. The Parties acknowledge that the "Volvo" Trademarks as well as the "Volvo" name is owned by Volvo Trademark Holding AB and that the right to use the name and the "Volvo" Trademarks is subject to a license agreement, which stipulates that the name, Trademarks and all thereto related Intellectual Property Rights can only be used by Volvo Car Corporation and its Affiliates in relation to Volvo products.

 - (b) any allegations made to such Party by a Third Party that any Intellectual Property Rights licensed hereunder are invalid, subject to cancellation, unenforceable, or are a misappropriation of any Intellectual Property Rights of a Third Party.
- 5.4.2 In the event that a Party has provided the other Party a notification pursuant to Section 5.4.1 above, and the other Party decides not to take any action against the Third Party, the other Party may approve in writing that such Party shall be entitled to itself take action against the Third Party at its own cost. If the other Party approves, it shall provide

reasonable assistance to such Party, as requested by such Party at its own expense. If the other Party does not approve to such Party taking such action, the issue should be escalated to the relevant governance forum on high governance level (for the time being the Strategic Board) for decision.

- 5.4.3 For the avoidance of doubt, Volvo Cars has no responsibility in relation to Polestar in the event the Volvo Technology and/or the Polestar Technology is alleged to infringe in any Third Party's Intellectual Property Rights and as a consequence Volvo Cars has no obligation to defend and hold Polestar harmless from and against any alleged infringements, except as set forth in Section 11.3 below. Likewise, Polestar has no responsibility in relation to Volvo Cars in the event any Polestar Technology licensed back to Volvo Cars hereunder is alleged to infringe in any Third Party's Intellectual Property Rights and as a consequence Polestar has no obligation to defend and hold Volvo Cars harmless from and against any alleged infringements, except as set forth in Section 11.2.

- 6.2.5 Any paid portion of the Fee is non-refundable, with the exceptions set out in this Agreement.

7. AUDITS

- 7.1.1 During the term of this Agreement, Polestar shall have the right to, upon reasonable notice in writing to Volvo Cars, inspect Volvo Cars' books and records related to the Volvo Technology and the Polestar Technology and the premises where the work to finalise the Volvo Technology and the Polestar Technology is carried out, in order to conduct quality controls and otherwise verify the statements rendered in this Agreement.
- 7.1.2 Audits shall be made during regular business hours and be conducted by Polestar or by an independent auditor appointed by Polestar. Should Polestar during any inspection find that Volvo Cars or the Volvo Technology and/or the Polestar Technology do not fulfil the requirements set forth herein, Polestar is entitled to comment on the identified deviations. Volvo Cars shall, upon notice from

Polestar, take the actions required in order to fulfil the requirements. In the event the Parties cannot agree upon measures to be taken in respect of the audit, each Party shall be entitled to escalate such issue to relevant governance forum on high governance level (for the time being the Strategic Board).

8. DELIVERY AND ACCEPTANCE

- 8.1 Volvo Cars shall provide the Volvo Technology and the Polestar Technology, covered by the relevant Car Model Assignment and License Agreement, (or if not finalised, any part of the Volvo Technology and the Polestar Technology that has been finalised) to Polestar at the Gates or otherwise promptly after any part of the Volvo Technology and/or the Polestar Technology has been finalised.
- 8.2 The Volvo Technology and the Polestar Technology (or finalised part thereof) in question shall be provided by Volvo Cars to Polestar by electronically loading files with the relevant information into a Data Room agreed upon (if applicable) and otherwise provided as agreed between the Parties *e.g.* through knowledge transfer meetings.
- 8.3 Delivery of any Volvo Technology and/or Polestar Technology (or parts thereof), covered by a relevant Car Model Assignment and License Agreement, occurs when the delivery at the respective Gates meets the requirements for that Gate set out in the relevant Car Model Assignment and License Agreement, however subject to Section 9.2.1 and that Polestar has accepted such delivery in accordance with what is set out below in this Section 8.
- 8.4 Polestar shall accept the delivery of the Volvo Technology and the Polestar Technology, and parts thereof, at the respective Gates, unless the Volvo Technology and/or the Polestar Technology upon delivery at that Gate deviates from the requirements set forth in the relevant executed Car Model Assignment and License Agreement.
- 8.5 Polestar shall, in relation to each executed Car Model Assignment and License Agreement and the relevant Polestar Vehicle, give its final acceptance of the delivered Volvo Technology and/or Polestar Technology on Job1+90, at the latest.
- 8.6 If the Volvo Technology and the Polestar Technology has been delivered in accordance with this Section 8, but Polestar has not accepted the delivery in time (*i.e.* at the Gates or as agreed in each Car Model Assignment and License Agreement) nor objected to the delivery due to it deviating from what is set out in Section 9.2.1, the delivery shall be deemed accepted by Polestar.
- 8.7 For the avoidance of doubt, no delivery of the Common Polestar Technology shall be made by Polestar to Volvo Cars, and no acceptance shall hence be made by Volvo Cars of the Common Polestar Technology, since the Common Polestar Technology will continue to be in Volvo Cars' possession upon the assignment to Polestar considering the automatic grant-back license set forth in Section 4.3 above.
- 8.8 After Job1+90, any changes to the Volvo Technology or the Polestar Technology in relation to such Polestar Vehicle shall be subject to the Parties entering into a separate change management agreement. Thus, this Agreement shall not apply in relation to any such changes. Further, Volvo Cars shall have no responsibility for the Volvo Technology or the Polestar Technology after Job1+90.

9. DELAYS, DEFECTS ETC.

9.1 Delay

- 9.1.1 Volvo Cars shall be deemed to be in delay where any of the Gates are met after the agreed delivery date for such Gate, unless the Parties have agreed for an extension of the time for meeting such Gate upon which the new agreed delivery date shall be relevant for determining whether Volvo Cars is in delay.

- 9.1.2 If Volvo Cars is in delay, or at any time believes that a Gate will not, or is unlikely to, be met in time, Volvo Cars shall inform Polestar of the reasons for and consequences of not meeting the Gate at the agreed date and shall take all steps reasonably necessary, including providing additional resources, to ensure that the requirements for the relevant Gate is met as soon as possible. For avoidance of doubt, Volvo Cars shall be entitled to compensation in accordance with this Agreement for work performed to meet a Gate in relation to a risk of, or an actual, delay unless otherwise stated in this Section 9.1 or Section 9.2.2.
- 9.1.3 If Volvo Cars is in delay and such delay has a negative impact on the project relating to the relevant Polestar Vehicle, the Parties shall upon Polestar's request, agree on a reduction of the Fee relating to the additional work that (i) has to be carried out in order to meet the requirements for the Gate in question and (ii) is performed after the agreed delivery date for such Gate.
- 9.1.4 Without prejudice to any other remedies available, the Parties acknowledge that Volvo Cars' delay may be subject to Section 15.5(a) or Section 15.6.

9.2 Defects in delivery or the performance of development work

- 9.2.1 In the event the Volvo Technology or the Polestar Technology, or any part thereof, after having met a Gate, deviate from the requirements set forth in the relevant executed Car Model Assignment and License Agreement or otherwise are faulty or defective, Volvo Cars shall, if such fault or defect is discovered and/or notified to Volvo Cars before Job1+90, remedy such non-compliance, fault or defect as soon as possible at its own cost.
- 9.2.2 Polestar shall not be responsible for costs that relate to poorly executed work or work having been performed by personnel not qualified for such work, in breach of Section 2.2.1.3, as long as such costs would not have occurred had the work been properly executed or performed by qualified personnel.

9.3 Effects of Polestar's actions

- 9.3.1 Notwithstanding what is set out above in this Section 9, Polestar shall be responsible for costs relating to delays which are due to Polestar's non-fulfillment of any of its obligations under this Agreement and/or each executed Car Model Assignment and License Agreement or Polestar's requests for changes to the Volvo Technology or the Polestar Technology. Further, any such delays which are due to Polestar shall give a corresponding extension of time to Volvo Cars for meeting any affected Gate.
- 9.3.2 Notwithstanding what is set out above in this Section 9, Polestar shall be responsible for costs relating to faults and defects which are due to Polestar's non-fulfillment of any of its obligations under this Agreement and/or each executed Car Model Assignment and License Agreement.

- 11.1.2 In addition, Volvo Cars does not make any warranties or representations as regards the functionality of any Volvo Technology, Volvo Cars' Background IP and/or Polestar Technology in relation to any Polestar Vehicle. Polestar hereby releases Volvo Cars from all liability (and accordingly, cannot claim damages, compensation, price reduction etc.) in respect of errors, defects and deficiencies in any Volvo Technology, Volvo Cars' Background IP and/or Polestar Technology of whatever kind, whether visible or latent, including but not limited to errors of fact or law, errors regarding right of disposition, physical defects and deficiencies and damages arising due to product liability after the Volvo Technology and/or the Polestar Technology have been delivered to Polestar, however excluding Volvo Cars' limited undertakings in Section 9.2.1.
- 11.1.3 The principles set out in this Section 11 is reflected in the Fee and the fact that Volvo Cars is not a supplier or consultant of systems or technical solutions, such as the Volvo Technology and the Polestar Technology, but merely a car manufacturer which normally only develops technical solutions for its own business purposes.
- 11.1.4 The principles set forth in this Section 11 are exclusive. Without limiting the generality of the foregoing in this Section 11, the Parties agree that no other remedy whatsoever under any statute, law or legal principle shall be available to Polestar in relation to the licenses and/or work to be granted and/or performed by Volvo Cars hereunder.
- 11.1.5 What is set forth in Sections 11.1.1-11.1.4 shall apply mutatis mutandis in relation the effectuated grant-back licenses set forth in Sections 4.3 and 4.4 above.

11.2 Polestar's indemnification

- 11.2.1 Polestar shall indemnify and hold Volvo Cars harmless from and against any and all damages, costs, losses and expenses, direct or indirect, arising out of or in connection with Polestar's use of any Volvo Technology, Volvo Cars' Background IP and/or Polestar Technology, including but not limited to any Third Party claims on Intellectual Property Rights infringement.

11.2.2 Volvo Cars shall after receipt of notice of a claim related to Polestar's use of any Volvo Technology, Volvo Cars' Background IP and/or Polestar Technology from Volvo Cars notify Polestar of such claim in writing and Polestar shall following receipt of such notice, to the extent permitted under applicable law, at its own cost conduct negotiations with the Third Party presenting the claim and/or intervene in any suit or action. Polestar shall at all times keep Volvo Cars informed of the status and progress of the claim and consult with Volvo Cars on appropriate actions to take. If Polestar fails to or chooses not to take actions to defend Volvo Cars within a reasonable time, or at any time ceases to make such efforts, Volvo Cars shall be entitled to assume control over the defence against such claim and/or over any settlement negotiation at Polestar's cost. Any settlement proposed by Polestar on its own account must take account of potential implications for Volvo Cars and shall therefore be agreed in writing with Volvo Cars before settlement. Each Party will at no cost furnish to the other Party all data, records, and assistance within that Party's control that are of importance in order to properly defend against a claim.

11.3 Volvo's indemnification

11.3.1 Volvo Cars shall indemnify and hold Polestar harmless from and against any and all damages, costs, losses and expenses, direct or indirect, arising out of or in connection with Volvo Cars' use of any Polestar Technology licensed back to Volvo Cars hereunder, including but not limited to any Third Party claims on Intellectual Property Rights infringement.

11.3.2 Polestar shall after receipt of notice of a claim related to Volvo Cars' use of any Polestar Technology licensed back to Volvo Cars hereunder from Polestar notify Volvo Cars of such claim in writing and Volvo Cars shall following receipt of such notice, to the extent permitted under applicable law, at its own cost conduct negotiations with the Third Party presenting the claim and/or intervene in any suit or action. Volvo Cars shall at all times keep Polestar informed of the status and progress of the claim and consult with Polestar on appropriate actions to take. If Volvo Cars fails to or chooses not to take actions to defend Polestar within a reasonable time, or at any time ceases to make such efforts, Polestar shall be entitled to assume control over the defence against such claim and/or over any settlement negotiation at Volvo Cars' cost. Any settlement proposed by Volvo Cars on its own account must take account of potential implications for Polestar and shall therefore be agreed in writing with Polestar before settlement. Each Party will at no cost furnish to the other Party all data, records, and assistance within that Party's control that are of importance in order to properly defend against a claim.

12. LIMITATION OF LIABILITY

12.1 Neither Party shall be responsible for any indirect, incidental or consequential damage or any losses of production or profit caused by it under this Agreement.

- 12.2 Each Party's aggregate liability for any direct damage arising out of or in connection with a specific Car Model Assignment and License Agreement shall be limited to ten (10) percent of the Fee payable by Polestar to Volvo Cars under such Car Model Assignment and License Agreement.
- 12.3 The limitations of liability set out in this Section 12 shall not apply in respect of damage;
- (a) **caused by wilful misconduct or gross negligence, or**
 - (b) caused by a Party's breach of the confidentiality undertakings in Section 14 below.

13. GOVERNANCE AND CHANGES

13.1 Governance

- 13.1.1 The Parties shall act in good faith in all matters and shall at all times co-operate in respect of changes to this Agreement, including its Schedules, and each executed Car Model Assignment and License Agreement, as well as issues and/or disputes arising under this Agreement and each executed Car Model Assignment and License Agreement.
- 13.1.2 The governance and co-operation between the Parties in respect of this Agreement and each executed Car Model Assignment and License Agreement shall primarily be administered on an operational level. In the event the Parties on an operational level cannot agree upon *inter alia* the prioritisation of development activities or other aspects relating to the co-operation between the Parties, each Party shall be entitled to escalate such issue to the Steering Committee.
- 13.1.3 If the Steering Committee fails to agree upon a solution of the disagreement the relevant issue should be escalated to the Strategic Board for decision.

13.2 Changes

- 13.2.1 Up until Job1+90, Polestar can request changes to the specification set forth in each such Car Model Assignment and License Agreement, as well as to the Volvo Technology and/or the Polestar Technology, which shall be handled in accordance with the governance procedure set forth in Section 13.1 above. Both Parties agree to act in good faith to address and respond to any change request within a reasonable period of time.
- 13.2.2 For the avoidance of doubt the Parties acknowledge that Volvo Cars up until Job1+90 will be entitled to suggest changes to the Volvo Technology, as long as the specification in Appendix 1 is met. The Parties undertake to act in good faith and to agree on the consequences of any such changes for Polestar etc. If the Parties cannot agree on such suggested change of Volvo Technology, Volvo Cars shall still be entitled to carry out said change, but the result thereof will not be considered Volvo Technology.
- 13.2.3 The costs relating to changes to the development work requested by Polestar shall, in relation to Volvo Technology, be allocated based on the category of the relevant development (*i.e.* whether the results shall be considered Volvo Technology or PS Unique Volvo Technology) in accordance with what is set forth in Section 3.2.3 (if applicable) and Appendix 3. Further, the costs relating to changes to the development work requested by Polestar shall, in relation to Polestar Technology, be allocated based on the category of the relevant development (*i.e.* whether the results shall be considered Common Polestar Technology or such Polestar Technology not being Common Polestar Technology) in accordance with what is set out in Section 4.4.1 (if applicable) and Appendix 3.

- 13.2.4 For the avoidance of doubt, the Parties acknowledge that Polestar shall be responsible for all costs relating to changes requested by Polestar in relation to such Polestar Technology to which Volvo Cars has not been granted a license pursuant to Section 4.3 or 4.4.
- 13.2.5 The Parties acknowledge that Volvo Cars will not perform in accordance with a change request submitted by Polestar until agreed in writing between the Parties. Until there is an agreement about the requested change, all work shall thus continue in accordance with the existing specification set forth in each such Car Model Assignment and License Agreement.
- 13.2.6 For the avoidance of doubt, any changes under this Agreement made in relation to the Polestar Technology after the effective date of the relevant Car Model Assignment and License Agreement, shall automatically upon creation also be assigned to Polestar in accordance with what is set forth in Section 4 above. Correspondingly, any changes under this Agreement made to the Volvo Technology after the effective date of the relevant Car Model Assignment and License Agreement, shall automatically upon creation also be included in the license granted to Polestar in Section 3 above. Any changes under this Agreement made in relation to the Volvo Technology or Polestar Technology, respectively, as set forth in this Section 13.2, shall thus upon execution be included in the definition of Volvo Technology or Polestar Technology, as applicable.

14. CONFIDENTIAL INFORMATION

- 14.1** All Confidential Information shall only be used for the purposes set forth in this Agreement. Each Party will keep in confidence any Confidential Information obtained in relation to this Agreement and will not divulge the same to any Third Party, unless the exceptions specifically set forth below in this Section 14.1 below apply, in order to obtain patent protection or when approved by the other Party in writing, and with the exception of their own officers, employees, consultants or sub-contractors with a need to know as to enable such personnel to perform their duties hereunder. This provision will not apply to Confidential Information which the Receiving Party can demonstrate:
- (a) was in the public domain other than by breach of this undertaking, or by another confidentiality undertaking;
 - (b) was already in the possession of the Receiving Party before its receipt from the Disclosing Party;
 - (c) is obtained from a Third Party who is free to divulge the same;
 - (d) is required to be disclosed by mandatory law, court order, lawful government action or applicable stock exchange regulations;
 - (e) is reasonably necessary for either Party to utilize its rights and make use of its Intellectual Property Rights; or
 - (f) is developed or created by one Party independently of the other, without any part thereof having been developed or created with assistance or information received from the other Party.
- 14.2** The Receiving Party shall protect the disclosed Confidential Information by using the same degree of care, but no less than a reasonable degree of care, to prevent the dissemination to Third Parties or publication of the Confidential Information, as the Receiving Party uses to protect its own Confidential Information of similar nature. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 14.

- 14.3 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as “Confidential,” “Proprietary” or the substantial equivalent thereof. Confidential Information that is disclosed orally or visually shall be identified by the Disclosing Party as confidential at the time of disclosure, with subsequent confirmation in writing within thirty (30) days after disclosure. However, the lack of marking or subsequent confirmation that the disclosed information shall be regarded as “Confidential”, “Proprietary” or the substantial equivalent thereof does not disqualify the disclosed information from being classified as Confidential Information.
- 14.4 If any Party violates any of its obligations described in this Section 14, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behaviour and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 18.2 below. All legal remedies (compensatory but not punitive in nature) according to law shall apply.
- 14.5 For the avoidance of doubt, this Section 14 does not permit disclosure of source code to software, and/or any substantial parts of design documents to software, included in any Volvo Technology to any Third Party, notwithstanding what it set forth above in this Section 14. Any such disclosure to any Third Party is permitted only if approved in writing by Volvo Cars.
- 14.6 This Section 14 shall survive the expiration or termination of this Agreement without limitation in time.

15. TERM AND TERMINATION

- 15.1 This Agreement shall become effective as set forth in the preamble to this Agreement and shall, unless terminated in accordance with Section 15.2 below, remain in force until six (6) months after all Car Model Assignment and License Agreements entered into between the Parties have expired or been terminated.
- 15.2 Either Party shall be entitled to terminate this Agreement with immediate effect in the event;
- (a) the other Party commits a material breach of the terms of this Agreement, which has not been remedied within sixty (60) days from written notice from the other Party to remedy such breach (if capable of being remedied);
 - (b) the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors; or
 - (c) the other Party commits a material breach of the terms of an executed Car Model Assignment and License Agreement being of such nature that it also has to be considered a material breach of this Agreement, which has not been remedied within sixty (60) days from written notice from the other Party to remedy such breach (if capable of being remedied).
- 15.3 For avoidance of doubt, either Party not paying the Fee, without legitimate reasons for withholding payment, shall be considered a material breach for the purpose of this Agreement.

- 15.4 Each executed Car Model Assignment and License Agreement shall become effective as set forth therein and shall, unless terminated in accordance with Sections 15.5-15.6 below or as set out in each such Car Model Assignment and License Agreement, or partly cancelled in accordance with Sections 15.7-15.8 below, remain in force during the validity of the license period of the license granted to Polestar under such Car Model Assignment and License Agreement or as set out in each such Car Model Assignment and License Agreement.
- 15.5 Either Party shall be entitled to terminate each executed Car Model Assignment and License Agreement with immediate effect in the event;
- (a) the other Party commits a material breach of the terms of such Car Model Assignment and License Agreement, which has not been remedied within sixty (60) days from written notice from the other Party to remedy such breach (if capable of being remedied); or
 - (b) if the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors.
- 15.6 Polestar is entitled to terminate each executed Car Model Assignment and License Agreement with immediate effect in case Volvo Cars in relation to such Car Model Assignment and License Agreement acts in breach of what is set forth in Sections 9.1 and/or 9.2 and has not within sixty (60) days from written notice from Polestar to remedy such breach (if capable of being remedied), taken necessary measures and/or remedy such non-compliance, delay, fault or defect and after such issue has been escalated in accordance with the escalation principles set out in Section 18.1.
- 15.7 Polestar shall in addition be entitled to cancel any delivery of Volvo Technology and/or Polestar Technology by Volvo Cars under each executed Car Model Assignment and License Agreement for convenience upon thirty (30) days written notice to Volvo Cars. In such event, Volvo Cars shall, upon request from Polestar, promptly make available in the Data Room (if applicable) any and all parts of the Volvo Technology and/or the Polestar Technology which have been finalised for delivery on the effective date of the cancellation.
- 15.8 In the event Polestar cancels any delivery in accordance with Section 15.7 above, the Fee shall, instead of what is set out in each executed Car Model Assignment and License Agreement, correspond to the part of the Fee that relate to (i) Volvo Technology and Polestar Technology existing at the execution of this Car Model Assignment and License Agreement, (ii) Volvo Cars' costs for the work performed under each such executed Car Model Assignment and License Agreement up, until and including the effective date of the cancellation, including the mark-up otherwise applied to calculate the Fee for the Volvo Technology and the Polestar Technology and (iii) any other proven costs Volvo Cars has incurred.
- 15.9 For avoidance of doubt, termination of this Agreement terminates all Car Model Assignment and License Agreements, whereas termination of one Car Model Assignment and License Agreement does not automatically affect the validity of this Agreement nor any other Car Model Assignment and License Agreements.

16. MISCELLANEOUS**16.1 Force majeure**

- 16.1.1 Neither Party shall be liable for any failure or delay in performing its obligations under this Agreement to the extent that such failure or delay is caused by a Force Majeure Event. A **“Force Majeure Event”** means any event beyond a Party’s reasonable control, which by its nature could not have been foreseen, or, if it could have been foreseen, was unavoidable, including strikes, lock-outs or other industrial disputes (whether involving its own workforce or a Third Party’s), failure of energy sources or transport network, restrictions concerning motive force, acts of God, war, terrorism, insurgencies and riots, civil commotion, mobilization or extensive call ups, interference by civil or military authorities, national or international calamity, currency restrictions, requisitions, confiscation, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, sonic boom, explosions, collapse of building structures, fires, floods, storms, stroke of lightning, earthquakes, loss at sea, epidemics or similar events, natural disasters or extreme adverse weather conditions, or default or delays of suppliers or subcontractors.
- 16.1.2 A non-performing Party, which claims there is a Force Majeure Event, and cannot perform its obligations under this Agreement as a consequence thereof, shall use all commercially reasonable efforts to continue to perform or to mitigate the impact of its non-performance notwithstanding the Force Majeure Event and shall continue the performance of its obligations as soon as the Force Majeure Event ceases to exist.

16.2 Notices

- 16.2.1 All notices, demands, requests and other communications to any Party as set forth in, or in any way relating to the subject matter of, this Agreement must be in legible writing in the English language delivered by personal delivery, email transmission or prepaid overnight courier using an internationally recognized courier service and shall be effective upon receipt, which shall be deemed to have occurred:

- 16.3.2 Notwithstanding the above, each Party may assign this Agreement to an Affiliate without the prior written consent of the other Party.

16.4 Waiver

Neither Party shall be deprived of any right under this Agreement because of its failure to exercise any right under this Agreement or failure to notify the infringing Party of a breach in connection with the Agreement. Notwithstanding the foregoing, rules on complaints and limitation periods shall apply.

16.5 Severability

In the event any provision of this Agreement is wholly or partly invalid, the validity of the Agreement as a whole shall not be affected and the remaining provisions of the Agreement shall remain valid. To the extent that such invalidity materially affects a Party's benefit from, or performance under, the Agreement, it shall be reasonably amended.

16.6 Entire agreement

All arrangements, commitments and undertakings in connection with the subject matter of this Agreement (whether written or oral) made before the date of this Agreement are superseded by this Agreement.

16.7 Amendments

Any amendment or addition to this Agreement must be made in writing and signed by the Parties to be valid.

16.8 Survival

- 16.8.1 If this Agreement and/or a Car Model Assignment and License Agreement is terminated or expires pursuant to Section 15 above, Section 3 (*License Grant*), Section 4.3 (*Grant-back license to Common Polestar Technology*), Section 4.4 (*Grant-back license to Polestar Technology not being Common Polestar Technology*), Section 14 (*Confidential Information*), Section 17 (*Governing Law*), Section 18 (*Dispute Resolution*) as well as this Section 16.8, shall survive any termination or expiration and remain in force as between the Parties after such termination or expiration (for avoidance of doubt also in relation to such Car Model Assignment and License Agreement).

- 16.8.2 Notwithstanding Section 16.8.1 above, if this Agreement and/or a Car Model Assignment and License Agreement is terminated due to Polestar not paying the Fee in relation to an executed Car Model Assignment and License Agreement, without legitimate reasons for withholding payment, pursuant to Section 15 above, Section 3 (*License Grant*) shall not, in relation to such Car Model Assignment and License Agreement the Fee relates to, survive termination or remain in force as between the Parties after such termination.
- 16.8.3 Notwithstanding Section 16.8.1 above, if this Agreement and/or a Car Model Assignment and License Agreement is terminated due to Volvo Cars not reducing or repaying the Fee, or part thereof, in relation to an executed Car Model Assignment and License Agreement, without legitimate reasons for doing so, pursuant to Section 15 above, Section 4.3 (*Grant- back license to Common Polestar Technology*) and Section 4.4 (*Grant-back license to Polestar Technology not being Common Polestar Technology*) shall not, in relation to such Car Model Assignment and License Agreement the Fee relates to, survive termination or remain in force as between the Parties after such termination.

17. GOVERNING LAW

This Agreement and all non-contractual obligations in connection with this Agreement shall be governed by the substantive laws of Sweden without giving regard to its conflict of laws principles.

18. DISPUTE RESOLUTION

18.1 Escalation principles

- 18.1.1 In case the Parties cannot agree on a joint solution for handling disagreements or disputes, a deadlock situation shall be deemed to have occurred and each Party shall notify the other Party hereof by the means of a deadlock notice and simultaneously send a copy of the notice to the Steering Committee. Upon the receipt of such a deadlock notice, the receiving Party shall within ten (10) days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.

- 18.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. As part thereof, the Steering Committee may request the Parties to in good faith develop and agree on a plan to resolve or address the breach, to be presented for the Steering Committee without undue delay. If the Steering Committee agrees upon a resolution or disposition of the matter, the Parties shall agree in writing on terms of such resolution or disposition and the Parties shall procure that such resolution or disposition is fully and promptly carried into effect.
- 18.1.3 If the Steering Committee cannot settle the deadlock within thirty (30) days from the deadlock notice served pursuant to Section 18.1.1 above, such deadlock will be referred to the General Counsels of each Party, which shall use reasonable endeavours to resolve the situation in the same way as indicated above. If no Steering Committee has been established between the Parties, the relevant issue shall be referred to the General Counsels of each Party immediately and Section 18.1.2 above shall not apply.
- 18.1.4 If the General Counsels cannot settle the deadlock within thirty (30) days from the deadlock notice pursuant to the section above, despite using reasonable endeavours to do so, such deadlock will be referred to the Strategic Board for decision. Should the matter not have been resolved by the Strategic Board within thirty (30) days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section Section 18.2 below.
- 18.1.5 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 14 above.
- 18.1.6 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 18.1 and apply shorter time frames and/or escalate an issue directly to the Strategic Board in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.

18.2 Arbitration

- 18.2.1 Any dispute, controversy or claim arising out of or in connection with this Agreement, or the breach, termination or invalidity thereof, shall be finally settled by arbitration in accordance with the Arbitration Rules of the Arbitration Institute of the Stockholm Chamber of Commerce. The seat of arbitration shall be Gothenburg, Sweden, and the language to be used in the arbitral proceedings shall be English. The arbitral tribunal shall be composed of three arbitrators.
- 18.2.2 Irrespective of any discussions or disputes between the Parties, each Party shall always continue to fulfil its undertakings under this Agreement unless an arbitral tribunal or court (as the case may be) decides otherwise.
- 18.2.3 In any arbitration proceeding, any legal proceeding to enforce any arbitration award, or any other legal proceedings between the Parties relating to this Agreement, each Party expressly waives the defence of sovereign immunity and any other defence based on the fact or allegation that it is an agency or instrumentality of a sovereign state. Such waiver includes a waiver of any defence of sovereign immunity in respect of enforcement of arbitral awards and/or sovereign immunity from execution over any of its assets.

18.2.4 All arbitral proceedings as well as any and all information, documentation and materials in any form disclosed in the proceedings shall be strictly confidential.

This Agreement has been signed in two (2) originals, of which the parties have received one (1) each. The Parties acknowledge that this Agreement shall be binding upon the Parties already upon the signing and exchange of scanned version thereof, including scanned signatures.

SIDE LETTER

This side letter ("**Side Letter**") is entered into on 31 October 2018 and made between:

Volvo Car Corporation, Reg. No. 556074-3089, a limited liability company incorporated under the laws of Sweden ("**Volvo Cars**");

Polestar Performance AB, Reg. No. 556653-3096, a limited liability company incorporated under the laws of Sweden ("**Polestar Sweden**"); and

Polestar New Energy Vehicle Co. Ltd., Reg. No. 91510100MA6BX1H33P, a limited liability company incorporated under the laws of the People's Republic of China ("**Polestar China**").

Each of Volvo Cars, Polestar Sweden and Polestar China is hereinafter referred to as a "**Party**" and jointly as the "**Parties**". Polestar Sweden and Polestar China are jointly referred to as the "**Polestar Entities**".

BACKGROUND

- A. Volvo Cars has entered into two separate car model assignment and license agreements, one with Polestar Sweden and one with Polestar China in relation to grant of licenses to certain technology and know-how related to the Polestar branded vehicles Polestar 1 and Polestar 2 (the "**Car Model Assignment and License Agreements**").
- B. Unless otherwise defined in this Side Letter, capitalized terms used herein shall have the meaning ascribed to them in each of the Car Model Assignment and License Agreements.
- C. The Parties now wish to clarify in writing the contractual setup and the relationship between the two Car Model Assignment and License Agreements, as set out below.

1. CONTRACTUAL SET-UP

Even though the Car Model Assignment and License Agreements are two separate agreements with different parties, the Parties acknowledge that their intention is that the Car Model Assignment and License Agreements actually constitute one and the same agreement.

2. FEE

2.1 The Parties acknowledge that the Polestar Entities shall pay to Volvo Cars a Fee for the license to Volvo Technology and PS Unique Volvo Technology as referenced to in the Car Model Assignment and License Agreement and as further described in Appendix 3 thereto. The Fee set out in Appendix 3 to each Car Model Assignment and License Agreement amounts to a certain specified percentage of Volvo Cars' actual development costs for the Volvo Technology and the PS Unique Volvo Technology, respectively.

- 2.2 The Parties agree that the percentages and amounts set out in Appendix 3 to each of the Car Model Assignment and License Agreement shall be interpreted in the light of the fact that the two Car Model Assignment and License Agreements shall actually constitute one and the same agreement. The Parties intention is therefore that the total amount payable to Volvo Cars under the two Car Model Assignment and License Agreements shall be split between the Polestar Entities. The foregoing applies to both already incurred developments costs and future development costs.
- 2.3 In the light of the foregoing, the Parties agree that the below-mentioned Sections in Appendix 3 to the Car Model Assignment and License Agreements shall be interpreted as follows:
- 2.4 • [***]

3. NO SUB-LICENSING BETWEEN THE POLESTAR ENTITIES

The Parties acknowledge that the rights granted to the Polestar Entities is to some extent sub-licensable to *inter alia* Polestar Affiliates under the Car Model Assignment and License Agreements. It is, however, not the intention of the Parties that the Polestar Entities shall be allowed to sub-license the rights granted under each of the Car Model Assignment and License Agreements to each other instead of utilising the rights granted to such Polestar Entity under its own Car Model Assignment and License Agreement. In the light of the above, the Polestar Entities shall thus not be allowed to sub-license any of the rights granted under the Car Model Assignment and License Agreements between them, but only to other Polestar Affiliates of them as stipulated in each of the Car Model Assignment and License Agreements.

4. AMENDMENTS

The Parties agree that, if an amendment is made to one of the Car Model Assignment and License Agreements, the Party not being a Party to such amended Car Model Assignment and License Agreement agrees to make the corresponding amendment to the Car Model Assignment and License Agreement it is a Party to, unless otherwise agreed between the Parties.

5. TERMINATION

- 5.1 If one of the Car Model Assignment and License Agreements is terminated, the Parties hereby agree that Volvo Cars shall have a right to terminate the other Car Model Assignment and License Agreement with immediate effect.
- 5.2 A breach of this Side Letter shall be considered a material breach under each of the Car Model Assignment and License Agreements.

6. DISPUTE RESOLUTION

The Parties intention is that the identical arbitration clauses in each of the Car Model Assignment and License Agreements shall function as one and the same arbitration agreement entered into between, on the one hand, Volvo Cars, and, on the other hand, the Polestar Entities. Accordingly, the Parties agree that any disputes, controversies or claims arising out of or in connection with the Car Model Assignment and License Agreements, and/or this Side Letter, or the breach, termination or invalidity thereof, may be consolidated into one arbitration proceeding.

7. **MISCELLANEOUS**

- 7.1 This Side Letter shall become effective as set forth in the preamble of this Side Letter and shall remain in force, in relation to the relevant Parties, for the duration of the relevant Car Model Assignment and License Agreement.
- 7.2 This Side Letter is hereby incorporated to, and shall form an integral part of, in relation to the relevant Parties, the relevant Car Model Assignment and License Agreement. This Side Letter takes precedence over the Car Model Assignment and License Agreements if they are contradictory or ambiguous.

[Signature page follows]

This Side Letter has been, signed in three (3) originals, of which the parties have received one (1) each. The Parties acknowledge that this Side Letter shall be binding upon the Parties already upon the signing and exchange of scanned version thereof, including scanned signatures.

- 2.2 **Appendix 3 to the Agreement** shall be replaced in its entirety by Appendix 3 attached to this Amendment.

3. GENERAL PROVISIONS

- 3.2 No amendment of this Amendment will be effective unless it is in writing and signed by both Parties. A waiver of any default is not a waiver of any later default and will not affect the validity of this Amendment.

2. SCOPE OF THE AGREEMENT

2.1 General

- 2.1.1 By entering into this Agreement, the Parties initiate a co-operation regarding the assignment of and license to certain technology. Volvo Cars, on the one hand, will to Polestar deliver and (i) grant licenses to the Volvo Technology and/or (ii) assign the Polestar Technology, whereas Polestar, on the other hand, will to Volvo Cars deliver and grant licenses to the Common Polestar Technology, in accordance with this Agreement, but however only to the extent set forth in and subject to the execution of one or several Car Model Assignment and License Agreements.
- 2.1.2 This Agreement sets out the general terms and conditions in relation to the obligations of the Parties hereunder, while each executed Car Model Assignment and License Agreement shall set out the specific terms in relation to each Polestar Vehicle. A template setting out the intended terms and conditions for each such Car Model Assignment and License Agreement is attached hereto as Schedule 1 Template Car Model Assignment and License Agreement.
- 2.1.3 The Schedules, and each executed Car Model Assignment and License Agreement entered into between the Parties, shall be considered an integral part of this Agreement and any reference to the Agreement shall include the Schedules and the executed Car Model Assignment and License Agreements.

2.2 The Volvo Technology and the Polestar Technology

2.2.1 General

- 2.2.1.1 Volvo Cars shall, to the extent so agreed in each respective executed Car Model Assignment and License Agreement, on the terms set forth in this Agreement, compile, and if necessary develop, such Volvo IP necessary to deliver and grant licenses to the Volvo Technology, and deliver and assign the Polestar Technology, to Polestar.

- 2.2.1.2 The license to Volvo Technology and the assignment of Polestar Technology shall, in relation to each Polestar Vehicle, include all Volvo IP, which together with relevant Third Party Intellectual Property Rights not included in Volvo IP is reasonably necessary in order to meet the specification set forth in Appendix 1 to such Car Model Assignment and License Agreement. In case any such Third Party Intellectual Property Rights not included in Volvo IP is reasonably necessary in order to meet the specification set forth in Appendix 1 to a Car Model Assignment and License Agreement, Volvo Cars shall indicate that within the frame of the deliverables under the Volvo Technology. Polestar might thus be required to license Intellectual Property Rights and/or purchase components of Third Parties necessary to produce the Polestar Vehicles.
- 2.2.1.3 To the extent development shall be made in order to achieve the Volvo Technology and/or the Polestar Technology, Volvo Cars shall use professional, appropriate, qualified and skilled personnel, and shall ensure that its personnel have been properly educated and trained for the work to be performed, including being fully acquainted with Polestar's specific requirements. For the avoidance of doubt, if any development shall be made in relation to such Polestar Technology to which Volvo Cars has not been granted a license to, pursuant to Section 4.3 or 4.4, the Parties acknowledge that Volvo Cars has a right to use such Polestar Technology to the extent it is reasonably necessary in order to perform the requested development. Volvo Cars shall avoid unnecessary changes in the personnel engaged in performing its undertakings under this Agreement and each executed Car Model Assignment and License Agreement. Volvo Cars shall work according to the same standard of care and professionalism that is done in Volvo Cars' internal development projects. Such standard of care and professionalism, as well as Volvo Cars' performance of its undertakings under this Agreement and each executed Car Model Assignment and License Agreement, shall however at all times correspond to Industry Standard. It is acknowledged that any development costs built up shall adhere to the principles set forth in this Section 2.2.1.3.
- 2.2.1.4 Volvo Cars shall ensure that it has sufficient resources to perform its undertakings under this Agreement and each executed Car Model Assignment and License Agreement. Furthermore, Volvo Cars undertakes to ensure that any development of the Volvo Technology and/or the Polestar Technology will not be given lower priority than other Volvo Cars development projects.

2.2.1.5 Volvo Cars shall continuously keep Polestar informed of the generated and expected development costs in relation to the Volvo Technology and/or the Polestar Technology.

2.2.2 Limitations

2.2.2.1 The Parties acknowledge and agree that the Volvo Technology and the Polestar Technology might not be described on a detailed basis in the Car Model Assignment and License Agreements and that the details of such technology might not have been finalised at the time of entering into the Car Model Assignment and License Agreements, but that such specifications will be updated as the development progresses up until Job1+90 at the latest.

2.2.2.2 For the avoidance of doubt, Volvo Cars shall not under this Agreement manufacture the Polestar Vehicle, any components of the Volvo Technology or the Polestar Technology, or integrate any such components or the Volvo Technology or the Polestar Technology into Polestar's production of vehicles.

2.2.2.3 The Parties further acknowledge and agree that, if it is discovered that something has been classified as Volvo Technology under a Car Model Assignment and License Agreement, but which should have been classified as Polestar Technology or Common Polestar Technology, and/or *vice versa*, the Parties agree to in good faith renegotiate and agree on the reclassification of such technology and any amendment of the Fee to reflect such change. For avoidance of doubt, and as an example, this means that if the Parties agree that certain technology shall be changed from Volvo Technology to Polestar Technology, the terms and conditions herein relating to the latter shall thereafter apply to such technology. If the Parties cannot agree on such a reclassification, the issue shall be escalated in accordance with what is set out in Section 13.1.

3. LICENSE GRANT

3.1 License grant

3.1.1 Volvo Cars undertakes to, subject to the Parties agreeing to and executing a Car Model Assignment and License Agreement, grant Polestar a license to the Volvo Technology covered by the relevant Car Model Assignment and License Agreement.

3.1.2 Such license shall, except for what is set out in Section 3.2 below or unless otherwise agreed in each executed Car Model Assignment and License Agreement, be non-exclusive, irrevocable, perpetual (however at least fifty (50) years long (however, in no event shall such time exceed the validity period of any Volvo IP included in the license described hereunder)), non-assignable and give Polestar a right to, within the Territory and only in relation to the relevant Polestar Vehicle;

- (a) Use, in whole or in part, the Volvo Technology covered by the relevant Car Model Assignment and License Agreement and any Volvo Cars' Background IP necessary to make Use of such Volvo Technology; and
- (b) design, engineer, make and have made, repair, service, market, sell and make available products and/or services based on, incorporating or using the Volvo Technology and the Background IP referred to in (a) above (in whole or in part).

- 3.1.3 Nothing in this Agreement shall be construed as to give Polestar any rights, including but not limited to any license rights (express or implied), to any Volvo IP, except as expressly stated herein.
- 3.1.4 The license to be granted to Polestar in accordance with Section 3.1.1 and 3.1.2 above shall be fully sub-licensable to Polestar's Affiliates, but shall not be sub-licensable to any Third Party without prior written consent from Volvo Cars, which shall not be unreasonably withheld (whereby a sublicense/license to a Third Party which is a competitor of Volvo Cars is an example of what could be deemed unreasonable) or delayed. For the avoidance of doubt, Volvo Cars shall be free to Use and to grant licenses to Volvo Technology and any Volvo Cars' Background IP to Volvo Cars' Affiliates and any Third Parties without prior written consent from Polestar.
- 3.1.5 Notwithstanding what is stated in Section 3.1.2 regarding a license to Volvo Technology being only granted in relation to the relevant Polestar Vehicle, Polestar shall, at Polestar's sole discretion, have an option to a license in accordance with Section 3.1.1 and 3.1.2 above (in whole or in part) also in relation to Other Polestar Branded Vehicles on commercially reasonable terms, which (including price) shall be based on the terms of this Agreement and the relevant executed Car Model Assignment and License Agreement. The fee for such license shall *inter alia* be based on the estimated volumes of such Other Polestar Branded Vehicles to be produced and the extent of Volvo Technology which shall be subject to such a license.

3.2 PS Unique Volvo Technology

- 3.2.1 Notwithstanding what is set forth in Section 3.1, what is set forth in this Section 3.2 shall apply in relation to PS Unique Volvo Technology.
- 3.2.2 Any license granted in Section 3.1.2 shall, in relation to PS Unique Volvo Technology, and unless otherwise agreed in each executed Car Model Assignment and License Agreement, be exclusive instead of non-exclusive. As a consequence thereof Volvo Cars shall have no right to make any Use whatsoever of, or to grant any further licenses to, any such PS Unique Volvo Technology. With the exception of what is set out in this Section 3.2, Section 3.1 shall apply to PS Unique Volvo Technology.
- 3.2.3 In the event Volvo Cars (i) in its sole discretion, determines that the PS Unique Volvo Technology, or parts thereof, shall no longer be PS Unique Volvo Technology but instead be such ordinary Volvo Technology covered only by Section 3.1 above and (ii) reduces the Fee as regards such PS Unique Volvo Technology with fifty per cent (50 %) or repays fifty per cent (50 %) of the Fee, relating to such part of the PS Unique Volvo Technology, the following shall apply. Such PS Unique Volvo Technology shall immediately, upon Volvo Cars' reduction or repayment of the Fee, no longer be considered PS Unique Volvo Technology but instead be considered ordinary Volvo Technology and what is set out in Section 3.1 above shall thus apply instead. For the avoidance of doubt, this *inter alia* implies that such previous exclusive license granted by Volvo Cars to Polestar shall instead become non-exclusive. For avoidance of doubt, Volvo Cars' right under this Section 3.2.3 may be exercised at any time also after the term of this Agreement.

4. ASSIGNMENT

4.1 Assignment

- 4.1.1 Volvo Cars undertakes to, subject to the Parties agreeing to and executing a Car Model Assignment and License Agreement and to the limitations in Section 4.2, assign to Polestar the Polestar Technology covered by the relevant Car Model Assignment and License Agreement.
- 4.1.2 Such assignment shall, unless otherwise agreed in each executed Car Model Assignment and License Agreement, mean that Volvo Cars assigns to Polestar all of its right, title and interest in and to the Polestar Technology covered by the relevant Car Model Assignment and License Agreement together with the goodwill associated thereto and any and all rights of enforcement with respect to such Polestar Technology, including all rights to sue and recover for past infringement thereof, and any and all causes of action related thereto.
- 4.1.3 Such assignment shall, subject to Section 4.2 below, take effect on the effective date of the relevant Car Model Assignment and License Agreement.

4.2 Limitations in relation to the Polestar Supplier License Technology

- 4.1.1 Polestar acknowledges that the Polestar Supplier License Technology is owned by Third Parties and that Volvo Cars may not be allowed to assign its rights thereto without consent from such relevant Third Party.
- 4.1.2 An assignment in accordance with Section 4.1 is thus, in relation to Polestar Supplier License Technology, subject to any limitations which may be applicable to the rights granted to Volvo Cars by the Third Party owning the Intellectual Property Rights to such Polestar Supplier License Technology, and will, notwithstanding what is set out in Section 4.1.3 above, not take effect until Volvo Cars has received the relevant consent from the Third Party, as applicable.
- 4.1.3 If Volvo Cars has not received the relevant consent from the Third Party within six (6) months from the signing date of the relevant Car Model Assignment and License Agreement, no assignment of such Polestar Supplier License Technology shall occur, nor be considered to have occurred, and the Fee shall be reduced corresponding to the the part of the Fee that relates to the Polestar Supplier License Technology to which Volvo Cars has not received relevant consent in time. If such a reduction is not feasible to determine, it shall be negotiated between the Parties in good faith.

4.3 Grant-back license to Common Polestar Technology

- 4.3.1 Polestar undertakes to, subject to the Parties agreeing to and executing a Car Model Assignment and License Agreement, grant Volvo Cars a license to the Common Polestar Technology covered by the relevant Car Model Assignment and License Agreement. Said license shall be granted automatically upon the execution of such a Car Model Assignment and License Agreement.
- 4.3.2 Such license shall, unless otherwise agreed in each executed Car Model Assignment and License Agreement, be non-exclusive, irrevocable, perpetual (however at least fifty (50) years long (however, in no event shall such time exceed the validity period of any Polestar Intellectual Property Rights included in the license hereunder)), non-assignable and give Volvo Cars a right to, within the Territory;
 - (a) Use, in whole or in part, such Common Polestar Technology, and/or
 - (b) design, engineer, make and have made, repair, service, market, sell and make available products and/or services based on, incorporating or using such Common Polestar Technology (in whole or in part).

- 4.3.3 The license to be granted to Volvo Cars in accordance with Section 4.3.1 and 4.3.2 above shall be fully sub-licensable to Volvo Cars' Affiliates and to any Third Parties, without prior written consent from Polestar. The Parties further agree that Volvo Cars may further develop such licenced Common Polestar Technology, either by itself or together with its Affiliates and/or any Third Parties. For the avoidance of doubt, Polestar shall be free to Use the Common Polestar Technology licenced back to Volvo Cars and to license such Common Polestar Technology to Polestar's Affiliates and to any Third Parties without prior written consent from Volvo Cars.

4.4 Grant-back license to Polestar Technology not being Common Polestar Technology

- 4.4.1 In the event Volvo Cars, in its sole discretion, determines that the Polestar Technology not being Common Polestar Technology, or parts thereof, shall be licensed back to Volvo Cars, Polestar automatically, upon Volvo Cars giving Polestar notice that it has determined that such a grant-back license shall be given, grants to Volvo Cars a license to such Polestar Technology. In such a case, Volvo Cars shall either reduce the Fee as regards such Polestar Technology with fifty per cent (50%) or repay fifty per cent (50%) of the Fee, relating to such part of the Polestar Technology. For the avoidance of doubt, Volvo Cars' right to reduce or repay part of the Fee as set out in this Section 4.4.1 may be exercised at any time also after the term of this Agreement.
- 4.4.2 Such license shall, unless otherwise agreed in each executed Car Model Assignment and License Agreement, be non-exclusive, irrevocable, perpetual (however at least fifty (50) years long (however, in no event shall such time exceed the validity period of any Polestar Intellectual Property Rights included in the license described hereunder)), non-assignable and give Volvo Cars a right to, within the Territory:
- (a) Use, in whole or in part, such Polestar Technology, and/or

- 4.4.3 The license to be granted to Volvo Cars in accordance with Section 4.4.1 and 4.4.2 above shall be fully sub-licensable to Volvo Cars's Affiliates, but shall not be sub-licensable to any Third Party without prior written consent from Polestar, which shall not be unreasonably withheld (whereby a sublicense/license to a Third Party which is a competitor of Polestar is an example of what could be deemed unreasonable) or delayed. For the avoidance of doubt, Polestar shall be free to Use the Polestar Technology licensed back to Volvo Cars and to license such Polestar Technology to Polestar's Affiliates and to any Third Parties without prior written consent from Volvo Cars.

4.5 Third Party assignments

5.3 Volvo brand name

- 5.3.1 Correspondingly, it is especially noted that this Agreement does not include any right to use the “Volvo” brand name, or Trademarks, or refer to “Volvo” in communications or official documents of whatever kind.  - (b) any allegations made to such Party by a Third Party that any Intellectual Property Rights licensed hereunder are invalid, subject to cancellation, unenforceable, or are a misappropriation of any Intellectual Property Rights of a Third Party.
- 5.4.2 In the event that a Party has provided the other Party a notification pursuant to Section 5.4.1 above, and the other Party decides not to take any action against the Third Party, the other Party may approve in writing that such Party shall be entitled to itself take action against the Third Party at its own cost. If the other Party approves, it shall provide reasonable assistance to such Party, as requested by such Party at its own expense. If the other Party does not approve to such Party taking such action, the issue should be escalated to the relevant governance forum on high governance level (for the time being the Strategic Board) for decision.

- 5.4.3 For the avoidance of doubt, Volvo Cars has no responsibility in relation to Polestar in the event the Volvo Technology and/or the Polestar Technology is alleged to infringe in any Third Party's Intellectual Property Rights and as a consequence Volvo Cars has no obligation to defend and hold Polestar harmless from and against any alleged infringements, except as set forth in Section 11.3 below. Likewise, Polestar has no responsibility in relation to Volvo Cars in the event any Polestar Technology licensed back to Volvo Cars hereunder is alleged to infringe in any Third Party's Intellectual Property Rights and as a consequence Polestar has no obligation to defend and hold Volvo Cars harmless from and against any alleged infringements, except as set forth in Section 11.2.

- 6.2.5 Any paid portion of the Fee is non-refundable, with the exceptions set out in this Agreement.

7. AUDITS

- 7.1.1 During the term of this Agreement, Polestar shall have the right to, upon reasonable notice in writing to Volvo Cars, inspect Volvo Cars' books and records related to the Volvo Technology and the Polestar Technology and the premises where the work to finalise the Volvo Technology and the Polestar Technology is carried out, in order to conduct quality controls and otherwise verify the statements rendered in this Agreement.
- 7.1.2 Audits shall be made during regular business hours and be conducted by Polestar or by an independent auditor appointed by Polestar. Should Polestar during any inspection find that Volvo Cars or the Volvo Technology and/or the Polestar Technology do not fulfil the requirements set forth herein, Polestar is entitled to comment on the identified deviations. Volvo Cars shall, upon notice from Polestar, take the actions required in order to fulfil the requirements. In the event the Parties cannot agree upon measures to be taken in respect of the audit, each Party shall be entitled to escalate such issue to relevant governance forum on high governance level (for the time being the Strategic Board).

8. DELIVERY AND ACCEPTANCE

- 8.1. Volvo Cars shall provide the Volvo Technology and the Polestar Technology, covered by the relevant Car Model Assignment and License Agreement, (or if not finalised, any part of the Volvo Technology and the Polestar Technology that has been finalised) to Polestar at the Gates or otherwise promptly after any part of the Volvo Technology and/or the Polestar Technology has been finalised.
- 8.2. The Volvo Technology and the Polestar Technology (or finalised part thereof) in question shall be provided by Volvo Cars to Polestar by electronically loading files with the relevant information into a Data Room agreed upon (if applicable) and otherwise provided as agreed between the Parties *e.g.* through knowledge transfer meetings.
- 8.3. Delivery of any Volvo Technology and/or Polestar Technology (or parts thereof), covered by a relevant Car Model Assignment and License Agreement, occurs when the delivery at the respective Gates meets the requirements for that Gate set out in the relevant Car Model Assignment and License Agreement, however subject to Section 9.2.1 and that Polestar has accepted such delivery in accordance with what is set out below in this Section 8.
- 8.4. Polestar shall accept the delivery of the Volvo Technology and the Polestar Technology, and parts thereof, at the respective Gates, unless the Volvo Technology and/or the Polestar Technology upon delivery at that Gate deviates from the requirements set forth in the relevant executed Car Model Assignment and License Agreement.
- 8.5. Polestar shall, in relation to each executed Car Model Assignment and License Agreement and the relevant Polestar Vehicle, give its final acceptance of the delivered Volvo Technology and/or Polestar Technology on Jobl+90, at the latest.
- 8.6. If the Volvo Technology and the Polestar Technology has been delivered in accordance with this Section 8, but Polestar has not accepted the delivery in time (i.e. at the Gates or as agreed in each Car Model Assignment and License Agreement) nor objected to the delivery due to it deviating from what is set out in Section 9.2.1, the delivery shall be deemed accepted by Polestar.
- 8.7. For the avoidance of doubt, no delivery of the Common Polestar Technology shall be made by Polestar to Volvo Cars, and no acceptance shall hence be made by Volvo Cars of the Common Polestar Technology, since the Common Polestar Technology will continue to be in Volvo Cars' possession upon the assignment to Polestar considering the automatic grant-back license set forth in Section 4.3 above.
- 8.8. After Jobl+90, any changes to the Volvo Technology or the Polestar Technology in relation to such Polestar Vehicle shall be subject to the Parties entering into a separate change management agreement. Thus, this Agreement shall not apply in relation to any such changes. Further, Volvo Cars shall have no responsibility for the Volvo Technology or the Polestar Technology after Jobl+90.

9. DELAYS, DEFECTS ETC.**9.1 Delay**

- 9.1.1 Volvo Cars shall be deemed to be in delay where any of the Gates are met after the agreed delivery date for such Gate, unless the Parties have agreed for an extension of the time for meeting such Gate upon which the new agreed delivery date shall be relevant for determining whether Volvo Cars is in delay.

- 9.1.2 If Volvo Cars is in delay, or at any time believes that a Gate will not, or is unlikely to, be met in time, Volvo Cars shall inform Polestar of the reasons for and consequences of not meeting the Gate at the agreed date and shall take all steps reasonably necessary, including providing additional resources, to ensure that the requirements for the relevant Gate is met as soon as possible. For avoidance of doubt, Volvo Cars shall be entitled to compensation in accordance with this Agreement for work performed to meet a Gate in relation to a risk of, or an actual, delay unless otherwise stated in this Section 9.1 or Section 9.2.2.
- 9.1.3 If Volvo Cars is in delay and such delay has a negative impact on the project relating to the relevant Polestar Vehicle, the Parties shall upon Polestar's request, agree on a reduction of the Fee relating to the additional work that (i) has to be carried out in order to meet the requirements for the Gate in question and (ii) is performed after the agreed delivery date for such Gate.
- 9.1.4 Without prejudice to any other remedies available, the Parties acknowledge that Volvo Cars' delay may be subject to Section 15.5(a) or Section 15.6.

9.2 Defects in delivery or the performance of development work

- 9.2.1 In the event the Volvo Technology or the Polestar Technology, or any part thereof, after having met a Gate, deviate from the requirements set forth in the relevant executed Car Model Assignment and License Agreement or otherwise are faulty or defective, Volvo Cars shall, if such fault or defect is discovered and/or notified to Volvo Cars before Job1+90, remedy such non-compliance, fault or defect as soon as possible at its own cost.
- 9.2.2 Polestar shall not be responsible for costs that relate to poorly executed work or work having been performed by personnel not qualified for such work, in breach of Section 2.2.1.3, as long as such costs would not have occurred had the work been properly executed or performed by qualified personnel.

9.3 Effects of Polestar's actions

- 9.3.1 Notwithstanding what is set out above in this Section 9, Polestar shall be responsible for costs relating to delays which are due to Polestar's non-fulfillment of any of its obligations under this Agreement and/or each executed Car Model Assignment and License Agreement or Polestar's requests for changes to the Volvo Technology or the Polestar Technology. Further, any such delays which are due to Polestar shall give a corresponding extension of time to Volvo Cars for meeting any affected Gate.
- 9.3.2 Notwithstanding what is set out above in this Section 9, Polestar shall be responsible for costs relating to faults and defects which are due to Polestar's non-fulfillment of any of its obligations under this Agreement and/or each executed Car Model Assignment and License Agreement.

Polestar shall at all times keep Volvo Cars informed of the status and progress of the claim and consult with Volvo Cars on appropriate actions to take. If Polestar fails to or chooses not to take actions to defend Volvo Cars within a reasonable time, or at any time ceases to make such efforts, Volvo Cars shall be entitled to assume control over the defence against such claim and/or over any settlement negotiation at Polestar's cost. Any settlement proposed by Polestar on its own account must take account of potential implications for Volvo Cars and shall therefore be agreed in writing with Volvo Cars before settlement. Each Party will at no cost furnish to the other Party all data, records, and assistance within that Party's control that are of importance in order to properly defend against a claim.

11.3 Volvo's indemnification

- 11.3.1 Volvo Cars shall indemnify and hold Polestar harmless from and against any and all damages, costs, losses and expenses, direct or indirect, arising out of or in connection with Volvo Cars' use of any Polestar Technology licensed back to Volvo Cars hereunder, including but not limited to any Third Party claims on Intellectual Property Rights infringement.

Both Parties agree to act in good faith to address and respond to any change request within a reasonable period of time.
- 13.2.2 For the avoidance of doubt the Parties acknowledge that Volvo Cars up until Job1+90 will be entitled to suggest changes to the Volvo Technology, as long as the specification in Appendix 1 is met. The Parties undertake to act in good faith and to agree on the consequences of any such changes for Polestar etc. If the Parties cannot agree on such suggested change of Volvo Technology, Volvo Cars shall still be entitled to carry out said change, but the result thereof will not be considered Volvo Technology.
- 13.2.3 The costs relating to changes to the development work requested by Polestar shall, in relation to Volvo Technology, be allocated based on the category of the relevant development (*i.e.* whether the results shall be considered Volvo Technology or PS Unique Volvo Technology) in accordance with what is set forth in Section 3.2.3 (if applicable) and Appendix 3. - 13.2.5 The Parties acknowledge that Volvo Cars will not perform in accordance with a change request submitted by Polestar until agreed in writing between the Parties. Until there is an agreement about the requested change, all work shall thus continue in accordance with the existing specification set forth in each such Car Model Assignment and License Agreement.
- 13.2.6 For the avoidance of doubt, any changes under this Agreement made in relation to the Polestar Technology after the effective date of the relevant Car Model Assignment and License Agreement, shall automatically upon creation also be assigned to Polestar in accordance with what is set forth in Section 4 above. Correspondingly, any changes under this Agreement made to the Volvo Technology after the effective date of the relevant Car Model Assignment and License

14. CONFIDENTIAL INFORMATION

- 14.1 All Confidential Information shall only be used for the purposes set forth in this Agreement. Each Party will keep in confidence any Confidential Information obtained in relation to this Agreement and will not divulge the same to any Third Party, unless the exceptions specifically set forth below in this Section 14.1 below apply, in order to obtain patent protection or when approved by the other Party in writing, and with the exception of their own officers, employees, consultants or sub-contractors with a need to know as to enable such personnel to perform their duties hereunder. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 14.
- 14.3 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as "Confidential," "Proprietary" or the substantial equivalent thereof. Confidential Information that is disclosed orally or visually shall be identified by the Disclosing Party as confidential at the time of disclosure, with subsequent confirmation in writing within thirty (30) days after disclosure. However, the lack of marking or subsequent confirmation that the disclosed information shall be regarded as "Confidential", "Proprietary" or the substantial equivalent thereof does not disqualify the disclosed information from being classified as Confidential Information.
- 14.4 If any Party violates any of its obligations described in this Section 14, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behaviour and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 18.2 below. All legal remedies (compensatory but not punitive in nature) according to law shall apply.

- 14.5 For the avoidance of doubt, this Section 14 does not permit disclosure of source code to software, and/or any substantial parts of design documents to software, included in any Volvo Technology to any Third Party, notwithstanding what it set forth above in this Section 14. Any such disclosure to any Third Party is permitted only if approved in writing by Volvo Cars.
- 14.6 This Section 14 shall survive the expiration or termination of this Agreement without limitation in time.

15. TERM AND TERMINATION

- 15.1 This Agreement shall become effective as set forth in the preamble to this Agreement and shall, unless terminated in accordance with Section 15.2 below, remain in force until six (6) months after all Car Model Assignment and License Agreements entered into between the Parties have expired or been terminated.
- 15.2 Either Party shall be entitled to terminate this Agreement with immediate effect in the event;
- (a) the other Party commits a material breach of the terms of this Agreement, which has not been remedied within sixty (60) days from written notice from the other Party to remedy such breach (if capable of being remedied);
 - (b) the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors; or
 - (c) the other Party commits a material breach of the terms of an executed Car Model Assignment and License Agreement being of such nature that it also has to be considered a material breach of this Agreement, which has not been remedied within sixty (60) days from written notice from the other Party to remedy such breach (if capable of being remedied).
- 15.3 For avoidance of doubt, either Party not paying the Fee, without legitimate reasons for withholding payment, shall be considered a material breach for the purpose of this Agreement.
- 15.4 Each executed Car Model Assignment and License Agreement shall become effective as set forth therein and shall, unless terminated in accordance with Sections 15.5-15.6 below or as set out in each such Car Model Assignment and License Agreement, or partly cancelled in accordance with Sections 15.7-15.8 below, remain in force during the validity of the license period of the license granted to Polestar under such Car Model Assignment and License Agreement or as set out in each such Car Model Assignment and License Agreement.
- 15.5 Either Party shall be entitled to terminate each executed Car Model Assignment and License Agreement with immediate effect in the event;
- (a) the other Party commits a material breach of the terms of such Car Model Assignment and License Agreement, which has not been remedied within sixty (60) days from written notice from the other Party to remedy such breach (if capable of being remedied); or

- (b) if the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors.
- 15.6 Polestar is entitled to terminate each executed Car Model Assignment and License Agreement with immediate effect in case Volvo Cars in relation to such Car Model Assignment and License Agreement acts in breach of what is set forth in Sections 9.1 and/or 9.2 and has not within sixty (60) days from written notice from Polestar to remedy such breach (if capable of being remedied), taken necessary measures and/or remedy such non-compliance, delay, fault or defect and after such issue has been escalated in accordance with the escalation principles set out in Section 18.1.
- 15.7 Polestar shall in addition be entitled to cancel any delivery of Volvo Technology and/or Polestar Technology by Volvo Cars under each executed Car Model Assignment and License Agreement for convenience upon thirty (30) days written notice to Volvo Cars. In such event, Volvo Cars shall, upon request from Polestar, promptly make available in the Data Room (if applicable) any and all parts of the Volvo Technology and/or the Polestar Technology which have been finalised for delivery on the effective date of the cancellation.
- 15.8 In the event Polestar cancels any delivery in accordance with Section 15.7 above, the Fee shall, instead of what is set out in each executed Car Model Assignment and License Agreement, correspond to the part of the Fee that relate to (i) Volvo Technology and Polestar Technology existing at the execution of this Car Model Assignment and License Agreement, (ii) Volvo Cars' costs for the work performed under each such executed Car Model Assignment and License Agreement up, until and including the effective date of the cancellation, including the mark-up otherwise applied to calculate the Fee for the Volvo Technology and the Polestar Technology and (iii) any other proven costs Volvo Cars has incurred.
- 15.9 For avoidance of doubt, termination of this Agreement terminates all Car Model Assignment and License Agreements, whereas termination of one Car Model Assignment and License Agreement does not automatically affect the validity of this Agreement nor any other Car Model Assignment and License Agreements.

16. MISCELLANEOUS

- 16.1.1 Neither Party shall be liable for any failure or delay in performing its obligations under this Agreement to the extent that such failure or delay is caused by a Force Majeure Event. A **"Force Majeure Event"** means any event beyond a Party's reasonable control, which by its nature could not have been foreseen, or, if it could have been foreseen, was unavoidable, including strikes, lock-outs or other industrial disputes (whether involving its own workforce or a Third Party's), failure of energy sources or transport network, restrictions concerning motive force, acts of God, war, terrorism, insurgencies and riots, civil commotion, mobilization or extensive call ups, interference by civil or military authorities, national or international calamity, currency restrictions, requisitions, confiscation, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, sonic boom, explosions, collapse of building structures, fires, floods, storms, stroke of lightning, earthquakes, loss at sea, epidemics or similar events, natural disasters or extreme adverse weather conditions, or default or delays of suppliers or subcontractors.
- 16.1.2 A non-performing Party, which claims there is a Force Majeure Event, and cannot perform its obligations under this Agreement as a consequence thereof, shall use all commercially reasonable efforts to continue to perform or to mitigate the impact of its non-performance notwithstanding the Force Majeure Event and shall continue the performance of its obligations as soon as the Force Majeure Event ceases to exist.

16.2 Notices

16.2.1 All notices, demands, requests and other communications to any Party as set forth in, or in any way relating to the subject matter of, this Agreement must be in legible writing in the English language delivered by personal delivery, email transmission or prepaid overnight courier using an internationally recognized courier service and shall be effective upon receipt, which shall be deemed to have occurred:

Upon the receipt of such a deadlock notice, the receiving Party shall within ten (10) days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.
- 18.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. As part thereof, the Steering Committee may request the Parties to in good faith develop and agree on a plan to resolve or address the breach, to be presented for the Steering Committee without undue delay. If the Steering Committee agrees upon a resolution or disposition of the matter, the Parties shall agree in writing on terms of such resolution or disposition and the Parties shall procure that such resolution or disposition is fully and promptly carried into effect.
- 18.1.3 If the Steering Committee cannot settle the deadlock within thirty (30) days from the deadlock notice served pursuant to Section 18.1.1 above, such deadlock will be referred to the General Counsels of each Party, which shall use reasonable endeavours to resolve the situation in the same way as indicated above. - 18.1.4 If the General Counsels cannot settle the deadlock within thirty (30) days from the deadlock notice pursuant to the section above, despite using reasonable endeavours to do so, such deadlock will be referred to the Strategic Board for decision. Should the matter not have been resolved by the Strategic Board within thirty (30) days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section Section 18.2 below.
- 18.1.5 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 14 above.
- 18.1.6 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 18.1 and apply shorter time frames and/or escalate an issue directly to the Strategic Board in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.

- 18.2.2 Irrespective of any discussions or disputes between the Parties, each Party shall always continue to fulfil its undertakings under this Agreement unless an arbitral tribunal or court (as the case may be) decides otherwise.
- 18.2.3 In any arbitration proceeding, any legal proceeding to enforce any arbitration award, or any other legal proceedings between the Parties relating to this Agreement, each Party expressly waives the defence of sovereign immunity and any other defence based on the fact or allegation that it is an agency or instrumentality of a sovereign state. Such waiver includes a waiver of any defence of sovereign immunity in respect of enforcement of arbitral awards and/or sovereign immunity from execution over any of its assets.
- 18.2.4 All arbitral proceedings as well as any and all information, documentation and materials in any form disclosed in the proceedings shall be strictly confidential.

SIDE LETTER

This side letter ("**Side Letter**") is entered into on 31 October 2018 and made between:

Volvo Car Corporation, Reg. No. 556074-3089, a limited liability company incorporated under the laws of Sweden ("**Volvo Cars**");

Polestar Performance AB, Reg. No. 556653-3096, a limited liability company incorporated under the laws of Sweden ("**Polestar Sweden**"); and

Polestar New Energy Vehicle Co. Ltd., Reg. No. 91510100MAGBX1H33P, a limited liability company incorporated under the laws of the People's Republic of China ("**Polestar China**").

Each of Volvo Cars, Polestar Sweden and Polestar China is hereinafter referred to as a "**Party**" and jointly as the "**Parties**". Polestar Sweden and Polestar China are jointly referred to as the "**Polestar Entities**".

BACKGROUND

- A. Volvo Cars has entered into two separate car model assignment and license agreements, one with Polestar Sweden and one with Polestar China in relation to grant of licenses to certain technology and know-how related to the Polestar branded vehicles Polestar 1 and Polestar 2 (the "**Car Model Assignment and License Agreements**").
- B. Unless otherwise defined in this Side Letter, capitalized terms used herein shall have the meaning ascribed to them in each of the Car Model Assignment and License Agreements.
- C. The Parties now wish to clarify in writing the contractual setup and the relationship between the two Car Model Assignment and License Agreements, as set out below.

1. CONTRACTUAL SET-UP

Even though the Car Model Assignment and License Agreements are two separate agreements with different parties, the Parties acknowledge that their intention is that the Car Model Assignment and License Agreements actually constitute one and the same agreement.

2. FEE

- 2.1 The Parties acknowledge that the Polestar Entities shall pay to Volvo Cars a Fee for the license to Volvo Technology and PS Unique Volvo Technology as referenced to in the Car Model Assignment and License Agreement and as further described in Appendix 3 thereto. The Fee set out in Appendix 3 to each Car Model Assignment and License Agreement amounts to a certain specified percentage of Volvo Cars' actual development costs for the Volvo Technology and the PS Unique Volvo Technology, respectively.

- 2.2 The Parties agree that the percentages and amounts set out in Appendix 3 to each of the Car Model Assignment and License Agreement shall be interpreted in the light of the fact that the two Car Model Assignment and License Agreements shall actually constitute one and the same agreement. The Parties intention is therefore that the total amount payable to Volvo Cars under the two Car Model Assignment and License Agreements shall be split between the Polestar Entities. The foregoing applies to both already incurred developments costs and future development costs.
- 2.3 [***]
- 2.4 [***]

3. NO SUB-LICENSING BETWEEN THE POLESTAR ENTITIES

The Parties acknowledge that the rights granted to the Polestar Entities is to some extent sub-licensable to *inter alia* Polestar Affiliates under the Car Model Assignment and License Agreements. It is, however, not the intention of the Parties that the Polestar Entities shall be allowed to sub-license the rights granted under each of the Car Model Assignment and License Agreements to each other instead of utilising the rights granted to such Polestar Entity under its own Car Model Assignment and License Agreement. In the light of the above, the Polestar Entities shall thus not be allowed to sub-license any of the rights granted under the Car Model Assignment and License Agreements between them, but only to other Polestar Affiliates of them as stipulated in each of the Car Model Assignment and License Agreements.

4. AMENDMENTS

The Parties agree that, if an amendment is made to one of the Car Model Assignment and License Agreements, the Party not being a Party to such amended Car Model Assignment and License Agreement agrees to make the corresponding amendment to the Car Model Assignment and License Agreement it is a Party to, unless otherwise agreed between the Parties.

5. TERMINATION

- 5.1 If one of the Car Model Assignment and License Agreements is terminated, the Parties hereby agree that Volvo Cars shall have a right to terminate the other Car Model Assignment and License Agreement with immediate effect.
- 5.2 A breach of this Side Letter shall be considered a material breach under each of the Car Model Assignment and License Agreements.

6. DISPUTE RESOLUTION

The Parties intention is that the identical arbitration clauses in each of the Car Model Assignment and License Agreements shall function as one and the same arbitration agreement entered into between, on the one hand, Volvo Cars, and, on the other hand, the Polestar Entities. Accordingly, the Parties agree that any disputes, controversies or claims arising out of or in connection with the Car Model Assignment and License Agreements, and/or this Side Letter, or the breach, termination or invalidity thereof, may be consolidated into one arbitration proceeding.

7. **MISCELLANEOUS**

- 7.1 This Side Letter shall become effective as set forth in the preamble of this Side Letter and shall remain in force, in relation to the relevant Parties, for the duration of the relevant Car Model Assignment and License Agreement.
- 7.2 This Side Letter is hereby incorporated to, and shall form an integral part of, in relation to the relevant Parties, the relevant Car Model Assignment and License Agreement. This Side Letter takes precedence over the Car Model Assignment and License Agreements if they are contradictory or ambiguous.

[Signature page follows]

This Side Letter has been signed in three (3) originals, of which the parties have received one (1) each. The Parties acknowledge that this Side Letter shall be binding upon the Parties already upon the signing and exchange of scanned version thereof, including scanned signatures.

- (d) is required to be disclosed by mandatory law, court order, lawful government action or applicable stock exchange regulations.
- 9.3 The Receiving Party shall protect the disclosed Confidential information by using the same degree of care, but no less than a reasonable degree of care, as the Receiving Party uses to protect its own Confidential Information of similar nature, to prevent the dissemination to Third Parties or publication of the Confidential Information. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 9.
- 9.4 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as "Confidential," "Proprietary" or the substantial equivalent thereof. Confidential Information that is disclosed orally or visually shall be identified by the Disclosing Party as confidential at the time of disclosure, with subsequent confirmation in writing within 30 days after disclosure. However, the lack of marking or subsequent confirmation that the disclosed information shall be regarded as "Confidential", "Proprietary" or the substantial equivalent thereof does not disqualify the disclosed information from being classified as Confidential Information.
- 9.5 If any Party violates any of its obligations described in this Section 8, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behavior and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 11.2 below. All legal remedies (compensatory but not punitive in nature) according to law shall apply.
- 9.6 This confidentiality provision shall survive the expiration or termination of this Agreement without limitation in time.

10. GOVERNING LAW

- 10.1 This Agreement and all non-contractual obligations in connection with this Agreement shall be governed by the substantive laws of Sweden without giving regard to its conflict of laws principles.

11. DISPUTE RESOLUTION

- 11.1 Escalation principles.
- 11.1.1 In case the Parties cannot agree on a joint solution for handling disagreements or disputes, a deadlock situation shall be deemed to have occurred and each Party shall notify the other Party hereof by the means of a deadlock notice and simultaneously send a copy of the notice to the Steering Committee. Upon the receipt of such a deadlock notice, the receiving Party shall within ten days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.
- 11.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. As part thereof, the Steering Committee may request the Parties to in good faith develop and agree on a plan to resolve or address the breach, to be presented for the Steering Committee without undue delay. If the Steering Committee agrees upon a resolution or disposition of the matter, the Parties shall agree in writing on terms of such resolution or disposition and the Parties shall procure that such resolution or disposition is fully and promptly carried into effect.

- 11.1.3 If the Steering Committee cannot settle the deadlock within 30 days from the deadlock notice pursuant to the section above, despite using reasonable endeavours to do so, such deadlock will be referred to the Strategic Board for decision. If no Steering Committee has been established between the Parties, the relevant issue shall be referred to the Strategic Board. Should the matter not have been resolved by the Strategic Board within 30 days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section 11.2 below.
- 11.1.4 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 9 above.
- 11.1.5 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 11.1 and apply shorter time frames and/or escalate an issue directly to the Strategic Board in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.
- 11.2 Arbitration.
 - 11.2.1 Any dispute, controversy or claim arising out of or in connection with this Agreement, or the breach, termination or invalidity thereof, shall be finally settled by arbitration in accordance with the Arbitration Rules of the Arbitration Institute of the Stockholm Chamber of Commerce, whereas the seat of arbitration shall be Gothenburg, Sweden, the language to be used in the arbitral proceedings shall be English, and the arbitral tribunal shall be composed of three arbitrators.

- 11.2.2 Irrespective of any discussions or disputes between the Parties, each Party shall always continue to fulfil its undertakings under this Agreement unless an arbitral tribunal or court (as the case may be) decides otherwise.
- 11.2.3 In any arbitration proceeding, any legal proceeding to enforce any arbitration award, or any other legal proceedings between the Parties relating to this Agreement, each Party expressly waives the defence of sovereign immunity and any other defence based on the fact or allegation that it is an agency or instrumentality of a sovereign state. Such waiver includes a waiver of any defence of sovereign immunity in respect of enforcement of arbitral awards and/or sovereign immunity from execution over any of its assets.
- 11.2.4 All arbitral proceedings as well as any and all information, documentation and materials in any form disclosed in the proceedings shall be strictly confidential.

The Parties further acknowledge that only such Volvo Technology and Polestar Technology, which is referred to in an executed and approved Change Request, shall be covered by this CM Agreement.

1. AGREEMENT

1.1 General

This CM Agreement consists of this main document (the “**Individual Terms**”) and its appendices. The Parties acknowledge that this CM Agreement is an agreement pursuant to which the Parties shall have the right to call-off Change Management work by executing a Change Request for approval by the Parties using the Change Request Form set out in Appendix 1. Whereas Appendix 1 sets out the Change Request Form, these Individual Terms set out the specific terms in respect of the licensing of the CM Results and. Appendix 2 sets out certain general terms and conditions applicable to the performance of the Parties’ activities hereunder (the “**General Terms**”).

1.2 Scope

- 1.2.1 If either Party would want to call off Change Management, such Party shall file a Change Request for Change Management, using the template Change Request Form in Appendix 1 with the other Party and the Parties shall jointly evaluate if the requested activities may be performed as Change Management, or if a standalone development project that must be agreed separately is necessary.
- 1.2.2 If the requested services are able to be performed as Change Management, and provided that Volvo Cars has the capacity to fulfil the request and deliver the Change Management, Volvo Cars shall in writing state the estimated applicable costs and, if agreed by Polestar, the Parties shall sign and approve the relevant Change Request, which shall be added as a sub-appendix to Appendix 1 and be included within the scope of this CM Agreement,
- 1.2.3 Notwithstanding the foregoing, either Party shall have the right to, at its sole discretion, decide whether or not to accept and take part of Change Management in relation to Volvo Technology and Polestar Technology governed by a certain Change Request. If either Party decides not to approve of a certain Change Request, and the other Party nevertheless decides to fulfill such change management, such Party is not entitled to take part of the thereto related CM Results and the Parties shall in good faith agree on the time before such changes in the Volvo Technology shall be implemented, taking into account the reasons for such change, the estimated time for the other Party to find alternative solutions, acquiring duplicated tools etc. For the avoidance of doubt, the Parties acknowledge that a Party that decides not to take part of certain Change Management shall not be responsible for any costs for such change, maintenance and/or development, but that such Party may nevertheless incur other costs for not following such changes, e.g. costs for an alternative solution, duplicating tools etc.

1.3 Fee

- 1.3.1 The Fee payable by Polestar for Change Management and the right to use the CM Result related to Volvo Technology, excluding PS Unique Volvo Technology, shall be determined between the Parties on an annual basis, based on the activities performed in the Change Management when Volvo Cars develops the CM Results, as set out in Appendix 1, and volume take rate, and be presented in the same format as used in Appendix 4.

3. THE CM RESULTS

3.1 General

The CM Results, and any Volvo IP thereto, to be licensed from Volvo Cars to Polestar under this CM Agreement are further described in the relevant approved Change Request and shall be developed in accordance with the principles set out therein.

3.2 Development of the CM Results

- 3.2.1 When finalising the CM Results, Volvo Cars shall use professional, appropriate, qualified and skilled personnel, and shall ensure that its personnel have been properly educated and trained for the Work to be performed, including being fully acquainted with Polestar's specific requirements. Volvo Cars shall avoid unnecessary changes in the personnel engaged in performing its undertakings under this CM Agreement. Volvo Cars shall work according to the same standard of care and professionalism that is done in Volvo Cars' internal development projects. Such standard of care and professionalism, as well as Volvo Cars' performance of its undertakings under this CM Agreement, shall however at all times correspond to Industry Standard.
- 3.2.2 Volvo Cars shall ensure that it has sufficient resources to perform its undertakings under this CM Agreement. Furthermore, Volvo Cars undertakes to ensure that any development of the CM Results will not be given lower priority than other Volvo Cars development projects.
- 3.2.3 Volvo Cars agrees that when the CM Results, including any Volvo IP thereto, have been finalised, they shall correspond to the requirements set out in this CM Agreement and shall comply with applicable laws and regulations.
- 3.2.4 Volvo Cars shall continuously keep Polestar informed of the generated and expected development costs in relation to the CM Results.

4. LICENSE GRANT

4.1 License Grant

- 4.1.1 Volvo Cars hereby grants to Polestar a non-exclusive, irrevocable, perpetual (however at least fifty (50) years long (however, in no event shall such time exceed the validity period of any Volvo IP included in the license described hereunder)), fully paid-up (through Polestar's due payment of the Fee), non-assignable (however assignable to Polestar's Affiliates and related companies) license to, within the Territory and in relation to Polestar Branded Vehicles;
- (a) Use, in whole or in part, the CM Results, and any Volvo Cars' Background IP necessary to make Use of such CM Results; and
- (b) design, engineer, Use, make and have made, repair, service, market, sell and make available products and/or services based on, incorporating or using the CM Results and the Background IP referred to in (a) above (in whole or in part).

- 4.1.2 Nothing in this CM Agreement shall be construed as to give Polestar any rights, including but not limited to any license rights (express or implied), to any Volvo IP, except as expressly stated herein.
- 4.1.3 The license granted to Polestar under Section 4.1 above shall be fully sub-licensable to Polestar's Affiliates, but shall not be sub-licensable to any Third Party without prior written approval from Volvo Cars, which shall not be unreasonably withheld (whereby a sublicense/license to a Third Party which is a competitor of Volvo Cars is an example of what could be deemed unreasonable) or delayed. For the avoidance of doubt, Volvo Cars shall be free to Use and to grant licenses to the CM Results and any Volvo Cars' Background IP to Volvo Cars' Affiliates and any Third Parties without prior written consent from Polestar.
- 4.1.4 If the Parties agree to a Change Management that only affects Polestar, and Polestar pays 100% of the actual development costs, the CM Results from such Change Management shall be considered unique to Polestar, and the license to such CM Results granted to Polestar under Section 4.1 above shall be exclusive instead, and due to the exclusive nature of such license, Volvo Cars shall have no right to make any Use whatsoever of such CM Results unique to Polestar. With the exception of what is set out in this Section 4.1.4, Sections 4.1 -Error! Reference source not found, shall apply to such CM Results unique to Polestar.
- 4.1.5 Notwithstanding Section 4.1.4, if Volvo Cars wishes to make Use of the CM Results mentioned in Section 4.1.4, and Volvo Cars pays or repays 50% of the actual development costs, the license to such CM Results granted to Polestar shall instead be non-exclusive, and Section 4.1.4 shall not apply. For avoidance of doubt, Volvo Cars' right under this Section 4.1.5 may be exercised at any time also after the term of this CM Agreement.

4.2 PS Unique Volvo Technology

- 4.2.1 Notwithstanding what is set forth in Section 4.1, what is set forth in this Section 4.2 shall apply in relation to PS Unique Volvo Technology.
- 4.2.2 Any license granted in Section 4.1.2 shall, in relation to PS Unique Volvo Technology, and unless otherwise agreed in each executed Car Model Assignment and License Agreement, be exclusive instead of non-exclusive. As a consequence thereof Volvo Cars shall have no right to make any Use whatsoever of, or to grant any further licenses to, any such PS Unique Volvo Technology. With the exception of what is set out in this Section 4.2, Section 4.1 shall apply to PS Unique Volvo Technology.

- 4.2.3 In the event Volvo Cars (i) in its sole discretion, determines that the PS Unique Volvo Technology, or parts thereof, shall no longer be PS Unique Volvo Technology but instead be such ordinary Volvo Technology covered only by Section 4.1 above and (ii) reduces the Fee as regards such PS Unique Volvo Technology with fifty per cent (50 %) or repays fifty per cent (50 %) of the Fee, relating to such part of the PS Unique Volvo Technology, the following shall apply. Such PS Unique Volvo Technology shall immediately, upon Volvo Cars' reduction or repayment of the Fee, no longer be considered PS Unique Volvo Technology but instead be considered ordinary Volvo Technology and what is set out in Section 4.1 above shall thus apply instead. For the avoidance of doubt, this *inter alia*, implies that such previous exclusive license granted by Volvo Cars to Polestar shall instead become non-exclusive. For avoidance of doubt, Volvo Cars' right under this Section 4.2.3 maybe exercised at any time also after the term of this Agreement.

5. ASSIGNMENT

5.1 Assignment

- 5.1.1 Volvo Cars undertakes to, in accordance with the Car Model Assignment and License Agreement and to the limitations in Section 5.2, assign the CM Result related to Polestar Technology to Polestar.
- 5.1.2 Such assignment shall, unless otherwise agreed between the Parties mean that Volvo Cars assigns to Polestar all of its right, title and interest in and to the CM Results related to Polestar Technology together with the goodwill associated thereto and any and all rights of enforcement with respect to such Polestar Technology, including all rights to sue and recover for past infringement thereof, and any and all causes of action related thereto.

6. INTELLECTUAL PROPERTY RIGHTS

6.1 Ownership

- 6.1.1 Each Party remains the sole and exclusive owner of (i) any Intellectual Property Rights owned prior to the execution of this CM Agreement, (ii) any Intellectual Property Rights developed independently of this CM Agreement, and (iii) any Intellectual Property Rights which are modifications, amendments or derivatives of any Intellectual Property Rights already owned by such Party.
- 6.1.2 Nothing in this CM Agreement shall be deemed to constitute an assignment of, or license to use, any Trademarks of the other Party.
- 6.1.3 Volvo Cars remains the owner and holder of all Volvo IP, including any CM Results and Volvo Cars' Background IP, as well as any and all modifications, amendments and improvements thereof. Nothing in this CM Agreement shall be deemed an assignment of ownership of any Volvo IP, including any CM Results and Volvo Cars' Background IP, from Volvo Cars to Polestar: Polestar brand name

6.2 Polestar brand name

- 6.2.1 For sake of clarity, it is especially noted that this CM Agreement does not include any right to use the "Polestar" brand name or Trademarks, or refer to "Polestar" in communications or official documents of whatever kind.
- 6.2.2 This means that this CM Agreement does not include any rights to directly or indirectly use the "Polestar" brand name or "Polestar" Trademarks, on or for any products or when marketing, promoting and/or selling such products, or in any other contacts with Third Parties, *e.g.* in presentations, business cards and correspondence

6.3 Volvo brand name

- 6.3.1 Correspondingly, it is especially noted that this CM Agreement does not include any right to use the “Volvo” brand name, or Trademarks, or refer to “Volvo” in communications or official documents of whatever kind. The Parties acknowledge that the “Volvo” Trademarks as well as the “Volvo” name is owned by Volvo Trademark Holding AB and that the right to use the name and the “Volvo” Trademarks is subject to a license agreement, which stipulates that the name, Trademarks and all thereto related Intellectual Property Rights can only be used by Volvo Car Corporation and its Affiliates in relation to Volvo products.
- 6.3.2 This means that this CM Agreement does not include any rights to directly or indirectly use the “Volvo” brand name or “Volvo” Trademarks, on or for any products or when marketing, promoting and/or selling such products, or in any other contacts with Third Parties, e.g. in presentations, business cards and correspondence.

6.4 Suspected infringement

- 6.4.1 Polestar shall promptly (upon becoming aware) notify Volvo Cars in writing of:
- (a) any conduct of a Third Party that Polestar reasonably believes to be, or reasonably believes to be likely to be, an infringement, misappropriation or other violation of any Intellectual Property Rights licensed to Polestar hereunder; or
 - (b) any allegations made to Polestar by a Third Party that any Intellectual Property Rights licensed hereunder are invalid, subject to cancellation, unenforceable, or is a misappropriation of any Intellectual Property Rights of a Third Party.
- 6.4.2 In the event that Polestar has provided Volvo Cars a notification pursuant to Section 6.4.1(a) above, and Volvo Cars decides not to take any action against the Third Party, Volvo Cars may approve in writing that Polestar shall be entitled to itself take action against the Third Party at its own cost. If Volvo Cars approves, it shall provide reasonable assistance to Polestar, as requested by Polestar at Polestar’s own expense. If Volvo Cars does not approve to Polestar taking such action, the issue should be escalated to the Strategic Board for decision.
- 6.4.3 For the avoidance of doubt, Volvo Cars has no responsibility in the event the CM Results are alleged to infringe in any Third Party’s Intellectual Property Rights and Volvo Cars has, except for what is set out above in this Section 6.4, no obligation to defend and hold Polestar harmless from and against any alleged infringements.

7. FEE

9. AUDIT

- 9.1 During the term of the CM Agreement, Polestar shall have the right to, upon reasonable notice in writing to Volvo Cars, inspect Volvo Cars' books and records related to the CM Results and the premises where the Work is carried out, in order to conduct quality controls and otherwise verify the statements rendered in this CM Agreement.
- 9.2 Audits shall be made during regular business hours and be conducted by Polestar or by an independent auditor appointed by Polestar. Should Polestar during any inspection find that Volvo Cars or the CM Results does/do not fulfil the requirements set forth herein, Polestar is entitled to comment on the identified deviations. Volvo Cars shall, upon notice from Polestar, take reasonable efforts to take the actions required in order to fulfil the requirements. In the event the Parties cannot agree upon measures to be taken in respect of the audit, each Party shall be entitled to escalate such issue to the Steering Committee.

10. DELIVERY AND ACCEPTANCE

- 10.2 The CM Results (or finalised part thereof) in question shall be provided by Volvo Cars to Polestar by electronically loading files with the relevant information into a Data Room agreed upon (if applicable) and Otherwise provided as agreed between the Parties *e.g.* through knowledge transfer meetings.

11. DELAYS, DEFECTS ETC.**11.1 Delays**

- 11.1.1 Volvo Cars shall be deemed to be in delay where any of the Gates are met after the agreed delivery date for such Gate, unless the Parties have agreed for an extension of the time for meeting such Gate upon which the new agreed delivery date shall be relevant for determining whether Volvo Cars is in delay.
- 11.1.2 If Volvo Cars is in delay, or at any time believes that a Gate will not, or is unlikely to, be met in time, Volvo Cars shall inform Polestar of the reasons for and consequences of not meeting the Gate and shall take all steps reasonably necessary, including providing additional resources, to ensure that the requirements for the relevant Gate is met as soon as possible. For avoidance of doubt, Volvo Cars shall be entitled to compensation in accordance with this CM Agreement for work performed to meet a Gate in relation to a risk of, or an actual, delay unless otherwise stated in this Section 11.1 or Section 11.2.2.

11.1.3 If Volvo Cars is in delay and such delay has a negative impact on the project relating to the Polestar Vehicle, the Parties shall upon Polestar's request agree on a reduction of the Fee relating to the additional work that (i) has to be carried out in order to meet the requirements for the Gate in question and (ii) is performed after the agreed delivery date for such Gate.

11.1.4 Without prejudice to any other remedies available, the Parties acknowledge that Volvo Cars' delay may be subject to Section 17.2.

11.2 Defects in delivery or the performance of development work

11.2.1 Once delivery has been made of the CM Results and six (6) months thereafter the following shall apply. In the event the CM Results, or any part thereof, after having met a Gate, deviate from the requirements set forth in the relevant approved Change Request, or otherwise are faulty or defective, Volvo Cars shall remedy such non-compliance, fault or defect as soon as reasonably possible at its own cost.

11.2.2 Polestar shall not be responsible for costs that relate to poorly executed work or work having been performed by personnel not qualified for such work, in breach of Section 3.2.1, as long as such costs would not have occurred had the work been properly executed or performed by qualified personnel.

11.3 Effects of Polestar's actions
