- 3.2.2 Licensor agrees that when the Project Results, including any Licensor IP thereto, have been finalised, they shall correspond to the requirements set out in this License Agreement and shall comply with applicable laws and regulations.

- 3.2.3 In the event the Project Results, including any Licensor IP thereto, or any part thereof, more than insignificantly deviate from the requirements set forth in the Project Specification, or otherwise are faulty or defective (except for minor faults and defects, which do affect the intended use of the Project Results), Licensor shall remedy such non-compliance, fault or defect as soon as reasonably possible.
- 3.2.4 Licensor acknowledges that time is of essence and Licensor agrees to strictly respect and adhere to the deadlines set out in Appendix 1. In the event Licensor risks not to meet an agreed deadline or is otherwise in delay, Licensor shall appoint additional resources in order to avoid the effects of the anticipated delay or the delay (as the case may be).
- 3.2.5 In the event Licensor fails to act in accordance with Section 3.2.3 and 3.2.4 above, such failure shall be escalated in accordance with the escalation principles set forth in Section 16.1 and eventually give Licensee the right to terminate the License Agreement in accordance with Section 13.3.
- 3.3 Making available the Project Results.
 - 3.3.1 Licensor shall make the Project Results (or if not finalised, any part of the Project Results that has been finalised) available to Licensee within the timeframes specified in Appendix 1, but under all circumstances promptly after any part of the Project Results has been finalised.
 - 3.3.2 The Project Results (or any finalised part thereof) shall be made available by Licensor to Licensee if such files have been electronically loaded into and made accessible by Licensor in the Data Room agreed upon (if applicable).
 - 3.4 Change Management. Licensor has an obligation to, upon Licensee's request, perform Change Management in relation to the developed Project Results, such as changes required in order to maintain functionality, adjust the Project Results due to new technical solutions etc. For the avoidance of doubt, the performance of Change Management is however not governed by this License Agreement, but shall be subject to a separate agreement between the Parties, which the Parties upon either Party's request shall execute.

4. LICENSE

4.1 License grant.

- 4.1.1 Licensor hereby grants to Licensee a non-exclusive, irrevocable, perpetual (however at least 50 years long (however, in no event shall such time exceed the validity period of any Licensor IP included in the license described hereunder)), fully paid-up (through Licensee's due payment of the License Fee), non-assignable (however assignable to Licensee's Affiliates) license to, within in the Territory;
 - (a) Use, in whole or in part, the Project Results and any Licensor IP therein and thereto; and

- (b) design, engineer. Use, make and have made, repair, service, market, sell and make available products and/or services based on, incorporating or using the Project Results and Licensor IP referred to in (a) above, in whole or in part.
- 4.1.2 Notwithstanding anything to the contrary in the License Agreement, nothing in these General Terms or otherwise in the License Agreement shall be construed as to give Licensee any rights, including but not limited to any license rights (express or implied), to any Licensor IP, except as expressly stated herein.
- 4.1.3 The license granted to Licensee under Section 4.1.1 above shall be fully sublicensable to Licensee's Affiliates. For the avoidance of doubt, Licensor shall be entitled to license the Project Results, including any Licensor IP therein, to Licensor's Affiliates without prior written consent from Licensee.
- 4.1.4 In the event either Licensee or Licensor would want to sublicense/license the rights granted to Licensee under Section 4.1.1 above in whole, or a substantial part of said rights, to a Third Party which is not under the control of Zhejiang Geely Holding Group Co., Ltd. or any of its affiliates, such sublicense/license requires the prior written approval of the other Party, which shall not be unreasonably withheld or delayed (whereby a sublicense/license to a Third Party which is a competitor of either Party is an example of what could be deemed unreasonable). Any approval in accordance with the foregoing shall be handled at a high governance level by the Strategic Board. For the avoidance of doubt, the other Party has no obligation to provide any support regarding sublicensing/licensing of any rights connected to this License Agreement to a Party providing a sublicense/license to a Third Party, unless otherwise agreed by the Parties.
- 4.1.5 Correspondingly, in the event either Licensee or Licensor would want to sublicense/license the rights granted to Licensee under Section 4.1.1 above in whole, or a substantial part of said rights, to a party which is under the control of Zhejiang Geely Holding Group Co., Ltd. or any of its affiliates, such sublicense/license requires the prior written approval of the other Party, which shall not be unreasonably withheld or delayed (whereby a sublicense/license to a Third Party which is a competitor of either Party is an example of what could be deemed unreasonable). Any approval in accordance with the foregoing shall be handled by the Steering Committee.
- 4.1.6 In the event any of the Parties sublicense/license their rights under this License Agreement to a Third Party, according to Sections 4.1.4 or 4.1.5 above, the Parties agree that the revenue acquired by such Third Party shall contribute both Parties equally. This will, however, be governed by a separate contract related to GOLD operations and maintenance (agreement number PS20-034).

5. INTELLECTUAL PROPERTY RIGHTS

5.1 Ownership.

- 5.1.1 Each Party remains the sole and exclusive owner of (i) any Intellectual Property Rights owned prior to the execution of this License Agreement, (ii) any Intellectual Property Rights developed or otherwise acquired independently of this License Agreement, and (iii) any Intellectual Property Rights which are modifications, amendments or derivatives of any Intellectual Property Rights already owned by such Party.

5.1.2 Nothing in this License Agreement shall be deemed to constitute an assignment of, or license to use, any Trademarks of the other Party, except for what is stated in section 5.4 below.

5.1.3 Licensor shall be the sole and exclusive owner of the Project Results, including any Licensor IP thereto, which includes any modifications, amendments and improvements made of the Project Results. Nothing in these General Terms or in the License Agreement shall be deemed an assignment of ownership of the Project Results, including any Licensor IP thereto, from Licensor to Licensee.

5.2 Suspected infringement.

5.2.1 Licensee shall promptly (upon becoming aware) notify Licensor in writing of:

- (a) any conduct of a Third Party that Licensee reasonably believes to be, or reasonably believes to be likely to be, an infringement, misappropriation or other violation of any Intellectual Property Rights licensed to Licensee hereunder by a Third Party; or
- (b) any allegations made to Licensee by a Third Party that any Intellectual Property Rights licensed hereunder are invalid, subject to cancellation, unenforceable, or is a misappropriation of any Intellectual Property Rights of a Third Party.

5.2.2 In the event that Licensee has provided Licensor a notification pursuant to Section 5.2.1(a) above, and Licensor decides not to take any action against the Third Party, Licensor may approve in writing that Licensee shall be entitled to itself take action against the Third Party at its own cost. If Licensor approves, it shall provide reasonable assistance to Licensee, as requested by Licensee at Licensee's expense. If Licensor does not approve to Licensee taking such action, the issue should be escalated to the Strategic Board for decision.

5.2.3 For the avoidance of doubt, Licensor has no responsibility in the event the Project Results are alleged to infringe in any Third Party's Intellectual Property Rights and Licensor has, except for what is set out above in this Section 5.2 no obligation to defend and hold Licensee harmless from and against any alleged infringements.

5.3 Volvo brand name.

5.3.1 For the sake of clarity, it is especially noted that this License Agreement does not include any right to use the "Volvo" brand name, or Trademarks, or refer to "Volvo" in communications or official documents of whatever kind. The Parties acknowledge that the "Volvo" Trademarks as well as the "Volvo" name is owned by Volvo Trademark Holding AB and that the right to use the name and the "Volvo" Trademarks is subject to a license agreement, which stipulates that the name, Trademarks and all thereto related Intellectual Property can only be used by Volvo Car Corporation and its Affiliates in relation to Volvo products.

5.3.2 This means that this License Agreement does not include any rights to directly or indirectly use the “Volvo” brand name or “Volvo” Trademarks, on or for any products or when marketing, promoting and/or selling such products, or in any other contacts with Third Parties, e.g. in presentations, business cards and correspondence

5.4 Polestar brand name.

5.4.1 This License Agreement includes the right to use the Polestar brand name or Trademarks, or refer to Polestar for the limited purpose of what is needed to develop the GOLD platform. When using the Polestar Trademark or Polestar brand name the Licensor shall, with respect to the GOLD platform limitations, comply with any instructions or guidelines provided by Licensee.

5.4.2 For the avoidance of doubt, this License Agreement does not include any other rights to directly or indirectly use the Polestar brand name or Polestar Trademarks, on or for any products outside the scope of this License Agreement, or when marketing, promoting and/or selling such products, or in any other contacts with Third Parties, e.g. in presentations, business cards and correspondence, unless with the prior written consent of Polestar.

6. LICENSE FEE

6.1 In consideration of Licensor’s performance of its obligations under the License Agreement and the license granted from Licensor to Licensee hereunder, Licensee agrees to pay to Licensor the License Fee as set out in the Main Document.

7. PAYMENT TERMS

7.1 The License Fee shall be paid in the currency set out in the Main Document, in a timely manner and in accordance with the payment terms set forth in this Section 7.

7.2 Licensor is responsible for charging and declaring sales tax/VAT or other taxes as follow from applicable law. Any applicable sales tax/VAT on the agreed price will be included in the invoices and paid by the Licensee. All amounts referred to in this License Agreement are exclusive of VAT.

7.3 If Licensor is obligated to collect or pay taxes, such taxes shall be invoiced to Licensee, unless Licensee provides a valid tax exemption certificate authorized by the appropriate Tax Authority. If Licensee is required by law to withhold any taxes from its payments Licensee must provide an official tax receipt or other appropriate documentation to support this withholding.

7.4 Any amount of the License Fee invoiced by Licensor to Licensee shall be paid by Licensee within 30 days after the invoice date.

7.5 Payment made later than the due date will automatically be subject to interest for late payments for each day it is not paid and the interest shall be based on the one month applicable interbank rate, depending on invoice and currency, with an addition of two per cent (2.0%) per annum.

7.6 Any paid portion of the License Fee is non-refundable, with the exception set forth in the Main Document.

8. AUDIT

8.1 During the Term of the License Agreement, Licensee shall have the right to, upon reasonable notice in writing to Licensor, inspect Licensor's books and records related to the Project Results and the premises where the Work is carried out, in order to conduct quality controls and otherwise verify the statements rendered under this License Agreement.

8.2 Audits shall be made during regular business hours and be conducted by Licensee or by an independent auditor appointed by Licensee. Should Licensee during any inspection find that Licensor or the Project Results does/do not fulfil the requirements set forth herein, Licensee is entitled to comment on the identified deviations. Licensor shall, upon notice from Licensee, take reasonable efforts to take the actions required in order to fulfil the requirements. In the event the Parties cannot agree upon measures to be taken in respect of the audit, each Party shall be entitled to escalate such issue to the Steering Committee.

9. WARRANTIES

9.1 Each Party warrants and represents to the other Party that:

- (a) it is duly organized, validly existing, and in good standing under the laws of its respective jurisdiction of incorporation or formation, as applicable;
- (b) it has full corporate power and authority to execute and deliver this License Agreement and to perform its obligations hereunder;
- (c) the execution, delivery and performance of this License Agreement have been duly authorized and approved, with such authorization and approval in full force and effect, and do not and will not (i) violate any laws or regulations applicable to it or (ii) violate its organization documents or any agreement to which it is a party; and
- (d) this License Agreement is a legal and binding obligation of it, enforceable against it in accordance with its terms.

9.2 The Parties acknowledge that the Project Results, including any Licensor IP thereto, are licensed to Licensee on an "as is" basis, without any warranties or representations of any kind (except for the warranties in Section 9.1 above), whether implied or express, and in particular any warranties of suitability, merchantability, description, design and fitness for a particular purpose, non-infringement, completeness, systems integration and accuracy are expressly excluded to the maximum extent permissible by law.

10. LIMITATION OF LIABILITY

10.1 Neither Party shall be responsible for any indirect, incidental or consequential damage or any losses of production or profit caused by it under this License Agreement.

10.2 Each Party's aggregate liability for any direct damage arising out of or in connection with this License Agreement shall be limited to 30 % of the total License Fee payable by Licensee to Licensor hereunder.

10.3 The limitations of liability set forth in this Section 10 shall not apply in respect of damage;

- (a) claims related to death or bodily injury;
- (b) caused by wilful misconduct or gross negligence;
- (c) caused by a Party's breach of the confidentiality undertakings in Section 12 below; or
- (d) arising out of an infringement, or alleged infringement, of the other Party's or any third party's Intellectual Property.

11. GOVERNANCE AND CHANGES

11.1 Governance.

11.1.1 The Parties shall act in good faith in all matters and shall at all times co-operate in respect of changes to this License Agreement as well as issues and/or disputes arising under this License Agreement.

11.1.2 The governance and co-operation between the Parties in respect of this License Agreement shall primarily be administered on an operational level. In the event the Parties on an operational level cannot agree upon *inter alia* the prioritisation of development activities or other aspects relating to the co-operation between the Parties, each Party shall be entitled to escalate such issue to the relevant governance forum, *i.e.* the Steering Committee and the Strategic Board respectively.

11.1.3 If the Steering Committee fails to agree upon a solution of the disagreement the relevant issue should be escalated to the Strategic Board for decision.

11.2 **Changes.**

11.2.1 During the term of the Project Specification, either Party can request changes to the Project Specification, which shall be handled in accordance with the governance procedure set forth in Section 11.1 above. Both Parties agree to act in good faith to address and respond to any requested change requests within a reasonable period of time.

11.2.2 The Parties acknowledge that Licensor will not perform in accordance with such change request until agreed in writing between the Parties. For the avoidance of any doubt, until there is agreement about the requested change, all work shall continue in accordance with the existing Project Specification.

12 CONFIDENTIAL INFORMATION

12.1 The Parties shall take any and all necessary measures to comply with the security and confidentiality procedures of the other Party.

- 12.2 All Confidential information shall only be used for the purposes comprised by the fulfilment of this License Agreement. Each Party will keep in confidence any Confidential Information obtained in relation to this License Agreement and will not divulge the same to any Third Party, unless the exceptions specifically set forth below in this Section 12.2 below apply, in order to obtain patent protection or when approved by the other Party in writing, and with the exception of their own officers, employees, consultants or sub-contractors with a need to know as to enable such personnel to perform their duties hereunder. This provision will not apply to Confidential Information which the Receiving Party can demonstrate;
- (a) was in the public domain other than by breach of this undertaking, or by another confidentiality undertaking;
 - (b) was already in the possession of the Receiving Party before its receipt from the Disclosing Party;
 - (c) is obtained from a Third Party who is free to divulge the same;
 - (d) is required to be disclosed by mandatory law, court order, lawful government action or applicable stock exchange regulations;
 - (e) is reasonably necessary for either Party to utilize its rights and use of its Intellectual Property Rights; or
 - (f) is developed or created by one Party independently of the other, without any part thereof having been developed or created with assistance or information received from the other Party.
- 12.3 The Receiving Party shall protect the disclosed Confidential Information by using the same degree of care, but no less than a reasonable degree of care, as the Receiving Party uses to protect its own Confidential Information of similar nature, to prevent the dissemination to Third Parties or publication of the Confidential Information. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 12.
- 12.4 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as "Confidential," "Proprietary" or the substantial equivalent thereof. Confidential Information that is disclosed orally or visually shall be identified by the Disclosing Party as confidential at the time of disclosure, with subsequent confirmation in writing within 30 days after disclosure. However, the lack of marking or subsequent confirmation that the disclosed information shall be regarded as "Confidential", "Proprietary" or the substantial equivalent thereof does not disqualify the disclosed information from being classified as Confidential Information.
- 12.5 If any Party violates any of its obligations described in this Section 12, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behaviour and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 16.2 below. All legal remedies (compensatory but not punitive in nature) according to law shall apply.

- 12.6 For the avoidance of doubt, this Section 12 does not permit disclosure of source code to software, and/or any substantial parts of design documents to software, included in the Project Results, to any Third Party, notwithstanding what is set forth above in this Section 12. Any such disclosure to any Third Party is permitted only if approved in writing by Licensor.
- 12.7 This confidentiality provision shall survive the expiration or termination of this License Agreement without limitation in time.

13. TERM AND TERMINATION

- 13.1 This License Agreement shall become effective when the Main Document is signed by duly authorised signatories of each Party and shall, unless terminated in accordance with this Section 13 below, remain in force during the validity of the license period of the license granted to Licensee hereunder.
- 13.2 Either Party shall be entitled to terminate this License Agreement with immediate effect in the event:
- (a) the other Party commits a material breach of the terms of this License Agreement, which has not been remedied within 30 days from written notice from the other Party to remedy such breach (if capable of being remedied); or
 - (b) if the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors.
- 13.3 Furthermore, Licensee is entitled to terminate this License Agreement with immediate effect in case Licensor acts in breach, which is not insignificant, of what is set forth in Section 3.2.3 and 3.2.4 provided that the issue first has been escalated in accordance with Section 16.1.
- 13.4 For the avoidance of doubt, neither Party shall be entitled to unilaterally terminate this License Agreement for convenience.

14. MISCELLANEOUS

14.1 Force majeure.

- 14.1.1 Neither Party shall be liable for any failure or delay in performing its obligations under the License Agreement to the extent that such failure or delay is caused by a Force Majeure Event. A “**Force Majeure Event**” means any event beyond a Party’s reasonable control, which by its nature could not have been foreseen, or, if it could have been foreseen, was unavoidable, including strikes, lock-outs or other industrial disputes (whether involving its own workforce or a Third Party’s), failure of energy sources or transport network, restrictions concerning motive force, acts of God, war, terrorism, insurgencies and riots, civil commotion, mobilization or extensive call ups, interference by civil or military authorities, national or international calamity, currency restrictions,

requisitions, confiscation, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, sonic boom, explosions, collapse of building structures, fires, floods, storms, stroke of lightning, earthquakes, loss at sea, epidemics or similar events, natural disasters or extreme adverse weather conditions, or default or delays of suppliers or subcontractors if such default or delay has been caused by a Force Majeure Event.

14.1.2A non-performing Party, which claims there is a Force Majeure Event, and cannot perform its obligations under the License Agreement as a consequence thereof, shall use all commercially reasonable efforts to continue to perform or to mitigate the impact of its nonperformance notwithstanding the Force Majeure Event and shall continue the performance of its obligations as soon as the Force Majeure Event ceases to exist.

14.2 **Notices.** All notices, demands, requests and other communications to any Party as set forth in, or in any way relating to the subject matter of, this License Agreement must be in legible writing in the English language delivered by personal delivery, email transmission or prepaid overnight courier using an internationally recognized courier service and shall be effective upon receipt, which shall be deemed to have occurred:

- (a) in case of personal delivery, at the time and on the date of personal delivery;
- (b) if sent by email transmission, at the time and date indicated on a response confirming such successful email transmission;
- (c) if delivered by courier, at the time and on the date of delivery as confirmed in the records of such courier service; or
- (d) at such time and date as delivery by personal delivery or courier is refused by the addressee upon presentation;

in each case provided that if such receipt occurred on a non-business day, then notice shall be deemed to have been received on the next following business day; and provided further that where any notice, demand, request or other communication is provided by any party by email, such party shall also provide a copy of such notice, demand, request or other communication by using one of the other methods. All such notices, demands, requests and other communications shall be addressed to the address, and with the attention, as set forth in the Main Document, or to such other address, number or email address as a Party may designate.

14.3 Assignment.

14.3.1 Neither Party may, wholly or partly, assign, pledge or otherwise dispose of its rights and/or obligations under this License Agreement without the other Party's prior written consent.

14.3.2 Notwithstanding the above, each Party may assign this License Agreement to an Affiliate without the prior written consent of the other Party.

14.4 **Waiver.** Neither Party shall be deprived of any right under this License Agreement because of its failure to exercise any right under this License Agreement or failure to notify the infringing party of a breach in connection with the License Agreement. Notwithstanding the foregoing, rules on complaints and limitation periods shall apply.

- 14.5 **Severability.** In the event any provision of this License Agreement is wholly or partly invalid, the validity of the License Agreement as a whole shall not be affected and the remaining provisions of the License Agreement shall remain valid. To the extent that such invalidity materially affects a Party's benefit from, or performance under, the License Agreement, it shall be reasonably amended.
- 14.6 **Entire agreement.** All arrangements, commitments and undertakings in connection with the subject matter of this License Agreement (whether written or oral) made before the date of this License Agreement are superseded by this License Agreement and its Appendices.
- 14.7 **Amendments.** Any amendment or addition to this License Agreement must be made in writing and signed by the Parties to be valid.
- 14.8 **Survival.** If this License Agreement is terminated or expires pursuant to Section 13 above, Section 12 (*Confidentiality*), Section 15 (*Governing Law*), Section 16 (*Dispute Resolution*) as well as this Section 14.8, shall survive any termination or expiration and remain in force as between the Parties after such termination or expiration.

15. GOVERNING LAW

- 15.1 This License Agreement and all non-contractual obligations in connection with this License Agreement shall be governed by the substantive laws of Sweden without giving regard to its conflict of laws principles.

16. DISPUTE RESOLUTION

16.1 Escalation principles.

- 16.1.1 In case the Parties cannot agree on a joint solution for handling disagreements or disputes, a deadlock situation shall be deemed to have occurred and each Party shall notify the other Party hereof by the means of a deadlock notice and simultaneously send a copy of the notice to the Steering Committee. Upon the receipt of such a deadlock notice, the receiving Party shall within ten days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.
- 16.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. As part thereof, the Steering Committee may request the Parties to in good faith develop and agree on a plan to resolve or address the breach, to be presented for the Steering Committee without undue delay. If the Steering Committee agrees upon a resolution or disposition of the matter, the Parties shall agree in writing on terms of such resolution or disposition and the Parties shall procure that such resolution or disposition is fully and promptly carried into effect.

- 16.1.3 If the Steering Committee cannot settle the deadlock within 30 days from the deadlock notice pursuant to the section above, despite using reasonable endeavours to do so, such deadlock will be referred to the Strategic Board for decision. If no Steering Committee has been established between the Parties, the relevant issue shall be referred to the Strategic Board. Should the matter not have been resolved by the Strategic Board within 30 days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section 16.2 below.
- 16.1.4 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 12 above.
- 16.1.5 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 16.1 and apply shorter time frames and/or escalate an issue directly to the Strategic Board in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.

16.2 Arbitration.

- 16.2.1 Any dispute, controversy or claim arising out of or in connection with this Agreement, or the breach, termination or invalidity thereof, shall be finally settled by arbitration in accordance with the Arbitration Rules of the Arbitration Institute of the Stockholm Chamber of Commerce, whereas the seat of arbitration shall be Gothenburg, Sweden, the language to be used in the arbitral proceedings shall be English, and the arbitral tribunal shall be composed of three arbitrators.
- 16.2.2 Irrespective of any discussions or disputes between the Parties, each Party shall always continue to fulfil its undertakings under this Agreement unless an arbitral tribunal or court (as the case may be) decides otherwise.
- 16.2.3 In any arbitration proceeding, any legal proceeding to enforce any arbitration award, or any other legal proceedings between the Parties relating to this Agreement, each Party expressly waives the defence of sovereign immunity and any other defence based on the fact or allegation that it is an agency or instrumentality of a sovereign state. Such waiver includes a waiver of any defence of sovereign immunity in respect of enforcement of arbitral awards and/or sovereign immunity from execution over any of its assets.
- 16.2.4 All arbitral proceedings as well as any and all information, documentation and materials in any form disclosed in the proceedings shall be strictly confidential.

No. 556074-3089, a corporation organized and existing under the laws of Sweden ("**Licensor**") and **Polestar Performance AB**, Reg. Nr. 556653-3096, a corporation organized and existing under the laws of Sweden ("**Licensee**").

Each of Licensor and Licensee is hereinafter referred to as a "**Party**" and jointly as the "**Parties**".

- C. Now, therefore, the Parties agree as follows:

1. SCOPE OF AMENDMENT

- 1.1 The Agreement will be deemed amended to the extent herein provided and will, except as specifically amended, continue in full force and effect in accordance with its original terms. In case of any discrepancy between the provisions of this Amendment and the Agreement, the provisions of this Amendment shall prevail. Any definitions used in this Amendment shall, unless otherwise is stated herein, have the respective meanings set forth in the Agreement.
- 1.2 The amendments to the provisions in the Agreement as stated in Section 2 below, such provisions highlighted for ease of reference in bold italics, shall come into force on the date this Amendment is signed by the last Party to sign it (as indicated by the date associated with that Party's signature).

2. AMENDMENTS

- 2.1 *Appendix 2 to the Agreement* shall be replaced in its entirety by Appendix 2 attached to this Amendment, which for the sake of clarity and in line with the original structure of the Agreement will carry the title Appendix 2.

3. GENERAL PROVISIONS

- 3.1 This Amendment is and should be regarded and interpreted as an amendment to the Agreement. The validity of this Amendment is therefore dependent upon the validity of the Agreement.

- 3.2 No amendment of this Amendment will be effective unless it is in writing and signed by both Parties. A waiver of any default is not a waiver of any later default and will not affect the validity of this Amendment.
- 3.3 Sections 15 and 16 of Appendix 2 of the Agreement shall apply to this Amendment as well. For clarity, even if the entire Appendix 2 is exchanged, the referred to Sections have not been modified.

- 3.2 Development of the Project Results.
- 3.2.1 When finalising the Project Results, Licensor shall use professional and skilled personnel, reasonably experienced for the Work to be performed. Licensor shall work according to the same standard of care and professionalism that is done in Licensor’s internal development projects. Such standard of care and professionalism shall however at all times correspond to Industry Standard. In addition, the Project Results and any Licensor IP thereto shall comply with applicable laws and regulations to the extent set out in the Project Specification.
- 3.2.2 Licensor agrees that when the Project Results, including any Licensor IP thereto, have been finalised, they shall correspond to the requirements set out in this License Agreement and shall comply with applicable laws and regulations.
- 3.2.3 In the event the Project Results, including any Licensor IP thereto, or any part thereof, more than insignificantly deviate from the requirements set forth in the Project Specification, or otherwise are faulty or defective (except for minor faults and defects, which do affect the intended use of the Project Results), Licensor shall remedy such non-compliance, fault or defect as soon as reasonably possible.

- 3.2.4 Licensor acknowledges that time is of essence and Licensor agrees to strictly respect and adhere to the deadlines set out in Appendix 1. 4. LICENSE

4.1 License grant.

- 4.1.1 Licensor hereby grants to Licensee a non-exclusive, irrevocable, perpetual (however at least 50 years long (however, in no event shall such time exceed the validity period of any Licensor IP included in the license described hereunder)), fully paid-up (through Licensee's due payment of the License Fee), non-assignable (however assignable to Licensee's Affiliates) license to, within in the Territory;
- (a) Use, in whole or in part, the Project Results and any Licensor IP therein and thereto; and
- (b) design, engineer, Use, make and have made, repair, service, market, sell and make available products and/or services based on, incorporating or using the Project Results and Licensor IP referred to in (a) above, in whole or in part.
- 4.1.2 Notwithstanding anything to the contrary in the License Agreement, nothing in these General Terms or otherwise in the License Agreement shall be construed as to give Licensee any rights, including but not limited to any license rights (express or implied), to any Licensor IP, except as expressly stated herein.
- 4.1.3 The license granted to Licensee under Section 4.1.1 above shall be fully sublicensable to Licensee's Affiliates. For the avoidance of doubt, Licensor shall be entitled to license the Project Results, including any Licensor IP therein, to Licensor's Affiliates without prior written consent from Licensee.

- 4.1.4 In the event either Licensee or Licensor would want to sublicense/license the rights granted to Licensee under Section 4.1.1 above in whole, or a substantial part of said rights, to a Third Party which is not under the control of Zhejiang Geely Holding Group Co., Ltd. or any of its affiliates, such sublicense/license requires the prior written approval of the other Party, which shall not be unreasonably withheld or delayed (whereby a sublicense/license to a Third Party which is a competitor of either Party is an example of what could be deemed unreasonable). Any approval in accordance with the foregoing shall be handled at a high governance level by the Strategic Board. For the avoidance of doubt, the other Party has no obligation to provide any support regarding sublicensing/licensing of any rights connected to this License Agreement to a Party providing a sublicense/license to a Third Party, unless otherwise agreed by the Parties.
- 4.1.5 Correspondingly, in the event either Licensee or Licensor would want to sublicense/license the rights granted to Licensee under Section 4.1.1 above in whole, or a substantial part of said rights, to a party which is under the control of Zhejiang Geely Holding Group Co., Ltd. or any of its affiliates, such sublicense/license requires the prior written approval of the other Party, which shall not be unreasonably withheld or delayed (whereby a sublicense/license to a Third Party which is a competitor of either Party is an example of what could be deemed unreasonable). Any approval in accordance with the foregoing shall be handled by the Steering Committee.
- 4.1.6 In the event any of the Parties sublicense/license their rights under this License Agreement to a Third Party, according to Sections 4.1.4 or 4.1.5 above, the Parties agree that the revenue acquired by such Third Party shall contribute both Parties equally. This will, however, be governed by a separate contract related to GOLD operations and maintenance (agreement number PS20-034).

5. INTELLECTUAL PROPERTY RIGHTS

5.1 Ownership.

- 5.1.1 Each Party remains the sole and exclusive owner of (i) any Intellectual Property Rights owned prior to the execution of this License Agreement, (ii) any Intellectual Property Rights developed or otherwise acquired independently of this License Agreement, and (iii) any Intellectual Property Rights which are modifications, amendments or derivatives of any Intellectual Property Rights already owned by such Party.
- 5.1.2 Nothing in this License Agreement shall be deemed to constitute an assignment of, or license to use, any Trademarks of the other Party, except for what is stated in section 5.4 below.
- 5.1.3 Licensor shall be the sole and exclusive owner of the Project Results, including any Licensor IP thereto, which includes any modifications, amendments and improvements made of the Project Results. Nothing in these General Terms or in the License Agreement shall be deemed an assignment of ownership of the Project Results, including any Licensor IP thereto, from Licensor to Licensee.

5.2 Suspected infringement.

- 5.2.1 Licensee shall promptly (upon becoming aware) notify Licensor in writing of:

- (a) any conduct of a Third Party that Licensee reasonably believes to be, or reasonably believes to be likely to be, an infringement, misappropriation or other violation of any Intellectual Property Rights licensed to Licensee hereunder by a Third Party; or
 - (b) any allegations made to Licensee by a Third Party that any Intellectual Property Rights licensed hereunder are invalid, subject to cancellation, unenforceable, or is a misappropriation of any Intellectual Property Rights of a Third Party.
- 5.2.2 In the event that Licensee has provided Licensor a notification pursuant to Section 5.2.1(a) above, and Licensor decides not to take any action against the Third Party, Licensor may approve in writing that Licensee shall be entitled to itself take action against the Third Party at its own cost. If Licensor approves, it shall provide reasonable assistance to Licensee, as requested by Licensee at Licensee's expense. If Licensor does not approve to Licensee taking such action, the issue should be escalated to the Strategic Board for decision.
- 5.2.3 For the avoidance of doubt, Licensor has no responsibility in the event the Project Results are alleged to infringe in any Third Party's Intellectual Property Rights and Licensor has, except for what is set out above in this Section 5.2 no obligation to defend and hold Licensee harmless from and against any alleged infringements.

5.3 Volvo brand name.

- 5.3.1 For the sake of clarity, it is especially noted that this License Agreement does not include any right to use the "Volvo" brand name, or Trademarks, or refer to "Volvo" in communications or official documents of whatever kind. The Parties acknowledge that the "Volvo" Trademarks as well as the "Volvo" name is owned by Volvo Trademark Holding AB and that the right to use the name and the "Volvo" Trademarks is subject to a license agreement, which stipulates that the name, Trademarks and all thereto related Intellectual Property can only be used by Volvo Car Corporation and its Affiliates in relation to Volvo products.
- 5.3.2 This means that this License Agreement does not include any rights to directly or indirectly use the "Volvo" brand name or "Volvo" Trademarks, on or for any products or when marketing, promoting and/or selling such products, or in any other contacts with Third Parties, e.g. in presentations, business cards and correspondence

5.4 Polestar brand name.

- 5.4.1 This License Agreement includes the right to use the Polestar brand name or Trademarks, or refer to Polestar for the limited purpose of what is needed to develop the GOLD platform. When using the Polestar Trademark or Polestar brand name the Licensor shall, with respect to the GOLD platform limitations, comply with any instructions or guidelines provided by Licensee.
- 5.4.2 For the avoidance of doubt, this License Agreement does not include any other rights to directly or indirectly use the Polestar brand name or Polestar Trademarks, on or for any products outside the scope of this License Agreement, or when marketing, promoting and/or selling such products, or in any other contacts with Third Parties, e.g. in presentations, business cards and correspondence, unless with the prior written consent of Polestar.

6. LICENSE FEE

- 6.1 In consideration of Licensor's performance of its obligations under the License Agreement and the license granted from Licensor to Licensee hereunder, Licensee agrees to pay to Licensor the License Fee as set out in the Main Document.

7. PAYMENT TERMS

- 7.1 The License Fee shall be paid in the currency set out in the Main Document, in a timely manner and in accordance with the payment terms set forth in this Section 7.
- 7.2 Licensor is responsible for charging and declaring sales tax/VAT or other taxes as follow from applicable law. Any applicable sales tax/VAT on the agreed price will be included in the invoices and paid by the Licensee. All amounts referred to in this License Agreement are exclusive of VAT.
- 7.3 If Licensor is obligated to collect or pay taxes, such taxes shall be invoiced to Licensee, unless Licensee provides a valid tax exemption certificate authorized by the appropriate Tax Authority. If Licensee is required by law to withhold any taxes from its payments Licensee must provide an official tax receipt or other appropriate documentation to support this withholding.
- 7.4 Any amount of the License Fee invoiced by Licensor to Licensee shall be paid by Licensee within 30 days after the invoice date.
- 7.5 Payment made later than the due date will automatically be subject to interest for late payments for each day it is not paid and the interest shall be based on the one month applicable interbank rate, depending on invoice and currency, with an addition of two per cent (2.0%) per annum.
- 7.6 Any paid portion of the License Fee is non-refundable, with the exception set forth in the Main Document.

8. AUDIT

- 8.1 During the Term of the License Agreement, Licensee shall have the right to, upon reasonable notice in writing to Licensor, inspect Licensor's books and records related to the Project Results and the premises where the Work is carried out, in order to conduct quality controls and otherwise verify the statements rendered under this License Agreement.
- 8.2 Audits shall be made during regular business hours and be conducted by Licensee or by an independent auditor appointed by Licensee. Should Licensee during any inspection find that Licensor or the Project Results does/do not fulfil the requirements set forth herein, Licensee is entitled to comment on the identified deviations. Licensor shall, upon notice from Licensee, take reasonable efforts to take the actions required in order to fulfil the requirements. In the event the Parties cannot agree upon measures to be taken in respect of the audit, each Party shall be entitled to escalate such issue to the Steering Committee.

9. WARRANTIES

- 9.1 Each Party warrants and represents to the other Party that:

- (a) it is duly organized, validly existing, and in good standing under the laws of its respective jurisdiction of incorporation or formation, as applicable;
 - (b) it has full corporate power and authority to execute and deliver this License Agreement and to perform its obligations hereunder;
 - (c) the execution, delivery and performance of this License Agreement have been duly authorized and approved, with such authorization and approval in full force and effect, and do not and will not (i) violate any laws or regulations applicable to it or (ii) violate its organization documents or any agreement to which it is a party; and
 - (d) this License Agreement is a legal and binding obligation of it, enforceable against it in accordance with its terms.
- 9.2 The Parties acknowledge that the Project Results, including any Licensor IP thereto, are licensed to Licensee on an “as is” basis, without any warranties or representations of any kind (except for the warranties in Section 9.1 above), whether implied or express, and in particular any warranties of suitability, merchantability, description, design and fitness for a particular purpose, non-infringement, completeness, systems integration and accuracy are expressly excluded to the maximum extent permissible by law.

10. LIMITATION OF LIABILITY

- 10.1 Neither Party shall be responsible for any indirect, incidental or consequential damage or any losses of production or profit caused by it under this License Agreement.
- 10.2 Each Party’s aggregate liability for any direct damage arising out of or in connection with this License Agreement shall be limited to 30 % of the total License Fee payable by Licensee to Licensor hereunder.
- 10.3 The limitations of liability set forth in this Section 10 shall not apply in respect of damage;
- (a) claims related to death or bodily injury;
 - (b) caused by wilful misconduct or gross negligence;
 - (c) caused by a Party’s breach of the confidentiality undertakings in Section 12 below; or
 - (d) arising out of an infringement, or alleged infringement, of the other Party’s or any third party’s Intellectual Property.

11. GOVERNANCE AND CHANGES

11.1 Governance.

- 11.1.1 The Parties shall act in good faith in all matters and shall at all times co-operate in respect of changes to this License Agreement as well as issues and/or disputes arising under this License Agreement.

11.1.2 The governance and co-operation between the Parties in respect of this License Agreement shall primarily be administered on an operational level. In the event the Parties on an operational level cannot agree upon *inter alia* the prioritisation of development activities or other aspects relating to the co-operation between the Parties, each Party shall be entitled to escalate such issue to the relevant governance forum, *i.e.* the Steering Committee and the Strategic Board respectively.

11.1.3 If the Steering Committee fails to agree upon a solution of the disagreement the relevant issue should be escalated to the Strategic Board for decision.

11.2 Changes.

11.2.1 During the term of the Project Specification, either Party can request changes to the Project Specification, which shall be handled in accordance with the governance procedure set forth in Section 11.1 above. Both Parties agree to act in good faith to address and respond to any requested change requests within a reasonable period of time.

11.2.2 The Parties acknowledge that Licensor will not perform in accordance with such change request until agreed in writing between the Parties. For the avoidance of any doubt, until there is agreement about the requested change, all work shall continue in accordance with the existing Project Specification.

12. CONFIDENTIAL INFORMATION

12.1 The Parties shall take any and all necessary measures to comply with the security and confidentiality procedures of the other Party.

12.2 All Confidential Information shall only be used for the purposes comprised by the fulfilment of this License Agreement. Each Party will keep in confidence any Confidential Information obtained in relation to this License Agreement and will not divulge the same to any Third Party, unless the exceptions specifically set forth below in this Section 12.2 below apply, in order to obtain patent protection or when approved by the other Party in writing, and with the exception of their own officers, employees, consultants or sub-contractors with a need to know as to enable such personnel to perform their duties hereunder. This provision will not apply to Confidential Information which the Receiving Party can demonstrate:

- (a) was in the public domain other than by breach of this undertaking, or by another confidentiality undertaking;
- (b) was already in the possession of the Receiving Party before its receipt from the Disclosing Party;
- (c) is obtained from a Third Party who is free to divulge the same;
- (d) is required to be disclosed by mandatory law, court order, lawful government action or applicable stock exchange regulations;
- (e) is reasonably necessary for either Party to utilize its rights and use of its Intellectual Property Rights; or

- (f) is developed or created by one Party independently of the other, without any part thereof having been developed or created with assistance or information received from the other Party.
- 12.3 The Receiving Party shall protect the disclosed Confidential Information by using the same degree of care, but no less than a reasonable degree of care, as the Receiving Party uses to protect its own Confidential Information of similar nature, to prevent the dissemination to Third Parties or publication of the Confidential Information. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 12.
- 12.4 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as "Confidential," "Proprietary" or the substantial equivalent thereof. Confidential Information that is disclosed orally or visually shall be identified by the Disclosing Party as confidential at the time of disclosure, with subsequent confirmation in writing within 30 days after disclosure. However, the lack of marking or subsequent confirmation that the disclosed information shall be regarded as "Confidential", "Proprietary" or the substantial equivalent thereof does not disqualify the disclosed information from being classified as Confidential Information.
- 12.5 If any Party violates any of its obligations described in this Section 12, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behaviour and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 16.2 below. All legal remedies (compensatory but not punitive in nature) according to law shall apply.
- 12.6 For the avoidance of doubt, this Section 12 does not permit disclosure of source code to software, and/or any substantial parts of design documents to software, included in the Project Results, to any Third Party, notwithstanding what is set forth above in this Section 12. Any such disclosure to any Third Party is permitted only if approved in writing by Licensor.
- 12.7 Confidential Information of Service Users in GOLD.
- 12.7.1 The Parties agree and acknowledge that GOLD shall have other Service Users. In the event that another Service User's Confidential Information, which might be saved in GOLD by such Service User, become visible and accessible to Licensee due to the fact that the Service Users technically share the same application, the Parties agree and acknowledge that the license granted to Licensee under Section 4.1 does not grant to Licensee any rights to another Service User's Confidential Information. In the event that Licensor has access to Licensee's Confidential Information saved in GOLD by Licensee, Licensor shall not have any right or license to access or use such Confidential Information.
- 12.7.2 Notwithstanding Section 12.7.1, the Parties acknowledge that each Party shall be entitled to access such Confidential Information, if necessary, in order to, and only in so far as to, perform its undertakings under this License Agreement and its related service agreement that the Parties have entered into on the same date (agreement no. PS20-034).
- 12.7.3 If any of the Parties determine that a Service User's Confidential Information becomes visible and accessible to a Party that is not the owner of such Confidential Information due to the fact that the Parties technically share the application, the Parties shall in good faith discuss the above issues on a running basis in order to implement a solution that prevents the unauthorized access to such Confidential Information.

12.7.4 Neither Party shall be liable for wrongful access of another Service User's Confidential Information, provided that the Party in question has acted in good faith and has taken appropriate measures to immediately cease any unauthorised access thereof.

12.8 This confidentiality provision shall survive the expiration or termination of this License Agreement without limitation in time.

13. TERM AND TERMINATION

13.1 This License Agreement shall become effective when the Main Document is signed by duly authorised signatories of each Party and shall, unless terminated in accordance with this Section 13 below, remain in force during the validity of the license period of the license granted to Licensee hereunder.

13.2 Either Party shall be entitled to terminate this License Agreement with immediate effect in the event:

- (a) the other Party commits a material breach of the terms of this License Agreement, which has not been remedied within 30 days from written notice from the other Party to remedy such breach (if capable of being remedied); or
- (b) if the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors.

13.3 Furthermore, Licensee is entitled to terminate this License Agreement with immediate effect in case Licensor acts in breach, which is not insignificant, of what is set forth in Section 3.2.3 and 3.2.4 provided that the issue first has been escalated in accordance with Section 16.1.

13.4 For the avoidance of doubt, neither Party shall be entitled to unilaterally terminate this License Agreement for convenience.

14. MISCELLANEOUS

14.1 Force majeure.

14.1.1 Neither Party shall be liable for any failure or delay in performing its obligations under the License Agreement to the extent that such failure or delay is caused by a Force Majeure Event. A "**Force Majeure Event**" means any event beyond a Party's reasonable control, which by its nature could not have been foreseen, or, if it could have been foreseen, was unavoidable, including strikes, lock-outs or other industrial disputes (whether involving its own workforce or a Third Party's), failure of energy sources or transport network, restrictions concerning motive force, acts of God, war, terrorism, insurgencies and riots, civil commotion, mobilization or extensive call ups, interference by civil or military authorities, national or international calamity, currency restrictions, requisitions, confiscation, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, sonic boom, explosions, collapse of building structures, fires, floods, storms, stroke of lightning, earthquakes, loss at sea, epidemics or similar events, natural disasters or extreme adverse weather conditions, or default or delays of suppliers or subcontractors if such default or delay has been caused by a Force Majeure Event.

14.1.2A non-performing Party, which claims there is a Force Majeure Event, and cannot perform its obligations under the License Agreement as a consequence thereof, shall use all commercially reasonable efforts to continue to perform or to mitigate the impact of its non-performance notwithstanding the Force Majeure Event and shall continue the performance of its obligations as soon as the Force Majeure Event ceases to exist.

14.2 **Notices.** All notices, demands, requests and other communications to any Party as set forth in, or in any way relating to the subject matter of, this License Agreement must be in legible writing in the English language delivered by personal delivery, email transmission or prepaid overnight courier using an internationally recognized courier service and shall be effective upon receipt, which shall be deemed to have occurred:

- (a) in case of personal delivery, at the time and on the date of personal delivery;
- (b) if sent by email transmission, at the time and date indicated on a response confirming such successful email transmission;
- (c) if delivered by courier, at the time and on the date of delivery as confirmed in the records of such courier service; or
- (d) at such time and date as delivery by personal delivery or courier is refused by the addressee upon presentation;

in each case provided that if such receipt occurred on a non-business day, then notice shall be deemed to have been received on the next following business day; and provided further that where any notice, demand, request or other communication is provided by any party by email, such party shall also provide a copy of such notice, demand, request or other communication by using one of the other methods. All such notices, demands, requests and other communications shall be addressed to the address, and with the attention, as set forth in the Main Document, or to such other address, number or email address as a Party may designate.

14.3 **Assignment.**

14.3.1 Neither Party may, wholly or partly, assign, pledge or otherwise dispose of its rights and/or obligations under this License Agreement without the other Party's prior written consent.

14.3.2 Notwithstanding the above, each Party may assign this License Agreement to an Affiliate without the prior written consent of the other Party.

14.4 **Waiver.** Neither Party shall be deprived of any right under this License Agreement because of its failure to exercise any right under this License Agreement or failure to notify the infringing party of a breach in connection with the License Agreement. Notwithstanding the foregoing, rules on complaints and limitation periods shall apply.

14.5 **Severability.** In the event any provision of this License Agreement is wholly or partly invalid, the validity of the License Agreement as a whole shall not be affected and the remaining provisions of the License Agreement shall remain valid. To the extent that such invalidity materially affects a Party's benefit from, or performance under, the License Agreement, it shall be reasonably amended.

- 14.6 **Entire agreement.** All arrangements, commitments and undertakings in connection with the subject matter of this License Agreement (whether written or oral) made before the date of this License Agreement are superseded by this License Agreement and its Appendices.
- 14.7 **Amendments.** Any amendment or addition to this License Agreement must be made in writing and signed by the Parties to be valid.
- 14.8 **Survival.** If this License Agreement is terminated or expires pursuant to Section 13 above, Section 12 (*Confidentiality*), Section 15 (*Governing Law*), Section 16 (*Dispute Resolution*) as well as this Section 14.8, shall survive any termination or expiration and remain in force as between the Parties after such termination or expiration.
- 15. GOVERNING LAW**
- 15.1 This License Agreement and all non-contractual obligations in connection with this License Agreement shall be governed by the substantive laws of Sweden without giving regard to its conflict of laws principles.
- 16. DISPUTE RESOLUTION**
- 16.1 Escalation principles.**
- 16.1.1 In case the Parties cannot agree on a joint solution for handling disagreements or disputes, a deadlock situation shall be deemed to have occurred and each Party shall notify the other Party hereof by the means of a deadlock notice and simultaneously send a copy of the notice to the Steering Committee. Upon the receipt of such a deadlock notice, the receiving Party shall within ten days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.
- 16.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. As part thereof, the Steering Committee may request the Parties to in good faith develop and agree on a plan to resolve or address the breach, to be presented for the Steering Committee without undue delay. If the Steering Committee agrees upon a resolution or disposition of the matter, the Parties shall agree in writing on terms of such resolution or disposition and the Parties shall procure that such resolution or disposition is fully and promptly carried into effect.
- 16.1.3 If the Steering Committee cannot settle the deadlock within 30 days from the deadlock notice pursuant to the section above, despite using reasonable endeavours to do so, such deadlock will be referred to the Strategic Board for decision. If no Steering Committee has been established between the Parties, the relevant issue shall be referred to the Strategic Board. Should the matter not have been resolved by the Strategic Board within 30 days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section 16.2 below.

- 16.1.4 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 12 above.
- 16.1.5 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 16.1 and apply shorter time frames and/or escalate an issue directly to the Strategic Board in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.
- 16.2 Arbitration.

appropriate actions to take, if Purchaser fails to or chooses not to take actions to defend Service Provider within a reasonable time, or at any time ceases to make such efforts, Service Provider shall be entitled to assume control over the defence against such claim and/ or over any settlement negotiation at Purchaser's cost. Any settlement proposed by Purchaser on its own account must take account of potential implications for Service Provider and shall therefore be agreed with Service Provider before settlement. Each Party will at no cost furnish to the other Party all data, records, and assistance within that Party's control that are of importance in order to properly defend against a claim.

12.2 Changes.

- 12.3 During the term of this Service Agreement, Purchaser can request changes to the Service Specification, which shall be handled in accordance with the governance procedure set forth in Section 12.1 above. Both Parties agree to act in good faith to address and respond to any change request within a reasonable period of time.

- 12.4 The Parties acknowledge that Service Provider will not perform in accordance with such change request until agreed in writing between the Parties. - 13.3 The Receiving Party shall protect the disclosed Confidential Information by using the same degree of care, but no less than a reasonable degree of care, as the Receiving Party uses to protect its own Confidential Information of similar nature, to prevent the dissemination to Third Parties or publication of the Confidential Information. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 13.
- 13.4 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as "Confidential," "Proprietary" or the substantial equivalent thereof. - 13.5 If any Party violates any of its obligations described in this Section 13, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behaviour and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 17.2 below.  - (b) if the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors.
- 14.3 For avoidance of doubt, Purchaser not paying the Service Charges, without legitimate reasons for withholding payment, shall be considered in material breach for the purpose of this Service Agreement.
- 14.4 Furthermore, Purchaser is entitled to terminate this Service Agreement with immediate effect in case Service Provider acts in breach, which is not insignificant, of what is set forth in Section 4.3 and 4.4 provided that the issue first has been escalated in accordance with Section 17.1.
- 14.5 Purchaser shall in addition be entitled to cancel the Services performed by Service Provider for convenience upon 30 days written notice to Service Provider.

- 15.1.2 A non-performing Party, which claims there is a Force Majeure Event, and cannot perform its obligations under the Service Agreement as a consequence thereof, shall use all commercially reasonable efforts to continue to perform or to mitigate the impact of its nonperformance notwithstanding the Force Majeure Event and shall continue the performance of its obligations as soon as the Force Majeure Event ceases to exist.

All such notices, demands, requests and other communications shall be addressed to the address, and with the attention, as set forth in the Main Document, or to such other address, number or email address as a Party may designate.

- 15.3.2 Notwithstanding the above, each Party may assign this Service Agreement to an Affiliate without the prior written consent of the other Party.
- 15.4 **Waiver.** Neither Party shall be deprived of any right under this Service Agreement because of its failure to exercise any right under this Service Agreement or failure to notify the infringing party of a breach in connection with the Service Agreement. Notwithstanding the foregoing, rules on complaints and limitation periods shall apply.

- 15.5 **Severability.** In the event any provision of this Service Agreement is wholly or partly invalid, the validity of the Service Agreement as a whole shall not be affected and the remaining provisions of the Service Agreement shall remain valid. To the extent that such invalidity materially affects a Party's benefit from, or performance under, the Service Agreement, it shall be reasonably amended.

- 15.8.2 Notwithstanding Section 15.8.1 above, if this Service Agreement is terminated due to Purchaser not paying the Service Charges, without legitimate reasons for withholding payment, pursuant to Section 14 above, Section 5.3 (*License Grant*) shall not survive termination or remain in force as between the Parties after such termination. For the avoidance of doubt, what is stated in this Section 15.8.2 shall only apply in relation to such licenses granted to Purchaser pursuant to Section 5.3 above and any licenses granted to Service Provider under Section 5.3 shall thus nevertheless remain in force after such termination.

16. GOVERNING LAW

- 16.1 This Service Agreement and all non-contractual obligations in connection with this Service Agreement shall be governed by the substantive laws of Sweden, without giving regard to its conflict of laws principles.

Upon the receipt of such a deadlock notice, the receiving Party shall within ten days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.
- 17.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. If no Steering Committee has been established between the Parties, the relevant issue shall be referred to the Strategic Board. Should the matter not have been resolved by the Strategic Board within 30 days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section 17.2 below.
- 17.1.4 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 13 above.
- 17.1.5 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 17.1 and apply shorter time frames and/or escalate an issue directly to the Strategic Board in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.
- 17.2 **Arbitration.**

Such waiver includes a waiver of any defence of sovereign immunity in respect of enforcement of arbitral awards and/or sovereign immunity from execution over any of its assets.
- 17.2.4 All arbitral proceedings as well as any and all information, documentation and materials in any form disclosed in the proceedings shall be strictly confidential.

This Service Agreement is between Volvo Car Corporation, 556074-3089, a corporation organized and existing under the laws of Sweden (“Service Provider”) and Polestar Performance AB, Reg. No. 556653-3096, a corporation organized and existing under the laws of Sweden (“Purchaser”).

Each of Service Provider and Purchaser is hereinafter referred to as a “Party” and jointly as the “Parties”.

BACKGROUND

- A. The Purchaser want to use the Provider's well established and running logistic flow for outbound logistics, from China to its markets worldwide. - B. The Parties have agreed to enter into six Agreements covering the total global scope:
 - 1. External Outbound Transport EMEA Agreement
 - 2. Service Agreement VCC Services EMEA-This Service Agreement
 - 3. Agreement External Port Services US - Initially planned, now obsolete.
 - 4. Service Agreement VCC Services US
 - 5. Service Agreement VCC Services China Domestic
 - 6. Service Agreement VCC Services China Export
- C. This Service Agreement is covering Services related to the Vehicles, as defined in Appendix 1.
- D. - F. In light of the foregoing, the Parties have agreed to execute this Service Agreement.

5.1 Ownership of existing Intellectual Property Rights.

5.1.1 Each Party remains the sole and exclusive owner of its Background IP,

5.1.2 Nothing in this Service Agreement shall be deemed to constitute an assignment of, or license to use, any Trademarks of the other Party.

- 5.2 **Ownership of Results.** In the event any Results are created as a result of the Services provided by Service Provider (or if applicable, any of its appointed Affiliates or subcontractors) under this Service Agreement, the Parties agree that Service Provider shall be the exclusive owner of such Results, including all modifications, amendments and developments thereof. Hence, all Results shall automatically upon their creation stay with Service Provider. The

license granted in this Section 5.3.1 is limited to the extent such license is necessary for Purchaser to make use of the Services provided hereunder and to enable an orderly transfer to another service provider after the termination and/or expiry of this Service Agreement.

5.3.2 Notwithstanding anything to the contrary in this Service Agreement, nothing in these General Terms or otherwise in the Service Agreement shall be construed as to give the other Party any rights, including but not limited to any license rights (express or implied), to any Background IP, except as expressly stated herein.

5.4 **Volvo brand name.**

5.4.1 For the sake of clarity, it is especially noted that this Service Agreement does not include any right to use the "Volvo" brand name, or Trademarks, or refer to "Volvo" in communications or official documents of whatever kind. The Parties acknowledge that the "Volvo" Trademarks as well as the "Volvo" name is owned by Volvo Trademark Holding AB and that the right to use the name and the "Volvo" Trademarks is subject to a service agreement, which stipulates that the name, Trademarks and all thereto related Intellectual Property can only be used by Volvo Car Corporation and its Affiliates in relation to Volvo products.

5.4.2 This means that this Service Agreement does not include any rights to directly or indirectly use the "Volvo" brand name or "Volvo" Trademarks, on or for any products or when marketing, promoting and/or selling such products, or in any other contacts with Third Parties, e.g. in presentations, business cards and correspondence.

Any applicable sales tax/VAT on the agreed price will be included in the invoices and paid by Purchaser. All amounts referred to in this Service Agreement are exclusive of VAT.

7.3 If Service Provider is obligated to collect or pay taxes, such taxes shall be invoiced to Purchaser, unless Purchaser provides a valid tax exemption certificate authorized by the appropriate Tax Authority. If Purchaser is required by law to withhold any taxes from its payments, Purchaser must provide an official tax receipt or other appropriate documentation to support this withholding.

- 7.4 Any amount of the Service Charges invoiced by Service Provider to Purchaser shall be paid by Purchaser within 30 days after the invoice date.
- 7.5 Payment made later than the due date will automatically be subject to interest for late payments for each day it is not paid and the interest shall be based on the one month applicable interbank rate, depending on invoice and currency, with an addition of two per cent (2.0%) per annum.
- 7.6 Any paid portion of the Service Charges is non-refundable, with the exception set forth in the Main Document.

8. AUDIT

- 8.1 During the term of the Service Agreement, Purchaser shall have the right to, upon reasonable notice in writing to Service Provider, inspect Service Provider's books and records related to the Services and the premises where the Services are performed, in order to conduct quality controls and otherwise verify the statements rendered under this Service Agreement.
- 8.2 Audits shall be made during regular business hours and be conducted by Purchaser or by an independent auditor appointed by Purchaser. Service Provider shall, upon notice from Purchaser, take reasonable efforts to take the actions required in order to fulfil the requirements. In the event the Parties cannot agree upon measures to be taken in respect of the audit, each Party shall be entitled to escalate such issue to the Steering Committee.

 - (c) the execution, delivery and performance of this Service Agreement have been duly authorized and approved, with such authorization and approval in full force and effect, and do not and will not (i) violate any laws or regulations applicable to it or (ii) violate its organization documents or any agreement to which it is a party; and
 - (d) this Service Agreement is a legal and binding obligation of it, enforceable against it in accordance with its terms.

representations or warranties as regards the merchantability of the deliverables to be delivered hereunder nor any other representations or warranties of any kind whatsoever concerning the Services. Purchaser acknowledges that the price of the Services to be performed and other deliverables to be delivered by Service Provider are set in consideration of the foregoing.

- 10.3 Service Provider shall after receipt of notice of a claim related to Purchaser's use of the Services notify Purchaser of such claim in writing and Purchaser shall following receipt of such notice, to the extent permitted under applicable law, at its own cost conduct negotiations with the third party presenting the claim and/or intervene in any suit or action. Purchaser shall at all times keep Service Provider informed of the status and progress of the claim and consult with Service Provider on appropriate actions to take. If Purchaser fails to or chooses not to take actions to defend Service Provider within a reasonable time, or at any time ceases to make such efforts, Service Provider shall be entitled to assume control over the defence against such claim and/ or over any settlement negotiation at Purchaser's cost. Any settlement proposed by Purchaser on its own account must take account of potential implications for Service Provider and shall therefore be agreed with Service Provider before settlement. Each Party will at no cost furnish to the other Party all data, records, and assistance within that Party's control that are of importance in order to properly defend against a claim.

11. LIMITATION OF LIABILITY

- 11.1 Neither Party shall be responsible for any indirect, incidental or consequential damage or any losses of production or profit caused by it under this Service Agreement.

12.1 Governance.

- 12.1.1 The Parties shall act in good faith in all matters and shall at all times co-operate in respect of changes to this Service Agreement as well as issues and/or disputes arising under this Service Agreement.
- 12.1.2 The governance and co-operation between the Parties in respect of this Service Agreement shall primarily be administered on an operational level. In the event the Parties on an operational level cannot agree upon *inter alia* the prioritisation of development activities or other aspects relating to the co-operation between the Parties, each Party shall be entitled to escalate such issue to the Steering Committee.

12.1.3 If the Steering Committee fails to agree upon a solution of the disagreement the relevant issue should be escalated to the CEO and CFO of Volvo Car Corporation and the CEO and CFO of Zhejiang Geely Holding Group Co., Ltd. for decision.

12.2 Changes.

12.3 During the term of this Service Agreement, Purchaser can request changes to the Service Specification, which shall be handled in accordance with the governance procedure set forth in Section 12.1 above. Both Parties agree to act in good faith to address and respond to any change request within a reasonable period of time.

12.4 The Parties acknowledge that Service Provider will not perform in accordance with such change request until agreed in writing between the Parties. For the avoidance of any doubt, until there is agreement about the requested change, all work shall continue in accordance with the existing Service Specification.

13. CONFIDENTIAL INFORMATION

13.1 The Parties shall take any and all necessary measures to comply with the security and confidentiality procedures of the other Party.

13.2 All Confidential Information shall only be used for the purposes comprised by the fulfilment of this Service Agreement. Each Party will keep in confidence any Confidential Information obtained in relation to this Service Agreement and will not divulge the same to any Third Party, unless the exceptions specifically set forth below in this Section 13.2 below apply, in order to obtain patent protection or when approved by the other Party in writing, and with the exception of their own officers, employees, consultants or sub-contractors with a need to know as to enable such personnel to perform their duties hereunder. This provision will not apply to Confidential Information which the Receiving Party can demonstrate:

- (a) was in the public domain other than by breach of this undertaking, or by another confidentiality undertaking;
- (b) was already in the possession of the Receiving Party before its receipt from the Disclosing Party;
- (c) is obtained from a Third Party who is free to divulge the same;
- (d) is required to be disclosed by mandatory law, court order, lawful government action or applicable stock exchange regulations;
- (e) is reasonably necessary for either Party to utilize its rights and use of its Intellectual Property Rights; or
- (f) is developed or created by one Party independently of the other, without any part thereof having been developed or created with assistance or information received from the other Party.

13.3 The Receiving Party shall protect the disclosed Confidential Information by using the same degree of care, but no less than a reasonable degree of care, as the Receiving Party uses to protect its own Confidential Information of similar nature, to prevent the dissemination to Third Parties or publication of the Confidential Information. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 13.

- 13.4 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as “Confidential,” “Proprietary” or the substantial equivalent thereof. Confidential Information that is disclosed orally or visually shall be identified by the Disclosing Party as confidential at the time of disclosure, with subsequent confirmation in writing within 30 days after disclosure. However, the lack of marking or subsequent confirmation that the disclosed information shall be regarded as “Confidential”, “Proprietary” or the substantial equivalent thereof does not disqualify the disclosed information from being classified as Confidential Information.
- 13.5 If any Party violates any of its obligations described in this Section 13, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behaviour and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 17.2 below. All legal remedies (compensatory but not punitive in nature) according to law shall apply.
- 13.6 For the avoidance of doubt, this Section 13 does not permit disclosure of source code to software, and/or any substantial parts of design documents to software, included in the Results, to any Third Party, notwithstanding what is set forth above in this Section 13. Any such disclosure to any Third Party is permitted only if approved in writing by Service Provider.
- 13.7 This confidentiality provision shall survive the expiration or termination of this Service Agreement without limitation in time.

14. TERM AND TERMINATION

- 14.1 This Service Agreement shall become effective when the Main Document is signed by duly authorised signatories of each Party and shall, unless terminated in accordance with this Section 14 below, remain in force until the Services are completed.
- 14.2 Either Party shall be entitled to terminate this Service Agreement with immediate effect in the event:
- (a) the other Party commits a material breach of the terms of this Service Agreement, which has not been remedied within 30 days from written notice from the other Party to remedy such breach (if capable of being remedied); or
 - (b) if the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors.
- 14.3 For avoidance of doubt, Purchaser not paying the Service Charges, without legitimate reasons for withholding payment, shall be considered in material breach for the purpose of this Service Agreement.
- 14.4 Furthermore, Purchaser is entitled to terminate this Service Agreement with immediate effect in case Service Provider acts in breach, which is not insignificant, of what is set forth in Section 4.3 and 4.4 provided that the issue first has been escalated in accordance with Section 17.1.
- 14.5 Either Party shall in addition be entitled to terminate the Service Agreement for convenience upon 12 months written notice to the other Party .

15. MISCELLANEOUS

15.1.2 A non-performing Party, which claims there is a Force Majeure Event, and cannot perform its obligations under the Service Agreement as a consequence thereof, shall use all commercially reasonable efforts to continue to perform or to mitigate the impact of its nonperformance notwithstanding the Force Majeure Event and shall continue the performance of its obligations as soon as the Force Majeure Event ceases to exist.

15.2 **Notices.** All notices, demands, requests and other communications to any Party as set forth in, or in any way relating to the subject matter of, this Service Agreement must be in legible writing in the English language delivered by personal delivery, email transmission or prepaid overnight courier using an internationally recognized courier service and shall be effective upon receipt, which shall be deemed to have occurred:

- (b) if sent by email transmission, at the time and date indicated on a response confirming such successful email transmission;
- (c) if delivered by courier, at the time and on the date of delivery as confirmed in the records of such courier service; or
- (d) at such time and date as delivery by personal delivery or courier is refused by the addressee upon presentation;

in each case provided that if such receipt occurred on a non-business day, then notice shall be deemed to have been received on the next following business day; and provided further that where any notice, demand, request or other communication is provided by any party by email, such party shall also provide a copy of such notice, demand, request or other communication by using one of the other methods. All such notices, demands, requests and other communications shall be addressed to the address, and with the attention, as set forth in the Main Document, or to such other address, number or email address as a Party may designate.

15.3 **Assignment.**

15.3.1 Neither Party may, wholly or partly, assign, pledge or otherwise dispose of its rights and/or obligations under this Service Agreement without the other Party’s prior written consent.

15.3.2 Notwithstanding the above, each Party may assign this Service Agreement to an Affiliate without the prior written consent of the other Party.

15.4 **Waiver.** Neither Party shall be deprived of any right under this Service Agreement because of its failure to exercise any right under this Service Agreement or failure to notify the infringing party of a breach in connection with the Service Agreement. Notwithstanding the foregoing, rules on complaints and limitation periods shall apply.

- 15.5 **Severability.** In the event any provision of this Service Agreement is wholly or partly invalid, the validity of the Service Agreement as a whole shall not be affected and the remaining provisions of the Service Agreement shall remain valid. To the extent that such invalidity materially affects a Party's benefit from, or performance under, the Service Agreement, it shall be reasonably amended.
- 15.6 **Entire agreement.** All arrangements, commitments and undertakings in connection with the subject matter of this Service Agreement (whether written or oral) made before the date of this Service Agreement are superseded by this Service Agreement and its Appendices.
- 15.7 **Amendments.** Any amendment or addition to this Service Agreement must be made in writing and signed by the Parties to be valid.
- 15.8 **Survival.**
- 15.8.1 If this Service Agreement is terminated or expires pursuant to Section 14 above, Section 5.3 (*License grant*), Section 13 (*Confidentiality*), Section 16 (*Governing Law*), Section 17 (*Dispute Resolution*) as well as this Section 15.8, shall survive any termination or expiration and remain in force as between the Parties after such termination or expiration.
- 15.8.2 Notwithstanding Section 15.8.1 above, if this Service Agreement is terminated due to Purchaser not paying the Service Charges, without legitimate reasons for withholding payment, pursuant to Section 14 above, Section 5.3 (*License Grant*) shall not survive termination or remain in force as between the Parties after such termination. For the avoidance of doubt, what is stated in this Section 15.8.2 shall only apply in relation to such licenses granted to Purchaser pursuant to Section 5.3 above and any licenses granted to Service Provider under Section 5.3 shall thus nevertheless remain in force after such termination.

16. GOVERNING LAW

- 16.1 This Service Agreement and all non-contractual obligations in connection with this Service **Agreement** shall be governed by the substantive laws of Sweden, without giving regard to its conflict of laws principles.

17. DISPUTE RESOLUTION

17.1 Escalation principles.

- 17.1.1 In case the Parties cannot agree on a joint solution for handling disagreements or disputes, a deadlock situation shall be deemed to have occurred and each Party shall notify the other Party hereof by the means of a deadlock notice and simultaneously send a copy of the notice to the Steering Committee. Upon the receipt of such a deadlock notice, the receiving Party shall within ten days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.

- 17.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. - 17.1.4 If the CEO's cannot settle the deadlock within 30 days from the deadlock notice pursuant to the section above, despite using reasonable endeavours to do so, such deadlock will be referred to the CEO and CFO of Volvo Car Corporation and the CEO and CFO of Zhejiang Geely Holding Group Co., Ltd. for decision. Should the matter not have been resolved by the CEO and CFO of Volvo Car Corporation and the CEO and CFO of Zhejiang Geely Holding Group Co., Ltd. within 30 days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section 17.2 below.
- 17.1.5 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 13 above.
- 17.1.6 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 17.1 and apply shorter time frames and/or escalate an issue directly to the CEO and CFO of Volvo Car Corporation and the CEO and CFO of Zhejiang Geely Holding Group Co., Ltd. in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.

- 17.2.3 In any arbitration proceeding, any legal proceeding to enforce any arbitration award, or any other legal proceedings between the Parties relating to this Agreement, each Party expressly waives the defence of sovereign immunity and any other defence based on the fact or allegation that it is an agency or instrumentality of a sovereign state. 2. DEFINITIONS

- 2.1 Any capitalised terms used but not specifically defined herein shall have the meanings set out for such terms in the Service Agreement. In addition, the capitalised terms set out below in this Section 2 shall for the purposes of this Service Specification have the meanings described herein. All capitalised terms in singular in the list of definitions shall have the same meaning in plural and vice versa.
- 2.2 **“Common Costs”** shall have the meaning as set out in Section 3.3 below.
- 2.3 **“OBL”** means Outbound Logistics.
- 2.4 **“WC”** means White Collar employee.
- 2.5 **“BC”** means Blue Collar employee.

- 2.7 **“Mark-up”** means the additional charge added to all Service Provider’s costs in order to fulfil the “Arm’s length” principle as necessary in business relations between related parties.

3. COST SHARING PRINCIPLES

- 3.1 Purchaser shall, based on “Arm’s Length” principle, fully compensate Service Provider for all costs occurring related to activities under this Service Agreement which are executed on behalf of Purchaser.
- 3.2 The general principle is that costs that can be identified as directly arising from activities related to one Party’s Vehicles shall also be fully covered by that Party.
- 3.3 In cases when the distinction described in Section 3.2 above is not possible to make, i.e. when an activity adds value to both Parties’ outbound logistics flow, the costs for such activities (“Common Costs”) will be distributed between the Parties based on forecasted production volume (unless otherwise stated in the following) and, where applicable, its market distribution.
 - 3.3.1 To establish the costs for a calendar year, the Parties’ combined volume forecast plan made available in November, preceding year, shall be used to determine each Parties’ share of the Common Costs.
 - 3.3.2 In the event that Purchaser during a calendar year adds an additional car model, manufacturing plant (pick-up location) and/or new market (destinations) which was not known at the time for the planning described in Section 3.3.1 above, the Common Costs will be adjusted based on a new volume forecast which is determined in good faith between the Parties. The updated Common Costs shall be applied from the first day of the calendar month when the changed condition is effective.

4. SERVICE CHARGES

4.1 Hourly rates, general

- 4.1.1 The hourly rates that are used for charging service costs to Purchaser shall be determined by Service Provider on an, at least, annual basis in compliance with applicable tax legislation, including but not limited to the principle of “Arm’s Length” between the Parties. The hourly rates shall be calculated using the cost plus method, i.e. full cost incurred plus an arm’s length Mark-up.
- 4.1.2 The hourly rates, used at the time of preparation of this Service Agreement, represents the December 2019 level. The Parties agree that the Service Charges related to this Service Agreement will be continuously updated whenever the hourly rates are updated according to Section 4.1.1 above.
- 4.1.3 The Parties agree that one Full Time Employee (“FTE”) represents [***] working hours per year.

4.2 Charges related to Administration and Operation

- 4.2.1 Examples of the activities related to Administration and Operations of the outbound transports and related logistic services are listed in Appendix 1e.
- 4.2.2 The costs for these activities are not directly influenced by the actually shipped volume of Vehicles since Service Provider must uphold a certain capacity on behalf of Purchaser. Therefore, the costs for the related activities shall be calculated for each calendar year and distributed evenly on the invoices for the Services under the Service Agreement, issued by Service Provider to Purchaser during said calendar year.
- 4.2.3 The table below shows the running operation cost categories and the estimated costs based on December 2019 cost levels.
[***]
- 4.2.4 In the event that Service Provider needs to perform any kind of work on behalf of Purchaser, which is not part of the running operation activities, Purchaser shall compensate Service Provider for the time spent based on the hourly rates agreed between the Parties at the time. Before any such work is started, Service Provider shall present to Purchaser an estimation of the required hours, which Purchaser must approve. Therefore, the costs for the related activities shall be calculated for each calendar year and distributed evenly on the invoices for the Services under the Service Agreement, issued by Service Provider to Purchaser during said calendar year.

4.4.3 The costs for the services related to Damage Claims administration and produced by external providers are a mix of fixed costs and variable costs. These fees, as listed in the table in Section 4.4.4 below, are regulated in Service Provider's contract with a third party provider and will be updated from time to time, normally once per year. If Purchaser fails to or chooses not to take actions to defend Service Provider within a reasonable time, or at any time ceases to make such efforts, Service Provider shall be entitled to assume control over the defence against such claim and/ or over any settlement negotiation at Purchaser's cost. Any settlement proposed by Purchaser on its own account must take account of potential implications for Service Provider and shall therefore be agreed with Service Provider before settlement. Each Party will at no cost furnish to the other Party all data, records, and assistance within that Party's control that are of importance in order to properly defend against a claim.

11. LIMITATION OF LIABILITY

- 11.1 Neither Party shall be responsible for any indirect, incidental or consequential damage or any losses of production or profit caused by it under this Service Agreement.
- 11.2 Each Party's aggregate liability for any direct damage arising out of or in connection with this Service Agreement shall be limited to 30 % of the total Service Charges payable by Purchaser to Service Provider hereunder.
- 11.3 The limitations of liability set forth in this Section 11 shall not apply in respect of:
- (a) claims related to death or bodily injury;
 - (b) damage caused by wilful misconduct or gross negligence;
 - (c) damage caused by a Party's breach of the confidentiality undertakings in Section 13 below; or
 - (d) damage arising out of an infringement, or alleged infringement, of the other Party's or any third party's Intellectual Property.

12. GOVERNANCE AND CHANGES

12.1 Governance.

- 12.1.1 The Parties shall act in good faith in all matters and shall at all times co-operate in respect of changes to this Service Agreement as well as issues and/or disputes arising under this Service Agreement.
- 12.2.2 The governance and co-operation between the Parties in respect of this Service Agreement shall primarily be administered on an operational level. In the event the Parties on an operational level cannot agree upon *inter alia* the prioritisation of development activities or other aspects relating to the co-operation between the Parties, each Party shall be entitled to escalate such issue to the Steering Committee.

12.2.3 If the Steering Committee fails to agree upon a solution of the disagreement the relevant issue should be escalated to the Strategic Board for decision.

12.2 Changes.

12.3 During the term of this Service Agreement, Purchaser can request changes to the Service Specification, which shall be handled in accordance with the governance procedure set forth in Section 12.1 above. Both Parties agree to act in good faith to address and respond to any change request within a reasonable period of time.

12.4 The Parties acknowledge that Service Provider will not perform in accordance with such change request until agreed in writing between the Parties. For the avoidance of any doubt, until there is agreement about the requested change, all work shall continue in accordance with the existing Service Specification.

13. CONFIDENTIAL INFORMATION

13.1 The Parties shall take any and all necessary measures to comply with the security and confidentiality procedures of the other Party.

13.2 All Confidential Information shall only be used for the purposes comprised by the fulfilment of this Service Agreement. Each Party will keep in confidence any Confidential Information obtained in relation to this Service Agreement and will not divulge the same to any Third Party, unless the exceptions specifically set forth below in this Section 13.2 below apply, in order to obtain patent protection or when approved by the other Party in writing, and with the exception of their own officers, employees, consultants or sub-contractors with a need to know as to enable such personnel to perform their duties hereunder. This provision will not apply to Confidential Information which the Receiving Party can demonstrate:

- (a) was in the public domain other than by breach of this undertaking, or by another confidentiality undertaking;
- (b) was already in the possession of the Receiving Party before its receipt from the Disclosing Party;
- (c) is obtained from a Third Party who is free to divulge the same;
- (d) is required to be disclosed by mandatory law, court order, lawful government action or applicable stock exchange regulations;
- (e) is reasonably necessary for either Party to utilize its rights and use of its Intellectual Property Rights; or
- (f) is developed or created by one Party independently of the other, without any part thereof having been developed or created with assistance or information received from the other Party.

13.3 The Receiving Party shall protect the disclosed Confidential Information by using the same degree of care, but no less than a reasonable degree of care, as the Receiving Party uses to protect its own Confidential Information of similar nature, to prevent the dissemination to Third Parties or publication of the Confidential Information. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 13.

- 13.4 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as "Confidential," "Proprietary" or the substantial equivalent thereof. Confidential Information that is disclosed orally or visually shall be identified by the Disclosing Party as confidential at the time of disclosure, with subsequent confirmation in writing within 30 days after disclosure. However, the lack of marking or subsequent confirmation that the disclosed information shall be regarded as "Confidential", "Proprietary" or the substantial equivalent thereof does not disqualify the disclosed information from being classified as Confidential Information.
- 13.5 If any Party violates any of its obligations described in this Section 13, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behaviour and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 17.2 below. All legal remedies (compensatory but not punitive in nature) according to law shall apply.
- 13.6 For the avoidance of doubt, this Section 13 does not permit disclosure of source code to software, and/or any substantial parts of design documents to software, included in the Results, to any Third Party, notwithstanding what is set forth above in this Section 13. Any such disclosure to any Third Party is permitted only if approved in writing by Service Provider.
- 13.7 This confidentiality provision shall survive the expiration or termination of this Service Agreement without limitation in time.

14. TERM AND TERMINATION

- 14.1 This Service Agreement shall become effective when the Main Document is signed by duly authorised signatories of each Party and shall remain in force until terminated by either Party in accordance with this Section 14 below.
- 14.2 Either Party shall be entitled to terminate this Service Agreement with immediate effect in the event:
- (a) the other Party commits a material breach of the terms of this Service Agreement, which has not been remedied within 30 days from written notice from the other Party to remedy such breach (if capable of being remedied); or
 - (b) if the other Party should become insolvent or enter into negotiations on composition with its creditors or a petition in bankruptcy should be filed by it or it should make an assignment for the benefit of its creditors.
- 14.3 For avoidance of doubt, Purchaser not paying the Service Charges, without legitimate reasons for withholding payment, shall be considered in material breach for the purpose of this Service Agreement.
- 14.4 Furthermore, Purchaser is entitled to terminate this Service Agreement with immediate effect in case Service Provider acts in breach, which is not insignificant, of what is set forth in Section 4.3 and 4.4 provided that the issue first has been escalated in accordance with Section 17.1.
- 14.5 Either Party shall in addition be entitled to terminate the Service Agreement for convenience upon 90 days written notice to the other Party.
- 14.6 In the event Purchaser cancels the Services in accordance with Section 14.5 above, the Service Charges shall, in addition to what is set out in the Main Document, include any other reasonable proven costs Service Provider has incurred until the effective date of the cancellation.

15. MISCELLANEOUS**15.1 Force majeure.**

15.1.1 Neither Party shall be liable for any failure or delay in performing its obligations under the Service Agreement to the extent that such failure or delay is caused by a Force Majeure Event. A “**Force Majeure Event**” means any event beyond a Party’s reasonable control, which by its nature could not have been foreseen, or, if it could have been foreseen, was unavoidable, including strikes, lock-outs or other industrial disputes (whether involving its own workforce or a Third Party’s), failure of energy sources or transport network, restrictions concerning motive force, acts of God, war, terrorism, insurgencies and riots, civil commotion, mobilization or extensive call ups, interference by civil or military authorities, national or international calamity, currency restrictions, requisitions, confiscation, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, sonic boom, explosions, collapse of building structures, fires, floods, storms, stroke of lightning, earthquakes, loss at sea, epidemics or similar events, natural disasters or extreme adverse weather conditions, or default or delays of suppliers or subcontractors if such default or delay has been caused by a Force Majeure Event.

15.1.2 A non-performing Party, which claims there is a Force Majeure Event, and cannot perform its obligations under the Service Agreement as a consequence thereof, shall use all commercially reasonable efforts to continue to perform or to mitigate the impact of its non-performance notwithstanding the Force Majeure Event and shall continue the performance of its obligations as soon as the Force Majeure Event ceases to exist.

15.2 **Notices.** All notices, demands, requests and other communications to any Party as set forth in, or in any way relating to the subject matter of, this Service Agreement must be in legible writing in the English language delivered by personal delivery, email transmission or prepaid overnight courier using an internationally recognized courier service and shall be effective upon receipt, which shall be deemed to have occurred:

- (a) in case of personal delivery, at the time and on the date of personal delivery;
- (b) if sent by email transmission, at the time and date indicated on a response confirming such successful email transmission;
- (c) if delivered by courier, at the time and on the date of delivery as confirmed in the records of such courier service; or
- (d) at such time and date as delivery by personal delivery or courier is refused by the addressee upon presentation;

in each case provided that if such receipt occurred on a non-business day, then notice shall be deemed to have been received on the next following business day; and provided further that where any notice, demand, request or other communication is provided by any party by email, such party shall also provide a copy of such notice, demand, request or other communication by using one of the other methods. All such notices, demands, requests and other communications shall be addressed to the address, and with the attention, as set forth in the Main Document, or to such other address, number or email address as a Party may designate.

15.3 Assignment.

15.3.1 Neither Party may, wholly or partly, assign, pledge or otherwise dispose of its rights and/or obligations under this Service Agreement without the other Party’s prior written consent.

- 15.3.2 Notwithstanding the above, each Party may assign this Service Agreement to an Affiliate without the prior written consent of the other Party.
- 15.4 **Waiver.** Neither Party shall be deprived of any right under this Service Agreement because of its failure to exercise any right under this Service Agreement or failure to notify the infringing party of a breach in connection with the Service Agreement. Notwithstanding the foregoing, rules on complaints and limitation periods shall apply.
- 15.5 **Severability.** In the event any provision of this Service Agreement is wholly or partly invalid, the validity of the Service Agreement as a whole shall not be affected and the remaining provisions of the Service Agreement shall remain valid. To the extent that such invalidity materially affects a Party's benefit from, or performance under, the Service Agreement, it shall be reasonably amended.
- 15.6 **Entire agreement.** All arrangements, commitments and undertakings in connection with the subject matter of this Service Agreement (whether written or oral) made before the date of this Service Agreement are superseded by this Service Agreement and its Appendices.
- 15.7 **Amendments.** Any amendment or addition to this Service Agreement must be made in writing and signed by the Parties to be valid.
- 15.8 Survival.**
- 15.8.1 If this Service Agreement is terminated or expires pursuant to Section 14 above, Section 5.3 (*License grant*), Section 13 (*Confidentiality*), Section 16 (*Governing Law*), Section 17 (*Dispute Resolution*) as well as this Section 15.8, shall survive any termination or expiration and remain in force as between the Parties after such termination or expiration.
- 15.8.2 Notwithstanding Section 15.8.1 above, if this Service Agreement is terminated due to Purchaser not paying the Service Charges, without legitimate reasons for withholding payment, pursuant to Section 14 above, Section 5.3 (*License Grant*) shall not survive termination or remain in force as between the Parties after such termination. For the avoidance of doubt, what is stated in this Section 15.8.2 shall only apply in relation to such licenses granted to Purchaser pursuant to Section 5.3 above and any licenses granted to Service Provider under Section 5.3 shall thus nevertheless remain in force after such termination.
- 16. GOVERNING LAW**
- 16.1 This Service Agreement and all non-contractual obligations in connection with this Service Agreement shall be governed by the substantive laws of Sweden, without giving regard to its conflict of laws principles.
- 17. DISPUTE RESOLUTION**
- 17.1 Escalation principles.**
- 17.1.1 In case the Parties cannot agree on a joint solution for handling disagreements or disputes, a deadlock situation shall be deemed to have occurred and each Party shall notify the other Party hereof by the means of a deadlock notice and simultaneously send a copy of the notice to the Steering Committee. Upon the receipt of such a deadlock notice, the receiving Party shall within ten days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.

- 17.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. As part thereof, the Steering Committee may request the Parties to in good faith develop and agree on a plan to resolve or address the breach, to be presented for the Steering Committee without undue delay. If the Steering Committee agrees upon a resolution or disposition of the matter, the Parties shall agree in writing on terms of such resolution or disposition and the Parties shall procure that such resolution or disposition is fully and promptly carried into effect.
- 17.1.3 If the Steering Committee cannot settle the deadlock within 30 days from the deadlock notice pursuant to the section above, despite using reasonable endeavours to do so, such deadlock will be referred to the Strategic Board for decision. If no Steering Committee has been established between the Parties, the relevant issue shall be referred to the Strategic Board. Should the matter not have been resolved by the Strategic Board within 30 days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section 17.2 below.
- 17.1.4 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 13 above.
- 17.1.5 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 17.1 and apply shorter time frames and/or escalate an issue directly to the Strategic Board in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.

17.2 Arbitration.

- 17.2.1 Any dispute, controversy or claim arising out of or in connection with this Agreement, or the breach, termination or invalidity thereof, shall be finally settled by arbitration in accordance with the Arbitration Rules of the Arbitration Institute of the Stockholm Chamber of Commerce, whereas the seat of arbitration shall be Gothenburg, Sweden, the language to be used in the arbitral proceedings shall be English, and the arbitral tribunal shall be composed of three arbitrators.
- 17.2.2 Irrespective of any discussions or disputes between the Parties, each Party shall always continue to fulfil its undertakings under this Agreement unless an arbitral tribunal or court (as the case may be) decides otherwise.
- 17.2.3 In any arbitration proceeding, any legal proceeding to enforce any arbitration award, or any other legal proceedings between the Parties relating to this Agreement, each Party expressly waives the defence of sovereign immunity and any other defence based on the fact or allegation that it is an agency or instrumentality of a sovereign state. Such waiver includes a waiver of any defence of sovereign immunity in respect of enforcement of arbitral awards and/or sovereign immunity from execution over any of its assets.
- 17.2.4 All arbitral proceedings as well as any and all information, documentation and materials in any form disclosed in the proceedings shall be strictly confidential.

EUROPEAN CO2 EMISSION CREDITS 2020 PAYMENT AGREEMENT

This European CO2 Emission Credit Payment Agreement is between

1. PARTIES

Volvo Car Corporation, reg. no. 556074-3089, a corporation organized and existing under the laws of Sweden ("Volvo Cars"), and Polestar Performance AB, reg. no. 556653-3096, a corporation organized and existing under the laws of Sweden ("Polestar").

2. BACKGROUND

- A. Volvo Cars and Polestar have reduced their joint European CO2 emissions for 2020, resulting in a surplus of CO2 credits that can be traded with other carmakers. The so-called pooling system under the Regulation is a way for over-achieving manufacturers to create an income for the European CO2 credits by offering credits to companies that are falling short of their own target. Volvo Cars has entered into a Pooling Agreement for this purpose.
- B. Since Polestar is contributing to the European CO2 credits in the Pooling Agreement, its share of the contribution will be compensated by Volvo Cars according to the terms and conditions set forth in this Agreement.
- C. Now, therefore, the Parties agree as follows:

3. DEFINITIONS

Front page definitions. The terms Volvo Cars and Polestar shall have the meaning as set out in Section 1 of this Agreement.

Agreement means this agreement.

Confidential Information means any and all non-public information regarding the Parties and their respective businesses, whether commercial or technical, in whatever form or media, including but not limited to the existence, content and subject matter of this Agreement that a Party learns from or about the other Party prior to or after the execution of this Agreement.

Disclosing Party means the Party disclosing Confidential Information to the Receiving Party.

Parties means Volvo Cars and Polestar and **Party** means either Volvo Cars or Polestar.

Pooling Agreement means the Open Pool Commercial Agreement between Volvo Car Corporation and [**]

Receiving Party means the Party receiving Confidential Information from the Disclosing Party.

Regulation means Regulation (EU) 2019/631 of the European Parliament and the Council of 17 April 2019 setting CO2 emission performance standards for new passenger cars and for new light commercial vehicles.

Steering Committee means the Volvo Polestar EU CO2 Meeting, and the participants are Volvo Cars Head of Strategy and Business Ownership [***] and Polestar COO (Dennis Nobelius). The Steering Committee shall be the first level of governance forum established by the Parties for handling the cooperation between them in respect of various matters.

Strategic Board means the so called Volvo Polestar Executive Meeting. The Strategic Board shall be the highest level of governance forum established by the Parties for handling the cooperation between them in respect of various matters.

Third Party means a party other than any of the Parties.

Volvo Cars Credits means the European CO2 emission credits, regular and super credits, generated by Volvo Cars and partly based on Polestar branded vehicles, for the calendar year 2020 that Volvo Cars will make available under the Pooling Agreement.

4. POLESTAR COMPENSATION

- 4.1 Since the Volvo Cars Credits are partly based on Polestar branded vehicles, the Parties have agreed that Volvo Cars shall pay a compensation to Polestar for its contribution of CO2 emission credits (the **"Polestar Compensation"**).
- 4.2 The Polestar Compensation will be calculated based on the value of the Volvo Cars Credits under the Pooling Agreement and the Polestar Share (as defined in Section 4.3 below) thereof.
- 4.3 The calculation of the Polestar Share is based on the proportional contribution from Polestar branded vehicles to the Volvo Cars Credits. The Volvo Cars Credits include both regular and super credits, and the Polestar Share is not affected by the split between regular and super credits in the trading under the Pooling Agreement. The calculation below is showing an example of the method to calculate the Polestar Share:

5. PROVISIONAL AND FINAL CALCULATION AND SETTLEMENT

- 5.1 This section sets out the conditions and process for the preliminary and final calculation of the Volvo Cars Credits and their monetary value under the Pooling Agreement as well the calculation and settlement of the provisional and final Polestar Compensation.
- 5.2 Volvo Cars will inform Polestar about the outcome of the preliminary calculation of the Polestar Compensation and the potential final adjustment without undue delay. Any questions or comments Polestar may have on the information received under this section may be brought forward in accordance with the escalation principles in Section 10.1 below.
- 5.3 Polestar Provisional Compensation
 - 5.3.1 The preliminary calculation of the Volvo Cars Credits and their preliminary monetary value under the Pooling Agreement is estimated to be finalized in Q1 2021. The outcome of this calculation will be the **"Provisional Settlement Amount"**.
 - 5.3.2 Volvo Cars will calculate the preliminary Polestar Compensation (the **"Polestar Provisional Compensation"**) based on the preliminary Polestar Share of the Provisional Settlement Amount.
 - 5.3.3 Volvo Cars shall inform Polestar about the Provisional Settlement Amount and the Polestar Provisional Compensation within five business days after it has received the Provisional Settlement Amount on its account. Volvo Cars shall then pay to Polestar the Polestar Provisional Compensation in accordance with Section 6,1 below.

- 5.4 Polestar Final Compensation
- 5.4.1 It is understood between the Parties that the Provisional Settlement Amount is only a preliminary amount that is subject to adjustment (up or down) under the Pooling Agreement and that such adjustment is estimated to be finalized in Q4 2021. This adjusted Provisional Settlement Amount will be the **“Final Settlement Amount”**. The adjustment will be based on the so-called published list issued by the European Commission according to the Regulation and from that following relevant adjustments between the parties in the Pooling Agreement.
- 5.4.2 Volvo Cars will calculate the final Polestar Compensation (the **“Polestar Final Compensation”**) based on the final Polestar Share of the Final Settlement Amount.
- 5.4.3 If the Polestar Final Compensation is more than the Polestar Provisional Compensation, Volvo Cars shall pay to Polestar, in accordance with Section 6.2 below, the difference between the Polestar Provisional Compensation and the Polestar Final Compensation (the **“Polestar Surplus Amount”**). Volvo Cars shall inform Polestar about the Final Settlement Amount and the Polestar Surplus Amount within five business days after it has received the Final Settlement Amount on its account.
- 5.4.4 If the Polestar Final Compensation is less than the Polestar Provisional Compensation, Polestar shall pay to Volvo Cars in accordance with Section 6.3 below, the difference between the Polestar Provisional Compensation and the Polestar Final Compensation (the **“Polestar Shortfall Amount”**). Volvo Cars shall inform Polestar about the Final Settlement Amount and the Polestar Shortfall Amount within five business days after it has received notice of the Final Settlement Amount under the Pooling Agreement.
- 5.5 Payments As further specified in this Section 5, the Volvo Cars Credits are subject to potential adjustments under the Pooling Agreement and because of that, the Polestar Share might be adjusted as well. Therefore, the payments to be made under this Agreement are divided into a provisional and a final amount. Furthermore, the monetary value of the Volvo Cars Credits is not yet set on the date of this Agreement and therefore it is not possible to state any amounts in this Agreement.

6. PAYMENT TERMS

- 6.1 Polestar shall invoice the Polestar Provisional Compensation to Volvo Cars within 30 days following the date that Volvo Cars has informed Polestar in accordance with Section 5.3.3 above.
- 6.2 If there is a Polestar Surplus Amount, Polestar shall invoice this Polestar Surplus Amount to Volvo Cars within 30 days following the date that Volvo Cars has informed Polestar in accordance with Section 5.4.3 above.
- 6.3 If there is a Polestar Shortfall Amount, Volvo Cars shall invoice this Polestar Shortfall Amount to Polestar within 30 days following the date that Volvo Cars has informed Polestar in accordance with Section 5.4.4 above.
- 6.4 All payments shall be made by the respective Party upon receipt of an invoice issued by the other Party.

- 6.5 All invoices issued by Polestar shall be send directly and only to: [***].
- 6.6 All invoices issued by Volvo Cars shall be send directly and only to: [***].
- 6.7 All invoices and payments shall be made in the currency: EUR.
- 6.8 All payments under this Agreement are exclusive of Value Added Tax and should not be considered as subject to Value Added Tax. Polestar shall disclose the transaction by submitting a notification describing the transaction to the Swedish Tax Agency once Polestar has received the first payment.
- 6.9 Any amount invoiced shall be paid without undue delay, however at the latest within 20 days after the invoice date.
- 6.10 Payment made later than the due date will automatically be subject to interest for late payments for each day it is not paid, and the interest shall be based on the one-month applicable interbank rate with an addition of two per cent (2.0%) per annum.

7. AUDIT

- 7.1 Polestar shall have the right to, upon reasonable notice in writing to Volvo Cars, inspect Volvo Cars' books and records related to the Provisional Settlement Amount and the Final Settlement Amount in order to verify the statements rendered under this Agreement.
- 7.2 Audits shall be made during regular business hours and be conducted by Polestar or by an independent auditor appointed by Polestar. Should Polestar during any inspection find that Volvo Cars did not fulfil the requirements set forth herein, Polestar is entitled to comment on the identified deviations and escalate such issues to the Steering Committee.

8. CONFIDENTIAL INFORMATION

- 8.1 The Parties shall take any and all necessary measures to comply with the security and confidentiality procedures of the other Party.
- 8.2 All Confidential Information shall only be used for the purposes comprised by the fulfilment of this Agreement. Each Party will keep in confidence any Confidential Information obtained in relation to this Agreement and will not divulge the same to any Third Party, unless the exceptions specifically set forth below in this Section 8.2 below apply or when approved by the other Party in writing, and with the exception of their own officers, employees, consultants or sub-contractors with a need to know as to enable such personnel to perform their duties hereunder. This provision will not apply to Confidential information which the Receiving Party can demonstrate:
 - (a) was in the public domain other than by breach of this undertaking, or by another confidentiality undertaking;
 - (b) was already in the possession of the Receiving Party before its receipt from the Disclosing Party;
 - (c) is obtained from a Third Party who is free to divulge the same; or
 - (d) is required to be disclosed by mandatory law, court order, lawful government action or applicable stock exchange regulations.

- 8.3 The Receiving Party shall protect the disclosed Confidential Information by using the same degree of care, but no less than a reasonable degree of care, as the Receiving Party uses to protect its own Confidential Information of similar nature, to prevent the dissemination to Third Parties or publication of the Confidential Information. Further, each Party shall ensure that its employees and consultants are bound by a similar duty of confidentiality and that any subcontractors taking part in the fulfilment of that Party's obligations hereunder, enters into a confidentiality undertaking containing in essence similar provisions as those set forth in this Section 8.
- 8.4 Any tangible materials that disclose or embody Confidential Information should be marked by the Disclosing Party as "Confidential," "Proprietary" or the substantial equivalent thereof. Confidential Information that is disclosed orally or visually shall be identified by the Disclosing Party as confidential at the time of disclosure, with subsequent confirmation in writing within 30 days after disclosure. However, the lack of marking or subsequent confirmation that the disclosed information shall be regarded as "Confidential", "Proprietary" or the substantial equivalent thereof does not disqualify the disclosed information from being classified as Confidential Information.
- 8.5 If any Party violates any of its obligations described in this Section 8, the violating Party shall, upon notification from the other Party, (i) immediately cease to proceed such harmful violation and take all actions needed to rectify said behaviour and (ii) financially compensate for the harm suffered as determined by an arbitral tribunal pursuant to Section 9.10.2 below. All legal remedies (compensatory but not punitive in nature) according to law shall apply.
- 8.6 This confidentiality provision shall survive the expiration or termination of this Agreement without limitation in time.

9. GOVERNING LAW

- 9.1 This Agreement and all non-contractual obligations in connection with this Agreement shall be governed by the substantive laws of Sweden without giving regard to its conflict of laws principles.

10. DISPUTE RESOLUTION

- 10.1 Escalation principles.
- 10.1.1 In case the Parties cannot agree on a joint solution for handling disagreements or disputes, a deadlock situation shall be deemed to have occurred and each Party shall notify the other Party hereof by the means of a deadlock notice and simultaneously send a copy of the notice to the Steering Committee. Upon the receipt of such a deadlock notice, the receiving Party shall within ten days of receipt, prepare and circulate to the other Party a statement setting out its position on the matter in dispute and reasons for adopting such position, and simultaneously send a copy of its statement to the Steering Committee. Each such statement shall be considered by the next regular meeting held by the Steering Committee or in a forum meeting specifically called upon by either Party for the settlement of the issue.
- 10.1.2 The members of the Steering Committee shall use reasonable endeavours to resolve a deadlock situation in good faith. As part thereof, the Steering Committee may request the Parties to in good faith develop and agree on a plan to resolve or address the breach, to be presented for the Steering Committee without undue delay. If the Steering Committee agrees upon a resolution or disposition of the matter, the Parties shall agree in writing on terms of such resolution or disposition and the Parties shall procure that such resolution or disposition is fully and promptly carried into effect.

- 10.1.3 If the Steering Committee cannot settle the deadlock within 30 days from the deadlock notice pursuant to the section above, despite using reasonable endeavours to do so, such deadlock will be referred to the Strategic Board for decision. If no Steering Committee has been established between the Parties, the relevant issue shall be referred to the Strategic Board. Should the matter not have been resolved by the Strategic Board within 30 days counting from when the matter was referred to them, despite using reasonable endeavours to do so, the matter shall be resolved in accordance with Section 10.2 below.
- 10.1.4 All notices and communications exchanged in the course of a deadlock resolution proceeding shall be considered Confidential Information of each Party and be subject to the confidentiality undertaking in Section 8 above.
- 10.1.5 Notwithstanding the above, the Parties agree that either Party may disregard the time frames set forth in this Section 10.1 and apply shorter time frames and/or escalate an issue directly to the Strategic Board in the event the escalated issue is of an urgent character and where the applicable time frames set out above are not appropriate.

10.2 Arbitration.

- 10.2.1 Any dispute, controversy or claim arising out of or in connection with this Agreement, or the breach, termination or invalidity thereof, shall be finally settled by arbitration in accordance with the Arbitration Rules of the Arbitration Institute of the Stockholm Chamber of Commerce, whereas the seat of arbitration shall be Gothenburg, Sweden, the language to be used in the arbitral proceedings shall be English, and the arbitral tribunal shall be composed of three arbitrators.
- 10.2.2 Irrespective of any discussions or disputes between the Parties, each Party shall always continue to fulfil its undertakings under this Agreement unless an arbitral tribunal or court (as the case may be) decides otherwise.
- 10.2.3 In any arbitration proceeding, any legal proceeding to enforce any arbitration award, or any other legal proceedings between the Parties relating to this Agreement, each Party expressly waives the defence of sovereign immunity and any other defence based on the fact or allegation that it is an agency or instrumentality of a sovereign state. Such waiver includes a waiver of any defence of sovereign immunity in respect of enforcement of arbitral awards and/or sovereign immunity from execution over any of its assets.
- 10.2.4 All arbitral proceedings as well as any and all information, documentation and materials in any form disclosed in the proceedings shall be strictly confidential.

All such notices, demands, requests and other communications shall be addressed to the address, and with the attention, as set forth in the Main Document, or to such other address, number or email address as a Party may designate.

For the avoidance of doubt, what is stated in this Section 15.8.2 shall only apply in relation to such licenses granted to Purchaser pursuant to Section 5.3 above and any licenses granted to Service Provider under Section 5.3 shall thus nevertheless remain in force after such termination.

Notwithstanding the foregoing, rules on complaints and limitation periods shall apply.
- 15.5 Severability. In the event any provision of this Service Agreement is wholly or partly invalid, the validity of the Service Agreement as a whole shall not be affected and the remaining provisions of the Service Agreement shall remain valid. For the avoidance of doubt, what is stated in this Section 15.8.2 shall only apply in relation to such licenses granted to Purchaser pursuant to Section 5.3 above and any licenses granted to Service Provider under Section 5.3 shall thus nevertheless remain in force after such termination.

Notwithstanding the foregoing, rules on complaints and limitation periods shall apply.
- 15.5 **Severability.** In the event any provision of this Service Agreement is wholly or partly invalid, the validity of the Service Agreement as a whole shall not be affected and the remaining provisions of the Service Agreement shall remain valid. To the extent that such invalidity materially affects a Party's benefit from, or performance under, the Service Agreement, it shall be reasonably amended.
- 15.6 **Entire agreement.** All arrangements, commitments and undertakings in connection with the subject matter of this Service Agreement (whether written or oral) made before the date of this Service Agreement are superseded by this Service Agreement and its Appendices.
- 15.7 **Amendments.** Any amendment or addition to this Service Agreement must be made in writing and signed by the Parties to be valid.

For the avoidance of doubt, what is stated in this Section 15.8.2 shall only apply in relation to such licenses granted to Purchaser pursuant to Section 5.3 above and any licenses granted to Service Provider under Section 5.3 shall thus nevertheless remain in force after such termination.
- 16. GOVERNING LAW**

Re: **Polestar Automotive Holding UK Limited**
Amendment No. 1 to Registration Statement on Form F-4
Request for Waiver and Representation under Item 8.A.4 of Form 20-F

Ladies and Gentlemen:

The undersigned, Polestar Automotive Holding UK Limited, a limited company incorporated under the laws of England and Wales (the "Company"), is submitting this letter via EDGAR to the Securities and Exchange Commission (the "Commission") in connection with the submission by the Company on the date hereof of its Amendment No. 2 to Registration Statement on Form F-4 (the "Amendment No. 2"), including a prospectus of the Company with respect to Post-Combination Company Shares and Post-Combination Company Warrants underlying ADSs and ADWs to be issued to the GGI Shareholders in connection with the proposed business combination with Gores Guggenheim, Inc. Terms used herein have the meaning ascribed to them in Amendment No. 2.

The Company's prospectus included in the Amendment No. 2 presents the audited financial statements of Polestar Automotive Holding Limited, a Hong Kong incorporated company, prepared in accordance with the International Financial Reporting Standards, as of and for each of the years-ended December 31, 2020 and 2019 and unaudited condensed financial statements as of and for each of the six-month periods ended June 30, 2021 and 2020 .

The Company respectfully requests that the Commission waive the requirement of Item 8.A.4 of Form 20-F (the "Waiver Request"), which states that in the case of an initial public offering by a foreign private issuer, the registration statement on Form F-4 must contain audited financial statements of a date not older than 12 months from the date of the filing (the "12-Month Requirement").

The Company is submitting this Waiver Request pursuant to Instruction 2 to Item 8.A.4 of Form 20-F, which provides that the Commission will waive the 12-Month Requirement "if the Company is able to represent that it is not required to comply with the 12-month requirement in any other jurisdiction outside the United States and that complying with the 12-month requirement is impracticable or involves undue hardship." In addition, in International Reporting and Disclosure Issues in the Division of Corporation Finance, dated November 1, 2004 (available on the Commission's website at <http://www.sec.gov/divisions/corpfin/internat/cfirdissues1104.htm>), at Section III. B. c), staff of the Commission notes that:

"the instruction indicates that the staff will waive the 12-month requirement where it is not applicable in the registrant's other filing jurisdictions and is impracticable or involves undue hardship. As a result, we expect that the vast majority of IPOs will be subject only to the 15-month rule. The only times that we anticipate audited financial statements will be filed under the 12-month rule are when the registrant must comply with the rule in another jurisdiction, or when those audited financial statements are otherwise readily available."

In connection with the Waiver Request, the Company represents to the Commission that:

1. The Company is not currently a public reporting company in any jurisdiction.
2. The Company is not required by any jurisdiction outside the United States to prepare consolidated financial statements audited under any generally accepted auditing standards for any interim period.
3. Full compliance with Item 8.A.4 of Form 20-F at present is impracticable and involves undue hardship for the Company.
4. The Company does not anticipate that its audited financial statements for the year ended December 31, 2021 will be available until March 2022.
5. In no event will the Company seek effectiveness of its registration statement on Form F-4 if its audited financial statements are older than 15 months at the time of the Company's initial public offering.

Sincerely,

POLESTAR AUTOMOTIVE HOLDING UK LIMITED
